

Supplemental Listing Document

If you are in any doubt as to any aspect of this document, you should consult your stockbroker or other registered dealer in securities, bank manager, solicitor, accountant or other professional adviser.

Application has been made to the Singapore Exchange Securities Trading Limited (the “**SGX-ST**”) for permission to deal in and for quotation of the Certificates (as defined below). The SGX-ST assumes no responsibility for the correctness of any statements made or opinions or reports expressed in this document, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document. Admission to the Official List of the SGX-ST is not to be taken as an indication of the merits of SG Issuer, Société Générale, the Certificates, or the Company (as defined below).

**2,700,000 European Style Cash Settled Short Certificates
relating to the Common Stock of Microsoft Corporation
with a Daily Leverage of -3x**

issued by

SG Issuer

(Incorporated in Luxembourg with limited liability)

unconditionally and irrevocably guaranteed by

Société Générale

Issue Price: S\$4.00 per Certificate

This document is published for the purpose of obtaining a listing of all the above certificates (the “**Certificates**”) to be issued by SG Issuer (the “**Issuer**”) unconditionally and irrevocably guaranteed by Société Générale (the “**Guarantor**”), and is supplemental to and should be read in conjunction with a base listing document dated 14 June 2024 including such further base listing documents as may be issued from time to time, as supplemented by an addendum dated 30 September 2024 (the “**Base Listing Document**”), for the purpose of giving information with regard to the Issuer, the Guarantor and the Certificates. Information relating to the Company (as defined below) is contained in this document.

This document does not constitute or form part of any offer, or invitation, to subscribe for or to sell, or solicitation of any offer to subscribe for or to purchase, Certificates or other securities of the Issuer, nor is it calculated to invite, nor does it permit the making of, offers by the public to subscribe for or purchase for cash or other consideration the Certificates or other securities of the Issuer.

Restrictions have been imposed on offers and sales of the Certificates and on distributions of documents relating thereto in Singapore, Hong Kong, the European Economic Area, the United Kingdom and the United States (see “Placing and Sale” contained herein).

The Certificates are complex products. You should exercise caution in relation to them. Investors are warned that the price of the Certificates may fall in value as rapidly as it may rise and holders may sustain a total loss of their investment. The price of the Certificates also depends on the supply and demand for the Certificates in the market and the price at which the Certificates is trading at any time may differ from the underlying valuation of the Certificates because of market inefficiencies. It is not possible to predict the secondary market for the Certificates. Although the Issuer, the Guarantor and/or any of their affiliates may from time to time purchase the Certificates or sell additional Certificates on the market, the Issuer, the Guarantor and/or any of their affiliates are not obliged to do so. Investors should also note that there are leveraged risks because the Certificates integrate an inverse leverage mechanism and the Certificates will amplify the movements in the increase, and in the decrease, of the value of the Underlying Stock (as defined below) and if the investment results in a loss, any such loss will be increased by the leverage factor of the Certificates. As such, investors could lose more than they would if they had invested directly in the Underlying Stock.

The Certificates are classified as capital markets products other than prescribed capital markets products¹ and Specified Investment Products (SIPs)², and may only be sold to retail investors with enhanced safeguards, including an assessment of such investors' investment knowledge or experience.

The Certificates constitute general unsecured obligations of the Issuer (in the case of any substitution of the Issuer in accordance with the Conditions of the Certificates, the Substituted Obligor as defined in the Conditions of the Certificates) and of no other person, and the guarantee dated 14 June 2024 (the "**Guarantee**") and entered into by the Guarantor constitutes direct unconditional unsecured senior preferred obligations of the Guarantor and of no other person, and if you purchase the Certificates, you are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights under the Certificates against any other person.

Application has been made to the SGX-ST for permission to deal in and for quotation of the Certificates and the SGX-ST has agreed in principle to grant permission to deal in and for quotation of the Certificates. It is expected that dealings in the Certificates will commence on or about 8 October 2024.

As of the date hereof, the Guarantor's long term credit rating by S&P Global Ratings is A, and by Moody's Investors Service, Inc. is A1.

The Issuer is regulated by the Luxembourg Commission de Surveillance du Secteur Financier on a consolidated basis and the Guarantor is regulated by, *inter alia*, the Autorité des Marchés Financiers, the Autorité de Contrôle Prudentiel et de Résolution and the European Central Bank.

7 October 2024

¹ As defined in the Securities and Futures (Capital Markets Products) Regulations 2018.

² As defined in the MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products.

Subject as set out below, the Issuer and the Guarantor accept full responsibility for the accuracy of the information contained in this document and the Base Listing Document in relation to themselves and the Certificates. To the best of the knowledge and belief of the Issuer and the Guarantor (each of which has taken all reasonable care to ensure that such is the case), the information contained in this document and the Base Listing Document for which they accept responsibility (subject as set out below in respect of the information contained herein with regard to the Company) is in accordance with the facts and does not omit anything likely to affect the import of such information. The information with regard to the Company as set out herein is extracted from publicly available information. The Issuer and the Guarantor accept responsibility only for the accurate reproduction of such information. No further or other responsibility or liability in respect of such information is accepted by the Issuer and the Guarantor.

No person has been authorised to give any information or to make any representation other than those contained in this document in connection with the offering of the Certificates, and, if given or made, such information or representations must not be relied upon as having been authorised by the Issuer or the Guarantor. Neither the delivery of this document nor any sale made hereunder shall under any circumstances create any implication that there has been no change in the affairs of the Issuer, the Guarantor or their respective subsidiaries and associates since the date hereof.

This document does not constitute an offer or invitation by or on behalf of the Issuer or the Guarantor to purchase or subscribe for any of the Certificates. The distribution of this document and the offering of the Certificates may, in certain jurisdictions, be restricted by law. The Issuer and the Guarantor require persons into whose possession this document comes to inform themselves of and observe all such restrictions. In particular, the Certificates and the Guarantee have not been and will not be registered under the United States Securities Act of 1933, as amended or any state securities law, and trading in the Certificates has not been approved by the United States Commodity Futures Trading Commission (the “**CFTC**”) under the United States Commodity Exchange Act of 1936, as amended and the Issuer has not been and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder. None of the Securities and Exchange Commission, any state securities commission or regulatory authority or any other United States, French or other regulatory authority has approved or disapproved of the Certificates or the Guarantee or passed upon the accuracy or adequacy of this document. Accordingly, Certificates, or interests therein, may not at any time be offered, sold, resold, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, nor may any U.S. person at any time trade, own, hold or maintain a position in the Certificates or any interests therein. In addition, in the absence of relief from the CFTC, offers, sales, re-sales, trades, pledges, exercises, redemptions, transfers or deliveries of Certificates, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, may constitute a violation of United States law governing commodities trading and commodity pools. Consequently, any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person will not be recognised. A further description of certain restrictions on offering and sale of the Certificates and distribution of this document is given in the section headed “Placing and Sale” contained herein.

The SGX-ST has made no assessment of, nor taken any responsibility for, the financial soundness of the Issuer or the Guarantor or the merits of investing in the Certificates, nor have they verified the accuracy or the truthfulness of statements made or opinions expressed in this document.

The Issuer, the Guarantor and/or any of their affiliates may repurchase Certificates at any time on or after the date of issue and any Certificates so repurchased may be offered from time to time in one or more transactions in the over-the-counter market or otherwise at prevailing market

prices or in negotiated transactions, at the discretion of the Issuer, the Guarantor and/or any of their affiliates. Investors should not therefore make any assumption as to the number of Certificates in issue at any time.

References in this document to the “**Conditions**” shall mean references to the Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities contained in the Base Listing Document. Terms not defined herein shall have the meanings ascribed thereto in the Conditions.

RISK FACTORS

The following are risk factors relating to the Certificates:

- (a) in respect of certain corporate adjustment events on the Underlying Stock, trading in the Certificates may be suspended on the relevant ex-date of the Underlying Stock and trading in the Certificates will resume on the next immediate trading day on the SGX-ST. Please note that trading in the Certificates on the SGX-ST may be suspended for more than one trading day in certain circumstances;
- (b) circuit breakers are automatic mechanisms adopted in the U.S. stock market. Circuit breakers are invoked if the stock markets experience extreme broad-based declines or extreme volatility within a single stock, which are designed to slow the effects of extreme price movement through coordinated trading halts across securities markets in the U.S. stock market when severe price declines reach levels that may exhaust market liquidity.

Circuit breakers implemented by the Relevant Stock Exchange for the Underlying Stock may result in a temporary trading halt of the Underlying Stock on the Relevant Stock Exchange for the Underlying Stock, or under extreme circumstances, closure of the U.S. stock market (including all trading on the Relevant Stock Exchange for the Underlying Stock) before normal close of the trading session in the U.S. stock market.

Investors should be aware of the risk of potential high volatility in the trading prices of the Certificates upon commencement and throughout the trading hours of the SGX-ST on a trading day in Singapore in response to any overnight trigger of circuit breakers resulting in temporary trading halt of the Underlying Stock during the trading day of the Relevant Stock Exchange for the Underlying Stock immediately prior to such Singapore trading day;

- (c) investment in Certificates involves substantial risks including market risk, liquidity risk, and the risk that the Issuer and/or the Guarantor will be unable to satisfy its/their obligations under the Certificates. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Certificates. You should consider carefully whether Certificates are suitable for you in light of your experience, objectives, financial position and other relevant circumstances. Certificates are not suitable for inexperienced investors;
- (d) the Certificates constitute general unsecured obligations of the Issuer (in the case of any substitution of the Issuer in accordance with the Conditions of the Certificates, the Substituted Obligor as defined in the Conditions of the Certificates) and of no other person, and the Guarantee constitutes direct unconditional unsecured senior preferred obligations of the Guarantor and of no other person. In particular, it should be noted that the Issuer issues a large number of financial instruments, including Certificates, on a global basis and, at any given time, the financial instruments outstanding may be substantial. If you purchase the Certificates, you are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights under the Certificates against any other person;
- (e) since the Certificates relate to the price of the Underlying Stock, certain events relating to the Underlying Stock may cause adverse movements in the value and the price of the Underlying Stock, as a result of which, the Certificate Holders (as defined in the Conditions of the Certificates) may, in extreme circumstances, sustain a significant loss of their investment if the price of the Underlying Stock has risen sharply;
- (f) due to their nature, the Certificates can be volatile instruments and may be subject to considerable fluctuations in value. The price of the Certificates may fall in value as rapidly as

it may rise due to, including but not limited to, variations in the frequency and magnitude of the changes in the price of the Underlying Stock, the time remaining to expiry, the currency exchange rates and the creditworthiness of the Issuer and the Guarantor;

- (g) if, whilst any of the Certificates remain unexercised, trading in the Underlying Stock is suspended or halted on the relevant stock exchange, trading in the Certificates may be suspended for a similar period.

The suspension may be lifted and trading in the Underlying Stock may resume outside or during the trading hours of the SGX-ST. If trading in the Underlying Stock resumes, trading in the Certificates will resume either in accordance with the scheduled trading resumption timing (if any) as specified in the announcement(s) to be published in respect of the resumption of trading in the Underlying Stock. Please note that the price of the Certificates may be highly volatile following the resumption of trading in the Certificates;

- (h) as indicated in the Conditions of the Certificates and herein, a Certificate Holder must tender a specified number of Certificates at any one time in order to exercise. Thus, Certificate Holders with fewer than the specified minimum number of Certificates in a particular series will either have to sell their Certificates or purchase additional Certificates, incurring transactions costs in each case, in order to realise their investment;
- (i) investors should note that in the event of there being a Market Disruption Event (as defined in the Conditions) determination or payment of the Cash Settlement Amount (as defined in the Conditions) may be delayed, all as more fully described in the Conditions;
- (j) certain events relating to the Underlying Stock require or, as the case may be, permit the Issuer to make certain adjustments or amendments to the Conditions. Investors may refer to the Conditions 4 and 6 on pages 32 to 37 and the examples and illustrations of adjustments set out in the “Information relating to the European Style Cash Settled Short Certificates on Single Equities” section of this document for more information;
- (k) the Certificates are only exercisable on the Expiry Date and may not be exercised by Certificate Holders prior to such Expiry Date. Accordingly, if on the Expiry Date the Cash Settlement Amount is zero, a Certificate Holder will lose the value of his investment;
- (l) the total return on an investment in any Certificate may be affected by the Hedging Fee Factor (as defined below), Management Fee (as defined below) and Gap Premium (as defined below);
- (m) investors holding their position beyond market close of the SGX-ST should note that they would be required to bear the annualised cost which consists of the Management Fee and Gap Premium, which are calculated daily and applied to the value of the Certificates, as well as certain costs embedded within the Leverage Inverse Strategy (as described below) including the Stock Borrowing Cost (as defined below) and Rebalancing Cost (as defined below). Due to the difference in trading hours of the SGX-ST and the Relevant Stock Exchange for the Underlying Stock, unless investors exit their position within the same SGX-ST trading day, they would bear the annualised costs;
- (n) investors should note that there may be an exchange rate risk relating to the Certificates where the Cash Settlement Amount is converted from a foreign currency into Singapore dollars.

Exchange rates between currencies are determined by forces of supply and demand in the foreign exchange markets. These forces are, in turn, affected by factors such as international balances of payments and other economic and financial conditions, government intervention

in currency markets and currency trading speculation. Fluctuations in foreign exchange rates, foreign political and economic developments, and the imposition of exchange controls or other foreign governmental laws or restrictions applicable to such investments may affect the foreign currency market price and the exchange rate-adjusted equivalent price of the Certificates. Fluctuations in the exchange rate of any one currency may be offset by fluctuations in the exchange rate of other relevant currencies;

- (o) investors should note that there are leveraged risks because the Certificates integrate an inverse leverage mechanism and the Certificates will amplify the movements in the increase, and in the decrease, of the value of the Underlying Stock and if the investment results in a loss, any such loss will be increased by the leverage factor of the Certificates. As such, investors could lose more than they would if they had invested directly in the Underlying Stock;
- (p) when held for longer than a day, the performance of the Certificates could be more or less than the leverage factor that is embedded within the Certificates. The performance of the Certificates each day is locked in, and any subsequent returns are based on what was achieved the previous trading day. This process, referred to as compounding, may lead to a performance difference from 3 times the inverse performance of the Underlying Stock over a period longer than one day. This difference may be amplified in a volatile market with a sideways trend, where market movements are not clear in direction, whereby investors may sustain substantial losses;
- (q) the Underlying Stock to which the Certificates relate are only quoted during US trading hours. This means that the Air Bag Mechanism (as defined below) can only be triggered when the SGX-ST is not open for trading. There is therefore a specific risk that overnight, investors in the Certificates incur a significant or even entire loss of the amounts invested in the Certificates, without being able to exit their investments in the Certificates;
- (r) investors should note that the Air Bag Mechanism reduces the impact on the Leverage Inverse Strategy if the Underlying Stock rises further, but will also maintain a reduced exposure to the Underlying Stock in the event the Underlying Stock starts to fall after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses;
- (s) there is no assurance that the Air Bag Mechanism will prevent investors from losing the entire value of their investment, in the event of (i) an overnight increase in the Underlying Stock, where there is an approximately 33% or greater gap between the previous trading day closing price and the opening price of the Underlying Stock the following trading day, as the Air Bag Mechanism will only be triggered when market opens the following trading day or (ii) a sharp intraday increase in the price of the Underlying Stock of approximately 33% or greater within the 15 minutes Observation Period compared to the reference price, being: (1) if air bag has not been previously triggered on the same day, the previous closing price of the Underlying Stock, or (2) if one or more air bag have been previously triggered on the same day, the latest New Observed Price. Investors should note that the Air Bag Mechanism may only be triggered during the trading of the Relevant Stock Exchange for the Underlying Stock. Investors may refer to pages 54 to 55 of this document for more information;
- (t) investors should note that the Certificates are issued over an Underlying Stock which is listed on an exchange with different trading hours from the SGX-ST. There may be a risk arising from the time difference between the trading hours of the Relevant Stock Exchange for the Underlying Stock (based on New York time) and the trading hours of the SGX-ST. As such, (i) the price of the Underlying Stock may not be available during the trading hours of the Certificates on SGX-ST; (ii) Air Bag Mechanism may be triggered during the trading hours of

the Relevant Stock Exchange for the Underlying Stock, which would not be during SGX-ST trading hours; (iii) the trigger of an Air Bag Mechanism, when the Certificates are not open for trading, will lead to a different Leverage Inverse Strategy Closing Level, i.e. the value of the Certificates subsequently during the SGX-ST trading hours will be based on a different Leverage Inverse Strategy Closing Level reference for the purpose of the Leveraged Return calculation compared to a case where no Air Bag Mechanism would have been triggered; and (iv) given the Relevant Stock Exchange for the Underlying Stock is not open for trading during the SGX-ST trading hours, the market price of the Certificates may be affected by the derived spot price of the Underlying Stock on the Related Exchange during SGX-ST trading hours (which may deviate from the published price of the Underlying Stock), consequentially the market price of the Certificates during SGX-ST trading hours may deviate from the published price of the Underlying Stock during the US trading hours on the same day. There is therefore a specific risk that investors in the Certificates may incur a significant or even entire loss of the amounts invested in the Certificates, without being able to exit their investments in the Certificates.

In particular, please note that the trading price of the Underlying Stock may be volatile during a time in which the SGX-ST is not open for trading of the Certificates. Outside the trading hours of the SGX-ST, investors will not be able to sell or trade in the Certificates even if the trading price of the Underlying Stock is highly volatile.

Market news and/or corporate announcements relating to the Underlying Stock (including corporate event announcements or other price sensitive information) may be released outside the trading hours of the Relevant Stock Exchange for the Underlying Stock (based on New York time), but during the trading hours of the SGX-ST (based on Singapore time). The trading price of the Certificates may become highly volatile during the relevant trading hours of the SGX-ST in response to such market/corporate news pending opening of the Underlying Stock. The market and investors may not have sufficient time to digest fully, and/or assess the potential impact of, such corporate news on the Underlying Stock and hence the Certificates.

Investors may refer to pages 54 to 55 of this document for more information;

- (u) certain events may, pursuant to the terms and conditions of the Certificates, trigger (i) the implementation of methods of adjustment or (ii) the early termination of the Certificates. The Certificates may be terminated prior to its Expiry Date for the following reasons which are not exhaustive: Illegality and force majeure, occurrence of a Holding Limit Event (as defined in the Conditions of the Certificates) or Hedging Disruption (as defined in the Conditions of the Certificates). For more detailed examples of when early termination may occur, please refer to the FAQ section under the "Education" tab on the website at dlc.socgen.com.

The Issuer will give the investors reasonable notice of any early termination. If the Issuer terminates the Certificates early, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Certificate Holder in respect of each Certificate held by such holder equal to the fair market value of the Certificate less the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion. The performance of this commitment shall depend on (i) general market conditions and (ii) the liquidity conditions of the underlying instrument(s) and, as the case may be, of any other hedging transactions. Investors should note that the amount repaid by the Issuer may be substantially less than the amount initially invested, and at the worst case, be zero. Investors may refer to the Condition 13 on pages 39 to 42 of this document for more information;

- (v) there is no assurance that an active trading market for the Certificates will sustain throughout the life of the Certificates, or if it does sustain, it may be due to market making on the part of the Designated Market Maker. The Issuer acting through its Designated Market Maker may be the only market participant buying and selling the Certificates. Therefore, the secondary market for the Certificates may be limited and you may not be able to realise the value of the Certificates. Do note that the bid-ask spread increases with illiquidity;
- (w) in the ordinary course of their business, including without limitation, in connection with the Issuer or its appointed designated market maker's market making activities, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in the Underlying Stock. In addition, in connection with the offering of any Certificates, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may enter into one or more hedging transactions with respect to the Underlying Stock. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer, the Guarantor and any of their respective subsidiaries and affiliates, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may enter into transactions in the Underlying Stock which may affect the market price, liquidity or value of the Certificates and which may affect the interests of Certificate Holders;
- (x) various potential and actual conflicts of interest may arise from the overall activities of the Issuer, the Guarantor and/or any of their subsidiaries and affiliates.

The Issuer, the Guarantor and any of their subsidiaries and affiliates are diversified financial institutions with relationships in countries around the world. These entities engage in a wide range of commercial and investment banking, brokerage, funds management, hedging transactions and investment and other activities for their own account or the account of others. In addition, the Issuer, the Guarantor and any of their subsidiaries and affiliates, in connection with their other business activities, may possess or acquire material information about the Underlying Stock. Such activities and information may involve or otherwise affect issuers of the Underlying Stock in a manner that may cause consequences adverse to the Certificate Holders or otherwise create conflicts of interests in connection with the issue of Certificates by the Issuer. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and exercise of creditor rights. The Issuer, the Guarantor and any of their subsidiaries and affiliates have no obligation to disclose such information about the Underlying Stock or such activities. The Issuer, the Guarantor and any of their subsidiaries and affiliates and their officers and directors may engage in any such activities without regard to the issue of Certificates by the Issuer or the effect that such activities may directly or indirectly have on any Certificate;

- (y) legal considerations which may restrict the possibility of certain investments:

Some investors' investment activities are subject to specific laws and regulations or laws and regulations currently being considered by various authorities. All potential investors must consult their own legal advisers to check whether and to what extent (i) they can legally purchase the Certificates (ii) the Certificates can be used as collateral security for various forms of borrowing (iii) if other restrictions apply to the purchase of Certificates or their use as collateral security. Financial institutions must consult their legal advisers or regulators to determine the appropriate treatment of the Certificates under any applicable risk-based capital or similar rules;

- (z) the credit rating of the Guarantor is an assessment of its ability to pay obligations, including those on the Certificates. Consequently, actual or anticipated declines in the credit rating of the Guarantor may affect the market value of the Certificates;
- (aa) the Certificates are linked to the Underlying Stock and subject to the risk that the price of the Underlying Stock may rise. The following is a list of some of the significant risks associated with the Underlying Stock:
- Historical performance of the Underlying Stock does not give an indication of future performance of the Underlying Stock. It is impossible to predict whether the price of the Underlying Stock will fall or rise over the term of the Certificates; and
 - The price of the Underlying Stock may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which the Underlying Stock may be traded;
- (bb) the value of the Certificates depends on the Leverage Inverse Strategy performance built in the Certificate. The Calculation Agent will make the Leverage Inverse Strategy last closing level and a calculation tool available to the investors on a website;
- (cc) two or more risk factors may simultaneously have an effect on the value of a Certificate such that the effect of any individual risk factor may not be predicted. No assurance can be given as to the effect any combination of risk factors may have on the value of a Certificate;
- (dd) as the Certificates are represented by a global warrant certificate which will be deposited with The Central Depository (Pte) Limited (“**CDP**”):
- (i) investors should note that no definitive certificate will be issued in relation to the Certificates;
 - (ii) there will be no register of Certificate Holders and each person who is for the time being shown in the records maintained by CDP as entitled to a particular number of Certificates by way of interest (to the extent of such number) in the global warrant certificate in respect of those Certificates represented thereby shall be treated as the holder of such number of Certificates;
 - (iii) investors will need to rely on any statements received from their brokers/custodians as evidence of their interest in the Certificates; and
 - (iv) notices to such Certificate Holders will be published on the web-site of the SGX-ST. Investors will need to check the web-site of the SGX-ST regularly and/or rely on their brokers/custodians to obtain such notices;
- (ee) U.S. withholding tax

The Issuer has determined that these Certificates are not “delta-one” instruments for the purposes of IRS Notice 2024-44 and are therefore not Specified Warrants for purposes of the Section 871(m) Regulations as discussed in the accompanying Base Listing Document under “TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Section 871(m) of the U.S. Internal Revenue Code of 1986”. Investors are advised that the Issuer’s determination is binding on all Non-U.S. Holders of the Certificates, but it is not binding on the United States Internal Revenue Service (the “IRS”) and the IRS may therefore disagree with the Issuer’s determination. In addition, if any Holder of Certificates also holds an offsetting position in the Underlying Stock that when combined with the Certificates provide “delta-one” exposure to the Underlying Stock, such Holder may have liability under Section 871(m). Certificate Holders should consult with their own tax advisers regarding the potential application of

Section 871(m) to the Certificates, including with respect to any other positions the Certificate Holder holds in the Underlying Stock.

Potential investors are advised to consider the discussion in the accompanying Base Listing Document under “TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Section 871(m) of the U.S. Internal Revenue Code of 1986” and “TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Foreign Account Tax Compliance Act Withholding” and to consult their own tax adviser on the tax impacts of the acquisition, holding, disposal and redemption of the Certificates. The requirement to pay such taxes may reduce the effective yield on the Certificates and may also have an adverse impact on their value;

- (ff) risks arising from the taxation of securities

Tax law and practice are subject to change, possibly with retroactive effect. This may have a negative impact on the value of the Certificates and/or the market price of the Certificates. For example, the specific tax assessment of the Certificates may change compared to its assessment at the time of purchase of the Certificates. This is especially true with regard to derivative Certificates and their tax treatment. Holders of Certificates therefore bear the risk that they may misjudge the taxation of the income from the purchase of the Certificates. However, there is also the possibility that the taxation of the income from the purchase of the Certificates will change to the detriment of the holders.

Holders of the Certificates bear the risk that the specific tax assessment of the Certificates will change. This can have a negative impact on the value of the Certificates and the investor may incur a corresponding loss. The stronger this negative effect, the greater the loss may be; and

- (gg) risk factors relating to the BRRD

French and Luxembourg law and European legislation regarding the resolution of financial institutions may require the write-down or conversion to equity of the Certificates or other resolution measures if the Issuer or the Guarantor is deemed to meet the conditions for resolution.

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (the “BRRD”) entered into force on 2 July 2014. The BRRD, as amended, has been implemented into Luxembourg law by, among others, the Luxembourg act dated 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the “BRR Act 2015”). Under the BRR Act 2015, the competent authority is the Luxembourg financial sector supervisory authority (*Commission de surveillance du secteur financier*, the CSSF) and the resolution authority is the CSSF acting as resolution council (*conseil de résolution*).

In April 2023, the EU Commission released a proposal to amend, in particular, the BRRD according to which senior preferred debt instruments would no longer rank pari passu with any non covered non preferred deposits of the Issuer; instead, senior preferred debt instruments would rank junior in right of payment to the claims of all depositors.

This proposal has been discussed and amended by the European Parliament and the European Council. Council and Parliament reached agreement on 6 December 2023 to make the proposal final and applicable. If the final agreement was adopted as is, there may be an increased risk of an investor in senior preferred debt instruments losing all or some of their

investment in the context of the exercise of the Bail-in Power. The final agreement may also lead to a rating downgrade for senior preferred debt instruments.

Moreover, Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism (“**SRM**”) and a Single Resolution Framework (the “**SRM Regulation**”) has established a centralised power of resolution entrusted to a Single Resolution Board (the “**SRB**”) in cooperation with the national resolution authorities.

Since November 2014, the European Central Bank (“**ECB**”) has taken over the prudential supervision of significant credit institutions in the member states of the Eurozone under the Single Supervisory Mechanism (“**SSM**”). In addition, the SRM has been put in place to ensure that the resolution of credit institutions and certain investment firms across the Eurozone is harmonised. As mentioned above, the SRM is managed by the SRB. Under Article 5(1) of the SRM Regulation, the SRM has been granted those responsibilities and powers granted to the EU Member States’ resolution authorities under the BRRD for those credit institutions and certain investment firms subject to direct supervision by the ECB. The ability of the SRB to exercise these powers came into force at the beginning of 2016.

Societe Generale has been, and continues to be, designated as a significant supervised entity for the purposes of Article 49(1) of Regulation (EU) No 468/2014 of the ECB of 16 April 2014 establishing the framework for cooperation within the SSM between the ECB and national competent authorities and with national designated authorities (the “**SSM Regulation**”) and is consequently subject to the direct supervision of the ECB in the context of the SSM. This means that Societe Generale and SG Issuer (being covered by the consolidated prudential supervision of Societe Generale) are also subject to the SRM which came into force in 2015. The SRM Regulation mirrors the BRRD and, to a large part, refers to the BRRD so that the SRB is able to apply the same powers that would otherwise be available to the relevant national resolution authority.

The stated aim of the BRRD and the SRM Regulation is to provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and certain investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the resolution authority designated by each EU Member State (the “**Resolution Authority**”) with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution’s critical financial and economic functions while minimising the impact of an institution’s failure on the economy and financial system (including taxpayers’ exposure to losses).

In accordance with the provisions of the SRM Regulation, when applicable, the SRB, has replaced the national resolution authorities designated under the BRRD with respect to all aspects relating to the decision-making process and the national resolution authorities designated under the BRRD continue to carry out activities relating to the implementation of resolution schemes adopted by the SRB. The provisions relating to the cooperation between the SRB and the national resolution authorities for the preparation of the institutions’ resolution plans have applied since 1 January 2015 and the SRM has been fully operational since 1 January 2016.

The SRB is the Resolution Authority for the Issuer and the Guarantor.

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write-down/conversion powers to ensure that capital instruments (including

subordinated debt instruments) and eligible liabilities (including senior debt instruments if junior instruments prove insufficient to absorb all losses) absorb losses of the issuing institution that is subject to resolution in accordance with a set order of priority (the “**Bail-in Power**”). The conditions for resolution under the SRM Regulation are deemed to be met when: (i) the Resolution Authority determines that the institution is failing or is likely to fail, (ii) there is no reasonable prospect that any measure other than a resolution measure would prevent the failure within a reasonable timeframe, and (iii) a resolution measure is necessary for the achievement of the resolution objectives (in particular, ensuring the continuity of critical functions, avoiding a significant adverse effect on the financial system, protecting public funds by minimizing reliance on extraordinary public financial support, and protecting client funds and assets) and winding up of the institution under normal insolvency proceedings would not meet those resolution objectives to the same extent.

The Resolution Authority could also, independently of a resolution measure or in combination with a resolution measure, fully or partially write-down or convert capital instruments (including subordinated debt instruments) into equity when it determines that the institution or its group will no longer be viable unless such write-down or conversion power is exercised or when the institution requires extraordinary public financial support (except when extraordinary public financial support is provided in Article 10 of the SRM Regulation). The terms and conditions of the Certificates contain provisions giving effect to the Bail-in Power in the context of resolution and write-down or conversion of capital instruments at the point of non-viability.

The Bail-in Power could result in the full (i.e., to zero) or partial write-down or conversion of the Certificates into ordinary shares or other instruments of ownership, or the variation of the terms of the Certificates (for example, the maturity and/or interest payable may be altered and/or a temporary suspension of payments may be ordered). Extraordinary public financial support should only be used as a last resort after having assessed and applied, to the maximum extent practicable, the resolution measures. No support will be available until a minimum amount of contribution to loss absorption and recapitalization of 8% of total liabilities including own funds has been made by shareholders, holders of capital instruments and other eligible liabilities through write-down, conversion or otherwise.

In addition to the Bail-in Power, the BRRD and the SRM Regulation provide the Resolution Authority with broader powers to implement other resolution measures with respect to institutions that meet the conditions for resolution, which may include (without limitation) the sale of the institution’s business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.

The BRRD, the BRR Act 2015 and the SRM Regulation however also state that, under exceptional circumstances, if the bail-in instrument is applied, the SRB, in cooperation with the CSSF, may completely or partially exclude certain liabilities from the application of the impairment or conversion powers under certain conditions.

Since 1 January 2016, EU credit institutions (such as Societe Generale) and certain investment firms have to meet, at all times, a minimum requirement for own funds and eligible liabilities (“**MREL**”) pursuant to Article 12 of the SRM Regulation. The MREL, which is expressed as a percentage of the total liabilities and own funds of the institution, aims at

preventing institutions from structuring their liabilities in a manner that impedes the effectiveness of the Bail-in Power in order to facilitate resolution.

The regime has evolved as a result of the changes adopted by the EU legislators. On 7 June 2019, as part of the contemplated amendments to the so-called “EU Banking Package”, the following legislative texts were published in the Official Journal of the EU 14 May 2019:

- Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms (“**BRRD II**”); and
- Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the SRM Regulation as regards the loss-absorbing and recapitalisation capacity (“**TLAC**”) of credit institutions and investment firms (the “**SRM II Regulation**” and, together with the BRRD II, the “**EU Banking Package Reforms**”).

The EU Banking Package Reforms introduced, among other things, the TLAC standard as implemented by the Financial Stability Board's TLAC Term Sheet (“**FSB TLAC Term Sheet**”), by adapting, among other things, the existing regime relating to the specific MREL with aim of reducing risks in the banking sector and further reinforcing institutions’ ability to withstand potential shocks will strengthen the banking union and reduce risks in the financial system.

The TLAC has been implemented in accordance with the FSB TLAC Term Sheet, which impose a level of “Minimum TLAC” that will be determined individually for each global systemically important bank (“**G-SIB**”), such as Societe Generale, in an amount at least equal to (i) 16%, plus applicable buffers, of risk weight assets since January 1, 2022 and 18%, plus applicable buffers, thereafter and (ii) 6% of the Basel III leverage ratio denominator since January 1, 2022 and 6.75% thereafter (each of which could be extended by additional firm-specific requirements).

Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the “**CRR**”), as amended notably by Regulation (EU) 2019/876 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements (the “**CRR II**”) and Regulation (EU) 2022/2036 of the European Parliament and of the Council of 19 October 2022 amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities, EU G-SIBs, such as Societe Generale, have to comply with TLAC requirements, on top of the MREL requirements, since the entry into force of the CRR II. As such, G-SIBs, such as Societe Generale have to comply with both the TLAC and MREL requirements.

Consequently, the criteria for MREL-eligible liabilities have been closely aligned with the criteria for TLAC-eligible liabilities under CRR II, but subject to the complementary adjustments and requirements introduced in the BRRD II. In particular, certain debt instruments with an embedded derivative component, such as certain structured notes, will be eligible, subject to certain conditions, to meet MREL requirements to the extent that they have a fixed or increasing principal amount repayable at maturity that is known in advance

with only an additional return permitted to be linked to that derivative component and dependent on the performance of a reference asset.

The level of capital and eligible liabilities required under MREL is set by the SRB for Societe Generale on an individual and/or consolidated basis based on certain criteria including systemic importance and may also be set for SG Issuer. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining term of at least one year and, they recognise contractually the Resolution Authority's power to write down or convert the liabilities governed by non-EU law.

The scope of liabilities used to meet MREL includes, in principle, all liabilities resulting from claims arising from ordinary unsecured creditors (non-subordinated liabilities) unless they do not meet specific eligibility criteria set out in BRRD, as amended notably by BRRD II. To enhance the resolvability of institutions and entities through an effective use of the bail-in tool, the SRB should be able to require that MREL be met with own funds and other subordinated liabilities, in particular where there are clear indications that bailed-in creditors are likely to bear losses in resolution that would exceed the losses that they would incur under normal insolvency proceedings. Moreover the SRB should assess the need to require institutions and entities to meet the MREL with own funds and other subordinated liabilities where the amount of liabilities excluded from the application of the bail-in tool reaches a certain threshold within a class of liabilities that includes MREL-eligible liabilities. Any subordination of debt instruments requested by the SRB for the MREL shall be without prejudice to the possibility to partly meet the TLAC requirements with non-subordinated debt instruments in accordance with the CRR, as amended by the CRR II, as permitted by the TLAC standard. Specific requirements apply to resolution groups with assets above EUR 100 billion (top-tier banks, including Societe Generale).

TERMS AND CONDITIONS OF THE CERTIFICATES

The following are the terms and conditions of the Certificates and should be read in conjunction with, and are qualified by reference to, the other information set out in this document and the Base Listing Document.

The Conditions are set out in the section headed “Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities” in the Base Listing Document. For the purposes of the Conditions, the following terms shall have the following meanings:

| | |
|--------------------------------------|--|
| Certificates: | 2,700,000 European Style Cash Settled Short Certificates relating to the Common Stock of Microsoft Corporation (the “ Underlying Stock ”) |
| ISIN: | LU2517562281 |
| Company: | Microsoft Corporation (RIC: MSFT.OQ) |
| Underlying Price and Source: | The closing price of the Underlying Stock on 7 October 2024 (Reuters) |
| Calculation Agent: | Société Générale |
| Strike Level: | Zero |
| Daily Leverage: | -3x (within the Leverage Inverse Strategy as described below) |
| Notional Amount per Certificate: | SGD 4.00 |
| Management Fee (p.a.) ³ : | 0.40% |
| Gap Premium (p.a.) ⁴ : | 11.50%, is a hedging cost against extreme market movements beyond US market close on the same trading day. |
| Stock Borrowing Cost ⁵ : | The annualised costs for borrowing stocks in order to take an inverse exposure on the Underlying Stock. |
| Rebalancing Cost ⁵ : | The transaction costs (if applicable), computed as a function of leverage and daily inverse performance of the Underlying Stock. |
| Launch Date: | 1 October 2024 |
| Closing Date: | 7 October 2024 |
| Expected Listing Date: | 8 October 2024 |

³ Please note that the Management Fee is calculated on a 360-day basis and may be increased up to a maximum of 3% p.a. on giving one month’s notice to investors. Any increase in the Management Fee will be announced on the SGXNET. Please refer to “Fees and Charges” below for further details of the fees and charges payable and the maximum of such fees as well as other ongoing expenses that may be borne by the Certificates.

⁴ Please note that the Gap Premium is calculated on a 360-day basis.

⁵ These costs are embedded within the Leverage Inverse Strategy. Please note that the Stock Borrowing Cost may be changed on giving 5 Business Days’ notice to investors. Any change in the Stock Borrowing Cost will be announced on the SGXNET.

| | |
|-------------------------|--|
| Last Trading Date: | The date falling 5 Business Days immediately preceding the Expiry Date, currently being 29 September 2026 |
| Expiry Date: | The Business Day immediately following the Valuation Date, currently being 6 October 2026 |
| Board Lot: | 100 Certificates |
| Valuation Date: | 5 October 2026 or if such day is not an Underlying Stock Business Day, the immediately following Underlying Stock Business Day and subject to the Market Disruption Event provisions. |
| Settlement Date: | No later than five Settlement Business Days following the Expiry Date, currently being 13 October 2026. |
| Exercise: | The Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in a Board Lot or integral multiples thereof. Certificate Holders shall not be required to deliver an exercise notice. Exercise of Certificates shall be determined by whether the Cash Settlement Amount (less any Exercise Expenses) is positive. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates shall be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in Condition 4(c) of the Conditions. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates. |
| Cash Settlement Amount: | In respect of each Certificate, shall be an amount payable in the Settlement Currency equal to: Closing Level multiplied by the Notional Amount per Certificate Please refer to the “Information relating to the European Style Cash Settled Short Certificates on Single Equities” section on pages 46 to 60 of this document for examples and illustrations of the calculation of the Cash Settlement Amount. |
| Hedging Fee Factor: | In respect of each Certificate, shall be an amount calculated as: Product (for t from 2 to Valuation Date) of $(1 - \text{Management Fee} \times (\text{ACT}(t-1;t) \div 360)) \times (1 - \text{Gap Premium}(t-1) \times (\text{ACT}(t-1;t) \div 360))$ Where: “t” refers to “ Observation Date ” which means each Underlying |

Stock Business Day (subject to Market Disruption Event) from (and including) the Underlying Stock Business Day immediately preceding the Expected Listing Date to the Valuation Date; and

ACT (t-1;t) means the number of calendar days between the Underlying Stock Business Day immediately preceding the Observation Date (such Underlying Stock Business Day being noted “t-1”) (included) and the Observation Date “t” (excluded).

If the Issuer determines, in its sole discretion, that on any Observation Date a Market Disruption Event has occurred, then that Observation Date shall be postponed until the first succeeding Underlying Stock Business Day on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the five Underlying Stock Business Days immediately following the original date that, but for the Market Disruption Event, would have been an Observation Date. In that case, that fifth Underlying Stock Business Day shall be deemed to be the Observation Date notwithstanding the Market Disruption Event and the Issuer shall determine, its good faith estimate of the level of the Leverage Inverse Strategy and the value of the Certificate on that fifth Underlying Stock Business Day in accordance with the formula for and method of calculation last in effect prior to the occurrence of the first Market Disruption Event taking into account, inter alia, the exchange traded or quoted price of the Underlying Stock and the potential increased cost of hedging by the Issuer as a result of the occurrence of the Market Disruption Event.

Please refer to the “Information relating to the European Style Cash Settled Short Certificates on Single Equities” section on pages 46 to 60 of this document for examples and illustrations of the calculation of the Hedging Fee Factor.

Closing Level: In respect of each Certificate, shall be an amount payable in the Settlement Currency equal to:

$$\left(\frac{\text{Final Reference Level} \times \text{Final Exchange Rate}}{\text{Initial Reference Level} \times \text{Initial Exchange Rate}} - \text{Strike Level} \right) \times \text{Hedging Fee Factor}$$

Initial Reference Level: 1,000

Final Reference Level: The closing level of the Leverage Inverse Strategy (as described below) on the Valuation Date

The calculation of the closing level of the Leverage Inverse Strategy is set out in the “Specific Definitions relating to the Leverage Inverse Strategy” section on pages 22 to 26 below.

Initial Exchange Rate: 1.3036

Final Exchange Rate: The rate for the conversion of United States Dollar to Singapore Dollar as at 5:00pm (Singapore Time) on the Valuation Date as shown on Reuters, provided that if the Reuters service ceases to display such information, as determined by the Issuer by reference to such source(s) as the Issuer may reasonably determine to be appropriate at such a time.

Air Bag Mechanism: The “**Air Bag Mechanism**” refers to the mechanism built in the Leverage Inverse Strategy and which is designed to reduce the Leverage Inverse Strategy exposure to the Underlying Stock during extreme market conditions. If the Underlying Stock rises by 20% or more (“**Air Bag Trigger Price**”) during the trading day of the Relevant Stock Exchange for the Underlying Stock (which represents an approximately 60% loss after a 3 times inverse leverage), the Air Bag Mechanism is triggered and the Leverage Inverse Strategy is adjusted intra-day during the trading hours of the Relevant Stock Exchange for the Underlying Stock. The Air Bag Mechanism reduces the impact on the Leverage Inverse Strategy if the Underlying Stock rises further, but will also maintain a reduced exposure to the Underlying Stock in the event the Underlying Stock starts to fall after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses.

The Leverage Inverse Strategy is floored at 0 and the Certificates cannot be valued below zero.

Please refer to the “Extraordinary Strategy Adjustment for Performance Reasons (“Air Bag Mechanism”)” section on pages 25 to 26 below and the “Description of Air Bag Mechanism” section on pages 52 to 53 of this document for further information of the Air Bag Mechanism.

Adjustments and Extraordinary Events: The Issuer has the right to make adjustments to the terms of the Certificates if certain events, including any capitalisation issue, rights issue, extraordinary distributions, merger, delisting, insolvency (as more specifically set out in the terms and conditions of the Certificates) occur in respect of the Underlying Stock. For the avoidance of doubt, no notice will be given if the Issuer determines that adjustments will not be made.

Underlying Stock Currency: United States Dollar (“**USD**”)

Settlement Currency: Singapore Dollar (“**SGD**”)

Exercise Expenses: Certificate Holders will be required to pay all charges which are incurred in respect of the exercise of the Certificates.

Relevant Stock Exchange for the Certificates: The Singapore Exchange Securities Trading Limited (“**SGX-ST**”)

Relevant Stock Exchange for the Underlying Stock: NASDAQ

Related Exchange: Each exchange or quotation system, or alternative trading system, where trading has a material effect (as determined by the Calculation Agent) on the overall market for the Underlying Stock when the Relevant Stock Exchange for the Underlying Stock is not open for trading

Underlying Stock Business Day, Business Day or Settlement Business Day: An “**Underlying Stock Business Day**” means a day on which NASDAQ is open for dealings in the United States during its normal trading hours and banks are open for business in the United States.

A “Business Day” or a “Settlement Business Day” is a day on which the SGX-ST is open for dealings in Singapore during its normal trading hours and banks are open for business in Singapore.

Warrant Agent: The Central Depository (Pte) Limited (“**CDP**”)

Clearing System: CDP

Fees and Charges: Normal transaction and brokerage fees shall apply to the trading of the Certificates on the SGX-ST. Investors should note that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Certificates are transferred. Investors who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, investors should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

Investors holding position beyond market close of the SGX-ST would also be required to bear the Management Fee and Gap Premium, which are calculated daily and applied to the value of the Certificates, as well as certain costs embedded within the Leverage Inverse Strategy including the Stock Borrowing Cost and Rebalancing Cost. The Management Fee may be increased up to a maximum of 3% p.a. on giving one month’s notice to investors in accordance with the terms and conditions of the Certificates. Any increase in the Management Fee will be announced on the SGXNET. Due to the difference in trading hours of the SGX-ST and the Relevant Stock Exchange for the Underlying Stock, unless investors exit their position within the same SGX-ST trading day, they would bear such annualised costs.

Further Information: Please refer to the website at dlc.socgen.com for more information on the theoretical closing price of the Certificates on the previous trading day, the closing price of the Underlying Stock on the previous trading day, the Air Bag Trigger Price for each trading day and the Management Fee and Gap Premium.

Specific Definitions relating to the Leverage Inverse Strategy

Description of the Leverage Inverse Strategy

The Leverage Inverse Strategy is designed to track a 3 times daily leveraged inverse exposure to the Underlying Stock.

At the end of each trading day of the Underlying Stock, the exposure of the Leverage Inverse Strategy to the Underlying Stock is reset within the Leverage Inverse Strategy in order to retain a daily leverage of 3 times the inverse performance of the Underlying Stock (excluding costs) regardless of the performance of the Underlying Stock on the preceding day. This mechanism is referred to as the Daily Reset.

The Leverage Inverse Strategy incorporates an air bag mechanism which is designed to reduce exposure to the Underlying Stock during extreme market conditions, as further described below.

Leverage Inverse Strategy Formula

LSL_t means, for any Observation Date(t), the Leverage Inverse Strategy Closing Level as of such day (t).

Subject to the occurrence of an Intraday Restrike Event, the **Leverage Inverse Strategy Closing Level** as of such Observation Date(t) is calculated in accordance with the following formulae:

On Observation Date(1):

$$LSL_1 = 1000$$

On each subsequent Observation Date(t):

$$LSL_t = \text{Max}[LSL_{t-1} \times (1 + LR_{t-1,t} - FC_{t-1,t} - SB_{t-1,t} - RC_{t-1,t}), 0]$$

LR_{t-1,t} means the Leveraged Return of the Underlying Stock between Observation Date(t-1) and Observation Date(t) closing prices, calculated as follows:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times R_{\text{factor}_t}} - 1 \right)$$

FC_{t-1,t} means, the Funding Cost between Observation Date(t-1) (included) and Observation Date(t) (excluded) calculated as follows:

$$FC_{t-1,t} = (\text{Leverage} - 1) \times \frac{\text{Rate}_{t-1} \times \text{ACT}(t-1, t)}{\text{DayCountBasisRate}}$$

SB_{t-1,t} means the Stock Borrowing Cost between Observation Date(t-1) (included) and Observation Date(t) (excluded) calculated as follows:

$$SB_{t-1,t} = -\text{Leverage} \times \frac{\text{CB} \times \text{ACT}(t-1, t)}{\text{DayCountBasisRate}}$$

CB means the Cost of Borrowing applicable that is equal to 3.00%.

RC_{t-1,t} means the Rebalancing Cost of the Leverage Inverse Strategy on Observation Date (t), calculated as follows:

$$RC_{t-1,t} = \text{Leverage} \times (\text{Leverage} - 1) \times \left(\left| \frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right| \right) \times TC$$

| | |
|---------------------------------|---|
| TC | means the Transaction Costs applicable (including brokerage fees and any other applicable taxes, levies and costs which may be levied on the stock transactions on the Relevant Stock Exchange for the Underlying Stock by the applicable regulatory authorities from time to time) that are currently equal to: 0.20% |
| Leverage | -3 |
| S_t | means, in respect of each Observation Date(t), the Closing Price of the Underlying Stock as of such Observation Date(t), subject to the adjustments and provisions of the Conditions. |
| Rate_t | means, in respect of each Observation Date(t), the US SOFR Secured Overnight Financing Rate, as published on Bloomberg Screen SOFRRATE Index page or any successor page, being the rate as of such Observation Date (t), provided that if any of such rates is not available, then that rate shall be determined by reference to the latest available rate that was published on the relevant Bloomberg page. |
| Rfactor_t | means, in the event Observation Date (t) is an ex-dividend date of the Underlying Stock, an amount determined by the Calculation Agent, subject to the adjustments and provisions of the Conditions, according to the following formula: $Rfactor_t = 1 - \frac{Div_t}{S_{t-1}}$ <p>where</p> <p><i>Div_t</i> is the dividend to be paid out in respect of the Underlying Stock and the relevant ex-dividend date which shall be considered gross of any applicable withholding taxes.</p> |
| ACT(t-1,t) | ACT (t-1;t) means the number of calendar days between the Underlying Stock Business Day immediately preceding the Observation Date (such Underlying Stock Business Day being noted “t-1”) (included) and the Observation Date “t” (excluded). |
| DayCountBasis Rate | 365 |
| Benchmark Fallback | upon the occurrence or likely occurrence, as determined by the Calculation Agent, of a Reference Rate Event, the Calculation Agent may make adjustments as it may determine appropriate to account for the relevant event or circumstance, including but not limited to using any alternative rates from such date, with or without retroactive effect as the Calculation Agent may in its sole and absolute discretion determine. |
| Reference Rate Event | means, in respect of the Reference Rate any of the following has occurred or will occur: (i) a Reference Rate Cessation; (ii) an Administrator/Benchmark Event; or |

(iii) a Reference Rate is, with respect to over-the-counter derivatives transactions which reference such Reference Rate, the subject of any market-wide development formally agreed upon by the International Swaps and Derivative Association (ISDA) or the Asia Securities Industry & Financial Markets Association (ASIFMA), pursuant to which such Reference Rate is, on a specified date, replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.

**Reference Rate
Cessation**

means, for a Reference Rate, the occurrence of one or more of the following events:

(i) a public statement or publication of information by or on behalf of the administrator of the Reference Rate announcing that it has ceased or will cease to provide the Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Reference Rate;

(ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate, the central bank for the currency of the Reference Rate, an insolvency official with jurisdiction over the administrator for the Reference Rate, a resolution authority with jurisdiction over the administrator for the Reference Rate or a court or an entity with similar insolvency or resolution authority over the administrator for the Reference Rate, which states that the administrator of the Reference Rate has ceased or will cease to provide the Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Reference Rate; or

(iii) in respect of a Reference Rate, a public statement or publication of information by the regulatory supervisor for the administrator of such Reference Rate announcing that (a) the regulatory supervisor has determined that such Reference Rate is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts;

**Administrator/
Benchmark
Event**

means, for a Reference Rate, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or the administrator or sponsor of the Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the Reference Rate to perform its or their respective obligations under the Certificates.

**Reference
Rate(s)**

means the rate(s) used in the Leverage Inverse Strategy Formula, for example SORA, SOFR and US Federal Funds Effective Rate.

Extraordinary Strategy Adjustment for Performance Reasons (“Air Bag Mechanism”)

Extraordinary Strategy Adjustment for Performance Reasons If the Calculation Agent determines that an Intraday Restrike Event has occurred during an Observation Date(t) (the **Intraday Restrike Date**, noted hereafter **IRD**), an adjustment (an **Extraordinary Strategy Adjustment for Performance Reasons**) shall take place during such Observation Date(t) in accordance with the following provisions.

(1) Provided the last Intraday Restrike Observation Period as of such Intraday Restrike Date does not end on the TimeReferenceClosing, the Leverage Inverse Strategy Closing Level on the Intraday Restrike Date (LSL_{IRD}) should be computed as follows:

$$LSL_{IRD} = \text{Max}[ILSL_{IR(n)} \times (1 + ILR_{IR(n),IR(C)} - IRC_{IR(n),IR(C)}), 0]$$

(2) If the last Intraday Restrike Event Observation Period on the relevant Intraday Restrike Date ends on the TimeReferenceClosing:

$$LSL_{IRD} = \text{Max}[ILSL_{IR(n)}, 0]$$

$ILSL_{IR(k)}$ means, in respect of $IR(k)$, the Intraday Leverage Inverse Strategy Level in accordance with the following provisions:

(1) for $k = 1$:

$$ILSL_{IR(1)} = \text{Max}[LSL_{IRD-1} \times (1 + ILR_{IR(0),IR(1)} - FC_{IRD-1,IRD} - SB_{IRD-1,IRD} - IRC_{IR(0),IR(1)}), 0]$$

(2) for $k > 1$:

$$ILSL_{IR(k)} = \text{Max}[ILSL_{IR(k-1)} \times (1 + ILR_{IR(k-1),IR(k)} - IRC_{IR(k-1),IR(k)}), 0]$$

$ILR_{IR(k-1),IR(k)}$ means the Intraday Leveraged Return between $IR(k-1)$ and $IR(k)$, calculated as follows:

$$ILR_{IR(k-1),IR(k)} = \text{Leverage} \times \left(\frac{IS_{IR(k)}}{IS_{IR(k-1)}} - 1 \right)$$

$IRC_{IR(k-1),IR(k)}$ means the Intraday Rebalancing Cost of the Leverage Inverse Strategy in respect of $IR(k)$ on a given Intraday Restrike Date, calculated as follows:

$$IRC_{IR(k-1),IR(k)} = \text{Leverage} \times (\text{Leverage} - 1) \times \left(\left| \frac{IS_{IR(k)}}{IS_{IR(k-1)}} - 1 \right| \right) \times TC$$

$IS_{IR(k)}$ means the Underlying Stock Price in respect of $IR(k)$ computed as follows:

(1) for $k=0$

$$IS_{IR(0)} = S_{IRD-1} \times Rfactor_{IRD}$$

(2) for $k=1$ to n

means in respect of $IR(k)$, the highest price of the Underlying Stock during the respective Intraday Restrike Observation Period

(3) with respect to $IR(C)$

$$IS_{IR(C)} = S_{IRD}$$

In each case, subject to the adjustments and provisions of the Conditions.

| | |
|---|---|
| IR(k) | <p>For k=0, means the scheduled close for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto) on the Observation Date immediately preceding the relevant Intraday Restrike Date;</p> <p>For k=1 to n, means the kth Intraday Restrike Event on the relevant Intraday Restrike Date.</p> |
| IR(C) | means the scheduled close for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto) on the relevant Intraday Restrike Date. |
| n | means the number of Intraday Restrike Events that occurred on the relevant Intraday Restrike Date. |
| Intraday Restrike Event | <p>means in respect of an Observation Date(t):</p> <p>(1) provided no Intraday Restrike Event has previously occurred on such Observation Date (t), the increase at any Calculation Time of the Underlying Stock price by 20% or more compared with the relevant Underlying Stock Price $IS_{IR(0)}$ as of such Calculation Time.</p> <p>(2) if k Intraday Restrike Events have occurred on the relevant Intraday Restrike Date, the increase at any Calculation Time of the Underlying Stock price by 20% or more compared with the relevant Underlying Stock Price $IS_{IR(k)}$ as of such Calculation Time.</p> |
| Calculation Time | means any time between the TimeReferenceOpening and the TimeReferenceClosing, provided that the relevant data is available to enable the Calculation Agent to determine the Leverage Inverse Strategy Level. |
| TimeReferenceOpening | means the scheduled opening time for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto). |
| TimeReferenceClosing | means the scheduled closing time for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto). |
| Intraday Restrike Event Observation Period | <p>means in respect of an Intraday Restrike Event, the period starting on and excluding the Intraday Restrike Event Time and finishing on and including the sooner between (1) the time falling 15 minutes of continuous trading after the Intraday Restrike Event Time and (2) the TimeReferenceClosing.</p> <p>Where, during such period, the Calculation Agent determines that (1) the trading in the Underlying Stock is disrupted or subject to suspension or limitation or (2) the Relevant Stock Exchange for the Underlying Stock is not open for continuous trading, the Intraday Restrike Event Observation Period will be extended to the extent necessary until (1) the trading in the Underlying Stock is no longer disrupted, suspended or limited and (2) the Relevant Stock Exchange for the Underlying Stock is open for continuous trading.</p> |
| Intraday Restrike Event Time | means in respect of an Intraday Restrike Event, the Calculation Time on which such event occurs. |

The Conditions set out in the section headed “Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities” in the Base Listing Document are set out below. This section is qualified in its entirety by reference to the detailed information appearing elsewhere in this document which shall, to the extent so specified or to the extent inconsistent with the relevant Conditions set out below, replace or modify the relevant Conditions for the purpose of the Certificates.

TERMS AND CONDITIONS OF

THE EUROPEAN STYLE CASH SETTLED LONG/SHORT CERTIFICATES ON SINGLE EQUITIES

1. Form, Status and Guarantee, Transfer and Title

- (a) *Form.* The Certificates (which expression shall, unless the context otherwise requires, include any further certificates issued pursuant to Condition 11) are issued subject to and with the benefit of: -
- (i) a master instrument by way of deed poll (the “**Master Instrument**”) dated 14 June 2024, made by SG Issuer (the “**Issuer**”) and Société Générale (the “**Guarantor**”); and
 - (ii) a warrant agent agreement (the “**Master Warrant Agent Agreement**” or “**Warrant Agent Agreement**”) dated any time before or on the Closing Date, made between the Issuer and the Warrant Agent for the Certificates.

Copies of the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement are available for inspection at the specified office of the Warrant Agent.

The holders of the Certificates (the “**Certificate Holders**”) are entitled to the benefit of, are bound by and are deemed to have notice of all the provisions of the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement.

- (b) *Status and Guarantee.* The Certificates constitute direct, general and unsecured obligations of the Issuer and rank, and will rank, equally among themselves and *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer (save for statutorily preferred exceptions). The Certificates provide for cash settlement on exercise. The Certificates do not entitle Certificate Holders to the delivery of any Underlying Stock, are not secured by the Underlying Stock and do not entitle Certificate Holders to any interest in any Underlying Stock.

The due and punctual payment of any amounts due by the Issuer in respect of the Certificates issued by the Issuer is unconditionally and irrevocably guaranteed by the Guarantor as provided in the Guarantee (each such amount payable under the Guarantee, a “**Guarantee Obligation**”).

The Guarantee Obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking as senior preferred obligations as provided for in Article L. 613-30-3 I 3° of the French Code *Monétaire et Financier* (the “**Code**”).

Such Guarantee Obligations rank and will rank equally and rateably without any preference or priority among themselves and:

- (i) *pari passu* with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the law no. 2016-1691 (the “**Law**”) on 11 December 2016;
- (ii) *pari passu* with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;
- (iii) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and
- (iv) senior to all present and future senior non-preferred obligations (as provided for in Article L.613-30-3 I 4° of the Code) of the Guarantor.

In the event of the failure of the Issuer to promptly perform its obligations to any Certificate Holder under the terms of the Certificates, such Certificate Holder may, but is not obliged to, give written notice to the Guarantor at Société Générale, Tour Société Générale, 75886 Paris Cedex 18, France marked for the attention of SEGL/JUR/OMF - Market Transactions & Financing.

- (c) **Transfer.** The Certificates are represented by a global warrant certificate (“**Global Warrant**”) which will be deposited with The Central Depository (Pte) Limited (“**CDP**”). Certificates in definitive form will not be issued. Transfers of Certificates may be effected only in Board Lots or integral multiples thereof. All transactions in (including transfers of) Certificates, in the open market or otherwise, must be effected through a securities account with CDP. Title will pass upon registration of the transfer in the records maintained by CDP.
- (d) **Title.** Each person who is for the time being shown in the records maintained by CDP as entitled to a particular number of Certificates shall be treated by the Issuer, the Guarantor and the Warrant Agent as the holder and absolute owner of such number of Certificates, notwithstanding any notice to the contrary. The expression “**Certificate Holder**” shall be construed accordingly.
- (e) **Bail-In.** By the acquisition of Certificates, each Certificate Holder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Certificates) acknowledges, accepts, consents and agrees:
 - (i) to be bound by the effect of the exercise of the Bail-In Power (as defined below) by the Relevant Resolution Authority (as defined below) on the Issuer’s liabilities under the Certificates, which may include and result in any of the following, or some combination thereof:
 - (A) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;
 - (B) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Issuer or the Guarantor or another person (and the issue to the Certificate Holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the Conditions of the Certificates, in which case the Certificate Holder agrees to accept in lieu of its rights under the Certificates any such shares, other

securities or other obligations of the Issuer or the Guarantor or another person;

- (C) the cancellation of the Certificates; and/or
- (D) the amendment or alteration of the expiration of the Certificates or amendment of the amounts payable on the Certificates, or the date on which the amounts become payable, including by suspending payment for a temporary period; and

that terms of the Certificates are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-In Power by the Relevant Resolution Authority or the regulator,

(the “**Statutory Bail-In**”);

(ii) if the Relevant Resolution Authority exercises its Bail-In Power on liabilities of the Guarantor, pursuant to Article L.613-30-3-I-3 of the French Monetary and Financial Code (the “**Code**”):

- (A) ranking:
 - (1) junior to liabilities of the Guarantor benefitting from statutorily preferred exceptions pursuant to Article L.613-30-3-I 1° and 2 of the Code;
 - (2) *pari passu* with liabilities of the Guarantor as defined in Article L.613-30-3-I-3 of the Code; and
 - (3) senior to liabilities of the Guarantor as defined in Article L.613-30-3-I-4 of the Code; and
- (B) which are not *titres non structurés* as defined under Article R.613-28 of the Code, and
- (C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of the Guarantor

and such exercise of the Bail-In Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of the Guarantor or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-In Power, then the Issuer’s obligations under the Certificates will be limited to (i) payment of the amount as reduced or cancelled that would be recoverable by the Certificate Holders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of the Guarantor or another person that would be paid or delivered to the Certificate Holders as if, in either case, the Certificates had been directly issued by the Guarantor itself and any Amount Due under the Certificates had accordingly been directly subject to the exercise of the Bail-In Power (the “**Contractual Bail-in**”).

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-In with respect to the Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg and the European Union applicable to the Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Certificates issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Certificates, the Issuer or the Guarantor will provide a written notice to the Certificate Holders in accordance with Condition 9 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. Any delay or failure by the Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Certificates described above.

Neither a cancellation of the Certificates, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to the Certificates will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Certificate Holder to any remedies (including equitable remedies) which are hereby expressly waived.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor and each Certificate Holder. No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the Issuer and the Guarantor, shall be borne by any Certificate Holder.

For the purposes of this Condition:

“Amounts Due” means any amounts due by the Issuer under the Certificates.

“Bail-In Power” means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, varied or otherwise modified in any way and/or converted into shares or other securities or obligations of the obligor or any other person.

“MREL” means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15

May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

“**Relevant Resolution Authority**” means any authority with the ability to exercise the Bail-in Power on Societe Generale or SG Issuer as the case may be.

2. Certificate Rights and Exercise Expenses

- (a) *Certificate Rights.* Every Certificate entitles each Certificate Holder, upon due exercise and on compliance with Condition 4, to payment by the Issuer of the Cash Settlement Amount (as defined below) (if any) in the manner set out in Condition 4.

The “**Cash Settlement Amount**”, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to the Closing Level multiplied by the Notional Amount per Certificate.

The “**Closing Level**”, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to:

$$\left(\frac{\text{Final Reference Level} \times \text{Final Exchange Rate}}{\text{Initial Reference Level} \times \text{Initial Exchange Rate}} - \text{Strike Level} \right) \times \text{Hedging Fee Factor}$$

If the Issuer determines, in its sole discretion, that on the Valuation Date or any Observation Date a Market Disruption Event has occurred, then that Valuation Date or Observation Date shall be postponed until the first succeeding Exchange Business Day or Underlying Stock Business Day, as the case may be, on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the five Exchange Business Days or Underlying Stock Business Days, as the case may be, immediately following the original date that, but for the Market Disruption Event, would have been a Valuation Date or an Observation Date. In that case: -

- (i) that fifth Exchange Business Day or Underlying Stock Business Day, as the case may be, shall be deemed to be the Valuation Date or the Observation Date notwithstanding the Market Disruption Event; and
- (ii) the Issuer shall determine the Final Reference Level or the relevant closing level on the basis of its good faith estimate of the Final Reference Level or the relevant closing level that would have prevailed on that fifth Exchange Business Day or Underlying Stock Business Day, as the case may be, but for the Market Disruption Event.

“**Market Disruption Event**” means the occurrence or existence of (i) any suspension of trading on the Relevant Stock Exchange of the Underlying Stock requested by the Company if that suspension is, in the determination of the Issuer, material, (ii) any suspension of or limitation imposed on trading (including but not limited to unforeseen circumstances such as by reason of movements in price exceeding limits permitted by the Relevant Stock Exchange or any act of God, war, riot, public disorder, explosion, terrorism or otherwise) on the Relevant Stock Exchange in the Underlying Stock if that suspension or limitation is, in the determination of the Issuer, material, or (iii) the closing of the Relevant Stock Exchange or a disruption to trading on the Relevant Stock Exchange if that disruption is, in the determination of the Issuer, material as a result of the occurrence of any act of God, war, riot, public disorder, explosion or terrorism.

- (b) *Exercise Expenses.* Certificate Holders will be required to pay all charges which are incurred in respect of the exercise of the Certificates (the “**Exercise Expenses**”). An

amount equivalent to the Exercise Expenses will be deducted by the Issuer from the Cash Settlement Amount in accordance with Condition 4. Notwithstanding the foregoing, the Certificate Holders shall account to the Issuer on demand for any Exercise Expenses to the extent that they were not or could not be deducted from the Cash Settlement Amount prior to the date of payment of the Cash Settlement Amount to the Certificate Holders in accordance with Condition 4.

- (c) **No Rights.** The purchase of Certificates does not confer on the Certificate Holders any right (whether in respect of voting, dividend or other distributions in respect of the Underlying Stock or otherwise) which the holder of an Underlying Stock may have.

3. Expiry Date

Unless automatically exercised in accordance with Condition 4(b), the Certificates shall be deemed to expire at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day (as defined below), the immediately preceding Business Day.

4. Exercise of Certificates

- (a) *Exercise.* Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in accordance with Condition 4(b).
- (b) *Automatic Exercise.* Certificate Holders shall not be required to deliver an exercise notice. Exercise of Certificates shall be determined by whether the Cash Settlement Amount (less any Exercise Expenses) is positive. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates shall be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in Condition 4(c) below. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates.
- (c) *Settlement.* In respect of Certificates which are automatically exercised in accordance with Condition 4(b), the Issuer will pay to the relevant Certificate Holder the Cash Settlement Amount (if any) in the Settlement Currency. The aggregate Cash Settlement Amount (less any Exercise Expenses) shall be despatched as soon as practicable and no later than five Settlement Business Days (as defined in the relevant Supplemental Listing Document and subject to extension upon the occurrence of a Settlement Disruption Event (as defined below)) following the Expiry Date by way of crossed cheque or other payment in immediately available funds drawn in favour of the Certificate Holder only (or, in the case of joint Certificate Holders, the first-named Certificate Holder) appearing in the records maintained by CDP. Any payment made pursuant to this Condition 4(c) shall be delivered at the risk and expense of the Certificate Holder and posted to the Certificate Holder's address appearing in the records maintained by CDP (or, in the case of joint Certificate Holders, to the address of the first-named Certificate Holder appearing in the records maintained by CDP). If the Cash Settlement Amount is equal to or less than the determined Exercise Expenses, no amount is payable.

If the Issuer determines, in its sole discretion, that on any Settlement Business Day during the period of five Settlement Business Days following the Expiry Date a Settlement Disruption Event has occurred, such Settlement Business Day shall be postponed to the next Settlement Business Day on which the Issuer determines that the Settlement Disruption Event is no longer subsisting and such period shall be extended accordingly, provided that the Issuer and/or the Guarantor shall make their best endeavours to implement remedies as soon as reasonably practicable to eliminate the impact of the Settlement Disruption Event on its/their payment obligations under the Certificates and/or the Guarantee.

“Settlement Disruption Event” means the occurrence or existence of any malicious action or attempt initiated to steal, expose, alter, disable or destroy information through unauthorised access to, or maintenance or use of, the Computer Systems of the Issuer, the Guarantor, the Calculation Agent, their respective affiliates (the “SG Group”), their IT service providers, by (and without limitation) the use of malware, ransomware, phishing, denial or disruption of service or cryptojacking or any unauthorized entry, removal, reproduction, transmission, deletion, disclosure or modification preventing the Issuer, the Guarantor and/or the Calculation Agent to perform their obligations under the Certificates, and notwithstanding the implementation of processes, required, as the case may be, by the laws and regulations applicable to the Issuer, the Guarantor, the Calculation Agent and their affiliates, or their IT service providers to improve their resilience to these actions and attempts.

“Computer System” means all the computer resources including, in particular: hardware, software packages, software, databases and peripherals, equipment, networks, electronic installations for storing computer data, including Data. The Computer System shall be understood to be that which (i) belongs to the SG Group and/or (ii) is rented, operated or legally held by the SG Group under a contract with the holder of the rights to the said system and/or (iii) is operated on behalf of the SG Group by a third party within the scope of a contractual relationship and/or (iv) is made available to the SG Group under a contract within the framework of a shared system (in particular cloud computing).

“Data” means any digital information, stored or used by the Computer System, including confidential data.

- (d) *CDP not liable.* CDP shall not be liable to any Certificate Holder with respect to any action taken or omitted to be taken by the Issuer or the Warrant Agent in connection with the exercise of the Certificates or otherwise pursuant to or in connection with these Conditions.
- (e) *Business Day.* In these Conditions, a **“Business Day”** shall be a day on which the SGX-ST is open for dealings in Singapore during its normal trading hours and banks are open for business in Singapore.

5. Warrant Agent

- (a) *Warrant Agent.* The Issuer reserves the right, subject to the appointment of a successor, at any time to vary or terminate the appointment of the Warrant Agent and to appoint another Warrant Agent provided that it will at all times maintain a Warrant Agent which, so long as the Certificates are listed on the SGX-ST, shall be in Singapore. Notice of any such termination or appointment and of any change in the

specified office of the Warrant Agent will be given to the Certificate Holders in accordance with Condition 9.

- (b) *Agent of Issuer.* The Warrant Agent will be acting as agent of the Issuer and will not assume any obligation or duty to or any relationship of agency or trust for the Certificate Holders. All determinations and calculations by the Warrant Agent under these Conditions shall (save in the case of manifest error) be final and binding on the Issuer and the Certificate Holders.

6. Adjustments

- (a) *Potential Adjustment Event.* Following the declaration by a Company of the terms of any Potential Adjustment Event (as defined below), the Issuer will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the Underlying Stock and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Issuer determines appropriate to account for that dilutive or concentrative or other effect, and (ii) determine the effective date of that adjustment. The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an exchange on which options or futures contracts on the Underlying Stock are traded.

- (b) *Definitions.* “**Potential Adjustment Event**” means any of the following:

- (i) a subdivision, consolidation, reclassification or other restructuring of the Underlying Stock (excluding a Merger Event) or a free distribution or dividend of any such Underlying Stock to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution or dividend to existing holders of the Underlying Stock of (1) such Underlying Stock, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Underlying Stock, or (3) share capital or other securities of another issuer acquired by the Company as a result of a “spin-off” or other similar transaction, or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Issuer;
- (iii) an extraordinary dividend;
- (iv) a call by the Company in respect of the Underlying Stock that is not fully paid;
- (v) a repurchase by the Company of the Underlying Stock whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) with respect to a Company an event that results in any shareholder rights pursuant to a shareholder rights agreement or other plan or arrangement of the type commonly referred to as a “poison pill” being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Company (provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights); or

- (vii) any other event that may have, in the opinion of the Issuer, a dilutive or concentrative or other effect on the theoretical value of the Underlying Stock.
- (c) *Merger Event, Tender Offer, Nationalisation and Insolvency.* If a Merger Event, Tender Offer, Nationalisation or Insolvency occurs in relation to the Underlying Stock, the Issuer may take any action described below:
- (i) determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, Nationalisation or Insolvency made by an options exchange to options on the Underlying Stock traded on that options exchange;
 - (ii) cancel the Certificates by giving notice to the Certificate Holders in accordance with Condition 9. If the Certificates are so cancelled, the Issuer will pay an amount to each Certificate Holder in respect of each Certificate held by such Certificate Holder which amount shall be the fair market value of a Certificate taking into account the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, less the cost to the Issuer and/or any of its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its reasonable discretion. Payment will be made in such manner as shall be notified to the Certificate Holders in accordance with Condition 9; or
 - (iii) following any adjustment to the settlement terms of options on the Underlying Stock on such exchange(s) or trading system(s) or quotation system(s) as the Issuer in its reasonable discretion shall select (the “**Option Reference Source**”) make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Issuer to be the effective date of the corresponding adjustment made by the Option Reference Source. If options on the Underlying Stock are not traded on the Option Reference Source, the Issuer will make such adjustment, if any, to any one or more of the Conditions as the Issuer determines appropriate, with reference to the rules and precedents (if any) set by the Option Reference Source, to account for the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, that in the determination of the Issuer would have given rise to an adjustment by the Option Reference Source if such options were so traded.

Once the Issuer determines that its proposed course of action in connection with a Merger Event, Tender Offer, Nationalisation or Insolvency, it shall give notice to the Certificate Holders in accordance with Condition 9 stating the occurrence of the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. Certificate Holders should be aware that due to the nature of such events, the Issuer will not make an immediate determination of its proposed course of action or adjustment upon the announcement or occurrence of a Merger Event, Tender Offer, Nationalisation or Insolvency.

- (d) *Definitions.* “**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Company (i) all the Underlying Stock of that Company is required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Underlying Stock of that Company become legally prohibited from transferring them. “**Merger Date**” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Issuer. “**Merger Event**” means, in respect of the Underlying Stock, any (i) reclassification or change of such Underlying Stock that results in a transfer of or an irrevocable commitment to transfer all of such Underlying Stock outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of a Company with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Company is the continuing entity and which does not result in reclassification or change of all of such Underlying Stock outstanding), (iii) takeover offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Underlying Stock of the Company that results in a transfer of or an irrevocable commitment to transfer all such Underlying Stock (other than such Underlying Stock owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Company or its subsidiaries with or into another entity in which the Company is the continuing entity and which does not result in a reclassification or change of all such Underlying Stock outstanding but results in the outstanding Underlying Stock (other than Underlying Stock owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Underlying Stock immediately following such event, in each case if the Merger Date is on or before the Valuation Date. “**Nationalisation**” means that all the Underlying Stock or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof. “**Tender Offer**” means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Issuer, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Issuer deems relevant.
- (e) *Subdivision or Consolidation of the Certificates.* The Issuer reserves the right to subdivide or consolidate the Certificates, provided that such adjustment is considered by the Issuer not to be materially prejudicial to the Certificate Holders generally (without considering the circumstances of any individual Certificate Holder or the tax or other consequences of such adjustment or amendment in any particular jurisdiction) and subject to the approval of the SGX-ST.
- (f) *Other Adjustments.* Except as provided in this Condition 6 and Conditions 10 and 12, adjustments will not be made in any other circumstances, subject to the right reserved by the Issuer (such right to be exercised in the Issuer's sole discretion and without any obligation whatsoever) to make such adjustments and amendments as it believes appropriate in circumstances where an event or events occur which it

believes in its sole discretion (and notwithstanding any prior adjustment made pursuant to the above) should, in the context of the issue of the Certificates and the obligations of the Issuer, give rise to such adjustment or, as the case may be, amendment provided that such adjustment or, as the case may be, amendment is considered by the Issuer not to be materially prejudicial to the Certificate Holders generally (without considering the circumstances of any individual Certificate Holder or the tax or other consequences of such adjustment or amendment in any particular jurisdiction).

- (g) *Notice of Adjustments.* All determinations made by the Issuer pursuant hereto will be conclusive and binding on the Certificate Holders. The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective by publication in accordance with Condition 9. For the avoidance of doubt, no notice will be given if the Issuer determines that adjustments will not be made.

6A. US withholding tax implications on the Payment

Notwithstanding any other provision of these Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of the Certificates for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**US Code**”), or otherwise imposed pursuant to Sections 1471 through 1474 of the US Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto, (ii) imposed pursuant to the Section 871(m) Regulations (“**Section 871(m) Withholding**”) or (iii) imposed by any other law of the United States. In addition, in determining the amount of Section 871(m) Withholding imposed on any payments on the Certificates, the Issuer shall be entitled to withhold on any “dividend equivalent” (as defined for purposes of Section 871(m) of the US Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Specified Warrants that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on Certificates that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

For the purpose of this Condition:

“**Section 871(m) Regulations**” means the U.S. Treasury regulations issued under Section 871(m) of the Code.

“**Specified Warrants**” means, subject to special rules from 2017 through 2026 set out in Notice 2024-44 (the **Notice**), Warrants issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Warrants as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations, such that the Warrants are subject to withholding under the Section 871(m) Regulations.

7. Purchases

The Issuer, the Guarantor or any of their respective subsidiaries may at any time purchase Certificates at any price in the open market or by tender or by private treaty. Any Certificates so purchased may be held or resold or surrendered for cancellation.

8. Meetings of Certificate Holders; Modification

- (a) *Meetings of Certificate Holders.* The Master Warrant Agent Agreement or Warrant Agent Agreement contains provisions for convening meetings of the Certificate Holders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Master Warrant Agent Agreement or Warrant Agent Agreement) of a modification of the provisions of the Certificates or of the Master Warrant Agent Agreement or Warrant Agent Agreement.

At least 21 days' notice (exclusive of the day on which the notice is given and of the day on which the meeting is held) specifying the date, time and place of the meeting shall be given to the Certificate Holders.

Such a meeting may be convened by the Issuer or by Certificate Holders holding not less than ten per cent. of the Certificates for the time being remaining unexercised. The quorum at any such meeting for passing an Extraordinary Resolution will be two or more persons holding or representing not less than 25 per cent. of the Certificates for the time being remaining unexercised, or at any adjourned meeting, two or more persons being or representing Certificate Holders whatever the number of Certificates so held or represented.

A resolution will be an Extraordinary Resolution when it has been passed at a duly convened meeting by not less than three-quarters of the votes cast by such Certificate Holders who, being entitled to do so, vote in person or by proxy.

An Extraordinary Resolution passed at any meeting of the Certificate Holders shall be binding on all the Certificate Holders whether or not they are present at the meeting. Resolutions can be passed in writing if passed unanimously.

- (b) *Modification.* The Issuer may, without the consent of the Certificate Holders, effect (i) any modification of the provisions of the Certificates or the Master Instrument which is not materially prejudicial to the interests of the Certificate Holders or (ii) any modification of the provisions of the Certificates or the Master Instrument which is of a formal, minor or technical nature, which is made to correct an obvious error or which is necessary in order to comply with mandatory provisions of Singapore law. Any such modification shall be binding on the Certificate Holders and shall be notified to them by the Warrant Agent before the date such modification becomes effective or as soon as practicable thereafter in accordance with Condition 9.

9. Notices

- (a) *Documents.* All cheques and other documents required or permitted by these Conditions to be sent to a Certificate Holder or to which a Certificate Holder is entitled or which the Issuer shall have agreed to deliver to a Certificate Holder may be delivered by hand or sent by post addressed to the Certificate Holder at his address appearing in the records maintained by CDP or, in the case of joint Certificate Holders, addressed to the joint holder first named at his address appearing in the records maintained by CDP, and airmail post shall be used if that address is not in

Singapore. All documents delivered or sent in accordance with this paragraph shall be delivered or sent at the risk of the relevant Certificate Holder.

- (b) *Notices.* All notices to Certificate Holders will be validly given if published in English on the web-site of the SGX-ST. Such notices shall be deemed to have been given on the date of the first such publication. If publication on the web-site of the SGX-ST is not practicable, notice will be given in such other manner as the Issuer may determine. The Issuer shall, at least one month prior to the expiry of any Certificate, give notice of the date of expiry of such Certificate in the manner prescribed above.

10. Liquidation

In the event of a liquidation or dissolution of the Company or the appointment of a liquidator (including a provisional liquidator) or receiver or judicial manager or trustee or administrator or analogous person under Singapore or other applicable law in respect of the whole or substantially the whole of its undertaking, property or assets, all unexercised Certificates will lapse and shall cease to be valid for any purpose, in the case of voluntary liquidation, on the effective date of the relevant resolution and, in the case of an involuntary liquidation or dissolution, on the date of the relevant court order or, in the case of the appointment of a liquidator (including a provisional liquidator) or receiver or judicial manager or trustee or administrator or analogous person under Singapore or other applicable law in respect of the whole or substantially the whole of its undertaking, property or assets, on the date when such appointment is effective but subject (in any such case) to any contrary mandatory requirement of law. In the event of the voluntary liquidation of the Company, the Issuer shall make such adjustments or amendments as it reasonably believes are appropriate in the circumstances.

11. Further Issues

The Issuer shall be at liberty from time to time, without the consent of the Certificate Holders, to create and issue further certificates so as to form a single series with the Certificates, subject to the approval of the SGX-ST.

12. Delisting

- (a) *Delisting.* If at any time, the Underlying Stock ceases to be listed on the Relevant Stock Exchange, the Issuer shall give effect to these Conditions in such manner and make such adjustments and amendments to the rights attaching to the Certificates as it shall, in its absolute discretion, consider appropriate to ensure, so far as it is reasonably able to do so, that the interests of the Certificate Holders generally are not materially prejudiced as a consequence of such delisting (without considering the individual circumstances of any Certificate Holder or the tax or other consequences that may result in any particular jurisdiction).
- (b) *Issuer's Determination.* The Issuer shall determine, in its absolute discretion, any adjustment or amendment and its determination shall be conclusive and binding on the Certificate Holders save in the case of manifest error. Notice of any adjustments or amendments shall be given to the Certificate Holders in accordance with Condition 9 as soon as practicable after they are determined.

13. Early Termination

- (a) *Early Termination for Illegality and Force Majeure, etc.* If the Issuer determines that a Regulatory Event (as defined below) has occurred and, for reasons beyond its control, the performance of its obligations under the Certificates has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for

reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Certificates for any reason, the Issuer may in its discretion and without obligation terminate the Certificates early in accordance with Condition 13(e).

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

For the purposes of this Condition:

“Regulatory Event” means, following the occurrence of a Change in Law (as defined below) with respect to the Issuer and/or Société Générale as Guarantor or in any other capacity (including without limitation as hedging counterparty of the Issuer, market maker of the Certificates or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issuer of the Certificates (hereafter the **“Relevant Affiliates”** and each of the Issuer, Société Générale and the Relevant Affiliates, a **“Relevant Entity”**) that, after the Certificates have been issued, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Certificates or hedging the Issuer’s obligations under the Certificates, including, without limitation, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of, or hedging the Issuer’s obligation under, the Certificates, (ii) it is or will become for any Relevant Entity impracticable, impossible (in each case, after using commercially reasonable efforts), unlawful, illegal or otherwise prohibited or contrary, in whole or in part, under any law, regulation, rule, judgement, order or directive of any governmental, administrative or judicial authority, or power, applicable to such Relevant Entity (a) to hold, acquire, issue, reissue, substitute, maintain, settle, or as the case may be, guarantee, the Certificates, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interest thereof) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Certificates or to hedge the Issuer’s obligations under the Certificates, (c) to perform obligations in connection with, the Certificates or any contractual arrangement entered into between the Issuer and Société Générale or any Relevant Affiliate (including without limitation to hedge the Issuer’s obligations under the Certificates) or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer’s capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Certificates.

“Change in law” means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Certificates have been issued, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force when the Certificates have been issued but in respect of which the manner of its implementation or application was not known or unclear at the time, or (iii) the change of any applicable law, regulation or rule existing when the Certificates are issued, or the change in the interpretation or application or practice relating thereto,

existing when the Certificates are issued of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing when the Certificates are issued).

- (b) *Early Termination for Holding Limit Event.* The Issuer may in its discretion and without obligation terminate the Certificates early in accordance with Condition 13(e) where a Holding Limit Event (as defined below) occurs.

For the purposes of this Condition:

“**Holding Limit Event**” means, assuming the investor is the Issuer and/or any of its affiliates, the Issuer together with its affiliates, in aggregate hold, an interest in the Underlying Stock, constituting or likely to constitute (directly or indirectly) ownership, control or the power to vote a percentage of any class of voting securities of the Underlying Stock, of the Underlying Stock in excess of a percentage permitted or advisable, as determined by the Issuer, for the purpose of its compliance with the Bank Holding Company Act of 1956 as amended by Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Volcker Rule), including any requests, regulations, rules, guidelines or directives made by the relevant governmental authority under, or issued by the relevant governmental authority in connection with, such statutes.

- (c) *Early Termination for Hedging Disruption.* If the Issuer or any of its affiliates is, following commercially reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedge Positions (as defined below) or (ii) to freely realize, recover, receive, repatriate, remit, regain or transfer the proceeds of any Hedge Position (where either (i) or (ii) shall constitute a “**Hedging Disruption**”), the Issuer may terminate the Certificates early in accordance with Condition 13(e) provided that the intrinsic value on the previous trading day of the relevant Certificate is at or above the Issue Price. The Issuer’s decision on whether a Hedging Disruption has occurred is final and conclusive. For the avoidance of doubt, Hedging Disruptions shall include the scenario where any Hedge Position cannot be maintained up to the amount necessary to cover all of the Issuer’s obligations under the Certificates.

For the purposes hereof, “**Hedge Positions**” means any one or more commercially reasonable (i) positions (including long or short positions) or contracts in, or relating to, securities, options, futures, other derivatives contracts or foreign exchange, (ii) stock loan or borrowing transactions or (iii) other instruments, contracts, transactions or arrangements (howsoever described) that the Issuer or any of its affiliates determines necessary to hedge, individually or on a portfolio basis, any risk (including, without limitation, market risk, price risk, foreign exchange risk and interest rate risk) in relation to the assumption and fulfilment of the Issuer’s obligations under the Certificates.

- (d) *Early Termination for other reasons.* The Issuer reserves the right (such right to be exercised in the Issuer’s sole and unfettered discretion and without any obligation whatsoever) to terminate the Certificates in accordance with Condition 13(e) where an event or events occur which it believes in its sole discretion should, in the context of the issue of the Certificates and the obligations of the Issuer, give rise to such

termination provided that such termination (i) is considered by the Issuer not to be materially prejudicial to the interests of Certificate Holders generally (without considering the circumstances of any individual Certificate Holder or the tax or other consequences of such termination in any particular jurisdiction); or (ii) is otherwise considered by the Issuer to be appropriate and such termination is approved by the SGX-ST.

- (e) *Termination.* If the Issuer terminates the Certificates early, the Issuer will give notice to the Certificate Holders in accordance with Condition 9. The Issuer will, if and to the extent permitted by applicable law, pay an amount to each Certificate Holder in respect of each Certificate held by such holder equal to the fair market value of a Certificate notwithstanding such illegality, impracticality or the relevant event less the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion. The determination of the fair market value may deviate from the determination of the Cash Settlement Amount under different scenarios, including but not limited to, where (i) the Daily Reset (as defined in the relevant Supplemental Listing Document) mechanism is suspended and/or (ii) the Final Reference Level is determined based on the closing price of the Underlying Stock on multiple Underlying Stock Business Days or Exchange Business Days, as the case may be. Payment will be made in such manner as shall be notified to the Certificate Holders in accordance with Condition 9.

14. Substitution of the Issuer

The Issuer may be replaced by the Guarantor or any subsidiary of the Guarantor as principal obligor in respect of the Certificates without the consent of the relevant Certificate Holders. If the Issuer determines that it shall be replaced by the Guarantor or any subsidiary of the Guarantor (the “**Substituted Obligor**”), it shall give at least 90 days’ notice (exclusive of the day on which the notice is given and of the day on which the substitution is effected) specifying the date of the substitution, in accordance with Condition 9, to the Certificate Holders of such event and, immediately on the expiry of such notice, the Substituted Obligor shall become the principal obligor in place of the Issuer and the Certificate Holders shall thereupon cease to have any rights or claims whatsoever against the Issuer.

Upon any such substitution, all references to the Issuer in the Conditions and all agreements relating to the Certificates will be to the Substituted Obligor and the Certificates will be modified as required, and the Certificate Holders will be notified of the modified terms and conditions of such Certificates in accordance with Condition 9.

For the purposes of this Condition, it is expressly agreed that by subscribing to, acquiring or otherwise purchasing or holding the Certificates, the Certificate Holders are expressly deemed to have consented to the substitution of the Issuer by the Substituted Obligor and to the release of the Issuer from any and all obligations in respect of the Certificates and all agreements relating thereto and are expressly deemed to have accepted such substitution and the consequences thereof.

15. Governing Law

The Certificates, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement will be governed by and construed in accordance with Singapore law. The Issuer and the Guarantor and each Certificate Holder (by its purchase of the Certificates) shall be deemed to have submitted for all purposes in connection with the Certificates, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement to the non-exclusive jurisdiction of the

courts of Singapore. The Guarantee shall be governed by and construed in accordance with Singapore law.

16. Prescription

Claims against the Issuer for payment of any amount in respect of the Certificates will become void unless made within six years of the Expiry Date and, thereafter, any sums payable in respect of such Certificates shall be forfeited and shall revert to the Issuer.

17. Contracts (Rights of Third Parties) Act 2001 of Singapore

Unless otherwise provided in the Global Warrant, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement, a person who is not a party to any contracts made pursuant to the Global Warrant, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement has no rights under the Contracts (Rights of Third Parties) Act 2001 of Singapore to enforce any terms of such contracts. Except as expressly provided herein, the consent of any third party is not required for any subsequent agreement by the parties hereto to amend or vary (including any release or compromise of any liability) or terminate such contracts.

SUMMARY OF THE ISSUE

The following is a summary of the issue and should be read in conjunction with, and is qualified by reference to, the other information set out in this document and the Base Listing Document. Terms used in this Summary are defined in the Conditions.

| | |
|--------------------------------|---|
| Issuer: | SG Issuer |
| Company: | Microsoft Corporation |
| The Certificates: | European Style Cash Settled Short Certificates relating to the Underlying Stock |
| Number: | 2,700,000 Certificates |
| Form: | The Certificates will be issued subject to, and with the benefit of, a master instrument by way of deed poll dated 14 June 2024 (the “ Master Instrument ”) and executed by the Issuer and the Guarantor and a master warrant agent agreement dated 29 May 2017 (the “ Master Warrant Agent Agreement ”) and made between the Issuer, the Guarantor and the Warrant Agent (as amended and/or supplemented from time to time). |
| Cash Settlement Amount: | In respect of each Certificate, is the amount (if positive) equal to: Notional Amount per Certificate x Closing Level |
| Denominations: | Certificates are represented by a global warrant in respect of all the Certificates. |
| Exercise: | The Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in a Board Lot or integral multiples thereof. Certificate Holders will not be required to deliver an exercise notice. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates will be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in Condition 4(c) of the Conditions. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates. |
| Exercise and Trading Currency: | SGD |
| Board Lot: | 100 Certificates |

- Transfers of Certificates: Certificates may only be transferred in Board Lots (or integral multiples thereof). All transfers in Certificates, in the open market or otherwise, must be effected through a securities account with CDP. Title will pass upon registration of the transfer in the records of CDP.
- Listing: Application has been made to the SGX-ST for permission to deal in and for quotation of the Certificates and the SGX-ST has agreed in principle to grant permission to deal in and for quotation of the Certificates. Issue of the Certificates is conditional on such listing being granted. It is expected that dealings in the Certificates on the SGX-ST will commence on or about 8 October 2024.
- Governing Law: The laws of Singapore
- Warrant Agent: The Central Depository (Pte) Limited
4 Shenton Way
#02-01 SGX Centre 2
Singapore 068807
- Further Issues: Further issues which will form a single series with the Certificates will be permitted, subject to the approval of the SGX-ST.

The above summary is qualified in its entirety by reference to the detailed information appearing elsewhere in this document and the Base Listing Document.

INFORMATION RELATING TO THE EUROPEAN STYLE CASH SETTLED SHORT CERTIFICATES ON SINGLE EQUITIES

What are European Style Cash Settled Short Certificates on Single Equities?

European style cash settled short certificates on single equities (the “**Certificates**”) are structured products relating to the Underlying Stock and the return on a Certificate is linked to the performance of the Leverage Inverse Strategy.

A) Cash Settlement Amount Payable upon the Exercise of the Certificates at Expiry

Upon the exercise of the Certificates at expiry, the Certificate Holders would be paid a Cash Settlement Amount in respect of each Certificate.

The Cash Settlement Amount, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to the Closing Level multiplied by the Notional Amount per Certificate.

The Closing Level, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to (1) divided by (2) less (3) subject to any adjustments such as (4), where:

- (1) is the Final Reference Level multiplied by the Final Exchange Rate;
- (2) is the Initial Reference Level multiplied by the Initial Exchange Rate;
- (3) is the Strike Level; and
- (4) is the Hedging Fee Factor.

If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates shall be deemed to have been automatically exercised and investors will receive a Cash Settlement Amount. If the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired. Please refer to the section headed “Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities” for further details on the calculation of the Cash Settlement Amount.

The Certificates are only suitable for investors who believe that the price of the Underlying Stock will fall and are seeking short-term leveraged inverse exposure to the Underlying Stock.

B) Trading the Certificates before Expiry

If the Certificate Holders want to cash out their investments in the Certificates before the expiry of the Certificates, they may sell the Certificates in the secondary market during the life of the Certificates, and would be subject to the following fees and charges:

- (i) For Certificate Holders who trade the Certificates intraday: shall pay normal transaction and brokerage fees for the trading of the Certificates on the SGX-ST, and may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Certificates are transferred; and
- (ii) For Certificate Holders who hold the Certificates beyond market close of the SGX-ST: in addition to the normal transaction and brokerage fees and applicable stamp taxes, would also be required to bear the Management Fee and Gap Premium as well as certain costs embedded within the Leverage Inverse Strategy including the Stock Borrowing Cost and Rebalancing Cost. Due to the difference in trading hours of the SGX-ST and the Relevant Stock Exchange for the Underlying Stock, unless investors exit their position within the same SGX-ST trading day, they would bear the annualised costs.

Illustration of the Calculation of Hedging Fee Factor

| | | |
|--------------------|---|---------------------------|
| Hedging Fee Factor | = | Product of the Daily Fees |
|--------------------|---|---------------------------|

| | | |
|------------|---|--|
| Daily Fees | = | Daily Management Fee Adjustment |
| | | $1 - \text{Management Fee} \times \text{ACT} (t-1;t) / 360$ |
| | | x |
| | | Daily Gap Premium Adjustment |
| | | $1 - \text{Gap Premium} (t-1) \times \text{ACT} (t-1;t) / 360$ |

Illustration of the Calculation of Cash Settlement Amount

Cash Settlement Amount = Final Value of Certificates – Strike Level (zero)

| | | | | | | | | | | | |
|-----------------------|---|-----------------|---|--|---|------------|-------|---|------------|---|------------|
| Value of Certificates | = | $t^0=0$ | x | $t=1$ | x | $t=2$ | x ... | $t=i$ | | | |
| | | Notional Amount | | Leverage Inverse Strategy daily performance ⁷ | | Daily Fees | | Leverage Inverse Strategy daily performance | Daily Fees | Leverage Inverse Strategy Daily performance | Daily Fees |
| | | | | | | | | | | | |
| | | | | | | | | | | | |

| | | | | | | |
|-----------------------|---|-----------------|---|---|---|---|
| Value of Certificates | = | $t=0$ | x | Product of the daily Leverage Inverse Strategy Performance | x | Product of the Daily Fees (Hedging Fee Factor) |
| | | Notional Amount | | Leverage Inverse Strategy daily performance x Leverage Inverse Strategy daily performance | | Daily Fees x Daily Fees |
| | | | | | | |

| | | | | | | | | |
|-----------------------------|---|-----------------|---|---|---|---|---|--------------------|
| Final Value of Certificates | = | $t=0$ | x | Final Reference Level x Final Exchange Rate | ÷ | Initial Reference Level x Initial Exchange Rate | x | Hedging Fee Factor |
| | | Notional Amount | | | | | | |

Illustration of the applicable fees and charges for an intraday trading scenario

Hedging Fee is implemented overnight in the price of the Certificate. As a consequence, when trading intraday within SGX-ST trading hours, investors will not bear any Hedging Fee.

Investors will only support bid/ask costs, which are the difference between the price at which the Designated Market Maker purchases (bid) and sells (ask) the Certificate at any point of time.

⁶ "t" refers to "Observation Date" which means each Underlying Stock Business Day (subject to Market Disruption Event) from (and including) the Underlying Stock Business Day immediately preceding the Expected Listing Date to the Valuation Date on which no Market Disruption Event occurs.

⁷ Leverage Inverse Strategy daily performance is computed as the Leverage Inverse Strategy Closing Level on Business Day (t) divided by the Leverage Inverse Strategy Closing Level on Business Day (t-1).

Example of Calculation of Hedging Fee Factor and Cash Settlement Amount

The example is purely hypothetical. We include the example to illustrate how the Certificates work, and you MUST NOT rely on them as any indication of the actual return or what the payout on the Certificates might actually be. The example also assumes a product which expires 16 days after listing date, to illustrate the daily calculation of price, costs and fees from listing date to expiry date.

Assuming an investor purchases the following Certificates at the Issue Price:

| | |
|----------------------------------|---------------------------------------|
| Underlying Stock: | Common Stock of Microsoft Corporation |
| Expected Listing Date: | 03/07/2018 |
| Expiry Date: | 18/07/2018 |
| Initial Reference Level: | 1,000 |
| Initial Exchange Rate: | 1 |
| Final Reference Level: | 1,200 |
| Final Exchange Rate: | 1 |
| Issue Price: | 4.00 SGD |
| Notional Amount per Certificate: | 4.00 SGD |
| Management Fee (p.a.): | 0.40% |
| Gap Premium (p.a.): | 11.50% |
| Strike Level: | Zero |

Hedging Fee Factor

Hedging Fee Factor on the n^{th} Underlying Stock Business Day after issuance of Certificate ("HFF (n)") is calculated as follows:

$$\text{HFF}(0) = 100\%$$

On Next Calendar Day (assuming it is an Underlying Stock Business Day):

$$\text{HFF}(1) = \text{HFF}(0) \times \left(1 - \text{Management Fee} \times \frac{\text{ACT}(t-1; t)}{360}\right) \times \left(1 - \text{Gap Premium} \times \frac{\text{ACT}(t-1; t)}{360}\right)$$

$$\text{HFF}(1) = 100\% \times \left(1 - 0.40\% \times \frac{1}{360}\right) \times \left(1 - 11.50\% \times \frac{1}{360}\right)$$

$$\text{HFF (1)} = 100\% \times 99.9989\% \times 99.9681\% \approx 99.9669\%$$

Assuming 2nd Underlying Stock Business Day falls 3 Calendar Days after 1st Underlying Stock Business Day:

$$\text{HFF (2)} = \text{HFF (1)} \times \left(1 - \text{Management Fee} \times \frac{\text{ACT}(t-1;t)}{360}\right) \times \left(1 - \text{Gap Premium} \times \frac{\text{ACT}(t-1;t)}{360}\right)$$

$$\text{HFF (2)} = 99.9669\% \times \left(1 - 0.40\% \times \frac{3}{360}\right) \times \left(1 - 11.50\% \times \frac{3}{360}\right)$$

$$\text{HFF (2)} = 99.9669\% \times 99.9967\% \times 99.9042\% \approx 99.8678\%$$

The same principle applies to the following Underlying Stock Business Days:

$$\text{HFF (n)} = \text{HFF (n-1)} \times \left(1 - \text{Management Fee} \times \frac{\text{ACT}(t-1;t)}{360}\right) \times \left(1 - \text{Gap Premium} \times \frac{\text{ACT}(t-1;t)}{360}\right)$$

In this example, the Hedging Fee Factor as of the Valuation Date would be equal to 99.5053% as illustrated below:

| Date | HFF |
|------------|-----------|
| 03/07/2018 | 100.0000% |
| 04/07/2018 | 99.9669% |
| 05/07/2018 | 99.9339% |
| 06/07/2018 | 99.9009% |
| 09/07/2018 | 99.8018% |
| 10/07/2018 | 99.7688% |
| 11/07/2018 | 99.7358% |
| 12/07/2018 | 99.7029% |
| 13/07/2018 | 99.6699% |
| 16/07/2018 | 99.5711% |
| 17/07/2018 | 99.5382% |
| 18/07/2018 | 99.5053% |

Cash Settlement Amount

In this example, the Closing Level and the Cash Settlement Amount would be computed as follows:

$$\begin{aligned} \text{Closing Level} &= [(\text{Final Reference Level} \times \text{Final Exchange Rate}) / (\text{Initial Reference Level} \times \text{Initial Exchange Rate}) - \text{Strike Level}] \times \text{Hedging Fee Factor} \\ &= [(1200 \times 1) / (1000 \times 1) - 0] \times 99.5053\% \\ &= 119.41\% \end{aligned}$$

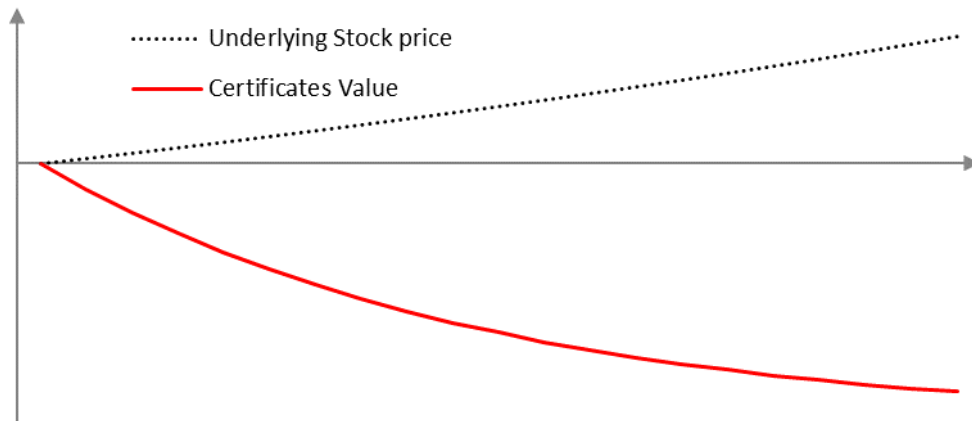

$$\begin{aligned} \text{Cash Settlement Amount} &= \text{Closing Level} \times \text{Notional Amount per Certificate} \\ &= 119.41\% \times 4.00 \text{ SGD} \\ &= 4.776 \text{ SGD} \end{aligned}$$

Illustration on how returns and losses can occur under different scenarios

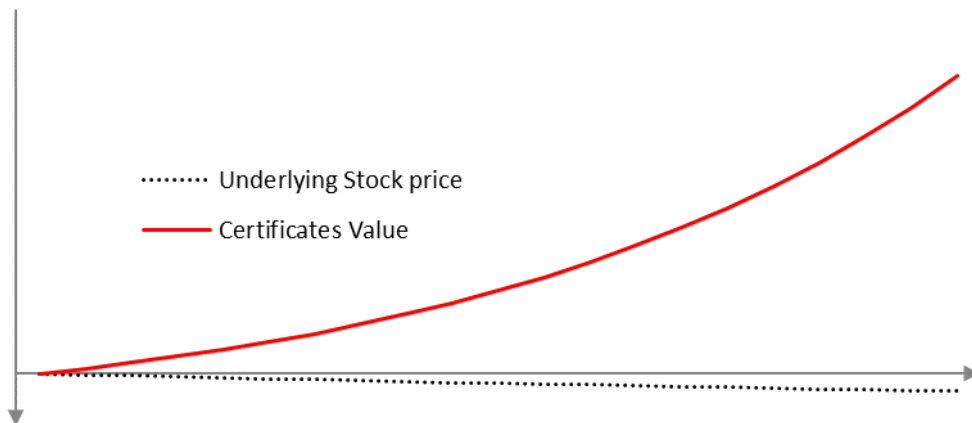

The examples are purely hypothetical and do not take fees and charges payable by investors into consideration. The examples highlight the effect of the Underlying Stock performance on the value of the Certificates and do not take into account the possible influence of fees or any other market parameters.

1. Illustrative examples

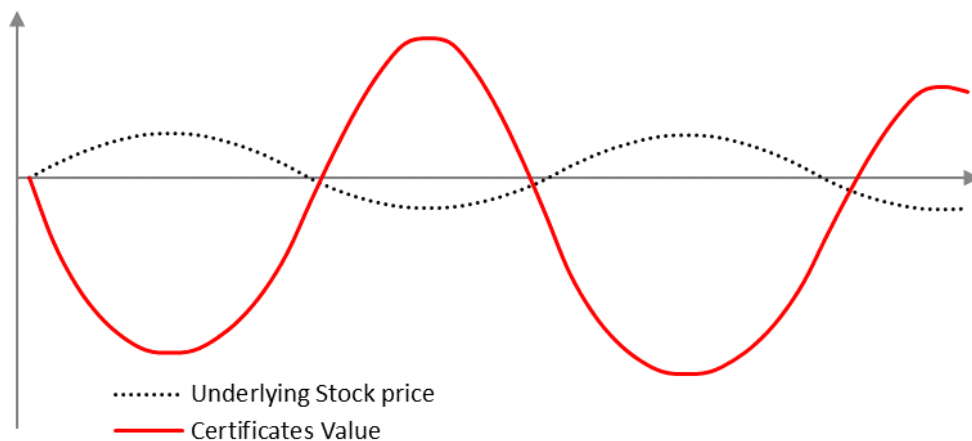

Scenario 1 – Upward Trend (during US trading hours)

Scenario 2 – Downward Trend (during US trading hours)

Scenario 3 – Volatile Market (during US trading hours)

2. Numerical Examples

Scenario 1 – Upward Trend

| Underlying Stock | | | | | | |
|--------------------------------|----------|----------|----------|----------|----------|----------|
| | Day 0 | Day 1 | Day 2 | Day 3 | Day 4 | Day 5 |
| Daily return | | 2.0% | 2.0% | 2.0% | 2.0% | 2.0% |

Description of Air Bag Mechanism

The Certificates integrate an “Air Bag Mechanism” which is designed to reduce exposure to the Underlying Stock during extreme market conditions.

When the Air Bag triggers, the following events occur:

- **Observation Period:** the price of the Underlying Stock is observed and its maximum price is recorded (i) during 15 minutes of continuous trading after the Air Bag is triggered, or (ii) until Market Close if there is less than 15 minutes of continuous trading until Market Close when the Air Bag Mechanism is triggered; and thereafter
- **Reset Period:** the Leverage Inverse Strategy is reset using the maximum price of the Underlying Stock during the Observation Period as the New Observed Price. The New Observed Price replaces the last closing price of the Underlying Stock in order to compute the performance of the Leverage Inverse Strategy after the reset.

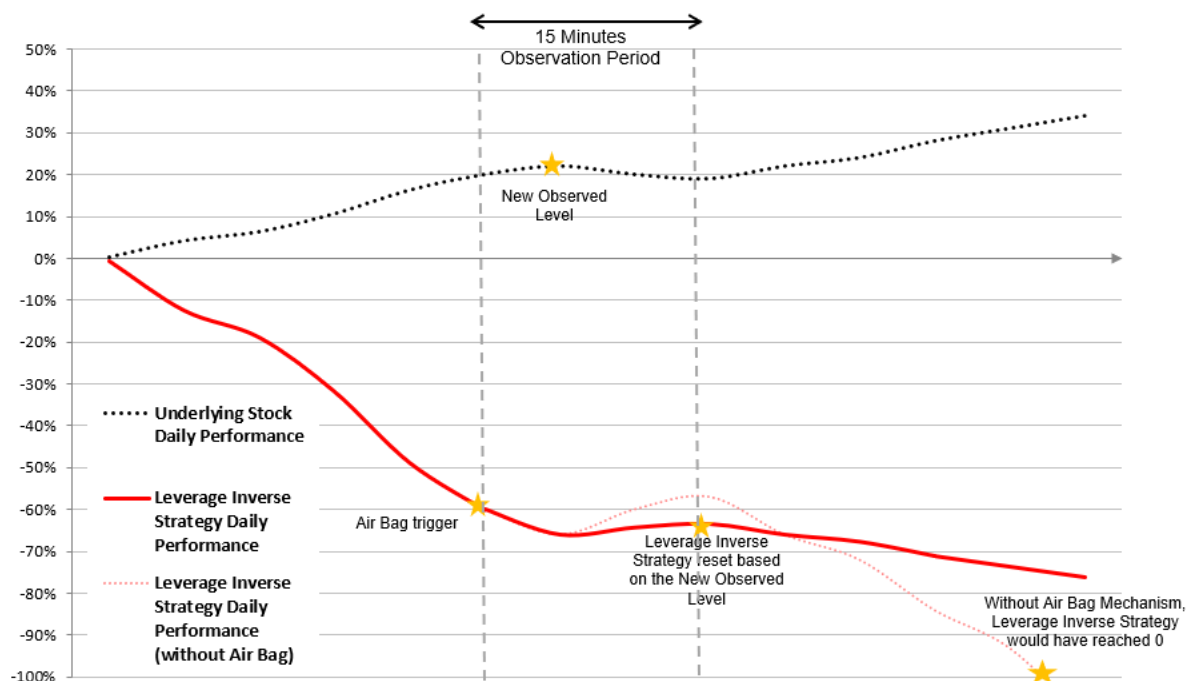

With **Market Close** defined as:

- the Underlying Stock closing time with respect to the Observation Period

The performance of the Leverage Inverse Strategy will be the inverse of the Underlying Stock.

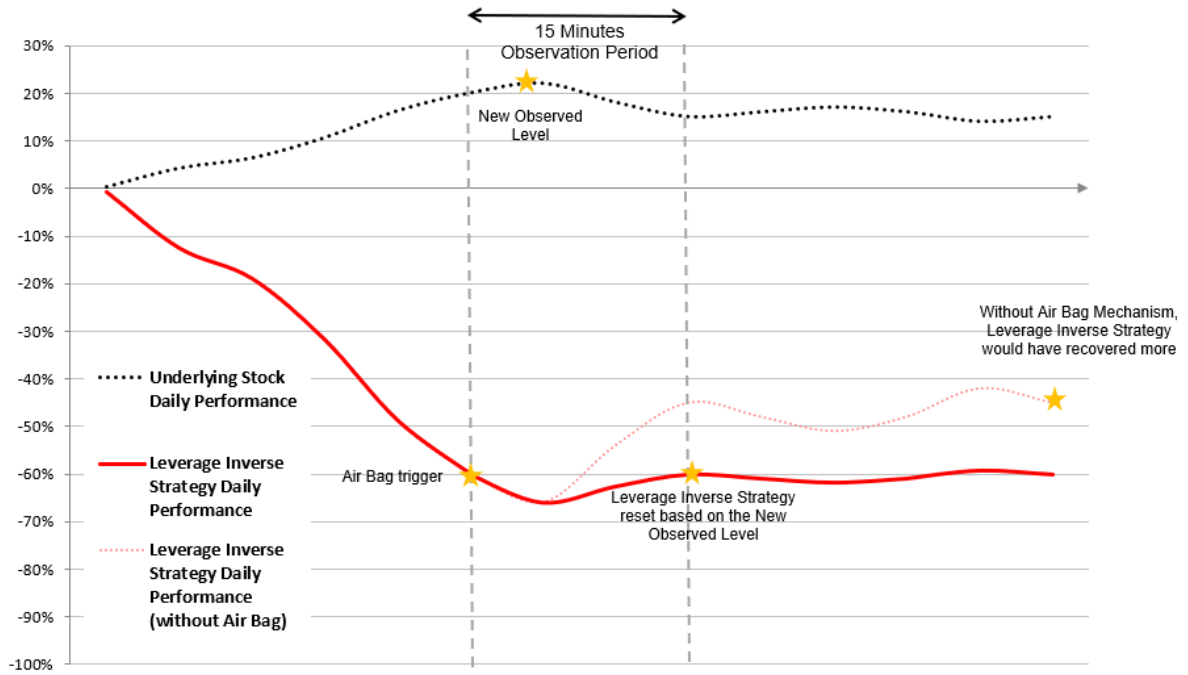

Illustrative examples of the Air Bag Mechanism⁸

Scenario 1 – Upward Trend after Air Bag trigger (during US trading hours)

⁸ The illustrative examples are not exhaustive. The illustrative examples above are designed to illustrate the impact of the Air Bag Mechanism on the assumption that there will be a residual value in the Certificates following the Air Bag triggers. Please refer to “Scenarios where the investor may lose the entire value of the investment” on pages 54 to 55 on hypothetical scenarios when investors may lose their entire value of the investment.

Scenario 2 – Downward Trend after Air Bag trigger (during US trading hours)

- The Air Bag Mechanism can only be triggered during trading hours of the Relevant Stock Exchange for the Underlying Stock

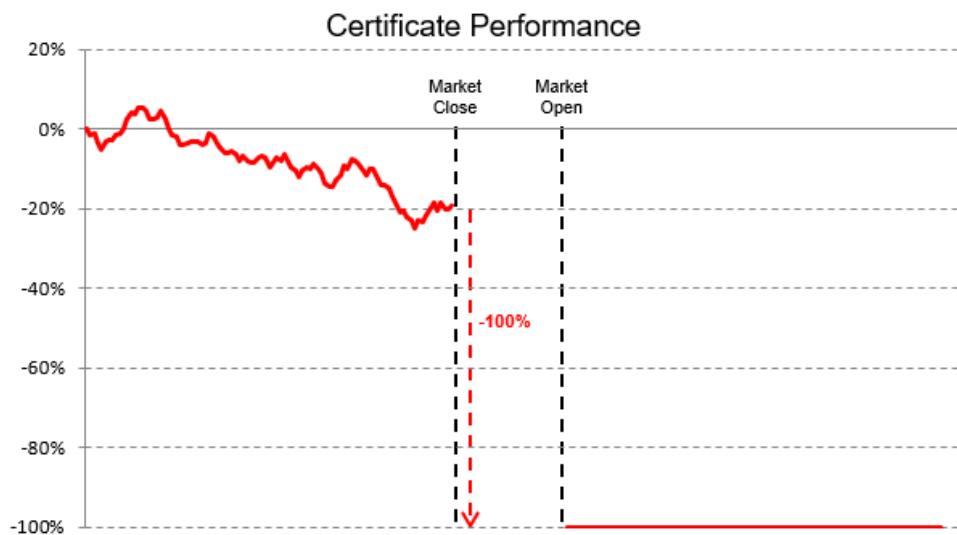

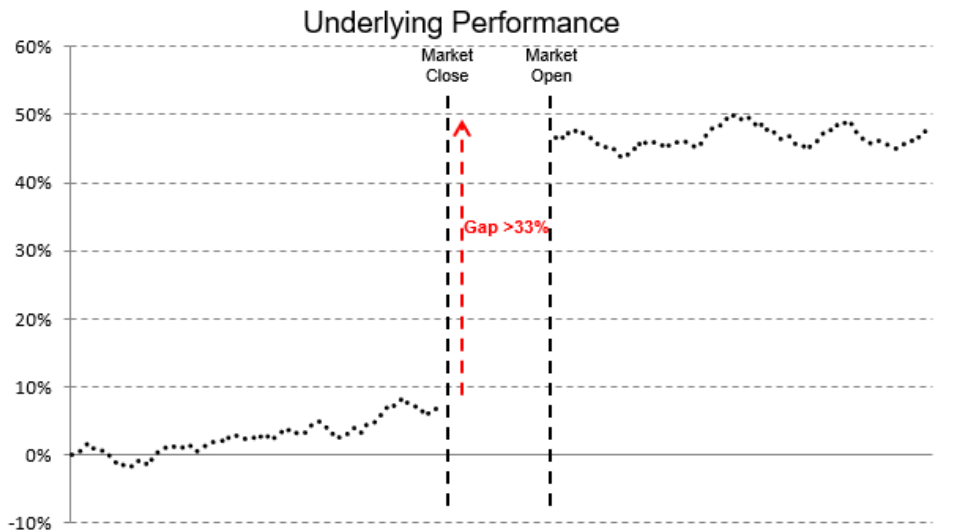

Scenarios where the investor may lose the entire value of the investment

The scenarios below are purely hypothetical and do not take fees and charges payable by investors into consideration. The scenarios highlight cases where the Certificates may lose 100% of their value.

Scenario 1 – Rise of the Underlying Stock outside of US trading hours

On any Underlying Stock Business Day, the opening price of the Underlying Stock may be higher or lower than the closing price on the previous trading day of the Relevant Stock Exchange for the Underlying Stock. The difference between the previous closing price and the opening price of the Underlying Stock is termed a “gap”. If the opening price of the Underlying Stock is approximately 33% or more above the closing price on the previous trading day of the Relevant Stock Exchange for the Underlying Stock, the Air Bag Mechanism may only be triggered during the trading hours of the Relevant Stock Exchange for the Underlying Stock, and the Certificates would lose their entire value in such event. In such case, as the Certificates became valueless during the US trading hours, at subsequent SGX-ST open, the DMM may not provide any quotation on the Certificates and the Issuer may apply to suspend trading of the Certificates.

Scenario 2 – Sharp intraday rise of the Underlying Stock during US trading hours

Although the Air Bag Mechanism is designed to reduce the exposure to the Underlying Stock during extreme market conditions, the Certificates can lose 100% of their value in the event the price of the Underlying Stock rises by approximately 33% or more within the 15 minutes Observation Period compared to the reference price, being: (i) if air bag has not been previously triggered on the same day, the previous closing price of the Underlying Stock, or (ii) if one or more air bag have been previously triggered on the same day, the latest New Observed Price. The Certificates would lose their entire value in such event. In such case, as the Certificates became valueless during the US trading hours, at subsequent SGX-ST open, the DMM may not provide any quotation on the Certificates and the Issuer may apply to suspend trading of the Certificates.

Examples and illustrations of adjustments due to certain corporate actions

The examples are purely hypothetical and do not take fees and charges payable by investors into consideration. The examples highlight the effect of corporate actions on the value of the Certificates and do not take into account the possible influence of fees, exchange rates, or any other market parameters.

In the case of any corporate action on the Underlying Stock, the Calculation Agent will, as soon as reasonably practical after it becomes aware of such event, determine whether such corporate action has a dilutive or concentrative effect on the theoretical value of the Underlying Stock, and if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the Underlying Stock which are used to determine any settlement or payment terms under the Certificates and/or adjust at its discretion any other terms of the Certificates as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Certificates and (b) determine the effective date of such adjustment.

Notwithstanding the foregoing, in the event Observation Date (t) is an ex-date with respect to a corporate action related to the Underlying Stock, the Calculation Agent may, in its sole and absolute discretion, replace the $Rfactor_t$ with respect to such Observation Date (t) by an amount computed according to the following generic formula:

$$Rfactor_t = \left[1 - \frac{Div_t + DivExc_t - M \times R}{S_{t-1}} \right] \times \frac{1}{1 + M}$$

This formula is provided for indicative purposes and the Calculation Agent may determine that this formula is not appropriate for certain corporate actions and may apply a different formula instead.

Such adjustment of $Rfactor_t$ would affect the Leveraged Return, the Rebalancing Cost, and the Underlying Reference Price used to determine the Intraday Restrike Event. The Air Bag Mechanism would not be triggered if the stock price rises by 20% exclusively because of the dilutive effect of a corporate action.

Where:

$DivExc_t$ is the amount received as an Extraordinary Dividend by a holder of existing Shares for each Share held prior to the Extraordinary Dividend, net of any applicable withholding taxes.

M is the number of new Share(s) (whether a whole or a fraction) per existing Share each holder thereof is entitled to subscribe or to receive (positive amount) or the number of existing Shares redeemed or canceled per existing Share (negative amount), as the case may be, resulting from the corporate action.

R is the subscription price per Share (positive amount) or the redemption price per Share (negative amount) including any dividends or other benefits forgone to be subscribe to or to receive (as applicable), or to redeem a Share.

1. Stock split

Assuming the Underlying Stock is subject to a 1 to 2 stock split (i.e. 1 new Share for every 1 existing share):

$$S_{t-1} = \$100$$

$$S_t = \$51$$

$$Div_t = \$0$$

$$DivExc_t = \$0$$

M = 1 (i.e. 1 new Shares for 1 existing Share)

R = \$0 (no subscription price / redemption price)

$$Rfactor_t = \left[1 - \frac{0 + 0 - 2 \times 0}{100} \right] \times \frac{1}{1 + 1} = 50\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = -3 \times \left(\frac{51}{100 \times 50\%} - 1 \right) = -6\%$$

| S_{t-1} | $S_{t-1} \times Rfactor_t$ | S_t | Adjusted Underlying Stock Performance |
|-----------|----------------------------|-------|---------------------------------------|
| 100 | 50 | 51 | 2% |

| Value of the Certificate (t-1) | Value of the Certificate (t) | Certificates' performance (excluding any cost and fees) |
|--------------------------------|------------------------------|---|
| 4.00 | 3.76 | -6% |

In such case an Intraday Restrike Event would occur if the Underlying Stock price rises to \$60, which is 20% above \$50, the Underlying Stock Reference Price.

2. Share Consolidation

Assuming the Underlying Stock is subject to a 2 to 1 share consolidation (i.e. 1 Share canceled for every 2 existing Shares):

$$S_{t-1} = \$100$$

$$S_t = \$202$$

$$Div_t = \$0$$

$$DivExc_t = \$0$$

M = -0.5 (i.e. 0.5 Shares canceled for each 1 existing Share)

R = \$0 (no subscription price / redemption price)

$$Rfactor_t = \left[1 - \frac{0 + 0 - (-0.5) \times 0}{100} \right] \times \frac{1}{1 + (-0.5)} = 200\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = -3 \times \left(\frac{202}{100 \times 200\%} - 1 \right) = -3\%$$

| S_{t-1} | $S_{t-1} \times Rfactor_t$ | S_t | Adjusted Underlying Stock Performance |
|-----------|----------------------------|-------|---------------------------------------|
| 100 | 200 | 202 | 1% |

| Value of the Certificate (t-1) | Value of the Certificate (t) | Certificates' performance (excluding any cost and fees) |
|--------------------------------|------------------------------|---|
| 4.00 | 3.88 | -3% |

In such case an Intraday Restrike Event would occur if the Underlying Stock price rises to \$240, which is 20% above \$200, the Underlying Stock Reference Price.

3. Rights Issues

Assuming there is a rights issue with respect to the Underlying Stock, with a right to receive 1 new Share for every 2 existing Shares, for a subscription price of \$40.

$$S_{t-1} = \$100$$

$$S_t = \$84$$

$$Div_t = \$0$$

$$DivExc_t = \$0$$

$$R = \$40 \text{ (i.e. subscription price of \$40)}$$

$$M = 0.5 \text{ (i.e. 1 new share for every 2 existing shares)}$$

$$Rfactor_t = \left[1 - \frac{0 + 0 - 0.5 \times 40}{100} \right] \times \frac{1}{1 + 0.5} = 80\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = -3 \times \left(\frac{84}{100 \times 80\%} - 1 \right) = -15\%$$

| S_{t-1} | $S_{t-1} \times Rfactor_t$ | S_t | Adjusted Underlying Stock Performance |
|-----------|----------------------------|-------|---------------------------------------|
| 100 | 80 | 84 | 5% |

| Value of the Certificate (t-1) | Value of the Certificate (t) | Certificates' performance (excluding any cost and fees) |
|--------------------------------|------------------------------|---|
| 4.00 | 3.40 | -15% |

In such case an Intraday Restrike Event would occur if the Underlying Stock price rises to \$96, which is 20% above \$80, the Underlying Stock Reference Price.

4. Bonus Issues

Assuming there is a bonus issue with respect to the Underlying Stock, where shareholders receive 1 bonus share for 5 existing shares:

$$S_{t-1} = \$100$$

$$S_t = \$85$$

$$\text{Div}_t = \$0$$

$$\text{DivExc}_t = \$0$$

$$R = \$0$$

$$M = 0.2 \text{ (i.e. 1 new share for 5 existing shares)}$$

$$Rfactor_t = \left[1 - \frac{0 + 0 - 0.2 \times 0}{100} \right] \times \frac{1}{1 + 0.2} = 83.33\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = -3 \times \left(\frac{85}{100 \times 83.33\%} - 1 \right) = -6\%$$

| S_{t-1} | $S_{t-1} \times Rfactor_t$ | S_t | Adjusted Underlying Stock Performance |
|-----------|----------------------------|-------|---------------------------------------|
| 100 | 83.33 | 85 | 2% |

| Value of the Certificate (t-1) | Value of the Certificate (t) | Certificates' performance (excluding any cost and fees) |
|--------------------------------|------------------------------|---|
| 4.00 | 3.76 | -6% |

In such case an Intraday Restrike Event would occur if the Underlying Stock price rises to \$100, which is 20% above \$83.33, the Underlying Stock Reference Price.

5. Extraordinary Dividend

Assuming there is an extraordinary dividend of \$20 (net of taxes) paid in respect of each stock.

$$S_{t-1} = \$100$$

$$S_t = \$84$$

$$\text{Div}_t = \$0$$

$$\text{DivExc}_t = \$20$$

$$R = \$0$$

$$M = 0$$

$$Rfactor_t = \left[1 - \frac{0 + 20 - 0 \times 0}{100} \right] \times \frac{1}{1 + 0} = 80\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = -3 \times \left(\frac{84}{100 \times 80\%} - 1 \right) = -15\%$$

| S_{t-1} | $S_{t-1} \times Rfactor_t$ | S_t | Adjusted Underlying Stock Performance |
|-----------|----------------------------|-------|--|
| 100 | 80 | 84 | 5% |

| Value of the Certificate (t-1) | Value of the Certificate (t) | Certificates' performance (excluding any cost and fees) |
|--------------------------------|------------------------------|--|
| 4.00 | 3.40 | -15% |

In such case an Intraday Restrike Event would occur if the Underlying Stock price rises to \$96, which is 20% above \$80, the Underlying Stock Reference Price.

INFORMATION RELATING TO THE COMPANY

All information contained in this document regarding the Company, including, without limitation, its financial information, is derived from publicly available information which appears on the web-site of NASDAQ at www.nasdaq.com and/or the Company's web-site at <https://www.microsoft.com/en-us/investor/>. The Issuer has not independently verified any of such information.

Microsoft Corporation (the "**Company**") operates as a software company. The Company offers applications, extra cloud storage, and advanced security solutions. Microsoft serves customers worldwide.

The information set out in the Appendix to this document relates to the annual report of the Company and its subsidiaries for the fiscal year ended 30 June 2024 and has been extracted and reproduced from an announcement by the Company dated 30 July 2024 in relation to the same. Further information relating to the Company may be located on the web-site of NASDAQ at www.nasdaq.com.

INFORMATION RELATING TO THE DESIGNATED MARKET MAKER

Société Générale has been appointed the designated market maker (“**DMM**”) for the Certificates. The DMM will provide competitive buy and sell quotes for the Certificates continuously during the trading hours of the SGX-ST on the following basis:

- (a) Maximum bid and offer spread : (i) when the best bid price of the Certificate is S\$10 and below: 10 ticks or S\$0.20 whichever is greater; and
(ii) when the best bid price of the Certificate is above S\$10: 5% of the best bid price of the Certificate.
- (b) Minimum quantity subject to bid and offer spread : 10,000 Certificates
- (c) Last Trading Day for Market Making : The date falling 5 Business Days immediately preceding the Expiry Date

In addition, the DMM may not provide quotations in the following circumstances:

- (i) during the pre-market opening and five minutes following the opening of the SGX-ST on any trading day;
- (ii) if the Certificates are valueless (where the Issuer’s bid price is below the minimum bid size for such securities as prescribed by the SGX-ST);
- (iii) when trading in the Underlying Stock is suspended or limited in a material way for any reason (including price quote limits activated by the Relevant Stock Exchange for the Underlying Stock or otherwise⁹), for the avoidance of doubt, the DMM is not obliged to provide quotation for the Certificate at any time when the Underlying Stock is not negotiated/traded for any reason during the last trading session of the Relevant Stock Exchange for the Underlying Stock;
- (iv) when trading of the Underlying Stock on any Related Exchange, or access to pricing information of the Underlying Stock on any Related Exchange is suspended, not available, or limited in a material way for any reason (including price quote limits activated by the Related Exchange on such Underlying Stock or otherwise);
- (v) where the Certificates are suspended from trading for any reason including, but without limitation, as a result of trading in the Underlying Stock on any Related Exchange being suspended, or trading generally on any Related Exchange being suspended;
- (vi) market disruption events, including, without limitation, any suspension of or limitation imposed on trading (including but not limited to unforeseen circumstances such as by reason of movements in price exceeding limits permitted by the SGX-ST or the Relevant Stock Exchange for the Underlying Stock⁹ or any Related Exchange for the Underlying Stock, or

⁹ Price quote limits activated by the Relevant Stock Exchange for the Underlying Stock are not applicable to the market making of the Certificates (as defined herein).

any act of God, war, riot, public disorder, explosion, terrorism or otherwise) in the Underlying Stock, or in trading of the Underlying Stock on any Related Exchange;

- (vii) where the Issuer or the DMM faces technical problems affecting the ability of the DMM to provide bids and offer quotations;
- (viii) where the ability of the Issuer to source a hedge or unwind an existing hedge, as determined by the Issuer in good faith, is materially affected by the prevailing market conditions, and the Issuer informs the SGX-ST of its inability to do so as soon as practicable;
- (ix) in cases where the Issuer has no Certificates to sell, then the DMM will only provide bid quotations. The DMM may provide intermittent offer quotations when it has inventory of the Certificates;
- (x) if the SGX-ST, the Relevant Stock Exchange for the Underlying Stock or any Related Exchange experiences exceptional price movement and volatility;
- (xi) when any Related Exchange(s) relating to the trading of the Underlying Stock and the Relevant Stock Exchange for the Underlying Stock are not open for dealings concurrently;
- (xii) when it is a public holiday in Singapore and the SGX-ST is not open for dealings; and
- (xiii) during trading hours of the SGX-ST on any Business Day when it is a public holiday in the United States and the Relevant Stock Exchange for the Underlying Stock is not open for dealings.

The last trading day on which the DMM will provide competitive quotations for the Certificates would be the fifth Business Day immediately preceding the Expiry Date.

SUPPLEMENTAL GENERAL INFORMATION

The information set out herein is supplemental to, and should be read in conjunction with the information set out in the Base Listing Document.

1. Save as disclosed in this document and the Base Listing Document, neither the Issuer nor the Guarantor is involved in any legal or arbitration proceedings (including any proceedings which are pending or threatened of which the Issuer or the Guarantor is aware) which may have or have had in the previous 12 months a significant effect on the financial position of the Issuer or the Guarantor in the context of the issuance of the Certificates.
2. Settlement of trades done on a normal “ready basis” on the SGX-ST generally take place on the second Business Day following the transaction. Dealing in the Certificates will take place in Board Lots in Singapore Dollar. For further details on the transfer of Certificates and their exercise, please refer to the section headed “Summary of the Issue” above.
3. It is not the current intention of the Issuer to apply for a listing of the Certificates on any stock exchange other than the SGX-ST.
4. Save as disclosed in the Base Listing Document and herein, there has been no material adverse change in the financial position or prospects of the Issuer since 30 June 2024 or the Guarantor since 30 June 2024, in the context of the issuance of Certificates hereunder.
5. The following contracts, relating to the issue of the Certificates, have been or will be entered into by the Issuer and/or the Guarantor and may be material to the issue of the Certificates:
 - (a) the Guarantee;
 - (b) the Master Instrument; and
 - (c) the Master Warrant Agent Agreement.

None of the directors of the Issuer and the Guarantor has any direct or indirect interest in any of the above contracts.

6. The reports of the Auditors of the Issuer and the Guarantor were not prepared exclusively for incorporation into this document.

The Auditors of the Issuer and the Guarantor have no shareholding in the Issuer or the Guarantor or any of its subsidiaries, nor do they have the right (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for securities of the Issuer or the Guarantor or any of its subsidiaries.
7. The Certificates are not fully covered by the Underlying Stock held by Issuer or a trustee for and on behalf of the Issuer. The Issuer has appropriate risk management capabilities to manage the issue of the Certificates.
8. Société Générale, Singapore Branch, currently of 8 Marina Boulevard, #12-01 Marina Bay Financial Centre Tower 1, Singapore 018981, has been authorised to accept, on behalf of the Issuer and the Guarantor, service of process and any other notices required to be served on the Issuer or the Guarantor. Any notices required to be served on the Issuer or the Guarantor should be sent to Société Générale at the above address for the attention of Société Générale Legal Department.
9. Copies of the following documents may be inspected during usual business hours on any weekday (Saturdays, Sundays and holidays excepted) at the offices of Société Générale,

Singapore Branch at 8 Marina Boulevard, #12-01 Marina Bay Financial Centre Tower 1, Singapore 018981, during the period of 14 days from the date of this document:

- (a) the Memorandum and Articles of Association of the Issuer and the Constitutional Documents of the Guarantor;
- (b) the latest financial reports (including the notes thereto) of the Issuer;
- (c) the latest financial reports (including the notes thereto) of the Guarantor;
- (d) the Base Listing Document (which can also be viewed at: <https://www.sgx.com/securities/prospectus-circulars-offer-documents>);
- (e) this document; and
- (f) the Guarantee.

PLACING AND SALE

General

No action has been or will be taken by the Issuer that would permit a public offering of the Certificates or possession or distribution of any offering material in relation to the Certificates in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Certificates, or distribution of any offering material relating to the Certificates may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws or regulations and will not impose any obligation on the Issuer. In the event that the Issuer contemplates a placing, placing fees may be payable in connection with the issue and the Issuer may at its discretion allow discounts to placees.

Each Certificate Holder undertakes that it will inform any subsequent purchaser of the terms and conditions of the Certificates and all such subsequent purchasers as may purchase such securities from time to time shall be deemed to be a Certificate Holder for the purposes of the Certificates and shall be bound by the terms and conditions of the Certificates.

Singapore

This document has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this document and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of Certificates may not be circulated or distributed, nor may Certificates be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than pursuant to, and in accordance with the conditions of, any applicable provision of the Securities and Futures Act 2001 of Singapore.

Hong Kong

Each dealer has represented and agreed, and each further dealer appointed in respect of the Certificates and each other purchaser will be required to represent and agree, that:

- (a) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Certificates (except for Certificates which are a "structured product" as defined in the Securities and Futures Ordinance (Cap.571) of Hong Kong ("SFO")) other than (i) to "professional investors" as defined in the SFO and any rules made under the SFO; or (ii) in other circumstances which do not result in the document being a "prospectus", as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong ("CWUMPO") or which do not constitute an offer to the public within the meaning of the CWUMPO; and
- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Certificates, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Certificates which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

European Economic Area

Each dealer represents and agrees, and each further dealer appointed in respect of the Certificates will be required to represent and agree, that it has not offered, sold or otherwise made

available and will not offer, sell, or otherwise make available any Certificates which are the subject of the offering as contemplated by this document to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended and superseded, the Prospectus Regulation); and
- (b) the expression “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Certificates.

United Kingdom

Each dealer represents and agrees, and each further dealer appointed in respect of the Certificates will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Certificates which are the subject of the offering as contemplated by this document to any retail investor in the United Kingdom. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:
 - (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); or
 - (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act, as amended (the “**FSMA**”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or
 - (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Certificates.

Each dealer further represents and agrees, and each further dealer appointed in respect of the Certificates will be required to further represent and agree, that:

- (a) in respect to Certificates having a maturity of less than one year: (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business; and (ii) it has not offered or sold and will not offer or sell any Certificates other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or

dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Certificates would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;

- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Certificates in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Certificates in, from or otherwise involving the United Kingdom.

United States

The Certificates and the Guarantee have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or any state securities law, and trading in the Certificates has not been approved by the United States Commodity Futures Trading Commission (the “**CFTC**”) under the United States Commodity Exchange Act of 1936, as amended (the “**Commodity Exchange Act**”) and the Issuer has not been and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder. None of the Securities and Exchange Commission, any state securities commission or regulatory authority or any other United States, French or other regulatory authority has approved or disapproved of the Certificates or the Guarantee or passed upon the accuracy or adequacy of this document. Accordingly, Certificates, or interests therein, may not at any time be offered, sold, resold, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, nor may any U.S. person at any time trade, own, hold or maintain a position in the Certificates or any interests therein. In addition, in the absence of relief from the CFTC, offers, sales, re-sales, trades, pledges, exercises, redemptions, transfers or deliveries of Certificates, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, may constitute a violation of United States law governing commodities trading and commodity pools. Consequently, any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person will not be recognised.

Each dealer has represented and agreed, and each further dealer will be required to represent and agree, that it has not and will not at any time offer, sell, resell, trade, pledge, exercise, redeem, transfer or deliver, directly or indirectly, Certificates in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale, trade, pledge, exercise, redeem, transfer or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any such U.S. person. Any person purchasing Certificates of any tranches must agree with the relevant dealer or the seller of such Certificates that (i) it is not a U.S. Person, (ii) it will not at any time offer, sell, resell, trade, pledge, exercise, redeem, transfer or deliver, directly or indirectly, any Certificates in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person, and (iii) it is not purchasing any Certificates, directly or indirectly, in the United States or for the account or benefit of any U.S. person.

Exercise or otherwise redemption of Certificates will be conditional upon certification that each person exercising or otherwise redeeming a Certificate is not a U.S. person or in the United States and that the Certificate is not being exercised or otherwise redeemed on behalf of a U.S.

person. No payment will be made to accounts of holders of the Certificates located in the United States.

As used in the preceding paragraphs, the term “**United States**” includes the territories, the possessions and all other areas subject to the jurisdiction of the United States of America, and the term “**U.S. person**” means any person who is (i) a U.S. person as defined under Regulation S under the Securities Act, (ii) a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986 (iii) a person who comes within any definition of U.S. person for the purposes of the United States Commodity Exchange Act of 1936, as amended (the “**CEA**”) or any rules thereunder of the CFTC (the “**CFTC Rules**”), guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a “Non-United States person” defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not “Non-United States persons”, shall be considered a U.S. person), or (iv) a U.S. Person for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended.

APPENDIX

REPRODUCTION OF THE ANNUAL REPORT FOR THE FISCAL YEAR ENDED 30 JUNE 2024 OF MICROSOFT CORPORATION AND ITS SUBSIDIARIES

The information set out below is a reproduction of the annual report of the Company and its subsidiaries for the fiscal year ended 30 June 2024 and has been extracted and reproduced from an announcement by the Company dated 30 July 2024 in relation to the same.

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the Fiscal Year Ended June 30, 2024

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the Transition Period From _____ to _____
Commission File Number 001-37845

MICROSOFT CORPORATION

(I.R.S. ID)

Securities registered pursuant to Section 12(b) of the Act:

| Title of each class | Trading Symbol | Name of exchange on which registered |
|--|----------------|--------------------------------------|
| Common stock, \$0.00000625 par value per share | MSFT | NASDAQ |
| 3.125% Notes due 2028 | MSFT | NASDAQ |
| 2.625% Notes due 2033 | MSFT | NASDAQ |

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-accelerated Filer

Smaller Reporting Company

Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of December 31, 2023, the aggregate market value of the registrant's common stock held by non-affiliates of the registrant was \$2.8 trillion based on the closing sale price as reported on the NASDAQ National Market System. As of July 25, 2024, there were 7,433,038,381 shares of common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the definitive Proxy Statement to be delivered to shareholders in connection with the Annual Meeting of Shareholders to be held on December 10, 2024 are incorporated by reference into Part III.

Note About Forward-Looking Statements

This report includes estimates, projections, statements relating to our business plans, objectives, and expected operating results that are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements may appear throughout this report, including the following sections: “Business” (Part I, Item 1 of this Form 10-K), “Risk Factors” (Part I, Item 1A of this Form 10-K), and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” (Part II, Item 7 of this Form 10-K). These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties that may cause actual results to differ materially. We describe risks and uncertainties that could cause actual results and events to differ materially in “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Quantitative and Qualitative Disclosures About Market Risk” (Part II, Item 7A of this Form 10-K). Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date they are made. We undertake no obligation to update or revise publicly any forward-looking statements, whether because of new information, future events, or otherwise.

PART I

ITEM 1. BUSINESS

GENERAL

Embracing Our Future

Microsoft is a technology company committed to making digital technology and artificial intelligence (“AI”) available broadly and doing so responsibly, with a mission to empower every person and every organization on the planet to achieve more. We create platforms and tools, powered by AI, that deliver innovative solutions that meet the evolving needs of our customers. From infrastructure and data, to business applications and collaboration, we provide unique, differentiated value to customers. We strive to create local opportunity, growth, and impact in every country around the world.

We have entered a new age of AI that will fundamentally transform productivity for every individual, organization, and industry on earth, while helping us address some of our most pressing challenges. Microsoft’s AI offerings, including Copilot and our Copilot stack, are already orchestrating a new era of AI transformation, driving better business outcomes across every role and industry. As a company, we believe we can be the democratizing force for this new generation of technology and the opportunity it will help unlock for every country, community, and individual.

We believe AI should be as empowering across communities as it is powerful, and we’re committed to ensuring it is responsibly designed and built with safety and security from the outset.

What We Offer

Founded in 1975, we develop and support software, services, devices, and solutions that deliver new value for customers and help people and businesses realize their full potential.

We offer an array of services, including cloud-based solutions that provide customers with software, services, platforms, and content, and we provide solution support and consulting services. We also deliver relevant online advertising to a global audience.

Our products include operating systems, cross-device productivity and collaboration applications, server applications, business solution applications, desktop and server management tools, software development tools, and video games. We also design and sell devices, including PCs, tablets, gaming and entertainment consoles, other intelligent devices, and related accessories.

The Ambitions That Drive Us

To achieve our vision, our research and development efforts focus on three interconnected ambitions:

- Reinvent productivity and business processes.
- Build the intelligent cloud and intelligent edge platform.
- Create more personal computing.

Reinvent Productivity and Business Processes

At Microsoft, we provide technology and resources to help our customers create a secure, productive work environment. Our family of products plays a key role in the ways the world works, learns, and connects.

Our growth depends on securely delivering continuous innovation and advancing our leading productivity and collaboration tools and services, including Microsoft 365, LinkedIn, and Dynamics 365. Microsoft 365 is an AI first platform that brings together Office, Windows, Copilot, and Enterprise Mobility + Security to help organizations empower their employees. Copilot for Microsoft 365 combines AI with business data in the Microsoft Graph and Microsoft 365 applications. Microsoft Teams is a comprehensive platform for communication and collaboration, with meetings, calling, chat, file collaboration, and the ability to bring all of the applications teams use into a single place. Microsoft Viva is an employee experience platform that brings together communications, knowledge, learning, resources, and insights.

Together, the Microsoft Cloud, Dynamics 365, Microsoft Teams, and our AI offerings bring a new era of collaborative applications for every role and business function to get insights and business impact faster. Dynamics 365 is a portfolio of intelligent business applications that delivers operational efficiency and breakthrough customer experiences. Our role-based extensions of Microsoft Copilot – Copilot for Sales, Copilot for Service, and Copilot for Finance – bring together the power of Copilot for Microsoft 365 with role-specific insights and workflow assistance to streamline business processes. Copilot Studio allows customers to customize Copilot for Microsoft 365 or build their own Copilot. Microsoft Power Platform helps domain experts drive productivity gains with low-code/no-code tools, robotic process automation, virtual agents, and business intelligence. Copilot Pro is a consumer subscription service that offers faster and more powerful AI assistance in Microsoft 365 apps and on the web. LinkedIn combines our unique data with this new generation of AI to transform the way professionals learn, sell, market, and get hired.

Build the Intelligent Cloud and Intelligent Edge Platform

Digital transformation and adoption of AI continues to revolutionize more business workstreams for organizations in every sector across the globe. For enterprises, digital technology empowers employees, optimizes operations, engages customers, and in some cases, changes the very core of products and services. We continue to invest in high performance and sustainable computing to meet the growing demand for fast access to Microsoft services provided by our network of cloud computing and AI infrastructure and datacenters.

Our cloud business benefits from three economies of scale: datacenters that deploy computational resources at significantly lower cost per unit than smaller ones; datacenters that coordinate and aggregate diverse customer, geographic, and application demand patterns, improving the utilization of computing, storage, and network resources; and multi-tenancy locations that lower application maintenance labor costs.

The Microsoft Cloud provides the best integration across the technology stack while offering openness, improving time to value, reducing costs, and increasing agility. As the foundation of the Microsoft Cloud, Azure uniquely offers hybrid consistency, developer productivity, data and AI capabilities, and trusted security and compliance.

We offer supercomputing power for AI at scale to run large workloads, complemented by our rapidly expanding portfolio of AI cloud services and hardware, which includes custom-built silicon and strong partnerships with chip manufacturers. We have introduced purpose-built cloud infrastructure for AI workloads including a custom AI accelerator, Azure Maia, and a custom in-house central processing unit, Azure Cobalt.

Our AI platform, Azure AI, is helping organizations transform, bringing intelligence and insights to the hands of their employees and customers to solve their most pressing challenges. We offer a wide selection of industry-leading frontier and open models, including from partners, as well as state-of-the-art tooling, and AI-optimized infrastructure, delivering the Copilot stack for Microsoft, enterprises, and developers. Organizations large and small are deploying Azure AI solutions to achieve more at scale, more easily, with the proper enterprise-level responsible AI and safety and security protections. Azure AI Studio provides a full lifecycle toolchain customers can use to ground these models on their own data, create prompt workflows, and help ensure they are deployed and used safely.

GitHub Copilot is at the forefront of AI-powered software development, giving developers a tool to write code easier and faster. From GitHub to Visual Studio, we provide a developer tool chain for everyone, no matter the technical experience, across all platforms.

We have a long-term partnership with OpenAI, a leading AI research and deployment company. We deploy OpenAI's models across our consumer and enterprise products. As OpenAI's exclusive cloud provider, Azure powers all of OpenAI's workloads. We have also increased our investments in the development and deployment of specialized supercomputing systems to accelerate OpenAI's research.

Our hybrid infrastructure offers integrated, end-to-end security, compliance, identity, and management capabilities to support the real-world needs and evolving regulatory requirements of commercial customers and enterprises. Our industry clouds bring together capabilities across the entire Microsoft Cloud, along with industry-specific customizations. Azure Arc simplifies governance and management by delivering a consistent multi-cloud and on-premises management platform.

The Microsoft Intelligent Data Platform fully integrates databases, analytics, and governance. Microsoft Fabric is an end-to-end, unified analytics platform that brings together all the data and analytics tools that organizations need.

Nuance is a leader in conversational AI and ambient intelligence across industries, including healthcare, financial services, retail, and telecommunications. Microsoft and Nuance enable organizations to accelerate their business goals with security-focused, cloud-based solutions infused with AI.

As the rate and pace of cyberthreats continue to accelerate, security is a top priority for every organization. Microsoft offers customers integrated products addressing security, compliance, identity, management, and privacy across customers' multi-cloud, application, and device assets. With Copilot for Security, Microsoft offers an AI cybersecurity product that enables security professionals to respond to cyberthreats quickly.

Windows 365 enables users to stream a full Windows experience from the Microsoft Cloud to any device.

Create More Personal Computing

We strive to make computing more personal, enabling users to interact with technology in more intuitive, engaging, and dynamic ways.

Windows 11 offers innovations focused on performance, productivity, and creativity, including Copilot in Windows. Windows 11 security and privacy features include operating system security, application security, and user and identity security. Dev Home is an open-source experience in Windows to help developer productivity. We are committed to designing and marketing first-party devices to help drive innovation, create new device categories, and stimulate demand in the Windows ecosystem. The Surface family includes Surface Pro, Surface Laptop, and other Surface products. Copilot+ PCs are a new class of Windows 11 PCs that are powered by a neural processing unit. These PCs use on-device AI for enhanced performance and features.

Copilot is an AI assistant that helps users navigate the web, answer questions, and create content. Microsoft Edge is our fast and secure browser that helps protect users' data and offers enhanced browsing capabilities including quick access to AI-powered tools, apps, and more. The AI-powered Bing search engine with Copilot delivers better search, more complete answers, and the ability to generate content.

Microsoft is expanding how billions of people globally access and play video games on PC, console, mobile, and cloud. We put game development front and center, backed by innovative hardware, experiences, and a subscription service, Xbox Game Pass, that allows those games to reach more players across more devices. Activision Blizzard, Inc. (“Activision Blizzard”), a leader in game development and an interactive entertainment content publisher, joined Microsoft in October 2023.

Our Future Opportunity

We are focused on helping customers use the breadth and depth of the Microsoft Cloud to get the most value out of their digital spend while leading the AI platform wave across our solution areas. We continue to develop complete, intelligent solutions for our customers that empower people to be productive and collaborate, while safeguarding businesses and simplifying IT management. Our goal is to lead the industry in several distinct areas of technology over the long term, which we expect will translate to sustained growth. We are investing significant resources in:

- Transforming the workplace to deliver new modern, modular business applications, drive deeper insights, and improve how people communicate, collaborate, learn, work, and interact with one another.
- Building and running cloud-based services in ways that utilize ubiquitous computing to unleash new experiences and opportunities for businesses and individuals.
- Applying AI and ambient intelligence to drive insights, revolutionize many types of work and business processes, and provide substantive productivity gains using natural methods of communication.
- Tackling security from all angles with our integrated, end-to-end solutions spanning security, compliance, identity, and management, across all clouds and platforms.
- Inventing new gaming experiences that bring people together around their shared love for games on any devices and pushing the boundaries of innovation with console and PC gaming.
- Using Windows to fuel our cloud business, grow our share of the PC market, and drive increased engagement with our services like Microsoft Edge, Bing, Microsoft Teams, Microsoft 365 Consumer, Xbox Game Pass, and more.

Our future growth depends on our ability to transcend current product category definitions, business models, and sales motions.

Corporate Social Responsibility

Commitment to Sustainability

Microsoft’s approach to addressing climate change starts with the sustainability of our own business. In 2020, we committed to being a carbon negative, water positive, and zero waste company by 2030.

Since announcing that commitment, we have seen major changes both in the technology sector and in our understanding of what it will take to meet our climate goals. New technologies, including generative AI, hold promise for new innovations that can help address the climate crisis. At the same time, the infrastructure and electricity needed for these technologies create new challenges for meeting sustainability commitments across the tech sector.

In May 2024, we released our Environmental Sustainability Report which looked back at our progress in several areas during fiscal year 2023. In four areas we are on track, and in each of these we see progress that has the potential to have global impact beyond our own sustainability work. These are:

- Reducing our direct operational emissions (Scope 1 and 2).
- Accelerating carbon removal.
- Designing for circularity to minimize waste and reusing cloud hardware.
- Improving biodiversity and protecting more land than we use.

At the same time, there are two areas where we’re not yet on track, and in each of these we are intensively engaged in work to identify and pursue additional breakthroughs. These are:

- Reducing our indirect emissions (Scope 3).
- Reducing our water use and replenishing more water than we consume in our datacenter operations.

Even amid the challenges, we remain optimistic. We're encouraged by ongoing progress across our campuses and datacenters, and throughout our value chain.

Addressing Racial Injustice and Inequity

In June 2020, we outlined a series of multi-year commitments designed to address the racial injustice and inequity experienced by racial and ethnic minorities in the United States, including Black and African American communities. We remain committed to addressing racial injustice and inequity and helping improve lived experiences at Microsoft, in employees' communities, and beyond.

In fiscal year 2024, we continued to collaborate with partners and worked within neighborhoods and communities to advance projects and programs. We grew our Nonprofit Tech Acceleration for Black and African American Communities program, to help more than 3,000 local organizations in nearly 1,900 Black and African American communities use technical solutions to modernize and streamline operations. We also expanded our Technology Education and Learning Support ("TEALS") program to reach nearly 550 high schools across 21 racial equity expansion regions with the support of nearly 1,500 volunteers, 12% of whom identify as Black or African American.

We have committed \$150 million in Minority Depository Institutions and funds supporting Black and African American-owned small businesses. These commitments drive sustained impact by directly enabling an increase of funds into local communities, improving diverse, small-business access to capital, and increasing skill development. We continue to partner with diverse-owned banking partners and asset managers to catalyze growth and industry participation. Additionally, we enriched our supplier pipeline, achieving our goal to spend \$500 million with double the number of Black- and African American-owned suppliers. We have also provided 162 low- or no-interest loans to our small to medium-sized partners through our Partner Capital Fund.

We also continue to make progress toward our overall commitment to double the number of Black and African American and Hispanic and Latinx leaders in the U.S. by 2025.

Investing in Digital Skills

Microsoft's Skills for Jobs initiative aims to support a more skills-based labor market, with greater flexibility and accessible learning paths to develop the right skills needed for the most in-demand jobs. This initiative brings together classes, Career Essentials Certificates, and other resources from LinkedIn, GitHub, and Microsoft Learn, and is built on data insights drawn from LinkedIn's Economic Graph. Our goal was to train and certify 10 million learners by 2025. As of May 2024, we have surpassed that goal, training and certifying 12.6 million learners. We also launched a campaign in the United States in 2021 to help skill and recruit 250,000 people into the nation's cybersecurity workforce by 2025, representing half of the country's workforce shortage. To that end, we are making curriculum available free of charge to all of the nation's higher education institutions, providing training for new and existing faculty, and providing scholarships and supplemental resources to 25,000 students. The cyber skills initiative has expanded to 27 additional countries that show elevated cyberthreat risks coupled with significant gaps in their cybersecurity workforces, where we've partnered with nonprofits and other educational institutions to train the next generation of cybersecurity workers.

Generative AI is creating unparalleled opportunities to empower workers globally, but only if everyone has the skills to use it. In June 2023, we launched an AI Skills initiative to help everyone learn how to harness the power of AI. This includes a new LinkedIn learning pathway offering new coursework on learning the foundations of generative AI. We also launched a new global grant challenge to uncover new ways of training workers on generative AI and provide greater access to digital learning events and resources. Additionally, we extended our reach in rural communities, including through our TechSpark initiative in the United States. As of June 2024, we've helped more than 2.5 million people in 92% of the world's countries learn how to use AI.

HUMAN CAPITAL RESOURCES

Microsoft aims to recruit, develop, and retain world-changing talent from a diversity of backgrounds. To foster their and our success, we seek to create an environment where people can thrive and do their best work. We strive to maximize the potential of our human capital resources by creating a respectful, rewarding, and inclusive work environment that enables our global employees to create products and services that further our mission. Microsoft's culture is grounded in growth mindset. This means everyone is on a continuous journey to learn and grow, operating as one company instead of multiple siloed businesses. Our culture also embeds the security of customers and Microsoft as a priority for every employee and across all of our organizations.

As of June 30, 2024, we employed approximately 228,000 people on a full-time basis, 126,000 in the U.S. and 102,000 internationally. Of the total employed people, 86,000 were in operations, including product support and consulting services, datacenter operations, and manufacturing and distribution; 81,000 were in product research and development; 45,000 were in sales and marketing; and 16,000 were in general and administration. Certain employees are subject to collective bargaining agreements.

We design our programs to attract, reward, and retain top talent, enable our employees' continual growth, and reinforce our culture and values. Our total compensation opportunity is highly differentiated and market competitive. Our intended result is a global performance and development approach that fosters our culture, drives company performance, and competitive compensation that ensures equitable pay by role while supporting pay for performance.

Diversity and inclusion are core to our business. As reported in our Global Diversity and Inclusion Reports, we monitor pay equity and career progress across multiple dimensions. We encourage every person at Microsoft to play an active role in creating an inclusive environment.

We have invested significantly in employee wellbeing and offer a differentiated benefits package which includes many physical, emotional, and financial wellness programs. Our Occupational Health and Safety program helps to protect employees' safety while they are working. We also have introduced Hybrid Workplace Flexibility guidance to better support leaders, managers, and employees in hybrid work scenarios.

We believe providing employees with access to continual learning enables them to drive impact for the company. We provide individuals and teams with access to first and third-party content resources across professions, disciplines, and roles, and offer skilling opportunities to support employees' growth while driving organizations' needs.

Our employee listening systems enable us to gather feedback directly from our workforce to inform our programs and employee needs globally, giving us real-time insights into ways we can support our employees. As a company, we will continue to leverage data and research to inform decision making, balancing the needs of the business, team, and individual.

OPERATING SEGMENTS

We operate our business and report our financial performance using three segments: Productivity and Business Processes, Intelligent Cloud, and More Personal Computing. Our segments provide management with a comprehensive financial view of our key businesses. The segments enable the alignment of strategies and objectives across the development, sales, marketing, and services organizations, and they provide a framework for timely and rational allocation of resources within businesses.

Additional information on our operating segments and geographic and product information is contained in Note 19 – Segment Information and Geographic Data of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K).

Our reportable segments are described below.

Productivity and Business Processes

Our Productivity and Business Processes segment consists of products and services in our portfolio of productivity, communication, and information services, spanning a variety of devices and platforms. This segment primarily comprises:

- Office Commercial (Office 365 subscriptions, the Office 365 portion of Microsoft 365 Commercial subscriptions, and Office licensed on-premises), comprising Office, Exchange, SharePoint, Microsoft Teams, Office 365 Security and Compliance, Microsoft Viva, and Copilot for Microsoft 365.
- Office Consumer, including Microsoft 365 Consumer and Copilot Pro subscriptions, Office licensed on-premises, and other Office services.
- LinkedIn, including Talent Solutions, Marketing Solutions, Premium Subscriptions, and Sales Solutions.
- Dynamics business solutions, including Dynamics 365, comprising a set of intelligent, cloud-based applications across ERP, CRM, Power Apps, and Power Automate; and on-premises ERP and CRM applications.

Office Commercial

Office Commercial is designed to increase personal, team, and organizational productivity through a range of products and services. Growth depends on our ability to reach new users in new markets such as frontline workers, small and medium businesses, and growth markets, as well as add value to our core product and service offerings to span AI and productivity categories such as communication, collaboration, analytics, security, and compliance. Office Commercial revenue is mainly affected by a combination of continued installed base growth and average revenue per user expansion, as well as the continued shift from Office licensed on-premises to Office 365.

Office Consumer

Office Consumer is designed to increase personal productivity and creativity through a range of products and services. Growth depends on our ability to reach new users, add value to our core product set with new features including AI tools, and continue to expand our product and service offerings into new markets. Office Consumer revenue is mainly affected by the percentage of customers that buy Office with their new devices and the continued shift from Office licensed on-premises to Microsoft 365 Consumer subscriptions. Office Consumer Services revenue is mainly affected by the demand for communication and storage through Skype, Outlook.com, and OneDrive, which is largely driven by subscriptions, advertising, and the sale of minutes.

LinkedIn

LinkedIn connects the world's professionals to make them more productive and successful and transforms the way companies hire, market, sell, and learn. Our vision is to create economic opportunity for every member of the global workforce through the ongoing development of the world's first Economic Graph, a digital representation of the global economy. In addition to LinkedIn's free services, LinkedIn offers monetized solutions designed to offer AI-enabled insights and productivity: Talent Solutions, Marketing Solutions, Premium Subscriptions, and Sales Solutions. Talent Solutions provide insights for workforce planning and tools to hire, nurture, and develop talent. Talent Solutions also includes Learning Solutions, which help businesses close critical skills gaps in times where companies are having to do more with existing talent. Marketing Solutions help companies reach, engage, and convert their audiences at scale. Premium Subscriptions enable professionals to manage their professional identity, grow their network, find jobs, access knowledge, and connect with talent through additional services like premium search. Sales Solutions help companies strengthen customer relationships, empower teams with digital selling tools, and acquire new opportunities. Growth will depend on our ability to increase the number of LinkedIn members and our ability to continue offering insight and AI-enabled services that provide value for our members and increase their engagement. LinkedIn revenue is mainly affected by demand from enterprises and professionals for subscriptions to Talent Solutions, Sales Solutions, and Premium Subscriptions offerings, as well as member engagement and the quality of the sponsored content delivered to those members to drive Marketing Solutions.

Dynamics

Dynamics provides cloud-based and on-premises business solutions for financial management, enterprise resource planning ("ERP"), customer relationship management ("CRM"), and supply chain management, as well as other low code application development platforms and AI offerings, for small and medium businesses, large organizations, and divisions of global enterprises. Dynamics revenue is driven by the number of users licensed and applications consumed, expansion of average revenue per user, and the continued shift to Dynamics 365, a unified set of cloud-based intelligent business applications, including our low code development platforms, such as Power Apps and Power Automate.

Competition

Competitors to Office include software and global application vendors, such as Apple, Cisco Systems, Google, Meta, Proofpoint, Slack, Symantec, Zoom, and numerous web-based and mobile application competitors as well as local application developers. Apple distributes versions of its pre-installed application software, such as email and calendar products, through its PCs, tablets, and phones. Cisco Systems is using its position in enterprise communications equipment to grow its unified communications business. Google provides a hosted messaging and productivity suite. Meta offers communication tools to enable productivity and engagement within organizations. Proofpoint and Symantec provide security solutions across email security, information protection, and governance. Slack provides teamwork and collaboration software. Zoom offers videoconferencing and cloud phone solutions. Web-based offerings competing with individual applications have also positioned themselves as alternatives to our products and services. We compete by providing powerful, flexible, secure, integrated industry-specific, and easy-to-use productivity and collaboration tools and services that create comprehensive solutions and work well with technologies our customers already have both on-premises or in the cloud.

LinkedIn faces competition from online professional networks, recruiting companies, talent management companies, and larger companies that are focusing on talent management and human resource services; job boards; traditional recruiting firms; and companies that provide learning and development products and services. Marketing Solutions competes with online and offline outlets that generate revenue from advertisers and marketers, and Sales Solutions competes with online and offline outlets for companies with lead generation and customer intelligence and insights.

Dynamics competes with cloud-based and on-premises business solution providers such as Oracle, Salesforce, SAP, Service Now, UI Path, and WorkDay.

Intelligent Cloud

Our Intelligent Cloud segment consists of our public, private, and hybrid server products and cloud services that can power modern business and developers. This segment primarily comprises:

- Server products and cloud services, including Azure and other cloud services; SQL Server, Windows Server, Visual Studio, System Center, and related Client Access Licenses (“CALs”); and Nuance and GitHub.
- Enterprise and partner services, including Enterprise Support Services, Industry Solutions, Nuance professional services, Microsoft Partner Network, and Learning Experience.

Server Products and Cloud Services

Azure is a comprehensive set of cloud services that offer developers, IT professionals, and enterprises freedom to build, deploy, and manage applications on any platform or device. Customers can use Azure through our global network of datacenters for computing, networking, storage, mobile and web application services, AI, Internet of Things (“IoT”), cognitive services, and machine learning. Azure enables customers to devote more resources to development and use of applications that benefit their organizations, rather than managing on-premises hardware and software. Azure revenue is mainly affected by infrastructure-as-a-service and platform-as-a-service consumption-based services, and per user-based services such as Enterprise Mobility + Security.

Azure AI offerings provide a competitive advantage as companies seek ways to optimize and scale their business with machine learning. With Azure’s purpose-built, AI-optimized infrastructure, customers can use a variety of large language models and developer tools to create the next generation of AI apps and services.

Our server products are designed to make IT professionals, developers, and their systems more productive and efficient. Server software is integrated server infrastructure and middleware designed to support software applications built on the Windows Server operating system. This includes the server platform, database, business intelligence, storage, management and operations, virtualization, service-oriented architecture platform, security, and identity software. We also license standalone and software development lifecycle tools for software architects, developers, testers, and project managers. Server products revenue is mainly affected by purchases through volume licensing programs, licenses sold to original equipment manufacturers (“OEM”), and retail packaged products. CALs provide access rights to certain server products, including SQL Server and Windows Server, and revenue is reported along with the associated server product.

Nuance and GitHub include both cloud and on-premises offerings. Nuance provides healthcare and enterprise AI solutions. GitHub provides a collaboration platform and code hosting service for developers.

Enterprise and Partner Services

Enterprise and Partner Services, including Enterprise Support Services, Industry Solutions, Nuance professional services, Microsoft Partner Network, and Learning Experience, assist customers in developing, deploying, and managing Microsoft server solutions, Microsoft desktop solutions, and Nuance conversational AI and ambient intelligent solutions, along with providing training and certification to developers and IT professionals on various Microsoft products.

Competition

Azure faces diverse competition from companies such as Amazon, Broadcom, Google, IBM, Oracle, and open source offerings. Azure's competitive advantage includes enabling a hybrid cloud, allowing deployment of existing datacenters with our public cloud into a single, cohesive infrastructure, and the ability to run at a scale that meets the needs of businesses of all sizes and complexities. Our AI offerings compete with AI products from hyperscalers such as Amazon and Google, as well as products from other emerging competitors, including Anthropic, OpenAI, Meta, and other open source offerings, many of which are also current or potential partners. Our Azure Security offerings include our cloud security solution and security information and event management solution, which compete with companies such as Palo Alto Networks and Cisco. Our Enterprise Mobility + Security offerings also compete with products from a range of competitors including identity vendors, security solution vendors, and numerous other security point solution vendors. We believe our cloud's global scale, coupled with our broad portfolio of identity and security solutions, allows us to effectively solve complex cybersecurity challenges for our customers and differentiates us from the competition.

Our server products face competition from a wide variety of server operating systems and applications offered by companies with a range of market approaches. Vertically integrated computer manufacturers such as Hewlett-Packard, IBM, and Oracle offer their own versions of the Unix operating system preinstalled on server hardware and nearly all computer manufacturers offer server hardware for the Linux operating system.

We compete to provide enterprise-wide computing and point solutions with numerous commercial software vendors that offer solutions and middleware technology platforms, software applications for connectivity, security, hosting, database, and e-business servers. IBM and Oracle lead a group of companies that compete with our enterprise-wide computing solutions. Commercial competitors for our server applications for PC-based distributed client-server environments include Broadcom, IBM, and Oracle. Our web application platform software competes with open source software such as Apache, Linux, MySQL, and PHP. In middleware, we compete against Java vendors.

Our database, business intelligence, and data warehousing solutions offerings compete with products from Databricks, IBM, Oracle, SAP, Snowflake, and other companies. Our system management solutions compete with server management and server virtualization platform providers, such as BMC, Broadcom, Hewlett-Packard, and IBM. Our products for software developers compete against offerings from Adobe, IBM, Oracle, and other companies, and also against open source projects, including Eclipse (sponsored by IBM, Oracle, and SAP), PHP, and Ruby on Rails.

We believe our server products provide customers with advantages in performance, total costs of ownership, and productivity by delivering superior applications, development tools, compatibility with a broad base of hardware and software applications, security, and manageability.

Our Enterprise and Partner Services business competes with a wide range of companies that provide strategy and business planning, application development, and infrastructure services, including multinational consulting firms and small niche businesses focused on specific technologies.

More Personal Computing

Our More Personal Computing segment consists of products and services that put customers at the center of the experience with our technology. This segment primarily comprises:

- Windows, including Windows OEM licensing and other non-volume licensing of the Windows operating system; Windows Commercial, comprising volume licensing of the Windows operating system, Windows cloud services, and other Windows commercial offerings; patent licensing; and Windows Internet of Things.
- Devices, including Surface, HoloLens, and PC accessories.
- Gaming, including Xbox hardware and Xbox content and services, comprising first-party content (such as Activision Blizzard) and third-party content, including games and in-game content; Xbox Game Pass and other subscriptions; Xbox Cloud Gaming; advertising; third-party disc royalties; and other cloud services.
- Search and news advertising, comprising Bing (including Copilot), Microsoft News, Microsoft Edge, and third-party affiliates.

Windows

The Windows operating system is designed to deliver a more personal computing experience for users by enabling consistency of experience, applications, and information across their devices. Windows OEM revenue is impacted significantly by the number of Windows operating system licenses purchased by OEMs, which they pre-install on the devices they sell. In addition to computing device market volume, Windows OEM revenue is impacted by:

- The mix of computing devices based on form factor and screen size.
- Differences in device market demand between developed markets and growth markets.
- Growth of the AI PC category
- Attachment of Windows to devices shipped.
- Customer mix between consumer, small and medium businesses, and large enterprises.
- Changes in inventory levels in the OEM channel.
- Pricing changes and promotions, pricing variation that occurs when the mix of devices manufactured shifts from local and regional system builders to large multinational OEMs, and different pricing of Windows versions licensed.
- Constraints in the supply chain of device components.
- Piracy.

Windows Commercial revenue, which includes volume licensing of the Windows operating system and Windows cloud services such as Microsoft Defender for Endpoint, is affected mainly by the demand from commercial customers for Microsoft 365 and our advanced security offerings. Windows Commercial revenue often reflects the number of information workers in a licensed enterprise and is relatively independent of the number of PCs sold in a given year.

Patent licensing includes our programs to license patents we own for use across a broad array of technology areas, including mobile devices and cloud offerings.

Windows IoT extends the power of Windows and the cloud to intelligent systems by delivering specialized operating systems, tools, and services for use in embedded devices.

Devices

We design and sell devices, such as Surface (including Copilot+ PCs), HoloLens, and PC accessories. Our devices are designed to enable people and organizations to connect to the people and content that matter most using Windows and integrated Microsoft products and services. Surface is designed to help organizations, students, and consumers be more productive. Growth in Devices is dependent on total PC shipments, the ability to attract new customers, our product roadmap, and expanding into new categories.

Gaming

Our gaming platform is designed to provide a variety of entertainment through a unique combination of content, community, and cloud services. Our game content is developed through a collection of first-party studios creating iconic and differentiated gaming experiences. We continue to invest in new gaming studios and content to expand our intellectual property roadmap and leverage new content creators. These unique gaming experiences are the cornerstone of Xbox Game Pass, a subscription service and gaming community with access to a curated library of over 400 first- and third-party console and PC titles.

The gamer remains at the heart of the Xbox ecosystem. We are identifying new opportunities to attract gamers across a variety of different end points through our first- and third-party content and business diversification across subscriptions, ads, and digital stores. We've seen new devices from third-party manufacturers along with key PC and mobile end points that help us empower gamers to play in a way that is most convenient to them. We are focused on growing the platform and expanding to new ecosystems to engage as many gamers as possible.

Xbox enables people to connect and share online gaming experiences that are accessible on Xbox consoles, Windows-enabled devices, and other devices. Xbox is designed to benefit users by providing access to a network of certified applications and services and to benefit our developer and partner ecosystems by providing access to a large customer base. Xbox revenue is mainly affected by subscriptions and sales of first- and third-party content, as well as advertising. Growth of our Gaming business is determined by the overall active user base through Xbox enabled content, availability of games, providing exclusive game content that gamers seek, the computational power and reliability of the devices used to access our content and services, and the ability to create new experiences.

Search and News Advertising

Our Search and news advertising business is designed to deliver relevant search, native, and display advertising to a global audience. Our Microsoft Edge browser and Bing search engine with Copilot are key tools to enable user acquisition and engagement, while our technology platform enables accelerated delivery of digital advertising solutions. In addition to first-party tools, we have several partnerships with companies, such as Yahoo, through which we provide and monetize search offerings. Growth depends on our ability to attract new users, understand intent, and match intent with relevant content on advertising offerings.

Competition

Windows faces competition from various software products and from alternative platforms and devices, mainly from Apple and Google, and Microsoft Defender for Endpoint competes with CrowdStrike on endpoint security solutions. We believe Windows competes effectively by giving customers choice, value, flexibility, security, an easy-to-use interface, and compatibility with a broad range of hardware and software applications, including those that enable productivity.

Devices face competition from various computer, tablet, and hardware manufacturers who offer a unique combination of high-quality industrial design and innovative technologies across various price points. These manufacturers, many of which are also current or potential partners and customers, include Apple and our Windows OEMs.

Xbox and our cloud gaming services face competition from various online gaming ecosystems and game streaming services, including those operated by Amazon, Apple, Meta, and Tencent. We also compete with other providers of entertainment services such as video streaming platforms. Our gaming platform competes with console platforms from Nintendo and Sony, both of which have a large, established base of customers. We believe our gaming platform is effectively positioned against, and uniquely differentiated from, competitive products and services based on significant innovation in hardware architecture, user interface, developer tools, online gaming and entertainment services, and continued strong content from our own first-party game franchises as well as other digital content offerings.

Our Search and news advertising business competes with Google, OpenAI, and a wide array of websites, social platforms like Meta, and portals that provide content and online offerings to end users.

OPERATIONS

We have regional operations service centers that support our operations, including customer contract and order processing, billing, credit and collections, customer lifecycle operations, information processing, and vendor management and logistics. The centers in Ireland and Romania support the African, European, and Middle East regions; the centers in India and Ireland support the Asia-Pacific region; and the centers in Arlington, Virginia, Atlanta, Georgia, Charlotte, North Carolina, Fargo, North Dakota, Fort Lauderdale, Florida, Redmond, Washington, Reno, Nevada, and San Jose, Costa Rica support the Americas regions.

In addition to our operations centers, we also operate datacenters throughout each of these regions. We continue to identify and evaluate opportunities to expand our datacenter locations and increase our server capacity to meet the evolving needs of our customers, particularly given the growing demand for AI services. Our datacenters depend on the availability of permitted and buildable land, predictable energy, networking supplies, and servers, including graphics processing units (“GPUs”) and other components.

Our devices are primarily manufactured by third-party contract manufacturers. For the majority of our products, we have the ability to use other manufacturers if a current vendor becomes unavailable or unable to meet our requirements. However, some of our products contain certain components for which there are very few qualified suppliers. Extended disruptions at these suppliers could impact our ability to manufacture devices on time to meet consumer demand.

RESEARCH AND DEVELOPMENT

Product and Service Development, and Intellectual Property

We develop most of our products and services internally through the following engineering groups.

- *Cloud and AI* – focuses on making IT professionals, developers, partners, independent software vendors, and their systems more productive and efficient through development of Azure AI platform and cloud infrastructure, server, database, CRM, ERP, software development tools and services, AI cognitive services, and other business process applications and services for enterprises.
- *Strategic Missions and Technologies* – focuses on incubating technical products and support solutions with transformative potential for the future of cloud computing and continued company growth, such as quantum computing and advanced AI for science.
- *Experiences and Devices* – focuses on delivering high value end-user experiences across our products, services, and devices, including Microsoft 365, Windows, Microsoft Teams, and the Surface line of devices.
- *Microsoft AI* – focuses on delivering online experiences targeted at consumers (including Bing, Copilot, Start/MSN, and other advertising-based services) and developing advanced AI models.
- *Microsoft Security* – focuses on delivering a comprehensive portfolio of services that protect our customers’ digital infrastructure through cloud platform and application security, data protection and governance, identity and network access, and device management.
- *Technology and Research* – focuses on fundamental research, product and business incubations, and forward-looking AI innovations that span infrastructure, services, and applications. This engineering group includes Microsoft Research, one of the world’s largest corporate research organizations, which focuses on fundamental research in AI, computer science, and a broad range of other disciplines.
- *LinkedIn* – focuses on our services that transform the way professionals grow their network and find jobs and the way businesses hire, market, sell, and learn.
- *Gaming* – focuses on developing hardware, content, and services across a large range of platforms to help grow our user base through game experiences and social interaction.

Internal development allows us to maintain competitive advantages that come from product differentiation and closer technical control over our products and services. It also gives us the freedom to decide which modifications and enhancements are most important and when they should be implemented. We strive to obtain information as early as possible about changing usage patterns and hardware advances that may affect software and hardware design. Before releasing new software platforms, and as we make significant modifications to existing platforms, we provide application vendors with a range of resources and guidelines for development, training, and testing. Generally, we also create product documentation internally.

We protect our intellectual property investments in a variety of ways. We work actively in the U.S. and internationally to ensure the enforcement of copyright, trademark, trade secret, and other protections that apply to our software and hardware products, services, business plans, and branding. We are a leader among technology companies in pursuing patents and currently have a portfolio of over 63,000 U.S. and international patents issued and over 23,000 pending worldwide. While we employ much of our internally-developed intellectual property in our products and services, we also engage in outbound licensing of specific patented technologies that are incorporated into licensees' products. From time to time, we enter into broader cross-license agreements with other technology companies covering entire groups of patents. We may also purchase or license technology that we incorporate into our products and services. At times, we make select intellectual property broadly available at no or low cost to achieve a strategic objective, such as promoting industry standards, advancing interoperability, supporting societal and/or environmental efforts, or attracting and enabling our external development community. Our engagement with open source software also causes us to license our intellectual property rights broadly in certain situations.

While it may be necessary in the future to seek or renew licenses relating to various aspects of our products and services, we believe, based upon past experience and industry practice, such licenses generally can be obtained on commercially reasonable terms. We believe our continuing research and product development are not materially dependent on any single license or other agreement with a third party relating to the development of our products.

Investing in the Future

Our success is based on our ability to create new and compelling products, services, and experiences for our users, to initiate and embrace disruptive technology trends, to enter new geographic and product markets, and to drive broad adoption of our products and services. We invest in a range of emerging technology trends and breakthroughs that we believe offer significant opportunities to deliver value to our customers and growth for the company. Based on our assessment of key technology trends, we maintain our long-term commitment to research and development across a wide spectrum of technologies, tools, and platforms spanning digital work and life experiences, cloud computing, AI, devices, and operating systems.

While our main product research and development facilities are located in Redmond, Washington, we also operate research and development facilities in other parts of the U.S. and around the world. This global approach helps us remain competitive in local markets and enables us to continue to attract top talent from across the world.

We plan to continue to make significant investments in a broad range of product research and development activities, and as appropriate we will coordinate our research and development across operating segments and leverage the results across the company. This includes continuing to support fundamental research, which provides us with a unique perspective on future trends and contributes to our innovation.

DISTRIBUTION, SALES, AND MARKETING

We market and distribute our products and services through the following channels: OEMs, direct, and distributors and resellers. Our sales organization performs a variety of functions, including working directly with commercial enterprises and public-sector organizations worldwide to identify and meet their technology and digital transformation requirements; managing OEM relationships; and supporting system integrators, independent software vendors, and other partners who engage directly with our customers to perform sales, consulting, and fulfillment functions for our products and services.

OEMs

We distribute our products and services through OEMs that pre-install our software on new devices and servers they sell. The largest component of the OEM business is the Windows operating system pre-installed on devices. OEMs also sell devices pre-installed with other Microsoft products and services, including applications such as Office and the capability to subscribe to Microsoft 365 Consumer.

There are two broad categories of OEMs. The largest category of OEMs are direct OEMs as our relationship with them is managed through a direct agreement between Microsoft and the OEM. We have distribution agreements covering one or more of our products with virtually all the multinational OEMs, including Dell, Hewlett-Packard, Lenovo, and with many regional and local OEMs. The second broad category of OEMs are system builders consisting of lower-volume PC manufacturers, which source Microsoft software for pre-installation and local redistribution primarily through the Microsoft distributor channel rather than through a direct agreement or relationship with Microsoft.

Direct

Many organizations that license our products and services transact directly with us through Enterprise Agreements and Enterprise Services contracts, with sales support from system integrators, independent software vendors, web agencies, and partners that advise organizations on licensing our products and services (“Enterprise Agreement Software Advisors” or “ESA”). Microsoft offers direct sales programs targeted to reach small, medium, and corporate customers, in addition to those offered through the reseller channel. A large network of partner advisors support many of these sales.

We also sell commercial and consumer products and services directly to customers, such as cloud services, search, and gaming, through our digital marketplaces and online stores. Additionally, our Microsoft Experience Centers are designed to facilitate deeper engagement with our partners and customers across industries.

Distributors and Resellers

Organizations also license our products and services indirectly, primarily through licensing solution partners (“LSP”), distributors, value-added resellers (“VAR”), and retailers. Although each type of reselling partner may reach organizations of all sizes, LSPs are primarily engaged with large organizations, distributors resell primarily to VARs, and VARs typically reach small and medium organizations. ESAs are also typically authorized as LSPs and operate as resellers for our other volume licensing programs. Microsoft Cloud Solution Provider is our main partner program for reselling cloud services.

We distribute our retail packaged products primarily through independent non-exclusive distributors, authorized replicators, resellers, and retail outlets. Individual consumers obtain these products primarily through retail outlets. We distribute our devices through third-party retailers. We have a network of field sales representatives and field support personnel that solicit orders from distributors and resellers and provide product training and sales support.

Our Dynamics business solutions are also licensed to enterprises through a global network of channel partners providing vertical solutions and specialized services.

LICENSING OPTIONS

We offer options for organizations of varying sizes that want to purchase our cloud services and on-premise software. We license these organizations under volume licensing agreements to allow the customer to acquire multiple licenses of products and services instead of having to acquire separate licenses through retail channels. These volume licensing programs have varying programmatic requirements and benefits to best meet the needs of our customers.

Software Assurance (“SA”) conveys rights to new software and upgrades for perpetual licenses released over the contract period. It also provides support, tools, training, and other licensing benefits to help customers deploy and use software efficiently. SA is required to be purchased with certain volume licensing agreements and is an optional purchase with others.

Volume Licensing Programs

Enterprise Agreement

Enterprise Agreements offer large organizations a manageable volume licensing program that gives them the flexibility to buy cloud services and software licenses under one agreement. Enterprise Agreements are designed for medium or large organizations that want to license Microsoft products and services organization-wide over a three-year period. Organizations can elect to purchase perpetual licenses (covered with SA) and/or subscribe to cloud services.

Microsoft Customer Agreement

Microsoft Customer Agreements are simplified purchase agreements presented, accepted, and stored through a digital experience. Microsoft Customer Agreements are non-expiring agreements that are designed to support all customers over time, whether purchasing through a partner or directly from Microsoft.

Microsoft Online Subscription Agreement

Microsoft Online Subscription Agreements are designed for small and medium organizations that want to subscribe to, activate, provision, and maintain cloud services seamlessly and directly via the web. These agreements allow customers to acquire monthly or annual subscriptions for cloud-based services.

Microsoft Products and Services Agreement

Microsoft Products and Services Agreements are designed for medium and large organizations that want to license cloud services and on-premises software as needed, with no organization-wide commitment, under a single, non-expiring agreement. Organizations purchase perpetual licenses or subscribe to licenses. SA is optional for customers that purchase perpetual licenses.

Open Value

Open Value agreements are a simple, cost-effective way to acquire the latest Microsoft technology. These agreements are designed for small and medium organizations that want to license cloud services and on-premises software over a three-year period. Under Open Value agreements, organizations can elect to purchase perpetual licenses or subscribe to licenses and SA is included.

Select Plus

A Select Plus agreement is designed for government and academic organizations to acquire on-premises licenses at any affiliate or department level, while realizing advantages as one organization. Organizations purchase perpetual licenses and SA is optional.

Partner Programs

The Microsoft Cloud Solution Provider Program offers customers an easy way to license the cloud services they need in combination with the value-added services offered by their systems integrator, managed services provider, or cloud reseller partner. Partners in this program can easily package their own products and services to directly provision, manage, and support their customer subscriptions.

The Microsoft Services Provider License Agreement allows hosting service providers and independent software vendors who want to license eligible Microsoft software products to provide hosted applications and software services to their end customers. Partners license software over a three-year period and are billed monthly based on units licensed.

The Independent Software Vendor Royalty Program enables partners to integrate Microsoft products into other applications and then license the unified business solution to their end users.

CUSTOMERS

Our customers include individual consumers, small and medium organizations, large global enterprises, public-sector institutions, Internet service providers, application developers, and OEMs. Our practice is to ship our products promptly upon receipt of purchase orders from customers; consequently, backlog is not significant.

GOVERNMENT REGULATION

We are subject to a wide range of laws, regulations, and legal requirements in the U.S. and globally, including those that may apply to our products and online services offerings, and those that impose requirements related to user privacy, telecommunications, data storage and protection, advertising, and online content. How these laws and regulations apply to our business is often unclear, subject to change over time, and sometimes may be inconsistent from jurisdiction to jurisdiction. To comply with the accelerating global regulatory obligations, we established a regulatory governance framework and to create a repeatable system-focused approach to regulatory governance with an initial focus on four domains: Responsible AI, Privacy, Digital Safety, and Cybersecurity. The framework is designed to help us maintain customer trust and confidence in our products, remain in compliance with regulators around the globe, and effectively scale our capability to address the growing number of complex regulations. Through the framework, our legal and regulatory subject matter experts ingest regulations, develop standards and implementation guidance, and, when appropriate, work with our engineers to develop and implement products to monitor compliance. Our business teams, with legal support, manage the compliance programs and prepare external regulatory and commercial reporting, and our internal audit teams conduct reviews of our programs and processes. While we intended to create a unified approach to regulatory compliance, some of the programs and processes established pursuant to the framework are tailored to meet specific regulatory obligations, such as with the creation of independent compliance functions required by the European Union (“EU”) Digital Markets Act and the EU Digital Services Act, which oversee, monitor, and assess the company’s compliance with these acts.

For a description of the risks we face related to regulatory matters, refer to Risk Factors (Part I, Item 1A of this Form 10-K).

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

Our executive officers as of July 30, 2024 were as follows:

| Name | Age | Position with the Company |
|----------------------|------------|--|
| Satya Nadella | 56 | Chairman and Chief Executive Officer |
| Judson B. Althoff | 51 | Executive Vice President and Chief Commercial Officer |
| Kathleen T. Hogan | 58 | Executive Vice President and Chief Human Resources Officer |
| Amy E. Hood | 52 | Executive Vice President and Chief Financial Officer |
| Takeshi Numoto | 53 | Executive Vice President and Chief Marketing Officer |
| Bradford L. Smith | 65 | Vice Chair and President |
| Christopher D. Young | 52 | Executive Vice President, Business Development, Strategy, and Ventures |

Mr. Nadella was appointed Chairman of the Board in June 2021 and Chief Executive Officer in February 2014. He served as Executive Vice President, Cloud and Enterprise from July 2013 until that time. From 2011 to 2013, Mr. Nadella served as President, Server and Tools. From 2009 to 2011, he was Senior Vice President, Online Services Division. From 2008 to 2009, he was Senior Vice President, Search, Portal, and Advertising. Since joining Microsoft in 1992, Mr. Nadella’s roles also included Vice President of the Business Division.

Mr. Althoff was appointed Executive Vice President and Chief Commercial Officer in July 2021. He served as Executive Vice President, Worldwide Commercial Business from July 2017 until that time. Prior to that, Mr. Althoff served as the President of Microsoft North America. Mr. Althoff joined Microsoft in March 2013 as President of Microsoft North America. Mr. Althoff also serves on the Board of Directors of Ecolab Inc.

Ms. Hogan was appointed Executive Vice President and Chief Human Resources Officer in June 2023. Ms. Hogan had been Executive Vice President, Human Resources since November 2014. Prior to that Ms. Hogan was Corporate Vice President of Microsoft Services. She also served as Corporate Vice President of Customer Service and Support. Ms. Hogan joined Microsoft in 2003. Ms. Hogan also serves on the Board of Directors of Alaska Air Group, Inc.

Ms. Hood was appointed Executive Vice President and Chief Financial Officer in July 2013, subsequent to her appointment as Chief Financial Officer in May 2013. From 2010 to 2013, Ms. Hood was Chief Financial Officer of the Microsoft Business Division. Since joining Microsoft in 2002, Ms. Hood has also held finance-related positions in the Server and Tools Business and the corporate finance organization. Ms. Hood also serves on the Board of Directors of 3M Corporation.

Mr. Numoto was appointed Executive Vice President and Chief Marketing Officer in October 2023. He served as Executive Vice President and Commercial Chief Marketing Officer from March 2020. Mr. Numoto served as a Corporate Vice President, Cloud Marketing from January 2012. Prior to that, Mr. Numoto served as a Corporate Vice President for Office 365 Marketing from 2004, where he led the transformation from traditional on-premises packaged software to the introduction of Office 365. Since joining Microsoft in 1997, Mr. Numoto has held multiple roles in Windows Program Management and Office Marketing.

Mr. Smith was appointed Vice Chair and President in September 2021. Prior to that, he served as President and Chief Legal Officer since September 2015. He served as Executive Vice President, General Counsel, and Secretary from 2011 to 2015, and served as Senior Vice President, General Counsel, and Secretary from 2001 to 2011. Mr. Smith was also named Chief Compliance Officer in 2002. Since joining Microsoft in 1993, he was Deputy General Counsel for Worldwide Sales and previously was responsible for managing the European Law and Corporate Affairs Group, based in Paris. Mr. Smith also serves on the Board of Directors of Netflix, Inc.

Mr. Young has served as Executive Vice President, Business Development, Strategy, and Ventures since joining Microsoft in November 2020. Prior to Microsoft, he served as the Chief Executive Officer of McAfee, LLC from 2017 to 2020, and served as a Senior Vice President and General Manager of Intel Security Group from 2014 until 2017, when he led the initiative to spin out McAfee into a standalone company. Mr. Young also serves on the Board of Directors of American Express Company.

AVAILABLE INFORMATION

Our Internet address is www.microsoft.com. At our Investor Relations website, www.microsoft.com/investor, we make available free of charge a variety of information for investors. Our goal is to maintain the Investor Relations website as a portal through which investors can easily find or navigate to pertinent information about us, including:

- Our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports, as soon as reasonably practicable after we electronically file that material with or furnish it to the Securities and Exchange Commission ("SEC") at www.sec.gov.
- Information on our business strategies, financial results, and metrics for investors.
- Announcements of investor conferences, speeches, and events at which our executives talk about our product, service, and competitive strategies. Archives of these events are also available.
- Press releases on quarterly earnings, product and service announcements, legal developments, and international news.
- Corporate governance information including our articles of incorporation, bylaws, governance guidelines, committee charters, codes of conduct and ethics, global corporate social responsibility initiatives, and other governance-related policies.
- Other news and announcements that we may post from time to time that investors might find useful or interesting.
- Opportunities to sign up for email alerts to have information pushed in real time.

We publish a variety of reports and resources related to our Corporate Social Responsibility programs and progress on our Reports Hub website, www.microsoft.com/corporate-responsibility/reports-hub, including reports on sustainability, responsible sourcing, accessibility, digital trust, and public policy engagement.

The information found on these websites is not part of, or incorporated by reference into, this or any other report we file with, or furnish to, the SEC. In addition to these channels, we use social media to communicate to the public. It is possible that the information we post on social media could be deemed to be material to investors. We encourage investors, the media, and others interested in Microsoft to review the information we post on the social media channels listed on our Investor Relations website.

ITEM 1A. RISK FACTORS

Our operations and financial results are subject to various risks and uncertainties, including those described below, that could adversely affect our business, operations, financial condition, results of operations, liquidity, and the trading price of our common stock.

STRATEGIC AND COMPETITIVE RISKS

We face intense competition across all markets for our products and services, which may adversely affect our results of operations.

Competition in the technology sector

Our competitors range in size from diversified global companies with significant research and development resources to small, specialized firms whose narrower product lines may let them be more effective in deploying technical, marketing, and financial resources. Barriers to entry in many of our businesses are low and many of the areas in which we compete evolve rapidly with changing and disruptive technologies, shifting user needs, and frequent introductions of new products and services. If we do not continue to innovate and provide products, devices, and services that appeal to businesses and consumers, we may not remain competitive, which may adversely affect our business, financial condition, and results of operations.

Competition among platform-based ecosystems

An important element of our business model has been to create platform-based ecosystems on which many participants can build diverse solutions. A well-established ecosystem creates beneficial network effects among users, application developers, and the platform provider that can accelerate growth. Establishing significant scale in the marketplace is necessary to achieve and maintain attractive margins. We face significant competition from firms that provide competing platforms.

- A competing vertically-integrated model, in which a single firm controls the software and hardware elements of a product and related services, has succeeded with some consumer products such as PCs, tablets, smartphones, gaming consoles, wearables, and other endpoint devices. Competitors pursuing this model also earn revenue from services integrated with the hardware and software platform, including applications and content sold through their integrated marketplaces. They may also be able to claim security and performance benefits from their vertically integrated offer. We also offer some vertically-integrated hardware and software products and services. Shifting a portion of our business to a vertically integrated model may increase our cost of revenue and reduce our operating margins.
- We derive substantial revenue from licenses of Windows operating systems on PCs. We face significant competition from competing platforms developed for new devices and form factors such as smartphones and tablets. These devices compete on multiple bases including price and the perceived utility of the device and its platform. Users continue to turn to these devices to perform functions that in the past were performed by PCs. Even if many users view these devices as complementary to a PC, the prevalence of these devices may make it more difficult to attract application developers to our PC operating system platforms. Competing with operating systems licensed at low or no cost may decrease our PC operating system margins. Popular products or services offered on competing platforms could increase their competitive strength. In addition, some of our devices compete with products made by our original equipment manufacturer (“OEM”) partners, which may affect their commitment to our platform.
- Competing platforms have content and application marketplaces with scale and significant installed bases. The variety and utility of content and applications available on a platform are important to device purchasing decisions. Users may incur costs to move data and buy new content and applications when switching platforms. To compete, we must successfully enlist developers to write applications for our platform and ensure that these applications have high quality, security, customer appeal, and value. Efforts to compete with competitors’ content and application marketplaces may increase our cost of revenue and lower our operating margins. Competitors’ rules governing their content and applications marketplaces may restrict our ability to distribute products and services through them in accordance with our technical and business model objectives.

For all of these reasons, we may not be able to compete successfully against our current and future competitors, which may adversely affect our business, operations, financial condition, and results of operations.

Business model competition

Companies compete with us based on a growing variety of business models.

- A material part of our business involves cloud-based services available across the spectrum of computing devices. Our competitors continue to develop and deploy cloud-based services for consumers and business customers, and pricing and delivery models are evolving. We and our competitors are devoting significant resources to develop and deploy our cloud-based strategies.
- We are investing in artificial intelligence (“AI”) across the entire company and infusing generative AI capabilities into our consumer and commercial offerings. We expect AI technology and services to be a highly competitive and rapidly evolving market, and new competitors continue to enter the market. We will bear significant development and operational costs to build and support the AI models, services, platforms, and infrastructure necessary to meet the needs of our customers. To compete effectively we must also be responsive to technological change, new and potential regulatory developments, and public scrutiny.
- Even as we transition more of our business to infrastructure-, platform-, and software-as-a-service business model, the license-based proprietary software model generates a substantial portion of our software revenue. We bear the costs of converting original ideas into software products through investments in research and development, offsetting these costs with the revenue received from licensing our products. Many of our competitors also develop and sell software to businesses and consumers under this model.
- Other competitors develop and offer free applications, online services, and content, and make money by selling third-party advertising. Advertising revenue funds development of products and services these competitors provide to users at little or no cost, competing directly with our revenue-generating products.
- Some companies compete with us by modifying and then distributing open source software at little or no cost to end users, using open source AI models, and earning revenue on advertising or integrated products and services. These firms do not bear the full costs of research and development for the open source products. Some open source products mimic the features and functionality of our products.

The competitive pressures described above may cause decreased sales volumes, price reductions, and/or increased operating costs, such as for research and development, marketing, and sales incentives, which may adversely affect our financial condition and results of operations.

Our focus on cloud-based and AI services presents execution and competitive risks. We are incurring significant costs to build and maintain infrastructure to support cloud computing and AI services. These costs will reduce the operating margins. Whether we succeed in cloud-based and AI services depends on our execution in several areas, including:

- Continuing to bring to market compelling cloud-based and AI experiences and products that generate increasing traffic and market share.
- Maintaining the utility, compatibility, and performance of our cloud-based and AI services on the growing array of computing devices, including PCs, smartphones, tablets, gaming consoles, and other devices.
- Continuing to enhance the attractiveness of our cloud platforms to third-party developers.
- Ensuring our cloud-based services meet the reliability expectations and specific requirements of our customers and maintain the security of their data as well as help them meet their own compliance needs.
- Making our suite of cloud-based services platform-agnostic, available on a wide range of devices and ecosystems, including those of our competitors.

It is uncertain whether our strategies will continue to attract users or generate the revenue required to succeed. If we are not effective in executing organizational and technical changes to increase efficiency and accelerate innovation, or if we fail to generate sufficient usage of our new products and services, we may not grow revenue in line with the infrastructure and development investments described above. This may adversely affect our operations, financial condition, and results of operations.

Our AI systems offer users powerful tools and capabilities. However, there may be instances where these systems are used in ways that are unintended or inappropriate. In addition, some users may also engage in fraudulent or abusive activities through our cloud-based services, such as unauthorized account access, payment fraud, or terms of service violations including cryptocurrency mining or launching cyberattacks. While we are committed to detecting and controlling such misuse of our cloud-based and AI services, our efforts may not be effective, and we may incur reputational damage or experience adverse impacts to our business and results of operations.

RISKS RELATING TO THE EVOLUTION OF OUR BUSINESS

We make significant investments in products and services that may not achieve expected returns. We will continue to make significant investments in research, development, and marketing for existing products, services, and technologies. In addition, we are focused on developing new AI platform services and incorporating AI into existing products and services. We also invest in the development and acquisition of a variety of hardware for productivity, communication, and entertainment, including PCs, tablets, and gaming devices. Investments in new technology are speculative. Commercial success depends on many factors, including innovation, developer support, and effective distribution and marketing. If customers do not perceive our latest offerings as providing significant new functionality or other value, they may reduce their purchases of new software and hardware products or upgrades, unfavorably affecting revenue. We may not achieve significant revenue from new product, service, and distribution channel investments for several years, if at all. New products and services may not be profitable or may not achieve operating margins as high as we have experienced historically. We may not get engagement in certain features that drive post-sale monetization opportunities. Our data-handling practices across our products and services will continue to be under scrutiny. Perceptions of mismanagement, driven by regulatory activity or negative public reaction to our practices or product experiences, could negatively impact product and feature adoption. Developing new technologies is complex. It can require long development and testing periods. We could experience significant delays in new releases or significant problems in creating new products or services. These factors could adversely affect our business, financial condition, and results of operations.

Acquisitions, joint ventures, and strategic alliances may have an adverse effect on our business. We expect to continue making acquisitions and entering into joint ventures and strategic alliances as part of our long-term business strategy. For example, in March 2022 we completed our acquisition of Nuance Communications, Inc., and in October 2023 we completed our acquisition of Activision Blizzard, Inc. (“Activision Blizzard”). In January 2023 we announced the third phase of our OpenAI strategic partnership. Acquisitions and other transactions and arrangements involve significant challenges and risks, including that they do not advance our business strategy, that we get an unsatisfactory return on our investment, that they raise new compliance-related obligations and challenges, that we have difficulty integrating and retaining new employees, business systems, and technology, that they distract management from our other businesses, or that announced transactions may not be completed. If an arrangement fails to adequately anticipate changing circumstances and interests of a party, it may result in early termination or renegotiation of the arrangement. We also have limited ability to control or influence third parties with whom we have arrangements, which may impact our ability to realize the anticipated benefits. The success of these transactions and arrangements depend in part on our ability to leverage them to enhance our existing products and services or develop compelling new ones, as well as the acquired companies’ ability to meet our policies and processes in areas such as data governance, privacy, and cybersecurity. It may take longer than expected to realize the full benefits from these transactions and arrangements, such as increased revenue or enhanced efficiencies, or the benefits may ultimately be smaller than we expected. In addition, an acquisition may be subject to challenge even after it has been completed. For example, the Federal Trade Commission continues to challenge our Activision Blizzard acquisition and could, if successful, alter or unwind the transaction. These events could adversely affect our business, operations, financial condition, and results of operations.

If our goodwill or amortizable intangible assets become impaired, we may be required to record a significant charge to earnings. We acquire other companies and intangible assets and may not realize all the economic benefit from those acquisitions, which could cause an impairment of goodwill or intangibles. We review our amortizable intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. We test goodwill for impairment at least annually. Factors that may be a change in circumstances, indicating that the carrying value of our goodwill or amortizable intangible assets may not be recoverable, include a decline in our stock price and market capitalization, reduced future cash flow estimates, and slower growth rates in industry segments in which we participate. We have in the past recorded, and may in the future be required to record, a significant charge in our consolidated financial statements during the period in which any impairment of our goodwill or amortizable intangible assets is determined, negatively affecting our results of operations.

CYBERSECURITY, DATA PRIVACY, AND PLATFORM ABUSE RISKS

Cyberattacks and security vulnerabilities could lead to reduced revenue, increased costs, liability claims, or harm to our reputation or competitive position.

Security of our information technology

Threats to IT security can take a variety of forms. Individual and groups of hackers and sophisticated organizations, including state-sponsored organizations or nation-states, continuously undertake attacks that pose threats to our customers and our IT, and we have experienced cybersecurity incidents in which such actors have gained unauthorized access to our IT systems and data, including customer systems and data. These actors use a wide variety of methods, which include developing and deploying malicious software; exploiting known and potential vulnerabilities or intentionally designed processes in hardware, software, or other infrastructure to attack our products and services or gain access to our networks and datacenters; using social engineering techniques to induce our employees, users, partners, or customers to disclose sensitive information, such as passwords, or take other actions to gain access to our data or our users' or customers' data; or acting in a coordinated manner or conducting coordinated attacks. For example, as previously disclosed in our Form 8-K filed with the Securities and Exchange Commission on January 19, 2024 and amended on March 8, 2024, beginning in late November 2023, a nation-state associated threat actor used a password spray attack to compromise a legacy test account and, in turn, gain access to Microsoft email accounts. The threat actor used and may continue to use information it obtained to gain, or attempt to gain, unauthorized access to some of our source code repositories and internal systems, and the threat actor may utilize this information to otherwise adversely affect our business and results of operations. This incident has and may continue to result in harm to our reputation and customer relationships. Additionally, we may discover additional impacts of this or other incidents as part of our ongoing examination of this incident. Nation-state and state-sponsored actors can sustain malicious activities for extended periods and deploy significant resources to plan and carry out attacks. Nation-state attacks against us, our customers, or our partners have and may continue to intensify during periods of intense diplomatic or armed conflict, such as the ongoing conflict in Ukraine. Cyber incidents and attacks, individually or in the aggregate, could adversely affect our financial condition, results of operations, competitive position, and reputation, or expose us to legal or regulatory risk.

Inadequate account security or organizational security practices, including those of companies we have acquired or those of the third parties we utilize, have resulted and may result in unauthorized access to our IT systems and data, including customer systems and data, in the future. For example, system administrators may fail to timely remove employee account access when no longer appropriate. Employees or third parties may intentionally compromise our or our users' security or systems or reveal confidential information. Malicious actors may employ the IT supply chain to introduce malware through software updates or compromised supplier accounts or hardware.

Cyberthreats are constantly evolving and becoming increasingly sophisticated and complex, increasing the difficulty of detecting and successfully defending against them. Threat actors may also utilize emerging technologies, such as AI and machine learning. We may have no current capability to detect certain vulnerabilities or new attack methods, which may allow them to persist in the environment over long periods of time. It may be difficult to determine the best way to investigate, mitigate, contain, and remediate the harm caused by a cyber incident. Such efforts may not be successful, and we may make errors or fail to take necessary actions. It is possible that threat actors may gain undetected access to other networks and systems after establishing a foothold on an internal system. Cyber incidents and attacks can have cascading impacts that unfold with increasing speed across our internal networks and systems, as well as those of our partners and customers. In addition, it may take considerable time for us to investigate and evaluate the full impact of incidents, particularly for sophisticated attacks. These factors may inhibit our ability to provide prompt, full, and reliable information about the incident to our customers, partners, regulators, and the public. Breaches of our facilities, network, or data security can disrupt the security of our systems and business applications, impair our ability to provide services to our customers and protect the privacy of their data, result in product development delays, compromise confidential or technical business information, result in theft or misuse of our intellectual property or other assets, subject us to ransomware attacks, require us to allocate more resources to improve technologies or remediate the impacts of attacks, or otherwise adversely affect our business. In addition, actions taken to remediate an incident could result in outages, data losses, and disruptions of our services.

Our internal IT environment continues to evolve. Often, we are early adopters of new devices and technologies. We embrace new ways of sharing data and communicating internally and with partners and customers using methods such as social networking and other consumer-oriented technologies. Increasing use of generative AI models in our internal systems may create new attack methods for adversaries. Our business policies and internal security controls may not keep pace with these changes as new threats emerge or the emerging cybersecurity regulations in jurisdictions worldwide.

Security of our products, services, devices, and customers' data

The security of our products and services is important in our customers' decisions to purchase or use our products or services across cloud and on-premises environments. Security threats are a significant challenge to companies like us, whose business is providing technology products and services to others. Threats to or attacks on our own IT infrastructure, such as the nation-state attack described in the prior risk factor, have also affected our customers and may do so in the future. Customers using our cloud-based services rely on the security of our infrastructure, including hardware and other elements provided by third parties, to ensure the reliability of our services and the protection of their data. Adversaries tend to focus their efforts on the most popular operating systems, programs, and services, including many of ours, and we expect that to continue. In addition, adversaries can attack our customers' on-premises or cloud environments, sometimes exploiting previously unknown ("zero-day") vulnerabilities, such as the attack in early calendar year 2021 with several of our Exchange Server on-premises products. Vulnerabilities in these or any product can persist even after we have issued security patches if customers have not installed the most recent updates, or if the attackers exploited the vulnerabilities before patching to install additional malware to further compromise customers' systems. Adversaries will continue to attack customers using our cloud services as customers embrace digital transformation. Adversaries that acquire user account information can use that information to compromise our users' accounts, including where accounts share the same attributes such as passwords. Inadequate account security practices may also result in unauthorized access, and user activity may result in ransomware or other malicious software impacting a customer's use of our products or services. There may be vulnerabilities in open source software that may make our products susceptible to cyberattacks as we increasingly incorporate open source software into our products. Additionally, features that rely on generative AI may be susceptible to unanticipated security threats from adversaries as we add new generative AI features to our services while continuously developing our understanding of security risks and protection methods in the new field of generative AI.

Our customers operate complex IT systems with third-party hardware and software from multiple vendors that may include systems acquired over many years. They expect our products and services to support all these systems and products, including those that no longer incorporate the strongest current security advances or standards. As a result, we may not be able to discontinue support in our services for a product, service, standard, or feature solely because a more secure alternative is available. Failure to utilize the most current security advances and standards can increase our customers' vulnerability to attack. Further, customers of widely varied sizes and technical sophistication use our technology, and consequently may still have limited capabilities and resources to help them adopt and implement state-of-the-art cybersecurity practices and technologies. In addition, we must account for this wide variation of technical sophistication when defining default settings for our products and services, including security default settings, as these settings may limit or otherwise impact other aspects of IT operations and some customers may have limited capability to review and reset these defaults.

Cyberattacks may adversely impact our customers even if our production services are not directly compromised. We are committed to notifying our customers whose systems have been impacted as we become aware and have actionable information for customers to help protect themselves. We are also committed to providing guidance and support on detection, tracking, and remediation. We may not be able to detect the existence or extent of these attacks for all of our customers or have information on how to detect or track an attack, especially where an attack involves on-premises software such as Exchange Server where we may have no or limited visibility into our customers' computing environments.

Any of the foregoing events could result in reputational harm, loss of revenue, increased costs, or otherwise adversely affect our business, financial condition, and results of operations.

Development and deployment of defensive measures

To defend against security threats to our internal IT systems, our cloud-based services, and our customers' systems, we must continuously engineer more secure products and services, enhance security, threat detection, and reliability features, escalate and improve the deployment of software updates to address security vulnerabilities in our own products as well as those provided by others in a timely manner, develop mitigation technologies that help to secure customers from attacks even when software updates are not deployed, maintain the digital security infrastructure that protects the integrity of our network, products, and services, and provide security tools such as firewalls, anti-virus software, and advanced security and information about the need to deploy security measures and the impact of doing so.

The cost of measures to protect products and customer-facing services could reduce our operating margins. If we fail to do these things well, actual or perceived security vulnerabilities in our products and services, data corruption issues, or reduced performance could harm our reputation and lead customers to reduce or delay future purchases of products or subscriptions to services, or to use competing products or services. Customers may also spend more on protecting their existing computer systems from attack, which could delay adoption of additional products or services. Customers in certain industries such as financial services, health care, and government may have enhanced or specialized expectations and requirements to which we must engineer our products and services. Customers and third parties granted access to their systems may fail to update their systems, continue to run software or operating systems we no longer support, or may fail timely to install or enable security patches, or may otherwise fail to adopt adequate security practices. Any of these could adversely affect our reputation and results of operations. Actual or perceived vulnerabilities may lead to claims against us. Our license agreements typically contain provisions that eliminate or limit our exposure to liability, but there is no assurance these provisions will withstand legal challenges. At times, to achieve commercial objectives, we may enter into agreements with larger liability exposure to customers.

Our products operate in conjunction with and are dependent on products and components across a broad ecosystem of third parties. If there is a security vulnerability in one of these components, and if there is a security exploit targeting it, we may experience adverse impacts to our results of operations, reputation, or competitive position.

Disclosure and misuse of personal data could result in liability and harm our reputation. As we continue to grow the number, breadth, and scale of our cloud-based offerings, we store and process increasingly large amounts of personal data of our customers and users. The continued occurrence of high-profile data breaches provides evidence of an external environment increasingly hostile to information security. Despite our efforts to improve the security controls across our business groups and geographies, it is possible our security controls over personal data, our training of employees and third parties on data security, and other practices we follow may not prevent the improper disclosure or misuse of customer or user data we or our vendors store and manage. Relatedly, despite our efforts to continuously improve security controls, it is possible that we may fail to identify or mitigate insider threat activities that could lead to the misuse of our systems or customer and user data. In addition, third parties who have limited access to our customer or user data may use this data in unauthorized ways. Improper disclosure or misuse could harm our reputation, lead to legal exposure to customers or users, or subject us to liability under laws that protect personal data, resulting in increased costs or loss of revenue. Our software products and services also enable our customers and users to store and process personal data on-premises or in a cloud-based environment we host. Government authorities can sometimes require us to produce customer or user data in response to valid legal orders. In the U.S. and elsewhere, we advocate for transparency concerning these requests and appropriate limitations on government authority to compel disclosure. Despite our efforts to protect customer and user data, perceptions that the collection, use, and retention of personal information is not satisfactorily protected could inhibit sales of our products or services and could limit adoption of our cloud-based solutions by consumers, businesses, and government entities. Additional security measures we may take to address customer or user concerns, or constraints on our flexibility to determine where and how to operate datacenters in response to customer or user expectations or governmental rules or actions, may increase costs or hinder sales of our products and services.

We may not be able to protect information in our products and services from use by others. LinkedIn and other Microsoft products and services contain valuable information and content protected by contractual restrictions or technical measures. In certain cases, we have made commitments to our members and users to limit access to or use of this information. Changes in the law or interpretations of the law may weaken our ability to prevent third parties from scraping or gathering information or content through use of bots or other measures and using it for their own benefit which could adversely affect our business, financial condition, and results of operations.

Abuse of our platforms may harm our reputation or user engagement.

Advertising, professional, marketplace, and gaming platform abuses

For platform products and services that provide content or host ads that come from or can be influenced by third parties, our reputation or user engagement may be negatively affected by activity that is hostile or inappropriate. This activity may come from users impersonating other people or organizations, including through the use of AI technologies, dissemination of information that may be viewed as misleading or intended to manipulate the opinions of our users, or the use of our products or services that violates our terms of service or otherwise for objectionable or illegal ends. Preventing or responding to these actions may require us to make substantial investments in people and technology and these investments may not be successful, adversely affecting our business, financial condition, and results of operations.

Other digital safety abuses

Our hosted consumer services as well as our enterprise services may be used to generate or disseminate harmful or illegal content in violation of our terms or applicable law. We may not proactively discover such content due to scale, the limitations of existing technologies, and conflicting legal frameworks. When discovered by users and others, such content may negatively affect our reputation, our brands, and user engagement. Regulations and other initiatives to make platforms responsible for preventing or eliminating harmful content online have been enacted, and we expect this to continue. We may be subject to enhanced regulatory oversight, civil or criminal liability, or reputational damage if we fail to comply with content moderation regulations, adversely affecting our business, financial condition, and results of operations.

Our products and services, how they are used by customers, and how third-party products and services interact with them, may present security, privacy, and execution risks. Our products and services may contain defects in design, manufacture, or operation that make them insecure or ineffective for their intended purposes. For example, an Internet of Things solution may have multiple layers of hardware, sensors, processors, software, and firmware, several of which we may not develop or control, and may have limited ability to be updated or patched. Further, customers control our products and services, including our AI products, within their environments, and may deploy them in high-risk scenarios or utilize them inappropriately. As a result, our products and services may increasingly affect personal health and safety. Our products may also collect large amounts of data in manners which may not satisfy customers or regulatory requirements. Our customers also operate complex IT systems with third-party hardware and software from multiple vendors whose products or personnel may take or fail to take actions which impact the reliability or security of our products and services. If our products and services do not work as intended, are utilized in methods not intended, violate the law, or harm individuals or businesses, we may be subject to legal claims or enforcement actions. These risks, if realized, may increase our costs, damage our reputation, or adversely affect our results of operations.

Issues in the development and use of AI may result in reputational or competitive harm or liability. We are building AI into many of our offerings, including our productivity services, and we are also making AI available for our customers to use in solutions that they build. This AI may be developed by Microsoft or others, including our strategic partner, OpenAI. We expect these elements of our business to grow. We envision a future in which AI operating in devices, applications, and the cloud helps our customers be more productive in their work and personal lives. As with many innovations, AI presents risks and challenges that could affect its adoption, and therefore our business. AI algorithms or training methodologies may be flawed. Datasets may be overbroad, insufficient, or contain biased information. Content generated by AI systems may be offensive, illegal, inaccurate, or otherwise harmful. Ineffective or inadequate AI development or deployment practices by Microsoft or others could result in incidents that impair the acceptance of AI solutions, cause harm to individuals, customers, or society, or result in our products and services not working as intended. Human review of certain outputs may be required. Our implementation of AI systems could result in legal liability, regulatory action, brand, reputational, or competitive harm, or other adverse impacts. These risks may arise from current copyright infringement and other claims related to AI training and output, new and proposed legislation and regulations, such as the European Union's ("EU") AI Act and the U.S.'s AI Executive Order, and new applications of data protection, privacy, consumer protection, intellectual property, and other laws. Some AI scenarios present ethical issues or may have broad impacts on society. If we enable or offer AI solutions that have unintended consequences, unintended usage or customization by our customers and partners, are contrary to our responsible AI policies and practices, or are otherwise controversial because of their impact on human rights, privacy, employment, or other social, economic, or political issues, our reputation, competitive position, business, financial condition, and results of operations may be adversely affected.

OPERATIONAL RISKS

We may have excessive outages, data losses, and disruptions of our online services if we fail to maintain an adequate operations infrastructure. Our increasing user traffic, growth in services, and the complexity of our products and services demand more computing power. We spend substantial amounts to build, purchase, or lease datacenters and equipment and to upgrade our technology and network infrastructure to handle more traffic on our websites and in our datacenters. Our datacenters depend on the availability of permitted and buildable land, predictable energy, networking supplies, and servers, including graphics processing units and other components. The cost or availability of these dependencies could be adversely affected by a variety of factors, including the transition to a clean energy economy, local and regional environmental regulations, and geopolitical disruptions. These demands continue to increase as we introduce new products and services and support the growth and the augmentation of existing services, including through the incorporation of AI features and/or functionality. We are rapidly growing our business of providing a platform and back-end hosting for services provided by third parties to their end users. Maintaining, securing, and expanding this infrastructure is expensive and complex, and requires development of principles for datacenter builds in geographies with higher safety and reliability risks. It requires that we maintain an Internet connectivity infrastructure and storage and compute capacity that is robust and reliable within competitive and regulatory constraints that continue to evolve. Inefficiencies or operational failures, including temporary or permanent loss of customer data, outages, insufficient Internet connectivity, insufficient or unavailable power or water supply, or inadequate storage and compute capacity could diminish the quality of our products, services, and user experience, resulting in contractual liability, claims by customers and other third parties, regulatory actions, damage to our reputation, and loss of current and potential users, subscribers, and advertisers, each of which may adversely affect our business, operations, financial condition, and results of operations.

We may experience quality or supply problems. There are limited suppliers for certain device and datacenter components. We continue to identify and evaluate opportunities to expand our datacenter locations and increase our server capacity to meet the evolving needs of our customers, particularly given the growing demand for AI services. Capacity available to us may be affected as competitors use some of the same suppliers and materials for hardware components. If components are delayed or become unavailable, whether because of supplier capacity constraint, industry shortages, legal or regulatory changes that restrict supply sources, or other reasons, we may not obtain timely replacement supplies, resulting in reduced sales or inadequate datacenter capacity to support the delivery and continued development of our products and services. Component shortages, excess or obsolete inventory, or price reductions resulting in inventory adjustments may increase our cost of revenue. Datacenter servers, Xbox consoles, Surface devices, and other hardware are assembled in Asia and other geographies that may be subject to disruptions in the supply chain, resulting in shortages which may adversely affect our business, operations, financial condition, and results of operations.

Our software products and services also may experience quality or reliability problems. The highly sophisticated software we develop may contain bugs and other defects that interfere with their intended operation. Our customers increasingly rely on us for critical business functions and multiple workloads. Many of our products and services are interdependent on one another. Our products and services may be impacted by interaction with third-party products and services. Our customers may also utilize their own or third-party products and services whose reliability is dependent on interaction with our products and services. Each of these circumstances potentially magnifies the impact of quality or reliability issues. Any defects we do not detect and fix in pre-release testing could cause reduced sales, damage to our reputation, repair or remediation costs, delays in the release of new products or versions, or legal liability, which could adversely affect our business, financial condition, and results of operations. Although our license agreements typically contain provisions that eliminate or limit our exposure to liability, there is no assurance these provisions will withstand legal challenge.

Our hardware products such as Xbox consoles, Surface devices, and other devices we design and market are highly complex. Failure to prevent, detect, or address defects in design, manufacture, or associated software could result in recalls, safety alerts, or product liability claims, which could adversely affect our business and results of operations.

LEGAL, REGULATORY, AND LITIGATION RISKS

Government enforcement under competition laws and new market regulation may limit how we design and market our products. Government agencies closely scrutinize us under U.S. and foreign competition laws. Governments are actively enforcing competition laws and regulations and enacting new regulations to intervene in digital markets, and this includes markets such as the EU, the United Kingdom, the U.S., and China. Some jurisdictions also allow competitors or consumers to assert claims of anti-competitive conduct. U.S. and foreign antitrust authorities have previously brought enforcement actions and continue to scrutinize our business.

For example, the European Commission (“the Commission”) has designated Windows and LinkedIn as core platform services subject to obligations under the EU Digital Markets Act, which prohibits certain self-preferencing behaviors and places limitations on certain data use among other obligations. The Commission also continues to closely scrutinize the design of high-volume Microsoft products and the terms on which we make certain technologies used in these products, such as file formats, programming interfaces, and protocols, available to other companies. Flagship product releases such as Microsoft 365 and Windows can receive significant scrutiny under EU or other competition laws.

Our portfolio of first-party devices continues to grow; at the same time, our OEM partners offer a large variety of devices for our platforms. As a result, we increasingly both cooperate and compete with our OEM partners, creating a risk that we fail to do so in compliance with competition rules. Regulatory scrutiny in this area may increase. Certain foreign governments, particularly in China and other countries in Asia, have advanced arguments under their competition laws that exert downward pressure on royalties for our intellectual property.

Competition law enforcement actions and court decisions along with new market regulations may result in fines or hinder our ability to provide the benefits of our software to consumers and businesses, reducing the attractiveness of our products and the revenue that comes from them. New competition law actions or obligations under market regulation schemes could be initiated, potentially using previous actions as precedent. The outcome of such actions, or steps taken to avoid them, could adversely affect us in a variety of ways, including causing us to withdraw products from or modify products for certain markets, decreasing the value of our assets, adversely affecting our ability to monetize our products, or inhibiting our ability to consummate acquisition or impose conditions on acquisitions that may reduce their value, which may adversely affect our business, financial condition, and results of operations.

Laws and regulations relating to anti-corruption and trade could result in increased costs, fines, criminal penalties, or reputational damage. The Foreign Corrupt Practices Act (“FCPA”) and other anti-corruption laws and regulations (“Anti-Corruption Laws”) prohibit corrupt payments by our employees, vendors, or agents, and the accounting provisions of the FCPA require us to maintain accurate books and records and adequate internal controls. From time to time, we receive inquiries from authorities in the U.S. and elsewhere which may be based on reports from employees and others about our business activities outside the U.S. and our compliance with Anti-Corruption Laws. Periodically, we receive such reports directly and investigate them, and also cooperate with investigations by U.S. and foreign law enforcement authorities. An example of increasing international regulatory complexity is the EU Whistleblower Directive, initiated in 2021, which presents compliance challenges as it is implemented in different forms by EU member states. Most countries in which we operate also have competition laws that prohibit competitors from colluding or otherwise attempting to reduce competition between themselves. While we devote substantial resources to our U.S. and international compliance programs and have implemented policies, training, and internal controls designed to reduce the risk of corrupt payments and collusive activity, our employees, partners, vendors, or agents may violate our policies. Our failure to comply with Anti-Corruption Laws or competition laws could result in significant fines and penalties, criminal sanctions against us, our officers, or our employees, prohibitions on the conduct of our business, and damage to our reputation, which could adversely affect our business, financial condition, and results of operations.

Increasing trade laws, policies, sanctions, and other regulatory requirements also affect our operations in and outside the U.S. relating to trade and investment. Economic sanctions in the U.S., the EU, and other countries prohibit most business with restricted entities or countries. U.S. export controls restrict Microsoft from offering many of its products and services to, or making investments in, certain entities in specified countries. U.S. import controls restrict us from integrating certain information and communication technologies into our supply chain and allow for government review of transactions involving information and communications technology from countries determined to be foreign adversaries. Supply chain regulations may impact the availability of goods or result in additional regulatory scrutiny. Periods of intense diplomatic or armed conflict, such as the ongoing conflict in Ukraine, may result in (1) new and rapidly evolving sanctions and trade restrictions, which may impair trade with sanctioned individuals and countries, and (2) negative impacts to regional trade ecosystems among our customers, partners, and us. Non-compliance with sanctions as well as general ecosystem disruptions could result in reputational harm, operational delays, monetary fines, loss of revenue, increased costs, loss of export privileges, or criminal sanctions, which could adversely affect our business, financial condition, and results of operations.

Laws and regulations relating to the handling of personal data may impede the adoption of our services or result in increased costs, legal claims, fines against us, or reputational damage. The growth of our Internet- and cloud-based services internationally relies increasingly on the movement of data across national boundaries. Legal requirements relating to the collection, storage, handling, and transfer of personal data continue to evolve. For example, while the EU-U.S. Data Privacy Framework (“DPF”) has been recognized as adequate under EU law to allow transfers of personal data from the EU to certified companies in the U.S., the DPF is subject to further legal challenge which could cause the legal requirements for data transfers from the EU to be uncertain. EU data protection authorities have and may again block the use of certain U.S.-based services that involve the transfer of data to the U.S. In the EU and other markets, potential new rules and restrictions on the flow of data across borders could increase the cost and complexity of delivering our products and services. In addition, the EU General Data Protection Regulation (“GDPR”), which applies to all of our activities conducted from an establishment in the EU or related to products and services offered in the EU, imposes a range of compliance obligations regarding the handling of personal data. More recently, the EU has been developing new requirements related to the use of data, including in the Digital Markets Act, the Digital Services Act, and the Data Act, that add additional rules and restriction on the use of data in our products and services. Engineering efforts to build and maintain capabilities to facilitate compliance with these laws involve substantial expense and the diversion of engineering resources from other projects. We might experience reduced demand for our offerings if we are unable to engineer products that meet our legal duties or help our customers meet their obligations under these and other data regulations, or if our implementation to comply makes our offerings less attractive. Compliance with these obligations depends in part on how particular regulators interpret and apply them. If we fail to comply, or if regulators assert we have failed to comply (including in response to complaints made by customers), it may lead to regulatory enforcement actions, which can result in significant monetary penalties, private lawsuits, reputational damage, blockage of product offerings or of international data transfers, and loss of customers. The highest fines assessed under GDPR have recently been increasing, especially against large technology companies, and European data protection authorities have taken action to block or remove services from their markets. Jurisdictions around the world, such as China, India, and states in the U.S. have adopted, or are considering adopting or expanding, laws and regulations imposing obligations regarding the collection, handling, and transfer of personal data.

Our investment in gaining insights from data is becoming central to the value of the services we deliver to customers, including AI services, to operational efficiency and key opportunities in monetization, and to customer perceptions of quality. Our ability to use data in this way may be constrained by regulatory developments that impede realizing the expected return from this investment. Ongoing legal analyses, reviews, and inquiries by regulators of Microsoft practices, or relevant practices of other organizations, may result in burdensome or inconsistent requirements, including data sovereignty and localization requirements, affecting the location, movement, collection, and use of our customer and internal employee data as well as the management of that data. Compliance with applicable laws and regulations regarding personal data may require changes in services, business practices, or internal systems that result in increased costs, lower revenue, reduced efficiency, or greater difficulty in competing with foreign-based firms. Compliance with data regulations might limit our ability to innovate or offer certain features and functionality in some jurisdictions where we operate. Failure to comply with existing or new rules may result in significant penalties or orders to stop the alleged noncompliant activity, negative publicity, and diversion of management time and effort.

Existing and increasing legal and regulatory requirements could adversely affect our results of operations. We are subject to a wide range of laws, regulations, and legal requirements in the U.S. and globally, including those that may apply to our products and online services offerings, and those that impose requirements related to user privacy, telecommunications, data storage and protection, digital accessibility, advertising, and online content. Laws in several jurisdictions, including EU Member State laws under the European Electronic Communications Code, increasingly define certain of our services as regulated telecommunications services. This trend may continue and will result in these offerings being subject to additional data protection, security, law enforcement surveillance, and other obligations. Regulators and private litigants may assert that our collection, use, and management of customer data and other information is inconsistent with their laws and regulations, including laws that apply to the tracking of users via technology such as cookies. In addition, laws requiring us to retrieve and produce customer data in response to compulsory legal demands from law enforcement and governmental authorities are expanding and the requests we are experiencing are increasing in volume and complexity. New environmental, social, and governance laws and regulations are expanding mandatory disclosure, reporting, and diligence requirements. Legislative or regulatory action relating to cybersecurity requirements may increase the costs to develop, implement, or secure our products and services. Legislative and regulatory action is emerging in the areas of AI and content moderation, which could increase costs or restrict opportunity. For example, the EU's AI Act may increase costs or impact the provision or operation of our AI models and services in the European market.

How these laws and regulations apply to our business is often unclear, subject to change over time, and sometimes may be inconsistent from jurisdiction to jurisdiction. In addition, governments' approach to enforcement, and our products and services, are continuing to evolve. Compliance with existing, expanding, or new laws and regulations may involve significant costs or require changes in products or business practices that could adversely affect our results of operations. Noncompliance could result in the imposition of penalties, criminal sanctions, or orders we cease the alleged noncompliant activity. In addition, there is increasing pressure from advocacy groups, regulators, competitors, customers, and other stakeholders across many of these areas. If our products do not meet customer expectations or legal requirements, we could face regulatory or legal actions, and our business, operations, financial condition, and results of operations could be adversely affected.

We have claims and lawsuits against us that may result in adverse outcomes. We are subject to a variety of claims and lawsuits. These claims may arise from a wide variety of business practices and initiatives, including major new product releases, AI services, significant business transactions, warranty or product claims, employment practices, and regulation. As we continue to expand our business and offerings, we may experience new and novel legal claims. Adverse outcomes in some or all of these claims may result in significant monetary damages or injunctive relief that could adversely affect our ability to conduct our business. Litigation and other claims are subject to inherent uncertainties and management's view of these matters may change in the future. A material adverse impact to our financial condition and results of operations could occur for the period in which the effect of an unfavorable outcome becomes probable and reasonably estimable.

Our business with government customers may present additional uncertainties. We derive substantial revenue from government contracts. Government contracts generally can present risks and challenges not present in private commercial agreements. For instance, we may be subject to government audits and investigations relating to these contracts, we could be suspended or debarred as a governmental contractor, we could incur civil and criminal fines and penalties, and under certain circumstances contracts may be rescinded. Some agreements may allow a government to terminate without cause and provide for higher liability limits for certain losses. Some contracts may be subject to periodic funding approval, reductions, cancellations, or delays which could adversely impact public-sector demand for our products and services. These events could negatively impact our financial condition, results of operations, and reputation.

We may have additional tax liabilities. We are subject to income taxes in the U.S. and many foreign jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes. In the course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. We may recognize additional tax expense and be subject to additional tax liabilities due to changes in tax laws, regulations, and administrative practices and principles, including changes to the global tax framework, in various jurisdictions. In recent years, multiple domestic and international tax proposals were proposed to impose greater tax burdens on large multinational enterprises. For example, the Organisation for Economic Co-operation and Development continues to advance proposals or guidance in international taxation, including the establishment of a global minimum tax.

We are regularly under audit by tax authorities in different jurisdictions. Although we believe that our provision for income taxes and our tax estimates are reasonable, tax authorities may disagree with certain positions we have taken. In addition, economic and political pressures to increase tax revenue in various jurisdictions may make resolving tax disputes favorably more difficult. We are currently under Internal Revenue Service (“IRS”) audit for prior tax years and have received Notices of Proposed Adjustment (“NOPAs”) from the IRS for the tax years 2004 to 2013. The primary issues in the NOPAs relate to intercompany transfer pricing. In the NOPAs, the IRS is seeking an additional tax payment of \$28.9 billion plus penalties and interest. The final resolution of the proposed adjustments, and other audits or litigation, may differ from the amounts recorded in our consolidated financial statements and adversely affect our results of operations in the period or periods in which that determination is made.

We earn a significant amount of our operating income outside the U.S. A change in the mix of earnings and losses in countries with differing statutory tax rates, changes in our business or structure, or the expiration of or disputes about certain tax agreements in a particular country may result in higher effective tax rates for the company. In addition, changes in U.S. federal and state or international tax laws applicable to corporate multinationals, other global fundamental law changes currently being considered by many countries, including in the U.S., and changes in taxing jurisdictions’ administrative interpretations, decisions, policies, and positions may materially adversely affect our financial condition and results of operations.

We are subject to evolving sustainability regulatory requirements and expectations, which exposes us to increased costs and legal and reputational risks. Laws, regulations, and policies relating to environmental, social, and governance matters are being developed and formalized in Europe, the U.S., and elsewhere, which may include specific, target-driven frameworks and disclosure requirements. In addition, we have established and publicly announced goals and commitments to become carbon negative, water positive, zero waste, and protect more land than we use. Any failure or perceived failure to pursue or fulfill our sustainability goals and commitments or to satisfy various sustainability reporting standards or regulatory requirements within the timelines we announce, or at all, could result in claims and lawsuits, regulatory actions, or damage to our reputation, each of which may adversely affect our business, operations, financial condition, and results of operations.

INTELLECTUAL PROPERTY RISKS

We face risks related to the protection and utilization of our intellectual property that may result in our business and operating results being harmed. Protecting our intellectual property rights and combating unlicensed copying and use of our software, source code, and other intellectual property on a global basis is difficult. Similarly, the absence of harmonized patent laws makes it more difficult to ensure consistent respect for patent rights.

Changes in the law may continue to weaken our ability to prevent the use of patented technology. Our increasing engagement with open source software will also cause us to license our intellectual property rights broadly in certain situations. If we are unable to protect our intellectual property, our results of operations may be adversely affected.

Source code, the detailed program commands for our operating systems and other software programs, is critical to our business. If our source code leaks, we might lose future trade secret protection for that code. It may then become easier for third parties to compete with our products by copying functionality, which could adversely affect our results of operations. Unauthorized access to or disclosure of source code or other intellectual property also could increase the security risks described elsewhere in these risk factors.

Third parties may claim that we infringe their intellectual property. From time to time, others claim we infringe their intellectual property rights, including current copyright infringement and other claims arising from AI training and output. To resolve these claims, we may enter into royalty-bearing data access or licensing agreements on terms that are less favorable than currently available, stop selling or redesign affected products or services, or pay damages to satisfy indemnification commitments with our customers. Adverse outcomes could also include monetary damages or injunctive relief that may limit or prevent importing, marketing, and selling our products or services that have infringing technologies. We have paid significant amounts to settle claims related to the use of technology and intellectual property rights and to procure intellectual property rights as part of our strategy to manage this risk, and may continue to do so, which could adversely affect our results of operations.

GENERAL RISKS

If our reputation or our brands are damaged, our business and results of operations may be harmed. Our reputation and brands are globally recognized and are important to our business. Our reputation and brands affect our ability to attract and retain consumer, business, and public-sector customers. There are numerous ways our reputation or brands could be damaged. These include product safety or quality issues, our environmental impact and sustainability, supply chain practices, or human rights record. We may experience backlash from customers, government entities, advocacy groups, employees, and other stakeholders that disagree with our product offering decisions, public policy positions, or corporate philanthropic initiatives. Damage to our reputation or our brands may occur from, among other things:

- The introduction of new features, products, services, or terms of service that customers, users, or partners do not like.
- Public scrutiny of our decisions regarding user privacy, data practices, content, or development and deployment of AI.
- Data security breaches, cybersecurity incidents, responsible AI failures, compliance failures, or actions of partners or individual employees.

Social media may increase the likelihood, speed, and magnitude of negative brand events. If our brands or reputation are damaged, it could adversely affect our business, results of operations, or ability to attract the most highly qualified employees.

Adverse economic or market conditions may harm our business. Worsening economic conditions, including inflation, recession, pandemic, or other changes in economic conditions, may cause lower IT spending and adversely affect our results of operations. If demand for PCs, servers, and other computing devices declines, or consumer or business spending for those products declines, our results of operations may be adversely affected.

Our product distribution system relies on an extensive partner and retail network. OEMs building devices that run our software have also been a significant means of distribution. The impact of economic conditions on our partners, such as the bankruptcy of a major distributor, OEM, or retailer, could cause sales channel disruption.

Challenging economic conditions also may impair the ability of our customers to pay for products and services they have purchased. As a result, allowances for doubtful accounts and write-offs of accounts receivable may increase.

We maintain an investment portfolio of various holdings, types, and maturities. These investments are subject to general credit, liquidity, market, and interest rate risks, which may be exacerbated by market downturns or events that affect global financial markets. A significant part of our investment portfolio comprises U.S. government securities. If global financial markets decline for long periods, or if there is a downgrade of the U.S. government credit rating due to an actual or threatened default on government debt, our investment portfolio may be adversely affected and we could determine that more of our investments have experienced a decline in fair value, requiring impairment charges that could adversely affect our financial condition and results of operations.

Catastrophic events or geopolitical conditions may disrupt our business. A disruption or failure of our systems, operations, or supply chain because of a major earthquake, weather event, cyberattack, terrorist attack, pandemic, or other catastrophic event could cause delays in completing sales, providing services, or performing other critical functions. Our corporate headquarters, a significant portion of our research and development activities, and certain other essential business operations are in the Seattle, Washington area, and we have other business operations in the Silicon Valley area of California, both of which are seismically active regions. A catastrophic event that results in the destruction or disruption of any of our critical business or IT systems, or the infrastructure or systems they rely on, such as power grids, could harm our ability to conduct normal business operations or adversely affect our results of operations. Providing our customers with more services and solutions in the cloud puts a premium on the resilience of our systems and strength of our business continuity management plans and magnifies the potential negative consequences of prolonged service outages.

Abrupt political change, terrorist activity, and armed conflict, such as the ongoing conflict in Ukraine, pose economic and other risks, which may negatively impact our ability to sell to and collect from customers, increase our operating costs, or otherwise disrupt our operations in markets both directly and indirectly impacted by such events. These conditions also may add uncertainty to the timing and budget for technology investment decisions by our customers and may cause supply chain disruptions for hardware manufacturers. Geopolitical change may result in changing regulatory systems and requirements and market interventions that could impact our operating strategies, access to national, regional, and global markets, hiring, and profitability. Geopolitical instability may lead to sanctions and impact our ability to do business in some markets or with some public-sector customers. Any of these changes may negatively affect our results of operations.

The occurrence of regional epidemics or a global pandemic, such as COVID-19, may adversely affect our business, operations, financial condition, and results of operations. The extent to which global pandemics impact our business going forward will depend on factors such as the duration and scope of the pandemic; governmental, business, and individuals' actions in response to the pandemic; and the impact on economic activity, including the possibility of recession or financial market instability. Measures to contain a global pandemic may intensify other risks described in these Risk Factors.

The long-term effects of climate change on the global economy and the IT industry in particular are unclear. Environmental regulations or changes in the supply, demand, or available sources of energy or other resources may affect the availability or cost of goods and services, including natural resources, necessary to run our business. Changes in climate where we operate may increase the costs of powering and cooling computer hardware we use to develop software and provide cloud-based services.

Our global business exposes us to operational and economic risks. Our customers are located throughout the world and a significant part of our revenue comes from international sales. The global nature of our business creates operational, economic, and geopolitical risks. Global, regional, and local economic developments, monetary policy, inflation, and recession, as well as political and military disputes, may adversely affect our results of operations. In addition, our international growth strategy includes certain markets, the developing nature of which presents several risks, including deterioration of social, political, labor, or economic conditions in a country or region, and difficulties in staffing and managing foreign operations. Emerging nationalist and protectionist trends and concerns about human rights, the environment, and political expression in specific countries may significantly alter the trade and commercial environments. Changes to trade policy or agreements as a result of populism, protectionism, or economic nationalism may result in higher tariffs, local sourcing initiatives, and non-local sourcing restrictions, export controls, investment restrictions, or other developments that make it more difficult to sell our products in foreign countries. Disruptions of these kinds in developed or emerging markets could negatively impact demand for our products and services, impair our ability to operate in certain regions, or increase operating costs. Although we hedge a portion of our international currency exposure, significant fluctuations in foreign exchange rates between the U.S. dollar and foreign currencies may adversely affect our results of operations.

Our business depends on our ability to attract and retain talented employees. Our business is based on successfully attracting, training, and retaining talented employees representing diverse backgrounds, experiences, and skill sets. The market for highly skilled workers and leaders in our industry is extremely competitive. Maintaining our brand and reputation, as well as a diverse and inclusive work environment that enables all our employees to thrive, are important to our ability to recruit and retain employees. We are also limited in our ability to recruit internationally by restrictive domestic immigration laws. Restraints on the flow of technical and professional talent, including as a result of changes to U.S. immigration policies or laws, may inhibit our ability to adequately staff our research and development efforts. If we are less successful in our recruiting efforts, or if we cannot retain highly skilled workers and key leaders, our ability to develop and deliver successful products and services may be adversely affected. Effective succession planning is also important to our long-term success. Failure to ensure effective transfer of knowledge and smooth transitions involving key employees could hinder our strategic planning and execution. How employment-related laws are interpreted and applied to our workforce practices may result in increased operating costs and less flexibility in how we meet our workforce needs. Our global workforce is predominantly non-unionized, although we do have some employees in the U.S. and internationally who are represented by unions or works councils. In the U.S., there has been a general increase in workers exercising their right to form or join a union. The unionization of significant employee populations could result in higher costs and other operational changes necessary to respond to changing conditions and to establish new relationships with worker representatives.

ITEM 1B. UNRESOLVED STAFF COMMENTS

We have received no written comments regarding our periodic or current reports from the staff of the Securities and Exchange Commission that were issued 180 days or more preceding the end of our fiscal year 2024 that remain unresolved.

ITEM 1C. CYBERSECURITY

RISK MANAGEMENT AND STRATEGY

Microsoft plays a central role in the world's digital ecosystem. We have made it the top corporate priority to protect the computing environment used by our customers and employees and to support the resiliency of our cloud infrastructure and services, products, devices, and our internal corporate resources from determined adversaries. In response to the evolving cybersecurity threat landscape, we launched the Secure Future Initiative ("SFI") in November 2023 and expanded the scope of SFI in May 2024. The SFI focuses our business strategy and efforts on continual improvement in cybersecurity protection, and is aligned around three security principles:

- **Secure by Design:** Security comes first when designing any product or service.
- **Secure by Default:** Security protections are enabled and enforced by default, require no extra effort, and are not optional.
- **Secure Operations:** Security controls and monitoring will continuously be improved to meet current and future threats.

We operate a cybersecurity program and governance framework designed to protect our computing environments against cybersecurity threats, and we have controls, policies, and procedures to identify, manage, and mitigate cybersecurity threats. Annually, we assess our cybersecurity program's alignment with the National Institute of Standards & Technology's Cyber Security Framework ("NIST") and other applicable industry standards. We also undertake integrated planning and preparedness activities to support business continuity and operational resiliency. We assess our program's effectiveness through various exercises, including tabletop simulations and production environment tests, penetration and vulnerability tests, red team exercises, and other related activities. We conduct mandatory cybersecurity training, provide employees with tools to report suspected incidents and assess their own security posture, and conduct real-time simulated employee education exercises, such as phishing email campaigns designed to emulate real-world attacks. We also engage in robust cybersecurity assessments and remediation efforts for acquired companies.

Our computing environments, products, and services are reviewed by our internal audit teams as well as independent third-party assessors. We are committed to managing the most significant risks to our strategies and ambitions, including cybersecurity risks. The Enterprise Risk Management ("ERM") organization supports management in this commitment by facilitating the semiannual risk assessment, which documents the priority and status of these risks and aligns them with our strategic mitigation efforts. ERM is structured using a framework based on the Committee of Sponsoring Organization ("COSO") guidance on Enterprise Risk Management Integrating Strategy with Performance and it also aligns with the International Organization for Standardization 31000:2018 Risk Management Standard.

We continuously monitor our computing environments, products, and services for vulnerabilities and signs of compromise, and we utilize our own security products to combat cybersecurity threats. We integrate security into our computing environments, products, and services through our Security Development Lifecycle ("SDL"). Our SDL introduces security and privacy considerations throughout all phases of our development process and through the adoption of zero-trust end-to-end architecture. We utilize machine learning and AI-powered security tools to gain insights from over 78 trillion signals per day and over 135 million managed devices. We track over 300 unique threat actors, including 160 nation-state actors and 50 ransomware groups. To support our efforts, we operate a Cyber Defense Operations Center connected to over 10,000 security and threat intelligence experts, including engineers, researchers, data scientists, cybersecurity experts, threat hunters, geopolitical analysts, investigators, and frontline responders across the globe.

When appropriate, we utilize external service providers to assess, test, or otherwise assist our program. We also leverage third parties by working with external researchers, operating bug bounty programs, and managing coordinated vulnerability disclosure programs with security organizations. We maintain a systematic approach to assessing and controlling the cybersecurity risks presented by third-party service providers. We require third-party service providers to manage their cybersecurity risks in defined ways, undergo cybersecurity reviews, notify us of cyber events, and satisfy additional contractual requirements.

We seek to improve the entire cybersecurity ecosystem through multistakeholder diplomacy to set and uphold expectations for state behavior, advancement of government policy that strengthens cybersecurity and resiliency, disruption and deterrence of cybercrime, protection of national security interests, and disruption of digital threats to democracies. We also establish processes and innovate solutions for us and our customers to address the growing number and complexity of cybersecurity regulations.

When we experience a cybersecurity incident, we utilize our well-established incident response plans that operate both across the company and at the product and services level. Incidents are first triaged for severity, and then more deeply assessed to establish a plan of record and activate internal and external notification, disclosure, and communication plans, as applicable. Engineering and development resources are mobilized to resolve or remediate the incident. After the incident is resolved, a comprehensive post-incident review process is conducted.

We describe the risks from cybersecurity threats, including previous cybersecurity incidents, in section "Risk Factors" (Part I, Item 1A of this Form 10-K). As of the date of this Form 10-K, we do not believe any risks from cybersecurity threats have materially affected or are reasonably likely to materially affect us, including our results of operations or financial condition. However, the cybersecurity threat environment is increasingly challenging, and we, along with the entire digital ecosystem, are under constant and increasing threat. As discussed above, our business strategy is tied to the SFI and we are committed to continuously monitoring cybersecurity threats, enhancing the security of our products, investing in our cybersecurity infrastructure, and collaborating with peers, customers, service providers, regulators, and governments to advance our and the entire digital ecosystem's cybersecurity defenses and resiliency.

GOVERNANCE

Our Board of Directors oversees cybersecurity risk. Cybersecurity reviews by the Board are scheduled to occur at least quarterly, or more frequently as determined to be necessary or advisable. Presentations to the Board of Directors are made by senior management, including our Chief Information Security Officer ("CISO"), our EVP of Microsoft Security, and the head of our Customer Security and Trust organization. The presentations address topics such as cybersecurity threats, incidents, top risks and related remediation efforts, results from internal and third-party assessments, progress towards risk-mitigation goals, the functioning of our incident response program, regulatory developments, and digital diplomacy efforts. In addition, we have an escalation process in place to inform senior management and the Board of significant issues. Cybersecurity issues are also considered during separate Board meeting discussions regarding important matters like ERM, audit issues, operational budgeting, business continuity planning, mergers and acquisitions, brand management, and other relevant matters.

Our CISO leads the strategy, engineering, and operations of cybersecurity across the company, and reports to the EVP of Microsoft Security. Our CISO has extensive experience assessing and managing cybersecurity programs and cybersecurity risk. Before joining Microsoft, our CISO served in a prior Chief Technology Officer role as well as in senior leadership, engineering, and operational roles within multiple organizations. In addition to the Board's oversight of cybersecurity risk, to support the CISO, we have established a Cybersecurity Governance Council ("CGC") charged with overseeing initiatives that safeguard Microsoft's infrastructure. The CGC is comprised of an executive-level team of Deputy CISOs with cybersecurity backgrounds and expertise relevant to their roles. The CGC responsibilities include approving our enterprise security risk assessment process and results, determining the appropriate cybersecurity risk level and mitigations, reviewing the NIST CSF alignment, and supporting compliance with cybersecurity regulations. Our cybersecurity efforts are supported directly by Microsoft's security and threat intelligence experts and our employees across the company, all of whom receive cybersecurity awareness training and education and are expected to support our efforts.

ITEM 2. PROPERTIES

Our corporate headquarters are located in Redmond, Washington. We have approximately 15 million square feet of space located in King County, Washington that is used for engineering, sales, marketing, and operations, among other general and administrative purposes. These facilities include approximately 12 million square feet of owned space situated on approximately 530 acres of land we own at our corporate headquarters, and approximately 3 million square feet of space we lease.

We own and lease other facilities domestically and internationally, primarily for offices, datacenters, and research and development. The largest owned international properties include space in the following locations: China, India, Ireland, and the Netherlands. The largest leased international properties include space in the following locations: Australia, Canada, China, France, Germany, India, Ireland, Israel, Japan, the Netherlands, and the United Kingdom. Refer to Research and Development (Part I, Item 1 of this Form 10-K) for further discussion of our research and development facilities.

The table below shows a summary of the square footage of our properties owned and leased domestically and internationally as of June 30, 2024:

(Square feet in millions)

| Location | Owned | Leased | Total |
|---------------|-------|--------|-------|
| U.S. | 30 | 20 | 50 |
| International | 10 | 25 | 35 |
| Total | 40 | 45 | 85 |

ITEM 3. LEGAL PROCEEDINGS

Refer to Note 15 – Contingencies of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for information regarding legal proceedings in which we are involved.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

MARKET AND STOCKHOLDERS

Our common stock is traded on the NASDAQ Stock Market under the symbol MSFT. On July 25, 2024, there were 81,346 registered holders of record of our common stock.

SHARE REPURCHASES AND DIVIDENDS

Following are our monthly share repurchases for the fourth quarter of fiscal year 2024:

| Period | Total Number of Shares Purchased | Average Price Paid Per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs | Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs |
|--------------------------------|----------------------------------|------------------------------|--|--|
| | | | | (In millions) |
| April 1, 2024 – April 30, 2024 | 2,444,905 | \$ 413.75 | 2,444,905 | \$ 12,138 |
| May 1, 2024 – May 31, 2024 | 2,233,450 | 416.85 | 2,233,450 | 11,207 |
| June 1, 2024 – June 30, 2024 | 1,963,873 | 436.58 | 1,963,873 | 10,349 |
| | 6,642,228 | | 6,642,228 | |

All share repurchases were made using cash resources. Our share repurchases may occur through open market purchases or pursuant to a Rule 10b5-1 trading plan. The above table excludes shares repurchased to settle employee tax withholding related to the vesting of stock awards.

Our Board of Directors declared the following dividends during the fourth quarter of fiscal year 2024:

| Declaration Date | Record Date | Payment Date | Dividend Per Share | Amount |
|----------------------|------------------------|---------------------------|--------------------|-----------------|
| | | | | (In millions) |
| June 12, 2024 | August 15, 2024 | September 12, 2024 | \$ 0.75 | \$ 5,575 |

We returned \$8.4 billion to shareholders in the form of share repurchases and dividends in the fourth quarter of fiscal year 2024. Refer to Note 16 – Stockholders' Equity of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion regarding share repurchases and dividends.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help the reader understand the results of operations and financial condition of Microsoft Corporation. MD&A is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and the accompanying Notes to Financial Statements (Part II, Item 8 of this Form 10-K). This section generally discusses the results of our operations for the year ended June 30, 2024 compared to the year ended June 30, 2023. For a discussion of the year ended June 30, 2023 compared to the year ended June 30, 2022, please refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended June 30, 2023.

OVERVIEW

Microsoft is a technology company committed to making digital technology and artificial intelligence ("AI") available broadly and doing so responsibly, with a mission to empower every person and every organization on the planet to achieve more. We create platforms and tools, powered by AI, that deliver innovative solutions that meet the evolving needs of our customers.

We generate revenue by offering a wide range of cloud-based solutions, content, and other services to people and businesses; licensing and supporting an array of software products; delivering relevant online advertising to a global audience; and designing and selling devices. Our most significant expenses are related to compensating employees; supporting and investing in our cloud-based services, including datacenter operations; designing, manufacturing, marketing, and selling our other products and services; and income taxes.

Highlights from fiscal year 2024 compared with fiscal year 2023 included:

- Microsoft Cloud revenue increased 23% to \$137.4 billion.
- Office Commercial products and cloud services revenue increased 14% driven by Office 365 Commercial growth of 16%.
- Office Consumer products and cloud services revenue increased 4% and Microsoft 365 Consumer subscribers grew to 82.5 million.
- LinkedIn revenue increased 9%.
- Dynamics products and cloud services revenue increased 19% driven by Dynamics 365 growth of 24%.
- Server products and cloud services revenue increased 22% driven by Azure and other cloud services growth of 30%.
- Windows revenue increased 8% with Windows original equipment manufacturer licensing ("Windows OEM") revenue growth of 7% and Windows Commercial products and cloud services revenue growth of 11%.
- Devices revenue decreased 15%.
- Xbox content and services revenue increased 50% driven by 44 points of net impact from the Activision Blizzard Inc. ("Activision Blizzard") acquisition. The net impact reflects the change of Activision Blizzard content from third-party to first-party.
- Search and news advertising revenue excluding traffic acquisition costs increased 12%.

On October 13, 2023, we completed our acquisition of Activision Blizzard for a total purchase price of \$75.4 billion, consisting primarily of cash. The financial results of Activision Blizzard have been included in our consolidated financial statements since the date of the acquisition. Activision Blizzard is reported as part of our More Personal Computing segment. Refer to Note 8 – Business Combinations of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

Industry Trends

Our industry is dynamic and highly competitive, with frequent changes in both technologies and business models. Each industry shift is an opportunity to conceive new products, new technologies, or new ideas that can further transform the industry and our business. At Microsoft, we push the boundaries of what is possible through a broad range of research and development activities that seek to identify and address the changing demands of customers and users, industry trends, and competitive forces.

Economic Conditions, Challenges, and Risks

The markets for software, devices, and cloud-based services are dynamic and highly competitive. Our competitors are developing new software and devices, while also deploying competing cloud-based services for consumers and businesses. The devices and form factors customers prefer evolve rapidly, influencing how users access services in the cloud and, in some cases, the user's choice of which suite of cloud-based services to use. Aggregate demand for our software, services, and devices is also correlated to global macroeconomic and geopolitical factors, which remain dynamic. We must continue to evolve and adapt over an extended time in pace with this changing environment.

The investments we are making in cloud and AI infrastructure and devices will continue to increase our operating costs and may decrease our operating margins. We continue to identify and evaluate opportunities to expand our datacenter locations and increase our server capacity to meet the evolving needs of our customers, particularly given the growing demand for AI services. Our datacenters depend on the availability of permitted and buildable land, predictable energy, networking supplies, and servers, including graphics processing units ("GPUs") and other components. Our devices are primarily manufactured by third-party contract manufacturers. For the majority of our products, we have the ability to use other manufacturers if a current vendor becomes unavailable or unable to meet our requirements. However, some of our products contain certain components for which there are very few qualified suppliers. Extended disruptions at these suppliers could impact our ability to manufacture devices on time to meet consumer demand.

Our success is highly dependent on our ability to attract and retain qualified employees. We hire a mix of university and industry talent worldwide. We compete for talented individuals globally by offering an exceptional working environment, broad customer reach, scale in resources, the ability to grow one's career across many different products and businesses, and competitive compensation and benefits.

Our international operations provide a significant portion of our total revenue and expenses. Many of these revenue and expenses are denominated in currencies other than the U.S. dollar. As a result, changes in foreign exchange rates may significantly affect revenue and expenses. Fluctuations in the U.S. dollar relative to certain foreign currencies did not have a material impact on reported revenue and expenses from our international operations in fiscal year 2024.

Refer to Risk Factors (Part I, Item 1A of this Form 10-K) for a discussion of these factors and other risks.

Seasonality

Our revenue fluctuates quarterly and is generally higher in the fourth quarter of our fiscal year. Fourth quarter revenue is driven by a higher volume of multi-year contracts executed during the period.

Change in Accounting Estimate

In July 2022, we completed an assessment of the useful lives of our server and network equipment. Due to investments in software that increased efficiencies in how we operate our server and network equipment, as well as advances in technology, we determined we should increase the estimated useful lives of both server and network equipment from four years to six years. This change in accounting estimate was effective beginning fiscal year 2023.

Reportable Segments

We report our financial performance based on the following segments: Productivity and Business Processes, Intelligent Cloud, and More Personal Computing. The segment amounts included in MD&A are presented on a basis consistent with our internal management reporting.

Additional information on our reportable segments is contained in Note 19 – Segment Information and Geographic Data of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K).

Metrics

We use metrics in assessing the performance of our business and to make informed decisions regarding the allocation of resources. We disclose metrics to enable investors to evaluate progress against our ambitions, provide transparency into performance trends, and reflect the continued evolution of our products and services. Our commercial and other business metrics are fundamentally connected based on how customers use our products and services. The metrics are disclosed in the MD&A or the Notes to Financial Statements (Part II, Item 8 of this Form 10-K). Financial metrics are calculated based on financial results prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), and growth comparisons relate to the corresponding period of last fiscal year.

In the first quarter of fiscal year 2024, we made updates to the presentation and method of calculation for certain metrics, revising our Microsoft Cloud revenue metric to include revenue growth and expanding our Microsoft 365 Consumer subscribers metric to include Microsoft 365 Basic subscribers, aligning with how we manage our business.

Commercial

Our commercial business primarily consists of Server products and cloud services, Office Commercial, Windows Commercial, the commercial portion of LinkedIn, Enterprise and partner services, and Dynamics. Our commercial metrics allow management and investors to assess the overall health of our commercial business and include leading indicators of future performance.

| | |
|---|---|
| Commercial remaining performance obligation | Commercial portion of revenue allocated to remaining performance obligations, which includes unearned revenue and amounts that will be invoiced and recognized as revenue in future periods |
| Microsoft Cloud revenue and revenue growth | Revenue from Azure and other cloud services, Office 365 Commercial, the commercial portion of LinkedIn, Dynamics 365, and other commercial cloud properties |
| Microsoft Cloud gross margin percentage | Gross margin percentage for our Microsoft Cloud business |

Productivity and Business Processes and Intelligent Cloud

Metrics related to our Productivity and Business Processes and Intelligent Cloud segments assess the health of our core businesses within these segments. The metrics reflect our cloud and on-premises product strategies and trends.

| | |
|--|---|
| Office Commercial products and cloud services revenue growth | Revenue from Office Commercial products and cloud services (Office 365 subscriptions, the Office 365 portion of Microsoft 365 Commercial subscriptions, and Office licensed on-premises), comprising Office, Exchange, SharePoint, Microsoft Teams, Office 365 Security and Compliance, Microsoft Viva, and Copilot for Microsoft 365 |
| Office Consumer products and cloud services revenue growth | Revenue from Office Consumer products and cloud services, including Microsoft 365 Consumer and Copilot Pro subscriptions, Office licensed on-premises, and other Office services |
| Office 365 Commercial seat growth | The number of Office 365 Commercial seats at end of period where seats are paid users covered by an Office 365 Commercial subscription |
| Microsoft 365 Consumer subscribers | The number of Microsoft 365 Consumer and Copilot Pro subscribers at end of period |
| Dynamics products and cloud services revenue growth | Revenue from Dynamics products and cloud services, including Dynamics 365, comprising a set of intelligent, cloud-based applications across ERP, CRM, Power Apps, and Power Automate; and on-premises ERP and CRM applications |
| LinkedIn revenue growth | Revenue from LinkedIn, including Talent Solutions, Marketing Solutions, Premium Subscriptions, and Sales Solutions |
| Server products and cloud services revenue growth | Revenue from Server products and cloud services, including Azure and other cloud services; SQL Server, Windows Server, Visual Studio, System Center, and related Client Access Licenses (“CALs”); and Nuance and GitHub |

More Personal Computing

Metrics related to our More Personal Computing segment assess the performance of key lines of business within this segment. These metrics provide strategic product insights which allow us to assess the performance across our commercial and consumer businesses. As we have diversity of target audiences and sales motions within the Windows business, we monitor metrics that are reflective of those varying motions.

| | |
|---|---|
| Windows OEM revenue growth | Revenue from sales of Windows Pro and non-Pro licenses sold through the OEM channel |
| Windows Commercial products and cloud services revenue growth | Revenue from Windows Commercial products and cloud services, comprising volume licensing of the Windows operating system, Windows cloud services, and other Windows commercial offerings |
| Devices revenue growth | Revenue from Devices, including Surface, HoloLens, and PC accessories |
| Xbox content and services revenue growth | Revenue from Xbox content and services, comprising first-party content (such as Activision Blizzard) and third-party content, including games and in-game content; Xbox Game Pass and other subscriptions; Xbox Cloud Gaming; advertising; third-party disc royalties; and other cloud services |
| Search and news advertising revenue (ex TAC) growth | Revenue from search and news advertising excluding traffic acquisition costs (“TAC”) paid to Bing Ads network publishers and news partners |

SUMMARY RESULTS OF OPERATIONS

| (In millions, except percentages and per share amounts) | 2024 | 2023 | Percentage Change |
|---|------------|------------|----------------------|
| Revenue | \$ 245,122 | \$ 211,915 | 16% |
| Gross margin | 171,008 | 146,052 | 17% |
| Operating income | 109,433 | 88,523 | 24% |
| Net income | 88,136 | 72,361 | 22% |
| Diluted earnings per share | 11.80 | 9.68 | 22% |
| Adjusted gross margin (non-GAAP) | 171,008 | 146,204 | 17% |
| Adjusted operating income (non-GAAP) | 109,433 | 89,694 | 22% |
| Adjusted net income (non-GAAP) | 88,136 | 73,307 | 20% |
| Adjusted diluted earnings per share (non-GAAP) | 11.80 | 9.81 | 20% |

Adjusted gross margin, operating income, net income, and diluted earnings per share (“EPS”) are non-GAAP financial measures. Prior year non-GAAP financial measures exclude the impact of a \$1.2 billion charge in the second quarter of fiscal year 2023 (“Q2 charge”), which included employee severance expenses, impairment charges resulting from changes to our hardware portfolio, and costs related to lease consolidation activities. Refer to the Non-GAAP Financial Measures section below for a reconciliation of our financial results reported in accordance with GAAP to non-GAAP financial results.

Fiscal Year 2024 Compared with Fiscal Year 2023

Revenue increased \$33.2 billion or 16% driven by growth across each of our segments. Intelligent Cloud revenue increased driven by Azure. Productivity and Business Processes revenue increased driven by Office 365 Commercial. More Personal Computing revenue increased driven by Gaming.

Cost of revenue increased \$8.3 billion or 13% driven by growth in Microsoft Cloud and Gaming, offset in part by a decline in Devices.

Gross margin increased \$25.0 billion or 17% driven by growth across each of our segments.

- Gross margin percentage increased slightly. Excluding the impact of the change in accounting estimate for the useful lives of our server and network equipment, gross margin percentage increased 2 points driven by improvement in More Personal Computing.
- Microsoft Cloud gross margin percentage decreased slightly to 71%. Excluding the impact of the change in accounting estimate, Microsoft Cloud gross margin percentage increased slightly driven by improvements in Azure and Office 365 Commercial, inclusive of scaling our AI infrastructure, offset in part by sales mix shift to Azure.

Operating expenses increased \$4.0 billion or 7% driven by Gaming, with 7 points of growth from the Activision Blizzard acquisition, and investments in cloud engineering, offset in part by the prior year Q2 charge.

Operating income increased \$20.9 billion or 24% driven by growth across each of our segments.

Prior year gross margin, operating income, net income, and diluted EPS were negatively impacted by the Q2 charge, which resulted in decreases of \$152 million, \$1.2 billion, \$946 million, and \$0.13, respectively.

SEGMENT RESULTS OF OPERATIONS

| (In millions, except percentages) | 2024 | 2023 | Percentage Change |
|-------------------------------------|-------------------|-------------------|-------------------|
| Revenue | | | |
| Productivity and Business Processes | \$ 77,728 | \$ 69,274 | 12% |
| Intelligent Cloud | 105,362 | 87,907 | 20% |
| More Personal Computing | 62,032 | 54,734 | 13% |
| Total | <u>\$ 245,122</u> | <u>\$ 211,915</u> | 16% |
| Operating Income | | | |
| Productivity and Business Processes | \$ 40,540 | \$ 34,189 | 19% |
| Intelligent Cloud | 49,584 | 37,884 | 31% |
| More Personal Computing | 19,309 | 16,450 | 17% |
| Total | <u>\$ 109,433</u> | <u>\$ 88,523</u> | 24% |

Reportable Segments

Fiscal Year 2024 Compared with Fiscal Year 2023

Productivity and Business Processes

Revenue increased \$8.5 billion or 12%.

- Office Commercial products and cloud services revenue increased \$5.8 billion or 14%. Office 365 Commercial revenue grew 16% with seat growth of 7%, driven by small and medium business and frontline worker offerings, as well as growth in revenue per user. Office Commercial products revenue declined 16% driven by continued customer shift to cloud offerings.
- Office Consumer products and cloud services revenue increased \$237 million or 4%. Microsoft 365 Consumer subscribers grew 10% to 82.5 million.
- LinkedIn revenue increased \$1.4 billion or 9% driven by growth across all lines of business – Talent Solutions, Premium Subscriptions, Marketing Solutions, and Sales Solutions.
- Dynamics products and cloud services revenue increased \$1.0 billion or 19% driven by Dynamics 365. Dynamics 365 revenue grew 24% driven by growth across all workloads.

Operating income increased \$6.4 billion or 19%.

- Gross margin increased \$6.5 billion or 12% driven by growth in Office 365 Commercial. Gross margin percentage decreased slightly. Excluding the impact of the change in accounting estimate, gross margin percentage increased slightly driven by improvement in Office 365 Commercial.
- Operating expenses increased \$159 million or 1%.

Intelligent Cloud

Revenue increased \$17.5 billion or 20%.

- Server products and cloud services revenue increased \$17.8 billion or 22% driven by Azure and other cloud services. Azure and other cloud services revenue grew 30% driven by growth in our consumption-based services. Server products revenue increased 3% driven by continued demand for our hybrid solutions, including Windows Server and SQL Server running in multi-cloud environments.
- Enterprise and partner services revenue decreased \$306 million or 4% driven by declines in Enterprise Support Services and Industry Solutions.

Operating income increased \$11.7 billion or 31%.

- Gross margin increased \$11.6 billion or 19% driven by growth in Azure. Gross margin percentage decreased slightly. Excluding the impact of the change in accounting estimate, gross margin percentage increased slightly primarily driven by improvement in Azure, inclusive of scaling our AI infrastructure, offset in part by sales mix shift to Azure.
- Operating expenses decreased slightly primarily driven by the prior year Q2 charge, offset in part by investments in Azure.

More Personal Computing

Revenue increased \$7.3 billion or 13%.

- Windows revenue increased \$1.7 billion or 8% driven by growth in Windows Commercial and Windows OEM. Windows Commercial products and cloud services revenue increased 11% driven by demand for Microsoft 365. Windows OEM revenue increased 7%.
- Gaming revenue increased \$6.0 billion or 39% driven by growth in Xbox content and services. Xbox content and services revenue increased 50% driven by 44 points of net impact from the Activision Blizzard acquisition. Xbox hardware revenue decreased 13% driven by lower volume of consoles sold.
- Search and news advertising revenue increased \$418 million or 3%. Search and news advertising revenue excluding traffic acquisition costs increased 12% driven by higher search volume.
- Devices revenue decreased \$815 million or 15%.

Operating income increased \$2.9 billion or 17%.

- Gross margin increased \$6.8 billion or 23% driven by growth in Gaming, with 10 points of net impact from the Activision Blizzard acquisition, as well as growth in Windows. Gross margin percentage increased driven by sales mix shift to higher margin businesses and improvement in Devices.
- Operating expenses increased \$3.9 billion or 31% driven by Gaming, with 34 points of growth from the Activision Blizzard acquisition.

OPERATING EXPENSES

Research and Development

| (In millions, except percentages) | 2024 | 2023 | Percentage Change |
|-----------------------------------|-----------|-----------|-------------------|
| Research and development | \$ 29,510 | \$ 27,195 | 9% |
| As a percent of revenue | 12% | 13% | (1)ppt |

Research and development expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with product development. Research and development expenses also include third-party development and programming costs and the amortization of purchased software code and services content.

Fiscal Year 2024 Compared with Fiscal Year 2023

Research and development expenses increased \$2.3 billion or 9% driven by Gaming, with 7 points of growth from the Activision Blizzard acquisition, and investments in cloud engineering.

Sales and Marketing

| (In millions, except percentages) | 2024 | 2023 | Percentage Change |
|-----------------------------------|-----------|-----------|-------------------|
| Sales and marketing | \$ 24,456 | \$ 22,759 | 7% |
| As a percent of revenue | 10% | 11% | (1)ppt |

Sales and marketing expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with sales and marketing personnel, and the costs of advertising, promotions, trade shows, seminars, and other programs.

Fiscal Year 2024 Compared with Fiscal Year 2023

Sales and marketing expenses increased \$1.7 billion or 7% driven by Gaming, with 6 points of growth from the Activision Blizzard acquisition.

General and Administrative

| (In millions, except percentages) | | 2024 | | 2023 | Percentage Change |
|-----------------------------------|----|-------|----|-------|-------------------|
| General and administrative | \$ | 7,609 | \$ | 7,575 | 0% |
| As a percent of revenue | | 3% | | 4% | (1)ppt |

General and administrative expenses include payroll, employee benefits, stock-based compensation expense, employee severance expense incurred as part of a corporate program, and other headcount-related expenses associated with finance, legal, facilities, certain human resources and other administrative personnel, certain taxes, and legal and other administrative fees.

Fiscal Year 2024 Compared with Fiscal Year 2023

General and administrative expenses increased slightly as growth from the Activision Blizzard acquisition was offset in part by the prior year Q2 charge.

OTHER INCOME (EXPENSE), NET

The components of other income (expense), net were as follows:

| (In millions) | | 2024 | | 2023 |
|---|----|---------|----|---------|
| Year Ended June 30, | | | | |
| Interest and dividends income | \$ | 3,157 | \$ | 2,994 |
| Interest expense | | (2,935) | | (1,968) |
| Net recognized gains (losses) on investments | | (118) | | 260 |
| Net losses on derivatives | | (187) | | (456) |
| Net gains (losses) on foreign currency remeasurements | | (244) | | 181 |
| Other, net | | (1,319) | | (223) |
| Total | \$ | (1,646) | \$ | 788 |

We use derivative instruments to manage risks related to foreign currencies, interest rates, equity prices, and credit; to enhance investment returns; and to facilitate portfolio diversification. Gains and losses from changes in fair values of derivatives that are not designated as hedging instruments are primarily recognized in other income (expense), net.

Fiscal Year 2024 Compared with Fiscal Year 2023

Interest and dividends income increased due to higher yields. Interest expense increased due to the issuance of commercial paper. Net recognized losses on investments increased primarily due to higher equity impairments and lower gains on equity investments. Net losses on derivatives decreased primarily due to lower losses on equity derivatives. Other, net primarily reflects net recognized losses on equity method investments.

INCOME TAXES

Effective Tax Rate

Our effective tax rate for fiscal years 2024 and 2023 was 18% and 19%, respectively. The decrease in our effective tax rate was primarily due to tax benefits from tax law changes, including the impact from the issuance of Notice 2023-55 and Notice 2023-80 by the Internal Revenue Service (“IRS”) and U.S. Treasury Department. Notice 2023-55, issued in the first quarter of fiscal year 2024, delayed the effective date of final foreign tax credit regulations to fiscal year 2024 for Microsoft. Notice 2023-80, issued in the second quarter of fiscal year 2024, further delayed the effective date of final foreign tax credit regulations indefinitely.

Our effective tax rate was lower than the U.S. federal statutory rate, primarily due to earnings taxed at lower rates in foreign jurisdictions resulting from producing and distributing our products and services through our foreign regional operations center in Ireland.

The mix of income before income taxes between the U.S. and foreign countries impacted our effective tax rate as a result of the geographic distribution of, and customer demand for, our products and services. In fiscal year 2024, our U.S. income before income taxes was \$62.9 billion and our foreign income before income taxes was \$44.9 billion. In fiscal year 2023, our U.S. income before income taxes was \$52.9 billion and our foreign income before income taxes was \$36.4 billion.

The Organisation for Economic Co-operation and Development (“OECD”) published its model rules “Tax Challenges Arising From the Digitalisation of the Economy - Global Anti-Base Erosion Model Rules (Pillar Two)” which established a global minimum corporate tax rate of 15% for certain multinational enterprises. Many countries have implemented or are in the process of implementing the Pillar Two legislation, which will apply to Microsoft beginning in fiscal year 2025. While we do not currently estimate a material impact to our consolidated financial statements, we continue to monitor the impact as countries implement legislation and the OECD provides additional guidance.

Uncertain Tax Positions

We remain under audit by the IRS for tax years 2014 to 2017. With respect to the audit for tax years 2004 to 2013, on September 26, 2023, we received Notices of Proposed Adjustment (“NOPAs”) from the IRS. The primary issues in the NOPAs relate to intercompany transfer pricing. In the NOPAs, the IRS is seeking an additional tax payment of \$28.9 billion plus penalties and interest. As of June 30, 2024, we believe our allowances for income tax contingencies are adequate. We disagree with the proposed adjustments and will vigorously contest the NOPAs through the IRS’s administrative appeals office and, if necessary, judicial proceedings. We do not expect a final resolution of these issues in the next 12 months. Based on the information currently available, we do not anticipate a significant increase or decrease to our income tax contingencies for these issues within the next 12 months.

We are subject to income tax in many jurisdictions outside the U.S. Our operations in certain jurisdictions remain subject to examination for tax years 1996 to 2023, some of which are currently under audit by local tax authorities. The resolution of each of these audits is not expected to be material to our consolidated financial statements.

NON-GAAP FINANCIAL MEASURES

Adjusted gross margin, operating income, net income, and diluted EPS are non-GAAP financial measures. Prior year non-GAAP financial measures exclude the impact of the Q2 charge, which includes employee severance expenses, impairment charges resulting from changes to our hardware portfolio, and costs related to lease consolidation activities. We believe these non-GAAP measures aid investors by providing additional insight into our operational performance and help clarify trends affecting our business. For comparability of reporting, management considers non-GAAP measures in conjunction with GAAP financial results in evaluating business performance. These non-GAAP financial measures presented should not be considered a substitute for, or superior to, the measures of financial performance prepared in accordance with GAAP.

The following table reconciles our financial results reported in accordance with GAAP to non-GAAP financial results:

| (In millions, except percentages and per share amounts) | 2024 | 2023 | Percentage Change |
|---|------------|------------|-------------------|
| Gross margin | \$ 171,008 | \$ 146,052 | 17% |
| Severance, hardware-related impairment, and lease consolidation costs | 0 | 152 | * |
| Adjusted gross margin (non-GAAP) | \$ 171,008 | \$ 146,204 | 17% |
| Operating income | \$ 109,433 | \$ 88,523 | 24% |
| Severance, hardware-related impairment, and lease consolidation costs | 0 | 1,171 | * |
| Adjusted operating income (non-GAAP) | \$ 109,433 | \$ 89,694 | 22% |
| Net income | \$ 88,136 | \$ 72,361 | 22% |
| Severance, hardware-related impairment, and lease consolidation costs | 0 | 946 | * |
| Adjusted net income (non-GAAP) | \$ 88,136 | \$ 73,307 | 20% |
| Diluted earnings per share | \$ 11.80 | \$ 9.68 | 22% |

LIQUIDITY AND CAPITAL RESOURCES

We expect existing cash, cash equivalents, short-term investments, cash flows from operations, and access to capital markets to continue to be sufficient to fund our operating activities and cash commitments for investing and financing activities, such as dividends, share repurchases, debt maturities, material capital expenditures, and the transition tax related to the Tax Cuts and Jobs Act ("TCJA"), for at least the next 12 months and thereafter for the foreseeable future.

Cash, Cash Equivalents, and Investments

Cash, cash equivalents, and short-term investments totaled \$75.5 billion and \$111.3 billion as of June 30, 2024 and 2023, respectively. Equity and other investments were \$14.6 billion and \$9.9 billion as of June 30, 2024 and 2023, respectively. Our short-term investments are primarily intended to facilitate liquidity and capital preservation. They consist predominantly of highly liquid investment-grade fixed-income securities, diversified among industries and individual issuers. The investments are predominantly U.S. dollar-denominated securities, but also include foreign currency-denominated securities to diversify risk. Our fixed-income investments are exposed to interest rate risk and credit risk. The credit risk and average maturity of our fixed-income portfolio are managed to achieve economic returns that correlate to certain fixed-income indices. The settlement risk related to these investments is insignificant given that the short-term investments held are primarily highly liquid investment-grade fixed-income securities.

Valuation

In general, and where applicable, we use quoted prices in active markets for identical assets or liabilities to determine the fair value of our financial instruments. This pricing methodology applies to our Level 1 investments, such as U.S. government securities, common and preferred stock, and mutual funds. If quoted prices in active markets for identical assets or liabilities are not available to determine fair value, then we use quoted prices for similar assets and liabilities or inputs other than the quoted prices that are observable either directly or indirectly. This pricing methodology applies to our Level 2 investments, such as commercial paper, certificates of deposit, U.S. agency securities, foreign government bonds, mortgage- and asset-backed securities, corporate notes and bonds, and municipal securities. Level 3 investments are valued using internally-developed models with unobservable inputs. Assets and liabilities measured at fair value on a recurring basis using unobservable inputs are an immaterial portion of our portfolio.

A majority of our investments are priced by pricing vendors and are generally Level 1 or Level 2 investments as these vendors either provide a quoted market price in an active market or use observable inputs for their pricing without applying significant adjustments. Broker pricing is used mainly when a quoted price is not available, the investment is not priced by our pricing vendors, or when a broker price is more reflective of fair values in the market in which the investment trades. Our broker-priced investments are generally classified as Level 2 investments because the broker prices these investments based on similar assets without applying significant adjustments. In addition, all our broker-priced investments have a sufficient level of trading volume to demonstrate that the fair values used are appropriate for these investments. Our fair value processes include controls that are designed to ensure appropriate fair values are recorded. These controls include model validation, review of key model inputs, analysis of period-over-period fluctuations, and independent recalculation of prices where appropriate.

Cash Flows

Cash from operations increased \$31.0 billion to \$118.5 billion for fiscal year 2024, primarily due to an increase in cash received from customers. Cash used in financing decreased \$6.2 billion to \$37.8 billion for fiscal year 2024, primarily due to a \$5.0 billion decrease in common stock repurchases and a \$3.3 billion increase in proceeds from issuance of debt, net of repayments, offset in part by a \$2.0 billion increase in dividends paid. Cash used in investing increased \$74.3 billion to \$97.0 billion for fiscal year 2024, primarily due to a \$67.5 billion increase in cash used for acquisitions of companies, net of cash acquired, and purchases of intangible and other assets and a \$16.4 billion increase in additions to property and equipment.

Debt Proceeds

We issue debt to take advantage of favorable pricing and liquidity in the debt markets, reflecting our credit rating. The proceeds of these issuances were or will be used for general corporate purposes, which may include, among other things, funding for working capital, capital expenditures, repurchases of capital stock, acquisitions, and repayment of existing debt. Refer to Note 11 – Debt of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

Unearned Revenue

Unearned revenue comprises mainly unearned revenue related to volume licensing programs, which may include Software Assurance (“SA”) and cloud services. Unearned revenue is generally invoiced annually at the beginning of each contract period for multi-year agreements and recognized ratably over the coverage period. Unearned revenue also includes payments for other offerings for which we have been paid in advance and earn the revenue when we transfer control of the product or service. Refer to Note 1 – Accounting Policies of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

The following table outlines the expected future recognition of unearned revenue as of June 30, 2024:

| (In millions) | |
|----------------------------|------------------|
| Three Months Ending | |
| September 30, 2024 | \$ 22,529 |
| December 31, 2024 | 17,664 |
| March 31, 2025 | 12,076 |
| June 30, 2025 | 5,313 |
| Thereafter | 2,602 |
| Total | \$ 60,184 |

If our customers choose to license cloud-based versions of our products and services rather than licensing transaction-based products and services, the associated revenue will shift from being recognized at the time of the transaction to being recognized over the subscription period or upon consumption, as applicable. Refer to Note 13 – Unearned Revenue of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

Material Cash Requirements and Other Obligations**Contractual Obligations**

The following table summarizes the payments due by fiscal year for our outstanding contractual obligations as of June 30, 2024:

| (In millions) | 2025 | Thereafter | Total |
|---|-------------------|-------------------|-------------------|
| Long-term debt: ^(a) | | | |
| Principal payments | \$ 2,250 | \$ 48,971 | \$ 51,221 |
| Interest payments | 1,618 | 27,041 | 28,659 |
| Construction commitments ^(b) | 29,892 | 5,499 | 35,391 |
| Operating and finance leases, including imputed interest ^(c) | 12,250 | 160,475 | 172,725 |
| Purchase commitments ^(d) | 68,280 | 3,742 | 72,022 |
| Total | \$ 114,290 | \$ 245,728 | \$ 360,018 |

(a) Refer to Note 11 – Debt of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K).

(b) Refer to Note 7 – Property and Equipment of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K).

(c) Refer to Note 14 – Leases of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K).

(d) Purchase commitments primarily relate to datacenters and include open purchase orders and take-or-pay contracts that are not presented as construction commitments above.

Income Taxes

As a result of the TCJA, we are required to pay a one-time transition tax on deferred foreign income not previously subject to U.S. income tax. Under the TCJA, the transition tax is payable in interest-free installments over eight years, with 8% due in each of the first five years, 15% in year six, 20% in year seven, and 25% in year eight. As of June 30, 2024, we had a remaining transition tax liability of \$7.6 billion, of which \$3.8 billion is short-term and payable in the first quarter of fiscal year 2025.

Share Repurchases

During fiscal years 2024 and 2023, we repurchased 32 million shares and 69 million shares of our common stock for \$12.0 billion and \$18.4 billion, respectively, through our share repurchase program. All repurchases were made using cash resources. As of June 30, 2024, \$10.3 billion remained of our \$60 billion share repurchase program. Refer to Note 16 – Stockholders' Equity of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

Dividends

During fiscal years 2024 and 2023, our Board of Directors declared dividends totaling \$22.3 billion and \$20.2 billion, respectively. We intend to continue returning capital to shareholders in the form of dividends, subject to declaration by our Board of Directors. Refer to Note 16 – Stockholders' Equity of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

Other Planned Uses of Capital

We will continue to invest in sales, marketing, product support infrastructure, and existing and advanced areas of technology, as well as acquisitions that align with our business strategy. Additions to property and equipment will continue, including new facilities, datacenters, and computer systems for research and development, sales and marketing, support, and administrative staff. We expect capital expenditures to increase in coming years to support growth in our cloud offerings and our investments in AI infrastructure and training. We have operating and finance leases for datacenters, corporate offices, research and development facilities, Microsoft Experience Centers, and certain equipment. We have not engaged in any related party transactions or arrangements with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of capital resources.

RECENT ACCOUNTING GUIDANCE

Refer to Note 1 – Accounting Policies of the Notes to Financial Statements (Part II, Item 8 of this Form 10-K) for further discussion.

CRITICAL ACCOUNTING ESTIMATES

Our consolidated financial statements and accompanying notes are prepared in accordance with GAAP. Preparing consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Critical accounting estimates are those estimates that involve a significant level of estimation uncertainty and could have a material impact on our financial condition or results of operations. We have critical accounting estimates in the areas of revenue recognition, impairment of investment securities, goodwill, research and development costs, legal and other contingencies, income taxes, and business combinations – valuation of intangible assets.

Revenue Recognition

Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. When a cloud-based service includes both on-premises software licenses and cloud services, judgment is required to determine whether the software license is considered distinct and accounted for separately, or not distinct and accounted for together with the cloud service and recognized over time. Certain cloud services, primarily Office 365, depend on a significant level of integration, interdependency, and interrelation between the desktop applications and cloud services, and are accounted for together as one performance obligation. Revenue from Office 365 is recognized ratably over the period in which the cloud services are provided.

Judgment is required to determine the standalone selling price (“SSP”) for each distinct performance obligation. We use a single amount to estimate SSP for items that are not sold separately, including on-premises licenses sold with SA or software updates provided at no additional charge. We use a range of amounts to estimate SSP when we sell each of the products and services separately and need to determine whether there is a discount to be allocated based on the relative SSP of the various products and services.

In instances where SSP is not directly observable, such as when we do not sell the product or service separately, we determine the SSP using information that may include market conditions and other observable inputs. We typically have more than one SSP for individual products and services due to the stratification of those products and services by customers and circumstances. In these instances, we may use information such as the size of the customer and geographic region in determining the SSP.

Due to the various benefits from and the nature of our SA program, judgment is required to assess the pattern of delivery, including the exercise pattern of certain benefits across our portfolio of customers.

Our products are generally sold with a right of return, we may provide other credits or incentives, and in certain instances we estimate customer usage of our products and services, which are accounted for as variable consideration when determining the amount of revenue to recognize. Returns and credits are estimated at contract inception and updated at the end of each reporting period if additional information becomes available. Changes to our estimated variable consideration were not material for the periods presented.

Impairment of Investment Securities

We review debt investments quarterly for credit losses and impairment. If the cost of an investment exceeds its fair value, we evaluate, among other factors, general market conditions, credit quality of debt instrument issuers, and the extent to which the fair value is less than cost. This determination requires significant judgment. In making this judgment, we employ a systematic methodology that considers available quantitative and qualitative evidence in evaluating potential impairment of our investments. In addition, we consider specific adverse conditions related to the financial health of, and business outlook for, the investee. If we have plans to sell the security or it is more likely than not that we will be required to sell the security before recovery, then a decline in fair value below cost is recorded as an impairment charge in other income (expense), net and a new cost basis in the investment is established. If market, industry, and/or investee conditions deteriorate, we may incur future impairments.

Equity investments without readily determinable fair values are written down to fair value if a qualitative assessment indicates that the investment is impaired and the fair value of the investment is less than carrying value. We perform a qualitative assessment on a periodic basis. We are required to estimate the fair value of the investment to determine the amount of the impairment loss. Once an investment is determined to be impaired, an impairment charge is recorded in other income (expense), net.

Goodwill

We allocate goodwill to reporting units based on the reporting unit expected to benefit from the business combination. We evaluate our reporting units on an annual basis and, if necessary, reassign goodwill using a relative fair value allocation approach. Goodwill is tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis (May 1) and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. These events or circumstances could include a significant change in the business climate, legal factors, operating performance indicators, competition, or sale or disposition of a significant portion of a reporting unit.

Application of the goodwill impairment test requires judgment, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units, and determination of the fair value of each reporting unit. The fair value of each reporting unit is estimated primarily through the use of a discounted cash flow methodology. This analysis requires significant judgments, including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term rate of growth for our business, estimation of the useful life over which cash flows will occur, and determination of our weighted average cost of capital.

The estimates used to calculate the fair value of a reporting unit change from year to year based on operating results, market conditions, and other factors. Changes in these estimates and assumptions could materially affect the determination of fair value and goodwill impairment for each reporting unit.

Research and Development Costs

Costs incurred internally in researching and developing a computer software product are charged to expense until technological feasibility has been established for the product. Once technological feasibility is established, software costs are capitalized until the product is available for general release to customers. Judgment is required in determining when technological feasibility of a product is established. We have determined that technological feasibility for our software products is reached after all high-risk development issues have been resolved through coding and testing. Generally, this occurs shortly before the products are released to production. The amortization of these costs is included in cost of revenue over the estimated life of the products.

Legal and Other Contingencies

The outcomes of legal proceedings and claims brought against us are subject to significant uncertainty. An estimated loss from a loss contingency such as a legal proceeding or claim is accrued by a charge to income if it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. In determining whether a loss should be accrued we evaluate, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. Changes in these factors could materially impact our consolidated financial statements.

Income Taxes

The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year, and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Accounting literature also provides guidance on derecognition of income tax assets and liabilities, classification of deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and income tax disclosures. Judgment is required in assessing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. Variations in the actual outcome of these future tax consequences could materially impact our consolidated financial statements.

Business Combinations – Valuation of Intangible Assets

Accounting for business combinations requires significant judgments when allocating the purchase price to the estimated fair values of assets acquired and liabilities assumed at the acquisition date. Determination of fair value involves estimates and assumptions which can be complex, most notably with respect to intangible assets. Critical estimates used in the valuation of intangible assets include, but are not limited to, the amount and timing of projected cash flows, useful lives, and discount rates. While management's estimates of fair value are based on assumptions that are believed to be reasonable, these assumptions are inherently uncertain as they pertain to forward-looking views of our business and market conditions. The judgments made in this valuation process could materially impact our consolidated financial statements.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

Management is responsible for the preparation of the consolidated financial statements and related information that are presented in this report. The consolidated financial statements, which include amounts based on management's estimates and judgments, have been prepared in conformity with accounting principles generally accepted in the United States of America.

The Company designs and maintains accounting and internal control systems to provide reasonable assurance at reasonable cost that assets are safeguarded against loss from unauthorized use or disposition, and that the financial records are reliable for preparing consolidated financial statements and maintaining accountability for assets. These systems are augmented by written policies, an organizational structure providing division of responsibilities, careful selection and training of qualified personnel, and a program of internal audits.

The Company engaged Deloitte & Touche LLP, an independent registered public accounting firm, to audit and render an opinion on the consolidated financial statements and internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States).

The Board of Directors, through its Audit Committee, consisting solely of independent directors of the Company, meets periodically with management, internal auditors, and our independent registered public accounting firm to ensure that each is meeting its responsibilities and to discuss matters concerning internal controls and financial reporting. Deloitte & Touche LLP and the internal auditors each have full and free access to the Audit Committee.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

RISKS

We are exposed to economic risk from foreign exchange rates, interest rates, credit risk, and equity prices. We use derivatives instruments to manage these risks, however, they may still impact our consolidated financial statements.

Foreign Currencies

Certain forecasted transactions, assets, and liabilities are exposed to foreign currency risk. We monitor our foreign currency exposures daily to maximize the economic effectiveness of our foreign currency positions, including hedges. Principal currency exposures include the Euro, Japanese yen, British pound, Canadian dollar, and Australian dollar.

Interest Rate

Securities held in our fixed-income portfolio are subject to different interest rate risks based on their maturities. We manage the average maturity of the fixed-income portfolio to achieve economic returns that correlate to certain global fixed-income indices.

Credit

Our fixed-income portfolio is diversified and consists primarily of investment-grade securities. We manage credit exposures relative to broad-based indices to facilitate portfolio diversification.

Equity

Securities held in our equity investments portfolio are subject to price risk.

SENSITIVITY ANALYSIS

The following table sets forth the potential loss in future earnings or fair values, including associated derivatives, resulting from hypothetical changes in relevant market rates or prices:

(In millions)

| Risk Categories | Hypothetical Change | June 30, 2024 | Impact |
|--------------------------------|--|------------------|------------|
| Foreign currency – Revenue | 10% decrease in foreign exchange rates | \$ (9,605) | Earnings |
| Foreign currency – Investments | 10% decrease in foreign exchange rates | (38) | Fair Value |
| Interest rate | 100 basis point increase in U.S. treasury interest rates | (1,343) | Fair Value |
| Credit | 100 basis point increase in credit spreads | (318) | Fair Value |
| Equity | 10% decrease in equity market prices | (1,078) | Earnings |

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

NOTES TO FINANCIAL STATEMENTS

NOTE 1 — ACCOUNTING POLICIES

Accounting Principles

Our consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

We have recast certain prior period amounts to conform to the current period presentation. The recast of these prior period amounts had no impact on our consolidated balance sheets, consolidated income statements, or consolidated cash flows statements.

Principles of Consolidation

The consolidated financial statements include the accounts of Microsoft Corporation and its subsidiaries. Intercompany transactions and balances have been eliminated.

Estimates and Assumptions

Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Examples of estimates and assumptions include: for revenue recognition, determining the nature and timing of satisfaction of performance obligations, and determining the standalone selling price ("SSP") of performance obligations, variable consideration, and other obligations such as product returns and refunds; loss contingencies; product warranties; the fair value of and/or potential impairment of goodwill and intangible assets for our reporting units; product life cycles; useful lives of our tangible and intangible assets; allowances for doubtful accounts; the market value of, and demand for, our inventory; stock-based compensation forfeiture rates; when technological feasibility is achieved for our products; the potential outcome of uncertain tax positions that have been recognized in our consolidated financial statements or tax returns; and determining the timing and amount of impairments for investments. Actual results and outcomes may differ from management's estimates and assumptions due to risks and uncertainties.

In July 2022, we completed an assessment of the useful lives of our server and network equipment. Due to investments in software that increased efficiencies in how we operate our server and network equipment, as well as advances in technology, we determined we should increase the estimated useful lives of both server and network equipment from four years to six years. This change in accounting estimate was effective beginning fiscal year 2023.

Foreign Currencies

Assets and liabilities recorded in foreign currencies are translated at the exchange rate on the balance sheet date. Revenue and expenses are translated at average rates of exchange prevailing during the year. Translation adjustments resulting from this process are recorded to other comprehensive income.

Revenue

Product Revenue and Service and Other Revenue

Product revenue includes sales from operating systems, cross-device productivity and collaboration applications, server applications, business solution applications, desktop and server management tools, software development tools, video games, and hardware such as PCs, tablets, gaming and entertainment consoles, other intelligent devices, and related accessories.

Service and other revenue includes sales from cloud-based solutions that provide customers with software, services, platforms, and content such as Office 365, Azure, Dynamics 365, and gaming; solution support; and consulting services. Service and other revenue also includes sales from online advertising and LinkedIn.

Revenue Recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. We enter into contracts that can include various combinations of products and services, which are generally capable of being distinct and accounted for as separate performance obligations. Revenue is recognized net of allowances for returns and any taxes collected from customers, which are subsequently remitted to governmental authorities.

Nature of Products and Services

Licenses for on-premises software provide the customer with a right to use the software as it exists when made available to the customer. Customers may purchase perpetual licenses or subscribe to licenses, which provide customers with the same functionality and differ mainly in the duration over which the customer benefits from the software. Revenue from distinct on-premises licenses is recognized upfront at the point in time when the software is made available to the customer. In cases where we allocate revenue to software updates, primarily because the updates are provided at no additional charge, revenue is recognized as the updates are provided, which is generally ratably over the estimated life of the related device or license.

Certain volume licensing programs, including Enterprise Agreements, include on-premises licenses combined with Software Assurance ("SA"). SA conveys rights to new software and upgrades released over the contract period and provides support, tools, and training to help customers deploy and use products more efficiently. On-premises licenses are considered distinct performance obligations when sold with SA. Revenue allocated to SA is generally recognized ratably over the contract period as customers simultaneously consume and receive benefits, given that SA comprises distinct performance obligations that are satisfied over time.

Cloud services, which allow customers to use hosted software over the contract period without taking possession of the software, are provided on either a subscription or consumption basis. Revenue related to cloud services provided on a subscription basis is recognized ratably over the contract period. Revenue related to cloud services provided on a consumption basis, such as the amount of storage used in a period, is recognized based on the customer utilization of such resources. When cloud services require a significant level of integration and interdependency with software and the individual components are not considered distinct, all revenue is recognized over the period in which the cloud services are provided.

Revenue from search advertising is recognized when the advertisement appears in the search results or when the action necessary to earn the revenue has been completed. Revenue from consulting services is recognized as services are provided.

Our hardware is generally highly dependent on, and interrelated with, the underlying operating system and cannot function without the operating system. In these cases, the hardware and software license are accounted for as a single performance obligation and revenue is recognized at the point in time when ownership is transferred to resellers or directly to end customers through retail stores and online marketplaces.

Refer to Note 19 – Segment Information and Geographic Data for further information, including revenue by significant product and service offering.

Significant Judgments

Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. When a cloud-based service includes both on-premises software licenses and cloud services, judgment is required to determine whether the software license is considered distinct and accounted for separately, or not distinct and accounted for together with the cloud service and recognized over time. Certain cloud services, primarily Office 365, depend on a significant level of integration, interdependency, and interrelation between the desktop applications and cloud services, and are accounted for together as one performance obligation. Revenue from Office 365 is recognized ratably over the period in which the cloud services are provided.

Judgment is required to determine the SSP for each distinct performance obligation. We use a single amount to estimate SSP for items that are not sold separately, including on-premises licenses sold with SA or software updates provided at no additional charge. We use a range of amounts to estimate SSP when we sell each of the products and services separately and need to determine whether there is a discount to be allocated based on the relative SSP of the various products and services.

In instances where SSP is not directly observable, such as when we do not sell the product or service separately, we determine the SSP using information that may include market conditions and other observable inputs. We typically have more than one SSP for individual products and services due to the stratification of those products and services by customers and circumstances. In these instances, we may use information such as the size of the customer and geographic region in determining the SSP.

Due to the various benefits from and the nature of our SA program, judgment is required to assess the pattern of delivery, including the exercise pattern of certain benefits across our portfolio of customers.

Our products are generally sold with a right of return, we may provide other credits or incentives, and in certain instances we estimate customer usage of our products and services, which are accounted for as variable consideration when determining the amount of revenue to recognize. Returns and credits are estimated at contract inception and updated at the end of each reporting period if additional information becomes available. Changes to our estimated variable consideration were not material for the periods presented.

Contract Balances and Other Receivables

Timing of revenue recognition may differ from the timing of invoicing to customers. We record a receivable when revenue is recognized prior to invoicing, or unearned revenue when revenue is recognized subsequent to invoicing. For multi-year agreements, we generally invoice customers annually at the beginning of each annual coverage period. We record a receivable related to revenue recognized for multi-year on-premises licenses as we have an unconditional right to invoice and receive payment in the future related to those licenses.

Unearned revenue comprises mainly unearned revenue related to volume licensing programs, which may include SA and cloud services. Unearned revenue is generally invoiced annually at the beginning of each contract period for multi-year agreements and recognized ratably over the coverage period. Unearned revenue also includes payments for consulting services to be performed in the future, LinkedIn subscriptions, Office 365 subscriptions, Xbox subscriptions, Windows post-delivery support, Dynamics business solutions, and other offerings for which we have been paid in advance and earn the revenue when we transfer control of the product or service.

Refer to Note 13 – Unearned Revenue for further information, including unearned revenue by segment and changes in unearned revenue during the period.

Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to receive financing from our customers or to provide customers with financing. Examples include invoicing at the beginning of a subscription term with revenue recognized ratably over the contract period, and multi-year on-premises licenses that are invoiced annually with revenue recognized upfront.

As of June 30, 2024 and 2023, long-term accounts receivable, net of allowance for doubtful accounts, was \$4.9 billion and \$4.5 billion, respectively, and is included in other long-term assets in our consolidated balance sheets.

The allowance for doubtful accounts reflects our best estimate of probable losses inherent in the accounts receivable balance. We determine the allowance based on known troubled accounts, historical experience, and other currently available evidence.

Activity in the allowance for doubtful accounts was as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|------------------------------|---------------|---------------|---------------|
| Balance, beginning of period | \$ 716 | \$ 710 | \$ 798 |
| Charged to costs and other | 386 | 258 | 157 |
| Write-offs | (218) | (252) | (245) |
| Balance, end of period | <u>\$ 884</u> | <u>\$ 716</u> | <u>\$ 710</u> |

Allowance for doubtful accounts included in our consolidated balance sheets:

(In millions)

| June 30, | 2024 | 2023 | 2022 |
|---|---------------|---------------|---------------|
| Accounts receivable, net of allowance for doubtful accounts | \$ 830 | \$ 650 | \$ 633 |
| Other long-term assets | 54 | 66 | 77 |
| Total | <u>\$ 884</u> | <u>\$ 716</u> | <u>\$ 710</u> |

As of June 30, 2024 and 2023, other receivables related to activities to facilitate the purchase of server components were \$10.5 billion and \$9.2 billion, respectively, and are included in other current assets in our consolidated balance sheets.

We record financing receivables when we offer certain customers the option to acquire our software products and services offerings through a financing program in a limited number of countries. As of June 30, 2024 and 2023, our financing receivables, net were \$4.5 billion and \$5.3 billion, respectively, for short-term and long-term financing receivables, which are included in other current assets and other long-term assets in our consolidated balance sheets. We record an allowance to cover expected losses based on troubled accounts, historical experience, and other currently available evidence.

Assets Recognized from Costs to Obtain a Contract with a Customer

We recognize an asset for the incremental costs of obtaining a contract with a customer if we expect the benefit of those costs to be longer than one year. We have determined that certain sales incentive programs meet the requirements to be capitalized. Total capitalized costs to obtain a contract were immaterial during the periods presented and are included in other current and long-term assets in our consolidated balance sheets.

We apply a practical expedient to expense costs as incurred for costs to obtain a contract with a customer when the amortization period would have been one year or less. These costs include our internal sales organization compensation program and certain partner sales incentive programs as we have determined annual compensation is commensurate with annual sales activities.

Cost of Revenue

Cost of revenue includes: manufacturing and distribution costs for products sold and programs licensed; operating costs related to product support service centers and product distribution centers; costs incurred to include software on PCs sold by original equipment manufacturers ("OEM"), to drive traffic to our websites, and to acquire online advertising space; costs incurred to support and maintain cloud-based and other online products and services, including datacenter costs and royalties; warranty costs; inventory valuation adjustments; costs associated with the delivery of consulting services; and the amortization of capitalized software development costs. Capitalized software development costs are amortized over the estimated lives of the products.

Product Warranty

We provide for the estimated costs of fulfilling our obligations under hardware and software warranties at the time the related revenue is recognized. For hardware warranties, we estimate the costs based on historical and projected product failure rates, historical and projected repair costs, and knowledge of specific product failures (if any). The specific hardware warranty terms and conditions vary depending upon the product sold and the country in which we do business, but generally include parts and labor over a period generally ranging from 90 days to three years. For software warranties, we estimate the costs to provide bug fixes, such as security patches, over the estimated life of the software. We regularly reevaluate our estimates to assess the adequacy of the recorded warranty liabilities and adjust the amounts as necessary.

Research and Development

Research and development expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with product development. Research and development expenses also include third-party development and programming costs and the amortization of purchased software code and services content. Such costs related to software development are included in research and development expense until the point that technological feasibility is reached, which for our software products, is generally shortly before the products are released to production. Once technological feasibility is reached, such costs are capitalized and amortized to cost of revenue over the estimated lives of the products.

Sales and Marketing

Sales and marketing expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with sales and marketing personnel, and the costs of advertising, promotions, trade shows, seminars, and other programs. Advertising costs are expensed as incurred. Advertising expense was \$1.7 billion, \$904 million, and \$1.5 billion in fiscal years 2024, 2023, and 2022, respectively.

Stock-Based Compensation

Compensation cost for stock awards, which include restricted stock units ("RSUs") and performance stock units ("PSUs"), is measured at the fair value on the grant date and recognized as expense, net of estimated forfeitures, over the related service or performance period. The fair value of stock awards is based on the quoted price of our common stock on the grant date less the present value of expected dividends not received during the vesting period. We measure the fair value of PSUs using a Monte Carlo valuation model. Compensation cost for RSUs is recognized using the straight-line method and for PSUs is recognized using the accelerated method.

Compensation expense for the employee stock purchase plan ("ESPP") is measured as the discount the employee is entitled to upon purchase and is recognized in the period of purchase.

Income Taxes

Income tax expense includes U.S. and international income taxes, and interest and penalties on uncertain tax positions. Certain income and expenses are not reported in tax returns and financial statements in the same year. The tax effect of such temporary differences is reported as deferred income taxes. Deferred tax assets are reported net of a valuation allowance when it is more likely than not that a tax benefit will not be realized. All deferred income taxes are classified as long-term in our consolidated balance sheets.

Financial Instruments

Investments

We consider all highly liquid interest-earning investments with a maturity of three months or less at the date of purchase to be cash equivalents. The fair values of these investments approximate their carrying values. In general, investments with original maturities of greater than three months and remaining maturities of less than one year are classified as short-term investments. Investments with maturities beyond one year may be classified as short-term based on their highly liquid nature and because such marketable securities represent the investment of cash that is available for current operations.

Debt investments are classified as available-for-sale and realized gains and losses are recorded using the specific identification method. Changes in fair value, excluding credit losses and impairments, are recorded in other comprehensive income. Fair value is calculated based on publicly available market information or other estimates determined by management. If the cost of an investment exceeds its fair value, we evaluate, among other factors, general market conditions, credit quality of debt instrument issuers, and the extent to which the fair value is less than cost. To determine credit losses, we employ a systematic methodology that considers available quantitative and qualitative evidence. In addition, we consider specific adverse conditions related to the financial health of, and business outlook for, the investee. If we have plans to sell the security or it is more likely than not that we will be required to sell the security before recovery, then a decline in fair value below cost is recorded as an impairment charge in other income (expense), net and a new cost basis in the investment is established. If market, industry, and/or investee conditions deteriorate, we may incur future impairments.

Equity investments with readily determinable fair values are measured at fair value. Equity investments without readily determinable fair values are measured using the equity method or measured at cost with adjustments for observable changes in price or impairments (referred to as the measurement alternative). We perform a qualitative assessment on a periodic basis and recognize an impairment if there are sufficient indicators that the fair value of the investment is less than carrying value. Changes in value are recorded in other income (expense), net.

Investments that are considered variable interest entities (“VIEs”) are evaluated to determine whether we are the primary beneficiary of the VIE, in which case we would be required to consolidate the entity. We evaluate whether we have (1) the power to direct the activities that most significantly impact the VIE’s economic performance, and (2) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. We have determined we are not the primary beneficiary of any of our VIE investments. Therefore, our VIE investments are not consolidated and the majority are accounted for under the equity method of accounting.

Derivatives

Derivative instruments are recognized as either assets or liabilities and measured at fair value. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation.

For derivative instruments designated as fair value hedges, gains and losses are recognized in other income (expense), net with offsetting gains and losses on the hedged items. Gains and losses representing hedge components excluded from the assessment of effectiveness are recognized in other income (expense), net.

For derivative instruments designated as cash flow hedges, gains and losses are initially reported as a component of other comprehensive income and subsequently recognized in other income (expense), net with the corresponding hedged item. Gains and losses representing hedge components excluded from the assessment of effectiveness are recognized in other income (expense), net.

For derivative instruments that are not designated as hedges, gains and losses from changes in fair values are primarily recognized in other income (expense), net.

Fair Value Measurements

We account for certain assets and liabilities at fair value. The hierarchy below lists three levels of fair value based on the extent to which inputs used in measuring fair value are observable in the market. We categorize each of our fair value measurements in one of these three levels based on the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

- *Level 1* – inputs are based upon unadjusted quoted prices for identical instruments in active markets. Our Level 1 investments include U.S. government securities, common and preferred stock, and mutual funds. Our Level 1 derivative assets and liabilities include those actively traded on exchanges.

- *Level 2* – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques (e.g. the Black-Scholes model) for which all significant inputs are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit spreads, foreign exchange rates, and forward and spot prices for currencies. Our Level 2 investments include commercial paper, certificates of deposit, U.S. agency securities, foreign government bonds, mortgage- and asset-backed securities, corporate notes and bonds, and municipal securities. Our Level 2 derivative assets and liabilities include certain cleared swap contracts and over-the-counter forward, option, and swap contracts.
- *Level 3* – inputs are generally unobservable and typically reflect management’s estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques, including option pricing models and discounted cash flow models. Our Level 3 assets and liabilities include investments in corporate notes and bonds, municipal securities, and goodwill and intangible assets, when they are recorded at fair value due to an impairment charge. Unobservable inputs used in the models are significant to the fair values of the assets and liabilities.

We measure equity investments without readily determinable fair values on a nonrecurring basis. The fair values of these investments are determined based on valuation techniques using the best information available, and may include quoted market prices, market comparables, and discounted cash flow projections.

Our other current financial assets and current financial liabilities have fair values that approximate their carrying values.

Inventories

Inventories are stated at average cost, subject to the lower of cost or net realizable value. Cost includes materials, labor, and manufacturing overhead related to the purchase and production of inventories. Net realizable value is the estimated selling price less estimated costs of completion, disposal, and transportation. We regularly review inventory quantities on hand, future purchase commitments with our suppliers, and the estimated utility of our inventory. If our review indicates a reduction in utility below carrying value, we reduce our inventory to a new cost basis through a charge to cost of revenue.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation, and depreciated using the straight-line method over the shorter of the estimated useful life of the asset or the lease term. The estimated useful lives of our property and equipment are generally as follows: computer software developed or acquired for internal use, three years; computer equipment, two to six years; buildings and improvements, five to 15 years; leasehold improvements, three to 20 years; and furniture and equipment, one to 10 years. Land is not depreciated.

Leases

We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (“ROU”) assets, other current liabilities, and operating lease liabilities in our consolidated balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our consolidated balance sheets.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we generally use our incremental borrowing rate based on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at commencement date. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

We have lease agreements with lease and non-lease components, which are generally accounted for separately. For certain equipment leases, such as vehicles, we account for the lease and non-lease components as a single lease component. Additionally, for certain equipment leases, we apply a portfolio approach to effectively account for the operating lease ROU assets and liabilities.

Goodwill

Goodwill is tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis (May 1) and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

Intangible Assets

Our intangible assets are subject to amortization and are amortized over the estimated useful life in proportion to the economic benefits received. We evaluate the recoverability of intangible assets periodically by taking into account events or circumstances that may warrant revised estimates of useful lives or that indicate the asset may be impaired.

Related Party Transactions

In March 2024, we entered into an agreement with Inflection AI, Inc. (“Inflection”), pursuant to which we obtained a non-exclusive license to Inflection’s intellectual property. Reid Hoffman, a member of our Board of Directors, is a co-founder of and serves on the board of directors of Inflection. As of the date of the agreement with Inflection, Reprogrammed Interchange LLC (“Reprogrammed”) and entities affiliated with Greylock Ventures (“Greylock”) each held less than a 10% equity interest in Inflection. Mr. Hoffman may be deemed to beneficially own the shares held by Reprogrammed and Greylock by virtue of his relationship with such entities. Mr. Hoffman did not participate in any portions of the meetings of our Board of Directors or any committee thereof to review and approve the transaction with Inflection.

Recent Accounting Guidance

Segment Reporting – Improvements to Reportable Segment Disclosures

In November 2023, the Financial Accounting Standards Board (“FASB”) issued a new standard to improve reportable segment disclosures. The guidance expands the disclosures required for reportable segments in our annual and interim consolidated financial statements, primarily through enhanced disclosures about significant segment expenses. The standard will be effective for us beginning with our annual reporting for fiscal year 2025 and interim periods thereafter, with early adoption permitted. We are currently evaluating the impact of this standard on our segment disclosures.

Income Taxes – Improvements to Income Tax Disclosures

In December 2023, the FASB issued a new standard to improve income tax disclosures. The guidance requires disclosure of disaggregated income taxes paid, prescribes standardized categories for the components of the effective tax rate reconciliation, and modifies other income tax-related disclosures. The standard will be effective for us beginning with our annual reporting for fiscal year 2026, with early adoption permitted. We are currently evaluating the impact of this standard on our income tax disclosures.

NOTE 2 — EARNINGS PER SHARE

Basic earnings per share (“EPS”) is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted EPS is computed based on the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding stock options and stock awards.

The components of basic and diluted EPS were as follows:

(In millions, except per share amounts)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|---|-----------|-----------|-----------|
| Net income available for common shareholders (A) | \$ 88,136 | \$ 72,361 | \$ 72,738 |
| Weighted average outstanding shares of common stock (B) | 7,431 | 7,446 | 7,496 |
| Dilutive effect of stock-based awards | 38 | 26 | 44 |
| Common stock and common stock equivalents (C) | 7,469 | 7,472 | 7,540 |
| Earnings Per Share | | | |
| Basic (A/B) | \$ 11.86 | \$ 9.72 | \$ 9.70 |
| Diluted (A/C) | \$ 11.80 | \$ 9.68 | \$ 9.65 |

Anti-dilutive stock-based awards excluded from the calculations of diluted EPS were immaterial during the periods presented.

NOTE 3 — OTHER INCOME (EXPENSE), NET

The components of other income (expense), net were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|---|------------|----------|----------|
| Interest and dividends income | \$ 3,157 | \$ 2,994 | \$ 2,094 |
| Interest expense | (2,935) | (1,968) | (2,063) |
| Net recognized gains (losses) on investments | (118) | 260 | 461 |
| Net losses on derivatives | (187) | (456) | (52) |
| Net gains (losses) on foreign currency remeasurements | (244) | 181 | (75) |
| Other, net | (1,319) | (223) | (32) |
| Total | \$ (1,646) | \$ 788 | \$ 333 |

Other, net primarily reflects net recognized losses on equity method investments.

Net Recognized Gains (Losses) on Investments

Net recognized gains (losses) on debt investments were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|---|---------|---------|---------|
| Realized gains from sales of available-for-sale securities | \$ 22 | \$ 36 | \$ 162 |
| Realized losses from sales of available-for-sale securities | (98) | (124) | (138) |
| Impairments and allowance for credit losses | 23 | (10) | (81) |
| Total | \$ (53) | \$ (98) | \$ (57) |

Net recognized gains (losses) on equity investments were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|--|---------|--------|--------|
| Net realized gains on investments sold | \$ 18 | \$ 75 | \$ 29 |
| Net unrealized gains on investments still held | 146 | 303 | 509 |
| Impairments of investments | (229) | (20) | (20) |
| Total | \$ (65) | \$ 358 | \$ 518 |

NOTE 4 — INVESTMENTS

Investment Components

The components of investments were as follows:

| (In millions) | Fair Value Level | Adjusted Cost Basis | Unrealized Gains | Unrealized Losses | Recorded Basis | Cash and Cash Equivalents | Short-term Investments | Equity and Other Investments |
|---|------------------|---------------------|------------------|-------------------|------------------|---------------------------|------------------------|------------------------------|
| June 30, 2024 | | | | | | | | |
| Changes in Fair Value Recorded in Other Comprehensive Income | | | | | | | | |
| Commercial paper | Level 2 | \$ 4,666 | \$ 0 | \$ 0 | \$ 4,666 | \$ 4,666 | \$ 0 | \$ 0 |
| Certificates of deposit | Level 2 | 1,547 | 0 | 0 | 1,547 | 1,503 | 44 | 0 |
| U.S. government securities | Level 1 | 49,603 | 4 | (2,948) | 46,659 | 14 | 46,645 | 0 |
| U.S. agency securities | Level 2 | 17 | 0 | 0 | 17 | 0 | 17 | 0 |
| Foreign government bonds | Level 2 | 319 | 3 | (16) | 306 | 0 | 306 | 0 |
| Mortgage- and asset-backed securities | Level 2 | 944 | 3 | (35) | 912 | 0 | 912 | 0 |
| Corporate notes and bonds | Level 2 | 9,106 | 28 | (318) | 8,816 | 0 | 8,816 | 0 |
| Corporate notes and bonds | Level 3 | 1,641 | 0 | (1) | 1,640 | 0 | 140 | 1,500 |
| Municipal securities | Level 2 | 262 | 0 | (13) | 249 | 0 | 249 | 0 |
| Municipal securities | Level 3 | 104 | 0 | (17) | 87 | 0 | 87 | 0 |
| Total debt investments | | \$ 68,209 | \$ 38 | \$ (3,348) | \$ 64,899 | \$ 6,183 | \$ 57,216 | \$ 1,500 |
| Changes in Fair Value Recorded in Net Income | | | | | | | | |
| Equity investments | Level 1 | | | | \$ 3,547 | \$ 561 | \$ 0 | \$ 2,986 |
| Equity investments | Other | | | | 10,114 | 0 | 0 | 10,114 |
| Total equity investments | | | | | \$ 13,661 | \$ 561 | \$ 0 | \$ 13,100 |
| Cash | | | | | \$ 11,571 | \$ 11,571 | \$ 0 | \$ 0 |
| Derivatives, net ^(a) | | | | | 12 | 0 | 12 | 0 |
| Total | | | | | \$ 90,143 | \$ 18,315 | \$ 57,228 | \$ 14,600 |

PART II
Item 8

| (In millions) | Fair Value Level | Adjusted Cost Basis | Unrealized Gains | Unrealized Losses | Recorded Basis | Cash and Cash Equivalents | Short-term Investments | Equity and Other Investments |
|---|------------------|---------------------|------------------|-------------------|-------------------|---------------------------|------------------------|------------------------------|
| June 30, 2023 | | | | | | | | |
| Changes in Fair Value Recorded in Other Comprehensive Income | | | | | | | | |
| Commercial paper | Level 2 | \$ 16,589 | \$ 0 | \$ 0 | \$ 16,589 | \$ 12,231 | \$ 4,358 | \$ 0 |
| Certificates of deposit | Level 2 | 2,701 | 0 | 0 | 2,701 | 2,657 | 44 | 0 |
| U.S. government securities | Level 1 | 65,237 | 2 | (3,870) | 61,369 | 2,991 | 58,378 | 0 |
| U.S. agency securities | Level 2 | 2,703 | 0 | 0 | 2,703 | 894 | 1,809 | 0 |
| Foreign government bonds | Level 2 | 498 | 1 | (24) | 475 | 0 | 475 | 0 |
| Mortgage- and asset-backed securities | Level 2 | 824 | 1 | (39) | 786 | 0 | 786 | 0 |
| Corporate notes and bonds | Level 2 | 10,809 | 8 | (583) | 10,234 | 0 | 10,234 | 0 |
| Corporate notes and bonds | Level 3 | 120 | 0 | 0 | 120 | 0 | 120 | 0 |
| Municipal securities | Level 2 | 285 | 1 | (18) | 268 | 7 | 261 | 0 |
| Municipal securities | Level 3 | 103 | 0 | (16) | 87 | 0 | 87 | 0 |
| Total debt investments | | <u>\$ 99,869</u> | <u>\$ 13</u> | <u>\$ (4,550)</u> | <u>\$ 95,332</u> | <u>\$ 18,780</u> | <u>\$ 76,552</u> | <u>\$ 0</u> |
| Changes in Fair Value Recorded in Net Income | | | | | | | | |
| Equity investments | Level 1 | | | | \$ 10,138 | \$ 7,446 | \$ 0 | \$ 2,692 |
| Equity investments | Other | | | | 7,187 | 0 | 0 | 7,187 |
| Total equity investments | | | | | <u>\$ 17,325</u> | <u>\$ 7,446</u> | <u>\$ 0</u> | <u>\$ 9,879</u> |
| Cash | | | | | \$ 8,478 | \$ 8,478 | \$ 0 | \$ 0 |
| Derivatives, net ^(a) | | | | | 6 | 0 | 6 | 0 |
| Total | | | | | <u>\$ 121,141</u> | <u>\$ 34,704</u> | <u>\$ 76,558</u> | <u>\$ 9,879</u> |

(a) Refer to Note 5 – Derivatives for further information on the fair value of our derivative instruments.

Equity investments presented as “Other” in the tables above include investments without readily determinable fair values measured using the equity method or measured at cost with adjustments for observable changes in price or impairments, and investments measured at fair value using net asset value as a practical expedient which are not categorized in the fair value hierarchy. As of June 30, 2024 and 2023, equity investments without readily determinable fair values measured at cost with adjustments for observable changes in price or impairments were \$3.9 billion and \$4.2 billion, respectively.

Unrealized Losses on Debt Investments

Debt investments with continuous unrealized losses for less than 12 months and 12 months or greater and their related fair values were as follows:

| (In millions) | Less than 12 Months | | 12 Months or Greater | | Total Fair Value | Total Unrealized Losses |
|---------------------------------------|---------------------|-------------------|----------------------|-------------------|------------------|-------------------------|
| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | | |
| June 30, 2024 | | | | | | |
| U.S. government and agency securities | \$ 529 | \$ (12) | \$ 45,821 | \$ (2,936) | \$ 46,350 | \$ (2,948) |
| Foreign government bonds | 79 | (2) | 180 | (14) | 259 | (16) |
| Mortgage- and asset-backed securities | 201 | (1) | 409 | (34) | 610 | (35) |
| Corporate notes and bonds | 1,310 | (9) | 5,779 | (310) | 7,089 | (319) |
| Municipal securities | 38 | (1) | 243 | (29) | 281 | (30) |
| Total | \$ 2,157 | \$ (25) | \$ 52,432 | \$ (3,323) | \$ 54,589 | \$ (3,348) |

| (In millions) | Less than 12 Months | | 12 Months or Greater | | Total Fair Value | Total Unrealized Losses |
|---------------------------------------|---------------------|-------------------|----------------------|-------------------|------------------|-------------------------|
| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | | |
| June 30, 2023 | | | | | | |
| U.S. government and agency securities | \$ 7,950 | \$ (336) | \$ 45,273 | \$ (3,534) | \$ 53,223 | \$ (3,870) |
| Foreign government bonds | 77 | (5) | 391 | (19) | 468 | (24) |
| Mortgage- and asset-backed securities | 257 | (5) | 412 | (34) | 669 | (39) |
| Corporate notes and bonds | 2,326 | (49) | 7,336 | (534) | 9,662 | (583) |
| Municipal securities | 111 | (3) | 186 | (31) | 297 | (34) |
| Total | \$ 10,721 | \$ (398) | \$ 53,598 | \$ (4,152) | \$ 64,319 | \$ (4,550) |

Unrealized losses from fixed-income securities are primarily attributable to changes in interest rates. Management does not believe any remaining unrealized losses represent impairments based on our evaluation of available evidence.

Debt Investment Maturities

The following table outlines maturities of our debt investments as of June 30, 2024:

| (In millions) | Adjusted Cost Basis | Estimated Fair Value |
|---------------------------------------|---------------------|----------------------|
| June 30, 2024 | | |
| Due in one year or less | \$ 19,815 | \$ 19,596 |
| Due after one year through five years | 38,954 | 36,779 |
| Due after five years through 10 years | 8,028 | 7,242 |
| Due after 10 years | 1,412 | 1,282 |
| Total | \$ 68,209 | \$ 64,899 |

NOTE 5 — DERIVATIVES

We use derivative instruments to manage risks related to foreign currencies, interest rates, equity prices, and credit; to enhance investment returns; and to facilitate portfolio diversification. Our objectives for holding derivatives include reducing, eliminating, and efficiently managing the economic impact of these exposures as effectively as possible. Our derivative programs include strategies that both qualify and do not qualify for hedge accounting treatment.

Foreign Currencies

Certain forecasted transactions, assets, and liabilities are exposed to foreign currency risk. We monitor our foreign currency exposures daily to maximize the economic effectiveness of our foreign currency hedge positions.

Foreign currency risks related to certain non-U.S. dollar-denominated investments are hedged using foreign exchange forward contracts that are designated as fair value hedging instruments. Foreign currency risks related to certain Euro-denominated debt are hedged using foreign exchange forward contracts that are designated as cash flow hedging instruments.

Certain options and forwards not designated as hedging instruments are also used to manage the variability in foreign exchange rates on certain balance sheet amounts and to manage other foreign currency exposures.

Interest Rate

Interest rate risks related to certain fixed-rate debt are hedged using interest rate swaps that are designated as fair value hedging instruments to effectively convert the fixed interest rates to floating interest rates.

Securities held in our fixed-income portfolio are subject to different interest rate risks based on their maturities. We manage the average maturity of our fixed-income portfolio to achieve economic returns that correlate to certain broad-based fixed-income indices using option, futures, and swap contracts. These contracts are not designated as hedging instruments and are included in "Other contracts" in the tables below.

Equity

Securities held in our equity investments portfolio are subject to market price risk. At times, we may hold options, futures, and swap contracts. These contracts are not designated as hedging instruments.

Credit

Our fixed-income portfolio is diversified and consists primarily of investment-grade securities. We use credit default swap contracts to manage credit exposures relative to broad-based indices and to facilitate portfolio diversification. These contracts are not designated as hedging instruments and are included in "Other contracts" in the tables below.

Credit-Risk-Related Contingent Features

Certain counterparty agreements for derivative instruments contain provisions that require our issued and outstanding long-term unsecured debt to maintain an investment grade credit rating and require us to maintain minimum liquidity of \$1.0 billion. To the extent we fail to meet these requirements, we will be required to post collateral, similar to the standard convention related to over-the-counter derivatives. As of June 30, 2024, our long-term unsecured debt rating was AAA, and cash investments were in excess of \$1.0 billion. As a result, no collateral was required to be posted.

The following table presents the notional amounts of our outstanding derivative instruments measured in U.S. dollar equivalents:

| (In millions) | June 30, 2024 | June 30, 2023 |
|--|------------------|------------------|
| Designated as Hedging Instruments | | |
| Foreign exchange contracts purchased | \$ 1,492 | \$ 1,492 |
| Interest rate contracts purchased | 1,100 | 1,078 |
| Not Designated as Hedging Instruments | | |
| Foreign exchange contracts purchased | 7,167 | 7,874 |
| Foreign exchange contracts sold | 31,793 | 25,159 |
| Equity contracts purchased | 4,016 | 3,867 |
| Equity contracts sold | 2,165 | 2,154 |
| Other contracts purchased | 2,113 | 1,224 |
| Other contracts sold | 811 | 581 |

Fair Values of Derivative Instruments

The following table presents our derivative instruments:

| (In millions) | Derivative Assets | Derivative Liabilities | Derivative Assets | Derivative Liabilities |
|---|----------------------|---------------------------|----------------------|---------------------------|
| | | June 30, 2024 | | June 30, 2023 |
| Designated as Hedging Instruments | | | | |
| Foreign exchange contracts | \$ 24 | \$ (76) | \$ 34 | \$ (67) |
| Interest rate contracts | 19 | 0 | 16 | 0 |
| Not Designated as Hedging Instruments | | | | |
| Foreign exchange contracts | 213 | (230) | 249 | (332) |
| Equity contracts | 63 | (491) | 165 | (400) |
| Other contracts | 12 | (3) | 5 | (6) |
| Gross amounts of derivatives | 331 | (800) | 469 | (805) |
| Gross amounts of derivatives offset in the balance sheets | (151) | 152 | (202) | 206 |
| Cash collateral received | 0 | (104) | 0 | (125) |
| Net amounts of derivatives | \$ 180 | \$ (752) | \$ 267 | \$ (724) |
| Reported as | | | | |
| Short-term investments | \$ 12 | \$ 0 | \$ 6 | \$ 0 |
| Other current assets | 149 | 0 | 245 | 0 |
| Other long-term assets | 19 | 0 | 16 | 0 |
| Other current liabilities | 0 | (401) | 0 | (341) |
| Other long-term liabilities | 0 | (351) | 0 | (383) |
| Total | \$ 180 | \$ (752) | \$ 267 | \$ (724) |

Gross derivative assets and liabilities subject to legally enforceable master netting agreements for which we have elected to offset were \$304 million and \$800 million, respectively, as of June 30, 2024, and \$442 million and \$804 million, respectively, as of June 30, 2023.

The following table presents the fair value of our derivatives instruments on a gross basis:

| (In millions) | Level 1 | Level 2 | Level 3 | Total |
|------------------------|---------|---------|---------|--------|
| June 30, 2024 | | | | |
| Derivative assets | \$ 0 | \$ 327 | \$ 4 | \$ 331 |
| Derivative liabilities | (1) | (799) | 0 | (800) |
| June 30, 2023 | | | | |
| Derivative assets | 0 | 462 | 7 | 469 |
| Derivative liabilities | 0 | (805) | 0 | (805) |

Gains (losses) on derivative instruments recognized in other income (expense), net were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|---|-------|-------|-------|
| Designated as Fair Value Hedging Instruments | | | |
| Foreign exchange contracts | | | |
| Derivatives | \$ 0 | \$ 0 | \$ 49 |
| Hedged items | 0 | 0 | (50) |
| Excluded from effectiveness assessment | 0 | 0 | 4 |
| Interest rate contracts | | | |
| Derivatives | (23) | (65) | (92) |
| Hedged items | (25) | 38 | 108 |
| Designated as Cash Flow Hedging Instruments | | | |
| Foreign exchange contracts | | | |
| Amount reclassified from accumulated other comprehensive loss | (48) | 61 | (79) |
| Not Designated as Hedging Instruments | | | |
| Foreign exchange contracts | | | |
| | 367 | (73) | 383 |
| Equity contracts | (177) | (420) | 13 |
| Other contracts | (15) | (41) | (85) |

Gains (losses), net of tax, on derivative instruments recognized in our consolidated comprehensive income statements were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|--|---------|-------|---------|
| Designated as Cash Flow Hedging Instruments | | | |
| Foreign exchange contracts | | | |
| Included in effectiveness assessment | \$ (14) | \$ 34 | \$ (57) |

NOTE 6 — INVENTORIES

The components of inventories were as follows:

(In millions)

| June 30, | 2024 | 2023 |
|-----------------|-----------------|-----------------|
| Raw materials | \$ 394 | \$ 709 |
| Work in process | 7 | 23 |
| Finished goods | 845 | 1,768 |
| Total | \$ 1,246 | \$ 2,500 |

NOTE 7 — PROPERTY AND EQUIPMENT

The components of property and equipment were as follows:

| (In millions) | | |
|---------------------------------|------------|-----------|
| June 30, | 2024 | 2023 |
| Land | \$ 8,163 | \$ 5,683 |
| Buildings and improvements | 93,943 | 68,465 |
| Leasehold improvements | 9,594 | 8,537 |
| Computer equipment and software | 93,780 | 74,961 |
| Furniture and equipment | 6,532 | 6,246 |
| Total, at cost | 212,012 | 163,892 |
| Accumulated depreciation | (76,421) | (68,251) |
| Total, net | \$ 135,591 | \$ 95,641 |

During fiscal years 2024, 2023, and 2022, depreciation expense was \$15.2 billion, \$11.0 billion, and \$12.6 billion, respectively.

As of June 30, 2024, we have committed \$35.4 billion for the construction of new buildings, building improvements, and leasehold improvements, primarily related to datacenters.

NOTE 8 — BUSINESS COMBINATIONS

Activision Blizzard, Inc.

On October 13, 2023, we completed our acquisition of Activision Blizzard, Inc. (“Activision Blizzard”) for a total purchase price of \$75.4 billion, consisting primarily of cash. Activision Blizzard is a leader in game development and an interactive entertainment content publisher. The acquisition will accelerate the growth in our gaming business across mobile, PC, console, and cloud gaming. The financial results of Activision Blizzard have been included in our consolidated financial statements since the date of the acquisition. Activision Blizzard is reported as part of our More Personal Computing segment.

The purchase price allocation as of the date of acquisition was based on a preliminary valuation and is subject to revision as more detailed analyses are completed and additional information about the fair value of assets acquired and liabilities assumed becomes available. The primary areas that remain preliminary relate to the fair values of goodwill and income taxes.

The major classes of assets and liabilities to which we have preliminarily allocated the purchase price were as follows:

| (In millions) | |
|---------------------------|-----------|
| Cash and cash equivalents | \$ 12,976 |
| Goodwill | 50,969 |
| Intangible assets | 21,969 |
| Other assets | 2,501 |
| Long-term debt | (2,799) |
| Long-term income taxes | (1,914) |
| Deferred income taxes | (4,677) |
| Other liabilities | (3,617) |
| Total purchase price | \$ 75,408 |

Goodwill was assigned to our More Personal Computing segment. The goodwill was primarily attributed to increased synergies that are expected to be achieved from the integration of Activision Blizzard. Substantially all of the goodwill is expected to be non-deductible for income tax purposes.

Following are the details of the purchase price allocated to the intangible assets acquired:

| (In millions, except average life) | Amount | Weighted Average Life |
|--|------------------|--------------------------|
| Marketing-related | \$ 11,619 | 24 years |
| Technology-based | 9,689 | 4 years |
| Customer-related | 661 | 4 years |
| Fair value of intangible assets acquired | <u>\$ 21,969</u> | 15 years |

Following is the net impact of the Activision Blizzard acquisition on our consolidated income statements since the date of acquisition:

| (In millions) | 2024 |
|---------------------|----------|
| Year Ended June 30, | |
| Revenue | \$ 5,729 |
| Operating loss | (1,362) |

The change of Activision Blizzard content from third-party to first-party is reflected in the net impact.

Following are the supplemental consolidated financial results of Microsoft Corporation on an unaudited pro forma basis, as if the acquisition had been consummated on July 1, 2022:

| (In millions, except per share amounts) | 2024 | 2023 |
|---|------------|------------|
| Year Ended June 30, | | |
| Revenue | \$ 247,442 | \$ 219,790 |
| Net income | 88,308 | 71,383 |
| Diluted earnings per share | 11.82 | 9.55 |

These pro forma results were based on estimates and assumptions, which we believe are reasonable. They are not the results that would have been realized had we been a combined company during the periods presented and are not necessarily indicative of our consolidated results of operations in future periods. The pro forma results include adjustments related to purchase accounting, primarily amortization of intangible assets. Acquisition costs and other nonrecurring charges were immaterial and are included in the earliest period presented.

Nuance Communications, Inc.

On March 4, 2022, we completed our acquisition of Nuance Communications, Inc. ("Nuance") for a total purchase price of \$18.8 billion, consisting primarily of cash. Nuance is a cloud and artificial intelligence ("AI") software provider with healthcare and enterprise AI experience, and the acquisition will build on our industry-specific cloud offerings. The financial results of Nuance have been included in our consolidated financial statements since the date of the acquisition. Nuance is reported as part of our Intelligent Cloud segment.

The allocation of the purchase price to goodwill was completed as of December 31, 2022. The major classes of assets and liabilities to which we have allocated the purchase price were as follows:

| (In millions) | 2024 |
|----------------------------------|------------------|
| Goodwill ^(a) | \$ 16,326 |
| Intangible assets | 4,365 |
| Other assets | 42 |
| Other liabilities ^(b) | (1,972) |
| Total | <u>\$ 18,761</u> |

- (a) Goodwill was assigned to our Intelligent Cloud segment and was primarily attributed to increased synergies that are expected to be achieved from the integration of Nuance. None of the goodwill is expected to be deductible for income tax purposes.
- (b) Includes \$986 million of convertible senior notes issued by Nuance in 2015 and 2017, substantially all of which have been redeemed.

Following are the details of the purchase price allocated to the intangible assets acquired:

| (In millions, except average life) | Amount | Weighted Average Life |
|------------------------------------|-----------------|--------------------------|
| Customer-related | \$ 2,610 | 9 years |
| Technology-based | 1,540 | 5 years |
| Marketing-related | 215 | 4 years |
| Total | \$ 4,365 | 7 years |

NOTE 9 — GOODWILL

Changes in the carrying amount of goodwill were as follows:

| (In millions) | June 30, 2022 | Acquisitions | Other | June 30, 2023 | Acquisitions | Other | June 30, 2024 |
|-------------------------------------|------------------|---------------|---------------|------------------|-----------------------|--------------------|-------------------|
| Productivity and Business Processes | \$ 24,811 | \$ 11 | \$ (47) | \$ 24,775 | \$ 0 | \$ 2 | \$ 24,777 |
| Intelligent Cloud | 30,182 | 223 | 64 | 30,469 | 0 | (28) | 30,441 |
| More Personal Computing | 12,531 | 0 | 111 | 12,642 | 51,235 ^(a) | 125 ^(a) | 64,002 |
| Total | \$ 67,524 | \$ 234 | \$ 128 | \$ 67,886 | \$ 51,235 | \$ 99 | \$ 119,220 |

(a) Includes goodwill of \$51.0 billion related to Activision Blizzard. See Note 8 – Business Combinations for further information.

The measurement periods for the valuation of assets acquired and liabilities assumed end as soon as information on the facts and circumstances that existed as of the acquisition dates becomes available, but do not exceed 12 months. Adjustments in purchase price allocations may require a change in the amounts allocated to goodwill during the periods in which the adjustments are determined.

Any change in the goodwill amounts resulting from foreign currency translations and purchase accounting adjustments are presented as “Other” in the table above. Also included in “Other” are business dispositions and transfers between segments due to reorganizations, as applicable.

Goodwill Impairment

We test goodwill for impairment annually on May 1 at the reporting unit level, primarily using a discounted cash flow methodology with a peer-based, risk-adjusted weighted average cost of capital. We believe use of a discounted cash flow approach is the most reliable indicator of the fair values of the businesses.

No instances of impairment were identified in our May 1, 2024, May 1, 2023, or May 1, 2022 tests. As of June 30, 2024 and 2023, accumulated goodwill impairment was \$11.3 billion.

NOTE 10 — INTANGIBLE ASSETS

The components of intangible assets, all of which are finite-lived, were as follows:

| (In millions) | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount | Gross Carrying Amount | Accumulated Amortization | Net Carrying Amount |
|-------------------|--------------------------------|-----------------------------|------------------------|-----------------------------|-----------------------------|------------------------|
| June 30, | | | 2024 | | | 2023 |
| Marketing-related | \$ 16,500 | \$ (3,101) | \$ 13,399 | \$ 4,935 | \$ (2,473) | \$ 2,462 |
| Technology-based | 21,913 | (10,741) | 11,172 | 11,245 | (7,589) | 3,656 |
| Customer-related | 6,038 | (3,051) | 2,987 | 7,281 | (4,047) | 3,234 |
| Contract-based | 58 | (19) | 39 | 29 | (15) | 14 |
| Total | <u>\$ 44,509^(a)</u> | <u>\$ (16,912)</u> | <u>\$ 27,597</u> | <u>\$ 23,490</u> | <u>\$ (14,124)</u> | <u>\$ 9,366</u> |

(a) Includes intangible assets of \$22.0 billion related to Activision Blizzard. See Note 8 – Business Combinations for further information.

No material impairments of intangible assets were identified during fiscal years 2024, 2023, or 2022. We estimate that we have no significant residual value related to our intangible assets.

The components of intangible assets acquired during the periods presented were as follows:

| (In millions) | Amount | Weighted Average Life | Amount | Weighted Average Life |
|---------------------|------------------|--------------------------|---------------|--------------------------|
| Year Ended June 30, | | | 2023 | |
| Marketing-related | \$ 11,619 | 24 years | \$ 7 | 5 years |
| Technology-based | 10,947 | 4 years | 522 | 7 years |
| Customer-related | 660 | 4 years | 0 | 0 years |
| Contract-based | 38 | 4 years | 12 | 3 years |
| Total | <u>\$ 23,264</u> | <u>14 years</u> | <u>\$ 541</u> | <u>6 years</u> |

Intangible assets amortization expense was \$4.8 billion, \$2.5 billion, and \$2.0 billion for fiscal years 2024, 2023, and 2022, respectively.

The following table outlines the estimated future amortization expense related to intangible assets held as of June 30, 2024:

| (In millions) | Amount |
|----------------------|------------------|
| Year Ending June 30, | |
| 2025 | \$ 5,892 |
| 2026 | 4,471 |
| 2027 | 2,793 |
| 2028 | 1,909 |
| 2029 | 1,728 |
| Thereafter | 10,804 |
| Total | <u>\$ 27,597</u> |

NOTE 11 — DEBT

Short-term Debt

As of June 30, 2024, we had \$6.7 billion of commercial paper issued and outstanding, with a weighted average interest rate of 5.4% and maturities ranging from 28 days to 152 days. The estimated fair value of this commercial paper approximates its carrying value. As of June 30, 2023, we had no commercial paper issued or outstanding.

Long-term Debt

The components of long-term debt were as follows:

| (In millions, issuance by calendar year) | Maturities (calendar year) | Stated Interest Rate | Effective Interest Rate | June 30, 2024 | June 30, 2023 |
|--|-------------------------------|-------------------------|----------------------------|------------------|------------------|
| 2009 issuance of \$3.8 billion | 2039 | 5.20% | 5.24% | \$ 520 | \$ 520 |
| 2010 issuance of \$4.8 billion | 2040 | 4.50% | 4.57% | 486 | 486 |
| 2011 issuance of \$2.3 billion | 2041 | 5.30% | 5.36% | 718 | 718 |
| 2012 issuance of \$2.3 billion | 2042 | 3.50% | 3.57% | 454 | 454 |
| 2013 issuance of \$5.2 billion | 2043 | 3.75%–4.88% | 3.83%–4.92% | 314 | 1,814 |
| 2013 issuance of €4.1 billion | 2028–2033 | 2.63%–3.13% | 2.69%–3.22% | 2,465 | 2,509 |
| 2015 issuance of \$23.8 billion | 2025–2055 | 2.70%–4.75% | 2.77%–4.78% | 9,805 | 9,805 |
| 2016 issuance of \$19.8 billion | 2026–2056 | 2.40%–3.95% | 2.46%–4.03% | 7,930 | 9,430 |
| 2017 issuance of \$17.1 billion ^(a) | 2026–2057 | 3.30%–4.50% | 3.38%–5.49% | 6,833 | 8,945 |
| 2020 issuance of \$10.1 billion ^(a) | 2030–2060 | 1.35%–2.68% | 2.53%–5.43% | 10,111 | 10,000 |
| 2021 issuance of \$8.2 billion | 2052–2062 | 2.92%–3.04% | 2.92%–3.04% | 8,185 | 8,185 |
| 2023 issuance of \$0.1 billion ^(a) | 2026–2050 | 1.35%–4.50% | 5.16%–5.49% | 56 | 0 |
| 2024 issuance of \$3.3 billion ^(a) | 2026–2050 | 1.35%–4.50% | 5.16%–5.49% | 3,344 | 0 |
| Total face value | | | | 51,221 | 52,866 |
| Unamortized discount and issuance costs | | | | (1,227) | (438) |
| Hedge fair value adjustments ^(b) | | | | (81) | (106) |
| Premium on debt exchange | | | | (4,976) | (5,085) |
| Total debt | | | | 44,937 | 47,237 |
| Current portion of long-term debt | | | | (2,249) | (5,247) |
| Long-term debt | | | | \$ 42,688 | \$ 41,990 |

(a) Includes \$3.6 billion of debt at face value related to the Activision Blizzard acquisition, the majority of which was exchanged for Microsoft registered securities in June 2024. See Note 8 – Business Combinations for further information.

(b) Refer to Note 5 – Derivatives for further information on the interest rate swaps related to fixed-rate debt.

As of June 30, 2024 and 2023, the estimated fair value of long-term debt, including the current portion, was \$42.3 billion and \$46.2 billion, respectively. The estimated fair values are based on Level 2 inputs.

Debt in the table above is comprised of senior unsecured obligations and ranks equally with our other outstanding obligations. Interest is paid semi-annually, except for the Euro-denominated debt, which is paid annually. Cash paid for interest on our debt for fiscal years 2024, 2023, and 2022 was \$1.7 billion, \$1.7 billion, and \$1.9 billion, respectively.

The following table outlines maturities of our long-term debt, including the current portion, as of June 30, 2024:

(In millions)

| Year Ending June 30, | | |
|----------------------|-----------|---------------|
| 2025 | \$ | 2,250 |
| 2026 | | 3,000 |
| 2027 | | 9,250 |
| 2028 | | 0 |
| 2029 | | 1,876 |
| Thereafter | | 34,845 |
| Total | \$ | 51,221 |

NOTE 12 — INCOME TAXES

Provision for Income Taxes

The components of the provision for income taxes were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|----------------------------|------------|------------|------------|
| Current Taxes | | | |
| U.S. federal | \$ 12,165 | \$ 14,009 | \$ 8,329 |
| U.S. state and local | 2,366 | 2,322 | 1,679 |
| Foreign | 9,858 | 6,678 | 6,672 |
| Current taxes | \$ 24,389 | \$ 23,009 | \$ 16,680 |
| Deferred Taxes | | | |
| U.S. federal | \$ (4,791) | \$ (6,146) | \$ (4,815) |
| U.S. state and local | (379) | (477) | (1,062) |
| Foreign | 432 | 564 | 175 |
| Deferred taxes | \$ (4,738) | \$ (6,059) | \$ (5,702) |
| Provision for income taxes | \$ 19,651 | \$ 16,950 | \$ 10,978 |

U.S. and foreign components of income before income taxes were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|----------------------------|------------|-----------|-----------|
| U.S. | \$ 62,886 | \$ 52,917 | \$ 47,837 |
| Foreign | 44,901 | 36,394 | 35,879 |
| Income before income taxes | \$ 107,787 | \$ 89,311 | \$ 83,716 |

Effective Tax Rate

The items accounting for the difference between income taxes computed at the U.S. federal statutory rate and our effective rate were as follows:

| Year Ended June 30, | 2024 | 2023 | 2022 |
|--|--------|--------|--------|
| Federal statutory rate | 21.0% | 21.0% | 21.0% |
| Effect of: | | | |
| Foreign earnings taxed at lower rates | (1.4)% | (1.8)% | (1.3)% |
| Impact of intangible property transfers | 0% | 0% | (3.9)% |
| Foreign-derived intangible income deduction | (1.1)% | (1.3)% | (1.1)% |
| State income taxes, net of federal benefit | 1.5% | 1.6% | 1.4% |
| Research and development credit | (1.1)% | (1.1)% | (0.9)% |
| Excess tax benefits relating to stock-based compensation | (1.1)% | (0.7)% | (1.9)% |
| Interest, net | 1.1% | 0.8% | 0.5% |
| Other reconciling items, net | (0.7)% | 0.5% | (0.7)% |
| Effective rate | 18.2% | 19.0% | 13.1% |

In the first quarter of fiscal year 2022, we transferred certain intangible properties from our Puerto Rico subsidiary to the U.S. The transfer of intangible properties resulted in a \$3.3 billion net income tax benefit in the first quarter of fiscal year 2022, as the value of future U.S. tax deductions exceeded the current tax liability from the U.S. global intangible low-taxed income ("GILTI") tax.

The decrease from the federal statutory rate in fiscal year 2024 and 2023 is primarily due to earnings taxed at lower rates in foreign jurisdictions resulting from producing and distributing our products and services through our foreign regional operations center in Ireland. The decrease from the federal statutory rate in fiscal year 2022 is primarily due to the net income tax benefit related to the transfer of intangible properties, earnings taxed at lower rates in foreign jurisdictions resulting from producing and distributing our products and services through our foreign regional operations center in Ireland, and tax benefits relating to stock-based compensation. In fiscal years 2024 and 2023, our foreign regional operating center in Ireland, which is taxed at a rate lower than the U.S. rate, generated 83% and 81% of our foreign income before tax. In fiscal year 2022, our foreign regional operating centers in Ireland and Puerto Rico, which are taxed at rates lower than the U.S. rate, generated 71% of our foreign income before tax. Other reconciling items, net consists primarily of tax credits and GILTI tax, and in fiscal year 2024, includes tax benefits from tax law changes. In fiscal year 2024, tax benefits from tax law changes primarily relates to the issuance of Notice 2023-55 and Notice 2023-80 by the Internal Revenue Service ("IRS") and U.S. Treasury Department. Notice 2023-55, issued in the first quarter of fiscal year 2024, delayed the effective date of final foreign tax credit regulations to fiscal year 2024 for Microsoft. Notice 2023-80, issued in the second quarter of fiscal year 2024, further delayed the effective date of final foreign tax credit regulations indefinitely. In fiscal years 2024, 2023, and 2022, there were no individually significant other reconciling items.

The decrease in our effective tax rate for fiscal year 2024 compared to fiscal year 2023 was primarily due to tax benefits from tax law changes, including the delay of the effective date of final foreign tax credit regulations. The increase in our effective tax rate for fiscal year 2023 compared to fiscal year 2022 was primarily due to a \$3.3 billion net income tax benefit in the first quarter of fiscal year 2022 related to the transfer of intangible properties and a decrease in tax benefits relating to stock-based compensation.

The components of the deferred income tax assets and liabilities were as follows:

| (In millions) | 2024 | 2023 |
|--|-------------|-------------|
| June 30, | | |
| Deferred Income Tax Assets | | |
| Stock-based compensation expense | \$ 765 | \$ 681 |
| Accruals, reserves, and other expenses | 4,381 | 3,131 |
| Loss and credit carryforwards | 1,741 | 1,441 |
| Amortization | 4,159 | 9,440 |
| Leasing liabilities | 6,504 | 5,041 |
| Unearned revenue | 3,717 | 3,296 |
| Book/tax basis differences in investments and debt | 9 | 373 |
| Capitalized research and development | 11,442 | 6,958 |
| Other | 426 | 489 |
| Deferred income tax assets | 33,144 | 30,850 |
| Less valuation allowance | (1,045) | (939) |
| Deferred income tax assets, net of valuation allowance | \$ 32,099 | \$ 29,911 |
| Deferred Income Tax Liabilities | | |
| Leasing assets | \$ (6,503) | \$ (4,680) |
| Depreciation | (3,940) | (2,674) |
| Deferred tax on foreign earnings | (1,837) | (2,738) |
| Other | (167) | (89) |
| Deferred income tax liabilities | \$ (12,447) | \$ (10,181) |
| Net deferred income tax assets | \$ 19,652 | \$ 19,730 |
| Reported As | | |
| Other long-term assets | \$ 22,270 | \$ 20,163 |
| Long-term deferred income tax liabilities | (2,618) | (433) |
| Net deferred income tax assets | \$ 19,652 | \$ 19,730 |

Deferred income tax balances reflect the effects of temporary differences between the carrying amounts of assets and liabilities and their tax bases and are stated at enacted tax rates expected to be in effect when the taxes are paid or recovered.

As of June 30, 2024, we had federal, state, and foreign net operating loss carryforwards of \$476 million, \$899 million, and \$2.6 billion, respectively. The federal and state net operating loss carryforwards have varying expiration dates ranging from fiscal year 2025 to 2044 or indefinite carryforward periods, if not utilized. The majority of our foreign net operating loss carryforwards do not expire. Certain acquired net operating loss carryforwards are subject to an annual limitation but are expected to be realized with the exception of those which have a valuation allowance. As of June 30, 2024, we had \$456 million federal capital loss carryforwards for U.S. tax purposes from our acquisition of Nuance. The federal capital loss carryforwards are subject to an annual limitation and will expire in fiscal year 2025.

The valuation allowance disclosed in the table above relates to the foreign net operating loss carryforwards, federal capital loss carryforwards, and other net deferred tax assets that may not be realized.

Income taxes paid, net of refunds, were \$23.4 billion, \$23.1 billion, and \$16.0 billion in fiscal years 2024, 2023, and 2022, respectively.

Uncertain Tax Positions

Gross unrecognized tax benefits related to uncertain tax positions as of June 30, 2024, 2023, and 2022, were \$22.8 billion, \$17.1 billion, and \$15.6 billion, respectively, which were primarily included in long-term income taxes in our consolidated balance sheets. If recognized, the resulting tax benefit would affect our effective tax rates for fiscal years 2024, 2023, and 2022 by \$19.6 billion, \$14.4 billion, and \$13.3 billion, respectively.

As of June 30, 2024, 2023, and 2022, we had accrued interest expense related to uncertain tax positions of \$6.8 billion, \$5.2 billion, and \$4.3 billion, respectively, net of income tax benefits. The provision for income taxes for fiscal years 2024, 2023, and 2022 included interest expense related to uncertain tax positions of \$1.5 billion, \$918 million, and \$36 million, respectively, net of income tax benefits.

The aggregate changes in the gross unrecognized tax benefits related to uncertain tax positions were as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|---|-----------|-----------|-----------|
| Beginning unrecognized tax benefits | \$ 17,120 | \$ 15,593 | \$ 14,550 |
| Decreases related to settlements | (76) | (329) | (317) |
| Increases for tax positions related to the current year | 1,903 | 1,051 | 1,145 |
| Increases for tax positions related to prior years ^(a) | 4,289 | 870 | 461 |
| Decreases for tax positions related to prior years | (464) | (60) | (246) |
| Decreases due to lapsed statutes of limitations | (12) | (5) | 0 |
| Ending unrecognized tax benefits | \$ 22,760 | \$ 17,120 | \$ 15,593 |

(a) Fiscal year 2024 includes unrecognized tax benefits of \$3.4 billion related to the acquisition of Activision Blizzard. See Note 8 – Business Combinations for further information.

We remain under audit by the IRS for tax years 2014 to 2017. With respect to the audit for tax years 2004 to 2013, on September 26, 2023, we received Notices of Proposed Adjustment (“NOPAs”) from the IRS. The primary issues in the NOPAs relate to intercompany transfer pricing. In the NOPAs, the IRS is seeking an additional tax payment of \$28.9 billion plus penalties and interest. As of June 30, 2024, we believe our allowances for income tax contingencies are adequate. We disagree with the proposed adjustments and will vigorously contest the NOPAs through the IRS’s administrative appeals office and, if necessary, judicial proceedings. We do not expect a final resolution of these issues in the next 12 months. Based on the information currently available, we do not anticipate a significant increase or decrease to our income tax contingencies for these issues within the next 12 months.

We are subject to income tax in many jurisdictions outside the U.S. Our operations in certain jurisdictions remain subject to examination for tax years 1996 to 2023, some of which are currently under audit by local tax authorities. The resolution of each of these audits is not expected to be material to our consolidated financial statements.

NOTE 13 — UNEARNED REVENUE

Unearned revenue by segment was as follows:

(In millions)

| June 30, | 2024 | 2023 |
|-------------------------------------|-----------|-----------|
| Productivity and Business Processes | \$ 30,879 | \$ 27,572 |
| Intelligent Cloud | 23,117 | 21,563 |
| More Personal Computing | 6,188 | 4,678 |
| Total | \$ 60,184 | \$ 53,813 |

Changes in unearned revenue were as follows:

(In millions)

| Year Ended June 30, 2024 | |
|---------------------------------|-----------|
| Balance, beginning of period | \$ 53,813 |
| Deferral of revenue | 148,701 |
| Recognition of unearned revenue | (142,330) |
| Balance, end of period | \$ 60,184 |

Revenue allocated to remaining performance obligations, which includes unearned revenue and amounts that will be invoiced and recognized as revenue in future periods, was \$275 billion as of June 30, 2024, of which \$269 billion is related to the commercial portion of revenue. We expect to recognize approximately 45% of our total company remaining performance obligation revenue over the next 12 months and the remainder thereafter.

NOTE 14 — LEASES

We have operating and finance leases for datacenters, corporate offices, research and development facilities, Microsoft Experience Centers, and certain equipment. Our leases have remaining lease terms of less than 1 year to 17 years, some of which include options to extend the leases for up to 5 years, and some of which include options to terminate the leases within 1 year.

The components of lease expense were as follows:

| (In millions) | | | |
|-------------------------------------|----------|----------|----------|
| Year Ended June 30, | 2024 | 2023 | 2022 |
| Operating lease cost | \$ 3,555 | \$ 2,875 | \$ 2,461 |
| Finance lease cost: | | | |
| Amortization of right-of-use assets | \$ 1,800 | \$ 1,352 | \$ 980 |
| Interest on lease liabilities | 734 | 501 | 429 |
| Total finance lease cost | \$ 2,534 | \$ 1,853 | \$ 1,409 |

Supplemental cash flow information related to leases was as follows:

| (In millions) | | | |
|---|----------|----------|----------|
| Year Ended June 30, | 2024 | 2023 | 2022 |
| Cash paid for amounts included in the measurement of lease liabilities: | | | |
| Operating cash flows from operating leases | \$ 3,550 | \$ 2,706 | \$ 2,368 |
| Operating cash flows from finance leases | 734 | 501 | 429 |
| Financing cash flows from finance leases | 1,286 | 1,056 | 896 |
| Right-of-use assets obtained in exchange for lease obligations: | | | |
| Operating leases | 6,703 | 3,514 | 5,268 |
| Finance leases | 11,633 | 3,128 | 4,234 |

Supplemental balance sheet information related to leases was as follows:

| (In millions, except lease term and discount rate) | | | |
|--|-----------|-----------|------|
| June 30, | 2024 | 2023 | 2023 |
| Operating Leases | | | |
| Operating lease right-of-use assets | \$ 18,961 | \$ 14,346 | |
| Other current liabilities | \$ 3,580 | \$ 2,409 | |
| Operating lease liabilities | 15,497 | 12,728 | |
| Total operating lease liabilities | \$ 19,077 | \$ 15,137 | |
| Finance Leases | | | |
| Property and equipment, at cost | \$ 32,248 | \$ 20,538 | |
| Accumulated depreciation | (6,386) | (4,647) | |
| Property and equipment, net | \$ 25,862 | \$ 15,891 | |
| Other current liabilities | \$ 2,349 | \$ 1,197 | |
| Other long-term liabilities | 24,796 | 15,870 | |
| Total finance lease liabilities | \$ 27,145 | \$ 17,067 | |
| Weighted Average Remaining Lease Term | | | |
| Operating leases | 7 years | 8 years | |
| Finance leases | 12 years | 11 years | |
| Weighted Average Discount Rate | | | |
| Operating leases | 3.3% | 2.9% | |
| Finance leases | 3.9% | 3.4% | |

The following table outlines maturities of our lease liabilities as of June 30, 2024:

(In millions)

| Year Ending June 30, | Operating Leases | Finance Leases |
|-----------------------|---------------------|-------------------|
| 2025 | \$ 4,124 | \$ 3,311 |
| 2026 | 3,549 | 3,021 |
| 2027 | 2,981 | 3,037 |
| 2028 | 2,405 | 3,026 |
| 2029 | 1,924 | 2,638 |
| Thereafter | 6,587 | 19,116 |
| Total lease payments | 21,570 | 34,149 |
| Less imputed interest | (2,493) | (7,004) |
| Total | \$ 19,077 | \$ 27,145 |

As of June 30, 2024, we had additional operating and finance leases, primarily for datacenters, that had not yet commenced of \$8.6 billion and \$108.4 billion, respectively. These operating and finance leases will commence between fiscal year 2025 and fiscal year 2030 with lease terms of 1 year to 20 years.

NOTE 15 — CONTINGENCIES

U.S. Cell Phone Litigation

Microsoft Mobile Oy, a subsidiary of Microsoft, along with other handset manufacturers and network operators, is a defendant in 45 lawsuits filed in the Superior Court for the District of Columbia by individual plaintiffs who allege that radio emissions from cellular handsets caused their brain tumors and other adverse health effects. We assumed responsibility for these claims in our agreement to acquire Nokia's Devices and Services business and have been substituted for the Nokia defendants. Twelve of these cases were consolidated for certain pre-trial proceedings; the remaining cases are stayed. In a separate 2009 decision, the Court of Appeals for the District of Columbia held that adverse health effect claims arising from the use of cellular handsets that operate within the U.S. Federal Communications Commission radio frequency emission guidelines ("FCC Guidelines") are pre-empted by federal law. The plaintiffs allege that their handsets either operated outside the FCC Guidelines or were manufactured before the FCC Guidelines went into effect. The lawsuits also allege an industry-wide conspiracy to manipulate the science and testing around emission guidelines.

In 2013, the defendants in the consolidated cases moved to exclude the plaintiffs' expert evidence of general causation on the basis of flawed scientific methodologies. In 2014, the trial court granted in part and denied in part the defendants' motion to exclude the plaintiffs' general causation experts. The defendants filed an interlocutory appeal to the District of Columbia Court of Appeals challenging the standard for evaluating expert scientific evidence. In October 2016, the Court of Appeals issued its decision adopting the standard advocated by the defendants and remanding the cases to the trial court for further proceedings under that standard. The plaintiffs have filed supplemental expert evidence, portions of which were stricken by the court. A hearing on general causation took place in September of 2022. In April of 2023, the court granted defendants' motion to strike the testimony of plaintiffs' experts that cell phones cause brain cancer and entered an order excluding all of plaintiffs' experts from testifying. The parties agreed to a stipulated dismissal of the consolidated cases to allow plaintiffs to appeal the expert testimony order. Plaintiffs appealed the court's order in August of 2023, and the parties have filed their briefs on the appeal. A hearing on the status of the stayed cases occurred in December of 2023. In July 2024, the court entered summary judgment in nine of the stayed cases on the grounds that plaintiffs had agreed to be bound by the general causation outcome in the consolidated cases.

Irish Data Protection Commission Matter

In 2018, the Irish Data Protection Commission (“IDPC”) began investigating a complaint against LinkedIn as to whether LinkedIn’s targeted advertising practices violated the recently implemented European Union General Data Protection Regulation (“GDPR”). Microsoft cooperated throughout the period of inquiry. In April 2023, the IDPC provided LinkedIn with a non-public preliminary draft decision alleging GDPR violations and proposing a fine. In July 2024, the IDPC provided LinkedIn with a revised non-public draft decision. There is no set timeline for the IDPC to issue a final decision, at which time Microsoft will consider its options to appeal.

Other Contingencies

We also are subject to a variety of other claims and suits that arise from time to time in the ordinary course of our business. Although management currently believes that resolving claims against us, individually or in aggregate, will not have a material adverse impact in our consolidated financial statements, these matters are subject to inherent uncertainties and management’s view of these matters may change in the future.

As of June 30, 2024, we accrued aggregate legal liabilities of \$641 million. While we intend to defend these matters vigorously, adverse outcomes that we estimate could reach approximately \$600 million in aggregate beyond recorded amounts are reasonably possible. Were unfavorable final outcomes to occur, there exists the possibility of a material adverse impact in our consolidated financial statements for the period in which the effects become reasonably estimable.

NOTE 16 — STOCKHOLDERS’ EQUITY

Shares Outstanding

Shares of common stock outstanding were as follows:

| (In millions) | 2024 | 2023 | 2022 |
|----------------------------|-------|-------|-------|
| Year Ended June 30, | | | |
| Balance, beginning of year | 7,432 | 7,464 | 7,519 |
| Issued | 34 | 37 | 40 |
| Repurchased | (32) | (69) | (95) |
| Balance, end of year | 7,434 | 7,432 | 7,464 |

Share Repurchases

On September 18, 2019, our Board of Directors approved a share repurchase program authorizing up to \$40.0 billion in share repurchases. This share repurchase program commenced in February 2020 and was completed in November 2021.

On September 14, 2021, our Board of Directors approved a share repurchase program authorizing up to \$60.0 billion in share repurchases. This share repurchase program commenced in November 2021, following completion of the program approved on September 18, 2019, has no expiration date, and may be terminated at any time. As of June 30, 2024, \$10.3 billion remained of this \$60.0 billion share repurchase program.

We repurchased the following shares of common stock under the share repurchase programs:

| (In millions) | 2024 | | 2023 | | 2022 | |
|---------------------|--------|-----------|--------|-----------|--------|-----------|
| | Shares | Amount | Shares | Amount | Shares | Amount |
| Year Ended June 30, | | | | | | |
| First Quarter | 11 | \$ 3,560 | 17 | \$ 4,600 | 21 | \$ 6,200 |
| Second Quarter | 7 | 2,800 | 20 | 4,600 | 20 | 6,233 |
| Third Quarter | 7 | 2,800 | 18 | 4,600 | 26 | 7,800 |
| Fourth Quarter | 7 | 2,800 | 14 | 4,600 | 28 | 7,800 |
| Total | 32 | \$ 11,960 | 69 | \$ 18,400 | 95 | \$ 28,033 |

All repurchases were made using cash resources. Shares repurchased during the first quarter of fiscal year 2022 were under the share repurchase program approved on September 18, 2019. Shares repurchased during the second quarter of fiscal year 2022 were under the share repurchase programs approved on September 18, 2019 and September 14, 2021. All other shares repurchased were under the share repurchase program approved on September 14, 2021. The above table excludes shares repurchased to settle employee tax withholding related to the vesting of stock awards of \$5.3 billion, \$3.8 billion, and \$4.7 billion for fiscal years 2024, 2023, and 2022, respectively.

Dividends

Our Board of Directors declared the following dividends:

| Declaration Date | Record Date | Payment Date | Dividend Per Share | | Amount |
|---------------------------|--------------------------|---------------------------|-----------------------|-----------|---------------|
| | | | | | (In millions) |
| Fiscal Year 2024 | | | | | |
| September 19, 2023 | November 16, 2023 | December 14, 2023 | \$ 0.75 | \$ | 5,574 |
| November 28, 2023 | February 15, 2024 | March 14, 2024 | 0.75 | | 5,573 |
| March 12, 2024 | May 16, 2024 | June 13, 2024 | 0.75 | | 5,574 |
| June 12, 2024 | August 15, 2024 | September 12, 2024 | 0.75 | | 5,575 |
| Total | | | \$ 3.00 | \$ | 22,296 |
| Fiscal Year 2023 | | | | | |
| September 20, 2022 | November 17, 2022 | December 8, 2022 | \$ 0.68 | \$ | 5,066 |
| November 29, 2022 | February 16, 2023 | March 9, 2023 | 0.68 | | 5,059 |
| March 14, 2023 | May 18, 2023 | June 8, 2023 | 0.68 | | 5,054 |
| June 13, 2023 | August 17, 2023 | September 14, 2023 | 0.68 | | 5,051 |
| Total | | | \$ 2.72 | \$ | 20,230 |

The dividend declared on June 12, 2024 was included in other current liabilities as of June 30, 2024.

NOTE 17 — ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following table summarizes the changes in accumulated other comprehensive income (loss) by component:

| (In millions) | | | | |
|---|------------|------------|------------|--|
| Year Ended June 30, | 2024 | 2023 | 2022 | |
| Derivatives | | | | |
| Balance, beginning of period | \$ (27) | \$ (13) | \$ (19) | |
| Unrealized gains (losses), net of tax of \$(4), \$9, and \$(15) | (14) | 34 | (57) | |
| Reclassification adjustments for (gains) losses included in other income (expense), net | 48 | (61) | 79 | |
| Tax expense (benefit) included in provision for income taxes | (10) | 13 | (16) | |
| Amounts reclassified from accumulated other comprehensive loss | 38 | (48) | 63 | |
| Net change related to derivatives, net of tax of \$6, \$(4), and \$1 | 24 | (14) | 6 | |
| Balance, end of period | \$ (3) | \$ (27) | \$ (13) | |
| Investments | | | | |
| Balance, beginning of period | \$ (3,582) | \$ (2,138) | \$ 3,222 | |
| Unrealized gains (losses), net of tax of \$247, \$(393), and \$(1,440) | 915 | (1,523) | (5,405) | |
| Reclassification adjustments for losses included in other income (expense), net | 53 | 99 | 57 | |
| Tax benefit included in provision for income taxes | (11) | (20) | (12) | |
| Amounts reclassified from accumulated other comprehensive loss | 42 | 79 | 45 | |
| Net change related to investments, net of tax of \$258, \$(373), and \$(1,428) | 957 | (1,444) | (5,360) | |
| Balance, end of period | \$ (2,625) | \$ (3,582) | \$ (2,138) | |
| Translation Adjustments and Other | | | | |
| Balance, beginning of period | \$ (2,734) | \$ (2,527) | \$ (1,381) | |
| Translation adjustments and other, net of tax of \$0, \$0, and \$0 | (228) | (207) | (1,146) | |
| Balance, end of period | \$ (2,962) | \$ (2,734) | \$ (2,527) | |
| Accumulated other comprehensive loss, end of period | \$ (5,590) | \$ (6,343) | \$ (4,678) | |

NOTE 18 — EMPLOYEE STOCK AND SAVINGS PLANS

We grant stock-based compensation to employees and directors. Awards that expire or are canceled without delivery of shares generally become available for issuance under the plans. We issue new shares of Microsoft common stock to satisfy vesting of awards granted under our stock plans. We also have an ESPP for all eligible employees.

Stock-based compensation expense and related income tax benefits were as follows:

| (In millions) | | | | |
|---|-----------|----------|----------|--|
| Year Ended June 30, | 2024 | 2023 | 2022 | |
| Stock-based compensation expense | \$ 10,734 | \$ 9,611 | \$ 7,502 | |
| Income tax benefits related to stock-based compensation | 1,826 | 1,651 | 1,293 | |

Stock Plans

Stock awards entitle the holder to receive shares of Microsoft common stock as the award vests. Stock awards generally vest over a service period of four years or five years.

Executive Incentive Plan

Under the Executive Incentive Plan, the Compensation Committee approves stock awards to executive officers and certain senior executives. RSUs generally vest ratably over a service period of four years. PSUs generally vest over a performance period of three years. The number of shares the PSU holder receives is based on the extent to which the corresponding performance goals have been achieved.

Activity for All Stock Plans

The fair value of stock awards was estimated on the date of grant using the following assumptions:

| Year ended June 30, | 2024 | 2023 | 2022 |
|---|----------------|----------------|----------------|
| Dividends per share (quarterly amounts) | \$ 0.68 – 0.75 | \$ 0.62 – 0.68 | \$ 0.56 – 0.62 |
| Interest rates | 3.8% – 5.6% | 2.0% – 5.4% | 0.03% – 3.6% |

During fiscal year 2024, the following activity occurred under our stock plans:

| | Shares | Weighted Average Grant-Date Fair Value |
|--------------------------------------|---------------|--|
| | (In millions) | |
| Stock Awards | | |
| Nonvested balance, beginning of year | 96 | \$ 250.37 |
| Granted ^(a) | 41 | 339.46 |
| Vested | (42) | 246.71 |
| Forfeited | (7) | 270.59 |
| Nonvested balance, end of year | 88 | \$ 292.28 |

(a) Includes 1 million of PSUs granted at target and performance adjustments above target levels for each of the fiscal years 2024, 2023, and 2022.

As of June 30, 2024, total unrecognized compensation costs related to stock awards were \$20.3 billion. These costs are expected to be recognized over a weighted average period of three years. The weighted average grant-date fair value of stock awards granted was \$339.46, \$252.59, and \$291.22 for fiscal years 2024, 2023, and 2022, respectively. The fair value of stock awards vested was \$16.0 billion, \$11.9 billion, and \$14.1 billion, for fiscal years 2024, 2023, and 2022, respectively. As of June 30, 2024, an aggregate of 129 million shares were authorized for future grant under our stock plans.

Employee Stock Purchase Plan

We have an ESPP for all eligible employees. Shares of our common stock may be purchased by employees at three-month intervals at 90% of the fair market value on the last trading day of each three-month period. Employees may purchase shares having a value not exceeding 15% of their gross compensation during an offering period.

Employees purchased the following shares during the periods presented:

(Shares in millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|-------------------------|-----------|-----------|-----------|
| Shares purchased | 6 | 7 | 7 |
| Average price per share | \$ 339.46 | \$ 245.59 | \$ 259.55 |

As of June 30, 2024, 68 million shares of our common stock were reserved for future issuance through the ESPP.

Savings Plans

We have savings plans in the U.S. that qualify under Section 401(k) of the Internal Revenue Code, and a number of savings plans in international locations. Eligible U.S. employees may contribute a portion of their salary into the savings plans, subject to certain limitations. We match a portion of each dollar a participant contributes into the plans. Employer-funded retirement benefits for all plans were \$1.7 billion, \$1.6 billion, and \$1.4 billion in fiscal years 2024, 2023, and 2022, respectively, and were expensed as contributed.

NOTE 19 — SEGMENT INFORMATION AND GEOGRAPHIC DATA

In its operation of the business, management, including our chief operating decision maker, who is also our Chief Executive Officer, reviews certain financial information, including segmented internal profit and loss statements prepared on a basis not consistent with GAAP. During the periods presented, we reported our financial performance based on the following segments: Productivity and Business Processes, Intelligent Cloud, and More Personal Computing.

Our reportable segments are described below.

Productivity and Business Processes

Our Productivity and Business Processes segment consists of products and services in our portfolio of productivity, communication, and information services, spanning a variety of devices and platforms. This segment primarily comprises:

- Office Commercial (Office 365 subscriptions, the Office 365 portion of Microsoft 365 Commercial subscriptions, and Office licensed on-premises), comprising Office, Exchange, SharePoint, Microsoft Teams, Office 365 Security and Compliance, Microsoft Viva, and Copilot for Microsoft 365.
- Office Consumer, including Microsoft 365 Consumer and Copilot Pro subscriptions, Office licensed on-premises, and other Office services.
- LinkedIn, including Talent Solutions, Marketing Solutions, Premium Subscriptions, and Sales Solutions.
- Dynamics business solutions, including Dynamics 365, comprising a set of intelligent, cloud-based applications across ERP, CRM, Power Apps, and Power Automate; and on-premises ERP and CRM applications.

Intelligent Cloud

Our Intelligent Cloud segment consists of our public, private, and hybrid server products and cloud services that can power modern business and developers. This segment primarily comprises:

- Server products and cloud services, including Azure and other cloud services; SQL Server, Windows Server, Visual Studio, System Center, and related Client Access Licenses ("CALs"); and Nuance and GitHub.
- Enterprise and partner services, including Enterprise Support Services, Industry Solutions, Nuance professional services, Microsoft Partner Network, and Learning Experience.

More Personal Computing

Our More Personal Computing segment consists of products and services that put customers at the center of the experience with our technology. This segment primarily comprises:

- Windows, including Windows OEM licensing and other non-volume licensing of the Windows operating system; Windows Commercial, comprising volume licensing of the Windows operating system, Windows cloud services, and other Windows commercial offerings; patent licensing; and Windows Internet of Things.
- Devices, including Surface, HoloLens, and PC accessories.

- Gaming, including Xbox hardware and Xbox content and services, comprising first-party content (such as Activision Blizzard) and third-party content, including games and in-game content; Xbox Game Pass and other subscriptions; Xbox Cloud Gaming; advertising; third-party disc royalties; and other cloud services.
- Search and news advertising, comprising Bing (including Copilot), Microsoft News, Microsoft Edge, and third-party affiliates.

Revenue and costs are generally directly attributed to our segments. However, due to the integrated structure of our business, certain revenue recognized and costs incurred by one segment may benefit other segments. Revenue from certain contracts is allocated among the segments based on the relative value of the underlying products and services, which can include allocation based on actual prices charged, prices when sold separately, or estimated costs plus a profit margin. Cost of revenue is allocated in certain cases based on a relative revenue methodology. Operating expenses that are allocated primarily include those relating to marketing of products and services from which multiple segments benefit and are generally allocated based on relative gross margin.

In addition, certain costs are incurred at a corporate level and allocated to our segments. These allocated costs generally include legal, including settlements and fines, information technology, human resources, finance, excise taxes, field selling, shared facilities services, customer service and support, and severance incurred as part of a corporate program. Each allocation is measured differently based on the specific facts and circumstances of the costs being allocated and is generally based on relative gross margin or relative headcount.

Segment revenue and operating income were as follows during the periods presented:

| (In millions) | | | |
|-------------------------------------|------------|------------|------------|
| Year Ended June 30, | 2024 | 2023 | 2022 |
| Revenue | | | |
| Productivity and Business Processes | \$ 77,728 | \$ 69,274 | \$ 63,364 |
| Intelligent Cloud | 105,362 | 87,907 | 74,965 |
| More Personal Computing | 62,032 | 54,734 | 59,941 |
| Total | \$ 245,122 | \$ 211,915 | \$ 198,270 |
| Operating Income | | | |
| Productivity and Business Processes | \$ 40,540 | \$ 34,189 | \$ 29,690 |
| Intelligent Cloud | 49,584 | 37,884 | 33,203 |
| More Personal Computing | 19,309 | 16,450 | 20,490 |
| Total | \$ 109,433 | \$ 88,523 | \$ 83,383 |

No sales to an individual customer or country other than the United States accounted for more than 10% of revenue for fiscal years 2024, 2023, or 2022. Revenue, classified by the major geographic areas in which our customers were located, was as follows:

| (In millions) | | | |
|------------------------------|------------|------------|------------|
| Year Ended June 30, | 2024 | 2023 | 2022 |
| United States ^(a) | \$ 124,704 | \$ 106,744 | \$ 100,218 |
| Other countries | 120,418 | 105,171 | 98,052 |
| Total | \$ 245,122 | \$ 211,915 | \$ 198,270 |

(a) *Includes billings to OEMs and certain multinational organizations because of the nature of these businesses and the impracticability of determining the geographic source of the revenue.*

Revenue, classified by significant product and service offerings, was as follows:

(In millions)

| Year Ended June 30, | 2024 | 2023 | 2022 |
|--------------------------------------|-------------------|-------------------|-------------------|
| Server products and cloud services | \$ 97,726 | \$ 79,970 | \$ 67,350 |
| Office products and cloud services | 54,875 | 48,848 | 44,970 |
| Windows | 23,244 | 21,507 | 24,732 |
| Gaming | 21,503 | 15,466 | 16,230 |
| LinkedIn | 16,372 | 14,989 | 13,631 |
| Search and news advertising | 12,576 | 12,158 | 11,526 |
| Enterprise and partner services | 7,594 | 7,900 | 7,605 |
| Dynamics products and cloud services | 6,481 | 5,437 | 4,687 |
| Devices | 4,706 | 5,521 | 7,306 |
| Other | 45 | 119 | 233 |
| Total | \$ 245,122 | \$ 211,915 | \$ 198,270 |

We have recast certain prior period amounts to conform to the way we internally manage and monitor our business.

Our Microsoft Cloud revenue, which includes Azure and other cloud services, Office 365 Commercial, the commercial portion of LinkedIn, Dynamics 365, and other commercial cloud properties, was \$137.4 billion, \$111.6 billion, and \$91.4 billion in fiscal years 2024, 2023, and 2022, respectively. These amounts are primarily included in Server products and cloud services, Office products and cloud services, LinkedIn, and Dynamics products and cloud services in the table above.

Assets are not allocated to segments for internal reporting presentations. A portion of amortization and depreciation is included with various other costs in an overhead allocation to each segment. It is impracticable for us to separately identify the amount of amortization and depreciation by segment that is included in the measure of segment profit or loss.

Long-lived assets, excluding financial instruments and tax assets, classified by the location of the controlling statutory company and with countries over 10% of the total shown separately, were as follows:

(In millions)

| June 30, | 2024 | 2023 | 2022 |
|-----------------|-------------------|-------------------|-------------------|
| United States | \$ 186,106 | \$ 114,380 | \$ 106,430 |
| Other countries | 115,263 | 72,859 | 59,938 |
| Total | \$ 301,369 | \$ 187,239 | \$ 166,368 |

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Microsoft Corporation

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Microsoft Corporation and subsidiaries (the "Company") as of June 30, 2024 and 2023, the related consolidated statements of income, comprehensive income, cash flows, and stockholders' equity, for each of the three years in the period ended June 30, 2024, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of June 30, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended June 30, 2024, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of June 30, 2024, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated July 30, 2024, expressed an unqualified opinion on the Company's internal control over financial reporting.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Revenue Recognition – Refer to Note 1 to the financial statements

Critical Audit Matter Description

The Company recognizes revenue upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. The Company offers customers the ability to acquire multiple licenses of software products and services, including cloud-based services, in its customer agreements through its volume licensing programs.

Significant judgment is exercised by the Company in determining revenue recognition for certain customer agreements, and includes the following:

- Determination of whether products and services are considered distinct performance obligations that should be accounted for separately versus together, such as software licenses and related services that are sold with cloud-based services.
- The pattern of delivery (i.e., timing of when revenue is recognized) for each distinct performance obligation.
- Identification and treatment of contract terms that may impact the timing and amount of revenue recognized (e.g., variable consideration, optional purchases, and free services).
- Determination of stand-alone selling prices for each distinct performance obligation and for products and services that are not sold separately.

Given these factors and due to the volume of transactions, the related audit effort in evaluating management's judgments in determining revenue recognition for certain customer agreements was extensive and required a high degree of auditor judgment.

How the Critical Audit Matter Was Addressed in the Audit

Our principal audit procedures related to the Company's revenue recognition for certain customer agreements included the following:

- We tested the effectiveness of controls related to the identification of distinct performance obligations, the determination of the timing of revenue recognition, and the estimation of variable consideration.
- We evaluated management's significant accounting policies related to certain customer agreements for reasonableness.
- We selected a sample of customer agreements and performed the following procedures:
 - Obtained and read contract source documents for each selection, including master agreements, and other documents that were part of the agreement.
 - Tested management's identification and treatment of contract terms.
 - Assessed the terms in the customer agreement and evaluated the appropriateness of management's application of their accounting policies, along with their use of estimates, in the determination of revenue recognition conclusions.
- We evaluated the reasonableness of management's estimate of stand-alone selling prices for products and services that are not sold separately.
- We tested the mathematical accuracy of management's calculations of revenue and the associated timing of revenue recognized in the financial statements.

Income Taxes – Uncertain Tax Positions – Refer to Note 12 to the financial statements

Critical Audit Matter Description

The Company's long-term income taxes liability includes uncertain tax positions related to transfer pricing issues that remain unresolved with the Internal Revenue Service ("IRS"). The Company remains under IRS audit, or subject to IRS audit, for tax years subsequent to 2003. In the current fiscal year, the Company received Notices of Proposed Adjustments ("NOPAs") for the tax years 2004 to 2013, primarily related to intercompany transfer pricing. While the Company has settled a portion of the IRS audits, resolution of the remaining matters could have a material impact on the Company's financial statements.

Conclusions on recognizing and measuring uncertain tax positions involve significant estimates and management judgment and include complex considerations of the Internal Revenue Code, related regulations, tax case laws, and prior-year audit settlements. Given the complexity and the subjective nature of certain transfer pricing issues that remain unresolved with the IRS, evaluating management's estimates relating to their determination of uncertain tax positions required extensive audit effort and a high degree of auditor judgment, including involvement of our tax specialists.

How the Critical Audit Matter Was Addressed in the Audit

Our principal audit procedures to evaluate management's estimates of uncertain tax positions related to unresolved transfer pricing issues included the following:

- We evaluated the appropriateness and consistency of management's methods and assumptions used in the identification, recognition, measurement, and disclosure of uncertain tax positions, which included testing the effectiveness of the related internal controls.
- We read and evaluated management's documentation, including relevant accounting policies and information obtained by management from outside tax specialists, that detailed the basis of the uncertain tax positions.
- We tested the reasonableness of management's judgments regarding the future resolution of the uncertain tax positions, including an evaluation of the technical merits of the uncertain tax positions.
- For those uncertain tax positions that had not been effectively settled, we evaluated whether management had appropriately considered new information, including the NOPAs received in the current fiscal year, that could significantly change the recognition, measurement, or disclosure of the uncertain tax positions.
- We evaluated the reasonableness of management's estimates by considering how tax law, including statutes, regulations, and case law, impacted management's judgments.

Business Combinations – Estimate for Valuation of Acquired Intangible Assets – Refer to Note 8 to the financial statements

Critical Audit Matter Description

On October 13, 2023, the Company completed the acquisition of Activision Blizzard, Inc. The Company accounted for the Activision Blizzard, Inc., acquisition as a business combination and, accordingly, allocated the purchase price to the assets acquired and liabilities assumed based on their respective estimated fair values as of the date of acquisition. Identifiable intangible assets acquired included marketing-related intangible assets, technology-based intangible assets, and customer-related intangible assets. The excess of the purchase consideration over the fair value of identifiable assets acquired and liabilities assumed was recorded as goodwill.

We identified the fair value determination of certain marketing-related and technology-based intangible assets for the business combination as a critical audit matter due to the significant judgment required in determining their estimated fair values. Management's estimates of fair value included assumptions for revenue and expense forecasts and the selection of appropriate discount rates. There was a high degree of auditor judgment and subjectivity in applying audit procedures and evaluating the significant assumptions relating to the estimates, including involvement of our fair value specialists.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to management's estimates of the fair value of certain marketing-related and technology-based intangible assets acquired included the following, among others:

- We tested the operating effectiveness of internal controls over the business combination, including internal controls over the revenue and expense forecasts and the selection of appropriate discount rates.
- We assessed the knowledge, skills, abilities, and objectivity of management's valuation specialist and evaluated the work performed.

- When assessing the reasonableness of assumptions related to forecasted revenue and expenses, we evaluated whether the assumptions used were reasonable considering historical financial information of Activision Blizzard, Inc., and the Company's forecasted financial information.
- With the assistance of our fair value specialists, we evaluated the reasonableness of the discount rates by:
 - Testing the source information underlying the discount rates and testing the mathematical accuracy of the calculations.
 - Developing a range of independent estimates and comparing those to the discount rates selected by management.

/s/ DELOITTE & TOUCHE LLP

Seattle, Washington
July 30, 2024

We have served as the Company's auditor since 1983.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

REPORT OF MANAGEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect our transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of our consolidated financial statements; providing reasonable assurance that receipts and expenditures of company assets are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use, or disposition of company assets that could have a material effect on our consolidated financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our consolidated financial statements would be prevented or detected.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Our assessment of, and conclusion on, the effectiveness of internal control over financial reporting did not include the internal controls of Activision Blizzard, Inc., acquired on October 13, 2023, which is included in our consolidated financial statements since the date of acquisition and represented less than 1% of our total assets as of June 30, 2024 after excluding goodwill and intangible assets acquired, and 2% of our total revenues for the year ended June 30, 2024. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of June 30, 2024. There were no changes in our internal control over financial reporting during the quarter ended June 30, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Deloitte & Touche LLP has audited our internal control over financial reporting as of June 30, 2024; their report is included in Item 9A.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Microsoft Corporation

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Microsoft Corporation and subsidiaries (the "Company") as of June 30, 2024, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2024, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended June 30, 2024, of the Company and our report dated July 30, 2024, expressed an unqualified opinion on those financial statements.

As described in the Report of Management on Internal Control over Financial Reporting, management excluded from its assessment the internal control over financial reporting at Activision Blizzard, Inc., which was acquired on October 13, 2023, and whose financial statements constitute less than 1 percent of total assets as of June 30, 2024 after excluding goodwill and intangible assets acquired, and 2 percent of total revenues for the year ended June 30, 2024. Accordingly, our audit did not include the internal control over financial reporting at Activision Blizzard, Inc.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Report of Management on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ITEM 9B. OTHER INFORMATION

Insider Trading Arrangements

None of our officers or directors, as defined in Rule 16a-1(f) of the Securities Exchange Act of 1934, adopted, modified, or terminated a “Rule 10b5-1 trading arrangement” or a “non-Rule 10b5-1 trading arrangement,” as defined in Item 408 of Regulation S-K, during the three months ended June 30, 2024.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

A list of our executive officers and biographical information appears in Part I, Item 1 of this Form 10-K. Information about our directors may be found under the caption “Our Director Nominees” in our Proxy Statement for the Annual Meeting of Shareholders to be held December 10, 2024 (the “Proxy Statement”). Information about our Audit Committee may be found under the caption “Board Committees” in the Proxy Statement. That information is incorporated herein by reference.

We have adopted the Microsoft Finance Code of Professional Conduct (the “finance code of ethics”), a code of ethics that applies to our Chief Executive Officer, Chief Financial Officer, Chief Accounting Officer, and other finance organization employees. The finance code of ethics is publicly available on our website at <https://aka.ms/FinanceCodeProfessionalConduct>. If we make any substantive amendments to the finance code of ethics or grant any waiver, including any implicit waiver, from a provision of the code to our Chief Executive Officer, Chief Financial Officer, or Chief Accounting Officer, we will disclose the nature of the amendment or waiver on that website or in a report on Form 8-K.

We have adopted insider trading policies and procedures applicable to our directors, officers, and employees, and have implemented processes for the company, that we believe are reasonably designed to promote compliance with insider trading laws, rules, and regulations, and the Nasdaq Stock Market LLC listing standards.

Our General Insider Trading Policy prohibits our employees and related persons and entities from trading in securities of Microsoft and other companies while in possession of material, nonpublic information. Our General Insider Trading Policy also prohibits our employees from disclosing material, nonpublic information Microsoft, or another publicly traded company, to others who may trade on the basis of that information. A copy of our General Insider Trading Policy is filed as Exhibit 19.1 to this Form 10-K.

Our Restricted Trading Window Policy requires that certain officers of the company (corporate vice presidents and above) and other designated employees only transact in Microsoft securities during an open window period, subject to limited exceptions. In addition, certain officers of the company are required to obtain approval in advance of transactions in Microsoft securities. A copy of our Restricted Trading Window Policy is filed as Exhibit 19.2 to this Form 10-K.

Our executive officers and directors must also comply with additional trading restrictions. A copy of our Insider Trading Compliance and Preclearance Policies for Section 16 Officers and Directors of Microsoft is filed as Exhibit 19.3 to this Form 10-K.

ITEM 11. EXECUTIVE COMPENSATION

The information in the Proxy Statement set forth under the captions “Director Compensation,” “Named Executive Officer Compensation,” “Compensation Committee Report,” and, if required, “Compensation Committee Interlocks and Insider Participation,” is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information in the Proxy Statement set forth under the captions “Stock Ownership Information,” “Principal Shareholders,” and “Equity Compensation Plan Information” is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information set forth in the Proxy Statement under the captions “Director Independence Guidelines” and “Certain Relationships and Related Transactions” is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information concerning fees and services provided by our principal accountant, Deloitte & Touche LLP (PCAOB ID No. 34), appears in the Proxy Statement under the headings “Fees Billed by Deloitte & Touche” and “Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor” and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBIT AND FINANCIAL STATEMENT SCHEDULES

(a) Financial Statements and Schedules

The financial statements are set forth under Part II, Item 8 of this Form 10-K, as indexed below. Financial statement schedules have been omitted since they either are not required, not applicable, or the information is otherwise included.

REGISTERED PURSUANT TO SECTION 12 OF THE
SECURITIES EXCHANGE ACT OF 1934**

As of July 30, 2024, Microsoft Corporation has three classes of securities registered under Section 12 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"): (1) our Common Stock; (2) our 3.125% Notes due 2028; and (3) our 2.625% Notes due 2033.

Description of Common Stock

The following description of our Common Stock is a summary and does not purport to be complete. It is subject to and qualified in its entirety by reference to our Amended and Restated Articles of Incorporation (the "Articles of Incorporation") and our Amended and Restated Bylaws (the "Bylaws"), each of which are incorporated by reference as an exhibit to the Annual Report on Form 10-K of which this Exhibit 4.1 is a part. We encourage you to read our Articles of Incorporation, our Bylaws and the applicable provisions of Washington Business Corporation Act, Title 23B of the Revised Code of Washington, for additional information.

Authorized Capital Shares

Our authorized capital shares consist of 24,000,000,000 shares of common stock, \$0.00000625 par value per share ("Common Stock"), and 100,000,000 shares of series preferred stock, \$0.01 par value per share ("Preferred Stock"). The outstanding shares of our Common Stock are fully paid and nonassessable.

Voting Rights

Holders of Common Stock are entitled to one vote per share on all matters voted on by the stockholders, including the election of directors. Our Common Stock does not have cumulative voting rights.

Dividend Rights

Subject to the rights of holders of outstanding shares of Preferred Stock, if any, the holders of Common Stock are entitled to receive dividends, if any, as may be declared from time to time by the Board of Directors in its discretion out of funds legally available for the payment of dividends.

Liquidation Rights

Subject to any preferential rights of outstanding shares of Preferred Stock, holders of Common Stock will share ratably in all assets legally available for distribution to our stockholders in the event of dissolution.

Other Rights and Preferences

Our Common Stock has no sinking fund or redemption provisions or preemptive, conversion or exchange rights. Holders of Common Stock may act by unanimous written consent.

Listing

The Common Stock is traded on The Nasdaq Stock Market LLC under the trading symbol "MSFT."

Description of the Notes

The following description of our 3.125% Notes due 2028 (the "2028 Notes") and our 2.625% Notes due 2033 (the "2033 Notes" and, together with the 2028 Notes, the "notes"), is a summary and does not purport to be complete. It is subject to and qualified in its entirety by reference to the indenture, dated as of May 18, 2009 (the "Base Indenture"), between Microsoft Corporation and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented in the case of the 2028 Notes, by the seventh supplemental indenture, dated as of December 6, 2013, and, as supplemented in the case of the 2033

Notes, by the fifth supplemental indenture dated as of May 1, 2013 (the Base Indenture, as supplemented by the fifth and seventh supplemental indentures, the “indenture”), which are incorporated by reference as exhibits to the Annual Report on Form 10-K of which this Exhibit 4.1 is a part. The 2028 Notes and the 2033 Notes are each traded on The New York Stock Exchange under the bond trading symbols of “MSFT28” and “MSFT33,” respectively.

We encourage you to read the above referenced indenture, as supplemented, for additional information.

General

The following is a description of certain of the specific terms and conditions of the indenture supplements with respect to each of the notes.

The 2033 Notes were initially issued in an €550,000,000 aggregate principal amount. The 2028 Notes were initially issued in an €1,750,000,000 aggregate principal amount. We are permitted to issue additional notes of each series of notes without the consent of the holders of that series of notes, but we will not issue such additional notes unless they are fungible for U.S. federal income tax purposes with the relevant series of notes offered. As of July 30, 2024 no such additional notes have been issued.

The notes are senior unsecured obligations and rank equally with our other unsecured and unsubordinated debt from time to time outstanding.

The maturity date of the 2028 Notes is December 6, 2028. The maturity date of the 2033 Notes is May 2, 2033.

The notes will be subject to legal defeasance and covenant defeasance as provided under the “Discharge, Defeasance and Covenant Defeasance” section set forth below.

The notes were issued in a form of one or more fully registered global securities, without coupons, in denominations of €100,000 in principal amount and integral multiples of €1,000 in excess thereof.

The notes are not redeemable at the option of the holder prior to maturity and will not benefit from any sinking fund.

Interest and Principal

The 2028 Notes bear interest from December 6, 2013 at a fixed interest rate of 3.125% per annum. The 2033 Notes bear interest from May 2, 2013 at a fixed interest rate of 2.625% per annum. Interest is paid annually on December 6 for the 2028 Notes and on May 2 for the 2033 Notes, and on the maturity date of each series of notes (the “interest payment date”). We will pay interest on the notes to the persons in whose names the notes are registered at the close of business on the May 1 or December 5 or May 1, as applicable (in each case, whether or not a business day) immediately preceding the related interest payment date. Interest on the notes will be computed on the basis of the actual number of days in the period for which interest is being calculated and the actual number of days from and including the last date on which interest was paid on the notes (or the original issue date if no interest has been paid or duly provided for on the notes), to but excluding the next date on which interest is paid or duly provided for. This payment convention is referred to as Actual/Actual (ICMA) as defined in the rulebook of the International Capital Market Association.

We will pay the principal of and interest on each note to the registered holder in euro in immediately available funds; *provided* that for the 2028 Notes, if the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or if the euro is no longer being used by the then member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of the notes will be made in U.S. dollars until the euro is again available to us or so used. The amount payable on any date in euro will be converted into U.S. dollars at the rate mandated by the U.S. Federal Reserve Board as of the close of business on the second business day prior to the relevant payment date or, in the event the U.S. Federal Reserve Board has not mandated a rate of

conversion, on the basis of the most recent U.S. dollar/euro exchange rate published in The Wall Street Journal on or prior to the second business day prior to the relevant payment date. Any payment in respect of the notes so made in U.S. dollars will not constitute an event of default under the notes or the indenture governing the notes. So long as the notes are in book-entry form, we will make payments of principal and interest through the London paying agent described below.

Interest payable on any interest payment date for a series of notes or the maturity date for that series of notes will be the amount of interest accrued from, and including, the next preceding interest payment date for such notes in respect of which interest has been paid or duly provided for (or from and including the original issue date, if no interest has been paid or duly provided for with respect to the notes of that series) to, but excluding, such interest payment date or maturity date, as the case may be. If any interest payment date falls on a day that is not a business day, the interest payment will be made on the next succeeding business day, and we will not be liable for any additional interest as a result of the delay in payment. If a maturity date falls on a day that is not a business day, the related payment of principal and interest will be made on the next succeeding business day, and no interest will accrue on the amounts so payable for the period from and after such date to the next succeeding business day. The term "business day" means any day, other than a Saturday or a Sunday, (1) which is not a day on which banking institutions are authorized or obligated by law or executive order to close in New York City or London and (2) on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (the TARGET2 system), or any successor thereto, is open.

Optional Redemption

At any time prior to September 6, 2028, we will have the right at our option to redeem the 2028 Notes, in whole or in part, at any time or from time to time, on at least 30 days' but not more than 60 days' prior notice mailed to the registered address of each holder of the 2028 Notes, at a redemption price, calculated by us, equal to the greater of (1) 100% of the principal amount of the 2028 Notes to be redeemed and (2) the sum of the present values of each remaining scheduled payment of principal and interest on the 2028 Notes to be redeemed (exclusive of interest accrued to the date of redemption) discounted to the redemption date on an annual basis (Actual/Actual (ICMA)) at the applicable Bond Rate plus 20 basis points.

At any time prior to February 2, 2033, we will have the right at our option to redeem the notes, in whole or in part, at any time or from time to time, on at least 30 days' but not more than 60 days' prior notice mailed to the registered address of each holder of the notes, at a redemption price equal to the greater of (1) 100% of the principal amount of the notes to be redeemed and (2) the sum of the present values of each remaining scheduled payment of principal and interest on the notes to be redeemed (exclusive of interest accrued to the date of redemption) discounted to the redemption date on an annual basis (Actual/Actual (ICMA)) at the applicable Bond Rate plus 12.5 basis points.

At any time on or after September 6, 2028, we will have the right at our option to redeem the 2028 Notes, in whole or in part, on at least 30 days' but not more than 60 days' notice, at any time at a redemption price equal to 100% of the principal amount of the 2028 Notes to be redeemed.

At any time on or after February 2, 2033, we will have the right at our option to redeem the 2033 Notes, in whole or in part, on at least 30 days' but not more than 60 days' notice, at any time at a redemption price equal to 100% of the principal amount of the notes to be redeemed.

The redemption price for the notes will include, in each case, accrued and unpaid interest on the principal amount of the notes to be redeemed to the redemption date. The redemption price paid for the notes upon any such redemption will be paid in euro.

"Bond Rate" means, with respect to any redemption date, the rate per annum equal to the annual equivalent yield to maturity or interpolated maturity (on a day count basis) of the applicable Comparable Government Issue (computed as of the third business day immediately preceding the redemption date), assuming a price for such Comparable Government Issue (expressed as a percentage of its principal amount) equal to the applicable Comparable Price for such redemption date.

“Comparable Government Issue” means the euro-denominated security issued by the German government selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the series of notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of the notes of such series.

“Comparable Price” means, with respect to any redemption date (1) the arithmetic average of the Reference Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Dealer Quotations or (2) if we obtain fewer than four such Reference Dealer Quotations, the arithmetic average of all such quotations for such redemption date.

“Independent Investment Banker” means an investment bank of international standing appointed by us.

“Reference Dealer” means a broker of, or a market maker in, the Comparable Government Issue selected by the Independent Investment Banker.

“Reference Dealer Quotation” means, with respect to each Reference Dealer and any redemption date, the arithmetic average, as determined by us, of the bid and asked prices for the applicable Comparable Government Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Dealer at 11:00 a.m. (London time) on the third business day preceding such redemption date.

On and after a redemption date, interest will cease to accrue on the notes called for redemption or any portion of any series of the notes called for redemption (unless we default in the payment of the redemption price and accrued and unpaid interest). On or before the redemption date, we will deposit with the London paying agent money sufficient to pay the redemption price of and (unless the redemption date shall be an interest payment date) accrued and unpaid interest to the redemption date on the notes to be redeemed on such date. If less than all of the notes of a series are to be redeemed, the notes of such series to be redeemed will be selected by the trustee by such method as the trustee will deem fair and appropriate; *provided, however*, that no notes of a principal amount of €100,000 or less shall be redeemed in part.

Redemption Upon Tax Event

We may redeem the notes of any series at our option in whole, but not in part, on at least 15 days' but not more than 60 days' notice, at a redemption price equal to 100% of their principal amount (plus any accrued interest and additional amounts then payable with respect to the notes of that series), if we determine that (A) as a result of any change or amendment to the laws, treaties, regulations or rulings of the United States or any political subdivision or taxing authority thereof, which change or amendment is announced and becomes effective after the date of the applicable prospectus supplement, we have become obligated to pay additional amounts as described under “-Payment of Additional Amounts” on any notes of such series or (B) after the date of the applicable prospectus supplement, any change in the official application, enforcement or interpretation of those laws, treaties, regulations or rulings, including a holding by a court of competent jurisdiction in the United States or any other action, taken by any taxing authority or a court of competent jurisdiction in the United States, whether or not such action was taken or made with respect to us, results in a material probability that we have or will become obligated to pay additional amounts as described under “-Payment of Additional Amounts” on any notes of such series; *provided* that we determine, in our business judgment, that the obligation to pay such additional amounts cannot be avoided by use of reasonable measures available to us, not including substitution of the obligor under the notes of such series. Prior to the mailing of any notice of such a redemption, we will deliver to the trustee (1) an officer's certificate stating that we are entitled to effect such a redemption and setting forth a statement of facts showing that the conditions precedent to the right of our company to so redeem have occurred and (2) an opinion of counsel to that effect based on that statement of facts.

Payment of Additional Amounts

All payments of principal and interest in respect of the notes will be made free and clear of, and without deduction or withholding for or on account of any present or future taxes, duties, assessments or other

governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by the United States or any political subdivision or taxing authority of or in the United States, unless such withholding or deduction is required by law.

We will pay to the beneficial owner of notes who is a Non-U.S. Person (as defined below) additional amounts as may be necessary so that every net payment of the principal of and premium, if any, and interest on such holder's note, after deduction or withholding for or on account of any present or future tax, assessment or other governmental charge imposed upon that beneficial owner by the United States or any taxing authority thereof or therein, will not be less than the amount provided in such holder's notes to be then due and payable. We will not be required, however, to make any payment of additional amounts for or on account of:

- (a) any tax, assessment or other governmental charge that would not have been imposed but for (1) the existence of any present or former connection (other than a connection arising solely from the ownership of those notes or the receipt of payments in respect of those notes) between that beneficial owner, or between a fiduciary, settlor, beneficiary of, member or shareholder of, or possessor of a power over, that beneficial owner, if that beneficial owner is an estate, trust, partnership or corporation, and the United States, including that beneficial owner, or that fiduciary, settlor, beneficiary, member, shareholder or possessor, being or having been a citizen or resident or treated as a resident of the United States or being or having been engaged in trade or business or present in the United States or having had a permanent establishment in the United States or (2) the presentation of a debt security for payment on a date more than 30 days after the later of the date on which that payment becomes due and payable and the date on which payment is duly provided for;
 - (b) any estate, inheritance, gift, sales, transfer, excise, personal property, wealth, interest equalization or similar tax, assessment or other governmental charge;
 - (c) any tax, assessment or other governmental charge imposed on foreign personal holding company income or by reason of that beneficial owner's past or present status as a passive foreign investment company, a controlled foreign corporation, a foreign tax exempt organization or a personal holding company with respect to the United States or as a corporation that accumulates earnings to avoid U.S. federal income tax;
 - (d) any tax, assessment or other governmental charge which is payable otherwise than by withholding from payment of principal of or premium, if any, or interest on such holder's notes;
 - (e) any tax, assessment or other governmental charge required to be withheld by any paying agent from any payment of principal of and premium, if any, or interest on any note if that payment can be made without withholding by any other paying agent;
 - (f) any tax, assessment or other governmental charge which would not have been imposed but for the failure of a beneficial owner or any holder of notes to comply with our request to comply with certification, information, documentation or other reporting requirements concerning the nationality, residence, identity or connections with the United States of the beneficial owner or any holder of the notes (including, but not limited to, the requirement to provide Internal Revenue Service Forms W-8BEN, Forms W-8ECI, or any subsequent versions thereof or successor thereto, and including, without limitation, any documentation requirement under an applicable income tax treaty);
 - (g) any tax, assessment or other governmental charge imposed on interest received by (1) a 10% shareholder (as defined in Section 871(h)(3)(B) of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), and the regulations that may be promulgated thereunder) of our company or (2) a controlled foreign corporation that is related to us within the meaning of Section 864(d)(4) of the Code, or (3) a bank receiving interest described in Section 881(c)(3)(A) of the Code;
-

- (h) any withholding or deduction that is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC relating to the taxation of savings, or any law implementing or complying with, or introduced in order to conform to, such Directive;
- (i) with respect to the 2028 Notes, any taxes payable under Sections 1471 through 1474 of the Code (or any amended or successor version of such Sections), any regulations or other guidance thereunder, or any agreement (including any intergovernmental agreement) entered into in connection therewith; or
- (j) any combination of items (a), (b), (c), (d), (e), (f), (g), (h) and (i);

nor will we pay any additional amounts to any beneficial owner or holder of notes who is a fiduciary or partnership to the extent that a beneficiary or settlor with respect to that fiduciary or a member of that partnership or a beneficial owner thereof would not have been entitled to the payment of those additional amounts had that beneficiary, settlor, member or beneficial owner been the beneficial owner of those notes.

As used in the preceding paragraph, “Non-U.S. Person” means any corporation, partnership, individual or fiduciary that is, for United States federal income tax purposes, a foreign corporation, a non-resident alien individual who has not made a valid election to be treated as a United States resident, a non-resident fiduciary of a foreign estate or trust or a foreign partnership, one or more of the members of which is, as to the United States, a foreign corporation, a non-resident alien individual or a non-resident fiduciary of a foreign estate or trust.

Book-Entry and Settlement

Each series of notes was issued in the form of one or more global securities, in definitive, fully registered form without interest coupons, each of which we refer to as a “global security.” Each such global security was deposited with The Bank of New York Mellon, as common depositary (the “Common Depositary”) and registered in the name of the Common Depositary or its nominee.

Beneficial interests in the global securities are represented, and transfers of such beneficial interest was effected, through accounts of financial institutions acting on behalf of beneficial owners as direct or indirect participants in Clearstream Banking, *société anonyme*, which we refer to as “Clearstream,” or Euroclear Bank SA/ NV, as operator of the Euroclear System, which we refer to as “Euroclear.” Investors may hold notes directly through Clearstream or Euroclear, if they are participants in such systems, or indirectly through organizations that are participants in such systems.

Beneficial interests in the global securities will be shown on, and transfers of beneficial interests in the global securities are made only through, records maintained by Clearstream or Euroclear and their participants. The London paying agent will wire payments on the notes to the Common Depositary as the holder of the global securities. The trustee, the London paying agent and we will treat the Common Depositary or any successor nominee to the Common Depositary as the owner of the global securities for all purposes. Accordingly, the trustee, the London paying agent and we will have no direct responsibility or liability to pay amounts due with respect to the global securities to you or any other beneficial owners in the global securities. Any redemption or other notices with respect to the notes will be sent by us directly to Clearstream or Euroclear, which will, in turn, inform the direct participants (or the indirect participants), which will then contact you as a beneficial holder, all in accordance with the rules of Clearstream or Euroclear, as the case may be, and the internal procedures of the direct participant (or the indirect participant) through which beneficial interest in the notes are held.

Certificated Notes

Subject to certain conditions, the notes represented by the global securities are exchangeable for certificated notes in definitive form of like tenor in minimum denominations of €100,000 principal amount and integral multiples of €1,000 in excess thereof if:

- (1) the Common Depositary notifies us that it is unwilling or unable to continue as depositary or if the Common Depositary ceases to be eligible under the indenture and we do not appoint a successor depositary within 90 days;
- (2) we determine that the notes will no longer be represented by global securities and execute and deliver to the trustee an order to that effect; or
- (3) an event of default with respect to the notes will have occurred and be continuing.

Any note that is exchangeable as above is exchangeable for certificated notes issuable in authorized denominations and registered in such names as the Common Depositary shall direct. Subject to the foregoing, a global security is not exchangeable, except for a global security of the same aggregate denomination to be registered in the name of the Common Depositary or its nominee.

Trustee, Paying Agents and Security Registrar

The Bank of New York Mellon Trust Company, N.A. is the trustee under the indenture governing the notes. The Bank of New York Mellon Trust Company, N.A. is a national banking association organized under and governed by the laws of the United States of America, and provides trust services and acts as indenture trustee for numerous corporate securities issuances, including for other series of debt securities of which we are the issuer. The Bank of New York Mellon, London Branch, is the paying agent for the notes in London.

Base Indenture Provisions:

Governing Law

The indenture and the notes are governed by, and construed in accordance with, the laws of the State of New York.

Consolidation, Merger and Sale of Assets

The indenture provides that we may consolidate with or merge with or into any other person, and may sell, transfer, or lease or convey all or substantially all of our properties and assets to another person; provided that the following conditions are satisfied:

- we are the continuing entity, or the resulting, surviving or transferee person (the "Successor") is a person organized and existing under the laws of the United States of America, any state thereof or the District of Columbia and the Successor (if not us) will expressly assume, by supplemental indenture, all of our obligations under the debt securities and the indenture and, for each security that by its terms provides for conversion, provide for the right to convert such security in accordance with its terms;
- immediately after giving effect to such transaction, no default or event of default under the indenture has occurred and is continuing; and
- if requested, the trustee receives from us, an officers' certificate and an opinion of counsel that the merger, consolidation or transfer and such supplemental indenture, as the case may be, complies with the applicable provisions of the indenture.

If we consolidate or merge with or into any other person or sell, transfer, lease or convey all or substantially all of our properties and assets in accordance with the indenture, the Successor will be substituted for us in the indenture, with the same effect as if it had been an original party to the indenture.

As a result, the Successor may exercise our rights and powers under the indenture, and we will be released from all our liabilities and obligations under the indenture and under the debt securities.

Any substitution of the Successor for us might be deemed for federal income tax purposes to be an exchange of the debt securities for "new" debt securities, resulting in recognition of gain or loss for such purposes and possibly certain other adverse tax consequences to beneficial owners of the debt securities. Holders should consult their own tax advisors regarding the tax consequences of any such substitution.

For purposes of this covenant, "person" means any individual, corporation, partnership, limited liability company, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof or any other entity.

Events of Default

Each of the following events are defined in the indenture as an "event of default" (whatever the reason for such event of default and whether or not it will be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body) with respect to the debt securities of any series:

- (1) default in the payment of any installment of interest on any debt securities of that series for 30 days after becoming due;
 - (2) default in the payment of principal of or premium, if any, on any debt securities of that series when it becomes due and payable at its stated maturity, upon optional redemption, upon declaration or otherwise;
 - (3) default in the deposit of any sinking fund payment, when and as due by the terms of any debt securities of that series;
 - (4) default in the performance, or breach, of any covenant or agreement of ours in the indenture with respect to the debt securities of that series (other than as referred to in clause (1), (2) or (3) above), which continues for a period of 90 days after written notice to us by the trustee or to us and the trustee by the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series;
 - (5) we pursuant to or within the meaning of the Bankruptcy Law:
 - commence a voluntary case or proceeding;
 - consent to the entry of an order for relief against us in an involuntary case or proceeding;
 - consent to the appointment of a Custodian of us or for all or substantially all of our property;
 - make a general assignment for the benefit of our creditors;
 - file a petition in bankruptcy or answer or consent seeking reorganization or relief;
 - consent to the filing of such petition or the appointment of or taking possession by a Custodian; or
 - take any comparable action under any foreign laws relating to insolvency;
 - (6) a court of competent jurisdiction enters an order or decree under any Bankruptcy Law that:
 - is for relief against us in an involuntary case, or adjudicates us insolvent or bankrupt;
-

- appoints a Custodian of us or for all or substantially all of our property; or
- orders the winding-up or liquidation of us (or any similar relief is granted under any foreign laws);

and the order or decree remains unstayed and in effect for 90 days; or

(7) any other event of default provided with respect to debt securities of that series occurs.

“Bankruptcy Law” means Title 11, United States Code or any similar federal or state or foreign law for the relief of debtors.

“Custodian” means any custodian, receiver, trustee, assignee, liquidator or other similar official under any Bankruptcy Law.

If an event of default with respect to debt securities of any series (other than an event of default relating to certain events of bankruptcy, insolvency, or reorganization of us) occurs and is continuing, the trustee by notice to us, or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series by notice to us and the trustee, may, and the trustee at the request of these holders will, declare the principal of and premium, if any, and accrued and unpaid interest on all the debt securities of that series to be due and payable. Upon such a declaration, such principal, premium and accrued and unpaid interest will be due and payable immediately. If an event of default relating to certain events of bankruptcy, insolvency, or reorganization of us occurs and is continuing, the principal of and premium, if any, and accrued and unpaid interest on the debt securities of that series will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holders.

The holders of not less than a majority in aggregate principal amount of the outstanding debt securities of any series may rescind a declaration of acceleration and its consequences, if we have deposited certain sums with the trustee and all events of default with respect to the debt securities of that series, other than the non-payment of the principal or interest which have become due solely by such acceleration, have been cured or waived, as provided in the indenture.

An event of default for a particular series of debt securities does not necessarily constitute an event of default for any other series of debt securities issued under the indenture.

We are required to furnish the trustee annually a statement by certain of our officers to the effect that, to the best of their knowledge, we are not in default in the fulfillment of any of our obligations under the indenture or, if there has been a default in the fulfillment of any such obligation, specifying each such default.

No holder of any debt securities of any series will have any right to institute any judicial or other proceeding with respect to the indenture, or for the appointment of a receiver or trustee, or for any other remedy unless:

- (1) an event of default has occurred and is continuing and such holder has given the trustee prior written notice of such continuing event of default with respect to the debt securities of that series;
 - (2) the holders of not less than 25% of the aggregate principal amount of the outstanding debt securities of that series have requested the trustee to institute proceedings in respect of such event of default;
 - (3) the trustee has been offered indemnity reasonably satisfactory to it against its costs, expenses and liabilities in complying with such request;
 - (4) the trustee has failed to institute proceedings 60 days after the receipt of such notice, request and offer of indemnity; and
 - (5) no direction inconsistent with such written request has been given for 60 days by the holders of a majority in aggregate principal amount of the outstanding debt securities of that series.
-

The holders of a majority in aggregate principal amount of outstanding debt securities of a series will have the right, subject to certain limitations, to direct the time, method and place of conducting any proceeding for any remedy available to the trustee with respect to the debt securities of that series or exercising any trust or power conferred to the trustee, and to waive certain defaults. The indenture provides that if an event of default occurs and is continuing, the trustee will exercise such of its rights and powers under the indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any of the holders of the debt securities of a series unless they will have offered to the trustee security or indemnity satisfactory to the trustee against the costs, expenses and liabilities which might be incurred by it in compliance with such request.

Notwithstanding the foregoing, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of and premium, if any, and interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment.

Discharge, Defeasance and Covenant Defeasance

We may discharge certain obligations to holders of the debt securities of a series that have not already been delivered to the trustee for cancellation and that either have become due and payable or will become due and payable within one year (or scheduled for redemption within one year) by depositing with the trustee, in trust, money in an amount sufficient to pay the entire indebtedness including the principal and premium, if any, and interest to the date of such deposit (if the debt securities have become due and payable) or to the maturity thereof or the redemption date of the debt securities of that series, as the case may be. We may direct the trustee to invest such funds in U.S. Treasury securities with a maturity of one year or less or in a money market fund that invests solely in short-term U.S. Treasury securities.

The indenture provides that we may elect either (1) to defease and be discharged from any and all obligations with respect to the debt securities of a series (except for, among other things, obligations to register the transfer or exchange of the debt securities, to replace temporary or mutilated, destroyed, lost or stolen debt securities, to maintain an office or agency with respect to the debt securities and to hold moneys for payment in trust) ("legal defeasance") or (2) to be released from our obligations to comply with the restrictive covenants under the indenture, and any omission to comply with such obligations will not constitute a default or an event of default with respect to the debt securities of a series and clauses (4) and (7) under "-Events of Default" will no longer be applied ("covenant defeasance"). Legal defeasance or covenant defeasance, as the case may be, will be conditioned upon, among other things, the irrevocable deposit by us with the trustee, in trust, of an amount, or U.S. government obligations, or both, applicable to the debt securities of that series which through the scheduled payment of principal and interest in accordance with their terms will provide money in an amount sufficient to pay the principal or premium, if any, and interest on the debt securities on the scheduled due dates therefor.

If we effect covenant defeasance with respect to the debt securities of any series, the amount, or U.S. government obligations, or both, on deposit with the trustee will be sufficient, in the opinion of a nationally recognized firm of independent accountants, to pay amounts due on the debt securities of that series at the time of the stated maturity but may not be sufficient to pay amounts due on the debt securities of that series at the time of the acceleration resulting from such event of default. However, we would remain liable to make payment of such amounts due at the time of acceleration.

We have elected pursuant to Section 1301 of the indenture, to have both Section 1302 (legal defeasance) and Section 1303 (covenant defeasance) of the indenture apply to the all of the notes.

With respect to the 2028 Notes, "U.S. government obligation" means (I)(x) any security which is (i) a direct obligation of the United States of America for the payment of which the full faith and credit of the United States of America is pledged or (ii) an obligation of a Person (as defined in the indenture) controlled or supervised by and acting as an agency or instrumentality of the United States of America the payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States of

America, which, in either case (I)(x)(i) or (ii), is not callable or redeemable at the option of the issuer thereof, and (y) any depositary receipt issued by a bank (as defined in Section 3(a)(2) of the Securities Act) as custodian with respect to any U.S. government obligation which is specified in clause (x) above and held by such bank for the account of the holder of such depositary receipt, or with respect to any specific payment of principal of or interest on any U.S. government obligation which is so specified and held; *provided* that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depositary receipt from any amount received by the custodian in respect of the U.S. government obligation or the specific payment of principal or interest evidenced by such depositary receipt or (II)(x) any security which is (i) a direct obligation of the German Government (as defined in the indenture) or (ii) an obligation of a Person (as defined in the indenture) controlled or supervised by and acting as an agency or instrumentality of the German Government (as defined in the indenture) the payment of which is fully and unconditionally guaranteed by the German Government (as defined in the indenture), the central bank of the German Government (as defined in the indenture) or a governmental agency of the German Government (as defined in the indenture), which, in either case (II)(x)(i) or (ii), is not callable or redeemable at the option of the issuer thereof, and (y) certificates, depositary receipts or other instruments which evidence a direct ownership interest in obligations described in clause (II)(x)(i) or (ii) above or in any specific principal or interest payments due in respect thereof.

With respect to the 2033 Notes, "U.S. government obligation" means (x) any security which is (i) a direct obligation of the United States of America for the payment of which the full faith and credit of the United States of America is pledged or (ii) an obligation of a Person (as defined in the indenture) controlled or supervised by and acting as an agency or instrumentality of the United States of America the payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States of America, which, in either case (i) or (ii), is not callable or redeemable at the option of the issuer thereof, and (y) any depositary receipt issued by a bank (as defined in Section 3(a)(2) of the Securities Act of 1933, as amended (the "Securities Act")) as custodian with respect to any U.S. government obligation which is specified in clause (x) above and held by such bank for the account of the holder of such depositary receipt, or with respect to any specific payment of principal of or interest on any U.S. government obligation which is so specified and held; *provided* that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depositary receipt from any amount received by the custodian in respect of the U.S. government obligation or the specific payment of principal or interest evidenced by such depositary receipt.

We will be required to deliver to the trustee an opinion of counsel that the deposit and related defeasance will not cause the holders and beneficial owners of the debt securities of that series to recognize income, gain or loss for federal income tax purposes. If we elect legal defeasance, that opinion of counsel must be based upon a ruling from the U.S. Internal Revenue Service or a change in law to that effect.

We may exercise our legal defeasance option notwithstanding our prior exercise of our covenant defeasance option.

**MICROSOFT CORPORATION DEFERRED COMPENSATION PLAN
(Amended and Restated Effective as of April 1, 2024)**

1. Purpose.

The purpose of the Microsoft Corporation Deferred Compensation Plan (the "Plan") is to further the long-term growth of Microsoft Corporation (the "Company") by allowing selected Company executives and other senior management or highly compensated employees to defer receipt of certain compensation in order to keep such employees' financial interests aligned with the Company and provide them with a long-term incentive to continue employment with the Company.

The Plan was formerly known as the 1998 Microsoft Corporation Stock Option Gain and Bonus Deferral Program. The name of the Plan was changed pursuant to a restatement effective January 1, 2006.

This Plan is intended (1) to comply with section 409A of the Internal Revenue Code, as amended (the "Code") and official guidance issued thereunder (except with respect to amounts covered by Appendix B), and (2) to be "a plan which is unfunded and is maintained by an employer primarily for the purpose of providing deferred compensation for a select group of management or highly compensated employees" within the meaning of sections 201(2), 301(a)(3) and 401(a)(1) of the Employee Retirement Income Security Act of 1974. Notwithstanding any other provision of this Plan, this Plan shall be interpreted, operated and administered in a manner consistent with these intentions.

2. Effective Date.

The Plan was originally effective November 18, 1998. Except as specifically set forth below, this restatement of the Plan is effective as of April 1, 2024.

3. Definitions.

Account - means a bookkeeping account established by the Company for each Participant electing to defer Eligible Income under the Plan, which may include sub-accounts for different types of Eligible Income deferred and for amounts payable at different times and/or payable in different forms.

Acquisition Retention Bonus - means a bonus provided to a Newly Hired Eligible Employee who continues employment with the Company or a Designated Subsidiary after the acquisition of a business by the Company or a Designated Subsidiary or who begins employment with the Company or a Designated Subsidiary as part of a strategic alliance.

Affiliate - means any corporation or other entity that is treated as a single employer with the Company under Code section 414.

Annual Base Salary - means the regular annual base salary paid to an Eligible Employee.

Annual Bonus - means the amount payable to an Eligible Employee as an annual bonus that is awarded in connection with the Company's annual process under the Annual Bonus Plan or the cash portion of awards under the Executive Incentive Plan.

Board - means the Board of Directors of Microsoft Corporation.

Code - means the Internal Revenue Code of 1986, as amended.

Company - means Microsoft Corporation.

Date of Hire - means the date of a Participant's first day of active employment with the Company and its Affiliates.

Designated Subsidiary - means a subsidiary of the Company that has been approved for participation in the Plan by the Senior HR Officer. A listing of the Designated Subsidiaries is in Appendix A.

Disabled - means:

(a) A Participant (1) is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or can be expected to last for a continuous period of not less than 12 months, or (2) is, by reason of any medically determinable physical or mental impairment which can be expected to result in death or can be expected to last for a continuous period of not less than 12 months, receiving income replacement benefits for a period of not less than 3 months under an accident and health plan covering employees of the participant's employer.

(b) The Plan Administrator, in its complete and sole discretion, shall determine whether a Participant is Disabled. The Plan Administrator may require that the Participant submit to an examination on an annual basis, at the expense of the Company, by a competent physician or medical clinic selected by the Plan Administrator to assist in determining whether the Participant is Disabled. On the basis of such medical evidence, the determination of the Plan Administrator as to whether or not the Participant is Disabled (or whether such Participant continues to be Disabled) shall be conclusive.

Eligible Employee - means:

(a) An Employee of the Company or a Designated Subsidiary working in the U.S. at the Company's stock level 68 or above and, effective with respect to Eligible Income earned for periods beginning on or after January 1, 2012, an Employee of the Company or a Designated Subsidiary working in the U.S. at the Company's stock level 67 or above.

(b) An Employee meeting the criteria of subsection (a) will not fail to be considered an Eligible Employee solely as a result of being on paid or unpaid leave.

Eligible Income - means compensation which may be deferred under the Plan, as from time to time determined by the Plan Administrator, including without limitation (1) Regular Enrollment Compensation and (2) New Hire Enrollment Compensation.

Amounts will qualify as "Eligible Income" only if the Participant is on the U.S. payroll of the Company or its Affiliates at the time the amount is payable to the Participant absent deferral. For

the avoidance of doubt, "Eligible Income" does not include severance pay, revenue-based incentives, commitment-based incentives, SCA bonuses, or any other pay that the Plan Administrator does not classify as Regular Enrollment Compensation or New Hire Enrollment Compensation.

Employee - means an individual who is a regular employee on the U.S. payroll of the Company or its Affiliates. The term "Employee" shall not include a person hired as an independent contractor, leased employee, consultant, or a person otherwise designated by the Company or an Affiliate as not eligible to participate in the Plan, even if such person is determined to be a common law employee of the Company or an Affiliate, retroactively or prospectively, by any governmental or judicial authority.

ERISA - means the Employee Retirement Income Security Act of 1974, as amended.

Fiscal Year Compensation - means "fiscal year compensation" as defined under Treas. Reg. § 1.409A-2(a)(6) or any successor thereto.

Hire Date - means the date an Employee becomes employed by the Company or a Designated Subsidiary. In the case of an individual who becomes an Employee upon the acquisition of a business by the Company or a Designated Subsidiary, the Employee's "Hire Date" shall be such Employee's transfer date.

Investment Options - means a set of investment options, which may include investment options offered under the 401(k) Plan, and which are from time to time determined by the Plan Administrator and used to credit earnings, gains, and losses on Account balances.

Key Employee - means an employee treated as a "specified employee" under Code section 409A(a)(2)(B)(i) as of such employee's Separation from Service (i.e., a key employee (as defined under Code section 416(i) without regard to paragraph (5) thereof) of a corporation any stock of which is publicly traded on an established securities market or otherwise). Key Employees shall be determined in accordance with Code section 409A, using a December 31 identification date. A listing of Key Employees as of an identification date shall be effective for the 12-month period beginning on the April 1 following the identification date.

New Hire Enrollment Compensation - means compensation for a Newly Hired Eligible Employee which is from time to time determined by the Plan Administrator, including without limitation a (1) Signing Bonus and (2) Acquisition Retention Bonus.

Newly Hired Eligible Employee - means an individual hired by the Company or a Designated Subsidiary who meets the criteria for an Eligible Employee on such individual's Hire Date, provided that an individual who has previously worked for the Company or an Affiliate will only qualify as a "Newly Hired Eligible Employee" if such individual meets the requirements of Treas. Reg. § 1.409A-2(a)(7) or any successor thereto. Generally, a re-hired individual will meet these requirements if (1) such individual has been paid any and all amounts due under the Plan (and any plans required to be aggregated with the Plan under Code section 409A) prior to re-hire, or (2) such individual has not been eligible to participate, other than the accrual of earnings, in the Plan (or any other plan required to be aggregated with the Plan under Code section 409A) for at least 24 months.

Open Enrollment - means the period or periods during each Plan Year when Eligible Employees may elect to defer amounts under the Plan. Open Enrollment shall be held at the time or times designated by the Plan Administrator.

Participant - means an Eligible Employee who elects to defer Eligible Income under the Plan.

Performance-Based Compensation - means "performance-based compensation" as defined under Code section 409A.

Plan - means the Microsoft Corporation Deferred Compensation Plan, as amended from time to time.

Plan Administrator - means the Senior HR Officer or, with respect to the eligibility of executive officers of the Company to participate in the Plan, the Compensation Committee of the Board.

Plan Year - means the 12-month period from January 1 to December 31.

Pre-2014 Election Amount - means an amount deferred under the Plan (and earnings thereon) pursuant to a deferral election that (1) becomes irrevocable during an Open Enrollment period occurring before July 1, 2013, or (2) is made by a Newly Hired Eligible Employee under Section 5.1(b)(ii) and becomes irrevocable on or before December 31, 2013. Thus, Annual Base Salary amounts deferred after 2013 and Annual Bonuses deferred based on elections made after 2013 will not be considered Pre-2014 Election Amounts.

Regular Enrollment Compensation - means compensation which is from time to time determined by the Plan Administrator, including without limitation (1) Annual Base Salary and (2) Annual Bonus.

Retirement - means a Separation from Service after attaining Retirement Age.

Retirement Age - means one specified date for each Participant occurring on the earlier of: (1) Participant's attainment of age sixty-five (65), or (2) the later of Participant's attainment of age fifty-five (55) or the tenth (10th) anniversary of such Participant's Date of Hire. When an Employee becomes eligible to participate in the Plan, the Plan Administrator shall determine the Retirement Age for the Employee as one specified date in accordance with the foregoing.

Senior HR Officer - means the senior officer in charge of the Human Resources department.

Separation from Service or Separates from Service - means a "separation from service" with the Company and its Affiliates within the meaning of Code section 409A.

Signing Bonus - means a bonus provided to a Newly Hired Eligible Employee upon acceptance of an offer of employment with the Company or a Designated Subsidiary, including bonuses provided to a Newly Hired Eligible Employee who accepted an offer to continue employment with the Company or a Designated Subsidiary after the acquisition of a business by the Company or a Designated Subsidiary or to begin employment with the Company or Designated Subsidiary as part of a strategic alliance.

401(k) Plan - means the Microsoft Corporation Savings Plus 401(k) Plan.

4. Participation.

4.1. An Eligible Employee becomes an active Participant in the Plan on the date the Eligible Employee first enrolls in the Plan by electing to defer all or any portion of such Eligible Employee's Eligible Income. An Eligible Employee may enroll in the Plan during Open Enrollment in accordance with Section 5.1(b)(i) or pursuant to Section 5.1(c). A Newly Hired Eligible Employee may enroll before such Newly Hired Eligible Employee's Hire Date in accordance with 5.1(b)(ii).

4.2. An Eligible Employee who has been an active Participant under the Plan will cease to be a Participant on the date such Eligible Employee's Account is fully distributed.

5. Participant Accounts.

5.1. Elections to Defer Eligible Income.

(a) Initial Deferral Election. An Eligible Employee may make an irrevocable election to defer the following types of Eligible Income in one (1) percent increments up to the specified maximum percentages:

- Salary.
- (i) An Eligible Employee may elect to defer up to 75% of such Eligible Employee's Annual Base Salary.
 - (ii) An Eligible Employee may elect to defer up to 100% of an Annual Bonus.
 - (iii) An Eligible Employee may elect to defer up to 90% of New Hire Enrollment Compensation.

Eligible Employees are not permitted to defer gains on the exercise of a stock option under the Plan after December 31, 2004.

(b) Time and Manner of Making an Initial Election.

(i) An Eligible Employee may make an election to defer one or more types of Regular Enrollment Compensation during an Open Enrollment period that occurs in the Plan Year preceding the Plan Year in which the Regular Enrollment Compensation begins to be earned. A deferral election shall be made in accordance with procedures established by the Plan Administrator. An Employee's election during such an Open Enrollment period will not be given effect if the Employee ceases to be an Eligible Employee by the last day of the month in which the Open Enrollment period occurs.

(ii) A Newly Hired Eligible Employee may make an election to defer one or more types of New Hire Enrollment Compensation in accordance with procedures established by the Plan Administrator, provided such election occurs before such Newly Hired Eligible Employee's Hire Date and such election shall only apply to amounts earned after the election is filed. A Newly Hired Eligible Employee may make an election to defer Regular Enrollment Compensation during an Open Enrollment period that follows or coincides with such Newly Hired Eligible Employee's Hire Date.

(c) Alternative Election Deadlines. Notwithstanding the rules in subsection (b), if the Plan Administrator, in its sole discretion, determines that:

(i) Eligible Income constitutes Performance-Based Compensation that is based on services performed over a performance period of at least twelve (12) months, the Plan Administrator may establish procedures, including an Open Enrollment period, under which an Eligible Employee may elect to defer such Performance-Based Compensation, but such election must be made no later than six (6) months before the end of the performance period; or

(ii) Eligible Income constitutes Fiscal Year Compensation, the Plan Administrator may establish procedures, including an Open Enrollment period, under which an Eligible Employee may elect to defer such Fiscal Year Compensation, but such election must be made no later than the last day of the Company's fiscal year immediately preceding the first fiscal year in which services are performed related to such Eligible Income.

An Employee's election under this Section will not be given effect if the Employee ceases to be an Eligible Employee by the deadline stated above for making such an election.

(d) Cancellation of Election. If a Participant becomes Disabled, receives a hardship withdrawal under the 401(k) Plan, or the Plan Administrator determines the Participant meets the requirements to obtain a distribution under Section 6.6 on account of an unforeseeable emergency (regardless of whether such distribution is actually made) during a Plan Year, such Participant's deferrals for such Plan Year shall be cancelled. For the avoidance of doubt, this Section 5.1(d) shall not affect such Participant's deferral election made during Open Enrollment in such Plan Year with respect to amounts earned or payable in a subsequent Plan Year.

5.2. Crediting of Deferrals. Eligible Income deferred by a Participant under the Plan shall be credited to the Participant's Account as soon as practicable after the amounts would have otherwise been paid to the Participant.

5.3. Vesting. A Participant shall at all times be one-hundred (100) percent vested in any amounts credited to such Participant's Account.

5.4. Investments and Earnings. The Company shall periodically credit gains, losses and earnings to a Participant's Account, until the full balance of the Account has been distributed. Amounts shall be credited to a Participant's Account under this Section based on the results that would have been achieved had amounts credited to the Account been invested as soon as practicable after crediting into the Investment Options selected by the Participant. The Plan Administrator shall specify procedures to allow Participants to make elections as to the deemed investment of amounts newly credited to such Participants' Accounts, as well as the deemed investment of amounts previously credited to such Participants' Accounts. Nothing in this Section or otherwise in the Plan, however, will require the Company to actually invest any amounts in such Investment Options or otherwise.

5.5. Employment, State and Local Taxes. The Participant's share of FICA and FUTA taxes, or any state or local taxes, owed on Eligible Income the Participant elects to defer shall be deducted from the amount deferred or from other compensation payable to the Participant, at the election of the Company in accordance with Code section 409A.

6. Distribution of Account Balances.

6.1. Distribution Form.

(a) A Participant may elect to have amounts deferred under the Plan (and earnings thereon) distributed in a lump sum payment or in annual installments over a period ranging from three (3) to fifteen (15) years.

(b) A Participant must specify the form in which a deferred amount (and earnings thereon) will be distributed at the time of making the initial deferral election under Section 5.1.

(c) Notwithstanding the distribution form elected under subsection (a), if at the time a portion of a Participant's Account is to be distributed, the portion of the balance to be distributed is less than \$50,000, that portion shall be distributed in a lump sum payment at such time, provided that this subsection (c) shall not apply to any amounts deferred under the Plan pursuant to a deferral election that becomes irrevocable on or after June 30, 2011 (and earnings thereon).

(d) Distribution of a Participant's Account balance shall be made in cash.

6.2. Distribution Time of Post-2013 Election Amounts. The rules in this Section 6.2 shall apply to amounts deferred under the Plan, excluding any portion of a Participant's Account attributable to Pre-2014 Election Amounts.

(a) A Participant may elect to have distribution of a deferred amount (and earnings thereon) commence as of the following dates:

(i) A specified time (a particular month and year); or

(ii) Upon the Participant's Separation from Service (in which case distributions will commence in the month following Separation from Service).

(b) A Participant must specify such Participant's distribution commencement election at the time of making the initial deferral election under Section 5.1.

(c) If a Participant elects to have a deferred amount distributed as of a specified time, the specified time must be at least twelve (12) months after the date on which the final payment of the deferred amount would have been made to the Participant absent deferral.

6.3. Distribution of Pre-2014 Election Amounts Upon Separation from Service. The rules in this Section 6.3 shall only apply to Pre-2014 Election Amounts.

(a) If a Participant has reached Retirement Age at the time of Separation from Service, the distribution of a Pre-2014 Election Amount will commence as follows:

(i) If the Participant elected commencement upon Retirement, the distribution will commence in the month following Retirement.

(ii) If the Participant elected commencement upon a specified time, the distribution will commence in the specified month and year.

(b) Notwithstanding a Participant's elections with respect to Pre-2014 Election Amounts, (i) if a Participant Separates from Service prior to reaching Retirement Age, the portion of such Participant's Account balance attributable to Pre-2014 Election Amounts shall be distributed in an immediate lump sum payment in the month following the Separation from Service, and (ii) if a Participant becomes Disabled prior to attaining Retirement Age while employed with the Company or an Affiliate, the portion of such Participant's Account balance attributable to Pre-2014 Election Amounts shall be distributed in an immediate lump sum payment in the month following the date the Participant becomes Disabled.

6.4. Key Employee Delay. Except as otherwise permitted under IRS guidance, if a distribution is to be made upon the Separation from Service of a Key Employee, distribution may not be made before the date which is six months after the date of the Key Employee's Separation from Service (or, if earlier, before the date of death of the Key Employee). Any payments that would otherwise be made during this period of delay shall be paid in accordance with the elected distribution method and the terms of the Plan in the seventh month following Separation from Service (or, if earlier, following the Key Employee's death in accordance with Sections 6.5(a) and (b) below).

6.5. Distributions Upon Death.

(a) Notwithstanding a Participant's elections with respect to Pre-2014 Election Amounts, if a Participant dies prior to attaining Retirement Age while employed with the Company or an Affiliate, the portion of such Participant's Account balance attributable to the Pre-2014 Election Amounts shall be distributed to the Participant's beneficiary in an immediate single lump sum payment as soon as administratively feasible following the Participant's death. For the avoidance of doubt, if a Participant attains Retirement Age while employed with the Company or an Affiliate, and dies thereafter (whether employed by the Company or an Affiliate at the time of death or not), the portion of such Participant's Account balance attributable to the Pre-2014 Election Amounts shall be distributed to the Participant's beneficiary in the time and form of payment elected by the Participant under Section 6.1 and 6.3.

(b) Notwithstanding a Participant's elections under Sections 6.1 and 6.2, if a Participant dies, such Participant's Account balance, excluding any portion attributable to Pre-2014 Election Amounts, shall be distributed to the Participant's beneficiary in a single lump sum payment as soon as administratively feasible following the Participant's death.

(c) A Participant shall designate a beneficiary prior to death in accordance with procedures established by the Plan Administrator. If a Participant has not properly designated a beneficiary or if no designated beneficiary is living on the date of distribution, the Participant's Account shall be distributed to the Participant's beneficiary designated under the 401(k) Plan, or if no designated beneficiary under the 401(k) Plan is living, in accordance with the default provisions under the 401(k) Plan.

(d) For purposes of determining the proper death beneficiary under this Plan, this Plan shall not be interpreted as preempting applicable state law regarding the ownership rights of Accounts upon a Participant's death. For example, although this Plan states that upon a Participant's death, Account balances will be paid to such Participant's beneficiary, the personal representative may be obligated to pay any benefits owed to a spouse or otherwise as a result of any applicable community property laws.

6.6. Withdrawals for Unforeseeable Emergency. A Participant may withdraw all or any portion of such Participant's Account balance for an Unforeseeable Emergency. The amounts

distributed with respect to an Unforeseeable Emergency may not exceed the amounts necessary to satisfy such Unforeseeable Emergency plus amounts necessary to pay taxes reasonably anticipated as a result of the distribution, after taking into account the extent to which such hardship is or may be relieved through reimbursement or compensation by insurance or otherwise or by liquidation of the Participant's assets (to the extent the liquidation of such assets would not itself cause severe financial hardship) or by cessation of deferrals under the Plan. "Unforeseeable Emergency" means for this purpose a severe financial hardship to a Participant resulting from an illness or accident of the Participant, the Participant's spouse, or a dependent of the Participant, loss of the Participant's property due to casualty, or other similar extraordinary and unforeseeable circumstances arising as a result of events beyond the control of the Participant.

Unless otherwise required by IRS guidance, a Participant shall not be required to take any available hardship withdrawals from the 401(k) Plan before being eligible to receive a withdrawal under this section.

6.7. Changes in Time or Form of Distribution. To the extent permitted in accordance with procedures established by the Plan Administrator, including (without limitation) restrictions with respect to the frequency with which participants can make such elections, a Participant may make one or more subsequent elections to change the time or form of a distribution to be made as of a specified time or upon the occurrence of a distributable event for a deferred amount, but such an election will be effective only if the following conditions are satisfied:

(a) The election may not take effect until at least twelve (12) months after the date on which the election is made;

(b) A distribution may not be made earlier than at least five (5) years from the date the distribution would have otherwise been made;

(c) In the case of an election to change the time or form of a distribution payable as of a specified time, the election must be made at least twelve (12) months before the date of the first scheduled distribution; and

(d) The election may not result in an impermissible acceleration of payment prohibited under Code section 409A.

6.8. Effect of Taxation. If a portion of the Participant's Account balance is includible in income under Code section 409A, such portion shall be distributed immediately to the Participant.

6.9. Payment of Taxes. If state, local, or foreign tax obligations arise from participation in the Plan that apply to an amount deferred under the Plan before such amount is paid or made available to the Participant (the "Taxes"), the Company shall pay a portion of such deferred amount by distribution (a) to the Participant in the form of withholding pursuant to provisions of applicable state, local, or foreign law; or (b) directly to the Participant. In no event shall the total payment under this Section 6.9 exceed the aggregate amount of the Taxes, and the income tax withholding related to such Taxes.

6.10. Settlement of Bona Fide Dispute. Subject to certain presumptions under Code section 409A, if an arm's length, bona fide dispute between a Participant and the Company arises as to the Participant's right to an amount deferred under the Plan, the payment of the deferred amount as part of a settlement of such dispute shall be distributed immediately to the Participant.

6.11. Offset for Obligations to Company. If the Participant has any debt, obligation or other liability representing an amount owing to the Company (the "Debt"), incurred in the ordinary course of such Participant's employment relationship, the Company shall offset the Debt against the Participant's Account balance. The Company shall reduce the Participant's Account balance in satisfaction of the Debt at the same time and in the same amount as the Debt otherwise would have been due and collected from the Participant; provided however, in no event shall the amount of such offset in any of the Company's taxable years exceed \$5,000.

6.12. 2005 Deferred Compensation. Except as provided in Appendix C, Sections 6.1 - 6.11 shall govern the distribution of compensation earned and deferred under the Plan during the 2005 Plan Year.

6.13. Pre-2005 Deferrals. Notwithstanding the foregoing, Appendix B governs the distribution of amounts that were earned and vested (within the meaning of Code section 409A and regulations thereunder) under the Plan prior to 2005 (and earnings thereon) and are exempt from the requirements of Code section 409A.

7. Administration.

7.1. General Administration. The Plan Administrator shall be responsible for the operation and administration of the Plan and for carrying out the provisions hereof. The Plan Administrator shall have the full authority and discretion to make, amend, interpret, and enforce all appropriate rules and regulations for the administration of this Plan and decide or resolve any and all questions, including interpretations of this Plan, as may arise in connection with this Plan. Except as otherwise provided in Section 7.2, any such action taken by the Plan Administrator shall be final and conclusive on any party. To the extent the Plan Administrator has been granted discretionary authority under the Plan, the Plan Administrator's prior exercise of such authority shall not obligate it to exercise its authority in a like fashion thereafter. The Plan Administrator shall be entitled to rely conclusively upon all tables, valuations, certificates, opinions and reports furnished by any actuary, accountant, controller, counsel or other person employed or engaged by the Company with respect to the Plan. The Plan Administrator may, from time to time, employ agents and delegate to such agents, including other employees of the Company, such administrative duties as it sees fit.

7.2. Claims for Benefits.

(a) Filing a Claim. A Participant or the Participant's authorized representative may file a claim for benefits under the Plan. Any claim must be in writing and submitted to the Senior HR Officer at such address as may be specified from time to time. Claimants will be notified in writing of approved claims. A claim is considered approved only if its approval is communicated in writing to a claimant.

(b) Denial of Claim. If a Participant's claim is denied, in whole or in part, a written notice will be furnished to the claimant within 90 days of the date on which the claim is received by the Senior HR Officer. If special circumstances (such as for a hearing) require a longer period, the claimant will be notified in writing, prior to the expiration of the 90-day period, of the reasons for an extension of time; provided, however, that no extensions will be permitted beyond 90 days after the expiration of the initial 90-day period.

(c) Reasons for Denial. A denial or partial denial of a claim will be dated and signed by the Senior HR Officer and will clearly set forth:

- (i) the specific reason or reasons for the denial;

(ii) specific reference to pertinent Plan provisions on which the denial is based;

(iii) a description of any additional material or information necessary for the claimant to perfect the claim and an explanation of why such material or information is necessary; and

(iv) an explanation of the procedure for review of the denied or partially denied claim set forth below, including the claimant's right to bring a civil action under ERISA section 502(a) following an adverse benefit determination on review.

(d) Review of Denial. Upon denial of a claim, in whole or in part, a claimant or such claimant's duly authorized representative will have the right to submit a written request to the Senior HR Officer for a full and fair review of the denied claim by filing a written notice of appeal with the Senior HR Officer within 60 days of the receipt by the claimant of written notice of the denial of the claim. A claimant or the claimant's authorized representative will have, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits and may submit issues and comments in writing. The review will take into account all comments, documents, records, and other information submitted by the claimant relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination.

If the claimant fails to file a request for review within 60 days of the claim denial notification, the claim will be deemed abandoned and the claimant precluded from reasserting it. If the claimant does file a request for review, the claimant's request must include a description of the issues and evidence the claimant deems relevant. Failure to raise issues or present evidence on review will preclude those issues or evidence from being presented in any subsequent proceeding or judicial review of the claim.

(e) Decision Upon Review. The Senior HR Officer will provide a prompt written decision on review. If the claim is denied on review, the decision shall set forth:

(i) the specific reason or reasons for the adverse determination;

(ii) specific reference to pertinent Plan provisions on which the adverse determination is based;

(iii) a statement that the claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits; and

(iv) a statement describing any voluntary appeal procedures offered by the Plan and the claimant's right to obtain the information about such procedures, as well as a statement of the claimant's right to bring an action under ERISA section 502(a).

A decision will be rendered no more than 60 days after the Senior HR Officer's receipt of the request for review, except that such period may be extended for an additional 60 days if the Senior HR Officer determines that special circumstances (such as the need for a hearing) require such extension. If an extension of time is required, written notice of the extension will be furnished to the claimant before the end of the initial 60-day period.

(f) Finality of Determinations; Exhaustion of Remedies. To the extent permitted by law, decisions reached under the claims procedures set forth in this Section shall be final and binding on all parties. No legal action for benefits under the Plan shall be brought unless and until the claimant has exhausted such claimant's remedies under this Section. In any such legal action, the claimant may only present evidence and theories which the claimant presented during the internal claims and appeals procedure. Any claims which the claimant does not in good faith pursue through the review stage of the procedure shall be treated as having been irrevocably waived. Judicial review of a claimant's denied claim shall be limited to a determination of whether the denial was an abuse of discretion based on the evidence and theories the claimant presented during the internal claims and appeals procedure. Any suit or legal action initiated by a claimant under the Plan must be brought by the claimant no later than one year following a final decision on appeal by the Senior HR Officer. The one-year limitation on suits for benefits will apply in any forum where a claimant initiates such suit or legal action.

(g) Disability Claims. Claims for disability benefits shall be determined under the DOL Regulation section 2560.503-1 which is hereby incorporated by reference.

8. Amendment and Termination.

8.1. Amendment or Termination. The Company reserves the right to amend or terminate the Plan when, in the sole discretion of the Company, such amendment or termination is advisable, pursuant to a resolution or other action taken by the Plan Administrator.

Notwithstanding the foregoing, no amendment of the Plan shall apply to amounts that were earned and vested (within the meaning of Code section 409A and regulations thereunder) under the Plan prior to 2005, unless the amendment specifically provides that it applies to such amounts. The purpose of this restriction is to prevent a Plan amendment from resulting in an inadvertent "material modification" to amounts that are "grandfathered" and exempt from the requirements of Code section 409A.

8.2. Effect of Amendment or Termination. No amendment or termination of the Plan shall decrease the amounts credited to a Participant's Account as of such amendment or termination. Upon termination of the Plan, Participants' Account balances shall be distributed in accordance with the terms of Section 6, unless the Company determines in its sole discretion that all such amounts shall be distributed upon termination in accordance with the requirements under Code section 409A.

9. General Provisions.

9.1. Rights Unsecured. The right of a Participant or the Participant's beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Participant nor the Participant's beneficiary shall have any rights in or against any amount credited to any Account or any other assets of the Company. The Plan at all times shall be considered entirely unfunded for tax purposes. Any funds set aside by the Company for the purpose of meeting its obligations under the Plan, including any amounts held by a trustee, shall continue for all purposes to be part of the general assets of the Company and shall be available to its general creditors in the event of the Company's bankruptcy or insolvency. The Company's obligation under this Plan shall be that of an unfunded and unsecured promise to pay money in the future.

9.2. No Right to Eligible Income. Nothing in this Plan shall be construed to give any Eligible Employee any right to be granted Eligible Income or any other type of compensation.

9.3. No Enlargement of Rights. No Participant or beneficiary shall have any right to receive a distribution under the Plan except in accordance with the terms of the Plan. Establishment of the Plan shall not be construed to give any Participant the right to continue to be employed by or provide services to the Company or its affiliates or to employment that is not terminable at will.

9.4. No Guarantee of Benefits. Nothing contained in the Plan shall constitute a guarantee by the Company or any other person or entity that the assets of the Company will be sufficient to pay any benefits hereunder.

9.5. Nonalienation of Benefits. This Plan inures to the benefit of and is binding upon the parties hereto and their successors, heirs and assigns; provided, however, that the amounts credited to a Participant's Account are not, except as provided in Sections 9.6 and 6.11, subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution or levy of any kind, either voluntary or involuntary, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge or otherwise dispose of any right to any benefits payable hereunder, will be null and void and not binding on the Plan or the Company.

9.6. Taxes. In addition to its rights under Section 5.5, the Company or other payor may withhold from a benefit payment under the Plan or a Participant's wages any federal, state, or local taxes required by law to be withheld with respect to a payment or accrual under the Plan, and shall report such payments and other Plan-related information to the appropriate governmental agencies as required under applicable law.

9.7. Participant's Cooperation. The Participant shall cooperate with the Company by furnishing any and all information requested by the Plan Administrator in order to facilitate the payment of benefits hereunder, taking such physical examinations as the Plan Administrator may deem necessary and taking such other actions as may be requested by the Plan Administrator. If the Participant refuses to cooperate, the Company shall have no further obligation to the Participant under the Plan.

9.8. Incapacity of Recipient. If any person entitled to a distribution under the Plan is deemed in the Plan Administrator's sole discretion to be incapacitated or otherwise incapable of personally receiving such payment, then, unless and until a claim for such payment is made by a duly appointed guardian or other legal representative of such person, the Plan Administrator may provide for such payment or any part thereof to be made to any other person or institution then contributing toward or providing for the care and maintenance of such person. Any such payment shall be a payment for the account of such person and a complete discharge of any liability of the Company and the Plan with respect to the payment.

9.9. Legally Binding. In the event of any consolidation, merger, acquisition or reorganization, the obligations of the Company under this Plan shall continue and be binding on the Company and its successors or assigns. The rights, privileges, benefits and obligations under the Plan are intended to be legal obligations of the Company and binding upon the Company, its successors and assigns.

9.10. Unclaimed Benefits. Each Participant shall keep the Plan Administrator informed of the Participant's current address and the current address of the Participant's designated beneficiary. The Plan Administrator shall not be obligated to search for the whereabouts of any person if the location of a person is not made known to the Plan Administrator.

9.11. Severability. In the event any provision of the Plan shall be held invalid or illegal for any reason, any illegality or invalidity shall not affect the remaining parts of the Plan, but the Plan shall be construed and enforced as if the illegal or invalid provision had never been inserted.

9.12. Words and Headings. Words in any gender shall include all genders and the singular shall include the plural, and vice versa, unless qualified by the context. Any headings used herein are included for ease of reference only, and are not to be construed so as to alter the terms hereof.

9.13. Applicable law and Venue. To the extent not preempted by federal law, the Plan shall be governed by the laws of the State of Washington. In the event the Company or any Participant (or beneficiary) initiates litigation related to this Plan, the venue for such action will be in King County, Washington.

9.14. Waiver of Breach. The waiver by the Company of any breach of any provision of the Plan by the Participant shall not operate or be construed as a waiver of any subsequent breach by the Participant.

9.15. Notice. Any notice or filing required or permitted to be given to the Plan Administrator under the Plan shall be sufficient if in writing and hand-delivered, or sent by first class mail to the principal office of the Company, directed to the attention of the Plan Administrator. Such notice shall be deemed given as of the date of delivery, or, if delivery is made by mail, as of the date shown on the postmark.

9.16. Attorneys' Fees and Costs. In the event that a dispute regarding benefits arises between the Company or Plan Administrator and a Participant (or beneficiary) and such dispute is resolved through arbitration or litigation in court, the prevailing party(ies) shall be entitled to their reasonable attorneys' fees and costs incurred in such action.

The Company has caused this restated Plan to be duly adopted and executed on _____.

APPENDIX A

DESIGNATED SUBSIDIARIES

(As of April 1, 2024)

1654: MOL Corporation
1693: Vexcel Corporation
1548: Microsoft Online, Inc.

APPENDIX B

GRANDFATHERED AMOUNTS

Distribution of amounts that were earned and vested (within the meaning of Code section 409A and regulations thereunder) under the Plan prior to 2005 (and earnings thereon) and are exempt from the requirements of Code section 409A shall be made in accordance with the Plan terms as in effect on December 31, 2004 and as summarized in this Appendix B.

B.1 Timing. As soon as practicable following the final day of the Deferral Period for a specific deferral, the Company will distribute to the Participant (or in the case of the Participant's death, the Participant's estate), all proceeds in the Participant's Deferred Bonus Account and will issue to the Participant (or in the event of the Participant's death, the personal representative or beneficiaries of the Participant's estate) shares of Stock credited to the Participant's Deferred Stock Option Gain Account, that are attributed to that deferral. With respect to a specific deferral, the final day of the Deferral Period shall be the earliest of the last day of the Deferral Period selected by the Participant or the date such Participant has a Termination of Employment. Upon Termination of Employment, a Participant will have the same rights with respect to an unexercised Option that such Participant would have if the Participant had not elected to defer the Stock Option Gain relating to that Option. The portion of a Participant's Accounts that can be attributed to a specific deferral shall be determined in the sole discretion of the Plan Administrator.

B.2 Extension of Deferral Period. On a one time basis with respect to each deferral, a Participant may elect in accordance with procedures established by the Plan Administrator to extend the Deferral Period for a Bonus or Stock Option Gain for an additional five (5), seven (7), or ten (10) years, provided that such extension is elected in the calendar year prior, and at least six (6) months prior, to the expiration of the initial Deferral Period and the Participant is an Eligible Executive at the time such Participant makes the election to extend the Deferral Period.

B.3 Disability. In the event of a Participant's Disability and upon application by such Participant, the Plan Administrator may determine that payment of all, or part, of such Participant's Accounts shall be made in a different manner, or on an earlier date than the time or times specified in Section 8.1 above, but only to the extent determined by the Plan Administrator to be reasonably required to satisfy the Participant's need.

B.4 Investment of Accounts. Notwithstanding Section 5.4, a Participant shall not have the right to select among Investment Options for amounts credited to the Participant's Deferred Stock Option Gain Account. Such amounts shall be treated as if invested in Stock at all times.

B.5 Definitions. For purposes of this Appendix B, the following terms shall have the meanings indicated below:

Bonus means the amount payable by the Company to an Eligible Employee as an individual performance bonus, executive bonus or any other bonus/incentive award that is approved by the Plan Administrator for deferral under the Plan.

Deferral Period means with respect to a specific deferral of a Bonus or Stock Option Gain, the period of five (5), seven (7), or ten (10) years from the date on which the corresponding Bonus would otherwise have been paid or the date the Option was scheduled to expire had it not been exercised; provided that, in the event of the Participant's Termination of Employment, the Deferral Period shall end on the date of Termination of Employment.

Deferred Bonus Account means a bookkeeping account established for Bonuses deferred under the Plan.

Deferred Stock Option Gain Account means a bookkeeping account established for Stock Option Gains deferred under the Plan.

Disability means any long-term disability as defined under the Company's long-term disability plan. The Plan Administrator, in its complete and sole discretion, shall determine a Participant's Disability. The Plan Administrator may require that the Participant submit to an examination on an annual basis, at the expense of the Company, by a competent physician or medical clinic selected by the Plan Administrator to assist in the determination of Disability. On the basis of such medical evidence, the determination of the Plan Administrator as to whether or not a condition of Disability exists or continues shall be conclusive.

Eligible Executive means a full-time employee of the Company who is (i) an elected officer of the Company, (ii) at the level of Vice President or above, (iii) at Level 16 or above on the Company's salary range, and (iv) working within the United States of America. In addition, the Plan Administrator may, in the Plan Administrator's discretion, extend coverage to persons who are selected by the Plan Administrator and who either (y) meet all of the foregoing requirements except that such person works outside of the United States of America, or (z) is an officer of a subsidiary of the Company.

Mature Shares means shares of the Company's Stock delivered by a Participant in payment of the exercise price of an Option; provided that Mature Shares shall not include any shares of the Company's Stock that may be received upon exercise of such Option, nor Stock that the Participant purchased pursuant to a prior stock option exercise which occurred less than six months prior to the exercise of such Option.

Option shall mean one or more non-qualified stock options, issued to a Participant under any stock option plan of the Company, with respect to which the Participant has elected to defer the Stock Option Gain. Option shall not include any rights under the Company's Employee Stock Purchase Plan.

Stock means Microsoft Corporation common stock.

Stock Option Gain means the number of shares underlying an Option minus the number of Mature Shares required to pay the exercise price for those shares. For example, if a Participant elects to defer the gain on 100 shares and is required to deliver 10 shares of Stock as payment for the exercise price on the 100 shares, the Stock Option Gain will be 90 shares.

Termination of Employment means the termination of the Participant's employment relationship with the Company for any reason including, without limitation, involuntary termination with or without cause, voluntary termination, disability, death, or retirement.

APPENDIX C

2005 DEFERRED COMPENSATION

This Appendix C sets forth the special rules applicable to compensation eligible for deferral under the Plan from January 1, 2005 through December 31, 2005. Unless otherwise defined herein, capitalized terms used but not otherwise defined herein shall have the meanings given to them in the Plan and Appendix B.

C-1. 2005 Initial Deferral Elections. Notwithstanding anything in Section 5.1 of the Plan to the contrary and only with respect to compensation earned during the 2005 Plan Year ("2005 Income"), an Eligible Employee may make an irrevocable election to defer up to 100% of a Bonus in ten (10) percent increments. Eligible Employees are not permitted to defer gains on the exercise of a stock option under the Plan after December 31, 2004.

C-2. Time of Distribution. The Company will distribute to the Participant (or in the case of the Participant's death, the Participant's estate) all proceeds in the Participant's Deferred Bonus Account that are attributed to a specific deferral upon the earlier of: (1) the last day of the Deferral Period elected by the Participant; or (2) the date of the Participant's Separation from Service; provided that, if a distribution is to be made upon the Separation from Service of a Key Employee, such distribution is subject to the six month delay set forth in Section 6.4 of the Plan.

For purposes of this Appendix C, "Deferral Period" means with respect to a specific deferral of a Bonus, the period, as elected by the Participant at the time of the deferral election, of five (5), seven (7), or ten (10) years from the date on which the corresponding Bonus would otherwise have been paid.

C-3. Changes in Time or Form of Distribution. To the extent the Company allows a Participant to make a subsequent election to change the time or form of distribution of 2005 Income deferred under the Plan, such election will be effective only if the conditions set forth in Section 6.7 of the Plan are satisfied.

C-4. General Application of the Plan. Other than as set forth above, the terms of the Plan in all other respects and in compliance with Code section 409A shall govern the distribution of 2005 Income deferred under the Plan from January 1, 2005 through December 31, 2005.

General Insider Trading Policy

1. PURPOSE

To prevent the misuse of material, nonpublic information about Microsoft or other publicly traded companies obtained by virtue of your position at Microsoft.

2. SUMMARY

This policy and Federal and State securities laws prohibit a person from trading in securities of a company when that person has material, nonpublic information relating to that company.

As an employee of Microsoft, you may have access to financial, business, or other information about Microsoft, or other companies, that is both material and not available to the public. If you are in possession of material, nonpublic information about any company, including Microsoft, the securities laws and Microsoft prohibit you from trading in (or gifting) the securities of that company, and you may not disclose the information to anyone else, except as specifically authorized in the performance of your job responsibilities.

This policy also applies to:

- immediate family members who live with you or use your address as their regular address (e.g., spouse, domestic partner, minor children, college students, parents, grandparents, grandchildren, siblings and in-laws);
- trusts, if you are: (1) a trustee who has or shares investment control of the trust securities and you or a member of your immediate family (whether or not they live with you) has an economic interest in the trust securities; (2) a beneficiary who has or shares investment control; or (3) a person who has the power to revoke the trust; and
- partnerships or other entities over which you have a controlling influence.

You are responsible for assuring that individuals or entities listed above comply with this policy.

3. REQUIREMENTS

A. Do Not Trade While in Possession of Material, Nonpublic Information

As an employee of Microsoft, you may have access to financial, business and other information about Microsoft or other companies. When you possess information about Microsoft that is both material and nonpublic, the securities laws and Microsoft prohibit you from buying or selling (or gifting) Microsoft securities.

Similarly, when you possess material, nonpublic information about any publicly traded company that you acquired through your role at Microsoft, including but not limited to a customer or partner of Microsoft or an economically-linked company such as a competitor of Microsoft, the securities laws and Microsoft prohibit you from buying or selling securities in that company.

- Information is 'material' if there is a substantial likelihood that a reasonable investor would consider it important in deciding whether to buy or sell that company's securities.
- Information is 'nonpublic' if it has not been broadly communicated to the marketplace in a manner making it generally available to the investing public. Rumors, even if true and widely reported in the media, do not constitute public disclosure unless publicly confirmed by the company to which it relates.

Common examples of material information may include:

- Financial results
- Internal projections that significantly differ from external expectations
- Significant proposed or pending acquisitions, dispositions, mergers or joint ventures
- Changes in key executives
- Significant plans, developments or problems related to important products and services
- Changes in the terms of a significant contract with a major customer or partner, or the acquisition or loss of such a contract
- Cybersecurity risks and incidents (including vulnerabilities and breaches)
- Significant litigation or regulatory actions
- Other notable transactions, events or developments outside the ordinary course of business

Material information can be good news or bad news, and can relate to any aspect of a company's business. Either way, the law prohibits making profits and avoiding losses by using material, nonpublic information. It makes no difference whether you receive the information during the course of your job responsibilities or overhear it in the hallway or lunchroom, or anywhere at or away from your normal workplace.

B. Do Not Disclose Material, Nonpublic Information to Others

Do not disclose material, nonpublic information about Microsoft, or another publicly traded company, to anyone else. This is considered illegal 'tipping' and you could be held criminally liable under federal law even if you yourself did not make a trade.

Do not recommend or suggest that anyone else trade the securities of any company, including Microsoft, even if you do not disclose the material, nonpublic information.

C. Limited Exceptions to These Restrictions

There are a few situations where transactions in securities are not prohibited even if you have material, nonpublic information.

- Purchases of Microsoft stock through an existing purchase election under the Employee Stock Purchase Plan (ESPP). However, you may sell your ESPP shares only at a time when you do not have material, nonpublic information.

- Acquiring Microsoft stock through the vesting of employee Stock Awards. You may sell your Stock Award shares only at a time when you do not have material, nonpublic information.
- Exercising options, if you pay the exercise price and withholding taxes in cash. Again, you may sell your shares only at a time when you do not have material, nonpublic information.
- Trades made pursuant to a predetermined, written Rule 10b5-1 Trading Plan. For information on Trading Plans and the specific policies and procedures associated with them, please visit the Rule 10b5-1 Trading plans page.

D. Restrictions on Microsoft Officers and Other Designated Employees

Microsoft has a policy requiring certain officers of the company (corporate vice presidents and above) and other designated employees to only transact in Microsoft securities during specific times throughout the year, commonly referred to as 'trading windows'. Those officers and employees will be notified if they are subject to the Restricted Trading Window Policy.

E. Ask Questions

If you have any questions about this policy or how it applies under certain circumstances, please visit the Insider trading compliance site or contact (**)*@microsoft.com.

4. PROCEDURE

Any person who knows of, or believes there is, a violation of this policy must report the violation immediately to (**)*@microsoft.com.

5. EXCEPTIONS

There are no exceptions to this policy.

6. ENFORCEMENT

Violation of this policy may result in disciplinary action, up to and including immediate termination of employment. Employees who engage in insider trading or tipping may also be subject to civil and criminal fines, as well as imprisonment.

7. APPLICATION

This policy applies to all employees.

8. COUNTRY OR BUSINESS UNIT SUPPLEMENT

9. RELATED DOCUMENTS

Restricted Trading Window Policy

10. TRANSLATIONS

11. DOCUMENT HISTORY

Restricted Trading Window Policy

1. PURPOSE

This policy describes the restrictions on trading Microsoft securities that apply to Microsoft officers and other designated persons due to their regular access to material, nonpublic information about Microsoft.

Members of the Senior Leadership Team (“SLT”) who are direct reports to the CEO (“SLT CEO Direct Reports”) are subject to an additional notification requirement described below.

2. SUMMARY

Microsoft's officers and other designated employees are subject to additional trading restrictions for Microsoft securities to those set forth in the General Insider Trading Policy. In general, if you fall in this group you may only trade (or gift) Microsoft securities during an open window period when your trading status is designated as Trading Allowed in the Insider Trading Compliance Tool.

3. REQUIREMENTS

A. Application of the Policy

This policy applies to all transactions in Microsoft securities by Microsoft's officers and other employees with regular access to material, nonpublic information (collectively 'Insiders'). In general, you will know you are an Insider and subject to this policy because you will be notified. The requirements in this policy are in addition to the General Insider Trading Policy, which applies to all employees.

This policy applies to transactions involving Microsoft securities that are beneficially owned by Insiders. 'Beneficial ownership' is based on the Insider's direct or economic interest in the securities. Some common examples of relationships that may give rise to beneficial ownership include, but are not limited to:

- Microsoft shares owned by immediate family members who live with you or use your address as their regular address (e.g., spouse, domestic partner, minor children, college students, parents, grandparents, grandchildren, siblings and in-laws).
- Microsoft shares held in a trust, if the Insider is: (1) a trustee who has or shares investment control of the trust securities and the Insider or a member of his or her immediate family (whether or not they live with you) has an economic interest in the trust securities; (2) a beneficiary who has or shares investment control; or (3) a person who has the power to revoke the trust.

- Microsoft shares held in the name of a partnership or other entity over which the Insider has a controlling influence.

Insiders are responsible for assuring that individuals or entities who may have an interest in securities that are beneficially owned by the Insider ('Covered Persons') comply with this policy. Accordingly, any reference below to 'Insiders' should be read to include 'Covered Persons.'

B. Open Trading Window

If you are an Insider, you may only trade (or gift) Microsoft securities during an Open Window Period and when your status is Trading Allowed in the Insider Trading Compliance Tool. However, even during an Open Window Period, you may not trade Microsoft securities if you possess material, nonpublic information about Microsoft. For more information about material, nonpublic information, see the General Insider Trading Policy.

An Open Window Period means a defined period of time following Microsoft's quarterly earnings release when the public has been apprised of all relevant material information about Microsoft's recent business and financial performance.

- Open Window Periods typically begin with the opening of trading on the second full trading day following Microsoft's public release of quarterly earnings, and end at the close of trading 15 business days before the end of the fiscal quarter in which the earnings were released.
- For example, if Microsoft made an earnings announcement on a Thursday, the Open Window Period would open the following Monday, and would end at the close of the trading 15 business days before the end of that fiscal quarter.
- After you become subject to this Restricted Trading Window Policy, and as long as you have an active restriction reason, you will receive three emails each quarter from the insider trading compliance tool. (1) You will receive an email on the first business day after the public release of quarterly earnings to confirm the date the trading window will open and that your trading status will be Trading Allowed. (2) You will receive an email 14 calendar days before the trading window closes to let you know the date when your trading status will change to No Trading Allowed. (3) You will receive an email on the date the window closes to confirm that your trading status is No Trading Allowed.
- Occasionally, a quarterly window may be delayed, closed early, or skipped. You will be notified if this happens.
- Microsoft may also institute additional 'blackout periods' during which no trades may be made, at which time you should receive notification of such restriction.

Do not make a trade in Microsoft securities until you receive notice that the Open Window Period has begun and you have confirmed that your status in the Insider Trading Compliance Tool is Trading Allowed.

You may not disclose to any outside third party, including brokers or financial advisers, the terms of Microsoft's Open Window Period, the date on which an Open Window Period has begun or ended, or that a blackout period has been designated. You may disclose your status in the Insider Trading Compliance Tool as Trading Allowed or No Trading Allowed.

If your employment with Microsoft ends during a blackout period, you will be subject to the remainder of that blackout period. If your employment with Microsoft ends during an Open Window Period, you will not be subject to the next blackout period. However, even if you are not subject to our blackout period after you leave Microsoft, you should not trade in Microsoft securities if you are aware of material, nonpublic information. That restriction stays with you as long as the information you possess is material and not publicly disseminated within the meaning of the General Insider Trading Policy.

C. Application of Trading Restrictions to Particular Situations

1. Stock Awards

Transactions involving Microsoft stock received by an Insider pursuant to a Stock Award may be made only during an Open Window Period and your status in the Insider Trading Compliance Tool is Trading Allowed.

2. Gifts

Gifts of Microsoft stock may be made only during an Open Window Period and your status in the Insider Trading Compliance Tool is Trading Allowed.

3. Employee Stock Purchase Plan

You may purchase Microsoft stock under Microsoft's Employee Stock Purchase Plan ('**ESPP**') at any time. However, you may only sell Microsoft stock purchased pursuant to the ESPP during an Open Window Period and your status in the Insider Trading Compliance Tool is Trading Allowed.

4. Stock Options

You may exercise stock options outside an Open Window Period only if you pay the exercise price and withholding taxes in cash, and then hold the shares (known as an 'exercise and hold'). Any sale of stock as part of a broker-assisted cashless exercise of an option, any other market sale for the purpose of generating the cash needed to pay the exercise price of an option, or any delivery of shares to pay the exercise price (if permissible under the applicable stock plan) may only be done during an Open Window Period.

5. Transactions Pursuant to Rule 10b5-1 Plans

Sales of Microsoft stock outside of the Open Window Period or during a blackout period can only be made pursuant to an approved written trading plan (known as a '10b5-1 Plan') that you entered into at a time that sales could be made in accordance with the restrictions set forth in Section B above. To learn more, please visit the [Rule 10b5-1 Trading plans page](#).

D. Senior Leadership Team Advance Notification Requirement

In addition to the requirements above, SLT CEO Direct Reports are also required to notify CELA in advance of transactions in Microsoft securities, including, but not limited to, option exercises, gifts, purchases, sales, and pledges of Microsoft stock or debt. It does not apply to purchases made pursuant to the ESPP or sales made pursuant to a 10b5-1 Plan, but does apply to the other scenarios described in Section C above.

The notification must include a brief description of the nature of the transaction (e.g., exercise of stock option, purchase, sale, gift, pledge of stock for loan, etc.), the type of Microsoft securities involved, and the proposed date on which the Insider will enter into the transaction. Notifications should be given by sending email to (**)*@microsoft.com, or by phoning any of the following individuals (“Contacts”):

(**)

Advance notification can be provided by the Insider or his or her broker.

As soon as possible following notification, one of the Contacts will review the transaction and advise the Insider whether he or she may proceed with the transaction. During this process, the Insider or his or her broker will be asked to answer some preclearance questions from a Preclearance Checklist. A copy of the Preclearance Checklist may be requested from (**)*@microsoft.com. If advance notification of a transaction is provided via e-mail, the Insider may wish to attach a completed Preclearance Checklist for the proposed transaction.

E. Questions

If you have a question about this policy, its application in relation to a proposed transaction, or reporting responsibilities, you should email (**)*@microsoft.com.

4. PROCEDURE

5. EXCEPTIONS

There are no exceptions to this policy.

6. ENFORCEMENT

Violation of this policy may result in disciplinary action, up to and including immediate termination of employment.

Insiders who engage in insider trading or tipping may also be subject to civil and criminal fines, as well as imprisonment.

7. APPLICATION

This policy applies to Microsoft officers and other designated persons, and their Covered Persons.

11. DOCUMENT HISTORY

**Insider Trading Compliance and Preclearance Policies
for Section 16 Officers and Directors of Microsoft**

This document sets forth the insider trading compliance policies that apply to transactions in Microsoft securities by Microsoft officers and directors who are subject to Section 16 of the Securities Exchange Act of 1934 (“**Insiders**”).

The policies contained in this document apply to all securities “beneficially owned” by Insiders. Insiders are responsible for assuring that other individuals or entities (“**Covered Persons**”) who may have an interest in securities that are “beneficially owned” by an Insider comply with these policies. For more information regarding beneficial ownership of securities and Covered Persons, please see Section 6 below.

Covered Persons must comply with the policies below. Accordingly, any reference below to “**Insiders**” should be read to include Covered Persons. In addition to the policies below, all Directors must comply with the Director stock ownership requirements located in the *Corporate Governance Guidelines* and Executive Officers must comply with the *Stock Ownership Requirements for Microsoft Corporation Executives*.

1. Restrictions on Trading

A. Prohibition on Trading While in Possession of Material, Nonpublic Information. Under Federal securities law and regulations, no Insider may trade in Microsoft securities while possessing material, nonpublic information concerning the Company, even if a quarterly window period described in Section 2 is open. The window period is not a safe harbor that eliminates the need for caution about whether an Insider should refrain from trading because he or she possesses material, nonpublic information about Microsoft. For more information, see the General Insider Trading Policy.

B. Trading Restricted to Open Window Periods. No Insider may trade in Microsoft securities outside of an applicable Open Window Period described below in Section 2, or during any trading blackout periods designated by Microsoft, except pursuant to the terms of a Rule 10b5-1 Plan as outlined in Section 4.E below. For more information, see the Restricted Trading Window Policy.

C. Prohibition on Trading in Derivatives. Trading in derivative securities (other than derivative securities issued by Microsoft as compensation) related to Microsoft stock or debt such as options, puts, calls, warrants or similar financial instruments may create the appearance among regulators and Microsoft shareholders that an Insider is engaging in short-term, speculative transactions or inappropriately hedging the risk of declines in Microsoft stock. For this reason, Insiders may not trade in options, puts, calls or other derivative instruments related to Microsoft stock or debt.

D. Prohibition on Pledging. No Insider may purchase Microsoft stock on margin, borrow against Microsoft stock held in a margin account, or pledge Microsoft stock as collateral for a loan.

2. Trading Window and Blackout Periods

A. An Insider may trade in Microsoft securities only during quarterly window periods that follow each quarterly earnings announcement. This policy is intended to help prevent accusations of trading on material, nonpublic information. The theory underlying the policy is that the period of time following an earnings release is a time when the public has been apprised of all relevant material information about the Company's recent business and financial performance. The window period generally begins on the commencement of trading on the second full trading day following Microsoft's public release of quarterly earnings, and ends at the close of trading 15 business days prior to the end of the third month of the fiscal quarter in which the earnings are released (the "**Open Window Period**"). If, for example, Microsoft made an earnings announcement on Thursday, the trading window would be expected to open the following Monday. There are rare situations when a quarterly window period is delayed, closed early or skipped. Microsoft employees and directors who are subject to the trading window policy are sent email each quarter advising them of the first and last day of that quarter's Open Window Period. If an Open Window Period is delayed, closed early or skipped, Insiders will be sent email alerting them to this development. An Insider should not trade unless he or she has received notice about the opening of the trading window.

B. Insiders who have material, nonpublic information concerning Microsoft may not trade in Microsoft securities even during Open Window Periods.

C. Insiders may not trade in Microsoft securities outside of an Open Window Period or during any blackout period that Microsoft may designate. Insiders may not disclose to any outside third party, including brokers or financial advisers, the terms of the trading window policy, the date on which an Open Window Period has begun or ended, or that a blackout period has been designated.

3. Pre-Clearance Policies and Procedures

A. **Potential Section 16(b) Liability.** Insiders are subject to the short-swing profit recapture rules of Section 16 of the Securities Exchange Act of 1934. Compliance with the law includes prompt reporting of an Insider's transactions involving Microsoft securities. The Section 16 reporting requirements also apply to transactions in Microsoft securities owned by certain other individuals and entities related to an Insider, as explained in greater detail in Section 5 below. Any late or delinquent filings are required to be reported in Microsoft's annual proxy statement. In order to assist Insiders in complying with these reporting requirements, the procedures described below have been adopted so that CELA, Corporate Legal Group may prepare and file with the SEC on an Insider's behalf the appropriate form reporting an Insider's transactions.

The purpose of these filings with the SEC is to give any interested party the ability to examine the filings to determine whether an Insider has violated the so-called "short-swing profit" rules, which prohibit a specified officer or director of a public company from profiting on sales and purchases of stock that occur within 6 months of each other. Neither lack of familiarity with the rules nor inadvertent non-compliance will excuse a violation of the short-swing profit rules. Generally, this law should not present Insiders at Microsoft with a problem because Microsoft stock purchases that an Insider makes from the Company (e.g. stock acquired

on exercise of stock options and stock purchased under the Employee Stock Purchase Plan) are all exempt from short swing profit liability under SEC rules, and therefore any sales of stock an Insider undertakes typically would not have any non-exempt purchases of stock with which they could be matched. However, an Insider may potentially have a problem if the Insider purchases Microsoft shares in the open market or changes an investment election under the Microsoft 401(k) plan with respect to investing in Microsoft stock. The advance notification procedures described below are intended to help Insiders avoid transactions that would violate Section 16(b), as well as meet the 2-day filing deadline for reporting most Insider transactions in Microsoft securities. Insiders are expected to cooperate with the Company fully and promptly in disclosing their transactions involving Company securities.

B. Preclearance Requirement. All Insiders are required to obtain approval from the CELA Corporate Legal Group before entering into any transaction involving Microsoft securities, including, but not limited to, option exercises, gifts, purchases, and sales, of Microsoft stock or debt. Some very limited exceptions apply as described in Section 4 below. The Insider or his or her broker will be asked to answer some preclearance questions in a Preclearance Checklist, which includes a brief description of the nature of the transaction (e.g., exercise of stock option, purchase, sale, gift, etc.), the type and number of Microsoft securities involved, and the proposed date on which the Insider will enter into the transaction. A copy of the Preclearance Checklist may be requested from (**)*@microsoft.com.

Preclearance requests should be sent by email to (**)*@microsoft.com. For questions, please call any of the following individuals (“**Contacts**”):

(**)

As soon as possible following the preclearance request, one of the Contacts will review the transaction and advise the Insider whether he or she may proceed with the transaction.

C. Confirmation of Transaction. Immediately after the transaction is executed, the Insider or his or her broker must provide the details of the transaction to one or more of the Contacts, either by phone or e-mail to (**)*@microsoft.com. This information must include the following:

- i. type of Microsoft security involved;
- ii. a brief description of the nature of the transaction (e.g., purchase, sale, exercise, etc.);
- iii. number of shares involved;
- iv. price per share;
- v. the total aggregate price/value; and
- vi. the transaction date.

Please note that this information must be provided on the date the transaction is executed (commonly referred to as the “trade date”), as opposed to on the date the transaction is settled. In nearly all cases, the trade date is the date that gives rise to the Section 16 reporting obligation.

4. Application of the Trading Restrictions and Preclearance Policies to Particular Situations

A. Stock Awards.

- i. **Trading Restrictions.** Transactions involving Microsoft stock received by an Insider pursuant to a Stock Award may be made only in accordance with, and at times permitted by, the trading restrictions contained in Sections 1 and 2 above.
- ii. **Preclearance and Confirmation.** Insiders do not need to request preclearance or provide confirmation of receipt of a Stock Award. Insiders must request preclearance and provide confirmation of a transaction as outlined in Section 3 above for any sales of Microsoft stock received under a Stock Award.

B. Gifts.

- i. **Trading Restrictions.** Gifts of Microsoft stock may be made only in accordance with, and at times permitted by, the trading restrictions contained in Sections 1 and 2 above.
- ii. **Preclearance and Confirmation.** Any gift is subject to the preclearance requirement and confirmation of the transaction as outlined in Section 3 above.

C. Employee Stock Purchase Plan.

- i. **Trading Restrictions.** There is no restriction on purchases of Microsoft stock under Microsoft's Employee Stock Purchase Plan ("**ESPP**"). However, an Insider's sale of Microsoft stock purchased pursuant to the ESPP may be made only in accordance with, and at times permitted by, the trading restrictions contained in Sections 1 and 2 above.
- ii. **Preclearance and Confirmation.** Insiders do not need to request preclearance or provide confirmation of purchases of Microsoft stock pursuant to an election under the ESPP. However, Insiders must request preclearance and provide confirmation of the transaction as outlined in Section 3 above for any sales of Microsoft stock purchased pursuant to the ESPP.

D. Stock Options.

- i. **Trading Restrictions.** Stock options may be exercised outside an Open Window Period only if the Insider pays the exercise price and withholding taxes in cash, and then holds the shares (also known as an "exercise and hold"). Any sale of stock as part of a broker-assisted cashless exercise of an option, any other market sale for the purpose of generating the cash needed to pay the exercise price of an option, or any delivery of shares to pay the exercise price (if permissible under the applicable stock plan) may only be done in accordance with, and at times permitted by, the trading restrictions described in Section 1 and 2 above.

ii. Preclearance and Confirmation. Any exercise of an employee stock option is subject to the preclearance requirement and confirmation of transaction process as outlined in Section 3 above.

E. Transactions in Microsoft Stock Pursuant to Rule 10b5-1 Plans.

i. Trading Restrictions. SEC Rule 10b5-1 allows trading under certain circumstances by Insiders during periods when the Insider would otherwise be prohibited from trading (for example, during periods when the trading window is closed or the insider possesses material, nonpublic information). In order to qualify for the affirmative defense offered by this Rule, the plan must be contained in an agreement that meets certain requirements, and the Insider must not exercise any discretion regarding the transactions under the plan during a period when trading would otherwise be prohibited (typically referred to as a “**10b5-1 Plan**”). An Insider may make sales of Microsoft stock outside of the Open Window Period or during a blackout period only if such sales are made pursuant to a 10b5-1 Plan that consists of an agreement with the selling broker that has been prepared by a broker-dealer or a lawyer representing the Insider, reviewed and approved by the CELA Corporate Legal Group, and entered into by the Insider at a time that sales could be made in accordance with the restrictions set forth in Sections 1 and 2 above. For additional information regarding 10b5-1 Plans and the policies associated with them, please send email to (**)[@microsoft.com](mailto:(**)@microsoft.com).

ii. Preclearance and Confirmation. Insiders engaging in transactions under an approved 10b5-1 Plan generally will not have an obligation to request preclearance of such transactions. However, Insiders (or their brokers) must immediately confirm a transaction as provided in Section 3 above upon execution of a transaction under a 10b5-1 Plan.

5. Tax Services from Microsoft Independent Auditors

Microsoft’s independent auditor (currently Deloitte & Touche LLP) is prohibited from providing tax services to individuals in a financial reporting oversight role at Microsoft, or immediate family members of such persons, who do not meet the exceptions provided by PCAOB Rule 3523.

Employee Insiders not in a financial reporting oversight role and directors may use Microsoft’s independent auditor for individual tax services, after providing advance notice to and receiving approval from CELA (via the *audsvc* alias).

If you are uncertain whether you are a person in a financial reporting oversight role covered by this policy or are otherwise prohibited from using Microsoft’s independent auditor for tax services, you may contact the(**)[@microsoft.com](mailto:(**)@microsoft.com) alias.

6. Covered Persons

Insiders are subject to the Section 16 reporting requirements with respect to all Microsoft securities that they beneficially own. The determination of “beneficial ownership” is based on the Insider’s direct or economic interest in the securities. Although not exhaustive, we have listed below the primary types of relationships that may give rise to beneficial ownership, thus triggering the Section 16 reporting requirement.

- Microsoft shares owned by immediate family members who live with the Insider or use the Insider’s address as their regular address (e.g., spouse, domestic partner, minor children, college students, parents, grandparents, grandchildren, siblings and in-laws).
- Microsoft shares held in a trust, if the Insider is: (1) a trustee who has or shares investment control of the trust securities and the Insider or a member of his or her immediate family (whether or not they share the same household) has an economic interest in the trust securities; (2) a beneficiary and has or shares investment control; or (3) a person who has the power to revoke the trust.
- Microsoft shares held in the name of a partnership or other entity over which the Insider has a controlling influence.

Insiders may wish to consult with a Contact or send e-mail to (**)*@microsoft.com to clarify reporting responsibilities with respect to any Microsoft securities over which the Insider has voting control or in which the Insider has an economic interest.

7. Sanctions

Persons who are found to have traded on material, nonpublic information can face serious criminal and civil penalties. Insiders that violate the prohibition on short-swing profit transactions will be required to disgorge the deemed profit from the transaction to the Company. Any late or delinquent filings are required to be reported in Microsoft’s annual proxy statement. In addition, the SEC has broad authority to seek sanctions from late filers; these sanctions may include significant fines and other penalties. Violation of these policies may result in disciplinary action up to and including immediate termination of employment. Violation of these policies also may be reported in Company filings with the SEC.

8. Questions

Anyone with questions about these policies and procedures, or the application of them to a proposed transaction, may obtain additional guidance by sending e-mail to (**)*@microsoft.com. The ultimate responsibility for adhering to these policies and avoiding unlawful transactions rests with the Insider.

SUBSIDIARIES OF REGISTRANT

The following is a list of subsidiaries of Microsoft Corporation as of June 30, 2024, omitting subsidiaries which, considered in the aggregate, would not constitute a significant subsidiary.

| Name | Where Incorporated |
|--------------------------------------|--------------------|
| Microsoft Ireland Research | Ireland |
| Microsoft Global Finance | Ireland |
| Microsoft Ireland Operations Limited | Ireland |
| Microsoft Online, Inc. | United States |
| LinkedIn Corporation | United States |
| LinkedIn Ireland Unlimited Company | Ireland |
| Nuance Communications, Inc. | United States |
| Activision Blizzard, Inc. | United States |
| Activision Publishing, Inc. | United States |

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the incorporation by reference in Registration Statement Nos. 333-109185, 333-118764, 333-52852, 333-132100, 333-161516, 333-75243, 333-185757, and 333-221833 on Form S-8 and Registration Statement No. 333-261590 on Form S-3 of our reports dated July 30, 2024, relating to the financial statements of Microsoft Corporation and the effectiveness of Microsoft Corporation's internal control over financial reporting appearing in this Annual Report on Form 10-K of Microsoft Corporation for the year ended June 30, 2024.

/s/ DELOITTE & TOUCHE LLP

Seattle, Washington

CERTIFICATION

I, Satya Nadella, certify that:

1. I have reviewed this annual report on Form 10-K of Microsoft Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's Board of Directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Microsoft Corporation
Executive Compensation Recovery Policy

This policy covers Microsoft's Covered Officers and explains when Microsoft will be required or authorized, as applicable, to seek recovery of Incentive Compensation awarded or paid to Covered Officers. Please refer to [Exhibit A](#) attached hereto (the "[Definitions Exhibit](#)") for the definitions of capitalized terms used throughout this Policy.

- 1. Miscalculation of Financial Performance Measure Results.** In the event of a Restatement, Microsoft will seek to recover, reasonably promptly, all Recoverable Incentive Compensation from a Covered Officer during the Applicable Period. Such recovery, in the case of a Restatement, will be made without regard to any individual knowledge or responsibility related to the Restatement or the Recoverable Incentive Compensation. Notwithstanding the foregoing, if Microsoft is required to undertake a Restatement, Microsoft will not be required to recover the Recoverable Incentive Compensation if the Compensation Committee determines it Impracticable to do so, after exercising a normal due process review of all the relevant facts and circumstances.

Microsoft will seek to recover all Recoverable Incentive Compensation that was awarded or paid in accordance with the definition of "Recoverable Incentive Compensation" set forth on the Definitions Exhibit. If such Recoverable Incentive Compensation was not awarded or paid on a formulaic basis, Microsoft will seek to recover the amount that the Compensation Committee determines in good faith should be recouped.

- 2. Legal and Compliance Violations.** Compliance with the law and Microsoft's Standards of Business Conduct and other corporate policies is a pre-condition to earning Incentive Compensation. If Microsoft in its sole discretion concludes that a Covered Officer (1) committed a significant legal or compliance violation in connection with the Covered Officer's employment, including a violation of Microsoft's corporate policies or Microsoft's Standards of Business Conduct (each, "[Misconduct](#)"), or (2) was aware of or willfully blind to Misconduct that occurred in an area over which the Covered Officer had supervisory authority, Microsoft may, at the direction of the Compensation Committee, seek recovery of all or a portion of the Recoverable Incentive Compensation awarded or paid to the Covered Officer for the Applicable Period in which the violation occurred. In addition, Microsoft may, at the direction of the Compensation Committee, conclude that any unpaid or unvested Incentive Compensation has not been earned and must be forfeited.

In the event of Misconduct, Microsoft may seek recovery of Recoverable Incentive Compensation even if the Misconduct did not result in an award or payment greater than would have been awarded or paid absent the Misconduct.

In the event of Misconduct, in determining whether to seek recovery and the amount, if any, by which the payment or award should be reduced, the Compensation Committee may consider—among other things— the seriousness of the Misconduct, whether the Covered Officer was unjustly enriched, whether seeking the recovery would prejudice Microsoft's interests in any way, including in a proceeding or investigation, and any other factors it deems relevant to the determination.

3. **Other Actions.** The Compensation Committee may, subject to applicable law, seek recovery in the manner it chooses, including by seeking reimbursement from the Covered Officer of all or part of the compensation awarded or paid, by electing to withhold unpaid compensation, by set-off, or by rescinding or canceling unvested stock.

In the reasonable exercise of its business judgment under this Policy, the Compensation Committee may in its sole discretion determine whether and to what extent additional action is appropriate to address the circumstances surrounding a Restatement or Misconduct to minimize the likelihood of any recurrence and to impose such other discipline as it deems appropriate.

4. **No Indemnification or Reimbursement.** Notwithstanding the terms of any other policy, program, agreement or arrangement, in no event will Microsoft or any of its affiliates indemnify or reimburse a Covered Officer for any loss under this Policy and in no event will Microsoft or any of its affiliates pay premiums on any insurance policy that would cover a Covered Officer's potential obligations with respect to Recoverable Incentive Compensation under this Policy.
5. **Administration of Policy.** The Compensation Committee will have full authority to administer this Policy. Actions of the Compensation Committee pursuant to this Policy will be taken by the vote of a majority of its members. The Compensation Committee will, subject to the provisions of this Policy and Rule 10D-1 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Microsoft's applicable exchange listing standards, make such determinations and interpretations and take such actions in connection with this Policy as it deems necessary, appropriate or advisable. All determinations and interpretations made by the Compensation Committee will be final, binding and conclusive.
6. **Other Claims and Rights.** The remedies under this Policy are in addition to, and not in lieu of, any legal and equitable claims Microsoft or any of its affiliates may have or any actions that may be imposed by law enforcement agencies, regulators, administrative bodies, or other authorities. Further, the exercise by the Compensation Committee of any rights pursuant to this Policy will not impact any other rights that Microsoft or any of its affiliates may have with respect to any Covered Officer subject to this Policy.
7. **Condition to Eligibility for Incentive Compensation.** All Incentive Compensation subject to this Policy will not be earned, even if already paid, until the Policy ceases to apply to such Incentive Compensation and any other vesting conditions applicable to such Incentive Compensation are satisfied.
8. **Amendment; Termination.** The Board or the Compensation Committee may amend or terminate this Policy at any time.

- 9. Effectiveness.** Except as otherwise determined in writing by the Compensation Committee, this Policy will apply to any Incentive Compensation that (a) in the case of any Restatement, is Received by Covered Officers prior to, on or following the Effective Date, and (b) in the case of Misconduct, is awarded or paid to a Covered Officer on or after the Effective Date. This Policy will survive and continue notwithstanding any termination of a Covered Officer’s employment with Microsoft and its affiliates.
- 10. Successors.** This Policy shall be binding and enforceable against all Covered Officers and their successors, beneficiaries, heirs, executors, administrators, or other legal representatives.
- 11. Governing Law.** To the extent not preempted by U.S. federal law, this Policy will be governed by and construed in accordance with the laws of the State of Washington, without reference to principles of conflict of laws.

EXHIBIT A

DEFINITIONS

“Applicable Period” means (a) in the case of any Restatement, the three completed fiscal years of Microsoft immediately preceding the earlier of (i) the date the Board, a committee of the Board, or the officer or officers of Microsoft authorized to take such action if Board action is not required, concludes (or reasonably should have concluded) that a Restatement is required or (ii) the date a regulator, court or other legally authorized entity directs Microsoft to undertake a Restatement, and (b) in the case of any Misconduct, such period as the Compensation Committee or Board determines to be appropriate in light of the scope and nature of the Misconduct. The “Applicable Period” also includes any transition period (that results from a change in Microsoft’s fiscal year) within or immediately following the three completed fiscal years identified in the preceding sentence.

“Board” means the Board of Directors of Microsoft.

“Compensation Committee” means Microsoft’s committee of independent directors responsible for executive compensation decisions, or in the absence of such a committee, a majority of the independent directors serving on the Board.

“Covered Officer” means (a) in the case of any Restatement, any person who is, or was at any time, during the Applicable Period, an Executive Officer of Microsoft or an SLT Member, and (b) in the case of any Misconduct, any person who was an Executive Officer or an SLT Member at the time of the Misconduct. For the avoidance of doubt, a Covered Officer may include a former Executive Officer or SLT Member that left Microsoft, retired, or transitioned to an employee role (including after serving as an Executive Officer in an interim capacity) during the Applicable Period.

“Effective Date” means July 1, 2023.

“Executive Officer” means Microsoft’s president, principal financial officer, principal accounting officer (or if there is no such accounting officer, the controller), any vice-president in charge of a principal business unit, division, or function (such as sales, administration, or finance), any other officer who performs a policy-making function, or any other person (including an officer of Microsoft’s parent(s) or subsidiaries) who performs similar policy-making functions for Microsoft.

“Financial Performance Measure” means a measure that is determined and presented in accordance with the accounting principles used in preparing Microsoft’s financial statements (including “non-GAAP” financial measures, such as those appearing in Microsoft’s earnings releases or Management Discussion and Analysis), and any measure that is derived wholly or in part from such measure. Stock price and total shareholder return (and any measures derived wholly or in part therefrom) shall be considered Financial Performance Measures.

“Impracticable.” The Compensation Committee may determine in good faith that recovery of Recoverable Incentive Compensation is “Impracticable” (a) in the case of any Restatement, if: (i) pursuing such recovery would violate home country law of the jurisdiction of incorporation of the Company where that law was adopted prior to November 28, 2022 and Microsoft provides an opinion of counsel to that effect acceptable to Microsoft’s listing exchange; (ii) the direct expense paid to a third party to assist in enforcing this Policy would exceed the Recoverable Incentive Compensation and Microsoft has (A) made a reasonable attempt to recover such amounts and (B) provided documentation of such attempts to recover to Microsoft’s applicable listing exchange; or (iii) recovery would likely cause

an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of Microsoft, to fail to meet the requirements of the Internal Revenue Code of 1986, as amended, and (b) in the case of any Misconduct, in its sole discretion, in light of the scope and nature of the Misconduct.

“Incentive Compensation” means any compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Performance Measure. Incentive Compensation does not include any base salaries (except with respect to any salary increases earned wholly or in part based on the attainment of a Financial Performance Measure performance goal); bonuses paid solely at the discretion of the Compensation Committee or Board that are not paid from a “bonus pool” that is determined by satisfying a Financial Performance Measure performance goal; bonuses paid solely upon satisfying one or more subjective standards and/or completion of a specified employment period; non-equity incentive plan awards earned solely upon satisfying one or more strategic measures or operational measures; and equity awards that vest solely based on the passage of time and/or attaining one or more non-Financial Performance Measures. Notwithstanding the foregoing, in the case of any Misconduct, Incentive Compensation will include all forms of cash and equity incentive compensation, including, without limitation, cash bonuses and equity awards that are received or vest solely based on the passage of time and/or attaining one or more non-Financial Performance Measures.

“Received.” Incentive Compensation is deemed “Received” in Microsoft’s fiscal period during which the Financial Performance Measure specified in the Incentive Compensation award is attained, even if the payment or grant of the Incentive Compensation occurs after the end of that period.

“Recoverable Incentive Compensation” means (a) in the case of any Restatement, the amount of any Incentive Compensation (calculated on a pre-tax basis) Received by a Covered Officer during the Applicable Period that is in excess of the amount that otherwise would have been Received if the calculation were based on the Restatement, and (b) in the case of any Misconduct, the amount of any Incentive Compensation (calculated on a pre-tax basis) awarded or paid to a Covered Officer during the Applicable Period that the Compensation Committee determines, in its sole discretion, to be appropriate in light of the scope and nature of the Misconduct. For the avoidance of doubt, in the case of any Restatement, Recoverable Incentive Compensation does not include any Incentive Compensation Received by a person (i) before such person began service as a Covered Officer and (ii) who did not serve as a Covered Officer at any time during the performance period for that Incentive Compensation. For the avoidance of doubt, in the case of any Restatement, Recoverable Incentive Compensation may include Incentive Compensation Received by a person while serving as an employee if such person previously served as a Covered Officer and then transitioned to an employee role. For Incentive Compensation based on (or derived from) stock price or total shareholder return where the amount of Recoverable Incentive Compensation is not subject to mathematical recalculation directly from the information in the applicable Restatement, the amount will be determined by the Compensation Committee based on a reasonable estimate of the effect of the Restatement on the stock price or total shareholder return upon which the Incentive Compensation was Received (in which case, Microsoft will maintain documentation of such determination of that reasonable estimate and provide such documentation to Microsoft’s applicable listing exchange).

“Restatement” means an accounting restatement of any of Microsoft’s financial statements filed with the Securities and Exchange Commission under the Exchange Act, or the Securities Act of 1933, as amended, due to Microsoft’s material noncompliance with any financial reporting requirement under U.S. securities laws, regardless of whether Microsoft or Covered Officer misconduct was the cause for such restatement. “Restatement” includes any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements

(commonly referred to as “Big R” restatements), or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (commonly referred to as “little r” restatements).

“SLT Member” means any person who has been designated as a member of Microsoft’s Senior Leadership Team, other than an Executive Officer.
