

Supplemental Listing Document

If you are in any doubt as to any aspect of this document, you should consult your stockbroker or other registered dealer in securities, bank manager, solicitor, accountant or other professional adviser.

Application has been made to the Singapore Exchange Securities Trading Limited (the “**SGX-ST**”) for permission to deal in and for quotation of the Certificates (as defined below). The SGX-ST assumes no responsibility for the correctness of any statements made or opinions or reports expressed in this document, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document. Admission to the Official List of the SGX-ST is not to be taken as an indication of the merits of SG Issuer, Societe Generale, the Certificates, or the Company (as defined below).

**3,200,000 European Style Cash Settled Long Certificates relating to
the Common Stock of Micron Technology, Inc.
with a Daily Leverage of 3x**

issued by

SG Issuer

(Incorporated in Luxembourg with limited liability)

unconditionally and irrevocably guaranteed by

Societe Generale

Issue Price: S\$5.00 per Certificate

This document is published for the purpose of obtaining a listing of all the above certificates (the “**Certificates**”) to be issued by SG Issuer (the “**Issuer**”) unconditionally and irrevocably guaranteed by Societe Generale (the “**Guarantor**”), and is supplemental to and should be read in conjunction with a base listing document dated 12 June 2026 including such further base listing documents as may be issued from time to time (the “**Base Listing Document**”) for the purpose of giving information with regard to the Issuer, the Guarantor and the Certificates. Information relating to the Company (as defined below) is contained in this document.

This document does not constitute or form part of any offer, or invitation, to subscribe for or to sell, or solicitation of any offer to subscribe for or to purchase, Certificates or other securities of the Issuer, nor is it calculated to invite, nor does it permit the making of, offers by the public to subscribe for or purchase for cash or other consideration the Certificates or other securities of the Issuer.

Restrictions have been imposed on offers and sales of the Certificates and on distributions of documents relating thereto in Singapore, Hong Kong, the European Economic Area, the United Kingdom and the United States (see “Placing and Sale” contained herein).

The Certificates are complex products. You should exercise caution in relation to them. Investors are warned that the price of the Certificates may fall in value as rapidly as it may rise and holders may sustain a total loss of their investment. The price of the Certificates also depends on the supply and demand for the Certificates in the market and the price at which the Certificates is trading at any time may differ from the underlying valuation of the Certificates because of market inefficiencies. It is not possible to predict the secondary market for the Certificates. Although the Issuer, the Guarantor and/or any of their affiliates may from time to time purchase the Certificates or sell additional Certificates on the market, the Issuer, the Guarantor and/or any of their affiliates are not obliged to do so. Investors should also note that there are leveraged risks because the Certificates integrate a leverage mechanism and the Certificates will amplify the movements in the increase, and in the decrease, of the value of the Underlying Stock (as defined below) and if the investment results in a loss, any such loss will be increased by the leverage factor of the Certificates. As such, investors could lose more than they would if they had invested directly in the Underlying Stock.

The Certificates are classified as capital markets products other than prescribed capital markets products¹ and Specified Investment Products (SIPs)², and may only be sold to retail investors with enhanced safeguards, including an assessment of such investors' investment knowledge or experience.

The Certificates constitute general unsecured obligations of the Issuer (in the case of any substitution of the Issuer in accordance with the Conditions of the Certificates, the Substituted Obligor as defined in the Conditions of the Certificates) and of no other person, and the guarantee dated 12 June 2026 (the "**Guarantee**") and entered into by the Guarantor constitutes direct unconditional unsecured senior preferred obligations of the Guarantor and of no other person, and if you purchase the Certificates, you are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights under the Certificates against any other person.

Application has been made to the SGX-ST for permission to deal in and for quotation of the Certificates and the SGX-ST has agreed in principle to grant permission to deal in and for quotation of the Certificates. It is expected that dealings in the Certificates will commence on or about 8 July 2026.

As of the date hereof, the Guarantor's long term credit rating by S&P Global Ratings is A, and by Moody's Investors Service, Inc. is A1.

The Issuer is regulated by the Luxembourg Commission de Surveillance du Secteur Financier on a consolidated basis and the Guarantor is regulated by, *inter alia*, the Autorité des Marchés Financiers, the Autorité de Contrôle Prudentiel et de Résolution and the European Central Bank.

7 July 2026

¹ As defined in the Securities and Futures (Capital Markets Products) Regulations 2018.

² As defined in the MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products.

Subject as set out below, the Issuer and the Guarantor accept full responsibility for the accuracy of the information contained in this document and the Base Listing Document in relation to themselves and the Certificates. To the best of the knowledge and belief of the Issuer and the Guarantor (each of which has taken all reasonable care to ensure that such is the case), the information contained in this document and the Base Listing Document for which they accept responsibility (subject as set out below in respect of the information contained herein with regard to the Company) is in accordance with the facts and does not omit anything likely to affect the import of such information. The information with regard to the Company as set out herein is extracted from publicly available information. The Issuer and the Guarantor accept responsibility only for the accurate reproduction of such information. No further or other responsibility or liability in respect of such information is accepted by the Issuer and the Guarantor.

No person has been authorised to give any information or to make any representation other than those contained in this document in connection with the offering of the Certificates, and, if given or made, such information or representations must not be relied upon as having been authorised by the Issuer or the Guarantor. Neither the delivery of this document nor any sale made hereunder shall under any circumstances create any implication that there has been no change in the affairs of the Issuer, the Guarantor or their respective subsidiaries and associates since the date hereof.

This document does not constitute an offer or invitation by or on behalf of the Issuer or the Guarantor to purchase or subscribe for any of the Certificates. The distribution of this document and the offering of the Certificates may, in certain jurisdictions, be restricted by law. The Issuer and the Guarantor require persons into whose possession this document comes to inform themselves of and observe all such restrictions. In particular, the Certificates and the Guarantee have not been and will not be registered under the United States Securities Act of 1933, as amended or any state securities law, and trading in the Certificates has not been approved by the United States Commodity Futures Trading Commission (the “**CFTC**”) under the United States Commodity Exchange Act of 1936, as amended and the Issuer has not been and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder. None of the Securities and Exchange Commission, any state securities commission or regulatory authority or any other United States, French or other regulatory authority has approved or disapproved of the Certificates or the Guarantee or passed upon the accuracy or adequacy of this document. Accordingly, Certificates, or interests therein, may not at any time be offered, sold, resold, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, nor may any U.S. person at any time trade, own, hold or maintain a position in the Certificates or any interests therein. In addition, in the absence of relief from the CFTC, offers, sales, re-sales, trades, pledges, exercises, redemptions, transfers or deliveries of Certificates, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, may constitute a violation of United States law governing commodities trading and commodity pools. Consequently, any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person will not be recognised. A further description of certain restrictions on offering and sale of the Certificates and distribution of this document is given in the section headed “Placing and Sale” contained herein.

The SGX-ST has made no assessment of, nor taken any responsibility for, the financial soundness of the Issuer or the Guarantor or the merits of investing in the Certificates, nor have they verified the accuracy or the truthfulness of statements made or opinions expressed in this document.

The Issuer, the Guarantor and/or any of their affiliates may repurchase Certificates at any time on or after the date of issue and any Certificates so repurchased may be offered from time to time in one or more transactions in the over-the-counter market or otherwise at prevailing market prices or in negotiated transactions, at the discretion of the Issuer, the Guarantor and/or any of their affiliates. Investors should not therefore make any assumption as to the number of Certificates in issue at any time.

References in this document to the “**Conditions**” shall mean references to the Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities contained in the Base Listing Document. Terms not defined herein shall have the meanings ascribed thereto in the Conditions.

RISK FACTORS

The following are risk factors relating to the Certificates:

- (a) in respect of certain corporate adjustment events on the Underlying Stock, trading in the Certificates may be suspended on the relevant ex-date of the Underlying Stock and trading in the Certificates will resume on the next immediate trading day on the SGX-ST. Please note that trading in the Certificates on the SGX-ST may be suspended for more than one trading day in certain circumstances;
- (b) circuit breakers are automatic mechanisms adopted in the U.S. stock market. Circuit breakers are invoked if the stock markets experience extreme broad-based declines or extreme volatility within a single stock, which are designed to slow the effects of extreme price movement through coordinated trading halts across securities markets in the U.S. stock market when severe price declines reach levels that may exhaust market liquidity.

Circuit breakers implemented by the Relevant Stock Exchange for the Underlying Stock may result in a temporary trading halt of the Underlying Stock on the Relevant Stock Exchange for the Underlying Stock, or under extreme circumstances, closure of the U.S. stock market (including all trading on the Relevant Stock Exchange for the Underlying Stock) before normal close of the trading session in the U.S. stock market.

Investors should be aware of the risk of potential high volatility in the trading prices of the Certificates upon commencement and throughout the trading hours of the SGX-ST on a trading day in Singapore in response to any overnight trigger of circuit breakers resulting in temporary trading halt of the Underlying Stock during the trading day of the Relevant Stock Exchange for the Underlying Stock immediately prior to such Singapore trading day;

- (c) investment in Certificates involves substantial risks including market risk, liquidity risk, and the risk that the Issuer and/or the Guarantor will be unable to satisfy its/their obligations under the Certificates. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Certificates. You should consider carefully whether Certificates are suitable for you in light of your experience, objectives, financial position and other relevant circumstances. Certificates are not suitable for inexperienced investors;
- (d) the Certificates constitute general unsecured obligations of the Issuer (in the case of any substitution of the Issuer in accordance with the Conditions of the Certificates, the Substituted Obligor as defined in the Conditions of the Certificates) and of no other person, and the Guarantee constitutes direct unconditional unsecured senior preferred obligations of the Guarantor and of no other person. In particular, it should be noted that the Issuer issues a large number of financial instruments, including Certificates, on a global basis and, at any given time, the financial instruments outstanding may be substantial. If you purchase the Certificates, you are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights under the Certificates against any other person;
- (e) since the Certificates relate to the price of the Underlying Stock, certain events relating to the Underlying Stock may cause adverse movements in the value and the price of the Underlying Stock, as a result of which, the Certificate Holders (as defined in the Conditions of the Certificates) may, in extreme circumstances, sustain a significant loss of their investment if the price of the Underlying Stock has fallen sharply;
- (f) in the event that the Company is subject to any sanction by governmental authorities, (i) such sanction may impact general investor interest in the Underlying Stock, which may in turn affect

the liquidity and market price of the Underlying Stock, and (ii) investors should consult their own legal advisers to check whether and to what extent investing in the Certificates will be in violation of applicable laws and regulations;

- (g) in the event that the Company is controlled through weighted voting rights, certain individuals who own shares of a class which is being given more votes per share may have the ability to determine the outcome of most matters, and depending on the action taken by the Company, the market price of the Certificates could be adversely affected;
- (h) due to their nature, the Certificates can be volatile instruments and may be subject to considerable fluctuations in value. The price of the Certificates may fall in value as rapidly as it may rise due to, including but not limited to, variations in the frequency and magnitude of the changes in the price of the Underlying Stock, the time remaining to expiry, the currency exchange rates and the creditworthiness of the Issuer and the Guarantor;
- (i) if, whilst any of the Certificates remain unexercised, trading in the Underlying Stock is suspended or halted on the relevant stock exchange, trading in the Certificates may be suspended for a similar period.

The suspension may be lifted and trading in the Underlying Stock may resume outside or during the trading hours of the SGX-ST. If trading in the Underlying Stock resumes, trading in the Certificates will resume either in accordance with the scheduled trading resumption timing (if any) as specified in the announcement(s) to be published in respect of the resumption of trading in the Underlying Stock. Please note that the price of the Certificates may be highly volatile following the resumption of trading in the Certificates;

- (j) as indicated in the Conditions of the Certificates and herein, a Certificate Holder must tender a specified number of Certificates at any one time in order to exercise. Thus, Certificate Holders with fewer than the specified minimum number of Certificates in a particular series will either have to sell their Certificates or purchase additional Certificates, incurring transactions costs in each case, in order to realise their investment;
- (k) investors should note that in the event of there being a Market Disruption Event (as defined in the Conditions) determination or payment of the Cash Settlement Amount (as defined in the Conditions) may be delayed, all as more fully described in the Conditions;
- (l) certain events relating to the Underlying Stock require or, as the case may be, permit the Issuer to make certain adjustments or amendments to the Conditions. Investors may refer to the Conditions 4 and 6 on pages 32 to 37 and the examples and illustrations of adjustments set out in the “Information relating to the European Style Cash Settled Long Certificates on Single Equities” section of this document for more information;
- (m) the Certificates are only exercisable on the Expiry Date and may not be exercised by Certificate Holders prior to such Expiry Date. Accordingly, if on the Expiry Date the Cash Settlement Amount is zero, a Certificate Holder will lose the value of his investment;
- (n) the total return on an investment in any Certificate may be affected by the Hedging Fee Factor (as defined below), Management Fee (as defined below) and Gap Premium (as defined below);
- (o) investors holding their position beyond market close of the SGX-ST should note that they would be required to bear the annualised cost which consists of the Management Fee and Gap Premium, which are calculated daily and applied to the value of the Certificates, as well as certain costs embedded within the Leverage Strategy (as described below) including the Funding Cost (as defined below) and Rebalancing Cost (as defined below). Due to the difference in trading hours of the SGX-ST and the Relevant Stock Exchange for the Underlying

Stock, unless investors exit their position within the same SGX-ST trading day, they would bear the annualised costs;

- (p) investors should note that there may be an exchange rate risk relating to the Certificates where the Cash Settlement Amount is converted from a foreign currency into Singapore dollars.

Exchange rates between currencies are determined by forces of supply and demand in the foreign exchange markets. These forces are, in turn, affected by factors such as international balances of payments and other economic and financial conditions, government intervention in currency markets and currency trading speculation. Fluctuations in foreign exchange rates, foreign political and economic developments, and the imposition of exchange controls or other foreign governmental laws or restrictions applicable to such investments may affect the foreign currency market price and the exchange rate-adjusted equivalent price of the Certificates. Fluctuations in the exchange rate of any one currency may be offset by fluctuations in the exchange rate of other relevant currencies;

- (q) investors should note that there are leveraged risks because the Certificates integrate a leverage mechanism and the Certificates will amplify the movements in the increase, and in the decrease, of the value of the Underlying Stock and if the investment results in a loss, any such loss will be increased by the leverage factor of the Certificates. As such, investors could lose more than they would if they had invested directly in the Underlying Stock;
- (r) when held for longer than a day, the performance of the Certificates could be more or less than the leverage factor that is embedded within the Certificates. The performance of the Certificates each day is locked in, and any subsequent returns are based on what was achieved the previous trading day. This process, referred to as compounding, may lead to a performance difference from 3 times the performance of the Underlying Stock over a period longer than one day. This difference may be amplified in a volatile market with a sideways trend, where market movements are not clear in direction, whereby investors may sustain substantial losses;
- (s) the Underlying Stock to which the Certificates relate are only quoted during US trading hours. This means that the Air Bag Mechanism (as defined below) can only be triggered when the SGX-ST is not open for trading. There is therefore a specific risk that overnight, investors in the Certificates incur a significant or even entire loss of the amounts invested in the Certificates, without being able to exit their investments in the Certificates;
- (t) investors should note that the Air Bag Mechanism reduces the impact on the Leverage Strategy if the Underlying Stock falls further, but will also maintain a reduced exposure to the Underlying Stock in the event the Underlying Stock starts to rise after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses;
- (u) there is no assurance that the Air Bag Mechanism will prevent investors from losing the entire value of their investment, in the event of (i) an overnight fall in the Underlying Stock, where there is an approximately 33% or greater gap between the previous trading day closing price and the opening price of the Underlying Stock the following trading day, as the Air Bag Mechanism will only be triggered when market opens the following trading day or (ii) a sharp intraday fall in the price of the Underlying Stock of approximately 33% or greater within the 15 minutes Observation Period compared to the reference price, being: (1) if air bag has not been previously triggered on the same day, the previous closing price of the Underlying Stock, or (2) if one or more air bag have been previously triggered on the same day, the latest New Observed Price. Investors should note that the Air Bag Mechanism may only be triggered during the trading of the Relevant Stock Exchange for the Underlying Stock. Investors may refer to pages 53 to 54 of this document for more information;

- (v) investors should note that the Certificates are issued over an Underlying Stock which is listed on an exchange with different trading hours from the SGX-ST. There may be a risk arising from the time difference between the trading hours of the Relevant Stock Exchange for the Underlying Stock (based on New York time) and the trading hours of the SGX-ST. As such, (i) the price of the Underlying Stock may not be available during the trading hours of the Certificates on SGX-ST; (ii) Air Bag Mechanism may be triggered during the trading hours of the Relevant Stock Exchange for the Underlying Stock, which would not be during SGX-ST trading hours; (iii) the trigger of an Air Bag Mechanism, when the Certificates are not open for trading, will lead to a different Leverage Strategy Closing Level, i.e. the value of the Certificates subsequently during the SGX-ST trading hours will be based on a different Leverage Strategy Closing Level reference for the purpose of the Leveraged Return calculation compared to a case where no Air Bag Mechanism would have been triggered; and (iv) given the Relevant Stock Exchange for the Underlying Stock is not open for trading during the SGX-ST trading hours, the market price of the Certificates may be affected by the derived spot price of the Underlying Stock on the Related Exchange during SGX-ST trading hours (which may deviate from the published price of the Underlying Stock), consequentially the market price of the Certificates during SGX-ST trading hours may deviate from the published price of the Underlying Stock during the US trading hours on the same day. There is therefore a specific risk that investors in the Certificates may incur a significant or even entire loss of the amounts invested in the Certificates, without being able to exit their investments in the Certificates.

In particular, please note that the trading price of the Underlying Stock may be volatile during a time in which the SGX-ST is not open for trading of the Certificates. Outside the trading hours of the SGX-ST, investors will not be able to sell or trade in the Certificates even if the trading price of the Underlying Stock is highly volatile.

Market news and/or corporate announcements relating to the Underlying Stock (including corporate event announcements or other price sensitive information) may be released outside the trading hours of the Relevant Stock Exchange for the Underlying Stock (based on New York time), but during the trading hours of the SGX-ST (based on Singapore time). The trading price of the Certificates may become highly volatile during the relevant trading hours of the SGX-ST in response to such market/corporate news pending opening of the Underlying Stock. The market and investors may not have sufficient time to digest fully, and/or assess the potential impact of, such corporate news on the Underlying Stock and hence the Certificates.

Investors may refer to pages 53 to 54 of this document for more information;

- (w) certain events may, pursuant to the terms and conditions of the Certificates, trigger (i) the implementation of methods of adjustment or (ii) the early termination of the Certificates. The Certificates may be terminated prior to its Expiry Date for the following reasons which are not exhaustive: Illegality and force majeure, occurrence of a Holding Limit Event (as defined in the Conditions of the Certificates) or Hedging Disruption (as defined in the Conditions of the Certificates). For more detailed examples of when early termination may occur, please refer to the FAQ section under the "Education" tab on the website at dlc.socgen.com.

The Issuer will give the investors reasonable notice of any early termination. If the Issuer terminates the Certificates early, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Certificate Holder in respect of each Certificate held by such holder equal to the fair market value of the Certificate less the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion. The performance of this commitment shall depend on (i) general market conditions and (ii) the liquidity conditions of the underlying instrument(s) and, as the case may

be, of any other hedging transactions. Investors should note that the amount repaid by the Issuer may be substantially less than the amount initially invested, and at the worst case, be zero. Investors may refer to the Condition 13 on pages 39 to 42 of this document for more information;

- (x) there is no assurance that an active trading market for the Certificates will sustain throughout the life of the Certificates, or if it does sustain, it may be due to market making on the part of the Designated Market Maker. The Issuer acting through its Designated Market Maker may be the only market participant buying and selling the Certificates. Therefore, the secondary market for the Certificates may be limited and you may not be able to realise the value of the Certificates. Do note that the bid-ask spread increases with illiquidity;
- (y) in the ordinary course of their business, including without limitation, in connection with the Issuer or its appointed designated market maker's market making activities, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in the Underlying Stock. In addition, in connection with the offering of any Certificates, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may enter into one or more hedging transactions with respect to the Underlying Stock. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer, the Guarantor and any of their respective subsidiaries and affiliates, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may enter into transactions in the Underlying Stock which may affect the market price, liquidity or value of the Certificates and which may affect the interests of Certificate Holders;
- (z) various potential and actual conflicts of interest may arise from the overall activities of the Issuer, the Guarantor and/or any of their subsidiaries and affiliates.

The Issuer, the Guarantor and any of their subsidiaries and affiliates are diversified financial institutions with relationships in countries around the world. These entities engage in a wide range of commercial and investment banking, brokerage, funds management, hedging transactions and investment and other activities for their own account or the account of others. In addition, the Issuer, the Guarantor and any of their subsidiaries and affiliates, in connection with their other business activities, may possess or acquire material information about the Underlying Stock. Such activities and information may involve or otherwise affect issuers of the Underlying Stock in a manner that may cause consequences adverse to the Certificate Holders or otherwise create conflicts of interests in connection with the issue of Certificates by the Issuer. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and exercise of creditor rights. The Issuer, the Guarantor and any of their subsidiaries and affiliates have no obligation to disclose such information about the Underlying Stock or such activities. The Issuer, the Guarantor and any of their subsidiaries and affiliates and their officers and directors may engage in any such activities without regard to the issue of Certificates by the Issuer or the effect that such activities may directly or indirectly have on any Certificate;

- (aa) legal considerations which may restrict the possibility of certain investments:

Some investors' investment activities are subject to specific laws and regulations or laws and regulations currently being considered by various authorities. All potential investors must consult their own legal advisers to check whether and to what extent (i) they can legally purchase the Certificates (ii) the Certificates can be used as collateral security for various forms of borrowing (iii) if other restrictions apply to the purchase of Certificates or their use as collateral security. Financial institutions must consult their legal advisers or regulators to

determine the appropriate treatment of the Certificates under any applicable risk-based capital or similar rules;

- (bb) the credit rating of the Guarantor is an assessment of its ability to pay obligations, including those on the Certificates. Consequently, actual or anticipated declines in the credit rating of the Guarantor may affect the market value of the Certificates;
- (cc) the Certificates are linked to the Underlying Stock and subject to the risk that the price of the Underlying Stock may decline. The following is a list of some of the significant risks associated with the Underlying Stock:
 - Historical performance of the Underlying Stock does not give an indication of future performance of the Underlying Stock. It is impossible to predict whether the price of the Underlying Stock will fall or rise over the term of the Certificates; and
 - The price of the Underlying Stock may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which the Underlying Stock may be traded;
- (dd) the value of the Certificates depends on the Leverage Strategy performance built in the Certificate. The Calculation Agent will make the Leverage Strategy last closing level and a calculation tool available to the investors on a website;
- (ee) two or more risk factors may simultaneously have an effect on the value of a Certificate such that the effect of any individual risk factor may not be predicted. No assurance can be given as to the effect any combination of risk factors may have on the value of a Certificate;
- (ff) as the Certificates are represented by a global warrant certificate which will be deposited with The Central Depository (Pte) Limited (“**CDP**”):
 - (i) investors should note that no definitive certificate will be issued in relation to the Certificates;
 - (ii) there will be no register of Certificate Holders and each person who is for the time being shown in the records maintained by CDP as entitled to a particular number of Certificates by way of interest (to the extent of such number) in the global warrant certificate in respect of those Certificates represented thereby shall be treated as the holder of such number of Certificates;
 - (iii) investors will need to rely on any statements received from their brokers/custodians as evidence of their interest in the Certificates; and
 - (iv) notices to such Certificate Holders will be published on the web-site of the SGX-ST. Investors will need to check the web-site of the SGX-ST regularly and/or rely on their brokers/custodians to obtain such notices;
- (gg) U.S. withholding tax

The Issuer has determined that these Certificates substantially replicates the economic performance of one or more U.S. Underlying Equities (and as such, for the purposes of IRS Notice 2024-44, such Certificates are deemed to be “delta-one” Certificates and are therefore Specified Warrants for purposes of the Section 871(m) Regulations as discussed in the accompanying Base Listing Document under “TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Section 871(m) of the U.S. Internal Revenue Code of 1986”.

Investors are advised that the Issuer’s determination is binding on all Non-U.S. Holders of the Certificates, but it is not binding on the United States Internal Revenue Service (the “IRS”) and

the IRS may therefore disagree with the Issuer's determination. Because the Certificates are treated as Specified Warrants for purposes of the Section 871(m) Regulations, U.S. withholding tax under the Section 871(m) Regulations generally should apply to any dividend equivalents paid or deemed paid under the Certificates. In withholding this tax, the Issuer will apply the general tax rate of 30% to the payments subject to withholding under the Section 871(m) Regulations without regard to any applicable treaty rate. Therefore, in such cases, an investor's individual tax situation will not be taken into account.

Potential investors are advised to consider the discussion in the accompanying Base Listing Document under "TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Section 871(m) of the U.S. Internal Revenue Code of 1986" and "TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Foreign Account Tax Compliance Act Withholding" and to consult their own tax adviser on the tax impacts of the acquisition, holding, disposal and redemption of the Certificates. The requirement to pay such taxes may reduce the effective yield on the Certificates and may also have an adverse impact on their value;

(hh) risks arising from the taxation of securities

Tax law and practice are subject to change, possibly with retroactive effect. This may have a negative impact on the value of the Certificates and/or the market price of the Certificates. For example, the specific tax assessment of the Certificates may change compared to its assessment at the time of purchase of the Certificates. This is especially true with regard to derivative Certificates and their tax treatment. Holders of Certificates therefore bear the risk that they may misjudge the taxation of the income from the purchase of the Certificates. However, there is also the possibility that the taxation of the income from the purchase of the Certificates will change to the detriment of the holders.

Holders of the Certificates bear the risk that the specific tax assessment of the Certificates will change. This can have a negative impact on the value of the Certificates and the investor may incur a corresponding loss. The stronger this negative effect, the greater the loss may be; and

(ii) risk factors relating to the BRRD

French and Luxembourg law and European legislation regarding the resolution of financial institutions may require the write-down or conversion to equity of the Certificates or other resolution measures if the Issuer or the Guarantor is deemed to meet the conditions for resolution.

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") entered into force on 2 July 2014. The BRRD, as amended, has been implemented into Luxembourg law by, among others, the Luxembourg act dated 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the "**BRR Act 2015**"). Under the BRR Act 2015, the competent authority is the Luxembourg financial sector supervisory authority (*Commission de surveillance du secteur financier*, the CSSF) and the resolution authority is the CSSF acting as resolution council (*conseil de résolution*).

In April 2023, the EU Commission released a proposal to amend, in particular, the BRRD according to which senior preferred debt instruments would no longer rank *pari passu* with any non covered non preferred deposits of the Issuer; instead, senior preferred debt instruments would rank junior in right of payment to the claims of all depositors.

This proposal is still subject to further discussions and as a result its precise legal application date is unknown. As such, there may be an increased risk of an investor in senior preferred debt instruments losing all or some of their investment in the context of the exercise of the Bail-in Power.

Moreover, Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism (“SRM”) and a Single Resolution Framework (the “SRM Regulation”) has established a centralised power of resolution entrusted to a Single Resolution Board (the “SRB”) in cooperation with the national resolution authorities.

Since November 2014, the European Central Bank (“ECB”) has taken over the prudential supervision of significant credit institutions in the member states of the Eurozone under the Single Supervisory Mechanism (“SSM”). In addition, the SRM has been put in place to ensure that the resolution of credit institutions and certain investment firms across the Eurozone is harmonised. As mentioned above, the SRM is managed by the SRB. Under Article 5(1) of the SRM Regulation, the SRM has been granted those responsibilities and powers granted to the EU Member States’ resolution authorities under the BRRD for those credit institutions and certain investment firms subject to direct supervision by the ECB. The ability of the SRB to exercise these powers came into force at the beginning of 2016.

Societe Generale has been, and continues to be, designated as a significant supervised entity for the purposes of Article 49(1) of Regulation (EU) No 468/2014 of the ECB of 16 April 2014 establishing the framework for cooperation within the SSM between the ECB and national competent authorities and with national designated authorities (the “SSM Regulation”) and is consequently subject to the direct supervision of the ECB in the context of the SSM. This means that Societe Generale and SG Issuer (being covered by the consolidated prudential supervision of Societe Generale) are also subject to the SRM which came into force in 2015. The SRM Regulation mirrors the BRRD and, to a large part, refers to the BRRD so that the SRB is able to apply the same powers that would otherwise be available to the relevant national resolution authority.

The stated aim of the BRRD and the SRM Regulation is to provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and certain investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the resolution authority designated by each EU Member State (the “**Resolution Authority**”) with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution’s critical financial and economic functions while minimising the impact of an institution’s failure on the economy and financial system (including taxpayers’ exposure to losses).

In accordance with the provisions of the SRM Regulation, when applicable, the SRB, has replaced the national resolution authorities designated under the BRRD with respect to all aspects relating to the decision-making process and the national resolution authorities designated under the BRRD continue to carry out activities relating to the implementation of resolution schemes adopted by the SRB. The provisions relating to the cooperation between the SRB and the national resolution authorities for the preparation of the institutions’ resolution plans have applied since 1 January 2015 and the SRM has been fully operational since 1 January 2016.

The SRB is the Resolution Authority for the Issuer and the Guarantor.

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write-down/conversion powers to ensure that capital instruments (including subordinated debt instruments) and eligible liabilities (including senior debt instruments if junior instruments prove insufficient to absorb all losses) absorb losses of the issuing institution that is subject to resolution in accordance with a set order of priority (the “**Bail-in Power**”). The conditions for resolution under the SRM Regulation are deemed to be met when: (i) the Resolution Authority determines that the institution is failing or is likely to fail, (ii) there is no reasonable prospect that any measure other than a resolution measure would prevent the failure within a reasonable timeframe, and (iii) a resolution measure is necessary for the achievement of the resolution objectives (in particular, ensuring the continuity of critical functions, avoiding a significant adverse effect on the financial system, protecting public funds by minimizing reliance on extraordinary public financial support, and protecting client funds and assets) and winding up of the institution under normal insolvency proceedings would not meet those resolution objectives to the same extent.

The Resolution Authority could also, independently of a resolution measure or in combination with a resolution measure, fully or partially write-down or convert capital instruments (including subordinated debt instruments) into equity when it determines that the institution or its group will no longer be viable unless such write-down or conversion power is exercised or when the institution requires extraordinary public financial support (except when extraordinary public financial support is provided in Article 10 of the SRM Regulation). The terms and conditions of the Certificates contain provisions giving effect to the Bail-in Power in the context of resolution and write-down or conversion of capital instruments at the point of non-viability.

The Bail-in Power could result in the full (i.e., to zero) or partial write-down or conversion of the Certificates into ordinary shares or other instruments of ownership, or the variation of the terms of the Certificates (for example, the maturity and/or interest payable may be altered and/or a temporary suspension of payments may be ordered). Extraordinary public financial support should only be used as a last resort after having assessed and applied, to the maximum extent practicable, the resolution measures. No support will be available until a minimum amount of contribution to loss absorption and recapitalization of 8% of total liabilities including own funds has been made by shareholders, holders of capital instruments and other eligible liabilities through write-down, conversion or otherwise.

In addition to the Bail-in Power, the BRRD and the SRM Regulation provide the Resolution Authority with broader powers to implement other resolution measures with respect to institutions that meet the conditions for resolution, which may include (without limitation) the sale of the institution's business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.

Before taking a resolution measure, including implementing the Bail-in Power, or exercising the power to write down or convert relevant capital instruments, the Resolution Authority must ensure that a fair, prudent and realistic valuation of the assets and liabilities of the institution is carried out by a person independent from any public authority.

The BRRD, the BRR Act 2015 and the SRM Regulation however also state that, under exceptional circumstances, if the bail-in instrument is applied, the SRB, in cooperation with the CSSF, may completely or partially exclude certain liabilities from the application of the impairment or conversion powers under certain conditions.

Since 1 January 2016, EU credit institutions (such as Societe Generale) and certain investment firms have to meet, at all times, a minimum requirement for own funds and eligible liabilities ("**MREL**") pursuant to Article 12 of the SRM Regulation. The MREL, which is expressed as a percentage of the total liabilities and own funds of the institution, aims at preventing institutions from structuring their liabilities in a manner that impedes the effectiveness of the Bail-in Power in order to facilitate resolution.

The regime has evolved as a result of the changes adopted by the EU legislators. On 7 June 2019, as part of the contemplated amendments to the so-called "EU Banking Package", the following legislative texts were published in the Official Journal of the EU 14 May 2019:

- Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms ("**BRRD II**"); and
- Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the SRM Regulation as regards the loss-absorbing and recapitalisation capacity ("**TLAC**") of credit institutions and investment firms (the "**SRM II Regulation**" and, together with the BRRD II, the "**EU Banking Package Reforms**").

The EU Banking Package Reforms introduced, among other things, the TLAC standard as implemented by the Financial Stability Board's TLAC Term Sheet ("**FSB TLAC Term Sheet**"), by adapting, among other things, the existing regime relating to the specific MREL with the aim of reducing risks in the banking sector and further reinforcing institutions' ability to withstand potential shocks will strengthen the banking union and reduce risks in the financial system.

The TLAC has been implemented in accordance with the FSB TLAC Term Sheet, which imposes a level of "Minimum TLAC" that will be determined individually for each global systemically important bank ("**G-SIB**"), such as Societe Generale, in an amount at least equal to (i) 16%, plus applicable buffers, of risk weight assets since January 1, 2022 and 18%, plus applicable buffers, thereafter and (ii) 6% of the Basel III leverage ratio denominator since January 1, 2022 and 6.75% thereafter (each of which could be extended by additional firm-specific requirements).

Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the "**CRR**"), as amended notably by Regulation (EU) 2019/876 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements (the "**CRR II**") and Regulation (EU) 2022/2036 of the European Parliament and of the Council of 19 October 2022 amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities, EU G-SIBs, such as Societe Generale, have to comply with TLAC requirements, on top of the MREL requirements, since the entry into force of the CRR II. As such, G-SIBs, such as Societe Generale have to comply with both the TLAC and MREL requirements.

Consequently, the criteria for MREL-eligible liabilities have been closely aligned with the criteria for TLAC-eligible liabilities under CRR II, but subject to the complementary adjustments and requirements introduced in the BRRD II. In particular, certain debt instruments with an embedded derivative component, such as certain structured notes, will be eligible, subject to certain conditions, to meet MREL requirements to the extent that they have a fixed or increasing principal amount repayable at maturity that is known in advance with only an additional return permitted to be linked to that derivative component and dependent on the performance of a reference asset.

The level of capital and eligible liabilities required under MREL is set by the SRB for Societe Generale on an individual and/or consolidated basis based on certain criteria including systemic importance and may also be set for SG Issuer. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining term of at least one year and, they recognise contractually the Resolution Authority's power to write down or convert the liabilities governed by non-EU law.

The scope of liabilities used to meet MREL includes, in principle, all liabilities resulting from claims arising from ordinary unsecured creditors (non-subordinated liabilities) unless they do not meet specific eligibility criteria set out in BRRD, as amended notably by BRRD II. To enhance the resolvability of institutions and entities through an effective use of the bail-in tool, the SRB should be able to require that MREL be met with own funds and other subordinated liabilities, in particular where there are clear indications that bailed-in creditors are likely to bear losses in resolution that would exceed the losses that they would incur under normal insolvency proceedings. Moreover the SRB should assess the need to require institutions and entities to meet the MREL with own funds and other subordinated liabilities where the amount of liabilities excluded from the application of the bail-in tool reaches a certain threshold within a class of liabilities that includes MREL-eligible liabilities. Any subordination of debt instruments requested by the SRB for the MREL shall be without prejudice to the possibility to partly meet the TLAC requirements with non-subordinated debt instruments in accordance with the CRR, as amended by the CRR II, as permitted by the TLAC standard. Specific requirements apply to resolution groups with assets above EUR 100 billion (top-tier banks, including Societe Generale).

TERMS AND CONDITIONS OF THE CERTIFICATES

The following are the terms and conditions of the Certificates and should be read in conjunction with, and are qualified by reference to, the other information set out in this document and the Base Listing Document.

The Conditions are set out in the section headed “Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities” in the Base Listing Document. For the purposes of the Conditions, the following terms shall have the following meanings:

Certificates:	3,200,000 European Style Cash Settled Long Certificates relating to the Common Stock of Micron Technology, Inc. (the “ Underlying Stock ”)
ISIN:	LU2088914051
Company:	Micron Technology, Inc. (RIC: MU.OQ)
Underlying Price and Source:	The closing price of the Underlying Stock on 7 July 2026 (Reuters)
Calculation Agent:	Societe Generale
Strike Level:	Zero
Daily Leverage:	3x (within the Leverage Strategy as described below)
Notional Amount per Certificate:	SGD 5.00
Management Fee (p.a.) ³ :	0.40%
Gap Premium (p.a.) ⁴ :	27.00%, is a hedging cost against extreme market movements beyond US market close on the same trading day.
Funding Cost ⁵ :	The annualised costs of funding, referencing a publicly published base rate plus spread.
Rebalancing Cost ⁵ :	The transaction costs (if applicable), computed as a function of leverage and daily performance of the Underlying Stock.
Launch Date:	1 July 2026
Closing Date:	7 July 2026
Expected Listing Date:	8 July 2026

³ Please note that the Management Fee is calculated on a 360-day basis and may be increased up to a maximum of 3% p.a. on giving one month's notice to investors. Any increase in the Management Fee will be announced on the SGXNET. Please refer to “Fees and Charges” below for further details of the fees and charges payable and the maximum of such fees as well as other ongoing expenses that may be borne by the Certificates.

⁴ Please note that the Gap Premium is calculated on a 360-day basis.

⁵ These costs are embedded within the Leverage Strategy.

Last Trading Date:	The date falling 5 Business Days immediately preceding the Expiry Date, currently being 15 June 2028
Expiry Date:	The Business Day immediately following the Valuation Date, currently being 22 June 2028
Board Lot:	100 Certificates
Valuation Date:	21 June 2028 or if such day is not an Underlying Stock Business Day, the immediately following Underlying Stock Business Day and subject to the Market Disruption Event provisions.
Settlement Date:	No later than five Settlement Business Days following the Expiry Date, currently being 29 June 2028.
Exercise:	The Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in a Board Lot or integral multiples thereof. Certificate Holders shall not be required to deliver an exercise notice. Exercise of Certificates shall be determined by whether the Cash Settlement Amount (less any Exercise Expenses) is positive. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates shall be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in Condition 4(c) of the Conditions. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates.
Cash Settlement Amount:	In respect of each Certificate, shall be an amount payable in the Settlement Currency equal to: Closing Level multiplied by the Notional Amount per Certificate Please refer to the “Information relating to the European Style Cash Settled Long Certificates on Single Equities” section on pages 45 to 59 of this document for examples and illustrations of the calculation of the Cash Settlement Amount.
Hedging Fee Factor:	In respect of each Certificate, shall be an amount calculated as: Product (for t from 2 to Valuation Date) of $(1 - \text{Management Fee} \times (\text{ACT}(t-1;t) \div 360)) \times (1 - \text{Gap Premium}(t-1) \times (\text{ACT}(t-1;t) \div 360))$ Where:

“t” refers to “**Observation Date**” which means each Underlying Stock Business Day (subject to Market Disruption Event) from (and including) the Underlying Stock Business Day immediately preceding the Expected Listing Date to the Valuation Date; and

ACT (t-1;t) means the number of calendar days between the Underlying Stock Business Day immediately preceding the Observation Date (such Underlying Stock Business Day being noted “t-1”) (included) and the Observation Date “t” (excluded).

If the Issuer determines, in its sole discretion, that on any Observation Date a Market Disruption Event has occurred, then that Observation Date shall be postponed until the first succeeding Underlying Stock Business Day on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the five Underlying Stock Business Days immediately following the original date that, but for the Market Disruption Event, would have been an Observation Date. In that case, that fifth Underlying Stock Business Day shall be deemed to be the Observation Date notwithstanding the Market Disruption Event and the Issuer shall determine, its good faith estimate of the level of the Leverage Strategy and the value of the Certificate on that fifth Underlying Stock Business Day in accordance with the formula for and method of calculation last in effect prior to the occurrence of the first Market Disruption Event taking into account, inter alia, the exchange traded or quoted price of the Underlying Stock and the potential increased cost of hedging by the Issuer as a result of the occurrence of the Market Disruption Event.

Please refer to the “Information relating to the European Style Cash Settled Long Certificates on Single Equities” section on pages 45 to 59 of this document for examples and illustrations of the calculation of the Hedging Fee Factor.

Closing Level: In respect of each Certificate, shall be an amount payable in the Settlement Currency equal to:

$$\left(\frac{\text{Final Reference Level} \times \text{Final Exchange Rate}}{\text{Initial Reference Level} \times \text{Initial Exchange Rate}} - \text{Strike Level} \right) \times \text{Hedging Fee Factor}$$

Initial Reference Level: 1,000

Final Reference Level: The closing level of the Leverage Strategy (as described below) on the Valuation Date

The calculation of the closing level of the Leverage Strategy is set out in the “Specific Definitions relating to the Leverage Strategy” section on pages 22 to 26 below.

Initial Exchange Rate: 1.292

Final Exchange Rate:	The rate for the conversion of United States Dollar to Singapore Dollar as at 5:00pm (Singapore Time) on the Valuation Date as shown on Reuters, provided that if the Reuters service ceases to display such information, as determined by the Issuer by reference to such source(s) as the Issuer may reasonably determine to be appropriate at such a time.
Air Bag Mechanism:	The “Air Bag Mechanism” refers to the mechanism built in the Leverage Strategy and which is designed to reduce the Leverage Strategy exposure to the Underlying Stock during extreme market conditions. If the Underlying Stock falls by 20% or more (“Air Bag Trigger Price”) during the trading day of the Relevant Stock Exchange for the Underlying Stock (which represents an approximately 60% loss after a 3 times leverage), the Air Bag Mechanism is triggered and the Leverage Strategy is adjusted intra-day during the trading hours of the Relevant Stock Exchange for the Underlying Stock. The Air Bag Mechanism reduces the impact on the Leverage Strategy if the Underlying Stock falls further, but will also maintain a reduced exposure to the Underlying Stock in the event the Underlying Stock starts to rise after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses. The Leverage Strategy is floored at 0 and the Certificates cannot be valued below zero. Please refer to the “Extraordinary Strategy Adjustment for Performance Reasons (“Air Bag Mechanism”)” section on pages 25 to 26 below and the “Description of Air Bag Mechanism” section on pages 51 to 52 of this document for further information of the Air Bag Mechanism.
Adjustments and Extraordinary Events:	The Issuer has the right to make adjustments to the terms of the Certificates if certain events, including any capitalisation issue, rights issue, extraordinary distributions, merger, delisting, insolvency (as more specifically set out in the terms and conditions of the Certificates) occur in respect of the Underlying Stock. For the avoidance of doubt, no notice will be given if the Issuer determines that adjustments will not be made.
Underlying Stock Currency:	United States Dollar (“ USD ”)
Settlement Currency:	Singapore Dollar (“ SGD ”)
Exercise Expenses:	Certificate Holders will be required to pay all charges which are incurred in respect of the exercise of the Certificates.
Relevant Stock Exchange for the Certificates:	The Singapore Exchange Securities Trading Limited (“ SGX-ST ”)
Relevant Stock Exchange for the Underlying Stock:	NASDAQ

Related Exchange:	Each exchange or quotation system, or alternative trading system, where trading has a material effect (as determined by the Calculation Agent) on the overall market for the Underlying Stock when the Relevant Stock Exchange for the Underlying Stock is not open for trading
Underlying Stock Business Day, Business Day or Settlement Business Day:	An “Underlying Stock Business Day” means a day on which NASDAQ is open for dealings in the United States during its normal trading hours and banks are open for business in the United States. A “Business Day” or a “Settlement Business Day” is a day on which the SGX-ST is open for dealings in Singapore during its normal trading hours and banks are open for business in Singapore.
Warrant Agent:	The Central Depository (Pte) Limited (“ CDP ”)
Clearing System:	CDP
Fees and Charges:	Normal transaction and brokerage fees shall apply to the trading of the Certificates on the SGX-ST. Investors should note that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Certificates are transferred. Investors who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, investors should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time. Investors holding position beyond market close of the SGX-ST would also be required to bear the Management Fee and Gap Premium, which are calculated daily and applied to the value of the Certificates, as well as certain costs embedded within the Leverage Strategy including the Funding Cost and Rebalancing Cost. The Management Fee may be increased up to a maximum of 3% p.a. on giving one month’s notice to investors in accordance with the terms and conditions of the Certificates. Any increase in the Management Fee will be announced on the SGXNET. Due to the difference in trading hours of the SGX-ST and the Relevant Stock Exchange for the Underlying Stock, unless investors exit their position within the same SGX-ST trading day, they would bear such annualised costs.
Further Information:	Please refer to the website at dlc.socgen.com for more information on the theoretical closing price of the Certificates on the previous trading day, the closing price of the Underlying Stock on the previous trading day, the Air Bag Trigger Price for each trading day and the Management Fee and Gap Premium.

Specific Definitions relating to the Leverage Strategy

Description of the Leverage Strategy

The Leverage Strategy is designed to track a 3 times daily leveraged exposure to the Underlying Stock.

At the end of each trading day of the Underlying Stock, the exposure of the Leverage Strategy to the Underlying Stock is reset within the Leverage Strategy in order to retain a daily leverage of 3 times the performance of the Underlying Stock (excluding costs) regardless of the performance of the Underlying Stock on the preceding day. This mechanism is referred to as the Daily Reset.

The Leverage Strategy incorporates an air bag mechanism which is designed to reduce exposure to the Underlying Stock during extreme market conditions, as further described below.

Leverage Strategy Formula

LSL_t	means, for any Observation Date(t), the Leverage Strategy Closing Level as of such day (t). Subject to the occurrence of an Intraday Restrike Event, the Leverage Strategy Closing Level as of such Observation Date(t) is calculated in accordance with the following formulae: On Observation Date(1): $LSL_1 = 1000$ On each subsequent Observation Date(t): $LSL_t = \text{Max}[LSL_{t-1} \times (1 + LR_{t-1,t} - FC_{t-1,t} - RC_{t-1,t}), 0]$
LR_{t-1,t}	means the Leveraged Return of the Underlying Stock between Observation Date(t-1) and Observation Date(t) closing prices, calculated as follows: $LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right)$
FC_{t-1,t}	means, the Funding Cost between Observation Date(t-1) (included) and Observation Date(t) (excluded) calculated as follows: $FC_{t-1,t} = (\text{Leverage} - 1) \times \frac{\text{Rate}_{t-1} \times \text{ACT}(t-1, t)}{\text{DayCountBasisRate}}$
RC_{t-1,t}	means the Rebalancing Cost of the Leverage Strategy on Observation Date (t), calculated as follows: $RC_{t-1,t} = \text{Leverage} \times (\text{Leverage} - 1) \times \left(\left \frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right \right) \times TC$
TC	means the Transaction Costs applicable (including brokerage fees and any other applicable taxes, levies and costs which may be levied on the stock transactions on the Relevant Stock Exchange for the Underlying Stock by the applicable regulatory authorities from time to time) that are currently equal to: 0.20%
Leverage	3

S_t	means, in respect of each Observation Date(t), the Closing Price of the Underlying Stock as of such Observation Date(t), subject to the adjustments and provisions of the Conditions.
$Rate_t$	means, in respect of each Observation Date(t), a rate calculated as of such day in accordance with the following formula: $Rate_t = CashRate_t + \%SpreadLevel_t$
$Rfactor_t$	means, in the event Observation Date (t) is an ex-dividend date of the Underlying Stock, an amount determined by the Calculation Agent, subject to the adjustments and provisions of the Conditions, according to the following formula: $Rfactor_t = 1 - \frac{Div_t}{S_{t-1}}$ where Div_t is the dividend to be paid out in respect of the Underlying Stock and the relevant ex-dividend date which shall be considered net of any applicable withholding taxes.
$CashRate_t$	means, in respect of each Observation Date(t), the US SOFR Secured Overnight Financing Rate, as published on Bloomberg Screen SOFRRATE Index page or any successor page, being the rate as of such Observation Date (t), provided that if any of such rates is not available, then that rate shall be determined by reference to the latest available rate that was published on the relevant Bloomberg page.
$\%SpreadLevel_t$	1%, subject to change by the Issuer on giving 10 Business Days' notice to investors via SGXNet.
$ACT(t-1,t)$	$ACT(t-1;t)$ means the number of calendar days between the Underlying Stock Business Day immediately preceding the Observation Date (such Underlying Stock Business Day being noted "t-1") (included) and the Observation Date "t" (excluded).
DayCountBasisRate	365
Benchmark Fallback	upon the occurrence or likely occurrence, as determined by the Calculation Agent, of a Reference Rate Event, the Calculation Agent may make adjustments as it may determine appropriate to account for the relevant event or circumstance, including but not limited to using any alternative rates from such date, with or without retroactive effect as the Calculation Agent may in its sole and absolute discretion determine.
Reference Rate Event	means, in respect of the Reference Rate any of the following has occurred or will occur: (i) a Reference Rate Cessation; (ii) an Administrator/Benchmark Event; or

	(iii) a Reference Rate is, with respect to over-the-counter derivatives transactions which reference such Reference Rate, the subject of any market-wide development formally agreed upon by the International Swaps and Derivative Association (ISDA) or the Asia Securities Industry & Financial Markets Association (ASIFMA), pursuant to which such Reference Rate is, on a specified date, replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.
Reference Rate Cessation	means, for a Reference Rate, the occurrence of one or more of the following events: (i) a public statement or publication of information by or on behalf of the administrator of the Reference Rate announcing that it has ceased or will cease to provide the Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Reference Rate; (ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate, the central bank for the currency of the Reference Rate, an insolvency official with jurisdiction over the administrator for the Reference Rate, a resolution authority with jurisdiction over the administrator for the Reference Rate or a court or an entity with similar insolvency or resolution authority over the administrator for the Reference Rate, which states that the administrator of the Reference Rate has ceased or will cease to provide the Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Reference Rate; or (iii) in respect of a Reference Rate, a public statement or publication of information by the regulatory supervisor for the administrator of such Reference Rate announcing that (a) the regulatory supervisor has determined that such Reference Rate is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts;
Administrator/ Benchmark Event	means, for a Reference Rate, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or the administrator or sponsor of the Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the Reference Rate to perform its or their respective obligations under the Certificates.
Reference Rate(s)	means the rate(s) used in the Leverage Strategy Formula, for example SORA, SOFR and US Federal Funds Effective Rate.

Extraordinary Strategy Adjustment for Performance Reasons (“Air Bag Mechanism”)

Extraordinary Strategy Adjustment for Performance Reasons

If the Calculation Agent determines that an Intraday Restrike Event has occurred during an Observation Date(t) (the **Intraday Restrike Date**, noted hereafter **IRD**), an adjustment (an **Extraordinary Strategy Adjustment for Performance Reasons**) shall take place during such Observation Date(t) in accordance with the following provisions.

(1) Provided the last Intraday Restrike Observation Period as of such Intraday Restrike Date does not end on the TimeReferenceClosing, the Leverage Strategy Closing Level on the Intraday Restrike Date (LSL_{IRD}) should be computed as follows:

$$LSL_{IRD} = \text{Max}[ILSL_{IR(n)} \times (1 + ILR_{IR(n),IR(C)} - IRC_{IR(n),IR(C)}), 0]$$

(2) If the last Intraday Restrike Event Observation Period on the relevant Intraday Restrike Date ends on the TimeReferenceClosing:

$$LSL_{IRD} = \text{Max}[ILSL_{IR(n)}, 0]$$

$ILSL_{IR(k)}$

means, in respect of $IR(k)$, the Intraday Leverage Strategy Level in accordance with the following provisions:

(1) for $k = 1$:

$$ILSL_{IR(1)} = \text{Max}[LSL_{IRD-1} \times (1 + ILR_{IR(0),IR(1)} - FC_{IRD-1,IRD} - IRC_{IR(0),IR(1)}), 0]$$

(2) for $k > 1$:

$$ILSL_{IR(k)} = \text{Max}[ILSL_{IR(k-1)} \times (1 + ILR_{IR(k-1),IR(k)} - IRC_{IR(k-1),IR(k)}), 0]$$

$ILR_{IR(k-1),IR(k)}$

means the Intraday Leveraged Return between $IR(k-1)$ and $IR(k)$, calculated as follows:

$$ILR_{IR(k-1),IR(k)} = \text{Leverage} \times \left(\frac{IS_{IR(k)}}{IS_{IR(k-1)}} - 1 \right)$$

$IRC_{IR(k-1),IR(k)}$

means the Intraday Rebalancing Cost of the Leverage Strategy in respect of $IR(k)$ on a given Intraday Restrike Date, calculated as follows:

$$IRC_{IR(k-1),IR(k)} = \text{Leverage} \times (\text{Leverage} - 1) \times \left(\left| \frac{IS_{IR(k)}}{IS_{IR(k-1)}} - 1 \right| \right) \times TC$$

$IS_{IR(k)}$

means the Underlying Stock Price in respect of $IR(k)$ computed as follows:

(1) for $k=0$

$$IS_{IR(0)} = S_{IRD-1} \times R_{\text{factor}_{IRD}}$$

(2) for $k=1$ to n

means in respect of $IR(k)$, the lowest price of the Underlying Stock during the respective Intraday Restrike Observation Period

(3) with respect to $IR(C)$

$$IS_{IR(C)} = S_{IRD}$$

In each case, subject to the adjustments and provisions of the Conditions.

IR(k)	For k=0, means the scheduled close for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto) on the Observation Date immediately preceding the relevant Intraday Restrike Date; For k=1 to n, means the kth Intraday Restrike Event on the relevant Intraday Restrike Date.
IR(C)	means the scheduled close for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto) on the relevant Intraday Restrike Date.
n	means the number of Intraday Restrike Events that occurred on the relevant Intraday Restrike Date.
Intraday Restrike Event	means in respect of an Observation Date(t): (1) provided no Intraday Restrike Event has previously occurred on such Observation Date (t), the decrease at any Calculation Time of the Underlying Stock price by 20% or more compared with the relevant Underlying Stock Price $IS_{IR(0)}$ as of such Calculation Time. (2) if k Intraday Restrike Events have occurred on the relevant Intraday Restrike Date, the decrease at any Calculation Time of the Underlying Stock price by 20% or more compared with the relevant Underlying Stock Price $IS_{IR(k)}$ as of such Calculation Time.
Calculation Time	means any time between the TimeReferenceOpening and the TimeReferenceClosing, provided that the relevant data is available to enable the Calculation Agent to determine the Leverage Strategy Level.
TimeReferenceOpening	means the scheduled opening time for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto).
TimeReferenceClosing	means the scheduled closing time for the Relevant Stock Exchange for the Underlying Stock (or any successor thereto).
Intraday Restrike Event Observation Period	means in respect of an Intraday Restrike Event, the period starting on and excluding the Intraday Restrike Event Time and finishing on and including the sooner between (1) the time falling 15 minutes of continuous trading after the Intraday Restrike Event Time and (2) the TimeReferenceClosing. Where, during such period, the Calculation Agent determines that (1) the trading in the Underlying Stock is disrupted or subject to suspension or limitation or (2) the Relevant Stock Exchange for the Underlying Stock is not open for continuous trading, the Intraday Restrike Event Observation Period will be extended to the extent necessary until (1) the trading in the Underlying Stock is no longer disrupted, suspended or limited and (2) the Relevant Stock Exchange for the Underlying Stock is open for continuous trading.
Intraday Restrike Event Time	means in respect of an Intraday Restrike Event, the Calculation Time on which such event occurs.

The Conditions set out in the section headed “Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities” in the Base Listing Document are set out below. This section is qualified in its entirety by reference to the detailed information appearing elsewhere in this document which shall, to the extent so specified or to the extent inconsistent with the relevant Conditions set out below, replace or modify the relevant Conditions for the purpose of the Certificates.

TERMS AND CONDITIONS OF

THE EUROPEAN STYLE CASH SETTLED LONG/SHORT CERTIFICATES ON SINGLE EQUITIES

1. Form, Status and Guarantee, Transfer and Title

- (a) *Form.* The Certificates (which expression shall, unless the context otherwise requires, include any further certificates issued pursuant to Condition 11) are issued subject to and with the benefit of: -
- (i) a master instrument by way of deed poll (the “**Master Instrument**”) dated 12 June 2026, made by SG Issuer (the “**Issuer**”) and Societe Generale (the “**Guarantor**”); and
 - (ii) a warrant agent agreement (the “**Master Warrant Agent Agreement**” or “**Warrant Agent Agreement**”) dated any time before or on the Closing Date, made between the Issuer and the Warrant Agent for the Certificates.

Copies of the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement are available for inspection at the specified office of the Warrant Agent.

The holders of the Certificates (the “**Certificate Holders**”) are entitled to the benefit of, are bound by and are deemed to have notice of all the provisions of the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement.

- (b) *Status and Guarantee.* The Certificates constitute direct, general and unsecured obligations of the Issuer and rank, and will rank, equally among themselves and *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer (save for statutorily preferred exceptions). The Certificates provide for cash settlement on exercise. The Certificates do not entitle Certificate Holders to the delivery of any Underlying Stock, are not secured by the Underlying Stock and do not entitle Certificate Holders to any interest in any Underlying Stock.

The due and punctual payment of any amounts due by the Issuer in respect of the Certificates issued by the Issuer is unconditionally and irrevocably guaranteed by the Guarantor as provided in the Guarantee (each such amount payable under the Guarantee, a “**Guarantee Obligation**”).

The Guarantee Obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking as senior preferred obligations as provided for in Article L. 613-30-3 I 3° of the French Code *Monétaire et Financier* (the “**Code**”).

Such Guarantee Obligations rank and will rank equally and rateably without any preference or priority among themselves and:

- (i) *pari passu* with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the law no. 2016-1691 (the “**Law**”) on 11 December 2016;
- (ii) *pari passu* with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;
- (iii) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and
- (iv) senior to all present and future senior non-preferred obligations (as provided for in Article L.613-30-3 I 4° of the Code) of the Guarantor.

In the event of the failure of the Issuer to promptly perform its obligations to any Certificate Holder under the terms of the Certificates, such Certificate Holder may, but is not obliged to, give written notice to the Guarantor at Societe Generale, Tour Societe Generale, 75886 Paris Cedex 18, France marked for the attention of SEGL/JUR/OMF - Market Transactions & Financing.

- (c) **Transfer.** The Certificates are represented by a global warrant certificate (“**Global Warrant**”) which will be deposited with The Central Depository (Pte) Limited (“**CDP**”). Certificates in definitive form will not be issued. Transfers of Certificates may be effected only in Board Lots or integral multiples thereof. All transactions in (including transfers of) Certificates, in the open market or otherwise, must be effected through a securities account with CDP. Title will pass upon registration of the transfer in the records maintained by CDP.
- (d) **Title.** Each person who is for the time being shown in the records maintained by CDP as entitled to a particular number of Certificates shall be treated by the Issuer, the Guarantor and the Warrant Agent as the holder and absolute owner of such number of Certificates, notwithstanding any notice to the contrary. The expression “**Certificate Holder**” shall be construed accordingly.
- (e) **Bail-In.** By the acquisition of Certificates, each Certificate Holder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Certificates) acknowledges, accepts, consents and agrees:
 - (i) to be bound by the effect of the exercise of the Bail-In Power (as defined below) by the Relevant Resolution Authority (as defined below) on the Issuer’s liabilities under the Certificates, which may include and result in any of the following, or some combination thereof:
 - (A) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;
 - (B) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Issuer or the Guarantor or another person (and the issue to the Certificate Holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the Conditions of the Certificates, in which case the Certificate Holder agrees to accept in lieu of its rights under the Certificates any such shares, other securities or other obligations of the Issuer or the Guarantor or another person;

- (C) the cancellation of the Certificates; and/or
- (D) the amendment or alteration of the expiration of the Certificates or amendment of the amounts payable on the Certificates, or the date on which the amounts become payable, including by suspending payment for a temporary period; and

that terms of the Certificates are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-In Power by the Relevant Resolution Authority or the regulator,

(the “**Statutory Bail-In**”);

- (ii) if the Relevant Resolution Authority exercises its Bail-In Power on liabilities of the Guarantor, pursuant to Article L.613-30-3-I-3 of the French Monetary and Financial Code (the “**Code**”):

- (A) ranking:
 - (1) junior to liabilities of the Guarantor benefitting from statutorily preferred exceptions pursuant to Article L.613-30-3-I 1° and 2 of the Code;
 - (2) *pari passu* with liabilities of the Guarantor as defined in Article L.613-30-3-I-3 of the Code; and
 - (3) senior to liabilities of the Guarantor as defined in Article L.613-30-3-I-4 of the Code; and
- (B) which are not *titres non structurés* as defined under Article R.613-28 of the Code, and
- (C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of the Guarantor

and such exercise of the Bail-In Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of the Guarantor or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-In Power, then the Issuer’s obligations under the Certificates will be limited to (i) payment of the amount as reduced or cancelled that would be recoverable by the Certificate Holders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of the Guarantor or another person that would be paid or delivered to the Certificate Holders as if, in either case, the Certificates had been directly issued by the Guarantor itself and any Amount Due under the Certificates had accordingly been directly subject to the exercise of the Bail-In Power (the “**Contractual Bail-in**”).

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-In with respect to the Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg

and the European Union applicable to the Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Certificates issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Certificates, the Issuer or the Guarantor will provide a written notice to the Certificate Holders in accordance with Condition 9 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. Any delay or failure by the Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Certificates described above.

Neither a cancellation of the Certificates, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to the Certificates will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Certificate Holder to any remedies (including equitable remedies) which are hereby expressly waived.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor and each Certificate Holder. No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the Issuer and the Guarantor, shall be borne by any Certificate Holder.

For the purposes of this Condition:

“Amounts Due” means any amounts due by the Issuer under the Certificates.

“Bail-In Power” means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, varied or otherwise modified in any way and/or converted into shares or other securities or obligations of the obligor or any other person.

“MREL” means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

“Relevant Resolution Authority” means any authority with the ability to exercise the Bail-in Power on Societe Generale or SG Issuer as the case may be.

2. Certificate Rights and Exercise Expenses

- (a) *Certificate Rights.* Every Certificate entitles each Certificate Holder, upon due exercise and on compliance with Condition 4, to payment by the Issuer of the Cash Settlement Amount (as defined below) (if any) in the manner set out in Condition 4.

The “**Cash Settlement Amount**”, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to the Closing Level multiplied by the Notional Amount per Certificate.

The “**Closing Level**”, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to:

$$\left(\frac{\text{Final Reference Level} \times \text{Final Exchange Rate}}{\text{Initial Reference Level} \times \text{Initial Exchange Rate}} - \text{Strike Level} \right) \times \text{Hedging Fee Factor}$$

If the Issuer determines, in its sole discretion, that on the Valuation Date or any Observation Date a Market Disruption Event has occurred, then that Valuation Date or Observation Date shall be postponed until the first succeeding Exchange Business Day or Underlying Stock Business Day, as the case may be, on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the five Exchange Business Days or Underlying Stock Business Days, as the case may be, immediately following the original date that, but for the Market Disruption Event, would have been a Valuation Date or an Observation Date. In that case: -

- (i) that fifth Exchange Business Day or Underlying Stock Business Day, as the case may be, shall be deemed to be the Valuation Date or the Observation Date notwithstanding the Market Disruption Event; and
- (ii) the Issuer shall determine the Final Reference Level or the relevant closing level on the basis of its good faith estimate of the Final Reference Level or the relevant closing level that would have prevailed on that fifth Exchange Business Day or Underlying Stock Business Day, as the case may be, but for the Market Disruption Event.

“**Market Disruption Event**” means the occurrence or existence of (i) any suspension of trading on the Relevant Stock Exchange of the Underlying Stock requested by the Company if that suspension is, in the determination of the Issuer, material, (ii) any suspension of or limitation imposed on trading (including but not limited to unforeseen circumstances such as by reason of movements in price exceeding limits permitted by the Relevant Stock Exchange or any act of God, war, riot, public disorder, explosion, terrorism or otherwise) on the Relevant Stock Exchange in the Underlying Stock if that suspension or limitation is, in the determination of the Issuer, material, or (iii) the closing of the Relevant Stock Exchange or a disruption to trading on the Relevant Stock Exchange if that disruption is, in the determination of the Issuer, material as a result of the occurrence of any act of God, war, riot, public disorder, explosion or terrorism.

- (b) *Exercise Expenses.* Certificate Holders will be required to pay all charges which are incurred in respect of the exercise of the Certificates (the “**Exercise Expenses**”). An amount equivalent to the Exercise Expenses will be deducted by the Issuer from the Cash Settlement Amount in accordance with Condition 4. Notwithstanding the foregoing, the Certificate Holders shall account to the Issuer on demand for any Exercise Expenses to the extent that they were not or could not be deducted from the Cash Settlement Amount prior to the date of payment of the Cash Settlement Amount to the Certificate Holders in accordance with Condition 4.

- (c) No Rights. The purchase of Certificates does not confer on the Certificate Holders any right (whether in respect of voting, dividend or other distributions in respect of the Underlying Stock or otherwise) which the holder of an Underlying Stock may have.

3. Expiry Date

Unless automatically exercised in accordance with Condition 4(b), the Certificates shall be deemed to expire at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day (as defined below), the immediately preceding Business Day.

4. Exercise of Certificates

- (a) *Exercise.* Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in accordance with Condition 4(b).
- (b) *Automatic Exercise.* Certificate Holders shall not be required to deliver an exercise notice. Exercise of Certificates shall be determined by whether the Cash Settlement Amount (less any Exercise Expenses) is positive. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates shall be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in Condition 4(c) below. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates.
- (c) *Settlement.* In respect of Certificates which are automatically exercised in accordance with Condition 4(b), the Issuer will pay to the relevant Certificate Holder the Cash Settlement Amount (if any) in the Settlement Currency. The aggregate Cash Settlement Amount (less any Exercise Expenses) shall be despatched as soon as practicable and no later than five Settlement Business Days (as defined in the relevant Supplemental Listing Document and subject to extension upon the occurrence of a Settlement Disruption Event (as defined below)) following the Expiry Date by way of crossed cheque or other payment in immediately available funds drawn in favour of the Certificate Holder only (or, in the case of joint Certificate Holders, the first-named Certificate Holder) appearing in the records maintained by CDP. Any payment made pursuant to this Condition 4(c) shall be delivered at the risk and expense of the Certificate Holder and posted to the Certificate Holder's address appearing in the records maintained by CDP (or, in the case of joint Certificate Holders, to the address of the first-named Certificate Holder appearing in the records maintained by CDP). If the Cash Settlement Amount is equal to or less than the determined Exercise Expenses, no amount is payable.

If the Issuer determines, in its sole discretion, that on any Settlement Business Day during the period of five Settlement Business Days following the Expiry Date a Settlement Disruption Event has occurred, such Settlement Business Day shall be postponed to the next Settlement Business Day on which the Issuer determines that the Settlement Disruption Event is no longer subsisting and such period shall be extended accordingly, provided that the Issuer and/or the Guarantor shall make their best endeavours to implement remedies as soon as reasonably practicable to eliminate

the impact of the Settlement Disruption Event on its/their payment obligations under the Certificates and/or the Guarantee.

“Settlement Disruption Event” means the occurrence or existence of any malicious action or attempt initiated to steal, expose, alter, disable or destroy information through unauthorised access to, or maintenance or use of, the Computer Systems of the Issuer, the Guarantor, the Calculation Agent, their respective affiliates (the “SG Group”), their IT service providers, by (and without limitation) the use of malware, ransomware, phishing, denial or disruption of service or cryptojacking or any unauthorized entry, removal, reproduction, transmission, deletion, disclosure or modification preventing the Issuer, the Guarantor and/or the Calculation Agent to perform their obligations under the Certificates, and notwithstanding the implementation of processes, required, as the case may be, by the laws and regulations applicable to the Issuer, the Guarantor, the Calculation Agent and their affiliates, or their IT service providers to improve their resilience to these actions and attempts.

“Computer System” means all the computer resources including, in particular: hardware, software packages, software, databases and peripherals, equipment, networks, electronic installations for storing computer data, including Data. The Computer System shall be understood to be that which (i) belongs to the SG Group and/or (ii) is rented, operated or legally held by the SG Group under a contract with the holder of the rights to the said system and/or (iii) is operated on behalf of the SG Group by a third party within the scope of a contractual relationship and/or (iv) is made available to the SG Group under a contract within the framework of a shared system (in particular cloud computing).

“Data” means any digital information, stored or used by the Computer System, including confidential data.

- (d) *CDP not liable.* CDP shall not be liable to any Certificate Holder with respect to any action taken or omitted to be taken by the Issuer or the Warrant Agent in connection with the exercise of the Certificates or otherwise pursuant to or in connection with these Conditions.
- (e) *Business Day.* In these Conditions, a **“Business Day”** shall be a day on which the SGX-ST is open for dealings in Singapore during its normal trading hours and banks are open for business in Singapore.

5. Warrant Agent

- (a) *Warrant Agent.* The Issuer reserves the right, subject to the appointment of a successor, at any time to vary or terminate the appointment of the Warrant Agent and to appoint another Warrant Agent provided that it will at all times maintain a Warrant Agent which, so long as the Certificates are listed on the SGX-ST, shall be in Singapore. Notice of any such termination or appointment and of any change in the specified office of the Warrant Agent will be given to the Certificate Holders in accordance with Condition 9.
- (b) *Agent of Issuer.* The Warrant Agent will be acting as agent of the Issuer and will not assume any obligation or duty to or any relationship of agency or trust for the Certificate Holders. All determinations and calculations by the Warrant Agent under these Conditions shall (save in the case of manifest error) be final and binding on the Issuer and the Certificate Holders.

6. Adjustments

- (a) *Potential Adjustment Event.* Following the declaration by a Company of the terms of any Potential Adjustment Event (as defined below), the Issuer will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the Underlying Stock and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Issuer determines appropriate to account for that dilutive or concentrative or other effect, and (ii) determine the effective date of that adjustment. The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an exchange on which options or futures contracts on the Underlying Stock are traded.
- (b) *Definitions.* “**Potential Adjustment Event**” means any of the following:
- (i) a subdivision, consolidation, reclassification or other restructuring of the Underlying Stock (excluding a Merger Event) or a free distribution or dividend of any such Underlying Stock to existing holders by way of bonus, capitalisation or similar issue;
 - (ii) a distribution or dividend to existing holders of the Underlying Stock of (1) such Underlying Stock, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Underlying Stock, or (3) share capital or other securities of another issuer acquired by the Company as a result of a “spin-off” or other similar transaction, or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Issuer;
 - (iii) an extraordinary dividend;
 - (iv) a call by the Company in respect of the Underlying Stock that is not fully paid;
 - (v) a repurchase by the Company of the Underlying Stock whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 - (vi) with respect to a Company an event that results in any shareholder rights pursuant to a shareholder rights agreement or other plan or arrangement of the type commonly referred to as a “poison pill” being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Company (provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights); or
 - (vii) any other event that may have, in the opinion of the Issuer, a dilutive or concentrative or other effect on the theoretical value of the Underlying Stock.
- (c) *Merger Event, Tender Offer, Nationalisation and Insolvency.* If a Merger Event, Tender Offer, Nationalisation or Insolvency occurs in relation to the Underlying Stock, the Issuer may take any action described below:
- (i) determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and determine the effective

date of that adjustment. The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, Nationalisation or Insolvency made by an options exchange to options on the Underlying Stock traded on that options exchange;

- (ii) cancel the Certificates by giving notice to the Certificate Holders in accordance with Condition 9. If the Certificates are so cancelled, the Issuer will pay an amount to each Certificate Holder in respect of each Certificate held by such Certificate Holder which amount shall be the fair market value of a Certificate taking into account the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, less the cost to the Issuer and/or any of its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its reasonable discretion. Payment will be made in such manner as shall be notified to the Certificate Holders in accordance with Condition 9; or
- (iii) following any adjustment to the settlement terms of options on the Underlying Stock on such exchange(s) or trading system(s) or quotation system(s) as the Issuer in its reasonable discretion shall select (the “**Option Reference Source**”) make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Issuer to be the effective date of the corresponding adjustment made by the Option Reference Source. If options on the Underlying Stock are not traded on the Option Reference Source, the Issuer will make such adjustment, if any, to any one or more of the Conditions as the Issuer determines appropriate, with reference to the rules and precedents (if any) set by the Option Reference Source, to account for the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, that in the determination of the Issuer would have given rise to an adjustment by the Option Reference Source if such options were so traded.

Once the Issuer determines that its proposed course of action in connection with a Merger Event, Tender Offer, Nationalisation or Insolvency, it shall give notice to the Certificate Holders in accordance with Condition 9 stating the occurrence of the Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. Certificate Holders should be aware that due to the nature of such events, the Issuer will not make an immediate determination of its proposed course of action or adjustment upon the announcement or occurrence of a Merger Event, Tender Offer, Nationalisation or Insolvency.

- (d) *Definitions.* “**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Company (i) all the Underlying Stock of that Company is required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Underlying Stock of that Company become legally prohibited from transferring them. “**Merger Date**” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Issuer. “**Merger Event**” means, in respect of the Underlying Stock, any (i) reclassification or change of such Underlying Stock that results in a transfer of or an irrevocable commitment to transfer all of such Underlying

Stock outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of a Company with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Company is the continuing entity and which does not result in reclassification or change of all of such Underlying Stock outstanding), (iii) takeover offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Underlying Stock of the Company that results in a transfer of or an irrevocable commitment to transfer all such Underlying Stock (other than such Underlying Stock owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Company or its subsidiaries with or into another entity in which the Company is the continuing entity and which does not result in a reclassification or change of all such Underlying Stock outstanding but results in the outstanding Underlying Stock (other than Underlying Stock owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Underlying Stock immediately following such event, in each case if the Merger Date is on or before the Valuation Date. “**Nationalisation**” means that all the Underlying Stock or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof. “**Tender Offer**” means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Issuer, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Issuer deems relevant.

- (e) *Subdivision or Consolidation of the Certificates.* The Issuer reserves the right to subdivide or consolidate the Certificates, provided that such adjustment is considered by the Issuer not to be materially prejudicial to the Certificate Holders generally (without considering the circumstances of any individual Certificate Holder or the tax or other consequences of such adjustment or amendment in any particular jurisdiction) and subject to the approval of the SGX-ST.
- (f) *Other Adjustments.* Except as provided in this Condition 6 and Conditions 10 and 12, adjustments will not be made in any other circumstances, subject to the right reserved by the Issuer (such right to be exercised in the Issuer's sole discretion and without any obligation whatsoever) to make such adjustments and amendments as it believes appropriate in circumstances where an event or events occur which it believes in its sole discretion (and notwithstanding any prior adjustment made pursuant to the above) should, in the context of the issue of the Certificates and the obligations of the Issuer, give rise to such adjustment or, as the case may be, amendment provided that such adjustment or, as the case may be, amendment is considered by the Issuer not to be materially prejudicial to the Certificate Holders generally (without considering the circumstances of any individual Certificate Holder or the tax or other consequences of such adjustment or amendment in any particular jurisdiction).

- (g) *Notice of Adjustments.* All determinations made by the Issuer pursuant hereto will be conclusive and binding on the Certificate Holders. The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective by publication in accordance with Condition 9. For the avoidance of doubt, no notice will be given if the Issuer determines that adjustments will not be made.

6A. US withholding tax implications on the Payment

Notwithstanding any other provision of these Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of the Certificates for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**US Code**”), or otherwise imposed pursuant to Sections 1471 through 1474 of the US Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto, (ii) imposed pursuant to the Section 871(m) Regulations (“**Section 871(m) Withholding**”) or (iii) imposed by any other law of the United States. In addition, in determining the amount of Section 871(m) Withholding imposed on any payments on the Certificates, the Issuer shall be entitled to withhold on any “dividend equivalent” (as defined for purposes of Section 871(m) of the US Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Specified Warrants that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on Certificates that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

For the purpose of this Condition:

“**Section 871(m) Regulations**” means the U.S. Treasury regulations issued under Section 871(m) of the Code.

“**Specified Warrants**” means, subject to special rules from 2017 through 2026 set out in Notice 2024-44 (the Notice), Warrants issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Warrants as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations, such that the Warrants are subject to withholding under the Section 871(m) Regulations.

7. Purchases

The Issuer, the Guarantor or any of their respective subsidiaries may at any time purchase Certificates at any price in the open market or by tender or by private treaty. Any Certificates so purchased may be held or resold or surrendered for cancellation.

8. Meetings of Certificate Holders; Modification

- (a) *Meetings of Certificate Holders.* The Master Warrant Agent Agreement or Warrant Agent Agreement contains provisions for convening meetings of the Certificate Holders to consider any matter affecting their interests, including the sanctioning by

Extraordinary Resolution (as defined in the Master Warrant Agent Agreement or Warrant Agent Agreement) of a modification of the provisions of the Certificates or of the Master Warrant Agent Agreement or Warrant Agent Agreement.

At least 21 days' notice (exclusive of the day on which the notice is given and of the day on which the meeting is held) specifying the date, time and place of the meeting shall be given to the Certificate Holders.

Such a meeting may be convened by the Issuer or by Certificate Holders holding not less than ten per cent. of the Certificates for the time being remaining unexercised. The quorum at any such meeting for passing an Extraordinary Resolution will be two or more persons holding or representing not less than 25 per cent. of the Certificates for the time being remaining unexercised, or at any adjourned meeting, two or more persons being or representing Certificate Holders whatever the number of Certificates so held or represented.

A resolution will be an Extraordinary Resolution when it has been passed at a duly convened meeting by not less than three-quarters of the votes cast by such Certificate Holders who, being entitled to do so, vote in person or by proxy.

An Extraordinary Resolution passed at any meeting of the Certificate Holders shall be binding on all the Certificate Holders whether or not they are present at the meeting. Resolutions can be passed in writing if passed unanimously.

- (b) *Modification.* The Issuer may, without the consent of the Certificate Holders, effect (i) any modification of the provisions of the Certificates or the Master Instrument which is not materially prejudicial to the interests of the Certificate Holders or (ii) any modification of the provisions of the Certificates or the Master Instrument which is of a formal, minor or technical nature, which is made to correct an obvious error or which is necessary in order to comply with mandatory provisions of Singapore law. Any such modification shall be binding on the Certificate Holders and shall be notified to them by the Warrant Agent before the date such modification becomes effective or as soon as practicable thereafter in accordance with Condition 9.

9. Notices

- (a) *Documents.* All cheques and other documents required or permitted by these Conditions to be sent to a Certificate Holder or to which a Certificate Holder is entitled or which the Issuer shall have agreed to deliver to a Certificate Holder may be delivered by hand or sent by post addressed to the Certificate Holder at his address appearing in the records maintained by CDP or, in the case of joint Certificate Holders, addressed to the joint holder first named at his address appearing in the records maintained by CDP, and airmail post shall be used if that address is not in Singapore. All documents delivered or sent in accordance with this paragraph shall be delivered or sent at the risk of the relevant Certificate Holder.
- (b) *Notices.* All notices to Certificate Holders will be validly given if published in English on the web-site of the SGX-ST. Such notices shall be deemed to have been given on the date of the first such publication. If publication on the web-site of the SGX-ST is not practicable, notice will be given in such other manner as the Issuer may determine. The Issuer shall, at least one month prior to the expiry of any Certificate, give notice of the date of expiry of such Certificate in the manner prescribed above.

10. Liquidation

In the event of a liquidation or dissolution of the Company or the appointment of a liquidator (including a provisional liquidator) or receiver or judicial manager or trustee or administrator or analogous person under Singapore or other applicable law in respect of the whole or substantially the

whole of its undertaking, property or assets, all unexercised Certificates will lapse and shall cease to be valid for any purpose, in the case of voluntary liquidation, on the effective date of the relevant resolution and, in the case of an involuntary liquidation or dissolution, on the date of the relevant court order or, in the case of the appointment of a liquidator (including a provisional liquidator) or receiver or judicial manager or trustee or administrator or analogous person under Singapore or other applicable law in respect of the whole or substantially the whole of its undertaking, property or assets, on the date when such appointment is effective but subject (in any such case) to any contrary mandatory requirement of law. In the event of the voluntary liquidation of the Company, the Issuer shall make such adjustments or amendments as it reasonably believes are appropriate in the circumstances.

11. Further Issues

The Issuer shall be at liberty from time to time, without the consent of the Certificate Holders, to create and issue further certificates so as to form a single series with the Certificates, subject to the approval of the SGX-ST.

12. Delisting

- (a) **Delisting.** If at any time, the Underlying Stock ceases to be listed on the Relevant Stock Exchange, the Issuer shall give effect to these Conditions in such manner and make such adjustments and amendments to the rights attaching to the Certificates as it shall, in its absolute discretion, consider appropriate to ensure, so far as it is reasonably able to do so, that the interests of the Certificate Holders generally are not materially prejudiced as a consequence of such delisting (without considering the individual circumstances of any Certificate Holder or the tax or other consequences that may result in any particular jurisdiction).
- (b) **Issuer's Determination.** The Issuer shall determine, in its absolute discretion, any adjustment or amendment and its determination shall be conclusive and binding on the Certificate Holders save in the case of manifest error. Notice of any adjustments or amendments shall be given to the Certificate Holders in accordance with Condition 9 as soon as practicable after they are determined.

13. Early Termination

- (a) *Early Termination for Illegality and Force Majeure, etc.* If the Issuer determines that a Regulatory Event (as defined below) has occurred and, for reasons beyond its control, the performance of its obligations under the Certificates has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Certificates for any reason, the Issuer may in its discretion and without obligation terminate the Certificates early in accordance with Condition 13(e).

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

For the purposes of this Condition:

"Regulatory Event" means, following the occurrence of a Change in Law (as defined below) with respect to the Issuer and/or Societe Generale as Guarantor or in any other capacity (including without limitation as hedging counterparty of the Issuer, market maker of the Certificates or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issuer of the Certificates (hereafter the **"Relevant Affiliates"** and each of the Issuer, Societe Generale and the Relevant Affiliates, a

“Relevant Entity”) that, after the Certificates have been issued, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Certificates or hedging the Issuer’s obligations under the Certificates, including, without limitation, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of, or hedging the Issuer’s obligation under, the Certificates, (ii) it is or will become for any Relevant Entity impracticable, impossible (in each case, after using commercially reasonable efforts), unlawful, illegal or otherwise prohibited or contrary, in whole or in part, under any law, regulation, rule, judgement, order or directive of any governmental, administrative or judicial authority, or power, applicable to such Relevant Entity (a) to hold, acquire, issue, reissue, substitute, maintain, settle, or as the case may be, guarantee, the Certificates, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interest thereof) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Certificates or to hedge the Issuer’s obligations under the Certificates, (c) to perform obligations in connection with, the Certificates or any contractual arrangement entered into between the Issuer and Societe Generale or any Relevant Affiliate (including without limitation to hedge the Issuer’s obligations under the Certificates) or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer’s capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Certificates.

“Change in law” means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Certificates have been issued, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force when the Certificates have been issued but in respect of which the manner of its implementation or application was not known or unclear at the time, or (iii) the change of any applicable law, regulation or rule existing when the Certificates are issued, or the change in the interpretation or application or practice relating thereto, existing when the Certificates are issued of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing when the Certificates are issued).

- (b) *Early Termination for Holding Limit Event.* The Issuer may in its discretion and without obligation terminate the Certificates early in accordance with Condition 13(e) where a Holding Limit Event (as defined below) occurs.

For the purposes of this Condition:

“Holding Limit Event” means, assuming the investor is the Issuer and/or any of its affiliates, the Issuer together with its affiliates, in aggregate hold, an interest in the Underlying Stock, constituting or likely to constitute (directly or indirectly) ownership, control or the power to vote a percentage of any class of voting securities of the Underlying Stock, of the Underlying Stock in excess of a percentage permitted or advisable, as determined by the Issuer, for the purpose of its compliance with the Bank

Holding Company Act of 1956 as amended by Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Volcker Rule), including any requests, regulations, rules, guidelines or directives made by the relevant governmental authority under, or issued by the relevant governmental authority in connection with, such statutes.

- (c) *Early Termination for Hedging Disruption.* If the Issuer or any of its affiliates is, following commercially reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedge Positions (as defined below) or (ii) to freely realize, recover, receive, repatriate, remit, regain or transfer the proceeds of any Hedge Position (where either (i) or (ii) shall constitute a "**Hedging Disruption**"), the Issuer may terminate the Certificates early in accordance with Condition 13(e) provided that the intrinsic value on the previous trading day of the relevant Certificate is at or above the Issue Price. The Issuer's decision on whether a Hedging Disruption has occurred is final and conclusive. For the avoidance of doubt, Hedging Disruptions shall include the scenario where any Hedge Position cannot be maintained up to the amount necessary to cover all of the Issuer's obligations under the Certificates.

For the purposes hereof, "**Hedge Positions**" means any one or more commercially reasonable (i) positions (including long or short positions) or contracts in, or relating to, securities, options, futures, other derivatives contracts or foreign exchange, (ii) stock loan or borrowing transactions or (iii) other instruments, contracts, transactions or arrangements (howsoever described) that the Issuer or any of its affiliates determines necessary to hedge, individually or on a portfolio basis, any risk (including, without limitation, market risk, price risk, foreign exchange risk and interest rate risk) in relation to the assumption and fulfilment of the Issuer's obligations under the Certificates.

- (d) *Early Termination for other reasons.* The Issuer reserves the right (such right to be exercised in the Issuer's sole and unfettered discretion and without any obligation whatsoever) to terminate the Certificates in accordance with Condition 13(e) where an event or events occur which it believes in its sole discretion should, in the context of the issue of the Certificates and the obligations of the Issuer, give rise to such termination provided that such termination (i) is considered by the Issuer not to be materially prejudicial to the interests of Certificate Holders generally (without considering the circumstances of any individual Certificate Holder or the tax or other consequences of such termination in any particular jurisdiction); or (ii) is otherwise considered by the Issuer to be appropriate and such termination is approved by the SGX-ST.
- (e) *Termination.* If the Issuer terminates the Certificates early, the Issuer will give notice to the Certificate Holders in accordance with Condition 9. The Issuer will, if and to the extent permitted by applicable law, pay an amount to each Certificate Holder in respect of each Certificate held by such holder equal to the fair market value of a Certificate notwithstanding such illegality, impracticality or the relevant event less the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion. The determination of the fair market value may deviate from the determination of the Cash Settlement Amount under different scenarios, including but not limited to, where (i) the Daily Reset (as defined in the relevant Supplemental Listing Document) mechanism is suspended and/or (ii) the Final Reference Level is determined based on the closing price of the Underlying Stock

on multiple Underlying Stock Business Days or Exchange Business Days, as the case may be. Payment will be made in such manner as shall be notified to the Certificate Holders in accordance with Condition 9.

14. Substitution of the Issuer

The Issuer may be replaced by the Guarantor or any subsidiary of the Guarantor as principal obligor in respect of the Certificates without the consent of the relevant Certificate Holders. If the Issuer determines that it shall be replaced by the Guarantor or any subsidiary of the Guarantor (the “**Substituted Obligor**”), it shall give at least 90 days’ notice (exclusive of the day on which the notice is given and of the day on which the substitution is effected) specifying the date of the substitution, in accordance with Condition 9, to the Certificate Holders of such event and, immediately on the expiry of such notice, the Substituted Obligor shall become the principal obligor in place of the Issuer and the Certificate Holders shall thereupon cease to have any rights or claims whatsoever against the Issuer.

Upon any such substitution, all references to the Issuer in the Conditions and all agreements relating to the Certificates will be to the Substituted Obligor and the Certificates will be modified as required, and the Certificate Holders will be notified of the modified terms and conditions of such Certificates in accordance with Condition 9.

For the purposes of this Condition, it is expressly agreed that by subscribing to, acquiring or otherwise purchasing or holding the Certificates, the Certificate Holders are expressly deemed to have consented to the substitution of the Issuer by the Substituted Obligor and to the release of the Issuer from any and all obligations in respect of the Certificates and all agreements relating thereto and are expressly deemed to have accepted such substitution and the consequences thereof.

15. Governing Law

The Certificates, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement will be governed by and construed in accordance with Singapore law. The Issuer and the Guarantor and each Certificate Holder (by its purchase of the Certificates) shall be deemed to have submitted for all purposes in connection with the Certificates, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement to the non-exclusive jurisdiction of the courts of Singapore. The Guarantee shall be governed by and construed in accordance with Singapore law.

16. Prescription

Claims against the Issuer for payment of any amount in respect of the Certificates will become void unless made within six years of the Expiry Date and, thereafter, any sums payable in respect of such Certificates shall be forfeited and shall revert to the Issuer.

17. Contracts (Rights of Third Parties) Act 2001 of Singapore

Unless otherwise provided in the Global Warrant, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement, a person who is not a party to any contracts made pursuant to the Global Warrant, the Master Instrument and the Master Warrant Agent Agreement or Warrant Agent Agreement has no rights under the Contracts (Rights of Third Parties) Act 2001 of Singapore to enforce any terms of such contracts. Except as expressly provided herein, the consent of any third party is not required for any subsequent agreement by the parties hereto to amend or vary (including any release or compromise of any liability) or terminate such contracts.

SUMMARY OF THE ISSUE

The following is a summary of the issue and should be read in conjunction with, and is qualified by reference to, the other information set out in this document and the Base Listing Document. Terms used in this Summary are defined in the Conditions.

Issuer:	SG Issuer
Company:	Micron Technology, Inc.
The Certificates:	European Style Cash Settled Long Certificates relating to the Underlying Stock
Number:	3,200,000 Certificates
Form:	The Certificates will be issued subject to, and with the benefit of, a master instrument by way of deed poll dated 12 June 2026 (the “ Master Instrument ”) and executed by the Issuer and the Guarantor and a master warrant agent agreement dated 29 May 2017 (the “ Master Warrant Agent Agreement ”) and made between the Issuer, the Guarantor and the Warrant Agent (as amended and/or supplemented from time to time).
Cash Settlement Amount:	In respect of each Certificate, is the amount (if positive) equal to: Notional Amount per Certificate x Closing Level
Denominations:	Certificates are represented by a global warrant in respect of all the Certificates.
Exercise:	The Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in a Board Lot or integral multiples thereof. Certificate Holders will not be required to deliver an exercise notice. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates will be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in Condition 4(c) of the Conditions. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates.
Exercise and Trading Currency:	SGD
Board Lot:	100 Certificates

Transfers of Certificates:	Certificates may only be transferred in Board Lots (or integral multiples thereof). All transfers in Certificates, in the open market or otherwise, must be effected through a securities account with CDP. Title will pass upon registration of the transfer in the records of CDP.
Listing:	Application has been made to the SGX-ST for permission to deal in and for quotation of the Certificates and the SGX-ST has agreed in principle to grant permission to deal in and for quotation of the Certificates. Issue of the Certificates is conditional on such listing being granted. It is expected that dealings in the Certificates on the SGX-ST will commence on or about 8 July 2026.
Governing Law:	The laws of Singapore
Warrant Agent:	The Central Depository (Pte) Limited 4 Shenton Way #02-01 SGX Centre 2 Singapore 068807
Further Issues:	Further issues which will form a single series with the Certificates will be permitted, subject to the approval of the SGX-ST.

The above summary is qualified in its entirety by reference to the detailed information appearing elsewhere in this document and the Base Listing Document.

INFORMATION RELATING TO THE EUROPEAN STYLE CASH SETTLED LONG CERTIFICATES ON SINGLE EQUITIES

What are European Style Cash Settled Long Certificates on Single Equities?

European style cash settled long certificates on single equities (the “**Certificates**”) are structured products relating to the Underlying Stock and the return on a Certificate is linked to the performance of the Leverage Strategy.

A) Cash Settlement Amount Payable upon the Exercise of the Certificates at Expiry

Upon the exercise of the Certificates at expiry, the Certificate Holders would be paid a Cash Settlement Amount in respect of each Certificate.

The Cash Settlement Amount, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to the Closing Level multiplied by the Notional Amount per Certificate.

The Closing Level, in respect of each Certificate, shall be an amount payable in the Settlement Currency equal to (1) divided by (2) less (3) subject to any adjustments such as (4), where:

(1) is the Final Reference Level multiplied by the Final Exchange Rate;

(2) is the Initial Reference Level multiplied by the Initial Exchange Rate;

(3) is the Strike Level; and

(4) is the Hedging Fee Factor.

If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Certificates shall be deemed to have been automatically exercised and investors will receive a Cash Settlement Amount. If the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired. Please refer to the section headed “Terms and Conditions of the European Style Cash Settled Long/Short Certificates on Single Equities” for further details on the calculation of the Cash Settlement Amount.

The Certificates are only suitable for investors who believe that the price of the Underlying Stock will increase and are seeking short-term leveraged exposure to the Underlying Stock.

B) Trading the Certificates before Expiry

If the Certificate Holders want to cash out their investments in the Certificates before the expiry of the Certificates, they may sell the Certificates in the secondary market during the life of the Certificates, and would be subject to the following fees and charges:

- (i) For Certificate Holders who trade the Certificates intraday: shall pay normal transaction and brokerage fees for the trading of the Certificates on the SGX-ST, and may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Certificates are transferred; and
- (ii) For Certificate Holders who hold the Certificates beyond market close of the SGX-ST: in addition to the normal transaction and brokerage fees and applicable stamp taxes, would also be required to bear the Management Fee and Gap Premium as well as certain costs embedded within the Leverage Strategy including the Funding Cost and Rebalancing Cost. Due to the difference in trading hours of the SGX-ST and the Relevant Stock Exchange for the Underlying Stock, unless investors exit their position within the same SGX-ST trading day, they would bear the annualised costs.

Illustration of the Calculation of Hedging Fee Factor

Hedging Fee Factor	=	Product of the Daily Fees
--------------------	---	---------------------------

Daily Fees	=	Daily Management Fee Adjustment	
		$1 - \text{Management Fee} \times \text{ACT} (t-1;t) / 360$	
		x	
		Daily Gap Premium Adjustment	
		$1 - \text{Gap Premium} (t-1) \times \text{ACT} (t-1;t) / 360$	

Illustration of the Calculation of Cash Settlement Amount

Cash Settlement Amount = Final Value of Certificates – Strike Level (zero)

Value of Certificates	=	<table border="1"> <tr><th>t⁶=0</th></tr> <tr><td>Notional Amount</td></tr> </table>	t ⁶ =0	Notional Amount	x	<table border="1"> <tr><th>t=1</th></tr> <tr> <td>Leverage Strategy daily performance⁷</td> <td>x</td> <td>Daily Fees</td> </tr> </table>	t=1	Leverage Strategy daily performance ⁷	x	Daily Fees	x	<table border="1"> <tr><th>t=2</th></tr> <tr> <td>Leverage Strategy daily performance</td> <td>x</td> <td>Daily Fees</td> </tr> </table>	t=2	Leverage Strategy daily performance	x	Daily Fees	x ...	<table border="1"> <tr><th>t=i</th></tr> <tr> <td>Leverage Strategy Daily performance</td> <td>x</td> <td>Daily Fees</td> </tr> </table>	t=i	Leverage Strategy Daily performance	x	Daily Fees
			t ⁶ =0

			t=0									
Notional Amount												
Final Reference Level x Final Exchange Rate	÷	Initial Reference Level x Initial Exchange Rate										
Hedging Fee Factor												

Illustration of the applicable fees and charges for an intraday trading scenario

Hedging Fee is implemented overnight in the price of the Certificate. As a consequence, when trading intraday within SGX-ST trading hours, investors will not bear any Hedging Fee.

Investors will only support bid/ask costs, which are the difference between the price at which the Designated Market Maker purchases (bid) and sells (ask) the Certificate at any point of time.

⁶ "t" refers to "Observation Date" which means each Underlying Stock Business Day (subject to Market Disruption Event) from (and including) the Underlying Stock Business Day immediately preceding the Expected Listing Date to the Valuation Date on which no Market Disruption Event occurs.

⁷ Leverage Strategy daily performance is computed as the Leverage Strategy Closing Level on Business Day (t) divided by the Leverage Strategy Closing Level on Business Day (t-1).

Example of Calculation of Hedging Fee Factor and Cash Settlement Amount

The example is purely hypothetical. We include the example to illustrate how the Certificates work, and you MUST NOT rely on them as any indication of the actual return or what the payout on the Certificates might actually be. The example also assumes a product which expires 16 days after listing date, to illustrate the daily calculation of price, costs and fees from listing date to expiry date.

Assuming an investor purchases the following Certificates at the Issue Price:

Underlying Stock:	Common Stock of Micron Technology, Inc.
Expected Listing Date:	03/07/2018
Expiry Date:	18/07/2018
Initial Reference Level:	1,000
Initial Exchange Rate:	1
Final Reference Level:	1,200
Final Exchange Rate:	1
Issue Price:	5.00 SGD
Notional Amount per Certificate:	5.00 SGD
Management Fee (p.a.):	0.40%
Gap Premium (p.a.):	27.00%
Strike Level:	Zero

Hedging Fee Factor

Hedging Fee Factor on the n^{th} Underlying Stock Business Day after issuance of Certificate ("HFF (n)") is calculated as follows:

$$\text{HFF}(0) = 100\%$$

On Next Calendar Day (assuming it is an Underlying Stock Business Day):

$$\text{HFF}(1) = \text{HFF}(0) \times \left(1 - \text{Management Fee} \times \frac{\text{ACT}(t-1; t)}{360}\right) \times \left(1 - \text{Gap Premium} \times \frac{\text{ACT}(t-1; t)}{360}\right)$$

$$\text{HFF}(1) = 100\% \times \left(1 - 0.40\% \times \frac{1}{360}\right) \times \left(1 - 27.00\% \times \frac{1}{360}\right)$$

$$\text{HFF}(1) = 100\% \times 99.9989\% \times 99.9250\% \approx 99.9239\%$$

Assuming 2nd Underlying Stock Business Day falls 3 Calendar Days after 1st Underlying Stock Business Day:

$$\text{HFF}(2) = \text{HFF}(1) \times \left(1 - \text{Management Fee} \times \frac{\text{ACT}(t-1; t)}{360}\right) \times \left(1 - \text{Gap Premium} \times \frac{\text{ACT}(t-1; t)}{360}\right)$$

$$\text{HFF (2)} = 99.9239\% \times \left(1 - 0.40\% \times \frac{3}{360}\right) \times \left(1 - 27.00\% \times \frac{3}{360}\right)$$

$$\text{HFF (2)} = 99.9239\% \times 99.9967\% \times 99.7750\% \approx 99.6957\%$$

The same principle applies to the following Underlying Stock Business Days:

$$\text{HFF (n)} = \text{HFF (n - 1)} \times \left(1 - \text{Management Fee} \times \frac{\text{ACT (t - 1; t)}}{360}\right) \times \left(1 - \text{Gap Premium} \times \frac{\text{ACT (t - 1; t)}}{360}\right)$$

In this example, the Hedging Fee Factor as of the Valuation Date would be equal to 98.8641% as illustrated below:

Date	HFF
03/07/2018	100.0000%
04/07/2018	99.9239%
05/07/2018	99.8478%
06/07/2018	99.7718%
09/07/2018	99.5440%
10/07/2018	99.4683%
11/07/2018	99.3926%
12/07/2018	99.3169%
13/07/2018	99.2413%
16/07/2018	99.0147%
17/07/2018	98.9394%
18/07/2018	98.8641%

Cash Settlement Amount

In this example, the Closing Level and the Cash Settlement Amount would be computed as follows:

$$\begin{aligned} \text{Closing Level} &= [(\text{Final Reference Level} \times \text{Final Exchange Rate}) / (\text{Initial Reference Level} \times \text{Initial Exchange Rate}) - \text{Strike Level}] \times \text{Hedging Fee Factor} \\ &= [(1200 \times 1) / (1000 \times 1) - 0] \times 98.8641\% \\ &= 118.64\% \end{aligned}$$

$$\begin{aligned} \text{Cash Settlement Amount} &= \text{Closing Level} \times \text{Notional Amount per Certificate} \\ &= 118.64\% \times 5.00 \text{ SGD} \\ &= \mathbf{5.932 \text{ SGD}} \end{aligned}$$

Illustration on how returns and losses can occur under different scenarios

The examples are purely hypothetical and do not take fees and charges payable by investors into consideration. The examples highlight the effect of the Underlying Stock performance on the value of the Certificates and do not take into account the possible influence of fees or any other market parameters.

1. Illustrative examples

Scenario 1 – Upward Trend (during US trading hours)

Scenario 2 – Downward Trend (during US trading hours)

Scenario 3 – Volatile Market (during US trading hours)

2. Numerical Examples

Scenario 1 – Upward Trend

Underlying Stock						
	Day 0	Day 1	Day 2	Day 3	Day 4	Day 5

Description of Air Bag Mechanism

The Certificates integrate an “Air Bag Mechanism” which is designed to reduce exposure to the Underlying Stock during extreme market conditions.

When the Air Bag triggers, the following events occur:

- **Observation Period:** the price of the Underlying Stock is observed and its minimum price is recorded (i) during 15 minutes of continuous trading after the Air Bag is triggered, or (ii) until Market Close if there is less than 15 minutes of continuous trading until Market Close when the Air Bag Mechanism is triggered; and thereafter
- **Reset Period:** the Leverage Strategy is reset using the minimum price of the Underlying Stock during the Observation Period as the New Observed Price. The New Observed Price replaces the last closing price of the Underlying Stock in order to compute the performance of the Leverage Strategy after the reset.

With **Market Close** defined as:

- the Underlying Stock closing time with respect to the Observation Period

Illustrative examples of the Air Bag Mechanism⁸

Scenario 1 – Downward Trend after Air Bag trigger (during US trading hours)

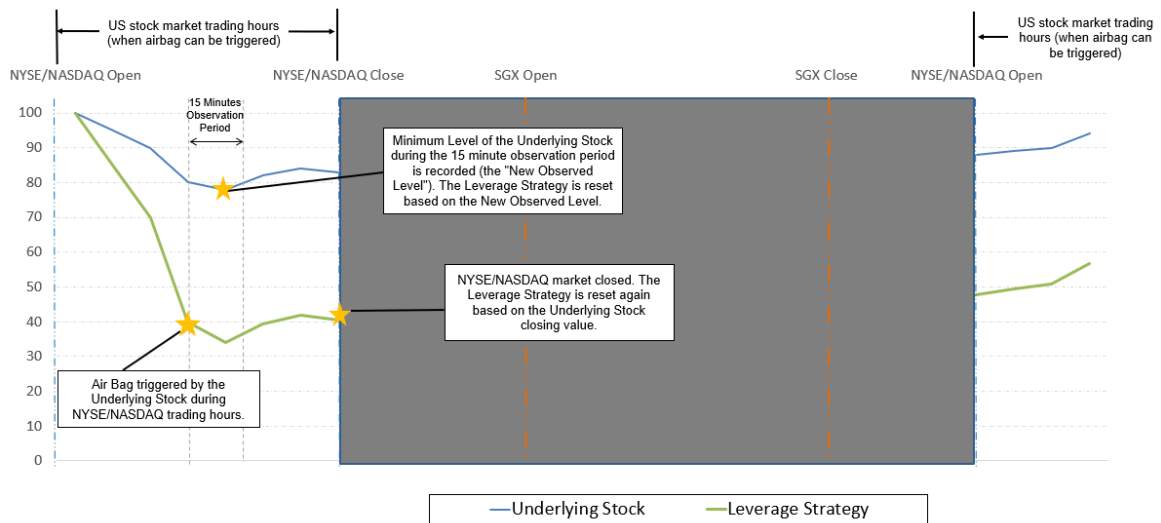

⁸ The illustrative examples are not exhaustive. The illustrative examples above are designed to illustrate the impact of the Air Bag Mechanism on the assumption that there will be a residual value in the Certificates following the Air Bag triggers. Please refer to “Scenarios where the investor may lose the entire value of the investment” on pages 53 to 54 on hypothetical scenarios when investors may lose their entire value of the investment.

Scenario 2 – Upward Trend after Air Bag trigger (during US trading hours)

- The Air Bag Mechanism can only be triggered during trading hours of the Relevant Stock Exchange for the Underlying Stock

Scenarios where the investor may lose the entire value of the investment

The scenarios below are purely hypothetical and do not take fees and charges payable by investors into consideration. The scenarios highlight cases where the Certificates may lose 100% of their value.

Scenario 1 –Fall of the Underlying Stock outside of US trading hours

On any Underlying Stock Business Day, the opening price of the Underlying Stock may be higher or lower than the closing price on the previous trading day of the Relevant Stock Exchange for the Underlying Stock. The difference between the previous closing price and the opening price of the Underlying Stock is termed a “gap”. If the opening price of the Underlying Stock is approximately 33% or more below the closing price on the previous trading day of the Relevant Stock Exchange for the Underlying Stock, the Air Bag Mechanism may only be triggered during the trading hours of the Relevant Stock Exchange for the Underlying Stock, and the Certificates would lose their entire value in such event. In such case, as the Certificates became valueless during the US trading hours, at subsequent SGX-ST open, the DMM may not provide any quotation on the Certificates and the Issuer may apply to suspend trading of the Certificates.

Scenario 2 – Sharp intraday fall of the Underlying Stock during US trading hours

Although the Air Bag Mechanism is designed to reduce the exposure to the Underlying Stock during extreme market conditions, the Certificates can lose 100% of their value in the event the price of the Underlying Stock falls by approximately 33% or more within the 15 minutes Observation Period compared to the reference price, being: (i) if air bag has not been previously triggered on the same day, the previous closing price of the Underlying Stock, or (ii) if one or more air bag have been previously triggered on the same day, the latest New Observed Price. The Certificates would lose their entire value in such event. In such case, as the Certificates became valueless during the US trading hours, at subsequent SGX-ST open, the DMM may not provide any quotation on the Certificates and the Issuer may apply to suspend trading of the Certificates.

Examples and illustrations of adjustments due to certain corporate actions

The examples are purely hypothetical and do not take fees and charges payable by investors into consideration. The examples highlight the effect of corporate actions on the value of the Certificates and do not take into account the possible influence of fees, exchange rates, or any other market parameters.

In the case of any corporate action on the Underlying Stock, the Calculation Agent will, as soon as reasonably practical after it becomes aware of such event, determine whether such corporate action has a dilutive or concentrative effect on the theoretical value of the Underlying Stock, and if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the Underlying Stock which are used to determine any settlement or payment terms under the Certificates and/or adjust at its discretion any other terms of the Certificates as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Certificates and (b) determine the effective date of such adjustment.

Notwithstanding the foregoing, in the event Observation Date (t) is an ex-date with respect to a corporate action related to the Underlying Stock, the Calculation Agent may, in its sole and absolute discretion, replace the $Rfactor_t$ with respect to such Observation Date (t) by an amount computed according to the following generic formula:

$$Rfactor_t = \left[1 - \frac{Div_t + DivExc_t - M \times R}{S_{t-1}} \right] \times \frac{1}{1 + M}$$

This formula is provided for indicative purposes and the Calculation Agent may determine that this formula is not appropriate for certain corporate actions and may apply a different formula instead.

Such adjustment of $Rfactor_t$ would affect the Leveraged Return, the Rebalancing Cost, and the Underlying Reference Price used to determine the Intraday Restrike Event. The Air Bag Mechanism would not be triggered if the stock price falls by 20% exclusively because of the dilutive effect of a corporate action.

Where:

$DivExc_t$ is the amount received as an Extraordinary Dividend by a holder of existing Shares for each Share held prior to the Extraordinary Dividend, net of any applicable withholding taxes.

M is the number of new Share(s) (whether a whole or a fraction) per existing Share each holder thereof is entitled to subscribe or to receive (positive amount) or the number of existing Shares redeemed or canceled per existing Share (negative amount), as the case may be, resulting from the corporate action.

R is the subscription price per Share (positive amount) or the redemption price per Share (negative amount) including any dividends or other benefits forgone to be subscribe to or to receive (as applicable), or to redeem a Share.

1. Stock split

Assuming the Underlying Stock is subject to a 1 to 2 stock split (i.e. 1 new Share for every 1 existing share):

$$S_{t-1} = \$100$$

$$S_t = \$51$$

$$Div_t = \$0$$

$$DivExc_t = \$0$$

M = 1 (i.e. 1 new Shares for 1 existing Share)

R = \$0 (no subscription price / redemption price)

$$Rfactor_t = \left[1 - \frac{0 + 0 - 2 \times 0}{100} \right] \times \frac{1}{1 + 1} = 50\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = 3 \times \left(\frac{51}{100 \times 50\%} - 1 \right) = 6\%$$

S_{t-1}	$S_{t-1} \times Rfactor_t$	S_t	Adjusted Underlying Stock Performance
100	50	51	2%

Value of the Certificate (t-1)	Value of the Certificate (t)	Certificates' performance (excluding any cost and fees)
5.00	5.30	6%

In such case an Intraday Restrike Event would occur if the Underlying Stock price falls to \$40.0, which is 20% below \$50, the Underlying Stock Reference Price.

2. Share Consolidation

Assuming the Underlying Stock is subject to a 2 to 1 share consolidation (i.e. 1 Share canceled for every 2 existing Shares):

$$S_{t-1} = \$100$$

$$S_t = \$202$$

$$\text{Div}_t = \$0$$

$$\text{DivExc}_t = \$0$$

M = -0.5 (i.e. 0.5 Shares canceled for each 1 existing Share)

R = \$0 (no subscription price / redemption price)

$$Rfactor_t = \left[1 - \frac{0 + 0 - (-0.5) \times 0}{100} \right] \times \frac{1}{1 + (-0.5)} = 200\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = 3 \times \left(\frac{202}{100 \times 200\%} - 1 \right) = 3\%$$

S_{t-1}	$S_{t-1} \times Rfactor_t$	S_t	Adjusted Underlying Stock Performance
100	200	202	1%

Value of the Certificate (t-1)	Value of the Certificate (t)	Certificates' performance (excluding any cost and fees)
5.00	5.15	3%

In such case an Intraday Restrike Event would occur if the Underlying Stock price falls to \$160, which is 20% below \$200, the Underlying Stock Reference Price.

3. Rights Issues

Assuming there is a rights issue with respect to the Underlying Stock, with a right to receive 1 new Share for every 2 existing Shares, for a subscription price of \$40.

$$S_{t-1} = \$100$$

$$S_t = \$84$$

$$Div_t = \$0$$

$$DivExc_t = \$0$$

$$R = \$40 \text{ (i.e. subscription price of \$40)}$$

$$M = 0.5 \text{ (i.e. 1 new share for every 2 existing shares)}$$

$$Rfactor_t = \left[1 - \frac{0 + 0 - 0.5 \times 40}{100} \right] \times \frac{1}{1 + 0.5} = 80\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = 3 \times \left(\frac{84}{100 \times 80\%} - 1 \right) = 15\%$$

S_{t-1}	$S_{t-1} \times Rfactor_t$	S_t	Adjusted Underlying Stock Performance
100	80	84	5%

Value of the Certificate (t-1)	Value of the Certificate (t)	Certificates' performance (excluding any cost and fees)
5.00	5.75	15%

In such case an Intraday Restrike Event would occur if the Underlying Stock price falls to \$64, which is 20% below \$80, the Underlying Stock Reference Price.

4. Bonus Issues

Assuming there is a bonus issue with respect to the Underlying Stock, where shareholders receive 1 bonus share for 5 existing shares:

$$S_{t-1} = \$100$$

$$S_t = \$85$$

$$\text{Div}_t = \$0$$

$$\text{DivExc}_t = \$0$$

$$R = \$0$$

$$M = 0.2 \text{ (i.e. 1 new share for 5 existing shares)}$$

$$Rfactor_t = \left[1 - \frac{0 + 0 - 0.2 \times 0}{100} \right] \times \frac{1}{1 + 0.2} = 83.33\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = 3 \times \left(\frac{85}{100 \times 83.33\%} - 1 \right) = 6\%$$

S_{t-1}	$S_{t-1} \times Rfactor_t$	S_t	Adjusted Underlying Stock Performance
100	83.33	85	2%

Value of the Certificate (t-1)	Value of the Certificate (t)	Certificates' performance (excluding any cost and fees)
5.00	5.30	6%

In such case an Intraday Restrike Event would occur if the Underlying Stock price falls to \$66.66, which is 20% below \$83.33, the Underlying Stock Reference Price.

5. Extraordinary Dividend

Assuming there is an extraordinary dividend of \$20 (net of taxes) paid in respect of each stock.

$$S_{t-1} = \$100$$

$$S_t = \$84$$

$$\text{Div}_t = \$0$$

$$\text{DivExc}_t = \$20$$

$$R = \$0$$

$$M = 0$$

$$Rfactor_t = \left[1 - \frac{0 + 20 - 0 \times 0}{100} \right] \times \frac{1}{1 + 0} = 80\%$$

As a consequence:

$$LR_{t-1,t} = \text{Leverage} \times \left(\frac{S_t}{S_{t-1} \times Rfactor_t} - 1 \right) = 3 \times \left(\frac{84}{100 \times 80\%} - 1 \right) = 15\%$$

S_{t-1}	$S_{t-1} \times Rfactor_t$	S_t	Adjusted Underlying Stock Performance
100	80	84	5%

Value of the Certificate (t-1)	Value of the Certificate (t)	Certificates' performance (excluding any cost and fees)
5.00	5.75	15%

In such case an Intraday Restrike Event would occur if the Underlying Stock price falls to \$64, which is 20% below \$80, the Underlying Stock Reference Price.

INFORMATION RELATING TO THE COMPANY

All information contained in this document regarding the Company, including, without limitation, its financial information, is derived from publicly available information which appears on the web-site of NASDAQ at www.nasdaq.com and/or the Company's web-site at <https://investors.micron.com/>. The Issuer has not independently verified any of such information.

Micron Technology, Inc. ("**Micron**" or the "**Company**") is an industry leader in innovative memory and storage solutions transforming how the world uses information to enrich life for all. With a relentless focus on its customers, technology leadership, and manufacturing and operational excellence, Micron delivers a rich portfolio of high-performance DRAM, NAND, and NOR memory and storage products. Every day, the innovations that its people create fuel the data economy, enabling advances in artificial intelligence (AI) and compute-intensive applications that unleash opportunities - from the data center to the intelligent edge and across the client and mobile user experience.

The information set out in the Appendix to this document relates to the quarterly report of the Company and its subsidiaries for the period ended 28 May 2026 and has been extracted and reproduced from an announcement by the Company released on 25 June 2026 in relation to the same. Further information relating to the Company may be located on the web-site of NASDAQ at www.nasdaq.com.

INFORMATION RELATING TO THE DESIGNATED MARKET MAKER

Societe Generale has been appointed the designated market maker (“DMM”) for the Certificates. The DMM will provide competitive buy and sell quotes for the Certificates continuously during the trading hours of the SGX-ST on the following basis:

- (a) Maximum bid and offer spread : (i) when the best bid price of the Certificate is S\$10 and below: 10 ticks or S\$0.20 whichever is greater; and
(ii) when the best bid price of the Certificate is above S\$10: 5% of the best bid price of the Certificate.
- (b) Minimum quantity subject to bid and offer spread : 10,000 Certificates
- (c) Last Trading Day for Market Making : The date falling 5 Business Days immediately preceding the Expiry Date

In addition, the DMM may not provide quotations in the following circumstances:

- (i) during the pre-market opening and five minutes following the opening of the SGX-ST on any trading day;
- (ii) if the Certificates are valueless (where the Issuer’s bid price is below the minimum bid size for such securities as prescribed by the SGX-ST);
- (iii) when trading in the Underlying Stock is suspended or limited in a material way for any reason (including price quote limits activated by the Relevant Stock Exchange for the Underlying Stock or otherwise⁹), for the avoidance of doubt, the DMM is not obliged to provide quotation for the Certificate at any time when the Underlying Stock is not negotiated/traded for any reason during the last trading session of the Relevant Stock Exchange for the Underlying Stock;
- (iv) when trading of the Underlying Stock on any Related Exchange, or access to pricing information of the Underlying Stock on any Related Exchange is suspended, not available, or limited in a material way for any reason (including price quote limits activated by the Related Exchange on such Underlying Stock or otherwise);
- (v) where the Certificates are suspended from trading for any reason including, but without limitation, as a result of trading in the Underlying Stock on any Related Exchange being suspended, or trading generally on any Related Exchange being suspended;
- (vi) market disruption events, including, without limitation, any suspension of or limitation imposed on trading (including but not limited to unforeseen circumstances such as by reason of movements in price exceeding limits permitted by the SGX-ST or the Relevant Stock Exchange for the Underlying Stock⁹ or any Related Exchange for the Underlying Stock, or any act of God, war, riot, public disorder, explosion, terrorism or otherwise) in the Underlying Stock, or in trading of the Underlying Stock on any Related Exchange;

⁹ Price quote limits activated by the Relevant Stock Exchange for the Underlying Stock are not applicable to the market making of the Certificates (as defined herein).

- (vii) where the Issuer or the DMM faces technical problems affecting the ability of the DMM to provide bids and offer quotations;
- (viii) where the ability of the Issuer to source a hedge or unwind an existing hedge, as determined by the Issuer in good faith, is materially affected by the prevailing market conditions, and the Issuer informs the SGX-ST of its inability to do so as soon as practicable;
- (ix) in cases where the Issuer has no Certificates to sell, then the DMM will only provide bid quotations. The DMM may provide intermittent offer quotations when it has inventory of the Certificates;
- (x) if the SGX-ST, the Relevant Stock Exchange for the Underlying Stock or any Related Exchange experiences exceptional price movement and volatility;
- (xi) when any Related Exchange(s) relating to the trading of the Underlying Stock and the Relevant Stock Exchange for the Underlying Stock are not open for dealings concurrently;
- (xii) when it is a public holiday in Singapore and the SGX-ST is not open for dealings; and
- (xiii) during trading hours of the SGX-ST on any Business Day when it is a public holiday in the United States and the Relevant Stock Exchange for the Underlying Stock is not open for dealings.

The last trading day on which the DMM will provide competitive quotations for the Certificates would be the fifth Business Day immediately preceding the Expiry Date.

SUPPLEMENTAL GENERAL INFORMATION

The information set out herein is supplemental to, and should be read in conjunction with the information set out in the Base Listing Document.

1. Save as disclosed in this document and the Base Listing Document, neither the Issuer nor the Guarantor is involved in any legal or arbitration proceedings (including any proceedings which are pending or threatened of which the Issuer or the Guarantor is aware) which may have or have had in the previous 12 months a significant effect on the financial position of the Issuer or the Guarantor in the context of the issuance of the Certificates.
2. Settlement of trades done on a normal “ready basis” on the SGX-ST generally take place on the second Business Day following the transaction. Dealing in the Certificates will take place in Board Lots in Singapore Dollar. For further details on the transfer of Certificates and their exercise, please refer to the section headed “Summary of the Issue” above.
3. It is not the current intention of the Issuer to apply for a listing of the Certificates on any stock exchange other than the SGX-ST.
4. Save as disclosed in the Base Listing Document and herein, there has been no material adverse change in the financial position or prospects of the Issuer since 31 December 2025 or the Guarantor since 31 March 2026, in the context of the issuance of Certificates hereunder.
5. The following contracts, relating to the issue of the Certificates, have been or will be entered into by the Issuer and/or the Guarantor and may be material to the issue of the Certificates:
 - (a) the Guarantee;
 - (b) the Master Instrument; and
 - (c) the Master Warrant Agent Agreement.

None of the directors of the Issuer and the Guarantor has any direct or indirect interest in any of the above contracts.

6. The reports of the Auditors of the Issuer and the Guarantor were not prepared exclusively for incorporation into this document.

The Auditors of the Issuer and the Guarantor have no shareholding in the Issuer or the Guarantor or any of its subsidiaries, nor do they have the right (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for securities of the Issuer or the Guarantor or any of its subsidiaries.

7. The Certificates are not fully covered by the Underlying Stock held by Issuer or a trustee for and on behalf of the Issuer. The Issuer has appropriate risk management capabilities to manage the issue of the Certificates.
8. Societe Generale, Singapore Branch, currently of 8 Marina Boulevard, #12-01 Marina Bay Financial Centre Tower 1, Singapore 018981, has been authorised to accept, on behalf of the Issuer and the Guarantor, service of process and any other notices required to be served on the Issuer or the Guarantor. Any notices required to be served on the Issuer or the Guarantor should be sent to Societe Generale at the above address for the attention of Societe Generale Legal Department.

9. Copies of the following documents may be inspected during usual business hours on any weekday (Saturdays, Sundays and holidays excepted) at the offices of Societe Generale, Singapore Branch at 8 Marina Boulevard, #12-01 Marina Bay Financial Centre Tower 1, Singapore 018981, during the period of 14 days from the date of this document:
- (a) the Memorandum and Articles of Association of the Issuer and the Constitutional Documents of the Guarantor;
 - (b) the latest financial reports (including the notes thereto) of the Issuer;
 - (c) the latest financial reports (including the notes thereto) of the Guarantor;
 - (d) the Base Listing Document (which can also be viewed at: <https://www.sgx.com/securities/prospectus-circulars-offer-documents>);
 - (e) this document; and
 - (f) the Guarantee.

PLACING AND SALE

General

No action has been or will be taken by the Issuer that would permit a public offering of the Certificates or possession or distribution of any offering material in relation to the Certificates in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Certificates, or distribution of any offering material relating to the Certificates may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws or regulations and will not impose any obligation on the Issuer. In the event that the Issuer contemplates a placing, placing fees may be payable in connection with the issue and the Issuer may at its discretion allow discounts to placees.

Each Certificate Holder undertakes that it will inform any subsequent purchaser of the terms and conditions of the Certificates and all such subsequent purchasers as may purchase such securities from time to time shall be deemed to be a Certificate Holder for the purposes of the Certificates and shall be bound by the terms and conditions of the Certificates.

Singapore

This document has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this document and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of Certificates may not be circulated or distributed, nor may Certificates be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than pursuant to, and in accordance with the conditions of, any applicable provision of the Securities and Futures Act 2001 of Singapore.

Hong Kong

Each dealer has represented and agreed, and each further dealer appointed in respect of the Certificates and each other purchaser will be required to represent and agree, that:

- (a) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Certificates (except for Certificates which are a "structured product" as defined in the Securities and Futures Ordinance (Cap.571) of Hong Kong ("SFO")) other than (i) to "professional investors" as defined in the SFO and any rules made under the SFO; or (ii) in other circumstances which do not result in the document being a "prospectus", as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong ("CWUMPO") or which do not constitute an offer to the public within the meaning of the CWUMPO; and
- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Certificates, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Certificates which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

European Economic Area

Each dealer represents and agrees, and each further dealer appointed in respect of the Certificates will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell, or otherwise make available any Certificates which are the subject of the offering as contemplated by this document to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended and superseded, the Prospectus Regulation); and
- (b) the expression “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Certificates.

United Kingdom

Each dealer represents and agrees, and each further dealer appointed in respect of the Certificates will be required to represent and agree, that it has not offered, sold, distributed or otherwise made available and will not offer, sell, distribute or otherwise make available any Certificates which are the subject of the offering as contemplated by this document to any retail investor in the United Kingdom. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is either one (or both) of the following:
 - (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018; or
 - (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to buy or subscribe for the Certificates.

Each dealer further represents and agrees, and each further dealer appointed in respect of the Certificates will be required to further represent and agree, that:

- (a) in respect to Certificates having a maturity of less than one year: (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business; and (ii) it has not offered or sold and will not offer or sell any Certificates other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Certificates would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;

- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Certificates in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Certificates in, from or otherwise involving the United Kingdom.

United States

The Certificates and the Guarantee have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or any state securities law, and trading in the Certificates has not been approved by the United States Commodity Futures Trading Commission (the “**CFTC**”) under the United States Commodity Exchange Act of 1936, as amended (the “**Commodity Exchange Act**”) and the Issuer has not been and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder. None of the Securities and Exchange Commission, any state securities commission or regulatory authority or any other United States, French or other regulatory authority has approved or disapproved of the Certificates or the Guarantee or passed upon the accuracy or adequacy of this document. Accordingly, Certificates, or interests therein, may not at any time be offered, sold, resold, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, nor may any U.S. person at any time trade, own, hold or maintain a position in the Certificates or any interests therein. In addition, in the absence of relief from the CFTC, offers, sales, re-sales, trades, pledges, exercises, redemptions, transfers or deliveries of Certificates, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons, may constitute a violation of United States law governing commodities trading and commodity pools. Consequently, any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person will not be recognised.

Each dealer has represented and agreed, and each further dealer will be required to represent and agree, that it has not and will not at any time offer, sell, resell, trade, pledge, exercise, redeem, transfer or deliver, directly or indirectly, Certificates in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale, trade, pledge, exercise, redeem, transfer or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any such U.S. person. Any person purchasing Certificates of any tranches must agree with the relevant dealer or the seller of such Certificates that (i) it is not a U.S. Person, (ii) it will not at any time offer, sell, resell, trade, pledge, exercise, redeem, transfer or deliver, directly or indirectly, any Certificates in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person, and (iii) it is not purchasing any Certificates, directly or indirectly, in the United States or for the account or benefit of any U.S. person.

Exercise or other redemption of Certificates will be conditional upon certification that each person exercising or otherwise redeeming a Certificate is not a U.S. person or in the United States and that the Certificate is not being exercised or otherwise redeemed on behalf of a U.S. person. No payment will be made to accounts of holders of the Certificates located in the United States.

As used in the preceding paragraphs, the term “**United States**” includes the territories, the possessions and all other areas subject to the jurisdiction of the United States of America, and the term “**U.S. person**” means any person who is (i) a U.S. person as defined under Regulation S under the Securities Act, (ii) a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986, (iii) a person who comes within any definition of U.S. person for the purposes of the United States Commodity Exchange Act of 1936, as amended (the “**CEA**”) or any rules thereunder of the CFTC (the “**CFTC Rules**”), guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a “Non-United States person” defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not “Non-United States persons”, shall be considered a U.S. person), or (iv) a U.S. Person for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended.

APPENDIX

REPRODUCTION OF THE QUARTERLY REPORT FOR THE PERIOD ENDED 28 MAY 2026 OF MICRON TECHNOLOGY, INC.AND ITS SUBSIDIARIES

The information set out below is a reproduction of the quarterly report of the Company and its subsidiaries for the period ended 28 May 2026 and has been extracted and reproduced from an announcement by the Company released on 25 June 2026 in relation to the same.

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

2051 Notes	3.477% Senior Notes due November 2051		

Micron Technology, Inc. is an industry leader in innovative memory and storage solutions transforming how the world uses information to enrich life for all. With a relentless focus on our customers, technology leadership, manufacturing, and operational excellence, Micron delivers a rich portfolio of high-performance DRAM, NAND, and NOR memory and storage products. Every day, the innovations that our people create fuel the data economy, enabling advances in artificial intelligence (AI) and compute-intensive applications that unleash opportunities — from the data center to the intelligent edge and across the client and mobile user experience.

Micron®, any associated logos, and all other Micron trademarks are the property of Micron. Other product names or trademarks that are not owned by Micron are for identification purposes only and may be the trademarks of their respective owners.

Available Information

Investors and others should note that we announce material, non-public information through a variety of means, including our investor relations website (investors.micron.com), filings with the U.S. Securities and Exchange Commission (“SEC”), press releases, public conference calls, blog posts (micron.com/about/blog), posts on X (@MicronTech), and webcasts. We use these channels to achieve broad, non-exclusionary distribution of information to the public and for complying with our disclosure obligations under Regulation FD. Therefore, we encourage investors, the media, and others interested in our company to review the information we post on such channels. Web links throughout this document are inactive textual references provided for convenience only, and the content on the referenced websites is not incorporated herein by reference and does not constitute a part of this Quarterly Report on Form 10-Q.

Forward-Looking Statements

This Form 10-Q contains trend information and other forward-looking statements that involve a number of risks and uncertainties. Such forward-looking statements may be identified by words such as “anticipate,” “expect,” “intend,” “pledge,” “committed,” “plan,” “opportunities,” “future,” “believe,” “target,” “on track,” “estimate,” “continue,” “likely,” “may,” “will,” “would,” “should,” “could,” and variations of such words and similar expressions. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. Specific forward-looking statements include, but are not limited to, statements regarding expected production ramp of certain products; plans to invest in research and development; anticipated technological developments and improvements in our products; potential change and impact in our effective tax rate; expectations related to construction, acquisition, expansion, and ramping of production and the contribution to our ability to supply customers of our facilities, including new memory manufacturing fabs in the United States; expectations regarding our strategic customer agreements and their impact on our financial results; estimated capital expenditures; payment of purchase obligations; receipt, timing, and utilization of government incentives and our ability to satisfy conditions attached to these incentives; the payment of future cash dividends; market conditions, including anticipated supply and demand conditions, and profitability in our industry; future demand for our products and factors that may impact such demand, including developments in AI; the potential impact of business, economic, political, legal, and regulatory developments upon our global operations, including tariffs and trade regulations; and the sufficiency of our cash and investments. Our actual results could differ materially from our historical results and those discussed in the forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, those identified in Part II. Other Information, Item 1A. Risk Factors.

Micron Technology, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(All tabular amounts in millions, except per share amounts)
(Unaudited)

Note 1. Significant Accounting Policies

For a discussion of our significant accounting policies, see Part II, Item 8. Financial Statements and Supplementary Data, Notes to Consolidated Financial Statements, Note 1. Significant Accounting Policies of our Annual Report on Form 10-K for the year ended August 28, 2025. There have been no changes to our significant accounting policies since our Annual Report on Form 10-K for the year ended August 28, 2025.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of Micron Technology, Inc. and our consolidated subsidiaries and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), consistent in all material respects with those applied in our Annual Report on Form 10-K for the year ended August 28, 2025.

In the opinion of our management, the accompanying unaudited consolidated financial statements contain all necessary adjustments, consisting of a normal recurring nature, to fairly state the financial information set forth herein. Certain reclassifications have been made to prior-period amounts to conform to current-period presentation.

Our fiscal year is the 52- or 53-week period ending on the Thursday closest to August 31. Fiscal year 2026 contains 53 weeks and fiscal year 2025 contains 52 weeks. Our fourth quarter of fiscal year 2026 contains 14 weeks. All period references are to our fiscal periods unless otherwise indicated. These interim financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended August 28, 2025.

Note 2. Recently Issued Accounting Standards

In December 2023, the FASB issued ASU 2023-09 (ASC Topic 740), *Improvements to Income Tax Disclosures*. This ASU requires disaggregated income tax disclosures on the rate reconciliation and income taxes paid. This ASU will be effective for our annual reporting for 2026 on a prospective basis, with retrospective application permitted. Adoption of this new guidance will result in expanded disclosures in the Notes to Consolidated Financial Statements.

In November 2024, the FASB issued ASU 2024-03 (ASC Topic 220), *Disaggregation of Income Statement Expenses*. This ASU requires disclosure of certain expenses in the notes to the financial statements. This ASU will be effective for our annual reporting for 2028 on a prospective basis, with retrospective application permitted. Adoption of this new guidance will result in expanded disclosures in the Notes to Consolidated Financial Statements.

In September 2025, the FASB issued ASU 2025-06 (ASC Topic 350), *Targeted Improvements to the Accounting for Internal-Use Software*. This ASU makes targeted improvements to the accounting for internal-use software and will be effective for the first quarter of 2029, with early adoption permitted. This ASU provides for adoption on a prospective basis, with retrospective or modified retrospective application permitted. We are evaluating the timing and effects of our adoption of this new guidance on our financial statements.

In December 2025, the FASB issued ASU 2025-10 (ASC Topic 832), *Accounting for Government Grants Received by Business Entities*. This ASU establishes the accounting and presentation for government grants received by a business entity. The ASU will be effective for the first quarter of 2030, with early adoption permitted. This ASU provides for adoption either on a modified prospective, modified retrospective, or retrospective basis. We are evaluating the timing and effects of our adoption of this new guidance on our financial statements.

Note 3. Variable Interest Entities

Certain third-party special purpose entities (the "Lease SPEs") facilitate equipment lease financing transactions between us and various financial institutions. Neither we nor the financial institutions have an equity interest in the Lease SPEs, which are variable interest entities. The arrangements are financing vehicles and we do not bear any significant risks from variable interests with the Lease SPEs. We do not have the power to direct the activities of the Lease SPEs that most significantly impact their economic performance and, as such, we do not consolidate them. We had approximately \$1.34 billion and \$1.58 billion of financial lease liabilities and right-of-use assets under these arrangements as of May 28, 2026 and August 28, 2025, respectively.

Note 4. Cash and Investments

All of our short-term investments and long-term marketable investments were classified as available for sale as of the dates noted below. Cash and cash equivalents and the fair values of our available-for-sale securities, which approximated amortized costs, were as follows:

	As of May 28, 2026				As of August 28, 2025			
	Cash and Cash Equivalents	Short-term Investments	Long-term Marketable Investments ⁽¹⁾	Total Fair Value	Cash and Cash Equivalents	Short-term Investments	Long-term Marketable Investments ⁽¹⁾	Total Fair Value
Cash	\$ 18,427	\$ —	\$ —	\$ 18,427	\$ 7,875	\$ —	\$ —	\$ 7,875
Level 1 ⁽²⁾								
Money market funds	70	—	—	70	410	—	—	410
Level 2 ⁽³⁾								
Certificates of deposit	6,180	6	—	6,186	1,292	6	—	1,298
Corporate bonds	68	844	2,982	3,894	23	559	1,047	1,629
Asset-backed securities	—	74	1,083	1,157	—	31	521	552
Commercial paper	247	50	—	297	33	26	—	59
Government securities	3	53	41	97	9	43	61	113
	24,995	\$ 1,027	\$ 4,106	\$ 30,128	9,642	\$ 665	\$ 1,629	\$ 11,936
Restricted cash ⁽⁴⁾	27				4			
Cash, cash equivalents, and restricted cash	<u>\$ 25,022</u>				<u>\$ 9,646</u>			

⁽¹⁾ The maturities of long-term marketable investments primarily range from one to five years, except for asset-backed securities which are not due at a single maturity date.

⁽²⁾ The fair value of Level 1 securities is measured based on quoted prices in active markets for identical assets.

⁽³⁾ The fair value of Level 2 securities is measured using information obtained from pricing services, which obtain quoted market prices for similar instruments, non-binding market consensus prices that are corroborated by observable market data, or various other methodologies, to determine the appropriate value at the measurement date. We perform supplemental analysis to validate information obtained from these pricing services. No adjustments were made to the fair values indicated by such pricing information as of May 28, 2026 or August 28, 2025.

⁽⁴⁾ Restricted cash is included in other current assets.

Gross realized gains and losses from sales of available-for-sale securities were not material for any period presented.

Non-marketable Equity Investments

In addition to the amounts included in the table above, we had \$185 million and \$194 million of non-marketable equity investments without a readily determinable fair value that were included in other noncurrent assets as of May 28, 2026 and August 28, 2025, respectively. Our non-marketable equity investments are recorded at cost

minus impairment, if any, adjusted for qualifying observable price changes. Subsequent to May 28, 2026, we purchased non-marketable equity securities in a leading AI company.

Note 5. Receivables

As of	May 28, 2026	August 28, 2025
Trade receivables	\$ 26,894	\$ 7,163
Government incentives	3,408	1,572
Income and other taxes	517	436
Other	206	94
	<u>\$ 31,025</u>	<u>\$ 9,265</u>

Note 6. Inventories

As of	May 28, 2026	August 28, 2025
Finished goods	\$ 621	\$ 1,094
Work in process	6,960	6,401
Raw materials and supplies	986	860
	<u>\$ 8,567</u>	<u>\$ 8,355</u>

Note 7. Property, Plant, and Equipment

As of	May 28, 2026	August 28, 2025
Land	\$ 420	\$ 420
Buildings	23,741	22,173
Equipment ⁽¹⁾	88,113	79,934
Construction in progress ⁽²⁾	10,935	5,518
Software	1,782	1,651
	<u>124,991</u>	<u>109,696</u>
Accumulated depreciation	<u>(68,565)</u>	<u>(63,106)</u>
	<u>\$ 56,426</u>	<u>\$ 46,590</u>

⁽¹⁾ Includes costs related to equipment not placed into service of \$4.20 billion as of May 28, 2026 and \$4.05 billion as of August 28, 2025.

⁽²⁾ Primarily includes building-related construction and tool installation.

On November 19, 2025, we finalized an incentive arrangement for the expansion of our Singapore manufacturing facilities, followed by a second arrangement on April 17, 2026, for the expansion of our Singapore R&D. Under both arrangements, we will receive government support for qualified capital spending and labor costs. The incentive arrangements may be subject to reduction, recapture, or termination if certain conditions are not met. Terms and conditions are subject to the confidentiality provisions of the incentive arrangements.

In March 2026, we completed the acquisition of a wafer fabrication facility in Tongluo, Miaoli County, Taiwan, from Powerchip Semiconductor Manufacturing Corporation for total cash consideration of \$1.8 billion.

Note 8. Accounts Payable and Accrued Expenses

As of	May 28, 2026	August 28, 2025
Accounts payable	\$ 3,649	\$ 3,132
Property, plant, and equipment	6,914	4,391
Income and other taxes	2,795	628
Salaries, wages, and benefits	1,884	1,116
Other	279	382
	<u>\$ 15,521</u>	<u>\$ 9,649</u>

Note 9. Debt

	As of May 28, 2026					As of August 28, 2025		
	Stated Rate	Effective Rate	Net Carrying Amount			Net Carrying Amount		
			Current	Long-Term	Total	Current	Long-Term	Total
2031 Notes	5.300 %	5.41 %	\$ —	\$ 261	\$ 261	\$ —	\$ 995	\$ 995
2032 Green Bonds	2.703 %	2.77 %	—	996	996	—	996	996
2032 Notes	5.650 %	5.79 %	—	70	70	—	496	496
2033 A Notes	5.875 %	5.96 %	—	175	175	—	746	746
2033 B Notes	5.875 %	6.01 %	—	213	213	—	892	892
2035 A Notes	5.800 %	5.90 %	—	135	135	—	992	992
2035 B Notes	6.050 %	6.14 %	—	219	219	—	1,241	1,241
2041 Notes	3.366 %	3.41 %	—	497	497	—	497	497
2051 Notes	3.477 %	3.52 %	—	486	486	—	496	496
2028 Notes	N/A	N/A	—	—	—	—	540	540
2029 Term Loan A	N/A	N/A	—	—	—	—	982	982
2029 A Notes	N/A	N/A	—	—	—	—	698	698
2029 B Notes	N/A	N/A	—	—	—	—	1,168	1,168
2030 Notes	N/A	N/A	—	—	—	—	794	794
Finance lease obligations	N/A	4.72 %	582	2,088	2,670	560	2,484	3,044
			\$ 582	\$ 5,140	\$ 5,722	\$ 560	\$ 14,017	\$ 14,577

As of May 28, 2026, the fair value of our outstanding debt instruments approximated the carrying value of our debt. The fair value of our debt instruments was estimated based on Level 2 inputs, including the trading price of our notes when available, discounted cash flows, and interest rates based on similar debt issued by parties with credit ratings similar to ours.

Debt Activity

The table below presents the effects of debt prepayment activity in the first nine months of 2026:

	Transaction Date	Decrease in Principal	Decrease in Carrying Value	Decrease in Cash
Prepayments				
2028 Notes	October 24, 2025	\$ (542)	\$ (541)	\$ (562)
2029 B Notes	October 24, 2025	(1,159)	(1,168)	(1,276)
2029 Term Loan A	October 27, 2025	(984)	(982)	(984)
2051 Notes	January 23, 2026	(10)	(10)	(7)
2029 A Notes	February 20, 2026	(700)	(698)	(726)
2030 Notes	February 23, 2026	(796)	(794)	(816)
2031 Notes	April 3, 2026	(738)	(734)	(773)
2032 Notes	April 3, 2026	(429)	(426)	(456)
2033 A Notes	April 3, 2026	(574)	(571)	(616)
2033 B Notes	April 3, 2026	(685)	(679)	(734)
2035 A Notes	April 3, 2026	(864)	(857)	(921)
2035 B Notes	April 3, 2026	(1,030)	(1,022)	(1,114)
		\$ (8,511)	\$ (8,482)	\$ (8,985)

In connection with these prepayments, we recognized losses in other non-operating income (expense) of \$323 million and \$500 million for the third quarter and first nine months of 2026, respectively.

Revolving Credit Facility

On May 6, 2026, we reduced our borrowing capacity under the Revolving Credit Facility from \$3.50 billion to \$2.00 billion. As of May 28, 2026, no amounts were outstanding under the Revolving Credit Facility. Borrowing under the Revolving Credit Facility would generally bear interest at a rate equal to adjusted term SOFR plus 0.875% to 1.50%, depending on our corporate credit ratings. Any amounts outstanding under the Revolving Credit Facility would mature on March 12, 2030 and amounts borrowed may be prepaid without penalty. Any obligations under the Revolving Credit Facility would be unsecured.

The Revolving Credit Facility requires us to maintain, on a consolidated basis, a net leverage ratio of total net indebtedness to adjusted EBITDA, as defined in the Revolving Credit Facility agreement and calculated as of the last day of each fiscal quarter, not to exceed 3.25 to 1.00, subject to a temporary four fiscal quarter increase in such maximum ratio to 3.75 to 1.00 following certain material acquisitions.

Note 10. Contingencies

We are currently a party to legal actions other than those described below arising from the normal course of business, none of which are expected to have a material adverse effect on our business, results of operations, or financial condition.

Patent Matters

As is typical in the semiconductor and other high-tech industries, from time to time, others have asserted, and may in the future assert, that our products or manufacturing processes infringe upon their intellectual property rights. A description of certain claims is below.

On April 28, 2021, Netlist, Inc. ("Netlist") filed two patent infringement actions against Micron, Micron Semiconductor Products, Inc. ("MSP"), and Micron Technology Texas, LLC ("MTEC") in the U.S. District Court for the Western District of Texas ("W.D. Tex."). The first complaint alleges that one U.S. patent is infringed by certain of our non-volatile dual in-line memory modules. The second complaint alleges that three U.S. patents are infringed by certain of our load-reduced dual in-line memory modules ("LRDIMMs"). Each complaint seeks injunctive relief, damages, attorneys' fees, and costs. On March 31, 2022, Netlist filed a patent infringement complaint against Micron and Micron Semiconductor (Deutschland) GmbH ("MSG") in Düsseldorf Regional Court alleging that two German

patents are infringed by certain of our LRDIMMs. The complaint seeks damages, costs, and injunctive relief. In rulings issued on March 7, 2024 and November 7, 2024, the Federal Patent Court in Germany declared both patents invalid. Netlist appealed those rulings. On May 21, 2026, the appeals court affirmed the ruling of invalidity of the first patent. The appeal regarding the second patent has not yet been decided.

On June 10, 2022, Netlist filed a patent infringement complaint against Micron, MSP, and MTEC in the U.S. District Court for the Eastern District of Texas ("E.D. Tex.") alleging that six U.S. patents are infringed by certain of our memory modules and HBM products. On August 1, 2022, Netlist filed a second patent infringement complaint against the same defendants in E.D. Tex. alleging that one U.S. patent is infringed by certain of our LRDIMMs. On August 15, 2022, Netlist amended the second complaint to assert that two additional U.S. patents are infringed by certain of our LRDIMMs. The complaints in E.D. Tex. seek injunctive relief, damages, and attorneys' fees. On May 23, 2024, following a four-day trial regarding the second complaint filed by Netlist in the E.D. Tex., a jury rendered a verdict that Micron's memory modules infringe two asserted patents—U.S. Patent No. 7,619,912 ("the '912 patent") and U.S. Patent No. 11,093,417 ("the '417 patent")—and found that Micron should pay \$425 million for infringement of the '912 patent and \$20 million for infringement of the '417 patent. On July 9, 2025, Micron filed a notice that it will appeal the judgment. On April 17, 2024, the Patent Trial and Appeal Board ("PTAB") of the United States Patent and Trademark Office ("USPTO") issued a final written decision ("FWD") finding unpatentable the sole asserted claim of the '912 patent. On September 10, 2024, Netlist filed a notice that it will appeal the ruling that the '912 patent is unpatentable to the U.S. Court of Appeals for the Federal Circuit ("Federal Circuit"). On July 30, 2024, the USPTO issued a FWD finding unpatentable all asserted claims of the '417 patent. On December 10, 2024, Netlist filed a notice that it will appeal the ruling that the '417 patent is unpatentable to the Federal Circuit. In the case of each of the '912 and '417 patents, if the United States Court of Appeals for the Federal Circuit affirms the FWD, then the affirmed FWD will preclude any pending actions asserting infringement of such patent (including enforcement of the infringement verdict).

On May 19, 2025, Netlist filed a complaint against Micron, MSP, and MTEC in E.D. Tex. alleging that one U.S. patent is infringed by our HBM products. On July 8, 2025, Netlist amended the complaint to allege that one additional U.S. patent is infringed by certain of our DIMMs. On March 6, 2026, the E.D. Tex. transferred the case to the United States District Court for the District of Delaware ("D. Del.") pursuant to a motion by Micron to dismiss or transfer for improper venue. On July 28, 2025, Netlist filed an additional complaint against Micron, MSP, and MTEC in E.D. Tex. alleging that one U.S. patent is infringed by certain of our DIMMs. On April 1, 2026, the E.D. Tex. transferred the additional case to D. Del. These complaints seek damages, attorneys' fees, and other equitable relief.

On January 23, 2023, BeSang Inc. filed a patent infringement complaint against Micron in E.D. Tex. The complaint alleges that one U.S. patent is infringed by certain of our 3D NAND and SSD products. The complaint seeks an injunction, damages, attorneys' fees, and costs. On September 17, 2025, the District Court issued a judgment that the accused products do not infringe the asserted patent. On October 17, 2025, BeSang filed a notice of appeal of the District Court's judgment.

On November 9, 2023, Yangtze Memory Technologies Company, Ltd. ("YMTC") filed a patent infringement complaint against Micron and one of its subsidiaries in the U.S. District Court for the Northern District of California ("N.D. Cal."). The complaint alleges that eight U.S. patents are infringed by certain of our 3D NAND products. The complaint seeks an injunction, damages, attorneys' fees, and costs. On January 22, 2024, Micron Semiconductor (Shanghai) Co., Ltd. ("MSS") was served with three patent infringement complaints filed by YMTC in Beijing Intellectual Property Court and on February 27, 2024, Micron was served with the same complaints. The complaints assert that Micron and MSS infringed three Chinese patents owned by YMTC by importing, selling, offering for sale, and assisting others to sell certain 3D NAND products and SSDs in China. The complaint seeks an injunction, damages, attorneys' fees, and costs. On July 12, 2024, YMTC filed a second complaint against Micron and its subsidiary in N.D. Cal. The second complaint alleges that eleven U.S. patents are infringed by certain of our 3D NAND and DDR5 DRAM products. The complaint seeks an injunction, damages, attorneys' fees, and costs. On September 11, 2024, MSS was served with five patent infringement complaints filed by YMTC in Shanghai Intellectual Property Court. The complaints assert that Micron and MSS infringed five Chinese patents owned by YMTC by importing, selling, offering for sale, and assisting others to sell certain 3D NAND products and SSDs in China. The complaint seeks an injunction, damages, attorneys' fees, and costs.

On October 6, 2025, YMTC filed several patent infringement complaints against Micron and certain of its subsidiaries alleging that the Company's manufacture, importation, sale, offering for sale, and/or assisting others to

sell certain NAND and DRAM products infringe certain patents owned by YMTC. Specifically, YMTC filed the following complaints: A patent infringement complaint against Micron, MSP, and MTEC in E.D. Tex. alleging that seven patents are infringed by certain of our 3D NAND products and one patent is infringed by certain of our LPDRAM products; a patent infringement complaint in the London Chancery Division of the English High Court against Micron and Micron Europe Limited (“MEL”) alleging that three patents are infringed by certain of our NAND and DRAM products; three complaints against Micron and various combinations of subsidiaries, including MEL, MSP, MSG, and Micron Semiconductor France SAS in the Unified Patent Court in Dusseldorf, Germany, alleging that three patents are infringed by certain of our 3D NAND and LPDRAM products; and five complaints against Micron, MEL, and MSG in Munich Regional Court in Munich, Germany, alleging that five patents are infringed by certain of our 3D NAND products. Each of the complaints filed against us by YMTC on October 6, 2025, seeks an injunction, attorneys’ fees, damages, and costs.

On June 30, 2025, Advanced Memory Technologies, LLC (“AMT”) filed a patent infringement complaint against Micron in W.D. Tex. alleging that four U.S. patents are infringed by certain of our DRAM and NAND products. On November 4, 2025, AMT amended the complaint to allege that a fifth patent is infringed by certain of our DRAM products. The complaint seeks an injunction, damages, attorneys’ fees, and costs.

On March 6, 2026, Nextech Semiconductor, LLC (“Nextech”) filed a patent infringement complaint against Micron and MSP in W.D. Tex. alleging that six U.S. patents are infringed by certain of our DRAM, NAND, and SSD products. The complaint seeks an injunction, damages, attorneys’ fees and costs.

The above lawsuits pertain to substantially all of our DRAM, NAND, and other memory and storage products we manufacture, which account for substantially all of our revenue.

Securities Class Action Matters

On January 9, 2025, a putative class action complaint was filed against Micron and certain officers in the U.S. District Court for the Southern District of Florida for alleged violations of the Securities Exchange Act of 1934. On April 3, 2025, the case was transferred to the United States District Court for the District of Idaho (“D. Idaho”), and on May 23, 2025, an amended complaint was filed in D. Idaho. The amended complaint alleged that defendants made materially false or misleading statements regarding industry supply and demand dynamics and the demand for Micron’s products. On February 3, 2026, the court dismissed the amended complaint but granted plaintiffs leave to file a further amended complaint. On April 3, 2026, the plaintiffs voluntarily dismissed the case.

Shareholder Derivative Matters

On February 20 and 21, 2025, two shareholder derivative complaints were filed against certain directors and officers of Micron, allegedly on behalf of and for the benefit of Micron, in D. Idaho. The complaints alleged violations of the Securities Exchange Act of 1934, breach of fiduciary duty, unjust enrichment, insider trading, abuse of control, and waste of corporate assets and were based on substantially the same statements asserted in the securities class action. On April 28, 2025, the complaints were consolidated and on May 14, 2025, the consolidated action was stayed. Following the dismissal of the securities class action, the consolidated action was dismissed.

On September 8, 2025, a substantially similar shareholder derivative complaint was filed in D. Del. On April 24, 2026, the action was dismissed.

Other Matters

On June 7, 2025, YMTC filed a complaint against Micron and DCI Group AZ, LLC in the U.S. District Court for the District of Columbia. The complaint alleges that the defendants engaged in false advertising, product disparagement, and unfair competition regarding YMTC's 3D NAND flash products in violation of the Lanham Act. The complaint seeks injunctive relief, damages, disgorgement of profits, attorneys' fees, and costs.

On January 16, 2026, Neighbors for a Better Micron and Jobs to Move America filed a petition in the Supreme Court of New York against Micron, one of our subsidiaries, Onondaga County Industrial Development Agency ("OCIDA"), and certain other state and local government entities. The petition challenges certain aspects of OCIDA's environmental review of the Company's planned construction of up to four fabs in Clay, New York, and seeks a judgment to annul, vacate, and void all permits, approvals, and findings issued by the named government entities related to the project. The petition further seeks costs and attorneys' fees.

In the normal course of business, we are a party to a variety of agreements pursuant to which we may be obligated to indemnify another party. It is not possible to predict the maximum potential amount of future payments under these types of agreements due to the conditional nature of our obligations and the unique facts and circumstances involved in each particular agreement. Historically, our payments under these types of agreements have not had a material adverse effect on our business, results of operations, or financial condition.

Contingency Assessment

We are unable to predict the outcome of any of the matters noted above and cannot make a reasonable estimate of the potential loss or range of possible losses. A determination that our products or manufacturing processes infringe the intellectual property rights of others or entering into a license agreement covering such intellectual property could result in significant liability and/or require us to make material changes to our products and/or manufacturing processes. Any of the foregoing, as well as the resolution of any other legal matter noted above, could have a material adverse effect on our business, results of operations, or financial condition.

Note 11. Equity

Common Stock Repurchases

Our Board of Directors has authorized the discretionary repurchase of up to \$10 billion of our outstanding common stock through open-market purchases, block trades, privately-negotiated transactions, derivative transactions, and/or pursuant to Rule 10b5-1 trading plans. The repurchase authorization has no expiration date, does not obligate us to acquire any common stock, and is subject to market conditions, restrictions applicable under our CHIPS Act direct funding agreements, and our ongoing determination of the best use of available cash. No shares were repurchased in the third quarter of 2026. We repurchased 2.5 million shares of our common stock for \$650 million in first nine months of 2026. Through May 28, 2026, we had repurchased an aggregate of \$7.84 billion under the authorization. Amounts repurchased are included in treasury stock.

Dividends

We declared and paid dividends of \$0.115 per share in the first and second quarters of 2026 and \$0.15 per share in the third quarter of 2026. On June 24, 2026, our Board of Directors declared a quarterly dividend of \$0.15 per share, payable in cash on July 21, 2026, to shareholders of record as of the close of business on July 6, 2026.

Note 12. Derivative Instruments

	Notional or Contractual Amount	Fair Value ⁽¹⁾ of		
		Assets ⁽²⁾	Liabilities ⁽³⁾	
As of May 28, 2026				
Derivative instruments with hedge accounting designation				
Cash flow currency hedges	\$ 4,096	\$ 7	\$ (106)	
Cash flow commodity hedges	406	105	(7)	
Fair value currency hedges	5,568	19	—	
Derivative instruments without hedge accounting designation				
Non-designated currency hedges	12,431	15	(48)	
		\$ 146	\$ (161)	
As of August 28, 2025				
Derivative instruments with hedge accounting designation				
Cash flow currency hedges	\$ 3,271	\$ 41	\$ (64)	
Cash flow commodity hedges	393	19	(20)	
Fair value currency hedges	3,049	1	(10)	
Derivative instruments without hedge accounting designation				
Non-designated currency hedges	3,477	3	(18)	
		\$ 64	\$ (112)	

⁽¹⁾ Forward and swap contracts are measured at fair value based on market-based observable inputs, including market spot and forward rates, interest rates, and credit-risk spreads (Level 2).

⁽²⁾ Included in receivables and other noncurrent assets.

⁽³⁾ Included in accounts payable and accrued expenses and other noncurrent liabilities.

Derivative Instruments with Hedge Accounting Designation

Cash Flow Hedges: We utilize forward contracts that generally mature within two years designated as cash flow hedges to minimize our exposure to changes in currency exchange rates or commodity prices for certain capital expenditures and manufacturing costs.

Fair Value Hedges: We utilize currency forward contracts that generally mature within one year designated as fair value hedges to minimize our exposure to changes in currency exchange rates for non-U.S.-dollar-denominated cash and investments in debt securities. The fair value of our hedged cash and investments in debt securities was \$5.54 billion and \$3.05 billion as of May 28, 2026 and August 28, 2025, respectively. The changes in the fair values of derivatives designated as fair value hedges and the offsetting changes in the underlying fair values of the hedged items are both recognized in earnings.

Derivative Instruments without Hedge Accounting Designation

Currency Derivatives: We generally utilize a rolling hedge strategy with currency forward contracts that mature within one year to hedge our exposures of monetary assets and liabilities from changes in currency exchange rates. At the end of each reporting period, monetary assets and liabilities denominated in currencies other than the U.S. dollar are remeasured into U.S. dollars and the associated outstanding forward contracts are marked to market. Realized and unrealized gains and losses on derivative instruments without hedge accounting designation, as well as the changes in the underlying monetary assets and liabilities from changes in currency exchange rates, are included in other non-operating income (expense), net.

Gains and losses from our derivative instruments were not material for the periods presented.

Note 13. Equity Compensation Plans

As of May 28, 2026, 48 million shares of our common stock were available for future awards under our equity compensation plans, including 7 million shares approved for issuance under our employee stock purchase plan ("ESPP").

Restricted Stock and Restricted Stock Units ("Restricted Stock Awards")

Nine Months Ended	May 28, 2026	May 29, 2025
Restricted stock award shares granted	7	11
Weighted-average grant-date fair value per share	\$ 227.18	\$ 100.25

Employee Stock Purchase Plan ("ESPP")

Employees purchased 2 million shares in each six-month ESPP offering period that ended in the second quarter of 2026 and 2025 at a share price of \$92.77 and \$78.63, respectively.

Stock-based Compensation Expense

Stock-based compensation expense recognized in our statements of operations is presented below. Stock-based compensation expense of \$132 million and \$96 million was capitalized and remained in inventory as of May 28, 2026 and August 28, 2025, respectively.

	Quarter Ended		Nine Months Ended	
	May 28, 2026	May 29, 2025	May 28, 2026	May 29, 2025
Stock-based compensation expense by caption				
Cost of goods sold	\$ 143	\$ 115	\$ 371	\$ 294
Research and development	129	89	355	254
Selling, general, and administrative	69	59	192	165
	<u>\$ 341</u>	<u>\$ 263</u>	<u>\$ 918</u>	<u>\$ 713</u>
Stock-based compensation expense by type of award				
Restricted stock awards	\$ 309	\$ 239	\$ 829	\$ 643
ESPP	32	24	89	70
	<u>\$ 341</u>	<u>\$ 263</u>	<u>\$ 918</u>	<u>\$ 713</u>

As of May 28, 2026, \$2.13 billion of total unrecognized compensation costs for unvested awards, before the effect of any future forfeitures, was expected to be recognized through the third quarter of 2030, resulting in a weighted-average period of 1.2 years.

Note 14. Revenue and Customer Contract Liabilities

Revenue by Technology

	Quarter Ended		Nine Months Ended	
	May 28, 2026	May 29, 2025	May 28, 2026	May 29, 2025
DRAM	\$ 31,328	\$ 7,071	\$ 60,908	\$ 19,594
NAND	9,943	2,155	17,683	6,251
Other (primarily NOR)	185	75	368	218
	<u>\$ 41,456</u>	<u>\$ 9,301</u>	<u>\$ 78,959</u>	<u>\$ 26,063</u>

See Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 17. Segment and Other Information for disclosure of disaggregated revenue by market segment.

We recently executed certain strategic customer agreements, including agreements executed subsequent to May 28, 2026. These agreements are structured as take-or-pay agreements, with binding commitments for specific volumes over the multi-year contract terms and include contractually enforceable volumes. Pricing for most agreements is either fixed, or is subject to minimum and maximum pricing. A minority of the agreements do not have any fixed pricing or price bands, as pricing for those agreements is subject to market conditions.

Our remaining performance obligations disclosure is based on minimum committed volumes and minimum pricing and is not expected to be indicative of future revenue under these contracts. Agreements without fixed pricing or price bands are not included in the remaining performance obligations disclosure. As a practical expedient, we have excluded contracts that have an original term of one year or less from our remaining performance obligations disclosure.

As of May 28, 2026, the transaction price allocated to our remaining performance obligations was approximately \$5 billion, of which \$422 million has been recognized as contract liabilities. Contract liabilities primarily consisted of customer deposits associated with strategic customer agreements for which revenue has not yet been recognized and are primarily included in other noncurrent liabilities. As of August 28, 2025, our remaining performance obligations were not material. Approximately one-third of the remaining performance obligations as of May 28, 2026 are expected to be recognized as revenue over the next twelve months.

As of May 28, 2026 and August 28, 2025, other current liabilities included \$3.32 billion and \$1.19 billion, respectively, for estimates of consideration payable to customers, including pricing adjustments and returns.

Note 15. Income Taxes

Our income tax (provision) benefit consisted of the following:

	Quarter Ended		Nine Months Ended	
	May 28, 2026	May 29, 2025	May 28, 2026	May 29, 2025
Income before taxes	\$ 33,212	\$ 2,113	\$ 55,433	\$ 6,023
Income tax (provision) benefit	(4,978)	(235)	(8,178)	(695)
Effective tax rate	15.0 %	11.1 %	14.8 %	11.5 %

The change in our effective tax rate for the third quarter and first nine months of 2026, as compared to the corresponding periods of 2025, was primarily due to the 15% minimum tax Pillar Two Model Rules ("Pillar Two"). Singapore enacted legislation to implement Pillar Two, effective for us in 2026, which largely offsets the benefit from our Singapore tax incentive arrangements.

On July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was enacted, introducing broad changes to the U.S. tax code, including modifications to corporate and international tax provisions, which primarily are effective for us beginning in 2026 and 2027. The aggregate impact of the OBBBA remains uncertain. We will continue to monitor future developments, including regulatory guidance and interpretations, which could have a material impact on our income tax provision.

Other noncurrent liabilities included \$5.79 billion and \$648 million related to income taxes payable as of May 28, 2026 and August 28, 2025, respectively.

Note 16. Earnings Per Share

	Quarter Ended		Nine Months Ended	
	May 28, 2026	May 29, 2025	May 28, 2026	May 29, 2025
Net income – Basic and Diluted	\$ 28,243	\$ 1,885	\$ 47,268	\$ 5,338
Weighted-average common shares outstanding – Basic	1,128	1,118	1,126	1,114
Dilutive effect of equity compensation plans	17	7	16	9
Weighted-average common shares outstanding – Diluted	1,145	1,125	1,142	1,123
Earnings per share				
Basic	\$ 25.03	\$ 1.69	\$ 41.97	\$ 4.79
Diluted	24.67	1.68	41.40	4.75

Antidilutive potential common shares excluded from the computation of diluted earnings per share, that could dilute basic earnings per share in the future, were not material for the third quarter or first nine months of 2026 and were 7 million shares and 10 million shares for the third quarter and first nine months of 2025, respectively.

Note 17. Segment and Other Information

Segment information reported herein is consistent with the way our Chief Executive Officer, who is our Chief Operating Decision Maker (“CODM”), assesses the performance of our segments based on segment revenue, cost of goods sold, operating expenses, and operating income. The segment information reported herein is regularly provided to and reviewed and evaluated by our CODM to budget, forecast, and decide how to allocate resources for capital investments, human capital, and other strategic investments across our segments.

We have the following four business units, which are based on market segments and our reportable segments:

- **Cloud Memory Business Unit (“CMBU”)**: Focused on memory solutions for large hyperscale cloud customers, and HBM for all data center customers.
- **Core Data Center Business Unit (“CDBU”)**: Focused on memory solutions for mid-tier cloud, enterprise, and OEM data center customers and storage solutions for all data center customers.
- **Mobile and Client Business Unit (“MCBU”)**: Focused on memory and storage solutions for the mobile and client segments.
- **Automotive and Embedded Business Unit (“AEBU”)**: Focused on memory and storage solutions for the automotive, industrial, and consumer segments.

Our other operations do not meet the thresholds of a reportable segment and are reported under All Other. Certain operating expenses directly associated with the activities of a specific segment are charged to that segment. Other indirect operating income and expenses are generally allocated to segments based on their respective percentage of cost of goods sold or forecasted wafer production. Certain income and expenses are not allocated to segments because our CODM does not consider these amounts in the assessment of the performance of our segments. Substantially all of the unallocated amounts are related to stock-based compensation. We do not identify or report internally our assets (other than goodwill) or capital expenditures by segment, nor do we allocate gains and losses from equity method investments, interest, other non-operating income or expense items, or taxes to segments.

Quarter Ended May 28, 2026	CMBU	CDBU	MCBU	AEBU	All Other	Unallocated	Total
Revenue	\$ 13,769	\$ 11,524	\$ 11,521	\$ 4,634	\$ 8	\$ —	\$ 41,456
Cost of goods sold	2,278	1,537	1,463	975	4	143	6,400

Operating income	\$ 1,573	\$ 307	\$ 482	\$ 126	\$ 2	\$ (321)	\$ 2,169

Nine Months Ended May 28, 2026	CMBU	CDBU	MCBU	AEBU	All Other	Unallocated	Total
Revenue	\$ 26,802	\$ 19,590	\$ 23,487	\$ 9,062	\$ 18	\$ —	\$ 78,959
Cost of goods sold	6,097	4,155	5,090	2,776	13	371	18,502
Gross margin	20,705	15,435	18,397	6,286	5	(371)	60,457
Research and development	1,628	1,040	409	302	—	358	3,737
Selling, general, and administrative	274	177	263	182	—	192	1,088
Other operating (income) expense, net	(1)	—	(1)	—	—	45	43
Operating income	\$ 18,804	\$ 14,218	\$ 17,726	\$ 5,802	\$ 5	\$ (966)	\$ 55,589

Nine Months Ended May 29, 2025	CMBU	CDBU	MCBU	AEBU	All Other	Unallocated	Total
Revenue	\$ 8,981	\$ 5,652	\$ 8,099	\$ 3,319	\$ 12	\$ —	\$ 26,063
Cost of goods sold	4,025	3,072	6,260	2,579	10	298	16,244
Gross margin	4,956	2,580	1,839	740	2	(298)	9,819
Research and development	851	644	671	330	1	254	2,751
Selling, general, and administrative	146	147	290	144	(1)	165	891
Other operating (income) expense, net	—	—	1	1	1	58	61
Operating income	\$ 3,959	\$ 1,789	\$ 877	\$ 265	\$ 1	\$ (775)	\$ 6,116

Depreciation and amortization expense included in operating income was as follows:

	Quarter Ended		Nine Months Ended	
	May 28, 2026	May 29, 2025	May 28, 2026	May 29, 2025
CMBU	\$ 780	\$ 548	\$ 2,291	\$ 1,600
CDBU	550	361	1,534	1,193
MCBU	678	877	2,005	2,361
AEBU	353	306	1,024	1,040
All Other	2	2	5	5
Unallocated	1	—	3	4
	<u>\$ 2,364</u>	<u>\$ 2,094</u>	<u>\$ 6,862</u>	<u>\$ 6,203</u>

Revenue from one customer was 10% and 16% (primarily included in the CMBU segment) of total revenue for the first nine months of 2026 and 2025, respectively.

As of May 28, 2026 and August 28, 2025, CMBU, CDBU, MCBU, and AEBU had goodwill of \$654 million, \$109 million, \$284 million, and \$103 million, respectively.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion should be read in conjunction with the consolidated financial statements and accompanying notes for the year ended August 28, 2025. All period references are to our fiscal periods unless otherwise indicated. Our fiscal year is the 52- or 53-week period ending on the Thursday closest to August 31. Fiscal 2026 contains 53 weeks and fiscal 2025 contains 52 weeks. The third quarter of 2026 contains 13 weeks and the fourth quarter of 2026 contains 14 weeks. All tabular dollar amounts are in millions, except per share amounts.

Overview

Micron Technology, Inc. is an industry leader in innovative memory and storage solutions transforming how the world uses information to enrich life for all. With a relentless focus on our customers, technology leadership, and manufacturing and operational excellence, Micron delivers a rich portfolio of high-performance DRAM, NAND, and NOR memory and storage products. Every day, the innovations that our people create fuel the data economy, enabling advances in artificial intelligence (AI) and compute-intensive applications that unleash opportunities — from the data center to the intelligent edge and across the client and mobile user experience.

We manufacture our products at wholly-owned facilities and also utilize subcontractors for certain manufacturing processes. Our global network of manufacturing centers of excellence not only allows us to benefit from scale while streamlining processes and operations, but it also brings together some of the world’s brightest talent to work on the most advanced memory technology. Centers of excellence bring expertise together in one location, providing an efficient support structure for end-to-end manufacturing, with quicker cycle times, in partnership with teams, such as R&D, product development, human resources, procurement, and supply chain. For our locations in Singapore and Taiwan, this is also a combination of bringing fabrication and back-end manufacturing together. We continue to make significant investments to develop proprietary product and process technology, which generally increases bit density per wafer and reduces per-bit manufacturing costs of each generation of product. We continue to introduce new generations of products that offer improved performance characteristics, including higher data transfer rates, advanced packaging solutions, lower power consumption, improved read/write reliability, and increased memory density.

We face intense competition in the semiconductor memory and storage markets. To remain competitive, we must continuously develop and implement new products and technologies and decrease manufacturing costs in spite of inflationary pressures, changing technologies, rapid market changes, and regulatory uncertainty. Our success is largely dependent on obtaining returns on our R&D investments, efficient utilization of our manufacturing infrastructure, development and integration of advanced product and process technologies, market acceptance of our diversified portfolio of semiconductor-based memory and storage solutions, and efficient capital spending.

Product Technologies

Our product portfolio of memory and storage solutions, advanced solutions, and storage platforms is based on our high-performance semiconductor memory and storage technologies, including DRAM, NAND, and NOR. We sell our products through our business units into various markets in numerous forms, including components, modules, SSDs, managed NAND, multi-chip packages, and wafers. Many of our system-level solutions combine NAND, a controller, firmware, and in some cases DRAM.

DRAM: DRAM products are dynamic random access memory semiconductor devices with low latency that provide high-speed data retrieval with a variety of performance characteristics. DRAM products lose content when power is turned off (“volatile”) and are most commonly used in the data center, client PC, graphics, industrial, mobile, and automotive markets. DRAM products include High-Bandwidth Memory (“HBM”), which is a 3D stacked DRAM architecture that utilizes through-silicon via (“TSV”) connections for more efficient communication giving it the ability to achieve a higher bandwidth while consuming less power compared to other memory types.

NAND: NAND products are non-volatile, re-writeable semiconductor storage devices that provide high-capacity, low-cost storage with a variety of performance characteristics. NAND is used in SSDs for the data center, client PC, consumer, and automotive markets, and in removable storage markets. Managed NAND is used in smartphones

and other mobile devices, and in the consumer, automotive, and embedded markets. Low-density NAND is ideal for applications like automotive, surveillance, machine-to-machine, automation, printer, and home networking.

NOR: NOR products are non-volatile, re-writable semiconductor memory devices that provide fast read speeds. NOR is most commonly used for reliable code storage (e.g., boot, application, operating system, and execute-in-place code in an embedded system) and for frequently changing small data storage and is ideal for automotive, industrial, and consumer applications.

Industry Conditions

Memory and Storage Demand

AI-driven memory and storage growth is outpacing industry supply. In the third quarter of 2026, we continued to benefit from substantial improvements in pricing and margins, reflecting strong demand growth, driven in large part by the continued advancement of AI. The AI-driven growth in the data center has accelerated demand for memory and storage at a rate greater than our ability and the industry's ability to increase supply. This has led to decisions on supply allocation that may impact certain customers and end markets as the overall market demand for memory and storage exceeds overall industry supply. Robust overall DRAM and NAND demand and constrained supply has led to increased pricing and improved the profitability across our portfolio.

Strategic Customer Agreements

The evolving industry landscape, characterized by strong long-term customer demand for memory solutions and structurally constrained supply growth, has elevated the strategic importance of memory to our customers' product roadmaps. As customers increasingly seek to secure committed long-term access to advanced memory technology and committed long-term memory supply, we have experienced increased customer engagement in strategic commitments. In the third and fourth quarters of 2026, we entered into, and expect to continue to enter into, strategic customer agreements. These agreements provide customers contracted supply assurance and greater pricing visibility, and provide us higher visibility and improved stability in our business performance.

Strategic customer agreements are structured as take-or-pay agreements, with binding commitments for specific volumes over the multi-year contract terms. Pricing for most agreements is either fixed, or is subject to minimum and maximum pricing. The largest agreements generally have a ceiling price for existing products that approximates the market price in the second calendar quarter of 2026, and a floor price through the term of the agreement. A minority of the agreements do not have any fixed pricing or price bands, as pricing for those agreements is subject to market conditions.

We expect gross margins from our strategic customer agreements with price bands, even at floor pricing levels, to yield gross margins well above our peak quarterly margins in any past cycle. Accordingly, we believe these agreements accelerate the transformation of our business model and will significantly enhance the durability and predictability of our financial performance.

Results of Operations

Consolidated Results

	Third Quarter 2026		Second Quarter 2026		Third Quarter 2025		Nine Months Ended					
							2026		2025			
Revenue	\$	41,456	100 %	\$	23,860	100 %	\$	78,959	100 %	\$	26,063	100 %

Total Revenue: Total revenue for the third quarter and first nine months of 2026 was impacted by the factors described in the section titled “Industry Conditions—Memory and Storage Demand” above.

Total revenue for the third quarter of 2026 increased 74% as compared to the second quarter of 2026, primarily due to increases in sales of both DRAM and NAND products.

- Sales of DRAM products increased 67%, primarily due to a low-60% range increase in average selling prices and a low-single-digit percentage range increase in bit shipments.
- Sales of NAND products increased 99%, primarily due to a mid-80% range increase in average selling prices and a mid-single-digit percentage range increase in bit shipments.

Total revenue for the third quarter of 2026 increased 346% as compared to the third quarter of 2025, primarily due to increases in sales of both DRAM and NAND products.

- Sales of DRAM products increased 343%, primarily due to a low-260% range increase in average selling prices and a low-20% range increase in bit shipments.
- Sales of NAND products increased 361%, primarily due to a mid-310% increase in average selling prices and a low-double-digit increase in bit shipments.

Total revenue for the first nine months of 2026 increased 203% as compared to the first nine months of 2025, primarily due to increases in sales of both DRAM and NAND products.

- Sales of DRAM products increased 211%, primarily due to an approximate 140% increase in average selling prices and an approximate 30% increase in bit shipments.
- Sales of NAND products increased 183%, primarily due to an approximate 130% increase in average selling prices and a low-20% range increase in bit shipments.

Consolidated Gross Margin: Our consolidated gross margin has been impacted by the factors described in the section titled “Industry Conditions—Memory and Storage Demand.” Our consolidated gross margin percentage increased to 85% for the third quarter of 2026 from 74% for the second quarter of 2026 as a result of improvements in margins for both DRAM and NAND products. Margins improved primarily due to increases in average selling prices and also benefited from continued strong execution and favorable mix.

Our consolidated gross margin percentage improved to 85% for the third quarter of 2026 from 38% for the third quarter of 2025 and improved to 77% for the first nine months of 2026 from 38% for the first nine months of 2025. Improvements in our consolidated gross margins for the third quarter and first nine months of 2026 as compared to corresponding periods of 2025 were due to improvements in margins for both DRAM and NAND products. Margins improved, primarily due to increases in average selling prices and, to a lesser extent, favorable mix and manufacturing cost reductions.

Revenue by Business Unit

	Third Quarter 2026		Second Quarter 2026		Third Quarter 2025		Nine Months Ended								
							2026		2025						
CMBU	\$	13,769	33 %	\$	7,749	32 %	\$	3,386	36 %	\$	26,802	34 %	\$	8,981	34 %

MCBU		11,521	28 %		7,711	32 %		3,255	35 %		23,487	30 %		8,099	31 %
AEBU		4,634	11 %		2,708	11 %		1,127	12 %		9,062	11 %		3,319	13 %
All other		8	— %		5	— %		3	— %		18	— %		12	— %
	\$	41,456		\$	23,860		\$	9,301		\$	78,959		\$	26,063	

Percentages of total revenue may not total 100% due to rounding.

Changes in revenue for each business unit for the third quarter of 2026 as compared to the second quarter of 2026 were as follows:

- CMBU revenue increased 78%, primarily due to increases in average selling prices and bit shipments.
- CDBU revenue increased 103%, primarily due to increases in average selling prices and favorable mix.
- MCBU revenue increased 49%, primarily due to increases in average selling prices, partially offset by lower bit shipments.
- AEBU revenue increased 71%, primarily due to increases in average selling prices and bit shipments.

Changes in revenue for each business unit for the third quarter and first nine months of 2026 as compared to the corresponding periods of 2025 were as follows:

- CMBU revenue increased 307% and 198%, respectively, primarily due to increases in average selling prices and bit shipments.
- CDBU revenue increased 653% and 247%, respectively, primarily due to increases in average selling prices and bit shipments.
- MCBU revenue increased 254% and 190%, respectively, primarily due to increases in average selling prices, partially offset by lower bit shipments.
- AEBU revenue increased 311% and 173%, respectively, primarily due to increases in average selling prices and bit shipments.

Operating Income by Business Unit

	Third Quarter 2026		Second Quarter 2026		Third Quarter 2025		Nine Months Ended			
							2026		2025	
CMBU	\$ 10,793	78 %	\$ 5,127	66 %	\$ 1,573	46 %	\$ 18,804	70 %	\$ 3,959	44 %
CDBU	9,519	83 %	3,809	67 %	307	20 %	14,218	73 %	1,789	32 %
MCBU	9,873	86 %	5,836	76 %	482	15 %	17,726	75 %	877	11 %

	<u>\$ 33,681</u>		<u>\$ 16,455</u>		<u>\$ 2,490</u>		<u>\$ 56,555</u>		<u>\$ 6,891</u>	

Percentages reflect operating income as a percentage of revenue for each business unit.

Changes in operating income for each business unit for the third quarter of 2026 as compared to the second quarter of 2026 were as follows:

- CMBU operating income was higher, primarily due to increases in average selling prices and higher bit shipments.
- CDBU operating income was higher, primarily due to increases in average selling prices.
- MCBU operating income was higher, primarily due to increases in average selling prices and favorable mix, partially offset by lower bit shipments.
- AEBU operating income was higher, primarily due to increases in average selling prices, higher bit shipments, and favorable mix.

Changes in operating income for each business unit for the third quarter and first nine months of 2026 as compared to the corresponding periods of 2025 were as follows:

- CMBU operating income was higher, primarily due to increases in average selling prices, higher bit shipments, and manufacturing cost reductions.
- CDBU operating income was higher, primarily due to increases in average selling prices, higher bit shipments, and manufacturing cost reductions.
- MCBU operating income was higher, primarily due to increases in average selling prices and manufacturing cost reductions, partially offset by lower bit shipments.
- AEBU operating income was higher, primarily due to increases in average selling prices, higher bit shipments, and manufacturing cost reductions.

Operating Expenses and Other

Research and Development: R&D expenses vary primarily with the number of development and pre-qualification wafers processed and end-product solutions developed, personnel costs, and the cost of advanced equipment dedicated to new product and process development. Because of the lead times necessary to manufacture our products, we typically begin to process wafers before completion of performance and reliability testing. Development of a product is deemed complete when it is qualified through internal reviews and tests for performance, functionality, and reliability. R&D expenses can vary significantly depending on the timing of product qualification and product specifications.

R&D expenses for the third quarter of 2026 increased 5% as compared to the second quarter of 2026, primarily due to increases in employee compensation. R&D expenses for the third quarter and first nine months of 2026 both increased 36%, as compared to the corresponding periods of 2025, primarily due to higher volumes of development and pre-qualification wafers, as we ramp R&D investments in support of long-term opportunities in memory and storage, and increases in employee compensation.

Selling, General, and Administrative: SG&A expenses for the third quarter of 2026 increased 18% as compared to the second quarter of 2026, primarily due to increases in employee compensation. SG&A expenses for the third quarter and first nine months of 2026 increased 28% and 22%, respectively, as compared to the corresponding periods of 2025, primarily due to increases in employee compensation.

Interest Income (Expense), Net: Interest income (expense) improved in the third quarter of 2026 as compared to the second quarter of 2026 and for the third quarter and first nine months of 2026 as compared to the corresponding periods of 2025, primarily due to a decrease in interest expense due to lower debt balances and an increase in interest income due to higher cash and investments balances.

Income Taxes: Our income tax (provision) benefit consisted of the following:

	Third Quarter 2026	Second Quarter 2026	Third Quarter 2025	Nine Months Ended	
				2026	2025
Income before taxes	\$ 33,212	\$ 16,160	\$ 2,113	\$ 55,433	\$ 6,023
Income tax (provision) benefit	(4,978)	(2,371)	(235)	(8,178)	(695)
Effective tax rate	15.0 %	14.7 %	11.1 %	14.8 %	11.5 %

The change in our effective tax rate for the third quarter of 2026, as compared to the second quarter of 2026 was primarily due to changes in profitability, which reduced the relative impact of discrete tax benefits. The change in our effective tax rate for the third quarter and first nine months of 2026, as compared to the corresponding periods of 2025, was primarily due to the 15% minimum tax Pillar Two Model Rules ("Pillar Two"). Singapore enacted legislation to implement Pillar Two, effective for us in 2026, which largely offsets the benefit from our Singapore tax incentive arrangements.

On July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was enacted, introducing broad changes to the U.S. tax code, including modifications to corporate and international tax provisions, which primarily are effective for us beginning in 2026 and 2027. The aggregate impact of the OBBBA remains uncertain. We will continue to monitor future developments, including regulatory guidance and interpretations, which could have a material impact on our income tax provision. Further changes in the tax laws of foreign jurisdictions could arise as a result of the base erosion and profit-shifting project, including Pillar Two, undertaken by the Organisation for Economic Co-operation and Development. We continue to monitor for additional guidance and legislative changes related to Pillar Two in the jurisdictions where we operate.

Various tax reforms are being considered in multiple jurisdictions that, if enacted, contain provisions that could materially impact our tax expense. We continue to monitor the potential impact of these various tax reform proposals to our overall global effective tax rate and financial statements.

Other: Further information can be found in the following notes contained in Item 1. Financial Statements, Notes to Consolidated Financial Statements:

- Note 9. Debt
- Note 13. Equity Compensation Plans

Liquidity and Capital Resources

Our primary sources of liquidity are cash generated from operations and financing obtained from capital markets and financial institutions. Cash generated from operations is highly dependent on selling prices for our products, which can vary significantly from period to period. Cash and marketable investments totaled \$30.13 billion as of May 28, 2026, and \$11.94 billion as of August 28, 2025. Our cash and investments consist primarily of bank deposits, money market funds, and liquid investment-grade, fixed-income securities, which are diversified among industries and individual issuers. To mitigate credit risk, we invest through high-credit-quality financial institutions and by policy generally limit the concentration of credit exposure by restricting the amount of investments with any single obligor. As of May 28, 2026, \$5.40 billion of our cash and marketable investments was held by our foreign subsidiaries.

We recently executed certain strategic customer agreements, including agreements executed subsequent to May 28, 2026. These agreements include binding commitments for specific volumes over the multi-year contract terms. Strategic customer agreements often include substantial customer deposits and related financial commitments. In connection with these strategic customer agreements, we expect to receive cash deposits and related financial commitments of \$22 billion for agreements concluded to date. Approximately \$18 billion of these commitments will be in the form of cash deposits.

We continuously evaluate alternatives for efficiently funding our capital expenditures and ongoing operations. As of May 28, 2026, \$2.00 billion was available to draw under our Revolving Credit Facility. Funding of certain significant capital projects is also supported by the receipt of government incentives. Our incentives are conditioned upon achieving or maintaining certain outcomes and satisfying compliance requirements and are subject to reduction, termination, or clawback.

To develop new product and process technology, support future growth, achieve operating efficiencies, and maintain product quality, we must continue to invest in manufacturing technologies, facilities and equipment, and R&D. We estimate capital expenditures for property, plant, and equipment, net of proceeds from government incentives, to be approximately \$27 billion in 2026. Actual amounts for 2026 will vary depending on market conditions and may vary from quarter to quarter due to the timing of expenditures and proceeds from government incentives. As of May 28, 2026, we had purchase obligations of approximately \$2.93 billion for the acquisition of property, plant, and equipment, substantially all of which is expected to be paid within one year. For a description of other contractual obligations, such as finance leases and debt, see Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 9. Debt.

In addition to the supply capacity we generate through our proprietary product and process technology that increases bit density per wafer, we will need to add new DRAM wafer capacity to support projected memory demand in the second half of the decade and beyond. Following the enactment of the CHIPS Act, we announced plans to invest in leading-edge memory manufacturing sites in Idaho and New York, based on CHIPS Act support through grants and investment tax credits.

As part of this plan, in September 2022, we broke ground on a leading-edge memory manufacturing fab in Boise, Idaho. Construction of the fab began in October 2023, with first DRAM wafer output projected in mid-calendar 2027. In June 2025, in connection with certain amendments to our CHIPS Act agreements, we announced plans for a second leading-edge memory manufacturing fab in Idaho to serve growing market demand fueled by AI. We plan to begin construction of the second Idaho fab in 2026, and expect initial wafer output by late calendar 2028.

Our investment plan for New York includes construction of a leading-edge DRAM memory manufacturing site, consisting of up to four fabs to be built over the next 20-plus years, in Clay, New York. In January 2026, we broke ground on our first New York fab, which will provide supply in 2030 and beyond. We expect these new fabs to be key to meeting our requirements for additional wafer capacity, in line with industry demand trends and our objective of maintaining stable bit share.

On December 9, 2024, we entered into direct funding agreements with the U.S. Department of Commerce for up to \$6.1 billion in direct funding pursuant to the CHIPS Act for a planned fab in Boise, Idaho, and two planned fabs in Clay, New York. On June 11, 2025, we entered into amendments to the direct funding agreements to add a second planned fab in Boise, Idaho, and allocate certain award funding to the second planned Idaho fab from the \$6.1 billion grants previously awarded under the December 2024 direct funding agreements. The direct funding for up to \$6.1 billion remains unchanged. On June 11, 2025, we also entered into a direct funding agreement with the U.S. Department of Commerce for up to \$275 million in direct funding to expand and modernize our fab in Manassas, Virginia. The grants under the funding agreements represent total CHIPS Act grants of up to \$6.4 billion in connection with our U.S. manufacturing expansion and modernization projects. In addition, we announced plans to bring advanced HBM packaging capabilities to the United States.

In addition to the CHIPS Act direct funding, we receive a 35% investment tax credit on qualified investments in U.S. semiconductor manufacturing under the CHIPS Act. We have also signed a non-binding term sheet with the State of New York that provides for up to \$5.5 billion in funding for the planned four-fab facility over the next 20-plus years through a combination of tax credits for qualified capital investments and incentives for eligible new job wages.

Outside the United States, we are investing in manufacturing technologies, facilities and equipment, and R&D, and advancing our global back-end assembly and test network. These investments support our product portfolio and

extend our ability to meet global market demand in the future. Planned investments and those underway include the following:

- **India:** Our assembly and test facility in Gujarat commenced commercial shipments and will start ramping production in 2026;
- **Japan:** We are modernizing our Hiroshima manufacturing facility to support future DRAM nodes and AI memory production;
- **Singapore:** We broke ground in January 2025 on an HBM advanced packaging facility to meaningfully expand our total advanced packaging capacity beginning in the first half of calendar 2027. In January 2026, we broke ground on an additional advanced wafer fab facility located within our existing NAND manufacturing complex. This facility will provide additional cleanroom space when it becomes operational in the second half of calendar 2028, helping address growing market demand for NAND technology driven by the rapid expansion of AI and data-centric applications; and
- **Taiwan:** We are modernizing and expanding our production capacity for DRAM and HBM products to meet rising market demand. In March 2026, we completed the acquisition of a wafer fabrication facility in Tongluo, Miaoli County, Taiwan, from Powerchip Semiconductor Manufacturing Corporation for cash consideration of \$1.8 billion. We expect this site to support meaningful product shipments from the existing fab beginning in mid-calendar 2027. Adding to the existing fab, we have begun construction of a similar-sized second cleanroom at this site.

In certain countries outside of the U.S, we receive or expect to receive, government incentives related to our investments. The amounts of these government incentives generally offset a portion of our planned investments and require us to meet certain conditions in order to receive such incentives.

Our Board of Directors has authorized the discretionary repurchase of up to \$10 billion of our outstanding common stock through open-market purchases, block trades, privately-negotiated transactions, derivative transactions, and/or pursuant to Rule 10b5-1 trading plans. Through May 28, 2026, we had repurchased an aggregate of \$7.84 billion under the authorization. The repurchase authorization has no expiration date, does not obligate us to acquire any common stock, and is subject to market conditions, restrictions applicable under our CHIPS Act direct funding agreements, and our ongoing determination of the best use of available cash. See Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 11. Equity.

On June 24, 2026, our Board of Directors declared a quarterly dividend of \$0.15 per share, payable in cash on July 21, 2026, to shareholders of record as of the close of business on July 6, 2026. The declaration and payment of any future cash dividends are at the discretion and subject to the approval of our Board of Directors. Our Board of Directors' decisions regarding the amount and payment of dividends will depend on many factors, including, but not limited to, our financial condition, results of operations, capital requirements, business conditions, debt service obligations, contractual restrictions, industry practice, legal requirements, regulatory constraints, and other factors that our Board of Directors may deem relevant.

We expect that our cash and investments, cash flows from operations, funding from government incentives, customer deposits under strategic customer agreements, and available financing will be sufficient to meet our requirements at least through the next 12 months and thereafter for the foreseeable future.

Cash Flows

Nine Months Ended	May 28, 2026	May 29, 2025
Net cash provided by operating activities	\$ 45,702	\$ 11,795
Net cash used for investing activities	(19,688)	(8,889)
Net cash provided by (used for) financing activities	(10,646)	214
Effect of changes in currency exchange rates on cash, cash equivalents, and restricted cash	8	(3)
Net increase in cash, cash equivalents, and restricted cash	\$ 15,376	\$ 3,117

Operating Activities: Cash provided by operating activities reflects net income adjusted for certain non-cash items, including depreciation expense, amortization of intangible assets, and stock-based compensation, and the effects of changes in operating assets and liabilities.

The increase in cash provided by operating activities for the first nine months of 2026 as compared to the first nine months of 2025 was primarily due to higher net income in the current year adjusted for non-cash items, an increase in accounts payable and accrued expenses mostly related to property, plant and equipment and income and other taxes, an increase in other current liabilities resulting mainly from higher consideration payable to customers for pricing adjustments, and an increase in noncurrent liabilities largely due to higher noncurrent income taxes payable related to the implementation of Pillar Two. These increases were partially offset by a significant increase in receivables due to higher revenue in the first nine months of 2026.

Investing Activities: For the first nine months of 2026, net cash used for investing activities consisted primarily of \$19.60 billion of expenditures for property, plant, and equipment and \$2.84 billion of net outflows from purchases, maturities, and sales of available-for-sale securities, partially offset by \$2.99 billion of proceeds from government incentives to offset capital expenditures.

For the first nine months of 2025, net cash used for investing activities consisted primarily of \$10.20 billion of expenditures for property, plant, and equipment, partially offset by \$1.29 billion of proceeds from government incentives to offset capital expenditures.

Financing Activities: For the first nine months of 2026, net cash used for financing activities consisted primarily of \$9.38 billion of repayments of debt, which included the prepayment in full of the 2028 Notes, 2029 Term Loan A, 2029 A Notes, 2029 B Notes, and 2030 Notes and the partial prepayments of the 2031 Notes, 2032 Notes, 2033 A Notes, 2033 B Notes, 2035 A Notes, and 2035 B Notes; \$762 million for the repurchases of common stock for withholdings on employee equity awards; \$650 million for the acquisition of 2.5 million shares of our common stock under our share repurchase authorization; and \$437 million for payments of dividends to shareholders. See Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 9. Debt.

For the first nine months of 2025, net cash provided by financing activities consisted primarily of \$1.68 billion of proceeds from the issuance of the 2029 Term Loan A; approximately \$1.25 billion of proceeds from the issuance of the 2035 B Notes; approximately \$1.00 billion of proceeds from the issuance of the 2035 A Notes; and \$499 million of proceeds from the issuance of the 2032 Notes; partially offset by \$3.60 billion of repayments of debt; \$392 million for payments of dividends to shareholders; and \$290 million for the repurchases of common stock for withholdings on employee equity awards.

Critical Accounting Estimates

For a discussion of our critical accounting estimates, see Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Critical Accounting Estimates of our Annual Report on Form 10-K for the year ended August 28, 2025. There have been no significant changes to our critical accounting estimates since our Annual Report on Form 10-K for the year ended August 28, 2025.

Recently Issued Accounting Standards

See Part I, Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 2. Recently Issued Accounting Standards.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For further discussion about market risk and sensitivity analysis related to changes in interest rates and currency exchange rates, see Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our Annual Report on Form 10-K for the year ended August 28, 2025. There have been no material changes to our market risk during the nine months ended May 28, 2026.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based upon that evaluation, the principal executive officer and principal financial officer concluded that those disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act are recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms and that such information is accumulated and communicated to our management, including the principal executive officer and principal financial officer, to allow timely decisions regarding disclosure.

During the third quarter of 2026, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For a discussion of legal proceedings, see Part I. Financial Information, Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 10. Contingencies and Item 1A. Risk Factors in this Quarterly Report on Form 10-Q.

SEC regulations require disclosure of certain proceedings related to environmental matters unless we reasonably believe that the related monetary sanctions, if any, will be less than a specified threshold. We use a threshold of \$1 million for this purpose.

ITEM 1A. RISK FACTORS

In addition to the factors discussed elsewhere in this Form 10-Q, this section discusses important factors which could cause actual results or events to differ materially from those contained in any forward-looking statements made by us. The order of presentation is not necessarily indicative of the level of risk that each factor poses to us. Any of these factors could have a material adverse effect on our business, results of operations, financial condition, or stock price. Our operations could also be affected by other factors that are presently unknown to us or not considered significant.

Risk Factor Summary

Risks Related to Our Business, Operations, and Industry

- volatility in average selling prices of our products;
- a range of factors that may adversely affect our gross margins;
- our international operations, including geopolitical risks;
- the highly competitive nature of our industry;
- our ability to develop, produce, and supply new and competitive memory and storage technologies and products;
- realizing expected returns from capacity expansions;
- achieving or maintaining certain outcomes and the compliance requirements associated with incentives from various governments;
- availability and quality of materials, supplies, electrical power, gas, water, and capital equipment, or dependency on third-party service providers;
- a downturn or ongoing adverse conditions in regional or worldwide economies;
- disruptions to our manufacturing processes from operational issues, natural disasters, or other events;
- dependency on certain customers, including international customers, and end markets;
- products that fail to meet specifications, are defective, or are incompatible with end uses;
- breaches of our security systems or products, systems failures, interruptions, delays in service, catastrophic events, and resulting interruptions of our systems or those of our customers, suppliers, or business partners;
- uncertainties and outcomes associated with the use and evolution of AI;
- attracting, retaining, and motivating highly skilled employees;
- responsible sourcing requirements and related regulations;
- sustainability and governance expectations or standards;
- acquisitions and/or strategic transactions and investments; and
- restructure plans may not realize expected savings or other benefits.

Risks Related to Intellectual Property and Litigation

- protecting our intellectual property and retaining key employees who are knowledgeable about and develop our intellectual property;
- legal, regulatory and administrative investigations, inquiries, proceedings, and claims; and
- claims that our products or manufacturing processes infringe or otherwise violate the intellectual property rights of others or failure to obtain or renew license agreements covering such intellectual property.

Risks Related to Laws and Regulations

- impacts of government actions and compliance with tariffs, trade restrictions, and/or trade regulations;
- tax expense and tax laws in key jurisdictions; and
- compliance with laws, regulations, or industry standards, including environmental considerations.

Risks Related to Capitalization and Financial Markets

- our ability to generate sufficient cash flows or obtain access to external financing;
- our debt obligations;
- changes in foreign currency exchange rates;
- counterparty default risk;
- volatility in the trading price of our common stock; and
- fluctuations in the amount and frequency of our common stock repurchases and payment of cash dividends and resulting impacts.

Risks Related to Our Business, Operations, and Industry

Volatility in average selling prices for our semiconductor memory and storage products may adversely affect our business.

We have experienced significant volatility in our average selling prices and may continue to experience such volatility in the future. Over the past five fiscal years, annual percentage changes in DRAM average selling prices have ranged from an increase in the low 40% range to a decrease in the high 40% range. DRAM average selling prices increased approximately 140% for the first nine months of 2026 compared to the first nine months of 2025. In the past five fiscal years, annual percentage changes in NAND average selling prices have ranged from an increase in the low 30% range to a decrease in the low 50% range. NAND average selling prices increased approximately 130% for the first nine months of 2026 compared to the first nine months of 2025. In some prior periods, average selling prices for our products have been below our manufacturing costs, and we may experience such circumstances in the future. Significant declines in average selling prices in future periods could have a material adverse effect on our business, results of operations, or financial condition.

Our gross margins may be adversely affected by a range of factors.

In addition to the impact of our average selling prices, our gross margins are dependent, in part, upon continuing decreases in per gigabit manufacturing costs, which is primarily achieved through improvements in our manufacturing processes and product designs. Factors that may limit our ability to reduce our per gigabit manufacturing costs at sufficient levels to prevent deterioration of or improve gross margins include, but are not limited to:

- strategic product diversification decisions affecting product mix;
- increasing complexity of our product portfolio, which may impact operational costs;
- increasing complexity of manufacturing processes;
- difficulties in transitioning to smaller line-width process technologies or additional 3D memory layers or NAND cell levels;
- process complexity, including number of mask layers and fabrication steps;
- manufacturing yield and defect density;
- technological barriers;
- changes in process technologies;
- new products that may require relatively larger die sizes or advanced packaging technologies;
- start-up or other costs associated with capacity expansions;
- regional cost differences that may become more pronounced when we transition the manufacture of certain products within our global network;
- higher costs of goods and services due to, among other things, inflationary pressures, regulatory actions, including tariffs or trade restrictions, increased input costs, or market conditions; and
- higher manufacturing costs per gigabit due to fabrication facility underutilization, lower wafer output, and insufficient volume to run new technology nodes to achieve cost optimization.

Many factors may result in a reduction of our output or a delay in ramping production, which have in the past and could in the future lead to underutilization of our production assets. These factors may include, among others, a weak demand environment, industry oversupply, inventory surpluses, difficulties in ramping emerging technologies, supply chain disruptions, and delays from equipment suppliers. A significant portion of our manufacturing costs are fixed and do not vary proportionally with changes in production output. As a result, lower utilization, lower wafer output, and corresponding increases in our per gigabit manufacturing costs could result in higher inventory carrying costs, and have had, and may continue to have, an adverse effect on our gross margins, business, results of operations, or financial condition.

We operate in a dynamic and rapidly evolving industry where the timeframes for product transitions, facility expansions, production ramps, and supply chain shifts are increasingly compressed. To remain competitive, we must continuously develop and implement new products and technologies and decrease manufacturing costs in spite of inflationary pressures and regulatory uncertainty. As we streamline our production and shift capacity to

leading-edge nodes, we face execution risks that could impact our ability to meet customer demand and maintain market coverage.

There can be no assurance we will be able to do the following:

- timely identify and address technology inflections and market changes;
- accurately forecast demand and inventory levels of our customers or distributors;
- timely ramp production as we transition our operations footprint to new fabrication facilities;
- maintain operational flexibility in response to unforeseen changes in customer demand; and
- maintain supply scalability during downturns in the semiconductor markets in which we compete as we streamline our product portfolio to drive further fabrication efficiencies.

Our ability to execute on multiple transitions simultaneously, while maintaining supply continuity, quality standards, and cost competitiveness, is critical to sustaining our market position. If we do not successfully anticipate technology inflections and respond to changes in customer requirements and market changes, our business, results of operations, or financial condition could be materially adversely affected. Any misalignment between forecasted and actual demand, or delays in ramping new technologies, could result in elevated inventory levels, underutilized capacity, and gross margin pressure.

We have a broad portfolio of products to address our customers' needs, which span multiple market segments and are subject to rapid technological changes. Our manufacturing costs on a per gigabit basis vary across our portfolio as they are largely influenced by the technology node in which the solution was developed. We strive to balance our demand and supply for each technology node, but the dynamics of our markets and our customers can create periods of imbalance, which can lead us to carry elevated inventory levels and underutilized capacity. Consequently, we may incur charges in connection with obsolete or excess inventories, or we may not fully recover our costs, which would reduce our gross margins. In addition, due to the customized nature of certain products we manufacture, we may be unable to sell certain finished goods inventories to alternative customers or manufacture in-process inventory to different specifications, which may result in excess and obsolescence charges or loss of revenue in future periods.

In addition, if we are unable to supply products that meet customer design and performance specifications, we may be required to sell such products at lower average selling prices, which may reduce our gross margins. Our gross margins may also be impacted by shifts in product mix, driven by our strategy to optimize our portfolio to best respond to changing market dynamics.

Our industry goes through cycles with demand changes that are not fully aligned to the available supply in the market. We may not be able to predict or quickly respond to trends in the dynamics of our markets and our customers or changes in customer demand, which could negatively impact our gross margin. Although AI is a relatively new demand driver for our products, it is evolving rapidly, and the expected timing and amount of demand related to AI can change significantly. As a result, it may be difficult to accurately forecast such demand, and we have incurred and expect to continue to incur costs in anticipation of demand that ultimately may not materialize or may not be sustained. Additionally, periods of sustained higher prices for memory and storage products may reduce demand or result in our customers modifying product designs to reduce memory and storage content or seeking alternative technologies and solutions. If demand for our products materializes but is lower than expected, we may not be able to reduce our costs in response, which would adversely impact our gross margins. If demand exceeds our forecast, we may be unable to increase supply sufficiently to meet such demand, which could result in a loss of revenue or damage to customer relationships. Our inability to align supply with demand could have a material adverse effect on our business, results of operations, or financial condition.

We face geopolitical and other risks associated with our international operations that could materially adversely affect our business, results of operations, or financial condition.

In addition to our U.S. operations, a substantial portion of our operations are conducted in Taiwan, Singapore, Japan, Malaysia, China, and India, and many of our customers, suppliers, and vendors also operate internationally. In 2025, approximately one-third of our revenue was from sales to customers who have headquarters located outside the United States, while approximately 80% of our revenue in 2025 was from products shipped to customer locations outside the United States.

Our international operations are subject to a number of risks, including:

- restrictions on sales of goods or services to one or more of our significant foreign customers;
- export and import duties, changes to import and export regulations, customs regulations and processes, and restrictions on the transfer of funds, including currency controls and global tariffs, which could negatively affect the amount and timing of payments from certain of our customers and, as a result, our cash flows;
- compliance with U.S. and international laws involving international operations, including the Foreign Corrupt Practices Act of 1977, as amended, sanctions and anti-corruption laws, export and import laws, intellectual property, cybersecurity and data privacy laws, and similar rules and regulations;
- theft of intellectual property;
- political and economic instability, including instability resulting from domestic and international conflicts;
- government actions, civil unrest, or international conflicts preventing the flow of products and materials, including delays in shipping and obtaining products and materials, cancellation of orders, or loss or damage of products;
- public perception of governments in the regions where we operate;
- problems with the transportation or delivery of products and materials;
- issues arising from cultural or language differences and labor unrest;
- longer payment cycles and greater difficulty in collecting accounts receivable;
- compliance with trade, technical standards, and other laws in a variety of jurisdictions;
- contractual and regulatory limitations on the ability to maintain flexibility with staffing levels;
- disruptions to manufacturing or R&D activities as a result of actions imposed by governments;
- changes in economic policies of foreign governments;
- loss of market share in foreign jurisdictions resulting from political and regulatory uncertainty regarding possible trade restrictions, domestic sourcing initiatives, or other government actions;
- difficulties in staffing and managing international operations; and
- public health issues.

If we or our customers, suppliers, or vendors are impacted by any of these risks, it could have a material adverse effect on our business, results of operations, or financial condition.

Following the May 2023 decision of its cybersecurity review of our products sold in China, the CAC determined that critical information infrastructure operators in China may not purchase Micron products, impacting our revenue with companies headquartered in mainland China and Hong Kong, including direct sales, as well as indirect sales through distributors. Further actions by the Chinese government, through CAC action or other means, could impact revenue inside or outside China, or our operations in China, or our ability to ship products to our customers, any of which could have a material adverse effect on our business, results of operations, or financial condition.

In addition, the U.S. government has in the past and continues to restrict American firms, including us, from selling products and software to certain of our customers and may in the future impose similar restrictions on one or more of our significant customers. We may not be able to fully prevent the unauthorized resale, diversion, or misuse of our products by third parties. These restrictions may not prohibit our competitors from selling similar products to our customers, which may result in a loss of sales and market share. Even as such restrictions are lifted, financial or other penalties or continuing export restrictions imposed with respect to our customers could have a continuing negative impact on our future revenue and results of operations, and we may not be able to recover any customers or market share we lose, or make such recoveries at acceptable average selling prices, while complying with such restrictions.

Political, economic, or other actions may adversely affect our operations in Taiwan. A majority of our DRAM production output in 2025 was from our fabrication facilities in Taiwan, and any loss of output could have a material adverse effect on us. Any political, economic, or other actions may also adversely affect our customers and the technology industry supply chain, for which Taiwan is a central hub, and as a result, could have a material adverse impact on us.

The semiconductor memory and storage markets are highly competitive.

We face intense competition in the semiconductor memory and storage markets from a number of companies, including Samsung Electronics Co., Ltd.; SK hynix Inc.; Kioxia Holdings Corporation; Sandisk Corporation; ChangXin Memory Technologies, Inc. ("CXMT"); and Yangtze Memory Technologies Co., Ltd. ("YMTC"). Our competitors may use aggressive pricing to obtain market share. Some of our competitors are large corporations or conglomerates that may operate in jurisdictions with lower labor and compliance costs and may have a larger market share and greater resources to invest in technology, capitalize on growth opportunities, and withstand downturns in the semiconductor markets in which we compete. Consolidation of industry competitors could put us at a competitive disadvantage as our competitors may benefit from increased manufacturing scale and a stronger product portfolio. Alternatively, new entrants into the memory and storage market could have a significant adverse impact on our competitive position. We operate in different jurisdictions than our competitors and may be impacted by unfavorable changes in currency exchange rates, import/export restrictions, and other trade regulations, including tariffs.

In addition, governments have provided, and may continue to provide, significant assistance, financial or otherwise, to some of our competitors or to new entrants and may intervene in support of national industries and/or competitors. As a result, we face the threat of increasing competition and DRAM and NAND oversupply due to significant investment in the semiconductor industry, including by the Chinese government and various state-owned or affiliated entities, such as CXMT and YMTC. In addition, the CAC's decision that critical information infrastructure operators in China may not purchase Micron products had an adverse impact on our ability to compete effectively in China and elsewhere.

We intend to advance our process technology to increase bit output per wafer, improve yields, and increase wafer supply. In addition, our competitors may increase capital expenditures resulting in future increases in worldwide supply. We, and some of our competitors, have plans to construct new fabrication facilities and/or ramp production at existing fabrication facilities. Increases in worldwide supply of semiconductor memory and storage, if not accompanied by commensurate increases in demand, could lead to declines in average selling prices for our products and could materially adversely affect our business, results of operations, or financial condition. Additionally, rapid technological change in markets we serve could contribute to shortened product life cycles and a decline in average selling prices of our products. If competitors are more successful at developing or implementing new product or process technology, their products could have cost or performance advantages.

The competitive nature of our industry could have a material adverse effect on our business, results of operations, or financial condition.

Our future success depends on our ability to develop, produce, and supply new and competitive memory and storage technologies and products in a dynamic market environment.

Our key semiconductor memory and storage technologies face technological barriers to continue to meet long-term customer needs. These barriers include achieving acceptable yields and quality for HBM products with their multiple chip layers, potential limitations on stacking additional 3D memory layers, increasing bits per cell (i.e., cell levels), meeting higher density requirements, developing advanced packaging solutions, improving power consumption and reliability, and delivering advanced features and higher performance. We may face technological barriers to continue to shrink our products at our current or historical rate, which has generally reduced per gigabit cost. We have invested and expect to continue to invest in R&D for new and existing products and process technologies, such as EUV lithography, to continue to deliver advanced product requirements. Such new technologies can add complexity and risk to our schedule and may affect our costs and production output. We may be unable to recover our investment in R&D or otherwise realize the economic benefits of reducing die size or increasing memory and storage densities. Our competitors are working to develop new memory and storage technologies that may offer performance and/or cost advantages to existing technologies and render existing technologies obsolete. Accordingly, our future success may depend on our ability to develop and produce viable and competitive new memory and storage technologies.

We are developing new products, including system-level memory and storage products and solutions, which complement our traditional products or leverage their underlying design or process technology. We have invested and expect to continue to invest in new semiconductor product and system-level solution development. We are increasingly differentiating our products and solutions to meet the specific demands of our customers, which increases our reliance on our customers' ability to accurately forecast the needs and preferences of their customers.

In addition, our ability to successfully introduce new products often requires us to make product specification decisions multiple years in advance of when new products enter the market. Recent technologies, such as generative AI models have emerged, and while they have driven increased demand for HBM and other advanced products in the data center and other markets, the long-term trajectory is unknown and associated demand may fluctuate. Due to the higher performance and more complex manufacturing process, HBM requires a higher number of wafers and more cleanroom space to produce the same number of bits as conventional DRAM in the same technology node. If demand for HBM weakens and suppliers shift capacity from HBM to conventional DRAM, this could result in a significant increase in conventional DRAM supply. An oversupplied DRAM market may lead to downward pressure on pricing, which could adversely impact our financial results. Conversely, as the demand for DRAM, HBM, or any of our other products has increased and may continue to increase, we may be unable to increase supply sufficiently to meet such demand. Our ability to meet demand is influenced by numerous factors, including changes in product development cycles, cleanroom capacity, ramping technologies, and evolving customer requirements. When demand exceeds our supply, we have been and may be unable to scale supply sufficiently, requiring us to make decisions about manufacturing priorities, as well as customer and market supply allocations. Periods of constrained supply, insufficient customer supply allocations, or elevated pricing for memory and storage products may strain long-term customer relationships, result in disruptions to downstream markets and supply chains and, where such products are viewed as critical inputs to certain industries, lead to legal or other disputes or government and regulatory focus. If these conditions persist, they could limit or severely restrict our ability to sell our product into certain end markets in the future.

Our product demand may also be impacted significantly by the strategic actions of our customers. It is important that we deliver products in a timely manner that meet customer requirements at the time our customers are designing and evaluating samples for their products. If we do not meet their product design schedules, our customers may exclude us from further consideration as a supplier for those products. The process to develop new products requires us to demonstrate advanced functionality, performance, and reliability, often well in advance of a planned ramp of production, in order to secure design wins with our customers. Many factors may negatively impact our ability to meet anticipated timelines and/or expected or required quality standards with respect to the development of certain of our products. In addition, some of our components have long lead times, requiring us to place orders up to a year in advance of anticipated demand. Such long lead times increase the risk of excess inventory or loss of sales in the event our forecasts vary substantially from actual demand.

There can be no assurance of the following:

- we will be successful in developing competitive new semiconductor memory and storage technologies and products;
- we will be able to cost-effectively manufacture new products;
- we will be able to successfully achieve revenue targets for these technologies;
- margins and cash flows generated from sales of these products will allow us to recover costs of development efforts;
- we will be able to establish or maintain key relationships with customers, or that we will not be prohibited from working with certain customers, for specific chip set or design requirements;
- we will accurately predict and design products that meet our customers' specifications; or
- we will be able to introduce new products into the market and qualify them with our customers on a timely basis.

Unsuccessful efforts to develop new memory and storage technologies and products could have a material adverse effect on our business, results of operations, or financial condition.

We may not be able to achieve expected returns from capacity expansions.

We continue to expand our production capacity in the United States and in other regions where we operate, in large part, to meet expected demand for our products. These expansion projects are multi-year projects that require significant lead time and commitment of capital well in advance of achieving any returns. Semiconductor fabs are complex, capital-intensive projects and require specialized knowledge, expertise, experience, and skill sets to construct and operate.

Our construction projects are highly dependent on available sources of materials and specialized equipment, as well as labor, skilled sub-contractors, and other service providers. Increasing demand, supply constraints, inflation, tariffs, trade restrictions, and other market conditions could result in shortages and higher costs. Additionally, difficulties in obtaining labor, skilled sub-contractors and other service providers, or other resources could result in delays in completion of our construction projects and cost increases, including costs to operate these facilities, and could impair our ability to meet customer demand and result in loss of market share to competitors.

In the United States and in certain other regions, fab building has been uncommon in recent years. Concurrent semiconductor expansion projects across the industry introduce significant competition for the limited pool of construction talent with requisite expertise and experience in these regions. As such, expanding production capacity in the United States and certain other regions may introduce more challenges than we would experience in geographies with more established ecosystems.

In addition, these expansions involve several risks, including the following:

- inability to meet capital expenditure requirements for capacity expansions, including during periods of relatively low free cash flow generation, resulting from challenging memory and storage industry conditions;
- unavailability of necessary funding, which may include external sources;
- inability to realize expected grants, investment tax credits, and other government incentives, including through the CHIPS Act and other national, international, state, and local grants;
- potential changes in laws or provisions of grants, investment tax credits, and other government incentives, including the CHIPS Act;
- delays and potential restrictions related to environmental and other government regulations or permits;
- potential restrictions on expanding in certain geographies;
- inability to complete construction as scheduled and within budget;
- inability to attract, retain and motivate key talent;
- inability to timely ramp production in a cost-effective manner;
- increases to our cost structure until new production is ramped to adequate scale; and
- insufficient customer demand to utilize our increased capacity.

From time to time, we have experienced impacts from certain of the above items and, because these risks are a characteristic of our business, we expect to experience them in the future. Depending on the nature and extent of the impact from these risks, we may be unable to produce sufficient capacity in the expected timeframe which could result in delays in the completion of our construction projects and increased costs, including costs to operate these facilities.

We have a broad portfolio of products to address our customers' needs, which span multiple market segments and are subject to rapid technological changes. We invest our capital in areas that we believe best align with our business strategy and optimize future returns. Investments in capital expenditures may not generate expected returns or cash flows. Significant judgment is required to determine which capital investments will result in optimal returns, and we could invest in projects that are ultimately less profitable than those projects we do not select. Our strategic decision-making process involves careful evaluation and prioritization of investments to ensure alignment with our long-term goals. Additionally, we may choose to exit business or market segments that do not provide us with optimal returns. As we streamline our product portfolio, we may face execution risks that could impact our ability to support demand and maintain share in certain markets. Further, as we continue to optimize the efficiency of our fabrication facilities to support demand from leading edge nodes, any delays in completion and ramping of new production facilities, or failure to optimize our investment choices, could significantly impact our ability to realize expected returns on our capital expenditures.

Any of the above factors could have a material adverse effect on our business, results of operations, or financial condition.

Our incentives from various governments are conditioned upon achieving or maintaining certain outcomes and satisfying compliance requirements and are subject to reduction, termination, or clawback, and could impose certain limitations on our business.

We have received, and expect to receive in the future, benefits and incentives from national, state, and local governments in various regions of the world designed to encourage us to establish, maintain, or increase investment, workforce, research and development, or production in those regions. However, there is no guarantee that such government incentives and benefits will continue to be available in the future on the same terms, terms that are acceptable to us or at all and existing incentives could be modified or terminated by government authorities. In addition, we have discretion in the timing of use of certain of these incentives. If we choose to exercise such discretion due to the cyclical nature of our business or other factors, we may not be able to fully utilize these incentives. Our future business plans may be impacted by obtaining these government incentives, which may take various forms, including grants, subsidies, loans, and tax arrangements, and typically require us to achieve or maintain certain levels of investment, capital spending, employment, technology deployment or development milestones, construction or production milestones, or research and development activities to qualify for such incentives or could restrict us from undertaking certain activities. We may fail to achieve these milestones, in a timely manner or at all, due to a variety of factors, some of which may be outside of our control, including a cyclical downturn in our business or global downturn. Failure to achieve such milestones could result in up to all of certain incentives being clawed back, in some cases along with interest and/or loss of project assets. In some cases, these incentives have additional terms and conditions regarding our business operations or governance that are required to be satisfied as a condition to receive incentives or disbursements. Compliance with these terms and conditions may add complexity to our operations and increase our costs and failure to comply could result in termination of incentive programs or clawbacks of incentive amounts received, in some cases along with interest and/or loss of project assets.

We may be unable to obtain sufficient future incentives to continue to fund a portion of our capital expenditures and operating costs, without which our cost structure may be adversely impacted and planned capital expenditures and research and development expenditures may be affected. For example, in December 2024, we entered into direct funding agreements, providing funds for the construction of fab facilities in Idaho and New York, with the United States Department of Commerce (the "Department") under the Department's CHIPS Incentives Program established pursuant to the CHIPS Act. In June 2025, such agreements were subsequently amended to expand our investments, and we entered into a direct funding agreement to provide funds to expand and modernize our fab in Virginia. The awards under the direct funding agreements are subject to various conditions, and we may not receive the funding expected on the same terms or at all. We cannot guarantee that we will successfully achieve or maintain outcomes or satisfy the compliance requirements to qualify for these incentives or that the granting agencies will provide or continue to provide such funding.

These incentive arrangements, including the funding agreements, typically provide the granting agencies with rights to audit our compliance with their terms and obligations. Such audits could result in modifications to, or termination of, the applicable incentive program. In addition, the incentives we receive, including the funding agreements, are in some cases subject to reduction, termination, or clawback under certain circumstances, and any decrease or clawback of government incentives could have a material adverse effect on our business, results of operations, or financial condition.

Our business, results of operations, or financial condition could be adversely affected by the availability and quality of materials, supplies, electrical power, gas, water, and capital equipment, or dependency on third-party service providers.

Our supply chain and operations are dependent on the availability of materials that meet exacting standards and the use of third parties to provide us with components and services. We generally have multiple sources of supply for our materials and services. However, only a limited number of suppliers are capable of delivering certain materials, components, and services that meet our standards and, in some cases, materials, components, or services are provided by a single or sole source, and we may be unable to qualify new suppliers on a timely basis. The availability of materials or components, such as chemicals, silicon wafers, gases, photoresists, semiconductors, substrates, lead frames, printed circuit boards, targets, and reticle glass blanks is impacted by various factors. These factors could include a shortage of raw materials or a disruption in the processing or purification of those raw materials into finished goods. Shortages or increases in lead times have occurred in the past, are currently occurring with respect to some materials and components, and may occur from time to time in the future because of the nature of the industry. Constraints within our supply chain for certain materials and integrated circuit components could limit our bit shipments, which could have a material adverse effect on our business, results of operations, or financial condition.

Our manufacturing processes are also dependent on our relationships with third-party manufacturers of controllers, analog integrated circuits, and other components used in some of our products and with outsourced semiconductor foundries, assembly and test providers, contract manufacturers, logistics carriers, and other service providers, including providers of maintenance for our advanced semiconductor manufacturing equipment and providers of electricity and other utilities. Although we have certain long-term contracts with some of our suppliers, many of these contracts do not provide for long-term capacity or pricing commitments. To the extent we do not have firm commitments from our third-party suppliers over a specific time period or for any specific capacity, quantity, and/or pricing, our suppliers may allocate capacity to their other customers and capacity and/or materials may not be available when needed or at reasonable prices. Inflationary pressures may continue to increase costs for materials, supplies, and services. Regardless of contract structure, large swings in demand may exceed our contracted supply and/or our suppliers' capacity to meet those demand changes, resulting in a shortage of parts, materials, or capacity needed to manufacture our products. In periods of shortage, we may not be able to obtain the needed supply in a timely manner or we may be required to incur increased costs in order to meet our contractual commitments and demand from our customers or experience a decrease in revenue. In addition, if any of our suppliers were to cease operations or become insolvent, this could impact their ability to provide us with necessary supplies, and we may not be able to obtain the needed supply in a timely manner or at all from other providers.

Certain materials are primarily available in a limited number of countries, including rare earth elements, minerals, and metals. Trade disputes, geopolitical tensions, economic circumstances, political conditions, or public health issues may limit our ability to obtain such materials. Although these rare earth and other materials are generally available from multiple suppliers, China is a predominant producer of these materials. China has restricted export of certain of these materials and may in the future continue to restrict, expand restrictions, or stop exporting these or other materials, and as a result, our suppliers' ability to obtain such supply may be constrained, and we may be unable to obtain sufficient quantities, or obtain supply in a timely manner or at a commercially reasonable cost. Constrained supply of rare earth elements, minerals, and metals may restrict our ability to manufacture certain of our products and make it difficult or impossible to compete with other semiconductor memory and storage manufacturers who are able to obtain sufficient quantities of these materials from China.

We and/or our suppliers and service providers could be affected by regional conflicts, acts of war, civil unrest, labor disruptions, sanctions, tariffs, embargoes, or other trade restrictions, and retaliatory actions in response to such actions, as well as laws and regulations enacted in response to concerns regarding climate change, conflict minerals, responsible sourcing practices, public health crises, or other matters, which could limit the supply of our materials and/or increase the cost. Environmental regulations could limit our ability to procure or use certain chemicals or materials in our operations or products. In addition, disruptions in transportation lines could delay our receipt of materials. Our ability to procure components to repair equipment essential for our manufacturing processes could also be negatively impacted by various restrictions or disruptions in supply chains, among other items. The disruption of our supply of materials, components, or services, or the extension of our lead times could have a material adverse effect on our business, results of operations, or financial condition.

Our operations are dependent on a reliable and uninterrupted supply of electrical power, gas, and water to our manufacturing facilities. Any power shortages, capacity constraints, prolonged outages, or significant or unexpected increases in the cost of power could have a material adverse effect on our business, results of operations, or financial condition.

Our operations are dependent on our ability to procure advanced semiconductor manufacturing equipment that enables the transition to lower cost manufacturing processes. For certain key types of equipment, including photolithography tools, we are sometimes dependent on a single supplier. From time to time, we have experienced difficulties in obtaining some equipment on a timely basis due to suppliers' limited capacity. Our inability to obtain equipment on a timely basis could adversely affect our ability to transition to next generation manufacturing processes and reduce our costs. Delays in obtaining equipment could also impede our ability to ramp production and could increase our overall costs of a ramp. Our inability to obtain advanced semiconductor manufacturing equipment in a timely manner could have a material adverse effect on our business, results of operations, or financial condition.

Our construction projects to expand production and R&D capacity are highly dependent on available sources of labor, materials, equipment, and services. Increasing demand, supply constraints, inflation, and other market conditions could result in increasing shortages and higher costs for these items. Difficulties in obtaining these resources could result in delays in completion of our construction projects and cost increases, which could have a material adverse effect on our business, results of operations, or financial condition.

Our inability to source materials, supplies, capital equipment, or third-party services could affect our overall production output and our ability to fulfill customer demand. Significant or prolonged shortages of our products could halt customer manufacturing and damage our relationships with these customers. Any damage to our customer relationships as a result of a shortage of our products could have a material adverse effect on our business, results of operations, or financial condition.

Similarly, if our customers experience disruptions to their supplies, materials, components, or services, or the extension of their lead times, they may reduce, cancel, or alter the timing of their purchases with us, which could have a material adverse effect on our business, results of operations, or financial condition.

Downturns or ongoing adverse conditions in regional or worldwide economies may harm our business.

Downturns or ongoing adverse conditions in regional or worldwide economies, due to inflation, geopolitics, changes in government borrowing or spending, trade disputes, war, major central bank policy actions, including interest rate increases, public health crises, or other factors, have harmed our business in the past, and current and future downturns could also adversely affect our business. Adverse economic conditions affect demand for devices that incorporate our products, such as personal computers, smartphones, automobiles, and servers. Reduced demand for memory and storage products could result in significant decreases in our average selling prices and product sales. In addition, to the extent our customers or distributors have elevated inventory levels or are impacted by a deterioration in credit markets, we may experience a decrease in short-term and/or long-term demand resulting in industry oversupply and declines in pricing for our products.

A deterioration of conditions in regional or worldwide credit markets could limit our ability to obtain external financing to fund our operations and capital expenditures. In addition, we may experience losses on our holdings of cash and investments due to failures of financial institutions and other parties. Difficult economic conditions may also result in a higher rate of losses on our accounts receivable due to credit defaults. Additionally, our current or potential future customers may experience cash flow problems and as a result may modify, delay, or cancel plans to purchase our products. Any inability of our current or potential future customers to pay us for our products may adversely affect our earnings and cash flow. As a result, downturns or ongoing adverse conditions in regional or worldwide economies could have a material adverse effect on our business, results of operations, or financial condition.

If our manufacturing process is disrupted by operational issues, natural disasters, or other events, our business, results of operations, or financial condition could be materially adversely affected.

We and our subcontractors and suppliers manufacture products using highly complex processes that require technologically advanced equipment and continuous modification to improve yields and performance. Difficulties in the manufacturing process or the effects from a shift in product mix can reduce yields or disrupt production and may increase our per gigabit manufacturing costs. We and our subcontractors and suppliers maintain operations and continuously implement new product and process technology at manufacturing facilities, which are widely dispersed in multiple locations in several countries, including the United States, Singapore, Taiwan, Japan, Malaysia, China, and India. As a result of the necessary interdependence within our network of manufacturing facilities, an operational disruption at one of our or a subcontractor's or supplier's facilities may have a disproportionate impact on our ability to produce many of our products.

From time to time, there have been disruptions in our manufacturing operations as a result of power outages, improperly functioning equipment and facilities, disruptions in supply of raw materials or components, or equipment failures. We have manufacturing and other operations in locations subject to natural occurrences and possible climate changes, such as severe and variable weather and geological events resulting in increased costs, or disruptions to our manufacturing operations or those of our suppliers or customers. In addition, climate change may pose physical risks to our manufacturing facilities or our suppliers' facilities, including increased extreme weather events that could result in supply delays or disruptions. Other events, including political or public health crises, such as an outbreak of contagious diseases, may also affect our production capabilities or that of our suppliers, including as a result of quarantines, closures of production facilities, lack of supplies, or delays caused by restrictions on travel or shipping. Events of the types noted above have occurred from time to time and, because these risks are a characteristic of our business, they may occur in the future. As a result, in addition to disruptions to operations, our insurance premiums may increase or we may not be able to fully recover any sustained losses through insurance.

If production is disrupted for any reason, manufacturing yields may be adversely affected, or we may be unable to meet our customers' requirements and they may purchase products from other suppliers. This could result in a significant increase in manufacturing costs, loss of revenue, or damage to customer relationships, any of which could have a material adverse effect on our business, results of operations, or financial condition.

A significant portion of our revenue is concentrated with certain customers and end markets.

In 2025, over half of our total revenue came from our top ten customers. Among our end markets, approximately one-half of our total revenue was concentrated in the data center end market. A disruption in our relationship with any of our top customers or a significant decrease in demand for our data center products, including due to disruptions or delays in the build-out of data centers by our customers and partners, or in the overall data center end market, could adversely affect our business. The build-out of data centers by our customers and partners requires significant energy capacity, water, and capital, and any shortage of these and other necessary resources, any stakeholder opposition to data center development, or any delays in the build-out of data centers, could impact our future revenue and financial performance. In addition, access to capital for our customers could be constrained, which may cause companies to face difficulties securing financing for large-scale infrastructure projects. These limitations could delay customer and partner deployments or reduce the scale of accelerated computing and AI adoption, which could have a material adverse effect on our business, results of operations, and financial condition.

We could experience fluctuations in our customer base or the mix of revenue by customer or end market, as markets and strategies evolve. Demand for our products may fluctuate due to factors beyond our control. Our inability to qualify our products to meet customer or end market requirements could adversely impact our revenue. A meaningful change in inventory strategy by our top customers or in certain end markets could impact our industry bit demand growth outlook. In addition, any consolidation of our customers or consolidation of significant end markets could limit the opportunity for sale of our products. Additionally, we have entered into, and expect to continue to enter into, strategic customer agreements with certain customers with binding commitments for specific volumes over the multi-year contract terms. Pricing for most agreements is either fixed, or is subject to minimum and maximum pricing. The largest agreements generally have a ceiling price for existing products and a floor price through the term of the agreement. A minority of the agreements do not have any fixed pricing or price bands, as pricing for those agreements is subject to market conditions. In connection with these customer agreements, we have received, and expect to continue to receive, customer deposits and other related financial commitments. Any failure to perform our obligations under these arrangements could subject us to contractual damages or other

financial consequences. These arrangements could also constrain our available supply and limit our flexibility to respond to changes in market conditions, and if customers fail to meet their purchase commitments, we may need to enforce our contractual rights, which could result in litigation or disputes that adversely effect our business, customer relationships, or both, and any such disputes could have a material adverse effect on our business, results of operations, or financial condition. Further, if we are unable to satisfy customer demand and customers are required to purchase products from our competitors, they may shift immediate and future purchases to such competitors, which could harm our customer relationships and adversely impact our access to certain end markets. The loss of, or restrictions on our ability to sell to, one or more of our major customers or in certain end markets, or any significant reduction in orders or a shift in product mix, could have a material adverse effect on our business, results of operations, or financial condition. See Part I. Financial Information, Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 17. Segment and Other Information.

Increases in sales of system solutions may increase our dependency upon specific customers and our costs to develop, qualify, and manufacture our system solutions.

Our development of system-level memory and storage products is dependent, in part, upon successfully meeting our customers' specifications for those products. Developing and manufacturing system-level products with specifications unique to a customer increases our reliance upon that customer for purchasing our products at sufficient volumes and prices in a timely manner. Even if our products meet customer specifications, our sales of system-level solutions are dependent upon our customers choosing our products over those of our competitors and purchasing our products at sufficient volumes and prices. Our competitors' products may be less costly, provide better performance, or include additional features when compared to our products. Our long-term ability to sell system-level memory and storage products is reliant upon our customers' ability to create, market, and sell their products containing our system-level solutions at sufficient volumes and prices in a timely manner. If we fail to successfully develop and market system-level products, our business, results of operations, or financial condition may be materially adversely affected.

Manufacturing system-level solutions, such as SSDs, managed NAND, and HBM, typically results in higher per-unit manufacturing costs and longer cycle time as compared to other products. Even if we are successful in selling system-level solutions to our customers in sufficient volume, we may be unable to generate sufficient profit if our per-unit manufacturing costs are not offset by higher per-unit selling prices. Manufacturing system-level solutions to customer specifications requires a longer development cycle, as compared to discrete products, to design, test, and qualify, which may increase our costs. Some of our system-level solutions are increasingly dependent on sophisticated firmware that may require significant customization to meet customer specifications, which increases our costs and time to market. Additionally, we may need to update our controller and hardware design, as well as our firmware or develop new firmware as a result of new product introductions or changes in customer specifications and/or industry standards, which increases our costs. System complexities and extended warranties for system-level products could also increase our warranty costs. Our failure to cost-effectively manufacture system-level solutions and/or controller, hardware design, and firmware in a timely manner may result in reduced demand for our system-level products and could have a material adverse effect on our business, results of operations, or financial condition.

Products that fail to meet specifications, are defective, or are otherwise incompatible with end uses could impose significant costs on us.

Products that do not meet specifications or that contain, or are perceived by our customers to contain, defects or that are otherwise incompatible with end uses could impose significant costs on us or otherwise materially adversely affect our business, results of operations, or financial condition. From time to time, we experience problems with non-conforming, defective, or incompatible products after we have shipped such products. In recent periods, we have further diversified and expanded our product offerings, which could potentially increase the chance that one or more of our products could fail to meet specifications in a particular application. Our products and solutions may be deemed fully or partially responsible for functionality in our customers' products and may result in sharing or shifting of product or financial liability from our customers to us for costs incurred by the end user as a result of our customers' products failing to perform as specified. In addition, if our products and solutions perform critical functions in our customers' products or are used in high-risk consumer end products, such as autonomous driver assistance programs, home and enterprise security, smoke and noxious gas detectors, medical monitoring equipment, or wearables for child and elderly safety, our potential liability may increase. We could be adversely affected in several ways, including the following:

- we may be required or agree to compensate customers for costs incurred or damages caused by defective or incompatible products and to replace products;
- we could incur a decrease in revenue or adjustment to pricing commensurate with the reimbursement of such costs or alleged damages;
- we could be required to indemnify our customers or end users or we may face other claims, including litigation, which could result in increased costs in defending ourselves and/or paying resulting damages; and
- we may encounter adverse publicity, which could cause a decrease in sales of our products or harm our reputation or relationships with existing or potential customers.

Any of the foregoing items could have a material adverse effect on our business, results of operations, or financial condition.

Breaches of our security systems or products, systems failures, interruptions, delays in service, catastrophic events, and resulting interruptions in the availability of our systems or those of our customers, suppliers, or business partners, could expose us to losses.

We maintain a system of controls over the physical security of our facilities. We also manage and store various proprietary information and sensitive or confidential data relating to our operations. In addition, we process, store, and transmit data relating to our customers, suppliers, and employees, including sensitive personal information. Unauthorized persons, employees, former employees, nation states, or other parties may gain access to our facilities or technology infrastructure and systems through fraudulent means and may steal trade secrets or other proprietary information, compromise confidential information, create system disruptions, or have other impacts. This risk is exacerbated as competitors for talent, particularly engineering talent, attempt to hire our employees. Through cyberattacks on technology infrastructure and systems, unauthorized parties may obtain access to computer systems, networks, and data, including cloud-based platforms. Our technology infrastructure and systems and that of our suppliers, vendors, service providers, cloud solution providers, and partners have in the past experienced, and may in the future experience, such attacks, which could impact our operations. Cyberattacks can include ransomware, denial-of-service attacks, zero-day attacks, supply chain attacks, "phishing" and other forms of social engineering, exploitation of open source software vulnerabilities, and other malicious software programs or other attacks, including those using techniques that change frequently or may be disguised or difficult to detect, or designed to remain dormant until a triggering event, impersonation of authorized users, and efforts to discover and exploit any design flaws, "bugs," security vulnerabilities, as well as intentional or unintentional acts by employees or other insiders with access privileges. The emergence and maturation of AI capabilities may also lead to new and/or more sophisticated methods of attack. Globally, cyberattacks are increasing in number and the attackers are increasingly organized and well-financed, or supported by state actors, and are developing increasingly sophisticated systems to not only attack, but also to evade detection. In addition, geopolitical tensions or conflicts may create a heightened risk of cyberattacks. Breaches of our physical security, including break-ins, sabotage or vandalism, attacks on our technology infrastructure and systems, security breaches or incidents, or attacks on our customers, suppliers, or business partners who maintain or otherwise process confidential or sensitive information regarding us and our customers and suppliers, could result in damage to, or loss, disruption, or unavailability of data

or systems, or inappropriate disclosure, destruction, loss, or other processing of confidential or sensitive information. In addition, our systems and those of our third-party vendors may experience service interruptions, data loss or compromise, and outages for other reasons, including human error, pandemics, fires, other natural disasters, power losses, disruptions in telecommunications services, fraud, military or political conflicts, terrorist attacks and other geopolitical unrest, computer viruses, ransomware, and other malicious software, changes in social, political, or regulatory conditions or in laws and policies, or other changes or events.

Any such event, or the perception it has occurred, may result in significant losses and damage our reputation with customers and suppliers and may expose us to claims, demands, and litigation.

Products and the systems and applications that incorporate or otherwise utilize our products are also targets for cyberattacks. While some of our products contain encryption, security algorithms, or features designed to help protect third-party content, user-generated data stored on our products, or the functionality of our products as intended, systems and applications that utilize these products could be compromised, breached, or circumvented by motivated attackers. Further, our products contain sophisticated hardware, firmware and software (some of which is provided by third parties) that may contain weaknesses or defects in design or manufacture, including “bugs” and other problems that could interfere with the intended operation of our products or be potentially exploited by such attackers. If systems or applications that utilize our products experience a cyberattack, our products are attacked, or our suppliers, third-party service providers, cloud solution providers, or sub-processors are breached or attacked, this could harm our business by requiring us to employ additional resources to remediate the errors or defects, and could expose us to litigation, claims, and harm to our reputation.

We cannot be certain that any applicable insurance coverage we maintain will be adequate or otherwise protect us with respect to claims, expenses, fines, penalties, business loss, data loss, litigation, regulatory actions, or other impacts arising from security breaches or incidents, or that such coverage will continue to be available on acceptable terms or at all. Any of the foregoing security risks could have a material adverse effect on our business, results of operations, or financial condition.

New and evolving laws and regulations relating to cybersecurity, data privacy, digital products, and AI impose requirements for information confidentiality, integrity, availability, personal and proprietary data collection, storage, use, sharing, deletion, and AI systems to be appropriately transparent, fair, secure, responsibly deployed, and accountable. Along with these laws and regulations, standards and market expectations could cause us to incur additional direct costs for compliance, as well as increased indirect costs resulting from our customers', suppliers', or partners' reluctance to share information or solutions due to actual or perceived inadequate controls. As a result of these considerations, we could experience a reduction of production or sales of our products; remediation costs and activities; increased compliance costs; regulatory penalties, fines, civil or criminal sanctions, and other legal liabilities; and reputational challenges. Compliance with, or our failure, or the failure of our third-party sales channel partners or agents, to comply with, laws, regulations, or industry standards could have a material adverse effect on our business, results of operations, or financial condition.

We may be adversely impacted by any of the multiple uncertainties and outcomes associated with the use and evolution of AI.

We are increasingly incorporating AI capabilities into the development of technologies and our business operations, and into our products and services. AI technology is complex and rapidly evolving, and may expose us to significant competitive, legal, regulatory, and other risks. The implementation of AI can be costly and there is no guarantee that our use of AI will enhance our technologies, benefit our business operations, or produce products and services that are preferred by our customers. AI will continue to increase or change the competitive environment in our markets. Our competitors may be more successful in their AI strategy or they may have access to greater AI resources or technology and develop superior products and services.

Additionally, AI algorithms or training methodologies may be flawed, and datasets may contain irrelevant, insufficient or biased information, which can cause errors in outputs. The use of AI in the development of our products could also cause loss of intellectual property, as well as subject us to risks related to intellectual property infringement or misappropriation, data privacy, and cybersecurity. AI is also the subject of an evolving set of legal requirements and regulations, and we may be subject to new and conflicting laws and regulations. In addition, public and governmental perceptions regarding the use and impact of AI may evolve over time. Any of these matters may give rise to legal liability, damage our reputation, and materially harm our business.

We must attract, retain, and motivate highly skilled employees.

To stay competitive, we need a highly skilled, global workforce and effective succession management for key roles. Hiring, retaining, and motivating qualified executives and other skilled talent is critical to our business, and competition can be intense. If our total compensation programs, benefits, and workplace culture are not seen as competitive and inclusive, our ability to attract and retain talent could be compromised.

Intense competition for talent can lead to increased compensation costs. Significant attrition and delays in replacing employees can result in a loss of critical skills, reduced morale, business disruptions, inefficiencies during transitions, and increased expenses. Additionally, changes to immigration policies and travel restrictions due to public health crises or other causes may limit our ability to hire, retain, or transfer talent to specific locations.

Our business success depends on our ability to attract, retain, and motivate key talent. Failure to do so could inhibit our ability to maintain or expand operations and adversely impact our operating results.

Compliance with responsible sourcing requirements and any related regulations could increase our operating costs or limit the supply and increase the cost of certain materials, supplies, and services, and if we fail to comply, customers may reduce purchases from us or disqualify us as a supplier.

We and many of our customers have adopted responsible sourcing programs that require us to meet certain sustainability, governance, or other criteria, and to periodically report on our performance against these requirements, including that we source the materials, supplies, and services we use and incorporate into the products we sell as prescribed by these programs. Many customer programs require us to remove a supplier within a prescribed period if such supplier ceases to comply with prescribed criteria, and our supply chain may at any time contain suppliers at risk of being removed due to non-compliance with responsible sourcing requirements. Some of our customers may elect to disqualify us as a supplier (resulting in a permanent or temporary loss of sales to such customer) or reduce purchases from us if we are unable to verify that our performance or products (including the underlying supply chain) meet the specifications of our customers' responsible sourcing programs on a continuous basis. Meeting responsible sourcing requirements may increase operating requirements and costs or limit the sourcing and availability of some of the materials, supplies, and services we use, particularly when the availability of such materials, supplies, and services is concentrated to a limited number of suppliers. From time to time, we remove suppliers or require our suppliers to remove suppliers from their supply chains based on our responsible sourcing requirements or customer requirements, and we or our suppliers may be unable to replace such removed suppliers in a timely or cost-effective manner. Any inability to replace removed suppliers in a timely or cost-effective manner may affect our ability and/or the cost to obtain sufficient quantities of materials, supplies, and services necessary for the manufacture of our products. Our inability to replace suppliers we have removed in a timely or cost-effective manner or comply with customers' responsible sourcing requirements or with any related regulations could have a material adverse effect on our business, results of operations, or financial condition.

Evolving sustainability and governance expectations or standards or failure to achieve our related goals could adversely affect our business, results of operations, financial condition, or stock price.

In recent years, there has been an increased focus from stakeholders on sustainability and governance matters, including greenhouse gas emissions and climate-related risks, carbon-free electricity, water stewardship, waste management, inclusion, responsible sourcing and supply chain, and human rights. We actively manage these issues and have established and publicly announced certain sustainability goals, commitments, and targets which we may refine or modify further in the future. These goals, commitments, and targets reflect our current plans and aspirations and are not guarantees that we will be able to achieve them. Achieving these goals may entail significant costs, for example, we have entered into several virtual power purchase agreements to obtain renewable energy credits at a cost that will vary based on future prices for electrical power. Evolving stakeholder expectations and our efforts to manage these issues, report on them, and accomplish our goals present numerous operational, regulatory, reputational, financial, legal, and other risks, any of which could have a material adverse impact, including on our reputation and stock price.

Such risks and uncertainties include:

- reputational harm, including damage to our relationships with customers, suppliers, investors, governments, or other stakeholders;

- adverse impacts on our ability to manufacture and sell products and maintain our market share;
- the success of our collaborations with third parties;
- loss of business due to failure to meet our customers' sustainability targets;
- increased risk of litigation, investigations, or regulatory enforcement action;
- unfavorable sustainability and governance ratings or investor sentiment;
- diversion of resources and increased costs to control, assess, and report on sustainability and governance metrics;
- our ability to achieve our goals, commitments, and targets within timeframes announced;
- increased costs to achieve our goals, commitments, and targets;
- unforeseen operational and technological difficulties;
- access to and increased cost of capital; and
- adverse impacts on our stock price.

Opinions, perspectives, and expectations on sustainability and governance matters may differ amongst our stakeholders and may evolve over time. We have been and may continue to be subject to conflicting expectations and views on various matters, and legal requirements and interpretations may change. Any failure, or perceived failure, to meet evolving stakeholder expectations and industry standards or achieve our sustainability and governance goals, commitments, and targets could have an adverse effect on our business, results of operations, financial condition, or stock price.

In addition, external standards for measuring and reporting sustainability metrics may change over time and may result in cost increases, significant revisions to our strategies and targets, or impact our ability to achieve them. We also are or may become subject to new sustainability laws and regulations, such as the State of California's new climate change disclosure rules. Compliance with these laws and regulations, as well as increased scrutiny from regulators, customers, and other stakeholders on our sustainability practices, could result in additional costs and expose us to new risks. Any scrutiny of our sustainability disclosures, our failure to achieve related strategies and targets, or our failure to disclose our sustainability measures consistent with applicable laws and regulations or to the satisfaction of regulators or our stakeholders could negatively impact our reputation or result in penalties, fines, or other adverse consequences.

Acquisitions and/or strategic transactions, including strategic investments, involve numerous risks.

Acquisitions of businesses, enterprises or assets, and strategic transactions, such as joint ventures and other partnering arrangements, involve numerous risks, including the following:

- integrating the operations, technologies, and products of acquired or newly formed entities or strategic partnerships into our operations;
- increasing capital expenditures to upgrade and maintain facilities;
- increased debt levels;
- the assumption of unknown or underestimated liabilities;
- the use of cash to finance a transaction, which may reduce the availability of cash to fund working capital, capital expenditures, R&D expenditures, and other business activities;
- diverting management's attention from daily operations;
- managing larger or more complex operations and facilities and employees in separate and diverse geographic areas;
- hiring and retaining key employees;
- requirements imposed by government authorities in connection with the regulatory review of a transaction, which may include, among other things, divestitures, imposition of significant obligations, or restrictions on the conduct of our business or the acquired business or assets;
- underestimating the costs or overestimating the benefits, including product, revenue, cost and other synergies and growth opportunities that we expect to realize, and we may not achieve those benefits;
- failure to maintain customer, vendor, and other relationships;
- inadequacy or ineffectiveness of an acquired company's internal financial controls, disclosure controls and procedures, compliance programs, and/or environmental, health and safety, anti-corruption, human resources, or other policies or practices; and
- impairment of acquired intangible assets, goodwill, or other assets as a result of changing business conditions or technological advancements.

The global memory and storage industry has experienced consolidation and may continue to consolidate. We engage, from time to time, in discussions regarding potential acquisitions and similar opportunities. To the extent we are successful in completing any such transactions, we could be subject to some or all of the risks described above. Acquisitions of, or strategic transactions with, technology companies or assets are inherently risky and may not be successful and could have a material adverse effect on our business, results of operations, or financial condition.

In addition, we have made, and may continue to make, strategic investments in companies within our ecosystem to further our strategic objectives. These investments subject us to losses on all or part of our investment, earnings volatility, and potential illiquidity of our investments.

We may incur restructure charges in future periods and may not realize expected savings or other benefits from restructure plans.

From time to time, we have because of the nature of our business, and may in the future, enter into restructure initiatives in order to, among other items, streamline our operations, increase our synergies, respond to changes in business conditions, our markets, or product offerings, or to centralize certain key functions. We may not realize expected savings or other benefits from future restructure activities and may incur additional restructure charges or other losses in future periods associated with other initiatives. In connection with any restructure initiatives, we could incur restructure charges, loss of production output or sufficient customer demand to maintain scale, loss of key personnel, disruptions in our operations, difficulties in the timely delivery of products, and loss of customers and local market share, which could have a material adverse effect on our business, results of operations, or financial condition.

Risks Related to Intellectual Property and Litigation

We may be unable to protect our intellectual property or retain key employees who are knowledgeable about and develop our intellectual property.

We maintain a system of controls over our intellectual property, including U.S. and foreign patents, trademarks, copyrights, trade secrets, licensing arrangements, confidentiality procedures, non-disclosure agreements with employees, consultants, and vendors, and a general system of internal controls. Despite our system of controls over our intellectual property, it may be possible for our current or future competitors to obtain, copy, use, or disclose, illegally or otherwise, our product and process technology or other proprietary information. The laws of some foreign countries may not protect our intellectual property to the same degree as do U.S. laws, and our confidentiality, non-disclosure, and non-compete agreements may be unenforceable or difficult and costly to enforce. The use of AI in the development of our products and services could also cause loss of intellectual property, as well as subject us to risks related to intellectual property infringement or misappropriation.

Additionally, our ability to maintain and develop intellectual property is dependent upon our ability to attract, develop, and retain highly skilled employees. If our competitors or future entrants into our industry are successful in hiring our employees, they may directly benefit from the knowledge these employees gained while they were under our employment, and this may also negatively impact our ability to maintain and develop intellectual property.

Our inability to protect our intellectual property or retain key employees who are knowledgeable about and develop our intellectual property could have a material adverse effect on our business, results of operations, or financial condition.

Legal, regulatory, and administrative investigations, inquiries, proceedings, and claims could have a material adverse effect on our business, results of operations, or financial condition.

From time to time, we are subject to various legal, regulatory, and administrative investigations, inquiries, proceedings, and claims that arise out of the ordinary conduct of our business or otherwise, both domestically and internationally. Such claims, investigations, inquiries, and proceedings may include, but are not limited to, allegations of anticompetitive conduct, infringement of intellectual property, and claims related to our compliance with securities and other laws. See Part I. Financial Information, Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 10. Contingencies.

We may be associated with and subject to litigation, claims, inquiries, investigations, or disputes arising from or as a result of:

- our relationships with vendors or customers, supply agreements and our capacity to supply, or contractual obligations with our subcontractors or business partners;
- the actions of our vendors, subcontractors, or business partners;
- our indemnification obligations, including obligations to defend our customers against third-party claims asserting infringement of certain intellectual property rights, which may include patents, trademarks, copyrights, or trade secrets;
- our compliance with regulatory requirements, including defending against related third-party claims;
- alleged violations of laws or regulations relating to antitrust/competition requirements;
- fluctuations in stock price; and
- the terms of our product warranties or from product liability claims.

As we continue to focus on developing system solutions with manufacturers of consumer products, including autonomous driving, augmented reality, humanoid robots, AI, and others, we may be exposed to greater potential for personal liability claims against us as a result of consumers' use of those products. We, our officers, or our directors have been and could continue to be subject to claims of alleged violations of securities laws.

Expansion of our production capacity is subject to inherent safety risks for our employees and contractors. Expansion and renovation activities may involve accidents, which could result in project delays, litigation, claims or disputes by our contractors and others, as well as increased insurance costs. While the risks of our construction projects are covered by insurance and contractual indemnities from our contractors, we may not have insurance coverage or rights to indemnity for all risks. Additionally, while we maintain insurance coverage for certain claims and liabilities, there can be no assurance that we are adequately insured to protect against all claims and potential liabilities, and we may elect to self-insure with respect to certain matters.

Exposures to various legal proceedings and claims, with or without merit, could require significant attention from our management and could lead to significant costs and expenses as we defend claims, are required to pay damage awards, or enter into settlement agreements, any of which could have a material adverse effect on our business, results of operations, or financial condition.

Claims that our products or manufacturing processes infringe or otherwise violate the intellectual property rights of others, or failure to obtain or renew license agreements covering such intellectual property, could materially adversely affect our business, results of operations, or financial condition.

As is typical in the semiconductor and other high technology industries, from time to time others have asserted, and may in the future assert, that our products or manufacturing processes infringe upon, misappropriate, misuse, or otherwise violate their intellectual property rights. We are unable to predict the outcome of these assertions made against us. Any of these types of claims, regardless of the merits, could subject us to significant costs to defend or resolve such claims and may consume a substantial portion of management's time and attention. As a result of these claims, we may be required to:

- pay significant monetary damages, fines, royalties, or penalties;
- enter into license or settlement agreements covering such intellectual property rights;
- make material changes to or redesign our products and/or manufacturing processes; and/or
- cease manufacturing, selling, offering for sale, importing, marketing, or using products and/or manufacturing processes in certain jurisdictions.

We may not be able to take any of the actions described above on commercially reasonable terms and any of the foregoing results could have a material adverse effect on our business, results of operations, or financial condition. See Part I. Financial Information, Item 1. Financial Statements, Notes to Consolidated Financial Statements, Note 10. Contingencies.

We have a number of intellectual property license agreements. Some of these license agreements require us to make one-time or periodic payments. We may need to obtain additional licenses or renew existing license agreements in the future. We are unable to predict whether these license agreements can be obtained or renewed on terms acceptable to us. The failure to obtain or renew licenses as necessary could have a material adverse effect on our business, results of operations, or financial condition.

Risks Related to Laws and Regulations

Government actions and regulations, such as export restrictions, tariffs, and trade protection measures, may limit our ability to sell our products to certain customers or markets, or could otherwise restrict our ability to conduct operations.

International trade disputes, geopolitical tensions, and military conflicts have led, and continue to lead, to new and increasing export restrictions, trade barriers, tariffs, and other measures, as well as retaliatory actions, that can increase our manufacturing costs, make our products less competitive, reduce demand for our products, limit our ability to sell to certain customers or markets, limit our ability to procure or increase our costs for components or raw materials, impede or slow the movement of our goods across borders, impede our ability to perform R&D activities, or otherwise restrict our ability to conduct operations. Government actions around the world may lead to further changes in trade policy, domestic sourcing initiatives, increases in foreign government incentives supporting domestic businesses, or other formal and informal measures that could make it more difficult to sell our products in, or restrict our access to, some markets and/or customers. For example, following the May 2023 decision of its cybersecurity review of our products sold in China, the CAC determined that critical information infrastructure operators in China may not purchase Micron products, impacting our revenue with companies headquartered in mainland China and Hong Kong, including direct sales, as well as indirect sales through distributors. Further actions by the Chinese government, through CAC action or other means, could impact revenue inside or outside China, or our operations in China, or our ability to ship products to our customers, any of which could have a material adverse effect on our business, results of operations, or financial condition.

We cannot predict what actions may be taken with respect to export regulations, tariffs, or other trade regulations between the United States and other countries, what products or companies may be subject to such actions, or what actions may be taken by other countries in retaliation. Further changes in trade policy, tariffs, restrictions on exports or other trade barriers, or restrictions on supplies, equipment, and raw materials, including rare earth minerals, may limit our ability to produce products, increase our selling and/or manufacturing costs, decrease margins, reduce the competitiveness of our products, reduce customer demand for our products, or inhibit our ability to sell products or purchase necessary equipment and supplies. For example, increasing geopolitical tensions have resulted in new and proposed export controls associated with products, including those that support or enable AI applications, which could, in turn, restrict future sales of certain products to China or other markets, or restrict our ability to obtain equipment, components, and raw materials. Similarly, new and proposed tariffs in the United States, China, or other markets on products, materials, and equipment may increase our selling costs, thus impacting demand for our products. On April 14, 2025, the U.S. Bureau of Industry and Security announced the initiation of investigations into the industry on the effects on U.S. national security of imports of semiconductors under Section 232 of the Trade Expansion Act of 1962. The scope of the industry-wide investigation includes semiconductors, semiconductor manufacturing equipment, and their derivative products, including semiconductor substrates and bare wafers, legacy chips, leading-edge chips, microelectronics, and other components. While the results of this investigation are currently unknown, the investigation may result in industry-wide additional tariffs and trade restrictions, which may adversely impact our business. Such changes may also result in reputational harm to us, the development or adoption of technologies that compete with our products, long-term changes in global trade and technology supply chains, or negative impacts on our customers' products which incorporate our solutions. On February 20, 2026, the administration announced they would initiate new trade investigations under Section 301 of the Trade Act of 1974. While the scope of any such investigations is currently unknown, these proposed investigations may also result in additional tariffs or trade restrictions, which could adversely impact our business. We may take actions to mitigate the impact of increases in tariffs and changes in trade policies, and any such actions could result in additional costs, manufacturing delays, or other difficulties, as well as additional risks, and may not be effective. Any of the effects described in this risk factor could have a material adverse effect on our business, results of operations, or financial condition.

The technology industry is subject to intense media, political, and regulatory scrutiny, which can increase our exposure to reputational hazards, government investigations and measures aimed at addressing market and other challenges, legal actions, and penalties. Although we have policies, controls, and procedures designed to help ensure compliance with applicable laws, there can be no assurance that our employees, contractors, suppliers, or agents will not violate such laws or our policies. Violations of trade laws, restrictions, or regulations can result in fines; criminal sanctions against us or our officers, directors, or employees; prohibitions on the conduct of our business; and damage to our reputation.

Tax-related matters could have a material adverse effect on our business, results of operations, or financial condition.

We are subject to income taxes in the United States and many foreign jurisdictions. Our provision for income taxes and cash tax liabilities in the future could be adversely affected by numerous factors, including changes in the geographic mix of our earnings among jurisdictions, challenges by tax authorities to our tax positions and intercompany transfer pricing arrangements, failure to meet performance obligations with respect to tax incentive agreements, expansion of our operations in various countries, fluctuations in foreign currency exchange rates, adverse resolution of audits and examinations of previously filed tax returns, and changes in tax laws and regulations.

Changes to income tax laws and regulations, or the interpretation of such laws, in any of the jurisdictions in which we operate could significantly increase our effective tax rate and ultimately reduce our cash flows from operating activities and otherwise have a material adverse effect on our financial condition. On July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was enacted, introducing broad changes to the U.S. tax code, including modifications to corporate and international tax provisions which primarily are effective for us beginning in 2026 and 2027. The aggregate impact of the OBBBA remains uncertain. We will continue to monitor future developments, including regulatory guidance and interpretations, which could have a material impact on our income tax provision. Further changes in the tax laws of foreign jurisdictions could arise as a result of the base erosion and profit-shifting project, including Pillar Two Model Rules ("Pillar Two"), undertaken by the Organisation for Economic Co-operation and Development. We continue to monitor for additional guidance and legislative changes related to Pillar Two in the jurisdictions where we operate.

We and others are subject to a variety of complex and evolving laws, regulations, or industry standards, including with respect to environmental, health, safety, and product considerations, which may have a material adverse effect on our business, results of operations, or financial condition.

The manufacture of our products requires the use of facilities, equipment, chemicals, and materials that are subject to a broad array of laws and regulations in numerous jurisdictions in which we operate. This includes increasing regulations on a class of chemicals known as per- and polyfluoroalkyl substances (PFAS). Additionally, we are subject to a variety of other laws and regulations relative to the construction, maintenance, and operations of our facilities. Any changes in laws, regulations, or industry standards could cause us to incur additional direct costs, as well as increased indirect costs related to our relationships with our customers and suppliers, and otherwise harm our operations and financial condition. Any failure to comply with laws, regulations, or industry standards could adversely impact our reputation and our financial results. Additionally, we engage various third parties as sales channel partners or to represent us or otherwise act on our behalf who are also subject to a broad array of laws, regulations, and industry standards. Our engagement with these third parties may also expose us to risks associated with their respective compliance with laws and regulations.

New and evolving environmental, health, safety, and product considerations, including those related to greenhouse gas emissions and climate change, the purchase, use, and disposal of regulated and/or hazardous chemicals, and the potential resulting environmental, health, or safety impacts, may result in new laws, regulations, or industry standards that may affect us, our suppliers, and our customers. Such laws, regulations, or industry standards could require us to alter our product design, manufacturing, and operations and incur additional direct costs for compliance, as well as increased indirect costs resulting from our customers, suppliers, or both incurring additional compliance costs that are passed on to us. These costs may adversely impact our results of operations and financial condition.

As a result of the considerations detailed in this risk factor, we could experience the following:

- suspension of production or sales of our products;
- limited supplies of chemicals or materials used to make our products;
- remediation costs and activities;
- increased compliance costs;
- alteration of our manufacturing processes;
- regulatory penalties, fines, civil or criminal sanctions, litigation and other legal liabilities; and
- reputational challenges.

While we maintain insurance for certain potential liabilities, such insurance does not cover all types and amounts of potential liabilities and is subject to various exclusions, as well as caps on recoverable amounts. Our insurance may not be adequate or otherwise cover all claims, penalties, fines, expenses, regulatory actions, litigation, sanctions, other liabilities or losses, and may not continue to be available on acceptable terms or at all.

Compliance with, or our failure, or the failure of our third-party sales channel partners or agents, to comply with, laws, regulations, or industry standards could have a material adverse effect on our business, results of operations, or financial condition.

Risks Related to Capitalization and Financial Markets

We may be unable to generate sufficient cash flows or obtain access to external financing necessary to fund our operations, make scheduled debt payments, pay our dividend, and make adequate capital investments.

Our cash flows from operations depend primarily on the volume of semiconductor memory and storage products sold and average selling prices. To develop new product and process technology, support future growth, achieve operating efficiencies, and maintain product quality, we must make significant capital investments in manufacturing technology, capital equipment, facilities, R&D, and product and process technology.

From time to time, we utilize external sources of financing when needed. As a result of our debt levels, expected debt amortization, prevailing interest rates, general capital market, changes in government borrowing or spending, and other economic conditions, it may be difficult for us to obtain financing on terms acceptable to us or at all. We have experienced volatility in our cash flows and operating results and we expect to continue to experience such volatility in the future, which may negatively affect our credit rating. Our credit rating may also be affected by our liquidity, financial results, economic risk, or other factors, which may increase the cost of borrowings and make it difficult for us to obtain financing on terms acceptable to us or at all. There can be no assurance that we will be able to generate sufficient cash flows, access capital or credit markets, or find other sources of financing to fund our operations, make debt payments, refinance our debt, pay our quarterly dividend, and make adequate capital investments to remain competitive in terms of technology development and cost efficiency. Our inability to do any of the foregoing could have a material adverse effect on our business, results of operations, or financial condition.

Debt obligations could adversely affect our financial condition.

We have incurred in the past, and expect to incur in the future, debt to finance our capital investments, business acquisitions, and to realign our capital structure. As of May 28, 2026, we had debt with a carrying value of \$5.72 billion and may incur additional debt, including under our \$2.00 billion Revolving Credit Facility. Our debt obligations could adversely impact us as follows:

- require us to use a large portion of our cash flow to pay principal and interest on debt, which will reduce the amount of cash flow available to fund our business activities;
- adversely impact our credit rating, which could increase borrowing costs and reduce our ability to raise funds on favorable terms;
- limit our future ability to raise funds for capital expenditures, strategic acquisitions or business opportunities, R&D, and other general corporate requirements;
- restrict our ability to incur specified indebtedness, create or incur certain liens, and enter into sale-leaseback financing transactions;
- increase our vulnerability to adverse economic and industry conditions;
- increase our exposure to rising interest rates from variable rate indebtedness; and
- result in certain of our debt instruments becoming immediately due and payable or being deemed to be in default if applicable cross default, cross-acceleration and/or similar provisions are triggered.

Our ability to meet our payment obligations under our debt instruments depends on our ability to generate significant cash flows or obtain external financing in the future. This, to some extent, is subject to market, economic, financial, competitive, legislative, and regulatory factors, as well as other factors that are beyond our control. There can be no assurance that our business will generate cash flow from operations, or that additional capital will be available to us, in amounts sufficient to enable us to meet our debt payment obligations and to fund other liquidity needs. Additionally, events and circumstances may occur which would cause us to not be able to satisfy applicable draw-down conditions and utilize our Revolving Credit Facility. If we are unable to generate sufficient cash flows to service our debt payment obligations or satisfy our debt covenants, we may need to refinance, restructure, or amend the terms of our debt, sell assets, reduce or delay capital investments, or seek to raise additional capital. If we are unable to implement one or more of these alternatives, we may be unable to meet our debt payment obligations, which could have a material adverse effect on our business, results of operations, or financial condition.

Changes in foreign currency exchange rates could materially adversely affect our business, results of operations, or financial condition.

The substantial majority of our sales are transacted in the U.S. dollar; however, across our global operations, significant transactions and balances are denominated in currencies other than the U.S. dollar (our reporting currency), primarily the Canadian dollar, Chinese yuan, euro, Indian rupee, Japanese yen, Malaysian ringgit, New Taiwan dollar, and Singapore dollar. In addition, a significant portion of our manufacturing costs are denominated in some of the foreign currencies mentioned above. Exchange rates for some of these currencies against the U.S. dollar have been volatile and may be volatile in future periods. If these currencies strengthen against the U.S. dollar, our manufacturing costs could significantly increase. Exchange rates for the U.S. dollar that adversely change against our foreign currency exposures could have a material adverse effect on our business, results of operations, or financial condition.

We are subject to counterparty default risks.

We have numerous arrangements with financial institutions that subject us to counterparty default risks, including cash deposits, investments, and derivative instruments. Additionally, we are subject to counterparty default risk from our customers for amounts receivable from them. As a result, we are subject to the risk that the counterparty will default on its performance obligations. A counterparty may not comply with its contractual commitments which could then lead to its defaulting on its obligations with little or no notice to us, which could limit our ability to mitigate our exposure. Additionally, our ability to mitigate our exposures may be constrained by the terms of our contractual arrangements or because market conditions prevent us from taking effective action. If one of our counterparties becomes insolvent or files for bankruptcy, our ability to recover any losses suffered as a result of that counterparty's default may be limited by the liquidity of the counterparty or the applicable laws governing the bankruptcy proceedings. In the event of such default, we could incur significant losses, which could have a material adverse effect on our business, results of operations, or financial condition.

The trading price of our common stock has been and may continue to be volatile.

Our common stock has experienced substantial price volatility in the past and may continue to do so in the future. Additionally, we, the technology industry, and the stock market as a whole have on occasion experienced extreme stock price and volume fluctuations that have affected stock prices in ways that may have been unrelated to the specific operating performance of individual companies. The trading price of our common stock may fluctuate widely due to various factors, including, but not limited to, actual or anticipated fluctuations in our financial condition and operating results, changes in financial forecasts or estimates by us, other participants in our markets, including our customers and competitors, changes in financial or other market estimates and ratings by securities and other analysts, changes in our capital structure, including issuance of additional debt or equity to the public, interest rate changes, regulatory changes, news regarding our products or products of our competitors, market perception regarding certain technologies, and broad market and industry fluctuations. These fluctuations may not be related to our specific financial or operating performance or our expectations regarding our financial or operating performance. In addition, stock price fluctuations could impact the value of our equity compensation, which could affect our ability to recruit and retain employees.

For these reasons, investors should not rely on recent or historical trends to predict future trading prices of our common stock, financial condition, results of operations, or cash flows. Investors in our common stock may not realize any return on their investment in us and may lose some or all of their investment. Volatility in the trading price of our common stock could also result in the filing of securities class action litigation matters, which could result in substantial costs and the diversion of management time and resources.

The amount and frequency of our share repurchases may fluctuate, and we cannot guarantee that we will purchase all of the shares under our share repurchase authorization, or that it will enhance long-term shareholder value. Share repurchases could also increase the volatility of the trading price of our stock and would diminish our cash reserves.

Although our Board of Directors has authorized share repurchases of up to \$10 billion of our outstanding common stock, of which approximately \$2.16 billion remains, the authorization does not obligate us to repurchase any common stock. The amount, frequency, and execution of our share repurchases pursuant to our share repurchase authorization may fluctuate based on our operating results, cash flows, restrictions applicable under our CHIPS Act direct funding agreements, and priorities for the use of cash for other purposes. Since repurchases under the authorization began in 2019, our expenditures for share repurchases in any one year have ranged from no repurchases to a high of \$2.66 billion of repurchases. Cash uses that could impact our repurchases include, but are not limited to, operational spending, capital spending, acquisitions, and repayment of debt. Other factors, including changes in tax laws, could also impact our share repurchases.

We cannot guarantee that we will purchase all of the shares under our share repurchase authorization or that it will enhance long-term shareholder value. The repurchase authorization could affect the trading price of our stock and increase volatility, and any announcement of a pause in, or termination of, this program may result in a decrease in the trading price of our stock. In addition, this program is a use of cash, which may reduce the availability of cash for other business purposes, including investments, acquisitions, dividends, or repayment of indebtedness.

There can be no assurance that we will continue to declare cash dividends in any particular amounts or at all.

Our Board of Directors has adopted a dividend policy pursuant to which we currently pay a cash dividend on our common shares on a quarterly basis. The declaration and payment of any dividend is subject to the approval of our Board of Directors and our dividend may be discontinued or reduced at any time. There can be no assurance that we will declare cash dividends in the future in any particular amounts, or at all.

Future dividends, if any, and their timing and amount, may be affected by, among other factors: our financial condition, results of operations, capital requirements, business conditions, debt service obligations, contractual restrictions, industry practice, legal requirements, regulatory constraints, and other factors that our Board of Directors may deem relevant. A reduction in or elimination of our dividend payments could have a negative effect on the trading price of our stock. In addition, the payment of dividends is a use of cash, which may reduce the availability of cash for other business purposes, including investments, acquisitions, or repayment of indebtedness.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In 2018, we announced that our Board of Directors authorized the discretionary repurchase of up to \$10 billion of our outstanding common stock through open-market purchases, block trades, privately-negotiated transactions, derivative transactions, and/or pursuant to Rule 10b5-1 trading plans. The repurchase authorization has no expiration date, does not obligate us to acquire any common stock, and is subject to market conditions, restrictions applicable under our CHIPS Act direct funding agreements, and our ongoing determination of the best use of available cash. During the quarter ended May 28, 2026, we did not repurchase any common stock under the authorization and as of May 28, 2026, \$2.16 billion of the authorization remained available for the repurchase of our common stock.

Shares of common stock withheld as payment of withholding taxes upon the vesting of restricted stock are also treated as common stock repurchases. Shares withheld as payment of withholding taxes upon the vesting of restricted stock units are not considered repurchases for purposes of this Item and are not required to be reported.

In the third quarter of 2026, shares withheld as payment upon the vesting of restricted stock consisted of the following:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under publicly announced plans or programs (in millions)
February 27, 2026 – March 26, 2026	—	\$ —	—	
March 27, 2026 – April 23, 2026	912	465.66	—	
April 24, 2026 – May 28, 2026	—	—	—	
	<u>912</u>	<u>\$ 465.66</u>	<u>—</u>	<u>\$ 2,156</u>

ITEM 5. OTHER INFORMATION

Securities Trading Plans of Directors and Executive Officers

No directors or officers, as defined in Rule 16a-1(f) of the Exchange Act, adopted and/or terminated a “Rule 10b5-1 trading arrangement” or a “non-Rule 10b5-1 trading arrangement,” as defined in Item 408 of Regulation S-K, during the last fiscal quarter.

INFORMATION IN THIS EXHIBIT IDENTIFIED BY [***] IS CONFIDENTIAL AND HAS BEEN EXCLUDED PURSUANT TO ITEM 601(B)(10)(iv) OF REGULATION S-K BECAUSE IT IS BOTH NOT MATERIAL AND CUSTOMARILY AND ACTUALLY TREATED BY THE REGISTRANT AS PRIVATE OR CONFIDENTIAL.

WAIVER AND AMENDMENT NO. 3 TO DIRECT FUNDING AGREEMENT

This WAIVER AND AMENDMENT NO. 3 TO DIRECT FUNDING AGREEMENT dated as of February 27, 2026 (this “Amendment”), by and between (a) MICRON IDAHO SEMICONDUCTOR MANUFACTURING (TRITON) LLC, a Delaware limited liability company as the recipient (the “Recipient”); and (b) the UNITED STATES DEPARTMENT OF COMMERCE (the “Department” and together with the Recipient, the “Parties” and each a “Party”), an agency of the United States of America, acting by and through the Secretary of Commerce (or appropriate authorized representative thereof).

RECITALS

WHEREAS, the Recipient has entered into that certain Direct Funding Agreement dated as of December 9, 2024 (as amended, restated, supplemented or modified and in effect from time to time, the “Agreement”), by and among the Recipient and the Department, setting forth, among other things, certain terms and conditions associated with the Award (as defined therein);

WHEREAS, Section 7.1 of the Agreement and Annex F (Reporting Covenants) of the Agreement require certain routine reporting from the Recipient to the Department (the “Routine Reporting Requirements”);

WHEREAS, the Recipient has failed to furnish to the Department the following Routine Reporting Requirements due on January 12, 2026: the Recipient’s quarterly (i) [***]; (ii) [***]; (iii) [***], and (iv) [***] (collectively, the “Waived Reporting Requirements”);

WHEREAS, the Recipient has requested, and the Department has agreed, to waive the Waived Reporting Requirements for the quarter ending November 27, 2025;

WHEREAS, the Parties agree to further amend the Agreement on the terms set out herein; and

WHEREAS, pursuant to Section 10.5 (Waiver and Amendment) of the Agreement, neither the Agreement nor any provision therein may be amended, waived, discharged, or terminated unless such amendment, waiver, discharge, or termination is in writing and executed by the Recipient and the Department.

NOW, THEREFORE, in consideration of the premises and mutual agreements herein contained and other good and valuable consideration, receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

ARTICLE 1 DEFINITIONS; RULES OF INTERPRETATION

Section 1.1 Defined Terms. Except as otherwise expressly provided herein, the Parties agree that capitalized terms used in this Amendment (including such terms used in the preamble and recitals above) shall have the meanings given to them (directly or by reference) in the Agreement.

Section 1.2 Rules of Interpretation. The rules of interpretation set forth in Annex B (Rules of Interpretation) of the Agreement shall apply to this Amendment as if set forth herein.

ARTICLE 2 WAIVER

Section 2.1 Routine Reporting Requirements. The Department hereby waives the Waived Reporting Requirements and agrees that no Potential Event of Default, Event of Default, or other breach under the Agreement shall occur or be deemed to have occurred as a result of the Recipient failing to deliver the Waived Reporting Requirements.

ARTICLE 3 AMENDMENTS TO AGREEMENT

Section 3.1 Amendment to Annex F. Annex F (Reporting Requirements) of the Agreement shall be deleted in its entirety and replaced with the Annex attached here to as Annex 1.

ARTICLE 4 AMENDMENT EFFECTIVE DATE

Section 4.1 This Amendment shall become effective only upon the date on which each of the following conditions precedent have been satisfied or waived by the Department (the "Amendment Effective Date"), each of which shall be in form and substance and otherwise satisfactory to The Department:

4.1.1 Each of the Parties shall have executed this Amendment and delivered its executed counterpart to this Amendment to each other Party.

4.1.2 The representations and warranties set forth in Article 4 (Representations and Warranties) hereto are true and correct.

4.1.3 No Potential Event of Default or Event of Default shall have occurred and be continuing.

ARTICLE 5 REPRESENTATIONS AND WARRANTIES

Section 5.1 The Recipient hereby represents and warrants as of the date hereof and as of the Amendment Effective Date that:

(a) the Recipient (i) is a limited liability company, duly organized, validly existing and in good standing under the laws of the State of Delaware; (ii) is duly qualified to do business in the State of Idaho and in each other jurisdiction where the failure to so qualify could reasonably be expected to have a Material Adverse Effect; and (iii) has all requisite power and authority to execute, deliver, perform and observe the terms and conditions under this Amendment;

(b) the Recipient has duly authorized, executed and delivered this Amendment, and neither its execution and delivery thereof nor its consummation of the transactions contemplated hereby or thereby nor its compliance with the terms of this Amendment or thereof does or will (i) contravene its Organizational Documents or any Applicable Laws in any material respects; (ii) contravene or result in any breach or constitute any default under any material Governmental Judgment; (iii) contravene or result in any breach or constitute any default under, or result in or require the creation of any Lien upon any of its material Properties under any material agreement or instrument to which it is a party or by which it or any of its Properties may be bound, except for any Permitted Liens; or (iv) require the consent or approval of any Person other than the Required Approvals and any other consents or approvals that have been obtained and are in full force and effect; and

(c) all representations and warranties of the Recipient provided in Article 6 (Representations and Warranties) of the Agreement are true and correct in all material respects (except to the extent any such representation and warranty itself is qualified by “materiality,” “Material Adverse Effect” or a similar qualifier, in which case it shall be true and correct in all respects) as of the date the representation and warranty is made (or deemed made), except to the extent such representation or warranty is made only as of a specific date or time (in which event such representation or warranty shall be true and correct as of such date or time).

ARTICLE 6 MISCELLANEOUS

Section 6.1 Entire Agreement. This Amendment, including any agreement, document, or instrument attached to this Amendment or referred to herein, integrates all the terms and conditions mentioned herein or incidental to this Amendment and supersedes all prior drafts, discussions, term sheets, commitments, negotiations, agreements, and understandings, oral or written, of the Parties in respect to the subject matter of this Amendment.

Section 6.2 Incorporated Provisions. The provisions set forth in Sections 10.5 (Waiver and Amendment), 10.7 (Governing Law), 10.8 (Severability), 10.10 (Waiver of Jury Trial), 10.11 (Consent to Jurisdiction), 10.12 (Dispute Resolution), 10.13 (Successors and Assigns) and 10.18 (Counterparts; Electronic Signatures) of the Agreement are hereby incorporated by reference into this Amendment, mutatis mutandis, as if set out in full herein.

Section 6.3 Reference to and Effect on the Agreement.

6.3.1 This Amendment is hereby designated an Award Document for all purposes of the Agreement.

6.3.2 On and after the date hereof, each reference in the Agreement to “this Agreement,” “hereunder,” “hereof,” “herein,” “hereby” or words of like import, and each reference in the other Award Documents to “the Agreement,” “thereunder,” “thereof,” “therein,” “thereby” or words of like import referring to the Agreement, shall mean and be a reference to the Agreement as amended hereby.

6.3.3 Except as specifically amended above, each of the Agreement and the other Financing Documents is and shall remain unchanged and in full force and effect and is hereby ratified and confirmed. Nothing contained in this Amendment shall abrogate, prejudice, diminish or otherwise affect any powers, right, remedies or obligations of any Person arising before the date of this Amendment.

6.3.4 The execution, delivery and effectiveness of this Amendment shall not, except as expressly provided herein, constitute an amendment of any action or transaction, operate as a waiver or modification of any right, power or remedy of any party to the Agreement or any other Financing Document, or constitute a waiver or modification of any provision of the Agreement or any other Financing Document. The willingness of the Department to grant the waiver and amendments herein does not establish a course of dealing or course of conduct or otherwise obligate the Department to agree to any request for waiver of, or consent to, similar or different provisions under the Agreement or any other Financing Document, as the case may be, in the future.

[Signature Pages Follow]

IN WITNESS WHEREOF, the Parties have caused this Amendment to be executed and delivered by their respective officers or representatives hereunto duly authorized as of the date first written above.

[***]

INFORMATION IN THIS EXHIBIT IDENTIFIED BY [***] IS CONFIDENTIAL AND HAS BEEN EXCLUDED PURSUANT TO ITEM 601(B)(10)(iv) OF REGULATION S-K BECAUSE IT IS BOTH NOT MATERIAL AND CUSTOMARILY AND ACTUALLY TREATED BY THE REGISTRANT AS PRIVATE OR CONFIDENTIAL.

WAIVER AND AMENDMENT NO. 3 TO DIRECT FUNDING AGREEMENT

This **WAIVER AND AMENDMENT NO. 3 TO DIRECT FUNDING AGREEMENT** dated as of February 27, 2026 (this “**Amendment**”), by and between (a) MICRON NEW YORK SEMICONDUCTOR MANUFACTURING LLC, a Delaware limited liability company as the recipient (the “**Recipient**”); and (b) the UNITED STATES DEPARTMENT OF COMMERCE (the “**Department**” and together with the Recipient, the “**Parties**” and each a “**Party**”), an agency of the United States of America, acting by and through the Secretary of Commerce (or appropriate authorized representative thereof).

RECITALS

WHEREAS, the Recipient has entered into that certain Direct Funding Agreement dated as of December 9, 2024 (as amended, restated, supplemented or modified and in effect from time to time, the “**Agreement**”), by and among the Recipient and the Department, setting forth, among other things, certain terms and conditions associated with the Award (as defined therein);

WHEREAS, Section 7.1 of the Agreement and Annex F (Reporting Covenants) of the Agreement require certain routine reporting from the Recipient to the Department (the “**Routine Reporting Requirements**”);

WHEREAS, the Recipient has failed to furnish to the Department the following Routine Reporting Requirements due on January 12, 2026: the Recipient’s quarterly (i) [***]; (ii) [***]; (iii) [***], and (iv) [***] (collectively, the “**Waived Reporting Requirements**”);

WHEREAS, the Recipient has requested, and the Department has agreed, to waive the Waived Reporting Requirements for the quarter ending November 27, 2025;

WHEREAS, the Parties agree to further amend the Agreement on the terms set out herein; and

WHEREAS, pursuant to Section 10.5 (*Waiver and Amendment*) of the Agreement, neither the Agreement nor any provision therein may be amended, waived, discharged, or terminated unless such amendment, waiver, discharge, or termination is in writing and executed by the Recipient and the Department.

NOW, THEREFORE, in consideration of the premises and mutual agreements herein contained and other good and valuable consideration, receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

ARTICLE 1

DEFINITIONS; RULES OF INTERPRETATION

Section 1.1 Defined Terms. Except as otherwise expressly provided herein, the Parties agree that capitalized terms used in this Amendment (including such terms used in the preamble and recitals above) shall have the meanings given to them (directly or by reference) in the Agreement.

Section 1.2 Rules of Interpretation. The rules of interpretation set forth in Annex B (*Rules of Interpretation*) of the Agreement shall apply to this Amendment as if set forth herein.

ARTICLE 2

WAIVER

Section 2.1 Routine Reporting Requirements. The Department hereby waives the Waived Reporting Requirements and agrees that no Potential Event of Default, Event of Default, or other breach under the Agreement shall occur or be deemed to have occurred as a result of the Recipient failing to deliver the Waived Reporting Requirements.

ARTICLE 3

AMENDMENTS TO AGREEMENT

Section 3.1 Amendment to Annex F. Annex F (*Reporting Requirements*) of the Agreement shall be deleted in its entirety and replaced with the Annex attached here to as Annex 1.

Section 2.2 Amendment of Certain Provisions of Annex G (Direct Funding for Workforce Activities). Annex G (Direct Funding for Workforce Activities) of the Agreement is hereby amended as follows:

- (a) Section 3.3 (Officer's Certificate) is hereby deleted and replaced in its entirety with the following:

Section 3.3 Officer's Certificate. The Department shall have received an Officer's Certificate of the Recipient, dated as of the date of the Workforce Disbursement Request and dated and re-certified no greater than one (1) Business Day prior to the scheduled Workforce Disbursement Date, certifying the following:

- (a) beginning with the second Workforce Disbursement, all proceeds of any Workforce Disbursement previously disbursed to the Recipient are committed to in a manner consistent with the prior Workforce Solutions Funding Orders;
- (b) the progress of the Workforce Solution(s) as identified in the Workforce Impact Report is consistent with the Workforce Plan;
- (c) the activities proposed under the Workforce Solutions Funding Order are Eligible Workforce Activities;
- (d) the Intermediary Agreement under which the Workforce Solutions Funding Order is made is valid; the terms and conditions remains in full force and effect; and the Recipient is in compliance with the terms of the Intermediary Agreement; and
- (e) the Recipient is in compliance with the Agreement, including Section 4 (**Affirmative Covenants**) of this Annex G (**Direct Funding for Workforce Activities**), and no Default or Event of Default shall have occurred and is continuing under this Agreement (and, if applicable given the related Applicable Project, under the other Applicable Agreement).

ARTICLE 4
AMENDMENT EFFECTIVE DATE

Section 4.1 This Amendment shall become effective only upon the date on which each of the following conditions precedent have been satisfied or waived by the Department (the “**Amendment Effective Date**”), each of which shall be in form and substance and otherwise satisfactory to The Department:

4.1.1 Each of the Parties shall have executed this Amendment and delivered its executed counterpart to this Amendment to each other Party.

4.1.2 The representations and warranties set forth in Article 4 (**Representations and Warranties**) hereto are true and correct.

4.1.3 No Potential Event of Default or Event of Default shall have occurred and be continuing.

ARTICLE 5
REPRESENTATIONS AND WARRANTIES

Section 5.1 The Recipient hereby represents and warrants as of the date hereof and as of the Amendment Effective Date that:

(a) the Recipient (i) is a limited liability company, duly organized, validly existing and in good standing under the laws of the State of Delaware; (ii) is duly qualified to do business in the State of New York and in each other jurisdiction where the failure to so qualify could reasonably be expected to have a Material Adverse Effect; and (iii) has all requisite power and authority to execute, deliver, perform and observe the terms and conditions under this Amendment;

(b) the Recipient has duly authorized, executed and delivered this Amendment, and neither its execution and delivery thereof nor its consummation of the transactions contemplated hereby or thereby nor its compliance with the terms of this Amendment or thereof does or will (i) contravene its Organizational Documents or any Applicable Laws in any material respects; (ii) contravene or result in any breach or constitute any default under any material Governmental Judgment; (iii) contravene or result in any breach or constitute any default under, or result in or require the creation of any Lien upon any of its material Properties under any material agreement or instrument to which it is a party or by which it or any of its Properties may be bound, except for any Permitted Liens; or (iv) require the consent or approval of any Person other than the Required Approvals and any other consents or approvals that have been obtained and are in full force and effect; and

(c) all representations and warranties of the Recipient provided in Article 6 (Representations and Warranties) of the Agreement are true and correct in all material respects (except to the extent any such representation and warranty itself is qualified by “materiality,” “Material Adverse Effect” or a similar qualifier, in which case it shall be true and correct in all respects) as of the date the representation and warranty is made (or deemed made), except to the extent such representation or warranty is made only as of a specific date or time (in which event such representation or warranty shall be true and correct as of such date or time).

ARTICLE 6
MISCELLANEOUS

Section 6.1 Entire Agreement. This Amendment, including any agreement, document, or instrument attached to this Amendment or referred to herein, integrates all the terms and conditions mentioned herein or incidental to this Amendment and supersedes all prior drafts, discussions, term sheets, commitments, negotiations, agreements, and understandings, oral or written, of the Parties in respect to the subject matter of this Amendment.

Section 6.2 Incorporated Provisions. The provisions set forth in Sections 10.5 (*Waiver and Amendment*), 10.7 (*Governing Law*), 10.8 (*Severability*), 10.10 (*Waiver of Jury Trial*), 10.11 (*Consent to Jurisdiction*), 10.12 (*Dispute Resolution*), 10.13 (*Successors and Assigns*) and 10.18 (*Counterparts; Electronic Signatures*) of the Agreement are hereby incorporated by reference into this Amendment, mutatis mutandis, as if set out in full herein.

Section 6.3 Reference to and Effect on the Agreement.

6.3.1 This Amendment is hereby designated an Award Document for all purposes of the Agreement.

6.3.2 On and after the date hereof, each reference in the Agreement to “this Agreement,” “hereunder,” “hereof,” “herein,” “hereby” or words of like import, and each reference in the other Award Documents to “the Agreement,” “thereunder,” “thereof,” “therein,” “thereby” or words of like import referring to the Agreement, shall mean and be a reference to the Agreement as amended hereby.

6.3.3 Except as specifically amended above, each of the Agreement and the other Financing Documents is and shall remain unchanged and in full force and effect and is hereby ratified and confirmed. Nothing contained in this Amendment shall abrogate, prejudice, diminish or otherwise affect any powers, right, remedies or obligations of any Person arising before the date of this Amendment.

6.3.4 The execution, delivery and effectiveness of this Amendment shall not, except as expressly provided herein, constitute an amendment of any action or transaction, operate as a waiver or modification of any right, power or remedy of any party to the Agreement or any other Financing Document, or constitute a waiver or modification of any provision of the Agreement or any other Financing Document. The willingness of the Department to grant the waiver and amendments herein does not establish a course of dealing or course of conduct or otherwise obligate the Department to agree to any request for waiver of, or consent to, similar or different provisions under the Agreement or any other Financing Document, as the case may be, in the future.

ANNEX 1

**RULE 13a-14(a) CERTIFICATION OF
CHIEF EXECUTIVE OFFICER**

I, Sanjay Mehrotra, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Micron Technology, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**RULE 13a-14(a) CERTIFICATION OF
CHIEF FINANCIAL OFFICER**

I, Mark Murphy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Micron Technology, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Chairman, President and Chief Executive Officer

**CERTIFICATION OF CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. 1350**

I, Mark Murphy, certify, pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that the Quarterly Report of Micron Technology, Inc. on Form 10-Q for the period ended May 28, 2026, fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 and that information contained in the Quarterly Report on Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of Micron Technology, Inc.

Date: June 24, 2026
