## **ANNOUNCEMENT**

**Proposed Further Issue of  
96,000,000 European Style Cash Settled Long Certificates  
relating to the SGI 7x Daily Leveraged Index on MSCI Singapore Index**

### **Introduction**

SG Issuer (the “**Issuer**”) wishes to announce the launch of the proposed issuance of a further 96,000,000 European Style Cash Settled Long Certificates (the “**New Certificates**”) relating to the SGI 7x Daily Leveraged Index on MSCI Singapore Index (the “**Leveraged Index**”) unconditionally and irrevocably guaranteed by Société Générale (the “**Guarantor**”). The New Certificates shall be consolidated and form a single series with an existing issue of 4,000,000 European Style Cash Settled Long Certificates relating to the SGI 7x Daily Leveraged Index on MSCI Singapore Index (DLC SG7xLongMSG220225 (GDEW)) listed on the Singapore Exchange Securities Trading Limited (the “**SGX-ST**”) on 26 February 2019 (the “**Existing Certificates**”, together with the New Certificates, the “**Certificates**”). Société Générale has been appointed as the designated market maker (the “**Designated Market Maker**”) and The Central Depository (Pte) Limited (“**CDP**”) has been appointed as the warrant agent (the “**Warrant Agent**”) for the Certificates.

The Certificates are cash-settled warrants which entitle a certificate holder (the “**Certificate Holder**”) to be paid a cash settlement amount (the “**Cash Settlement Amount**”) less any exercise expense (if positive) in accordance with the terms and conditions of the Certificates.

Further details of the Certificates are set out below.

### **Exercise of the New Certificates**

The issue price and the notional amount per New Certificate (the “**Notional Amount**”) are S\$2.50. The daily leverage embedded within the Leveraged Index is 7 times.

The New Certificates have a strike level of zero (the “**Strike Level**”) and may only be exercised on 25 February 2022 (the “**Expiry Date**”).

### **Cash Settlement Amount**

The Certificates may only be exercised on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, in a Board Lot or integral multiples thereof. Certificate Holders shall not be required to deliver an exercise notice. Exercise of Certificates shall be determined by whether the Cash Settlement Amount (less any Exercise Expenses (which has the meaning given to it in the terms and conditions of the Certificates)) is positive. If the Cash Settlement Amount (less any Exercise Expenses) is

positive, all Certificates shall be deemed to have been automatically exercised at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day. The Cash Settlement Amount less the Exercise Expenses in respect of the Certificates shall be paid in the manner set out in the terms and conditions of the Certificates. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero, all Certificates shall be deemed to have expired at 10:00 a.m. (Singapore time) on the Expiry Date or if the Expiry Date is not a Business Day, the immediately preceding Business Day, and Certificate Holders shall not be entitled to receive any payment from the Issuer in respect of the Certificates.

A “**Business Day**” is a day on which the SGX-ST is open for dealings in Singapore during its normal trading hours and banks are open for business in Singapore.

The “**Board Lot**” of the New Certificates is 100.

The Cash Settlement Amount in respect of each Certificate is the amount (if positive) equal to:

Closing Level multiplied by the Notional Amount

Where

Closing Level: In respect of each Certificate shall be calculated as follows:

$$\left( \frac{\text{Final Reference Level} \times \text{Final Exchange Rate}}{\text{Initial Reference Level} \times \text{Initial Exchange Rate}} - \text{Strike Level} \right) \times \text{Hedging Fee Factor}$$

Final Reference Level: The closing level of the Leveraged Index on the Valuation Date which is floored at zero and subject to the Air Bag Mechanism.

Air Bag Mechanism: Refers to the mechanism built in the Leveraged Index and which is designed to reduce the Leveraged Index’s exposure to the Underlying Reference Index during extreme market conditions. If the Underlying Reference Index falls by 10% or more during the trading day (which represents an approximately 70% loss after a 7 times leverage), the Air Bag Mechanism is triggered and the Leveraged Index is adjusted intra-day. The Air Bag Mechanism reduces the impact on the Leveraged Index if the Underlying Reference Index falls further, but will also maintain a reduced exposure to the Underlying Reference Index in the event the Underlying Reference Index starts to rise after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses. Further details of the Air Bag Mechanism will be set out in the “Description of Air Bag Mechanism” section of the supplemental listing document relating to the Certificates to be dated on or about 5 November 2020 (the “**Supplemental Listing Document**”).

“**Underlying Reference Index**” refers to MSCI Singapore Free Net Total Return Index as published on Thomson Reuters page .MISG0000FNSG or any successor page.

Valuation Date: 24 February 2022 or if such day is not an Index Business Day, the immediately preceding Index Business Day.

An “**Index Business Day**” means a day on which the value of the Leveraged Index is published by the sponsor of the Leveraged Index or, as the case may be, the successor sponsor of the Leveraged Index.

Final Exchange Rate: 1

Initial Reference Level: 386.503

Initial Exchange Rate: 1

Hedging Fee Factor: In respect of each Certificate, shall be an amount calculated as follows:

Product (for  $t$  from 2 to Valuation Date) of  $(1 - \text{Management Fee} \times (\text{ACT}(t-1;t) \div 360)) \times (1 - \text{Gap Premium}(t-1) \times (\text{ACT}(t-1;t) \div 360))$ , where:

“ $t$ ” refers to “**Observation Date**” which means each Index Business Day (subject to Market Disruption Event) from (and including) the Index Business Day immediately preceding 26 February 2019 to the Valuation Date; and

“**ACT** ( $t-1;t$ )” means the number of calendar days between the Index Business Day immediately preceding the Observation Date (which is “ $t-1$ ”) (included) and the Observation Date (which is “ $t$ ”) (excluded).

If the Issuer determines, in its sole discretion, that on any Observation Date a Market Disruption Event has occurred, then that Observation Date shall be postponed until the first succeeding Index Business Day on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the five Index Business Days immediately following the original date that, but for the Market Disruption Event, would have been an Observation Date. In that case, that fifth Index Business Day shall be deemed to be the Observation Date notwithstanding the Market Disruption Event and the Issuer shall determine, its good faith estimate of the level of the Leveraged Index and the value of the Certificate on that fifth Index Business Day in accordance with the formula for and method of calculation last in effect prior to the occurrence of the first Market Disruption Event taking into account, inter alia, the published level of the Underlying Reference Index, the exchange traded or quoted price of each security comprised in the Underlying Reference Index and the potential increased cost of hedging by the Issuer as a result of the occurrence of the Market Disruption Event.

Examples and illustrations of the calculation of the Hedging Fee Factor will be set out in the “Information relating to the European Style Cash Settled Long Certificates” section of the Supplemental Listing Document.

Management Fee: 0.40%  
(p.a.)<sup>1</sup>

Gap Premium (p.a.): 4.20%

Examples and illustrations of the calculation of the Cash Settlement Amount will be set out in the “Information relating to the European Style Cash Settled Long Certificates” section of the Supplemental Listing Document.

The reference level of the Underlying Reference Index used for the pricing of the New Certificates is 794.47, which is the closing level of the Underlying Reference Index on 25 February 2019.

### **Listing and Trading of the New Certificates**

An application will be made to the SGX-ST for the listing of and quotation for the New Certificates. The New Certificates, when issued, will be represented by a global warrant certificate to be deposited with CDP. The New Certificates will be traded on the SGX-ST through the book-entry scripless settlement system of CDP. It is expected that dealings in the New Certificates will commence on or about 6 November 2020 on the SGX-ST. The New Certificates will be traded in Singapore Dollar on the SGX-ST.

### **The Designated Market Maker**

The Designated Market Maker will provide competitive buy and sell quotes (the “**Quotations**”) for the Certificates continuously during the trading hours of the SGX-ST (with the spread between the buy and sell quotes not exceeding 10 ticks or S\$0.20 whichever is greater). The minimum quantity of Certificates to which the Quotations will apply is 10,000 Certificates.

Quotations may however not be provided by the Designated Market Maker in the following circumstances:

- (i) during the pre-market opening and five minutes following the opening of the SGX-ST on any trading day;
- (ii) if the Certificates are valueless (where the Issuer’s bid price is below the minimum bid size for such securities as prescribed by the SGX-ST);
- (iii) before the SGX-ST has opened and after the SGX-ST has closed on any trading day and trading in the securities constituting the Underlying Reference Index has ceased for such trading day;
- (iv) when trading in the Underlying Reference Index is suspended or limited in a material way for any reason, for the avoidance of doubt, the Designated Market Maker is not obliged to provide quotations for the Certificates at any time when the Underlying Reference Index is not negotiated/traded for any reason;
- (v) where the Certificates are suspended from trading for any reason including, but without limitation, as a result of trading in the securities or derivatives relating to or constituting the Underlying

Reference Index being suspended, trading of options or futures relating to the Underlying Reference Index on any options or futures exchanges being suspended, or options or futures generally on any options and/or futures exchanges on which options relating to the Underlying Reference Index are traded being suspended, or if the Underlying Reference Index for whatever reason is not calculated;

- (vi) market disruption events, including, without limitation, (i) any suspension of or limitation imposed on trading (including but not limited to unforeseen circumstances such as by reason of movements in price exceeding limits permitted by the SGX-ST or any act of God, war, riot, public disorder, explosion, terrorism or otherwise) in securities or derivatives relating to or constituting the Underlying Reference Index, options or futures relating to the Underlying Reference Index on any options or futures exchanges or options or futures generally on any options and/or futures exchanges on which options relating to the Underlying Reference Index are traded and (ii) any failure from the Underlying Reference Index Sponsor to compute, publish and disseminate the level of the Underlying Reference Index or material limitation to access the level of the Underlying Reference Index;
- (vii) where the Issuer or the Designated Market Maker faces technical problems affecting the ability of the Designated Market Maker to provide bids and offer quotations;
- (viii) where the ability of the Issuer to source a hedge or unwind an existing hedge, as determined by the Issuer in good faith, is materially affected by the prevailing market conditions, and the Issuer informs the SGX-ST of its inability to do so as soon as practicable;
- (ix) in cases where the Issuer has no Certificates to sell, then the Designated Market Maker will only provide the bid price;
- (x) if the stock market experiences exceptional price movement and volatility;
- (xi) when it is a public holiday in Singapore and/or the SGX-ST is not open for dealings; and
- (xii) during the suspension of trading of Certificates after the Air Bag Mechanism has been triggered.

The last trading day on which the Designated Market Maker will provide competitive Quotations for the Certificates would be the fifth Business Day immediately preceding the Expiry Date.
