

#### **SG** Issuer

## 50,000,000 European Style Cash Settled Long Certificates expiring on 28 February 2025 relating to the S&P 500 Net Total Return Index with a Daily Leverage of 5x (the "Certificates")

- The terms set out in this Term Sheet are a summary of, and are subject to the terms and conditions set out in SG Issuer's (the "Issuer") base listing document dated 18 June 2021 (the "Base Listing Document") and the supplemental listing document to be dated on or about 03 March 2022 (the "Supplemental Listing Document", together with the Base Listing Document, the "Listing Documents").
- The Supplemental Listing Document may specify terms which shall, to the extent so specified or to the extent inconsistent with the relevant terms of this Term Sheet, replace or modify the relevant terms for the purpose of this series of Certificates.
- If you are in any doubt on whether Certificates are suitable for you, you should consult your financial advisers or such other professional advisers to the extent that you consider necessary.
- Please read the Listing Documents and the risk factors stated in such Listing Documents and in this Term Sheet carefully. You should not invest in Certificates if you do not understand the risks or are not willing to assume the risks. The Certificates are classified as capital markets products other than prescribed capital markets products<sup>1</sup> and Specified Investment Products (SIPs)<sup>2</sup>, and may only be sold to retail investors with enhanced safeguards, including an assessment of such investors' investment knowledge or experience.
- This Term Sheet does not constitute or form part of any offer, or invitation, to subscribe for or to sell, or solicitation of any offer to subscribe for or to purchase, Certificates or other securities of the Issuer or the Guarantor, nor is it calculated to invite, nor does it permit the making of, offers by the public to subscribe for or purchase for cash or other consideration Certificates or other securities of the Issuer or the Guarantor. This Term Sheet may not be distributed or circulated by you to any person other than in a manner which complies with the restrictions set out in the section entitled "Sales Restrictions" in the Base Listing Document.

	notwithstanding the Market Disruption Event and the Issuer shall determine, its good faith estimate of the level of
	the Leverage Strategy and the value of the Certificate on that fifth Index Business Day in accordance with the
	formula for and method of calculation last in effect prior to the occurrence of the first Market Disruption Event
	taking into account, inter alia, the published level of the Index or the PR Index, the exchange traded or quoted
	price of each security comprised in the Index or the PR Index and the potential increased cost of hedging by the
	Issuer as a result of the occurrence of the Market Disruption Event.
	Please refer to the "Information relating to the European Style Cash Settled Long Certificates" section of the
	Supplemental Listing Document for examples and illustrations of the calculation of the Hedging Fee Factor.
Initial Reference Level	1,000
Final Reference Level	The closing level of the Leverage Strategy on the Valuation Date.
	Please refer to Appendix I "Specific Definitions relating to the Leverage Strategy" for an illustration of the
	calculation of the closing level of the Leverage Strategy.
Initial Exchange Rate	The rate for the conversion of USD to SGD as at 5:00pm (Singapore Time) on 03 March 2022 as shown on
	Reuters, provided that if the Reuters service ceases to display such information, as determined by the Issuer by
	reference to such source(s) as the Issuer may reasonably determine to be appropriate at such a time, which will be
Einal Evahanga Data	specified in the Supplemental Listing Document.  The rate for the conversion of USD to SGD as at 5:00pm (Singapore Time) on the Valuation Date as shown on
Final Exchange Rate	Reuters, provided that if the Reuters service ceases to display such information, as determined by the Issuer by
	reference to such source(s) as the Issuer may reasonably determine to be appropriate at such a time.
Air Bag Mechanism	The "Air Bag Mechanism" refers to the mechanism built in the Leverage Strategy and which is designed to
All Bag Mechanism	reduce the Leverage Strategy exposure to the Index during extreme market conditions. If the PR Index falls by
	10% or more during the trading day of the Relevant Stock Exchange for the Index (which represents a 50% loss
	after a 5 times leverage), the Air Bag Mechanism is triggered and the Leverage Strategy is adjusted intra-day
	during the trading hours of the Relevant Stock Exchange for the Index. The Air Bag Mechanism reduces the
	impact on the Leverage Strategy if the PR Index falls further, but will also maintain a reduced exposure to the
	Index in the event the Index starts to rise after the Air Bag Mechanism is triggered, thereby reducing its ability to
	recoup losses.
	Please refer to "Product Specific Risks" relating to the Air Bag Mechanism, the "Extraordinary Strategy
	Adjustment for Performance Reasons ("Air Bag Mechanism")" section of Appendix I below, and the "Description
	of Air Bag Mechanism" section of the Supplemental Listing Document for further information of the Air Bag
	Mechanism and of the relationship between the Index and the PR Index.
Form	The Certificates will be represented by a global warrant, which will be deposited with the CDP. No definitive
	Warrants will be issued.
Adjustments and	The Issuer has the right to make adjustments to the terms of the Certificates if certain events including the
Extraordinary Events	following take place: if the Index or the PR Index, as the case may be, is calculated and published by a successor
	to the Index Sponsor, the Index or the PR Index, as the case may be, is replaced or modified or if the Index Sponsor
	fails to calculate and publish the Index or the PR Index on the Valuation Date (as more specifically set out in the
	terms and conditions of the Certificates in the Listing Documents). For the avoidance of doubt, no notice will be given if the Issuer determines that adjustments will not be made.
Further Issuance	The Issuer may issue further certificates which will form a single series with the existing issue of Certificates,
ruither issuance	subject to the approval of the SGX-ST.
Documents	The Listing Documents are and will be available for inspection during usual business hours on any weekday
Documents	(public holidays excepted) at the following address:
	Société Générale, Singapore Branch, 8 Marina Boulevard, #12-01 Marina Bay Financial Centre Tower 1,
	Singapore 018981.
<b>Selling Restrictions</b>	No action has been or will be taken by the Issuer that would permit a public offering of the Certificates or
0	possession or distribution of any offering material in relation to the Certificates in any jurisdiction where action
	for that purpose is required. No offers, sales or deliveries of any Certificate or distribution of any offering material
	relating to the Certificates may be made in or from any jurisdiction except in circumstances which will result in
	compliance with any applicable laws or regulations.

	C. INFORMATION ON MARKET MAKING

Name of Designated	Société Générale
Market Maker	
("DMM")	
Maximum Bid and Offer	(i) when the best bid price of the Certificate is S\$10 and below: 10 ticks or S\$0.20 whichever is greater; and
Spread	(ii) when the best bid price of the Certificate is above S\$10: 5% of the best bid price of the Certificate.
Minimum Quantity	10,000 Certificates
subject to Bid and Offer	
Spread	
Last Trading Day for	The date falling 5 Business Days immediately preceding the Expiry Date.
Market Making	
Circumstances where a	The DMM may not provide quotations in the following circumstances:
Quote will/may not be	(i) during the pre-market opening and five minutes following the opening of the SGX-ST on any trading day;
provided	(ii) if the Certificates are valueless (where the Issuer's bid price is below the minimum bid size for such securities
	as prescribed by the SGX-ST);
	(iii) when trading in the shares or securities relating to or constituting the Index is suspended or limited in a
	material way for any reason (including price quote limits activated by the Relevant Stock Exchange(s) for
	the Index or otherwise <sup>5</sup> ), for the avoidance of doubt, the DMM is not obliged to provide quotation for the
	Certificate at any time when the shares or securities relating to or constituting the Index are not traded for
	any reason during the last trading session of the Relevant Stock Exchange(s) for the Index;
	(iv) when trading of options or futures relating to the Index or PR Index on any Related Exchange is suspended
	or limited in a material way for any reason (including price quote limits activated by the Related Exchange
	on such options or futures or otherwise);
	(v) where the Certificates are suspended from trading for any reason including, but without limitation, as a result
	of trading in the options or futures relating to the Index or PR Index on any Related Exchange being
	suspended, or options or futures generally on any Related Exchange being suspended;
	(vi) market disruption events, including, without limitation, (i) any suspension of or limitation imposed on
	trading (including but not limited to unforeseen circumstances such as by reason of movements in price
	exceeding limits permitted by the SGX-ST or the Relevant Stock Exchange(s) for the Index <sup>5</sup> or any Related
	Exchange on options or futures relating to the Index or the PR Index, or any act of God, war, riot, public disorder, explosion, terrorism or otherwise) in securities or derivatives relating to or constituting the Index,
	options or futures relating to the Index or PR Index on any Related Exchange and (ii) any failure from the
	Index Sponsor to compute, publish and disseminate the level of the Index or the PR Index, or material
	limitation to access the level of the PR Index or Index, as the case may be;
	(vii) where the Issuer or the DMM faces technical problems affecting the ability of the DMM to provide bids and
	offer quotations;
	(viii) where the ability of the Issuer to source a hedge or unwind an existing hedge, as determined by the Issuer in
	good faith, is materially affected by the prevailing market conditions, and the Issuer informs the SGX-ST of
	its inability to do so as soon as practicable;
	(ix) in cases where the Issuer has no Certificates to sell, then the DMM will only provide the bid price;
	(x) if the SGX-ST, the Relevant Stock Exchange(s) for the Index or any Related Exchange experiences
	exceptional price movement and volatility; and
	(xi) when it is a public holiday in Singapore and/or the United States and/or the SGX-ST and/or the Relevant
	Stock Exchange for the Index is not open for dealings.
	D. PRODUCT SUITABILITY

#### D. PRODUCT SUITABILITY

#### WHO IS THIS PRODUCT SUITABLE FOR?

- This product is <u>only</u> suitable for investors who believe that the level of the Index will increase and are seeking short-term leveraged exposure to the Index. The Certificates are classified as Specified Investment Products (SIPs), and may only be sold to retail investors with enhanced safeguards, including an assessment of such investors' investment knowledge or experience.
- This product should be only considered for intraday trading and short term investment periods due to its leveraged exposure and the daily compounding, which may lead to a performance different from 5 times the performance of the Index over a period longer than one day.

You should consider carefully whether the Certificates are suitable for you in light of your experience, objectives, financial position and other relevant circumstances. The Certificates are not suitable for inexperienced investors.

#### **Key Product Features**

#### WHAT ARE YOU INVESTING IN?

- You are investing in the daily leveraged certificates, which are in the form of a zero-strike warrant, that provides you with a fixed leveraged return on the daily performance of the Index, plus any costs or fees that may apply.
- The Certificates track the performance of the Leverage Strategy. This Leverage Strategy provides a return based on a fixed daily leveraged return of the Index.
- As an example, the Certificates' daily performance will correspond to 5 times the daily performance of the Index (excluding costs). If the Index rises by 1% compared to the previous closing level, the Certificate will rise by 5% (excluding costs). If the Index falls by 1% compared to the previous closing

#### **Further Information**

Please refer to the "Information relating to the Index" section in the Supplemental Listing Document and the Issuer's website at dlc.socgen.com.

<sup>&</sup>lt;sup>5</sup> Price quote limits activated by the Relevant Stock Exchange(s) for the Index are not applicable to the market making of the Certificates (as defined herein).

level, the Certificate will fall by 5% (excluding costs).

#### Floor level of the Leverage Strategy

• The Leverage Strategy is floored at 0 and the Certificates cannot be valued below zero.

#### Leverage Mechanism

• The leverage mechanism is designed to provide 5 times the daily performance of the Index (excluding costs). As the initial investment is only the price of the Certificates, the leverage is derived by a process equivalent to financing an additional 4 times the daily performance of the Index at a funding rate determined according to the formula of the Leverage Strategy.

#### Calculation of the Cash Settlement Amount

In respect of each Certificate, shall be an amount (if positive) payable in the Settlement Currency equal to: the Notional Amount per Certificate times the Closing Level.

#### WHAT WOULD YOU GAIN OR LOSE IN DIFFERENT SITUATIONS?

#### • Best case scenario:

The level of the Index increases substantially resulting in a significant increase in the price of the Certificates. You would then sell the Certificates and realise a profit. The DMM is required to provide liquidity in the Certificates to ensure that there will generally be a market price available for the purchase and sale of the Certificates.

#### • Worst case scenario:

If you buy the Certificates and the level of the Index decreases sharply, the value of the Certificates will decrease by a multiple of the aforementioned decrease in the level of the Index, and you may lose your entire investment.

Please refer to Appendix II below for an illustration on how returns and losses can occur under different scenarios.

#### E. KEY RISKS

#### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

• Investment in the Certificates involves substantial risks including market risk, liquidity risk and the risk that the Issuer and/or the Guarantor will be unable to satisfy its/their obligations under the Certificates. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Certificates.

#### PLEASE REFER TO THE LISTING DOCUMENTS FOR A COMPLETE LIST OF RISKS

• The Risk Factors below are a summary of the Risk Factors set out in the Base Listing Document and the Supplemental Listing Document.

#### **Further Information**

Please refer to the "Risk Factors" section set out in the Base Listing Document and in the Supplemental Listing Document for a complete list of risks and details of the risks.

#### Market Risks

#### Market price of the Certificates may be affected by many factors

Due to their nature, Certificates can be volatile instruments and may be subject to considerable fluctuations in value due to, including but not limited to, variations in the frequency and magnitude of the changes in the level of the Index and options or futures relating to the Index, the time remaining to expiry, the currency exchange rates and the creditworthiness of the Issuer and the Guarantor.

• Market price of the Certificates during SGX-ST trading hours may deviate from the published levels of the Index during US trading hours on the same day

Given only the futures contracts over the Index (but not the constituents of the Index) are trading during the SGX-ST trading hours, the market price of the Certificates may be affected by the price of such futures contract (which may deviate from the published levels of the Index). Consequentially the market price of the Certificates during SGX-ST trading hours may deviate from the published levels of the Index and/or the Air Bag Trigger Levels during the US trading hours on the same day.

• You may lose your entire investment

Certain events relating to the Index or Index components may cause adverse movements in the value and the level of the Index or Index components, as a result of which, you may, in extreme circumstances, sustain a significant loss of your investment if the level of the Index has fallen sharply.

#### **Liquidity Risks**

#### The secondary market may be illiquid

The Issuer acting through its DMM may be the only market participant buying and selling the Certificates. Therefore, the secondary market for the Certificates may be limited and you may not be able to realise the value of the Certificates. Do note that the bid-ask spread increases with illiquidity.

#### Product Specific Risks

#### Certificates only exercisable on the Expiry Date

The Certificates are only exercisable on the Expiry Date and you may not exercise the Certificates prior to such date. Accordingly, if on the Expiry Date the Cash Settlement Amount is zero or close to zero, you will lose your entire investment in the Certificates.

The total return on an investment in any Certificate will be affected by the Hedging Fee Factor, Management Fee and Gap Premium.

#### Trading in the Certificates may be suspended

You should note that if trading in the securities or derivatives relating to or constituting the Index is suspended, trading of options or futures relating to the Index or PR Index, as the case may be, on any options or futures exchange is suspended, or options or futures generally on any options and/or futures exchanges on which options or futures relating to the Index or the PR Index are traded is suspended, or if the Index or PR Index for whatever reason is not calculated, published and disseminated, trading in the relevant Certificates may be suspended for a similar period.

#### • The value of certain index constituents may not be included in the closing level of the Index

The closing level of the Index may be the settlement price for settling the relevant index futures and options contracts as determined by the Relevant Stock Exchange for the Index. Thus, if it occurs at a time when one or more securities or derivatives comprised in the Index are not trading and there is no Market Disruption Event under the terms of the Certificates then the value of such securities or derivatives will not be included in the closing level of the Index.

Issuer may make adjustments to the terms and conditions of the Certificates

Certain events relating to the PR Index or the Index or PR Index components or Index components permit the Issuer to make certain

determinations in respect of the PR Index or the Index or PR Index components or Index components, such as an adjustment to the Cash Settlement Amount necessary to take account of any material change in the method of calculation of the Index.

#### You may be exposed to an exchange rate risk

There may be an exchange rate risk where the Cash Settlement Amount is converted from a foreign currency into Singapore Dollars.

#### You will be exposed to leveraged risks

If the investment results in a loss, any such loss will be increased by the leverage factor of the Certificates. Consequently you could lose more than you would if you invested directly in the Index, or securities or derivatives comprised in the Index.

#### Product performance may differ from 5 times the performance of the Index over a period longer than one day

When held for longer than a day, product performance could be more or less than the leverage factor that is embedded within the Certificates. The performance each day is locked in, and any subsequent returns are based on what was achieved the previous day. This process, referred to as compounding, may lead to a performance difference from 5 times the performance of the securities or derivatives comprised in the Index over a period longer than one day. This difference may be amplified in a volatile market with a sideway trend, where market movements are not clear in direction, whereby investors may sustain substantial losses.

#### • The Index and the PR Index quote only during US trading hours

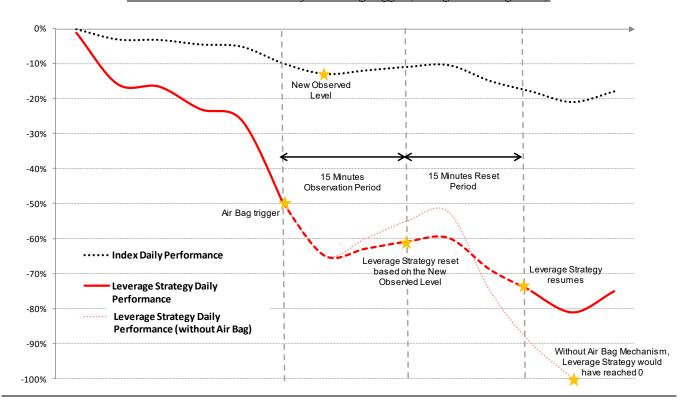

The Index and the PR Index to which the Certificates relate are only quoted during US trading hours. This means that the Air-Bag mechanism can only be triggered when the SGX-ST is not open for trading. There is therefore a specific risk that overnight, investors in the Certificates incur a significant or even entire loss of the amounts invested in the Certificates, without being able to exit their investments in the Certificates.

#### References to both the Index and the PR Index

The Leverage Strategy underlying the Certificates refers to both the Index and the PR Index. Index providers generally publish several versions of the same index, with various mechanisms to take into account the impact of dividends distributed by index constituents. Under the Certificates, "PR Index" refers to a so-called "price return" version of the Index, which does not take into account the ordinary dividends distributed by the constituents of the index. The Index, on the other hand, considers a theoretical reinvestment of the dividends distributed by the Index constituents, such reinvestment being with or without taking into account a theoretical withholding tax. Although the Index and the PR Index should exhibit the same intraday performance, investors in the Certificates should note that the Issuer cannot guarantee that they will always correspond. This falls under the responsibility of the Index Sponsor.

#### • When triggered, the Air Bag Mechanism may reduce the ability for the product to recoup losses

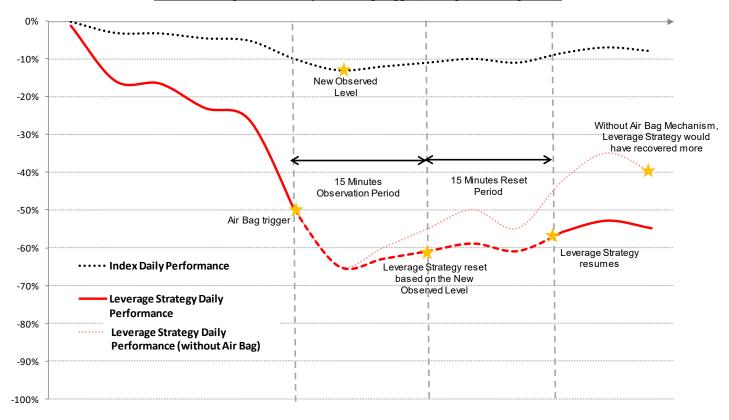

Investors should note that the Air Bag Mechanism reduces the impact on the Leverage Strategy if the PR Index falls further, but will also maintain a reduced exposure to the Index in the event the Index starts to rise after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses. Illustrative examples of the Air Bag Mechanism are set out below. <sup>6</sup>

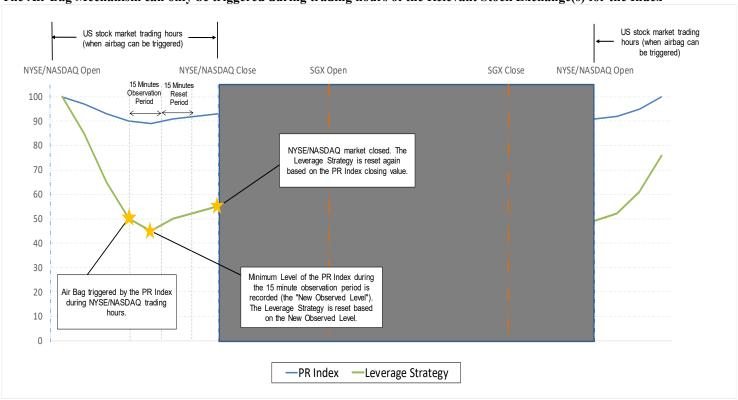

Scenario 1 – Downward Trend after Air Bag trigger (during US trading hours)

<sup>&</sup>lt;sup>6</sup> The illustrative examples are not exhaustive. The illustrative examples above is designed to illustrate the impact of the Air Bag Mechanism on the assumption that there will be a residual value in the Certificates following the Air Bag triggers. Please refer to "Scenarios where the investor may lose the entire value of the investment" in the Supplemental Listing Document on hypothetical scenarios when investors may lose their entire value of the investment.

• The Air Bag Mechanism can only be triggered during trading hours of the Relevant Stock Exchange(s) for the Index

# • There is no assurance that the Air Bag Mechanism will prevent investors from losing the entire value of their investment In particular, a total loss may occur, (i) if the Index or the PR Index loses approximately 20% or more of its value within a short period of time or (ii) there is an approximately 20% or greater gap between the previous day closing level and the opening level of the Index or the PR Index the following trading day of the Relevant Stock Exchanges for the Index. Investors should note that the Air Bag Mechanism may only be triggered during the trading of the Relevant Stock Exchanges for the Index.

## • The Certificates may be cancelled by the Issuer The Certificates may be cancelled at the discretion of the Issuer under certain circumstances, on giving notice to investors in accordance with the terms and conditions of the Certificates. Any money received by an investor on cancellation of the Certificates, which will be at

the mark to market price, may be less than the capital initially invested by the investor, resulting in a loss to the investor.

#### U.S. withholding tax

The Issuer has determined that the Certificates track a broad-based index that meets the requirements of a Qualified Index set forth in applicable regulations under Section 871(m) of the United States Internal Revenue Code, as discussed in the accompanying Base Listing Document under "TAXATION—TAXATION IN THE UNITED STATES OF AMERICA—Section 871(m) of the U.S. Internal Revenue Code of 1986." Accordingly, the Issuer expects that Section 871(m) will not apply to the Certificates. Such determination is not binding on the IRS, and the IRS may disagree with this determination. Section 871(m) is complex and its application may depend on a Certificate Holder's particular circumstances, including whether a Certificate Holder enters into other transactions with respect to an Underlying Security. Certificate Holders should consult with their own tax advisers regarding the potential application of Section 871(m) to the Certificates.

#### **Issuer Related Risks**

#### You are exposed to the credit risk of the Issuer and the Guarantor

The Certificates constitute general and unsecured obligations of the Issuer (in the case of any substitution of the Issuer in accordance with the Conditions of the Certificates, the Substituted Obligor as defined in the Conditions of the Certificates) and of no other person, and the guarantee provided by the Guarantor constitutes direct unconditional unsecured senior preferred obligations of the Guarantor and of no other person. If you purchase the Certificates, you are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights under the Certificates against any other person. You should note that the Issuer issues a large number of financial instruments, including Certificates, on a global basis and at any given time, the financial instruments outstanding may be substantial.

- Conflicts of interest may arise from the overall activities of the Issuer, the Guarantor and their subsidiaries or affiliates

  The Issuer, the Guarantor and any of their subsidiaries and affiliates are diversified financial institutions that engage in a wide range of commercial and investment banking, brokerage, funds management, hedging transactions and investment and other activities for their own account or the account of others. In addition, the Issuer, the Guarantor and any of their subsidiaries and/or affiliates, in connection with their other business activities, may possess or acquire material information about the securities or derivatives related to the Index and/or the Index. Such activities and information may involve or otherwise affect issuers of the securities or derivatives related to the Index and/or the Index in a manner that may cause consequences adverse to investors in the Certificates or otherwise create conflicts of interests in
- Hedging or market-making activities by the Issuer, the Guarantor and their subsidiaries or affiliates may affect the Certificates In connection with hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer, the Guarantor and any of their respective subsidiaries and affiliates, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may enter into transactions in the components of the Index or related securities or derivatives which may affect the market price, liquidity or value of the Certificates and which may affect the interests of investors in the Certificates.

#### F. FEES AND CHARGES

#### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

connection with the issue of Certificates by the Issuer.

- Normal transaction and brokerage fees apply, similar to fees that you would pay for other transactions on SGX-ST.
- Investors holding their position beyond market close of the SGX-ST will also incur the annualised cost (which consists of the Management Fee and Gap Premium, which are calculated daily and applied to the value of the product, as well as certain costs embedded within the Leverage Strategy including the Funding Cost and Rebalancing Cost). The Management Fee and Gap Premium will be published on the website at <a href="https://discourse.given: doi:10.10/jose-strategy-new-normal-new-new-normal-new-normal-new-normal-new-normal-new-normal-new-normal

#### **APPENDIX I**

#### SPECIFIC DEFINITIONS RELATING TO THE LEVERAGE STRATEGY

#### **Description of the Leverage Strategy**

The Leverage Strategy is designed to track a 5 times daily leveraged exposure to the Index.

At the end of each trading day of the Index, the exposure of the Leverage Strategy to the Index is reset within the Leverage Strategy in order to retain a daily leverage of 5 times the performance of the Index (excluding costs) regardless of the performance of the Index on the preceding day. This mechanism is referred to as the Daily Reset.

The Leverage Strategy incorporates an air bag mechanism which is designed to reduce exposure to the Index during extreme market conditions, as further described below.

#### **Leverage Strategy Formula**

LSL<sub>t</sub> means, for any Observation Date(t), the Leverage Strategy Closing Level as of such day

Subject to the occurrence of an Intraday Restrike Event, the Leverage Strategy Closing Level as of such Observation Date(t) is calculated in accordance with the following formulae:

On Observation Date(1):

 $LSL_1 = 1000$ 

On each subsequent Observation Date(t):

$$LSL_t = Max \left[ LSL_{t-1} \times \left( 1 + LR_{t-1,t} - FC_{t-1,t} - RC_{t-1,t} \right), 0 \right]$$

 $LR_{t-1,t}$  means the Leveraged Return of the Index between Observation Date(t-1) and Observation Date(t) closing levels, calculated as follows:

$$LR_{t-1,t} = Leverage \times \left(\frac{NTR_t}{NTR_{t-1}} - 1\right)$$

 $FC_{t-1,t}$  means, the Funding Cost between Observation Date(t-1) (included) and Observation Date(t) (excluded) calculated as follows:

$$FC_{t-1,t} = (Leverage - 1) \times \frac{Rate_{t-1} \times ACT(t-1,t)}{DayCountBasisRate}$$

 $RC_{t-1,t}$  means the Rebalancing Cost of the Leverage Strategy on Observation Date (t), calculated as follows :

$$RC_{t-1,t} = Leverage \times (Leverage - 1) \times \left( \left| \frac{NTR_t}{NTR_{t-1}} - 1 \right| \right) \times TC$$

means the Transaction Costs applicable (including Stamp Duty and any other applicable taxes, levies and costs which may be levied on the stock transactions on the Relevant Stock Exchange(s) for the Index by the applicable regulatory authorities from time to time) that are currently equal to:

0.02%

"Stamp Duty" refers to the applicable rate of stamp duty on the stock transactions in the jurisdiction of the Relevant Stock Exchange(s) for the Index, which may be changed by the applicable regulatory authorities from time to time.

Leverage 5

NTR<sub>t</sub> means, in respect of each Observation Date(t), the Closing Price of the Index as of such Observation Date(t), subject to the adjustments and provisions of the Conditions.

Rate<sub>t</sub>

means, in respect of each Observation Date(t), a rate calculated as of such day in accordance with the following formula:

 $Rate_t = CashRate_t + \%SpreadLevel_t$ 

CashRate<sub>t</sub>

means, in respect of each Observation Date(t), the US SOFR Secured Overnight Financing Rate, as published on Bloomberg Screen SOFRRATE Index page or any successor page, being the rate as of such Observation Date (t), provided that if any of such rates is not available, then that rate shall be determined by reference to the latest available rate that was published on the relevant Bloomberg page.

%SpreadLevel<sub>t</sub>

0.23%, subject to change by the Issuer on giving 10 Business Days' notice to investors via SGXNet.

ACT(t-1,t)

ACT (t-1;t) means the number of calendar days between the Index Business Day immediately preceding the Observation Date (such Observation Date being noted "t-1") (included) and the Observation Date "t" (excluded).

#### **DayCountBasisRate**

365

#### **Benchmark Fallback**

upon the occurrence or likely occurrence, as determined by the Calculation Agent, of a Reference Rate Event, the Calculation Agent may make adjustments as it may determine appropriate to account for the relevant event or circumstance, including but not limited to using any alternative rates from such date, with or without retroactive effect as the Calculation Agent may in its sole and absolute discretion determine.

#### **Reference Rate Event**

means, in respect of the Reference Rate any of the following has occurred or will occur:

- (i) a Reference Rate Cessation;
- (ii) an Administrator/Benchmark Event; or
- (iii) a Reference Rate is, with respect to over-the-counter derivatives transactions which reference such Reference Rate, the subject of any market-wide development formally agreed upon by the International Swaps and Derivative Association (ISDA) or the Asia Securities Industry & Financial Markets Association (ASIFMA), pursuant to which such Reference Rate is, on a specified date, replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.

#### **Reference Rate Cessation**

means, for a Reference Rate, the occurrence of one or more of the following events:

- (i) a public statement or publication of information by or on behalf of the administrator of the Reference Rate announcing that it has ceased or will cease to provide the Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Reference Rate;
- (ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate, the central bank for the currency of the Reference Rate, an insolvency official with jurisdiction over the administrator for the Reference Rate, a resolution authority with jurisdiction over the administrator for the Reference Rate or a court or an entity with similar insolvency or resolution authority over the administrator for the Reference Rate, which states that the administrator of the Reference Rate has ceased or will cease to provide the Reference Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Reference Rate; or
- (iii) in respect of a Reference Rate, a public statement or publication of information by the regulatory supervisor for the administrator of such Reference Rate announcing that (a) the regulatory supervisor has determined that such Reference Rate is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts;

#### Administrator/Benchmark Event

means, for a Reference Rate, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or the administrator or sponsor of the Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the Reference Rate to perform its or their respective obligations under the Certificates.

Reference Rate(s)

means the rate(s) used in the Leverage Strategy Formula, for example SORA and SOFR.

#### Extraordinary Strategy Adjustment for Performance Reasons ("Air Bag Mechanism")

## Extraordinary Strategy Adjustment for Performance Reasons

If the Calculation Agent determines that an Intraday Restrike Event has occurred during an Observation Date(t) (the Intraday Restrike Date, noted hereafter IRD), an adjustment (an Extraordinary Strategy Adjustment for Performance Reasons) shall take place during such Observation Date(t) in accordance with the following provisions.

(1) Provided the last Intraday Restrike Observation Period as of such Intraday Restrike Date does not end on the TimeReferenceClosing, the Leverage Strategy Closing Level on the Intraday Restrike Date ( $LSL_{IRD}$ ) should be computed as follows:

$$LSL_{IRD} = Max[ILSL_{IR(n)} \times (1 + ILR_{IR(n),IR(C)} - IRC_{IR(n),IR(C)}), 0]$$

(2) If the last Intraday Restrike Event Observation Period on the relevant Intraday Restrike Date ends on the TimeReferenceClosing:

$$LSL_{IRD} = Max[ILSL_{IR(n)}, 0]$$

 $ILSL_{IR(k)} \\$ 

means, in respect of IR(k), the Intraday Leverage Strategy Level in accordance with the following provisions :

$$(1)$$
 for  $k = 1$ :

$$ILSL_{IR(1)} = Max \left[ LSL_{IRD-1} \times \left( 1 + ILR_{IR(0),IR(1)} - FC_{IRD-1,IRD} - IRC_{IR(0),IR(1)} \right), 0 \right]$$

(2) for k > 1:

$$ILSL_{IR(k)} = Max \left[ ILSL_{IR(k-1)} \times \left( 1 + ILR_{IR(k-1),IR(k)} - IRC_{IR(k-1),IR(k)} \right), 0 \right]$$

 $ILR_{IR(k-1),IR(k)} \\$ 

means the Intraday Leveraged Return between IR(k-1) and IR(k), calculated as follows:

$$ILR_{IR(k-1),IR(k)} = Leverage \times \left(\frac{INTR_{IR(k)}}{INTR_{IR(k-1)}} - 1\right)$$

 $IRC_{IR(k-1),IR(k)} \\$ 

means the Intraday Rebalancing Cost of the Leverage Strategy in respect of IR(k) on a given Intraday Restrike Date, calculated as follows:

$$IRC_{IR(k-1),IR(k)} = \text{ Leverage } \times (Leverage - 1) \times \left( \left| \frac{INTR_{IR(k)}}{INTR_{IR(k-1)}} - 1 \right| \right) \times TC$$

INTR<sub>IR(k)</sub>

means the Intraday Reference Price in respect of IR(k) computed as follows:

(1) for k=0

$$INTR_{IR(0)} = NTR_{IRD-1}$$

(2) for k=1 to n

$$INTR_{IR(k)} = NTR_{IRD-1} \times \frac{IPR_{IR(k)}}{PR_{IRD-1} - Div_{IRD}}$$

Where  $\operatorname{Div}_{\text{IRD}}$  represents the dividend on the Intraday Restrike Date, computed as follows :

$$\mathrm{Div}_{\mathrm{IRD}} = \mathrm{PR}_{\mathrm{IRD-1}} - \frac{\mathrm{NTR}_{\mathrm{IRD-1}} \times \mathrm{PR}_{\mathrm{IRD}}}{\mathrm{NTR}_{\mathrm{IRD}}}$$

(3) with respect to IR(C)

$$INTR_{IR(C)} = NTR_{IRD}$$

IPR<sub>IR(k)</sub>

means, in respect of IR(k), the lowest price of the PR Index during the respective Intraday Restrike Observation Period, subject to the adjustments and provisions of the Conditions.

PRIRD

means, in respect of an Intraday Restrike Date, the Closing Price of the PR Index as of such Intraday Restrike Date, subject to the adjustments and provisions of the Conditions.

IR(k)

For k=0, means the scheduled close for the Relevant Stock Exchange for the Index (or any successor thereto) on the Observation Day immediately preceding the relevant Intraday Restrike Date;

For k=1 to n, means the k<sup>th</sup> Intraday Restrike Event on the relevant Intraday Restrike Date.

IR(C)

means the scheduled close for the Relevant Stock Exchange for the Index (or any successor thereto) on the relevant Intraday Restrike Date.

n

means the number of Intraday Restrike Events that occurred on the relevant Intraday Restrike Date.

#### **Intraday Restrike Event**

means in respect of an Observation Date(t), the decrease at any Calculation Time of the PR Index level by 10% or more compared with the relevant PR Index Reference Level as of such Calculation Time.

#### PR Index Reference Level

means in respect of Observation Date(t):

(1) provided no Intraday Restrike Event has previously occurred on such Observation Date(t), the closing price of the PR Index on the immediately preceding Observation Date, subject to the adjustments and provisions of the Conditions;

or

(2) if k Intraday Restrike Events have occurred on the relevant Intraday Restrike Date,  $IPR_{IR(k)}$ .

#### **Calculation Time**

means any time between the TimeReferenceOpening and the TimeReferenceClosing, provided that the relevant data is available to enable the Calculation Agent to determine the Leverage Strategy Level.

#### **TimeReferenceOpening**

means the scheduled opening time for the Relevant Stock Exchange for the Index (or any successor thereto).

#### **TimeReferenceClosing**

means the scheduled closing time for the Relevant Stock Exchange for the Index (or any successor thereto).

### Intraday Restrike Event Observation Period

means in respect of an Intraday Restrike Event, the period starting on and excluding the Intraday Restrike Event Time and finishing on and including the sooner between (1) the time falling 15 minutes after the Intraday Restrike Event Time and (2) the TimeReferenceClosing.

Where, during such period, the Calculation Agent determines that (1) the level of the PR Index is not disseminated by the Index Sponsor or, the Index Calculation Agent, as the case may be or (2) the Relevant Stock Exchange for the Index is not open for continuous trading, the Intraday Restrike Event Observation Period will be extended to the extent necessary until (1) the level of the PR Index is calculated and disseminated by the Index Sponsor or, the Index Calculation

Agent, as the case may be and (2) the Relevant Stock Exchange for the Index is open for continuous trading.

#### **Intraday Restrike Event Time**

means in respect of an Intraday Restrike Event, the Calculation Time on which such event occurs.

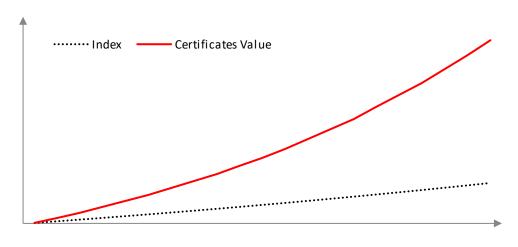

#### APPENDIX II

#### ILLUSTRATION ON HOW RETURNS AND LOSSES CAN OCCUR UNDER DIFFERENT SCENARIOS

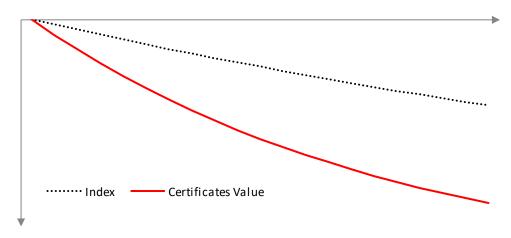

The examples are purely hypothetical and do not take fees and charges payable by investors into consideration. The examples highlight the effect of the Index performance on the value of the Certificates and do not take into account the possible influence of fees or any other market parameters.

#### 1. <u>Illustrative examples</u>

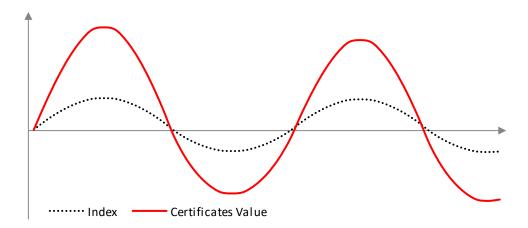

<u>Scenario 1 – Upward Trend (during US trading hours)</u>

<u>Scenario 2 – Downward Trend (during US trading hours)</u>

<u>Scenario 3 – Volatile Market (during US trading hours)</u>

#### 2. <u>Numerical Examples</u>

#### <u>Scenario 1 – Upward Trend</u>

Index

#### APPENDIX III

#### DISCLAIMER OF THE INDEX SPONSOR

The product is not sponsored, endorsed, sold or promoted by S&P Dow Jones Indices LLC, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices") or its third party licensors. Neither S&P Dow Jones Indices nor its third party licensors make any representation or warranty, express or implied, to the owners of the product or any member of the public regarding the advisability of investing in securities generally or in the product particularly or the ability of the S&P 500 (the "Index") to track general market performance. Past performance of an index is not an indication or guarantee of future results. S&P Dow Jones Indices' and its third party licensor's only relationship to licensee with respect to the Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices and/or its licensors. The Index is determined, composed and calculated by S&P Dow Jones Indices or its third party licensors without regard to licensee or product. S&P Dow Jones Indices and its third party licensors have no obligation to take the needs of licensee or the owners of the product into consideration in determining, composing or calculating the Index. Neither S&P Dow Jones Indices nor its third party licensors is responsible for and has not participated in the determination of the prices, and amount of the product or the timing of the issuance or sale of the product or in the determination or calculation of the equation by which the product is to be converted into cash, surrendered or redeemed, as the case may be. S&P Dow Jones Indices and its third party licensors have no obligation or liability in connection with the administration, marketing or trading of the product.

NEITHER S&P DOW JONES INDICES NOR ITS THIRD PARTY LICENSORS GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF THE INDEX OR ANY DATA RELATED THERETO OR ANY COMMUNICATION, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATION (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P DOW JONES INDICES AND ITS THIRD PARTY LICENSORS SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES AND ITS THIRD PARTY LICENSORS MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY LICENSEE, OWNERS OF THE PRODUCT, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR WITH RESPECT TO ANY DATA RELATED THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES OR ITS THIRD PARTY LICENSORS BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND LICENSEE, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.
