

37,500,000 European Style Cash Settled Short Certificates expiring on 20 April 2023 relating to the Hang Seng China Enterprises Index Total Return Index with a Daily Leverage of -5x (the "Certificates")

- The terms set out in this Term Sheet are a summary of, and are subject to the terms and conditions set out in SG Issuer's (the "Issuer") base listing document dated 21 June 2019 (the "Base Listing Document") and the supplemental listing document to be dated on or about 23 April 2020 (the "Supplemental Listing Document", together with the Base Listing Document, the "Listing Documents").
- The Supplemental Listing Document may specify terms which shall, to the extent so specified or to the extent inconsistent with the relevant terms of this Term Sheet, replace or modify the relevant terms for the purpose of this series of Certificates.
- If you are in any doubt on whether Certificates are suitable for you, you should consult your financial advisers or such other professional advisers to the extent that you consider necessary.
- Please read the Listing Documents and the risk factors stated in such Listing Documents and in this Term Sheet carefully. You should not invest in Certificates if you do not understand the risks or are not willing to assume the risks. The Certificates are classified as capital markets products other than prescribed capital markets products¹ and Specified Investment Products (SIPs)², and may only be sold to retail investors with enhanced safeguards, including an assessment of such investors' investment knowledge or experience.
- This Term Sheet does not constitute or form part of any offer, or invitation, to subscribe for or to sell, or solicitation of any offer to subscribe for or to purchase, Certificates or other securities of the Issuer or the Guarantor, nor is it calculated to invite, nor does it permit the making of, offers by the public to subscribe for or purchase for cash or other consideration Certificates or other securities of the Issuer or the Guarantor. This Term Sheet may not be distributed or circulated by you to any person other than in a manner which complies with the restrictions set out in the section entitled "Sales Restrictions" in the Base Listing Document.

⁴ Please note that the Management Fee may be increased up to a maximum of 3% p.a. on giving one month's notice to investors. Any increase in the Management Fee will be announced on the SGXNET. Please refer to the section of the Supplemental Listing Document entitled "Fees and Charges" for further details of the fees and charges payable and the maximum of such fees as well as other ongoing expenses that may be borne by the Certificates.

⁵ These costs are embedded within the Leverage Inverse Strategy.

	preceding the Observation Date (which is "t-1") (included) and the Observation Date (which is "t")
	(excluded).
	If the Issuer determines, in its sole discretion, that on any Observation Date a Market Disruption Event
	has occurred, then that Observation Date shall be postponed until the first succeeding Index Business
	Day on which there is no Market Disruption Event, unless there is a Market Disruption Event on each
	of the five Index Business Days immediately following the original date that, but for the Market
	Disruption Event, would have been an Observation Date. In that case, that fifth Index Business Day
	shall be deemed to be the Observation Date notwithstanding the Market Disruption Event and the
	Issuer shall determine, its good faith estimate of the level of the Leverage Inverse Strategy and the
	value of the Certificate on that fifth Index Business Day in accordance with the formula for and
	method of calculation last in effect prior to the occurrence of the first Market Disruption Event taking
	into account, inter alia, the published level of the Index, the exchange traded or quoted price of each
	security comprised in the Index and the potential increased cost of hedging by the Issuer as a result of
	the occurrence of the Market Disruption Event. Please refer to the "Information relating to the European Style Cash Settled Short Certificates" section
	of the Supplemental Listing Document for examples and illustrations of the calculation of the Hedging
	Fee Factor.
Initial Reference Level	1,000
Final Reference Level	The closing level of the Leverage Inverse Strategy on the Valuation Date.
I mar ivererence Dever	Please refer to Appendix I "Specific Definitions relating to the Leverage Inverse Strategy" for an
	illustration of the calculation of the closing level of the Leverage Inverse Strategy.
Initial Exchange Rate ³	The rate for the conversion of HKD to SGD as at 5:00pm (Singapore Time) on 23 April 2020 as
	shown on Reuters, provided that if the Reuters service ceases to display such information, as
	determined by the Issuer by reference to such source(s) as the Issuer may reasonably determine to be
	appropriate at such a time, which will be specified in the Supplemental Listing Document.
Final Exchange Rate	The rate for the conversion of HKD to SGD as at 5:00pm (Singapore Time) on the Valuation Date as
	shown on Reuters, provided that if the Reuters service ceases to display such information, as
	determined by the Issuer by reference to such source(s) as the Issuer may reasonably determine to be
	appropriate at such a time.
Air Bag Mechanism	The "Air Bag Mechanism" refers to the mechanism built in the Leverage Inverse Strategy and which
	is designed to reduce the Leverage Inverse Strategy exposure to the Index during extreme market
	conditions. If the PR Index rises by 10% or more during the trading day (which represents a 50% loss
	after a 5 times inverse leverage), the Air Bag Mechanism is triggered and the Leverage Inverse Strategy is adjusted intra-day. The Air Bag Mechanism reduces the impact on the Leverage Inverse
	Strategy if the Index rises further, but will also maintain a reduced exposure to the Index in the event
	the Index starts to fall after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup
	losses. Trading of Certificates is suspended for at least 30 minutes after the Air Bag is triggered.
	Please refer to "Product Specific Risks" relating to the Air Bag Mechanism, the "Extraordinary
	Strategy Adjustment for Performance Reasons ("Air Bag Mechanism")" section of Appendix I below,
	and the "Description of Air Bag Mechanism" section of the Supplemental Listing Document for
	further information of the Air Bag Mechanism.
Form	The Certificates will be represented by a global warrant, which will be deposited with the CDP. No
	definitive Warrants will be issued.
Adjustments and	The Issuer has the right to make adjustments to the terms of the Certificates if certain events including
Extraordinary Events	the following take place: if the Index or the PR Index, as the case may be, is calculated and published
	by a successor to the Index Sponsor, the Index or the PR Index, as the case may be, is replaced or
	modified or if the Index Sponsor fails to calculate and publish the Index on the Valuation Date (as more specifically set out in the terms and conditions of the Certificates in the Listing Documents).
Further Issuance	The Issuer may issue further certificates which will form a single series with the existing issue of
Further Issuance	Certificates, subject to the approval of the SGX-ST.
Documents	The Listing Documents are and will be available for inspection during usual business hours on any
Documents	weekday (public holidays excepted) at the following address:
	Société Générale, Singapore Branch, 8 Marina Boulevard, #12-01 Marina Bay Financial Centre Tower
	1, Singapore 018981.
Selling Restrictions	No action has been or will be taken by the Issuer that would permit a public offering of the Certificates
	or possession or distribution of any offering material in relation to the Certificates in any jurisdiction
	where action for that purpose is required. No offers, sales or deliveries of any Certificate or
	distribution of any offering material relating to the Certificates may be made in or from any
	jurisdiction except in circumstances which will result in compliance with any applicable laws or
	regulations.

	C. INFORMATION ON MARKET MAKING
Name of Designated	Société Générale
Market Maker ("DMM") Maximum Bid and Offer	10 ticks or S\$0.20 whichever is greater
Spread	To ticks of 5,00.20 whichever is greater
Minimum Quantity	10,000 Certificates
subject to Bid and Offer	
Spread	
Last Trading Day for	The date falling 5 Exchange Business Days immediately preceding the Expiry Date.
Market Making	
Circumstances where a	The DMM may not provide quotations in the following circumstances:
Quote will/may not be	(i) during the pre-market opening and five minutes following the opening of the SGX-ST on any
provided	trading day;
	 (ii) if the Certificates are valueless (where the Issuer's bid price is below the minimum bid size fo such securities as prescribed by the SGX-ST);
	(iii) before the Relevant Stock Exchange for the Index has opened and after the Relevant Stock
	Exchange for the Index has closed on any trading day and trading in the securities constituting
	the Index has ceased for such trading day;
	(iv) when trading in the Index is suspended or limited in a material way for any reason, for the
	avoidance of doubt, the DMM is not obliged to provide quotations for the Certificates at any time
	when the Index is not negotiated/traded for any reason;
	(v) where the Certificates are suspended from trading for any reason including, but without
	limitation, as a result of trading in the securities or derivatives relating to or constituting the Index
	being suspended, trading of options or futures relating to the Index on any options or future exchanges being suspended, or options or futures generally on any options and/or future
	exchanges on which options relating to the Index are traded being suspended, or if the Index fo
	whatever reason is not calculated;
	(vi) market disruption events, including, without limitation, (i) any suspension of or limitation
	imposed on trading (including but not limited to unforeseen circumstances such as by reason o
	movements in price exceeding limits permitted by the SGX-ST or any act of God, war, riot
	public disorder, explosion, terrorism or otherwise) in securities or derivatives relating to o
	constituting the Index, options or futures relating to the Index on any options or future
	exchanges or options or futures generally on any options and/or futures exchanges on which
	options relating to the Index are traded and (ii) any failure from the Index Sponsor to compute publish and disseminate the level of the Index or the PR Index or material limitation to access th
	level of the PR Index or Index;
	(vii) where the Issuer or the DMM faces technical problems affecting the ability of the DMM to
	provide bids and offer quotations;
	(viii) where the ability of the Issuer to source a hedge or unwind an existing hedge, as determined by
	the Issuer in good faith, is materially affected by the prevailing market conditions, and the Issue
	informs the SGX-ST of its inability to do so as soon as practicable;
	(ix) in cases where the Issuer has no Certificates to sell, then the DMM will only provide the bid
	price;
	 (x) if the stock market experiences exceptional price movement and volatility; (xi) when it is a public holiday in Singapore and/or Hong Kong and/or the SGX-ST and/or the HKEX
	is not open for dealings; and
	(xii) during the suspension of trading of Certificates after an Air Bag Mechanism has been triggered.
	D. PRODUCT SUITABILITY
WHO IS THIS PRODUCT S	
	ble for investors who believe that the level of the Index will fall and are seeking short-term leverage

- This product is <u>only</u> suitable for investors who believe that the level of the Index will fall and are seeking short-term leveraged inverse exposure to the Index. The Certificates are classified as Specified Investment Products (SIPs), and may only be sold to retail investors with enhanced safeguards, including an assessment of such investors' investment knowledge or experience.
- This product should be only considered for intraday trading and short term investment periods due to its leveraged inverse exposure and the daily compounding, which may lead to a performance different from 5 times the inverse performance of the Index over a period longer than one day.

Therefore, the certificates. Do note that tes prior to such date. our entire investment in

You should note that if trading in the securities or derivatives relating to or constituting the Index is suspended, trading of options or futures relating to the Index on any options or futures exchanges is suspended, or options or futures generally on any options and/or futures exchanges on which options or futures relating to the Index are traded is suspended, or if the Index for whatever reason is not calculated, trading in the relevant Certificates may be suspended for a similar period.

• The value of certain index constituents may not be included in the closing level of the Index

The closing level of the Index may be the settlement price for settling the relevant index futures and options contracts as determined by the Relevant Stock Exchange. Thus, if it occurs at a time when one or more securities or derivatives comprised in the Index are not trading and there is no Market Disruption Event under the terms of the Certificates then the value of such securities or derivatives will not be included in the closing level of the Index.

• Issuer may make adjustments to the terms and conditions of the Certificates

Certain events relating to the PR Index or the Index or PR Index components or Index components permit the Issuer to make certain determinations in respect of the PR Index or the Index or PR Index components or Index components, such as an adjustment to the Cash Settlement Amount necessary to take account of any material change in the method of calculation of the Index.

• You may be exposed to an exchange rate risk

There may be an exchange rate risk where the Cash Settlement Amount is converted from a foreign currency into Singapore Dollars.

• You will be exposed to leveraged risks

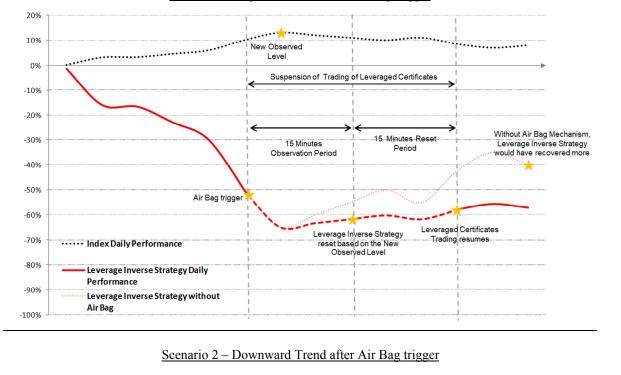

losses.

If the investment results in a loss, any such loss will be increased by the leverage factor of the Certificates. Consequently you could lose more than you would if you invested directly in the Index, or securities or derivatives comprised in the Index.

• Product performance may differ from 5 times the inverse performance of the Index over a period longer than one day When held for longer than a day, product performance could be more or less than the leverage factor that is embedded within the Certificates. The performance each day is locked in, and any subsequent returns are based on what was achieved the previous day. This process, referred to as compounding, may lead to a performance difference from 5 times the inverse performance of the securities or derivatives comprised in the Index over a period longer than one day. This difference may be amplified in a voltile market with a sideway trend, where market movements are not clear in direction, whereby investors may sustain substantial

• When triggered, the Air Bag Mechanism may reduce the ability for the product to recoup losses

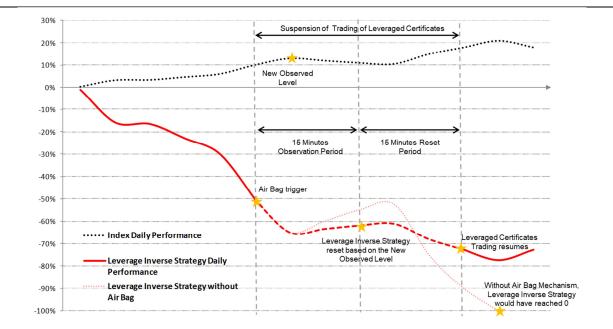

Investors should note that the Air Bag Mechanism reduces the impact on the Leverage Inverse Strategy if the Index rises further, but will also maintain a reduced exposure to the Index in the event the Index starts to fall after the Air Bag Mechanism is triggered, thereby reducing its ability to recoup losses. Investors should note that the performance of the Leverage Inverse Strategy will be the inverse of the Index. Illustrative examples of the Air Bag Mechanism are set out below.⁶

⁶ The illustrative examples are not exhaustive.

Kow Terme Sheat for Structured Warrants to be issued by SC Issuer

• There is no assurance that the Air Bag Mechanism will prevent investors from losing the entire value of their investment. There is no assurance that the Air Bag Mechanism will prevent investors from losing the entire value of their investment, in the event of (i) an overnight increase in the Index, where there is a 20% or greater gap between the previous day closing level and the opening level of the Index the following day, as the Air Bag Mechanism will only be triggered when market opens the following day or (ii) a sharp intraday increase in the Index of 20% or greater within the 15 minutes Observation Period compared to the reference level, being: (a) if air bag event has not been previously triggered on the same day, the previous closing level of the Index, or (b) if one or more air bag events have been previously triggered on the same day, the latest New Observed Level.

• The Certificates may be cancelled by the Issuer The Certificates may be cancelled at the discretion of the Issuer under certain circumstances, on giving notice to investors in accordance with the terms and conditions of the Certificates. Any money received by an investor on cancellation of the Certificates, which will be at the mark to market price, may be less than the capital initially invested by the investor, resulting in a loss to the investor.

Issuer Related Risks

• You are exposed to the credit risk of the Issuer and the Guarantor

The Certificates constitute general and unsecured obligations of the Issuer and of no other person, and the guarantee provided by the Guarantor constitutes general unsecured obligations of the Guarantor and of no other person. If you purchase the Certificates, you are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights under the Certificates against any other person. You should note that the Issuer issues a large number of financial instruments, including Certificates, on a global basis and at any given time, the financial instruments outstanding may be substantial.

- Conflicts of interest may arise from the overall activities of the Issuer, the Guarantor and their subsidiaries or affiliates The Issuer, the Guarantor and any of their subsidiaries and affiliates are diversified financial institutions that engage in a wide range of commercial and investment banking, brokerage, funds management, hedging transactions and investment and other activities for their own account or the account of others. In addition, the Issuer, the Guarantor and any of their subsidiaries and/or affiliates, in connection with their other business activities, may possess or acquire material information about the securities or derivatives related to the Index and/or the Index. Such activities and information may involve or otherwise affect issuers of the securities or derivatives related to the Index and/or the Index in a manner that may cause consequences adverse to investors in the Certificates or otherwise create conflicts of interests in connection with the issue of Certificates by the Issuer.
- Hedging or market-making activities by the Issuer, the Guarantor and their subsidiaries or affiliates may affect the Certificates

In connection with hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer, the Guarantor and any of their respective subsidiaries and affiliates, the Issuer, the Guarantor and any of their respective subsidiaries and affiliates may enter into transactions in the components of the Index or related securities or derivatives which may affect the market price, liquidity or value of the Certificates and which may affect the interests of investors in the Certificates.

F. FEES AND CHARGES WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

- Normal transaction and brokerage fees apply, similar to fees that you would pay for other transactions on SGX-ST.
- Investors holding their position overnight will also incur the annualised cost (which consists of the Management Fee and Gap Premium, which are calculated daily and applied to the value of the product as well as certain costs embedded within the Leverage Inverse Strategy including the Stock Borrowing Cost and Rebalancing Cost). The Management Fee and Gap Premium will be published on the website at <u>dlc.socgen.com</u> and updated daily.

APPENDIX I

SPECIFIC DEFINITIONS RELATING TO THE LEVERAGE INVERSE STRATEGY

Description of the Leverage Inverse Strategy

The Leverage Inverse Strategy is designed to track a 5 times daily leveraged inverse exposure to the Index.

At the end of each trading day of the Index, the exposure of the Leverage Inverse Strategy to the Index is reset within the Leverage Inverse Strategy in order to retain a daily leverage of 5 times the inverse performance of the Index (excluding costs) regardless of the performance of the Index on the preceding day. This mechanism is referred to as the Daily Reset.

The Leverage Inverse Strategy incorporates an air bag mechanism which is designed to reduce exposure to the Index during extreme market conditions, as further described below.

Leverage Inverse Strategy Formula

LSLt

means, for any Observation Date(t), the Leverage Inverse Strategy Closing Level as of such day (t).

Subject to the occurrence of an Intraday Restrike Event, the **Leverage Inverse Strategy Closing Level** as of such Observation Date(t) is calculated in accordance with the following formulae:

On Observation Date(1):

 $LSL_1 = 1000$

On each subsequent Observation Date(t):

 $LSL_{t} = Max[LSL_{t-1} \times (1 + LR_{t-1,t} - FC_{t-1,t} - SB_{t-1,t} - RC_{t-1,t}), 0]$

LR_{t-1,t} means the Leveraged Return of the Index between Observation Date(t-1) and Observation Date(t) closing levels, calculated as follows :

$$LR_{t-1,t} = Leverage \times \left(\frac{TR_t}{TR_{t-1}} - 1\right)$$

FC_{t-1,t} means, the Funding Cost between Observation Date(t-1) (included) and Observation Date(t) (excluded) calculated as follows :

$$FC_{t-1,t} = (Leverage - 1) \times \frac{Rate_{t-1} \times ACT(t - 1, t)}{DayCountBasisRate}$$

means the Stock Borrowing Cost between Observation Date(t-1) (included) andSB_{t-1,t}Observation Date(t) (excluded) calculated as follows :

$$SB_{t-1,t} = -Leverage \times \frac{CB \times ACT(t-1,t)}{DayCountBasisRate}$$

CB means the Cost of Borrowing applicable that is equal to :

0.90%

 $\mathbf{RC}_{t-1,t}$

means the Rebalancing Cost of the Leverage Inverse Strategy on Observation Date (t), calculated as follows :

$$RC_{t-1,t} = Leverage \times (Leverage - 1) \times \left(\left| \frac{TR_t}{TR_{t-1}} - 1 \right| \right) \times TC$$

тс

means the Transaction Costs applicable (including Stamp Duty) that are equal to :

0.	1	0	%
----	---	---	---

Leverage	-5
TR _t	means, in respect of each Observation Date(t), the Closing Price of the Index as of such Observation Date(t), subject to the adjustments and provisions of the Conditions.
Rate _t	means, in respect of each Observation Date(t), the Overnight HKD Hong Kong Interbank Offered Rate (HIBOR) Fixing, as published on Reuters RIC HIHKDOND= or any successor page, being the rate as of day (t), provided that if any of such rate is not available, then that rate shall be determined by reference to the latest available rate that was published on the relevant Reuters page.
ACT(t-1,t)	ACT (t-1;t) means the number of calendar days between the Index Business Day immediately preceding the Observation Date (which is "t-1") (included) and the Observation Date (which is "t") (excluded).
DayCountBasisRate	365
Extraordinary strategy adjustme	nt for performance reasons ("air bag mechanism")
Extraordinary Strategy Adjust for Performance Reasons	
	(1) Provided the last Intraday Restrike Observation Period as of such Intraday Restrike Date does not end on the TimeReferenceClosing, the Leverage Inverse Strategy Closing Level on the Intraday Restrike Date (LSL _{IRD}) should be computed as follows :
	$LSL_{IRD} = Max[ILSL_{IR(n)} \times (1 + ILR_{IR(n),IR(C)} - IRC_{IR(n),IR(C)}), 0]$
	(2) If the last Intraday Restrike Event Observation Period on the relevant Intraday Restrike Date ends on the TimeReferenceClosing:
	$LSL_{IRD} = Max[ILSL_{IR(n)}, 0]$
ILSL _{IR(k)}	means, in respect of $IR(k)$, the Intraday Leverage Inverse Strategy Level in accordance with the following provisions :
	(1) for k = 1 :
	$ILSL_{IR(1)} = Max[LSL_{IRD-1} \times (1 + ILR_{IR(0),IR(1)} - FC_{IRD-1,IRD} - SB_{IRD-1,IRD} - IRC_{IR(0),IR(1)}), 0]$
	(2) for k > 1 :
	$ILSL_{IR(k)} = Max \left[ILSL_{IR(k-1)} \times \left(1 + ILR_{IR(k-1),IR(k)} - IRC_{IR(k-1),IR(k)} \right), 0 \right]$
ILR _{IR(k-1),IR(k)}	means the Intraday Leveraged Return between IR(k-1) and IR(k), calculated as follows :
	$ILR_{IR(k-1),IR(k)} = Leverage \times \left(\frac{ITR_{IR(k)}}{ITR_{IR(k-1)}} - 1\right)$
$IRC_{IR(k-1),IR(k)}$	means the Intraday Rebalancing Cost of the Leverage Inverse Strategy in respect of IR(k) on a given Intraday Restrike Date, calculated as follows :

$$IRC_{IR(k-1),IR(k)} = Leverage \times (Leverage - 1) \times \left(\left| \frac{ITR_{IR(k)}}{ITR_{IR(k-1)}} - 1 \right| \right) \times TC$$

	$\langle \Pi R(k-1) \rangle \rangle$
ITR _{IR(k)}	means the Intraday Reference Price in respect of IR(k) computed as follows :
	(1) for k=0
	$ITR_{IR(0)} = TR_{IRD-1}$
	(2) for k=1 to n
	$ITR_{IR(k)} = TR_{IRD-1} \times \frac{IPR_{IR(k)}}{PR_{IRD-1} - Div_{IRD}}$
	Where $\mathrm{Div}_{\mathrm{IRD}}$ represents the dividend on the Intraday Restrike Date, computed as follows :
	$Div_{IRD} = PR_{IRD-1} - \frac{TR_{IRD-1} \times PR_{IRD}}{TR_{IRD}}$
	(3) with respect to IR(C)
	$ITR_{IR(C)} = TR_{IRD}$
IPR _{IR(k)}	means, in respect of IR(k), the highest price of the PR Index during the respective Intraday Restrike Observation Period, subject to the adjustments and provisions of the Conditions.
PR _{IRD}	means, in respect of an Intraday Restrike Date, the Closing Price of the PR Index as of such Intraday Restrike Date, subject to the adjustments and provisions of the Conditions.
IR(k)	For k=0, means the scheduled close for the Relevant Stock Exchange for the Index (or any successor thereto) on the Observation Day immediately preceding the relevant Intraday Restrike Date;
	For k=1 to n, means the k th Intraday Restrike Event on the relevant Intraday Restrike Date.
IR(C)	means the scheduled close for the Relevant Stock Exchange for the Index (or any successor thereto) on the relevant Intraday Restrike Date.
n	means the number of Intraday Restrike Events that occurred on the relevant Intraday Restrike Date.
Intraday Restrike Event	means in respect of an Observation Date(t), the increase at any Calculation Time of the PR Index level by 10% or more compared with the relevant PR Index Reference Level as of such Calculation Time.
PR Index Reference Level	means in respect of Observation Date(t):
	(1) provided no Intraday Restrike Event has previously occurred on such Observation Date(t), the closing price of the PR Index on the immediately preceding Observation Date, subject to the adjustments and provisions of the Conditions;
	or
	(2) if k Intraday Restrike Events have occurred on the relevant Intraday Restrike Date, $IPR_{IR(k)}.$
Calculation Time	means any time between the TimeReferenceOpening and the TimeReferenceClosing, provided that the relevant data is available to enable the Calculation Agent to determine the Leverage Inverse Strategy Level.
TimeReferenceOpening	means the scheduled opening time for the Relevant Stock Exchange for the Index (or any successor thereto).
TimeReferenceClosing	means the scheduled closing time for the Relevant Stock Exchange for the Index (or any successor thereto).

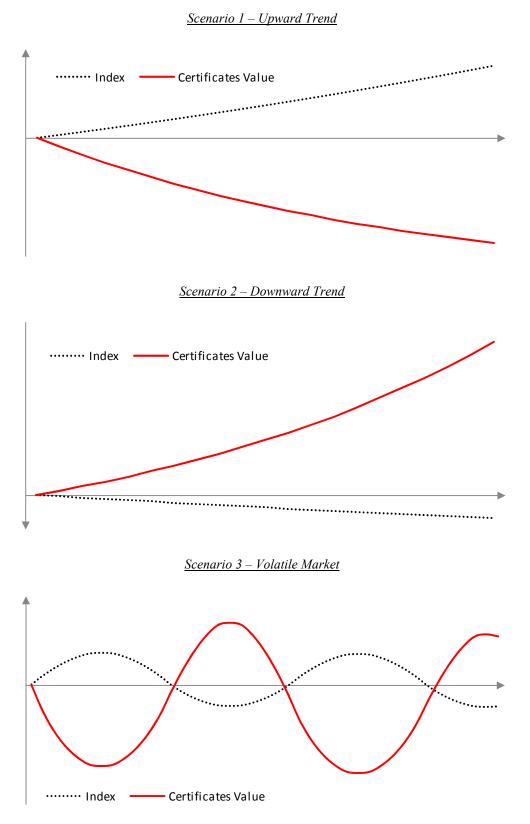

Intraday Restrike Event Observation Period	means in respect of an Intraday Restrike Event, the period starting on and excluding the Intraday Restrike Event Time and finishing on and including the sooner between (1) the time falling 15 minutes after the Intraday Restrike Event Time and (2) the TimeReferenceClosing.
	Where, during such period, the Calculation Agent determines that (1) the level of the PR Index is not disseminated by the Index Sponsor or, the Index Calculation Agent, as the case may be or (2) the Relevant Stock Exchange for the Index is not open for continuous trading, the Intraday Restrike Event Observation Period will be extended to the extent necessary until (1) the level of the PR Index is calculated and disseminated by the Index Sponsor or, the Index Calculation Agent, as the case may be and (2) the Relevant Stock Exchange for the Index is open for continuous trading.
Intraday Restrike Event Time	means in respect of an Intraday Restrike Event, the Calculation Time on which such event occurs.

APPENDIX II

ILLUSTRATION ON HOW RETURNS AND LOSSES CAN OCCUR UNDER DIFFERENT SCENARIOS

The examples are purely hypothetical and do not take fees and charges payable by investors into consideration. The examples highlight the effect of the Index performance on the value of the Certificates and do not take into account the possible influence of fees or any other market parameters.

APPENDIX III

DISCLAIMER OF THE INDEX SPONSOR

The Hang Seng China Enterprises Index Total Return Index (the "Index") is published and compiled by Hang Seng Indexes Company Limited pursuant to a licence from Hang Seng Data Services Limited. The mark and name "Hang Seng China Enterprises Index Total Return Index" are proprietary to Hang Seng Data Services Limited. Hang Seng Indexes Company Limited and Hang Seng Data Services Limited have agreed to the use of, and reference to, the Index by SG ISSUER in connection with the Certificates (the "Product"), BUT NEITHER HANG SENG INDEXES COMPANY LIMITED NOR HANG SENG DATA SERVICES LIMITED WARRANTS OR REPRESENTS OR GUARANTEES TO ANY BROKER OR HOLDER OF THE PRODUCT OR ANY OTHER PERSON (i) THE ACCURACY OR COMPLETENESS OF THE INDEX AND ITS COMPUTATION OR ANY INFORMATION RELATED THERETO; OR (ii) THE FITNESS OR SUITABILITY FOR ANY PURPOSE OF THE INDEX OR ANY COMPONENT OR DATA COMPRISED IN IT: OR (iii) THE RESULTS WHICH MAY BE OBTAINED BY ANY PERSON FROM THE USE OF THE INDEX OR ANY COMPONENT OR DATA COMPRISED IN IT FOR ANY PURPOSE, AND NO WARRANTY OR REPRESENTATION OR GUARANTEE OF ANY KIND WHATSOEVER RELATING TO THE INDEX IS GIVEN OR MAY BE IMPLIED. The process and basis of computation and compilation of the Index and any of the related formula or formulae, constituent stocks and factors may at any time be changed or altered by Hang Seng Indexes Company Limited without notice. TO THE EXTENT PERMITTED BY APPLICABLE LAW, NO RESPONSIBILITY OR LIABILITY IS ACCEPTED BY HANG SENG INDEXES COMPANY LIMITED OR HANG SENG DATA SERVICES LIMITED (i) IN RESPECT OF THE USE OF AND/OR REFERENCE TO THE INDEX BY SG ISSUER IN CONNECTION WITH THE PRODUCT: OR (ii) FOR ANY INACCURACIES, OMISSIONS, MISTAKES OR ERRORS OF HANG SENG INDEXES COMPANY LIMITED IN THE COMPUTATION OF THE INDEX; OR (iii) FOR ANY INACCURACIES, OMISSIONS, MISTAKES, ERRORS OR INCOMPLETENESS OF ANY INFORMATION USED IN CONNECTION WITH THE COMPUTATION OF THE INDEX WHICH IS SUPPLIED BY ANY OTHER PERSON; OR (iv) FOR ANY ECONOMIC OR OTHER LOSS WHICH MAY BE DIRECTLY OR INDIRECTLY SUSTAINED BY ANY BROKER OR HOLDER OF THE PRODUCT OR ANY OTHER PERSON DEALING WITH THE PRODUCT AS A RESULT OF ANY OF THE AFORESAID, AND NO CLAIMS, ACTIONS OR LEGAL PROCEEDINGS MAY BE BROUGHT AGAINST HANG SENG INDEXES COMPANY LIMITED AND/OR HANG SENG DATA SERVICES LIMITED in connection with the Product in any manner whatsoever by any broker, holder or other person dealing with the Product. Any broker, holder or other person dealing with the Product does so therefore in full knowledge of this disclaimer and can place no reliance whatsoever on Hang Seng Indexes Company Limited and Hang Seng Data Services Limited. For the avoidance of doubt, this disclaimer does not create any contractual or guasi-contractual relationship between any broker, holder or other person and Hang Seng Indexes Company Limited and/or Hang Seng Data Services Limited and must not be construed to have created such relationship.
